GENERAL STUDIES

ACADEMIC POLICIES

- Academic Policies for undergraduates of the Columbia University School of General Studies (p. 4).
- Academic Policies for students in the Columbia University Postbaccalaureate Premedical Program (p. 404).

ARCHIVED BULLETIN AND ACADEMIC POLICIES

GS UNDERGRADUATES

2017-2018 | ACADEMIC POLICIES

Academic policies are set by the Faculty of Arts and Sciences and the academic administration of individual schools within the Arts and Sciences.

Students in the School of General Studies are expected to familiarize themselves with GS policies. Students seeking clarity on academic policies relevant to or beyond those stated on the GS website should consult with their respective GS advisors.

EVENING COURSES

The School of General Studies shares its courses with the other Arts & Sciences divisions of the University. The majority of the courses are day classes, although there are significant evening offerings as well. Students can find both introductory and advanced courses offered in the evening, many of which will fulfill core requirements or count toward major requirements. While every Arts & Sciences department offers some evening courses, including sequences of courses in the sciences and some foreign languages, in general it is not possible to fully complete a major by attending evening classes only, and GS students should not count on this as a viable option.

IDENTIFYING EVENING COURSES

Students can search for courses that meet at particular times on specific week days by using the course search tool (http://bulletin.columbia.edu/general-studies/undergraduates/courses).

KEY TO COURSE LISTINGS

Each course number consists of one or two letters denoting the offering university division or target population, as shown in the chart below, followed by four digits denoting the course number (e.g., ENGL GU4103).

For GS students, the most common course prefixes are GS, GU, and UN.

<table>

<tr>
<td>0</td>
<td>Course that cannot be credited toward any degree</td>
</tr>
</tbody>
</table>

In the four-digit course number, the first digit signifies the level of the course, as follows:

- 1000s: Introductory undergraduate course
- 2000s: Intermediate undergraduate course
- 3000s and 4000s: Advanced undergraduate course
- 5000-9000s: Graduate-level courses

Two consecutive numbers joined by a hyphen show that the course runs through both the fall and spring terms (e.g., HIST UN1091-1092).

The courses offered by each department are arranged in ascending numerical order, with the number of points of academic credit following the title of the course.
# Newly Approved Courses

Hundreds of new courses are added to the Columbia undergraduate curriculum each year. So that students may be apprised of these offerings, new courses are collected on this page. Students are encouraged to check back periodically to review these new offerings.

Students may accelerate their progress to the degree by taking required and/or elective courses during Columbia’s Summer Term (http://ce.columbia.edu/summer/columbia-students), which runs from late May through mid-August. Given the intensive nature of these courses, as well as the fact that the summer term includes courses that do not count toward the degree, GS students are cautioned to choose their summer term classes in consultation with their GS academic advisors, who will provide advance approval of their summer course selections.

GS students may take a maximum of 15 points for the entire summer term, with no more than nine points in either of the six-week sessions or in overlapping sessions. Students should consult with their departments for specific policies or course restrictions when taking courses to be applied toward their major.

With the exception of a small number of courses approved by the Premedical Committee, premedical students are strongly advised against taking their required science courses in the summer. Medical schools generally prefer that coursework be completed during the regular terms of enrollment; the Postbaccalaureate Premedical Program does not permit students to enroll in science classes in the summer, except to take preparatory courses, math, laboratory courses, and the twelve-week Physics II and General Chemistry II courses. The reason for this restriction is a concern that the compressed schedule of summer classes is a less effective way to learn and leaves students ill-prepared for subsequent courses and for the MCAT. Premedical students should make sure they have the approval of their premed advisors prior to enrolling in summer term science courses.

For more information about taking summer courses as a GS student, including information about fulfilling core and major requirements, please see below.

Colloquia, Interdepartmental Seminars, and Professional School Offerings

Occasionally, and for a variety of reasons, faculty offer courses outside of the existing structure of Arts and Sciences academic departments. Such courses may be colloquia: team-taught interdisciplinary courses; interdepartmental seminars explicitly offered by two or more academic departments; or undergraduate-specific courses offered by faculty outside of the Arts and Sciences. All of these courses may be counted toward the undergraduate degree, but it is for the faculty of each department or program to determine whether or not they can count toward a major or concentration.

Degree Fulfillment

The Bachelor’s Degree

General Studies students earn a Bachelor of Arts degree (B.A.). The Bachelor of Arts combines breadth of study in a range of subjects and disciplines, represented by the core requirements, with specialization in a major field of study. Whether they major in the sciences, humanities, or social sciences, all GS students receive a B.A. degree.

To qualify for a bachelor’s degree, students are required to complete 124 points with a minimum grade point average of 2.0. The 124 points are distributed among three general categories: core requirements, major requirements, and electives. GS students are required to complete a major in order to graduate. See Majors and Concentrations for details about individual major programs.

The Core

The Core Requirements

When today’s GS students enroll in core courses, they know they are taking part in one of the University’s longest standing educational traditions. With courses focusing on philosophical inquiry, artistic expression, and scientific investigation, the Core transcends disciplinary boundaries and asks students to pursue themes across national frontiers and historical epochs. Flexibility within the Core allows students to choose from several departments to fulfill specified core requirements in science, literature, humanities, foreign language, quantitative reasoning, and social sciences, thereby encouraging them to explore new areas of inquiry, develop their intellectual interests, and situate their knowledge within the age-old tradition of Western thought while reflecting critically about this tradition and its place in global history.

Select the option that states when you matriculated or will matriculate as a student in the School of General Studies.

The Core (http://bulletin.columbia.edu/general-studies/undergraduates/degree-fulfillment/core/core) (for students starting after Summer 2012)

The Core Pre-Summer 2012 (http://bulletin.columbia.edu/general-studies/undergraduates/degree-fulfillment/core/pre-summer-requirements) (for students who started before Summer 2012)

Distribution Requirements Before 2003 (http://bulletin.columbia.edu/general-studies/undergraduates/degree-fulfillment/core/distribution-requirements) (for students who started before 2003)

Core Registration and Petitions

All students are strongly encouraged to consult their academic advisors before making any decisions regarding their Core registration. Registration for Core courses takes place online during the regular course registration periods (http://gs.columbia.edu/academic-calendar).
CORE PETITIONS

Students who wish to register for a fully enrolled section of Art Humanities or Music Humanities will be unable to do so via SSOL (http://ssol.columbia.edu). However, they may file a petition at the Center for the Core Curriculum (http://www.college.columbia.edu/core/center) located in 202 Hamilton Hall.

The Core Registration Petition period runs from the first Tuesday of classes to the following Monday. The last day to drop a Core class is the Friday of the second week of classes. Visit the GS Academic Calendar (http://gs.columbia.edu/academic-calendar) for specific dates.

University Writing

Students are not guaranteed a section change and can only be accommodated in the case of a schedule conflict with other Core or required courses. Students are advised not to contact University Writing professors directly as sections cannot be modified by course instructors.

Literature Humanities and Contemporary Civilization

Students enrolled in Literature Humanities or Contemporary Civilization in the fall will have their registration automatically rolled over into the spring semester by the Registrar.

If the "GS" sections of Literature Humanities or Contemporary Civilization are full, students may not petition to add into any of the "CC" sections. This rule is strictly enforced by the Core Curriculum Office and no petitions are accepted.

THE CORE

STUDENTS WHO START AFTER SUMMER 2012

The Core provides the foundation for a traditional liberal arts degree, assuring that students develop their critical and analytical skills by exposing them to a broad range of requirements from multiple disciplines. Flexibility within the Core allows students to choose from several different departments to fulfill specified core requirements in science, literature, humanities, foreign language, quantitative reasoning, and social sciences, thereby encouraging them to explore new areas of inquiry and refine their intellectual interests. The Core is largely aligned with the Core Curriculum of Columbia College, with the Core offering additional flexibility.

Core Requirements Checklist (http://gs.columbia.edu/files/gs/core-checklist-website.pdf)

General Rules

1. Only courses of 3 or more points taken for a letter grade can fulfill core requirements.
2. Courses used to satisfy a core requirement must be completed with a letter grade of D or above; courses graded “Pass” do not fulfill core requirements.
3. Independent study cannot be used to fulfill a core requirement.
4. AP credit cannot be used to fulfill a core requirement, except for foreign languages.
5. GS advisors determine whether a transfer course satisfies a core requirement.
6. GS advisors must approve all courses, including summer-term courses, used to fulfill a core requirement.
7. No single course may be used to satisfy more than one core requirement, with the following exceptions:
   • Frontiers of Science (SCNC CC1000)
   • Symbolic Logic (PHIL UN3411)
   • Courses in computer science, mathematics, and statistics, which may be used to fulfill both the science and quantitative reasoning requirements
8. Students may count two courses from their major department toward the fulfillment of the core requirements; the limit on overlap is two, even if a student is a double major.

Courses counted toward a departmental concentration may simultaneously fulfill core requirements as long as the total number of overlapping classes from the major and/or concentration counted to the core does not exceed two.
9. No more than two courses from any one department may be used to fulfill core requirements.
10. Students must take at least one course toward fulfillment of core requirements each semester until the core requirements are completed.
11. Students may not drop the University Writing, Contemporary Civilization, Literature, Art, or Music Humanities courses after the end of the Change of Program Period without a special petition to the GS Committee on Academic Standing. Students who wish to discuss the petition process should consult their GS advisor. Students will be billed for courses dropped after the Change of Program Period deadline—the second Friday of each semester—at the full-tuition rate (https://gs.columbia.edu/tuition-and-fees-chart).

THE CORE

• Writing (p. 14)
• Literature/Humanities (p. 14)
• Foreign Language (p. 15)
• Art Humanities (p. 15)
• Music Humanities (p. 16)
• Global Core (p. 16)
• Contemporary Civilization/Social Science (p. 22)
• Quantitative Reasoning (p. 23)
• Science (p. 24)

WRITING

University Writing Course GS1010 is required of all GS students in their first semester as it facilitates students’ entry into the intellectual life of Columbia by helping them become more capable and independent academic readers and writers. With its small section size and emphasis on the writing process, revision, critical analysis, collaboration, and research, the course provides an occasion for students to develop academic habits and skills important to their success in future courses. Students learn how to formulate arguments, support them with evidence, and set them down in clear and persuasive prose.

In planning their first semesters of study at Columbia, GS students should start by choosing a section of University Writing that fits their schedules. Themed sections are designated by the unique section numbers outlined below.

Non-native English speakers must reach level 10 in the American Language Program prior to registering for University Writing.

Courses of Instruction
• Sections below 100: UW: Contemporary Essays, GS1010.0xx
• Sections in the 100s: UW: Readings in American Studies, GS1010.1xx
• Sections in the 200s: UW: Readings in Gender and Sexuality, GS1010.2xx
• Sections in the 300s: UW: Readings in Sustainable Development, GS1010.3xx
• Sections in the 400s: UW: Readings in Human Rights, GS1010.4xx
• Sections in the 500s: UW: Readings in Data Sciences and Engineering, GS1010.5xx
• Sections in the 900s: University Writing for International Students, GS1010.9xx

LITERATURE/HUMANITIES

The literature/humanities requirement is fulfilled by the completion of at least one literature course at Columbia and either an additional literature course or a course in the humanities. In addition to the rich variety of courses offered by the Department of English and Comparative Literature, students may choose from among the many literature courses found in Columbia’s foreign language and literature departments.

Masterpieces of Western Literature and Philosophy

GS students may elect to take the two-semester sequence in Masterpieces of Western Literature and Philosophy, HUMA GS1001-HUMA GS1002 (commonly known as "Lit Hum"), to fulfill the literature/humanities requirement. This year-long course is particularly recommended for students who are planning to major in English literature or philosophy. Refer to/Print (http://www.college.columbia.edu/core/sites/core/files/pages/2017-18%20LIT%20HUM%20SYLLABUS.pdf) the 2017-2018 Masterpieces of Western Literature and Philosophy syllabus.

The acclaimed Literature Humanities core sequence exposes students to some of the most influential literary works in the Western tradition. In works of drama, history, and epic, among other genres, students see how writers across the centuries have explored the great themes of human life. The course’s chronological approach introduces students to literary works in the order that they were written, allowing them to trace the development of philosophical ideas alongside the development of literary forms, and to discover how the works of one era will often anticipate the concerns and achievements of a later age.

Literature Requirement

To fulfill a literature requirement, a course must focus exclusively on the study of poetry, fiction, drama, or related genres. Courses on literature in translation, as well as literature courses in foreign languages at the 3000 level or above, may satisfy the literature requirement. Courses that focus primarily on literary theory, film, music, creative writing, or other non-literary interdisciplinary topics may not count for the literature requirement, even though they may be taught within the Department of English and Comparative Literature.

Humanities Requirement

A course from one of the following departments or interdisciplinary programs may count to the humanities requirement. In foreign language departments, only courses at the 3000 level or above, excluding courses focused on language instruction, may apply.

• Archaeology
• Architecture
• Art History and Archaeology
• Classics
• English and Comparative Literature
• Film Studies
• Germanic Languages
• History*
• Italian
• Music
• Philosophy
• Religion
• Slavic Languages
• Spanish and Portuguese

*Courses from the Department of History may be counted toward the social science or the humanities requirement, but in no case may more than two courses from one department be used to fulfill Core requirements

Interdisciplinary Programs
The following interdisciplinary programs offer courses in both humanities and social sciences. GS advisors must determine the appropriate category for a course when taken to satisfy a core requirement.

• African-American Studies
• American Studies
• Ethnicity and Race Studies
• Comparative Literature and Society
• East Asian Languages and Cultures
• Hispanic Studies
• Human Rights
• Jewish Studies
• Latin American and Caribbean Studies
• Medicine, Literature, and Society
• Middle Eastern, South Asian, and African Studies
• Women’s and Gender Studies

GS students may also elect to take the two-semester course Contemporary Civilization, COCI GS1101-COCI GS1102, to fulfill one social science (http://bulletin.columbia.edu/general-studies/undergraduates/degree-fulfillment/core/core/contemporary-civilization-social-sciences) and one humanities requirement.

Note: Only the first semester of Contemporary Civilization may be applied to either the humanities requirement or the social science requirement (but not both). The second semester may only be applied to the social science requirement

FOREIGN LANGUAGE
The study of a foreign language often opens up a whole new way of seeing, understanding, and describing the world. Today’s students should not be limited by a single language, but should be able to think and communicate in a language other than their native tongue. The Core requires that all candidates for the bachelor’s degree demonstrate competence in a second language at or beyond the intermediate level. In order to achieve this level of fluency and encourage more advanced language study, students are expected to reach intermediate-level proficiency by the time they have reached senior standing. Intermediate-level proficiency in a foreign language is assessed in one of the following ways:

• An appropriate score on the SAT II subject test or Advanced Placement test, taken before matriculation to GS, as determined by relevant departments for specific languages
• Demonstrating intermediate-level competence on the language placement test administered by relevant departments or programs. Language placement tests must be taken within the first two semesters of study at GS, or, in cases where a student undertakes language study as part of a Columbia-approved study abroad program, at the beginning of the next term of enrollment after returning from study abroad.
• Approved transfer credits in foreign language study showing intermediate-level proficiency (usually two years of study)
• The satisfactory completion of the intermediate level of a language sequence at Columbia, as determined by the relevant department (the fourth term of a language, usually denoted as course number “1202”)
• Completing secondary education in another country in a language other than English

Native speakers of languages other than English must take a language placement test within two semesters of matriculating at GS to demonstrate their language proficiency. If a placement test in a particular language is not available at Columbia, students should speak with their respective GS advisors about alternative testing arrangements. Students diagnosed with a language learning disability must register with the Office of Disability Services (http://health.columbia.edu/disability-services) in order to be considered for an accommodation for the foreign language requirement.

Students should speak with their GS advisors soon after matriculating at GS to discuss how they will satisfy this requirement. Because the language requirement may take four semesters to fulfill, students who have not satisfied the requirement by placement test, AP score, or transfer credit are required to begin their language study no later than their second year at GS, and to continue enrollment in language courses each semester until the requirement has been met.

Students interested in study abroad (p. 400) may also begin or complete their core foreign language study in numerous summer study abroad foreign language immersion programs.

ART HUMANITIES
Embracing architecture, sculpture, and painting, the Art Humanities core courses teach students how to view and discuss the visual arts and their place in the history of civilization. Frequent visits to New York’s museums, private
collections, and architectural sites bring students face to face with many of the world’s most celebrated masterpieces. Students learn to respond intelligently to a variety of artistic genres by developing analytical skills and a conceptual framework for interpretation.

GS students must fulfill the Art Humanities requirement by taking one of the following:

- **HUMA UN1121** (http://bulletin.columbia.edu/search/?P=HUMA%20UN1121) Masterpieces of Western Art (Master Syllabus [https://arthum.college.columbia.edu/sites/default/files/arthum_master_syllabus.pdf])
- **AHUM UN2604** (http://bulletin.columbia.edu/search/?P=AHUM%20UN2604) Art In China, Japan, and Korea
- **AHUM UN2901** (http://bulletin.columbia.edu/search/?P=AHUM%20UN2901) Masterpieces of Indian Art and Architecture
- **AHUM UN2800** (http://bulletin.columbia.edu/search/?P=AHUM%20UN2800) Arts of Islam: The First Formative Centuries (circa 700-1000)

**Note:** If the art humanities requirement is fulfilled with Masterpieces of Western Art (UN1121) or an approved, equivalent transfer course, students should not take Barnard Art History 1001 or 1002, as this constitutes a duplication of coursework and thus would not count toward the GS degree.

**Exemption from the Art Humanities Requirement**

Although all Columbia students are required to take Art Humanities, there are some students who may obtain an exemption by filing a course substitution request. Students who wish to request exemption of “Masterpieces of Western Art” based on a course substitution must obtain an Art Humanities Exemption Request form from the Core Curriculum Office (202 Hamilton) or the GS Dean of Students Office. Exemption must be requested during the student’s first semester at Columbia. Petitions submitted in subsequent semesters will not be considered by the Core Curriculum Office. Deadlines: November 1 for Fall matriculates, March 1 for Spring matriculates.

**Music Humanities**

Music Humanities fosters students’ appreciation of music as a distinctive art form with its own expressive resources, evolution, and national traditions. By listening to recordings and attending live performances in New York’s famous concert venues, students gain exposure to a wide range of forms. Students learn to respond intelligently to a variety of musical idioms by developing analytical skills and a conceptual framework for interpretation while engaging in discussions about the character and purpose of music throughout human history.

GS students must fulfill the music humanities requirement by taking one of the following:

- **Masterpieces of Western Music** (HUMA UN1123)
- **Introduction To the Musics of East Asia and Southeast Asia** (AHMM UN3320)
- **Introduction To the Musics of India and West Asia** (AHMM UN3321)

**Exemption from the Music Humanities Requirement**

Although all Columbia students are required to take Music Humanities, there are some students who enter with exceptional musical backgrounds that may qualify them for exemption. Exemption from music humanities may be obtained by passing an exemption exam. In the case of transfer students, exemption from the music humanities requirement may also be obtained by filing a course substitution request.

**Exemption Exam**

The music humanities exemption exam is offered on the first Friday of the fall semester by the Music Department (621 Dodge Hall). Students who matriculate in the spring semester should take the exam in the following fall term. Students may take the exam only once during their first year at Columbia. If they do not pass the exam, they must enroll in a section of Music Humanities.

**Course Substitution**

In addition to the exemption exam, students with approved transfer credit have the option of requesting exemption on the basis of a similar music course passed with a grade of B or higher at another college or university. This exemption must be requested during the student’s first semester at Columbia. Petitions submitted in subsequent semesters will not be considered by the Core Curriculum Office. Deadlines: November 1 for Fall matriculates, March 1 for Spring matriculates.

**Global Core**

The Global Core courses ask students to stand outside the Western tradition and encounter cultures that have flourished in other parts of the world, including Africa, Asia, the Americas, and the Middle East. Drawing on primary texts and artifacts—including texts, films, ritual performances, and oral sources—the offerings in the Global Core invite students
to think deeply about the predicates and values of different societies and systems of belief.

Global Core courses fall into two categories: those that focus on a specific culture or civilization, tracing its appearance and/or existence across a significant span of time and sometimes across more than one present-day country or region, and those that address several world settings or cultures comparatively (which may include Europe and the West), in terms of a common theme, a set of analytic questions, or interactions between different world regions that are interdisciplinary, temporally or spatially expansive.

All GS students must complete two courses from the Global Core List of Approved Courses for a letter grade. Columbia students who study abroad in an approved program and who take a course that fulfills the aims of the Global Core may petition to have the course count toward the Global Core requirement (https://www.college.columbia.edu/sites/default/files/global_core_petition_form_04.07.16.pdf).

**CURRENT LISTS OF APPROVED GLOBAL CORE COURSES**

CLRS GU4022 Russia and Asia: Orientalism, Eurasianism, Internationalism

GEOR GU4042 Cultural History: A Georgian Case Study (Effective beginning Spring 2017)

CLRS W4190 Race, Ethnicity, and Narrative, in the Russian/Soviet Empire

Sociology

SOCI UN3324 Global Urbanism

Theatre

THTR UN3154 Theatre Traditions in a Global Context (formerly THTR UN3000)

All Approved Courses: Offered Abroad

Last update: 3/1/18

Note: Not all courses are taught each academic year. Below is the full list of all courses offered abroad through Columbia-sponsored programs that are approved for the Global Core requirement, regardless of semester offered. For more information, consult the Office of Global Programs.

Center for the Study of Ethnicity and Race

CSER OC3928 Colonization/Decolonization (Effective beginning Summer 2017 semester; taught in Mexico City)

Columbia in Amman and Paris: Middle Eastern and North African Studies (MENA) Program

MENA OC4100 Migration, Displacement, and Diaspora in the French and North African Context (taught in Paris, Effective beginning Summer 2017 semester; formerly "Maghreb-Mashrek: East and West"

Columbia Global Seminar in Istanbul

Not offered during the Spring 2018 semester

CLGM OC3545 Comparative Democratic Politics (Effective beginning Summer 2015 semester; taught in Istanbul)

Slavic Languages- Office of Global Programs

Not offered during the Spring 2018 semester

CLSL OC4001 The Muslim and the Christian in Balkan Narratives (Effective beginning Summer 2016 semester; taught in Istanbul)

Reid Hall in Paris

FREN OC3817 Black Paris (Effective beginning Spring 2017 semester; taught in Paris)

FREN OC3821 "Blackness" In French: from Harlem to Paris and Beyond (Effective beginning Summer 2018)

WMST OC3550 Women and Society - The Sex Trade Economy (Effective Spring 2016 semester; will not be offered Spring 2018 semester; taught in Paris)

Contemporary Civilization/Social Science

Courses in the social sciences provide students with a basis for understanding social systems and the interactions of individuals and societies. Students are required to take two courses selected from the social sciences offerings.

Contemporary Civilization, COCI GS1101-COCI GS1102, gives students the chance to engage directly with some of the key political and philosophical texts in the history of Western thought. Students discover how, across the centuries, thinkers have struggled with certain central questions: What does it mean to be human? What constitutes a good society? What is the relationship between power and authority? How can we reconcile our aspirations to justice and our lived experience of inequality? When is revolution justified, and what happens when and if it goes awry?

Students can also select two social science courses from the following departments and programs or aforementioned interdisciplinary programs to fulfill the social sciences core requirement:

- Anthropology
- Economics
- History*
- Political Science
- Psychology
  - Columbia psychology courses at the 2600-, 3600-, or 4600- level
• Barnard College psychology courses except Statistics (PSYC BC1101)

• Sociology
• Challenges of Sustainable Development (SDEV UN2300); check with your advisor about other courses listed under this interdisciplinary program that may fulfill the social sciences requirement

GS students may elect to take the two-semester course Introduction to Contemporary Civilization, COCI GS1101-COCI GS1102, commonly called “Contemporary Civilization” or “CC” to fulfill the social science requirement. Refer to/Print (http://bulletin.columbia.edu/general-studies/undergraduates/degree-fulfillment/core/core/ContemCiv_Syllabus_2016-2017.pdf) the 2016-2017 syllabus for Contemporary Civilization.

*Courses from the Department of History may be counted toward the social science or humanities requirement, but in no case may more than two courses from one department be used to fulfill core requirements.

**Interdisciplinary Programs**

The following interdisciplinary programs offer courses in both humanities and social sciences. GS advisors must determine the appropriate category for a course when taken to satisfy a core requirement.

• African-American Studies
• American Studies
• Comparative Ethnic Studies
• Comparative Literature and Society
• East Asian Languages and Cultures
• Ethnicity and Race Studies
• Hispanic Studies
• Human Rights
• Jewish Studies
• Latin American and Caribbean Studies
• Middle East, South Asian, and African Studies
• Women’s and Gender Studies

**Quantitative Reasoning**

Courses that fulfill the quantitative reasoning (QR) core requirement aim to develop critical skills in quantitative analysis and deductive reasoning, which are particularly relevant to the study of science and the social sciences.

The QR requirement can be fulfilled by the following means:

• Scoring a minimum of 600 on the Math SAT or 27 on the math subsection of the ACT within the last eight years prior to matriculation;
• Earning a passing score on the GS Quantitative Reasoning Exam (https://gs.columbia.edu/placement-exams/#qr);
• Earning a passing letter grade in a course from the list of approved courses (http://bulletin.columbia.edu/general-studies/undergraduates/degree-fulfillment/core/core/quantitative-reasoning/#approved);
• Approved transfer credit for computer science, mathematics, or statistics courses that are
  a. taken within the last eight years prior to matriculation
  b. equivalent to those on the list of approved courses below, as determined by the Dean of Students Office.

Students who have not fulfilled the quantitative reasoning requirement through standardized scores or transfer credit may take the GS Quantitative Reasoning Exam during or prior to Orientation Week.

Based on the QR exam results, GS advisors will help students choose a course from the GS-approved list of quantitative reasoning courses. When choosing a QR course, students must ensure that they have reviewed and have met the specified prerequisites for the course prior to enrollment.

**Computer Science, Economics, Mathematics, and Statistics Courses**

Any course selected from the following departments fulfills the quantitative reasoning requirement when passed with a satisfactory letter grade:

• Computer Science (except S1021D, S1022Q)
• Economics (Columbia department only)
• Mathematics
• Statistics

Approved Columbia courses in computer science, mathematics, and statistics may count toward both the QR requirement and the science requirement. Approved transfer credit for a course in computer science, mathematics, and statistics may count toward both the QR and science requirements as well; however, the course must have been taken within the last eight years prior to matriculation to satisfy the QR requirement.

College Algebra and Analytic Geometry (MATH UN1003) (or the equivalent) may count toward the QR requirement only.

**Frontiers of Science**

The goal of this course is to introduce students to the way scientists think. As they delve into questions drawn from fields as varied as neuroscience and astrophysics, students learn why scientists cultivate a sense of scale, why they like to convert data to graphs, and why they are so careful to differentiate correlation from causation. Along the way, students are invited
to think about how science might contribute answers to old
questions (what is the place of our species in the universe?) and
new ones (is continued industrialization an environmentally
sustainable proposition?)

Frontiers of Science (SCNC CC1000) satisfies both the QR
requirement and one course of the science requirement when
passed with a letter-grade of C or above. To enroll in Frontiers
of Science, students must meet at least one of the following
requirements:

- Score of 16 or higher on the GS Quantitative Reasoning
  Exam
- SAT Math score of 600 or higher within the last three years
- ACT Math score of 27 or higher within the last three years

**LIST OF APPROVED QR COURSES**

The following Columbia courses have been approved as
satisfying the QR requirement if completed with a satisfactory
letter grade. (BC indicates a Barnard College course.) This
list is updated annually. If a particular quantitative reasoning
course does not appear on the list, students should ask their
respective GS advisors about its appropriateness for the
requirement. *Equivalent transfer courses may not count
toward the QR requirement.*

**Note:** Barnard students are given preference for enrollment in
Barnard courses that may fulfill the QR requirement. Barnard
courses that fulfill a core requirement will not necessarily count
toward a major at Columbia if a student chooses to major or
concentrate in one of these fields. (See individual departments
concerning courses approved and required for the major.)

* **N.B.:** The italicized text on the course description page for
BC1007 regarding calculus requirements for economics
majors applies to Barnard College students only.

**SCIENCE**

The core science requirement aims to develop critical awareness
of the methods and limits of scientific inquiry, while fostering
observational and analytical skills, particularly in reference
to the natural and physical world. When choosing a science
course, students should make sure they have reviewed and met
the specified prerequisites for the course prior to enrollment.

Students who are considering careers in science-related fields,
including health-related professions, are urged to begin
their study of science within the first two semesters after
matriculation at GS.

To fulfill the science requirement, students must successfully
complete three courses selected from two of the following
Columbia departments or from the list of approved courses
(p. 24) below, no more than two of which should be from
the same department:

- Astronomy
- Biological Sciences
- Chemistry
- Earth and Environmental Sciences (Columbia department
  only)
- Ecology, Evolution, and Environmental Biology
- Physics
- Psychology (Columbia department only, excluding courses
  numbered at the 2600, 3600, or 4600 level)

**LIST OF APPROVED SCIENCE COURSES**

The list of approved courses that fulfill the science requirement
includes recommended sequences, science courses for non-
science majors, and approved courses from departments not
listed above and Barnard.

- Frontiers of Science (SCNC CC1000) satisfies both
  the QR requirement and one course of the science
  requirement when passed with a letter-grade of C or above.

The principal objectives of Frontiers of Science are to engage
students in the process of discovery by exploring topics at the
forefront of science and to inculcate or reinforce the specific
habits of mind that inform a scientific perspective on the
world. Sample topics include the evolution of human language,
brain dynamics, global climate change, the nanoworld, and
biodiversity, among others.

Frontiers of Science satisfies one of the three required courses of
the core science requirement.
GS students interested in taking this course should have earned a minimum score of 16 on the GS Quantitative Reasoning Exam, and should also read the first chapter of the electronic textbook *Scientific Habits of Mind* and take the self-exam prior to enrolling in the course.

**Courses Designed For Nonscience Majors**

**Recommended Sequences:**

- PSYC UN1001 - PSYC UN1010 The Science of Psychology and Mind, Brain and Behavior
- PSYC UN1001 The Science of Psychology (and any PSYC course numbered 22xx or 24xx)
**Note:** Students electing to take Human Origins and Evolution (EEEB UN1010) and Behavioral Biology of the Living Primates (EEEB UN1011) as a sequence are recommended, but not required, to take EEEB UN1010 before EEEB UN1011.

**Note:** 2600-, 3600-, or 4600-level psychology courses may not be used to fulfill the science requirement.

***Note:** The Science of Psychology (PSYC UN1001) or Mind, Brain and Behavior (PSYC UN1010) must be taken as a prerequisite to any psychology course numbered 22xx or 24xx.

### Additional Courses Approved for the Science Requirement

Most of the following courses have required prerequisites and/or require instructor approval. Prerequisite and instructor approval requirements can be found in the course descriptions for each course on the department website.

#### Astronomy ASTR
- Any 3-point course numbered 2000 or higher

#### Biology BIOL
- Any 3-point course numbered 2000 or higher

#### Chemistry CHEM
- CHEM UN1403 General Chemistry I (Lecture)
- CHEM UN1404 General Chemistry II (Lecture)
- CHEM UN1500 General Chemistry Laboratory
- CHEM UN1604 Intensive General Chemistry (Lecture)
- CHEM UN2507 Intensive General Chemistry Laboratory
- Any 3-point course numbered 3000 or higher

#### Computer Science COMS
- COMS W1004 Introduction to Computer Science and Programming in Java
- COMS W1005 Introduction to Computer Science and Programming in MATLAB
- ENGI E1006 Introduction to Computing for Engineers and Applied Scientists
- COMS W1007 Honors Introduction to Computer Science
- Any 3-point course numbered 3000 or higher

#### Computing Science - Philosophy (CSPH)
- CSPH G4801 Mathematical Logic I
- CSPH G4802 Math Logic II: Incompleteness

#### Earth and Environmental Sciences EESC
- EESC UN2100 Earth’s Environmental Systems: The Climate System
- EESC UN2200 Earth’s Environmental Systems: The Solid Earth System
- EESC UN2300 Earth’s Environmental Systems: The Life System
- Any 3-point course numbered 3000 or higher

#### Ecology, Evolution, and Environmental Biology EEEB
- EEEB UN2001 Environmental Biology I: Elements to Organisms
- EEEB UN2002 Environmental Biology II: Organisms to the Biosphere
- EEEB UN3087 Conservation Biology
- Any 3-point course numbered 3000 or higher except EEEB GU4321 or EEEB GU4700

#### Mathematics MATH
- Any 3-point course numbered 1100 or higher

#### Physics PHYS
- PHYS UN1201 General Physics I
- PHYS UN1202 General Physics II
- PHYS UN1401 Introduction To Mechanics and Thermodynamics
- PHYS UN1402 Introduction To Electricity, Magnetism, and Optics
- PHYS UN1403 Introduction to Classical and Quantum Waves
- PHYS UN1601 Physics, I: Mechanics and Relativity
- PHYS UN1602 Physics, II: Thermodynamics, Electricity, and Magnetism
- Any 3-point course numbered 2000 or higher

#### Psychology PSYC
- Any 3-point course numbered 32xx, 34xx, 42xx, or 44xx

#### Statistics STAT
- Any 3-point course except STAT W3997
- *Note:* 2600-, 3600-, or 4600-level psychology courses may not be used to fulfill the science requirement.
- **Note:** These courses may serve as a second term of a recommended sequence starting with Mind, Brain and Behavior (PSYC UN1010) or The Science of Psychology (PSYC UN1001).

### Special Summer Program

The following special program fulfills two of the three terms of the science requirement.

#### Earth Institute Center for Environmental Sustainability [EICES]
- Summer Ecosystem Experience for Undergraduates (SEE-U) (http://eices.columbia.edu/education-training/see-u): Locations change yearly. Check with the center in the spring semester for details.
PRE-SUMMER 2012
CORE
FOR STUDENTS WHO STARTED BEFORE SUMMER 2012

The Core provides the foundation for a traditional liberal arts education, assuring that students develop critical skills in writing and quantitative reasoning while exposing them to a range of knowledge and disciplines. Flexibility within the Core allows students to choose from several different departments to fulfill specified core requirements in science, literature, humanities, foreign language, and social sciences, thereby encouraging students to explore new areas of inquiry and develop their intellectual interests.

Continuing GS students who have not met the cultural diversity requirement will have until the start of the Spring 2013 semester to decide whether to opt for the new GS core requirements academic policy (Post-Summer 2012 (p. 13)) or complete the existing cultural diversity requirement.

GENERAL RULES

1. Only courses of 3 or more points taken for a letter grade can fulfill core requirements.
2. Courses used to satisfy a core requirement must be completed with a letter grade of D or above; courses graded “Pass” do not fulfill core requirements.
3. Independent study cannot be used to fulfill a core requirement.
4. AP credit cannot be used to fulfill a core requirement, except for foreign languages.
5. GS advisors determine whether a transfer course satisfies a core requirement.
6. GS advisors must approve all courses, including summer-term courses, used to fulfill a core requirement.
7. No single course may be used to satisfy more than one core requirement, with the following exceptions:
   • the cultural diversity requirement; applies only to students who started before Summer 2012.
   • Symbolic Logic (PHIL UN3411);
   • courses in computer science, mathematics, and statistics, which may be used to fulfill both the Science and Quantitative Reasoning requirements.
8. Students may count two courses from their major department toward the fulfillment of core requirements; the limit on overlap is two, even if a student is a double major. Courses counted toward a departmental concentration may simultaneously fulfill core requirements, but only if no courses from the major have been used to do the same. A student may also use one course from a concentration to fulfill a core requirement and one course from a major to fulfill a core requirement, as long as the total number of overlapping classes from the major and/or concentration counted to the GS core does not exceed two.
   (Since the premedical concentration is not considered a departmental concentration, it is exempt from this policy.)
9. No more than two courses from any one department may be used to fulfill core requirements.
10. Students must take at least one course toward fulfillment of core requirements each semester until the core requirements are completed.
11. Students may not drop the University Writing, Contemporary Civilization, Literature, Art, or Music Humanities courses after the end of the Change of Program Period without a special petition to the GS Committee on Academic Standing. Students who wish to discuss the petition process should consult their GS advisors. Students will be billed for courses dropped after the Change of Program Period deadline—the second Friday of each semester—at the full tuition rate (http://gs.columbia.edu/tuition-and-fees-chart).

THE GS CORE

• Writing (p. 27)
• Foreign Language (p. 28)
• Literature (p. 28)
• Humanities (p. 29)
• Art Humanities (p. 29)
• Music Humanities (p. 30)
• Social Sciences (p. 30)
• Quantitative Reasoning (p. 31)
• Science (p. 32)
• Cultural Diversity (p. 35)

WRITING PRE-SUMMER 2012

University Writing (ENGL GS1010), required of all GS students in their first semester, facilitates students’ entry into the intellectual life of Columbia by helping them to become more capable and independent academic readers and writers. With its small section size and emphasis on the writing process, revision, critical analysis, collaboration, and research, the course provides an occasion for students to develop academic habits and skills important to their success in future courses.

In planning their first semesters of study at Columbia, GS students should start by choosing a section of English GS1010 that fits their schedules.
Non-native English speakers must reach level 10 in the American Language Program prior to registering for English GS1010.

In exceptional cases, a student may be permitted to enroll in University Writing during their second semester of study at GS.

Undergraduate Writing Program website (http://www.college.columbia.edu/core/uwp)

**FOREIGN LANGUAGE PRE-SUMMER 2012**

The study of a foreign language often opens up a whole new way of seeing, understanding, and describing the world. Today’s students should not be limited by a single language, but should be able to think and communicate in a language other than their native tongues. GS requires that all candidates for the bachelor’s degree demonstrate competence in a second language at or beyond intermediate level. In order to achieve this level of fluency and encourage more advanced language study, students are expected to reach intermediate-level proficiency by the time they have reached junior standing. Intermediate-level proficiency in a foreign language is assessed in one of the following ways:

- An appropriate score on the SAT II subject test or Advanced Placement test, taken before matriculation to GS, as determined by relevant departments for specific languages;
- Demonstrating intermediate-level competence on the language placement test administered by relevant departments or programs. Language placement tests must be taken within the first two semesters of study at GS, or, in cases where a student undertakes language study as part of a Columbia-approved study abroad program, at the beginning of the next term of enrollment after returning from study abroad;
- Approved transfer credits in foreign language study showing intermediate-level proficiency (usually two years of study);
- The satisfactory completion of an intermediate level of a language sequence at Columbia, as determined by the relevant department (the fourth term of a language, usually denoted as course number “1202”);
- Completing secondary education in another country in a language other than English.

Native speakers of languages other than English must take a language placement test within two semesters of matriculating at GS to demonstrate their language proficiency. If a placement test in a particular language is not available at Columbia, students should speak with their GS advisors about alternative testing arrangements. Students diagnosed with a language learning disability must register with the Office of Disability Services (http://health.columbia.edu/disability-services) in order to be considered for an accommodation for the foreign language requirement.

Students should speak with their respective GS advisors soon after matriculating at GS to discuss how they will satisfy the foreign language requirement. The foreign language requirement may take four semesters to fulfill, as such students who have not met the requirement by placement test, AP score, or transfer credit are required to begin their language study no later than their second year at GS, and to continue enrollment in language courses each semester until the requirement has been met.

Students interested in study abroad (p. 400) may also begin or complete their core foreign language study in numerous summer study abroad foreign language immersion programs.

**LITERATURE PRE-SUMMER 2012**

Literature courses expose students to writers recognized for their ability to convey ideas, feelings, and images through the power and play of words. The study of literature provides students with an opportunity to deepen their critical reading and writing skills.

The literature requirement is fulfilled by the completion of two literature courses, one of which must be taken at Columbia. In addition to the rich variety of courses offered by the Department of English and Comparative Literature, students may choose from among the many literature courses found in Columbia’s foreign language and literature departments as well as from the list of special GS colloquia.

Courses on literature in translation, as well as literature courses in foreign languages at the 3000 level or above, may satisfy the literature requirement. Students may also elect to take the two-semester course Masterpieces of Western Literature and Philosophy, HUMA GS1001-HUMA GS1002, to fulfill the literature or humanities requirement (p. 29). The course is particularly recommended for students who are planning to major in English literature or Philosophy.

To fulfill the literature requirement, the course must focus exclusively on the formal study of poetry, fiction, drama, or related literary genres. Courses that focus primarily on literary theory, film, music, creative writing, or other non-literary interdisciplinary topics may not count for the literature requirement, even though they may be taught within the Department of English and Comparative Literature.
Humanities Pre-Summer 2012

Humanities courses offer ways to understand the development of cultures and how the human experience is expressed in art, music, literature, architecture, drama, and religion. Students are required to take two courses selected from the humanities offerings.

Students must select two humanities courses from the following departments or interdisciplinary programs to count toward the humanities requirement. In foreign language departments, only courses at the 3000 level or above, excluding courses focused on language instruction, may count to the humanities requirement.

- Archaeology
- Architecture
- Art History and Archaeology
- Classics
- English and Comparative Literature
- Film and Media Studies
- French and Francophone Studies
- Germanic Languages
- History*
- Italian
- Music
- Philosophy
- Religion
- Slavic Languages
- Spanish and Portuguese

*Courses from the Department of History may be counted toward the social science or the humanities requirement, but in no case may more than two courses from one department be used to fulfill Core requirements.

GS students may elect to take the two-semester course Masterpieces of European Literature and Philosophy, HUMA GS1001-HUMA GS1002 (commonly known as "Lit Hum"), to fulfill the humanities or literature requirement (p. 28). This year-long course is highly recommended for students considering a major in English literature or philosophy.

GS students may also elect to take the two-semester course Contemporary Civilization, COCI GS1101-COCI GS1102, to fulfill one social science (p. 30) and one humanities requirement. This year-long course is highly recommended for students planning to major in political science.

Interdisciplinary Programs

The following interdisciplinary programs offer courses in both humanities and social sciences. GS advisors must determine the appropriate category for a course when taken to satisfy a core requirement.

- African Studies
- African-American Studies
- American Studies
- Asian American Studies
- Comparative Ethnic Studies

- Middle East, South Asian, and African Studies
- Women’s and Gender Studies

Art Humanities Pre-Summer 2012

The art humanities core courses are designed to awaken and encourage in students an appreciation of art, to help them learn to respond intelligently to a variety of artistic genres by developing analytical skills and a conceptual framework for interpretation, and to engage students in debates about the character and purpose of art throughout human history.

GS students must fulfill the art humanities requirement by taking one of the following:

- HUMA UN1121 Masterpieces of Western Art

Note: If the art humanities requirement is fulfilled with HUMA UN1121 or an approved, equivalent transfer course, students should not take Barnard Art History 1001 or 1002, as this constitutes a duplication of coursework and thus would not count toward the GS degree.

- AHUM UN2604 Art In China, Japan, and Korea
- AHUM UN2901 Masterpieces of Indian Art and Architecture
- AHUM V3343 Masterpieces of Islamic Art and Architecture

Exemption from the Art Humanities Requirement

Although all Columbia students are expected to fulfill the art humanities core requirement, there are some students who may obtain an exemption by filing a course substitution request.

Students who have passed a similar art course with a grade of B or higher at another college or university may submit a course exemption request. Exemption is given only for courses substantially equivalent to Masterpieces of Western Art (seminar-style classes, with an emphasis on analytical viewing and historical-cultural context), not for lecture courses. While
exemption is rarely granted, in the past students petitioning on the basis of similar courses taken at Emory University, New York University, CUNY-Baruch College, Hampshire College, and Sarah Lawrence College have been granted an exemption.

Students who wish to request exemption based on course substitution must obtain an Art Humanities Exemption Request form from the Core Curriculum Office (202 Hamilton) or the GS Dean of Students Office. Exemption must be requested during the student’s first semester at Columbia.

**Music Humanities Pre-Summer 2012**

The music humanities core courses are designed to awaken and encourage in students an appreciation of music; to help them learn to respond intelligently to a variety of musical idioms by developing analytical skills and a conceptual framework for interpretation; and to engage students in debates about the character and purpose of music throughout human history.

GS students must fulfill a music humanities requirement by taking one of the following:

- HUMA UN1123 Masterpieces of Western Music
- AHMM UN3320 Introduction To the Musics of East Asia and Southeast Asia
- AHMM UN3321 Introduction To the Musics of India and West Asia

**Exemption from the Music Humanities Requirement**

Although all Columbia students are expected to fulfill the music humanities core requirement, there are some students who enter with exceptional musical backgrounds that may qualify them for exemption. Exemption from the music humanities requirement may be obtained by passing an exemption exam. In the case of transfer students, exemption may also be obtained by filing a course substitution request.

**Exemption Exam**

The exemption exam is offered on the first Friday of the fall semester by the Music Department (621 Dodge Hall). Students who matriculate in the spring semester should take the exam in the following fall term. Students may take the exam only once during their first year at Columbia. If they do not pass the exam, students must enroll in a section of Music Humanities.

**Course Substitution**

In addition to the music exemption exam, students with approved transfer credit have the option of requesting exemption on the basis of a similar music course passed with a grade of B or higher at another college or university. This exemption must be requested during the student’s first semester at Columbia.

**Social Sciences Pre-Summer 2012**

Courses in the social sciences provide students with a basis for understanding social systems and the interactions of individuals and societies. Students are required to take two courses selected from the social sciences offerings listed below or from appropriate interdisciplinary programs to fulfill the social sciences requirement:

- Anthropology
- Economics
- History*
- Political Science
- Psychology
  - Columbia psychology courses at the 2600-, 3600-, or 4600- level.
  - Any of the following Barnard psychology courses:
    - PSYC BC1001 Introduction to Psychology
    - PSYC BC1123 Psychology of Personality
    - PSYC BC1125 Psychology of Personality
    - PSYC BC1136 Social Psychology
    - PSYC BC1138 Social Psychology
    - PSYC BC2134 Educational Psychology
    - PSYC BC2141 Abnormal Psychology
    - PSYC BC2151 Organizational Psychology
    - PSYC BC2156 Introduction to Clinical Psychology
    - PSYC BC2158 (Human Motivation)
    - PSYC BC3152 Psychological Aspects of Human Sexuality
    - PSYC BC3153 Psychology and Women
    - PSYC BC3155 Psychology and Law
    - PSYC BC3162 Introduction to Cultural Psychology
    - PSYC BC3165 The Social Self
    - PSYC BC3166 Social Conflict
    - PSYC BC3170 Introduction to Psychoanalysis
    - PSYC BC3177
    - PSYC BC3373 Health Psychology
    - PSYC BC3379 Psychology of Stereotyping and Prejudice
    - PSYC BC3382 Adolescent Psychology
    - PSYC BC3465 Field Work and Research Seminar: The Barnard Toddler Center
    - PSYC BC3466 Field Work and Research Seminar: The Barnard Toddler Center
PSYC BC3473  Field Work Seminar in Psychological Services and Counseling

- Sociology
- Challenges of Sustainable Development (SDEV UN2300); check with your advisor about other courses listed under this interdisciplinary program that may fulfill the social sciences requirement

GS students may also elect to take the two-semester course Contemporary Civilization, COCI GS1101-COCI GS1102, to fulfill one social science and one humanities requirement (p. 29). This year-long course is highly recommended for students planning to major in political science.

Courses from the Department of History may be counted toward the social science or the humanities requirement, but in no case may more than two courses from one department be used to fulfill core requirements.

INTERDISCIPLINARY PROGRAMS

The following interdisciplinary programs offer courses in both humanities and social sciences. GS advisors must determine the appropriate category for a course when taken to satisfy a core requirement.

- African-American Studies
- American Studies
- Ethnicity and Race Studies
- Comparative Literature and Society
- East Asian Languages and Cultures
- Hispanic Studies
- Human Rights
- Jewish Studies
- Latin American and Caribbean Studies
- Medicine, Literature, and Society
- Middle Eastern, South Asian, and African Studies
- Women’s and Gender Studies

QUANTITATIVE REASONING PRE-SUMMER 2012

Courses that fulfill the quantitative reasoning (QR) requirement aim to develop skills in quantitative analysis and deductive reasoning, which are particularly relevant to the study of science and the social sciences.

The quantitative reasoning requirement can be fulfilled through the following means:

- Scoring a minimum of 600 on the Math SAT or 27 on the math subsection of the ACT within the last eight years prior to matriculation;
- Earning a passing score on the Quantitative Reasoning Exam (https://gs.columbia.edu/placement-exams/#qr);
- Earning a passing letter grade in a course from the list of approved courses (p. 32);
- Approved transfer credit for computer science, mathematics, or statistics courses that are 1) taken within the last eight years prior to matriculation and 2) equivalent to those on the list of approved courses below, as determined by the Dean of Students Office.

Students who have not fulfilled the quantitative reasoning requirement through standardized scores or transfer credit are required to take the Quantitative Reasoning Exam during or prior to Orientation Week.

Based on the QR test results, GS advisors will help students choose a course from the GS-approved list of quantitative reasoning courses. When choosing a QR course, students must make sure that they have reviewed and met the specified prerequisites for the course prior to enrollment.

COMPUTER SCIENCE, ECONOMICS, MATHEMATICS, AND STATISTICS COURSES

Any course selected from the following departments fulfills the GS quantitative reasoning requirement when passed with a satisfactory letter grade:

- Computer Science (except S1021D, S1022Q)
- Economics (Columbia department only)
- Mathematics
- Statistics

Approved Columbia courses in computer science, mathematics, and statistics may count toward both the QR requirement and the science requirement. Approved transfer credit for a course in computer science, mathematics, or statistics may count toward both the QR and science requirements as well; however, the course must have been taken within the last eight years prior to matriculation to satisfy the QR requirement.

College Algebra and Analytic Geometry (MATH UN1003) (or the equivalent) may count toward the QR requirement only.

FRONTIERS OF SCIENCE

Frontiers of Science (http://www.college.columbia.edu/core/classes/fos.php) Science C1000) (http://www.college.columbia.edu/core/classes/fos.php) satisfies both the QR requirement and one course of the science requirement when passed with a letter-grade of C or above. Students must score at least 16 on the Quantitative Reasoning Exam in the last three years prior to enrolling in Frontiers of Science.
LIST OF APPROVED QR COURSES

The following courses have been approved as satisfying the quantitative reasoning requirement if completed with a satisfactory letter grade. (BC indicates a Barnard College course.) This list is updated annually. If a particular quantitative reasoning course does not appear on the list, students should ask their GS advisor about its appropriateness for the requirement.

Barnard Courses

Note that Barnard students are given preference for enrollment in Barnard courses that may fulfill the GS QR requirement. Barnard courses that fulfill a core requirement will not necessarily count toward a major at Columbia if a student chooses to major or concentrate in one of these fields. (See individual departments concerning courses approved and required for the major.)

SCIENCE PRE-SUMMER 2012

The science requirement aims to develop critical awareness of the methods and limits of scientific inquiry, while fostering observational and analytical skills, particularly in reference to the natural and physical world. When choosing a science course, students should make sure they have reviewed and have met the specified prerequisites for the course prior to enrollment.

Students who are considering careers in science-related fields, including health-related professions, are urged to begin their study of science within the first two semesters after matriculation at GS.

To fulfill the science requirement, students must successfully complete three courses selected from two of the following Columbia departments or from the list of approved courses (p. 32) below, no more than two of which should be taken from the same department:

- Astronomy
- Biological Sciences
- Chemistry
- Earth and Environmental Sciences (Columbia department only)
- Ecology, Evolution, and Environmental Biology
- Physics
- Psychology (Columbia courses The Science of Psychology (PSYC UN1001), Mind, Brain and Behavior (PSYC UN1010), and any 2200- or 2400-level course)

LIST OF APPROVED SCIENCE COURSES

The list of approved courses that fulfill the science requirement includes recommended sequences, science courses for non-science majors, and approved courses from departments not listed above and Barnard.

- Frontiers of Science (SCNC CC1000) satisfies both the QR requirement and one course of the science requirement when passed with a letter-grade of C or above.

The principal objectives of Frontiers of Science are to engage students in the process of discovery by exploring topics at the forefront of science and to inculcate or reinforce the specific habits of mind that inform a scientific perspective on the world. Sample topics include the evolution of human language, brain dynamics, global climate change, the nanoworld, and biodiversity, among others.

Frontiers of Science satisfies one of the three required courses of the science requirement.

GS students interested in taking this course should have received a minimum score of 16 on the GS Quantitative Reasoning Test within three years of enrolling in the course and should also read the first chapter of the electronic textbook Scientific Habits of Mind and take the self-test prior to the first class.

### Additional Courses Approved for the Science Requirement

Most of the following courses have required prerequisites and/or require instructor approval. Prerequisite and instructor approval requirements can be found in the course descriptions for each course or on the department website.

#### Astronomy (ASTR)
- Any 3-credit course numbered 2000 or higher

#### Biology (BIOL)
- Any 3-credit course numbered 2000 or higher

#### Chemistry (CHEM)
- CHEM UN1403 General Chemistry I (Lecture)
- CHEM UN1404 General Chemistry II (Lecture)
- CHEM UN1500 General Chemistry Laboratory
- CHEM UN1604 Intensive General Chemistry (Lecture)
- CHEM BC2001 General Chemistry I
- CHEM BC2002 General Chemistry II
- CHEM UN2507 Intensive General Chemistry Laboratory
- Any 3-credit course numbered 3000 or higher

#### Computer Science (COMS)
- COMS W1003 (Intro-Computer Science/Programming in C)
- COMS W1004 Introduction to Computer Science and Programming in Java

#### Computing Science - Philosophy (CSPH)
- CSPH G4801 Mathematical Logic I
- CSPH G4802 Math Logic II: Incompleteness

#### Earth and Environmental Sciences (EESC)
- EESC UN2100 Earth’s Environmental Systems: The Climate System
- EESC UN2200 Earth’s Environmental Systems: The Solid Earth System
- EESC UN2300 Earth’s Environmental Systems: The Life System
- Any 3-credit course numbered 3000 or higher

#### Ecology, Evolution, and Environmental Biology (EEEB)
- EEEB UN2001 Environmental Biology I: Elements to Organisms
- EEEB UN2002 Environmental Biology II: Organisms to the Biosphere
- EEEB UN3087 Conservation Biology
- Any 3-credit course numbered 3000 or higher

#### Mathematics (MATH)
- Any 3-credit course numbered 1100 or higher

#### Physics (PHYS)
- PHYS UN1201/F1201/V1201/W1201 General Physics I
- PHYS UN1202/F1202/V1202/W1202 General Physics II
- PHYS UN1401 Introduction To Mechanics and Thermodynamics
- PHYS UN1402/C1402 Introduction To Electricity, Magnetism, and Optics
- PHYS UN1403 Introduction to Classical and Quantum Waves
- PHYS UN1601 Physics, I: Mechanics and Relativity
- PHYS UN1602/W1602 Physics, II: Thermodynamics, Electricity, and Magnetism
- Any 3-credit course numbered 2000 or higher

#### Psychology (PSYC)
- Any 3-credit course numbered 32xx, 34xx, 42xx, or 44xx **

#### Statistics (STAT)
- Any 3-credit course except STAT C3997/W3997

*Note: 2600, 3600 and 4600-level psychology courses may not be used to fulfill the science requirement.

**Note: These courses may serve as a second term of a recommended sequence starting with Mind, Brain and Behavior (PSYC UN1010) or The Science of Psychology (PSYC UN1001); see above.
Special Summer Program
The following special program fulfills two of the three terms of the science requirement.

Center for Environmental Research and Conversation [CERC]
• Summer Ecosystem Experience for Undergraduates (SEE-U) (http://eices.columbia.edu/education-training/see-u): locations change yearly. Check with the center in the spring semester for details.

Cultural Diversity
Pre-Summer 2012
The GS cultural diversity requirement is intended to ensure that students are exposed to cultures other than their own and expand upon the ways they view the world. To that end, students are required to take at least one course outside their own ethnic or cultural framework that focuses on a culture, society, literature, or language of a nation or region that, as a general principle, is located outside the United States, Canada, or Europe. Columbia offers an excellent range of courses that focus on Latin America, the Middle East, Africa, and various regions of Asia. Courses that focus on Native American history or culture may also fulfill the requirement. A course meeting a major requirement or another core requirement may simultaneously fulfill the cultural diversity requirement.

Distribution Requirements Before 2003
Note:
The following distribution requirements apply to students who matriculated to the School of General Studies before Fall 2003. New students matriculating after Fall 2003 should consult either the Pre-Summer 2012 Core Requirements page (p. 27) or the Core Requirements page (p. 13).

Bachelor’s degree candidates must satisfy the distribution requirements outlined in this section. Only courses of three or more points taken for a letter grade can fulfill core requirements.

Courses counted toward distribution requirements do not count toward the major and must be outside the major department, except for the cultural diversity requirement and the science requirement. Students can count two appropriate science courses in the major toward the science requirement.

Courses may not be repeated for points, nor may course points be earned in subjects for which Advanced Placement credit has been granted. Advanced Placement credit may not be used to fulfill distribution requirements. Students cannot receive points for previous courses in which the content has been substantially duplicated, at Columbia or elsewhere.

Within the first term of study, a student must satisfy preliminary requirements in English composition and mathematics either by passing placement tests or by completing designated courses. Students must take all placement tests during the first term of study, and the writing requirement must be begun upon matriculation. In consultation with an advisor, a student may postpone satisfying the math requirement by one additional semester.

Some of the distribution requirements can be met with the appropriate Advanced Placement (AP) scores. For specifics, students should consult the AP Credit page (p. 381) for specific details about subject test areas, scores, advanced credit, and placement status.

Contact:
For further information or clarification about advanced placement and credit, students should consult with their assigned academic advisor.

Composition: Logic and Rhetoric
The Undergraduate Writing Program evaluates placement essays and composition transfer credit for all new students and determines English composition (Logic and Rhetoric) courses to be taken. Students whose first language is not English must obtain a Level 10 in ALP’s Level 10 Qualifying Exam before they will be allowed to take the Composition Placement Test offered by the Undergraduate Writing Program. If placed into English GS1004 — Introduction to Logic and Rhetoric or English GS1007 — Logic and Rhetoric, a student must take that course during the first term. English GS1007 is a prerequisite for all literature courses.

Mathematics
Before attending Columbia, the mathematics requirement can be satisfied two ways: with transfer credit for a college level course in pre-calculus or above, or with minimum test scores of 560 on the SAT or 23 on the ACT.

If a student does not fit into these categories, the General Studies Math Placement Test must be taken within the first semester at Columbia. This test is administered by the Academic Resource Center, and may be taken only once.

A passing score satisfies the requirement. An intermediate score places students into a 2-point intermediate algebra course (Math GS1001). Students who receive a low score or do not pass the Math Placement Test must consult their GS academic advisor to determine appropriate coursework. A student is not
permitted to enroll in science courses until the requirement has been fulfilled in one of the above-mentioned ways.

Contact:
For information about specific test dates and times, call the Academic Resource Center at (212) 854-4097.

FOREIGN LANGUAGE
The foreign language requirement can be satisfied by any one of the following methods:
1. Demonstrating competence through the appropriate score on either the SAT II Subject test (consult relevant department) or the Advanced Placement test.
2. Completing the fourth term of a language sequence. (Greek and Latin are exceptions.)
3. Taking a departmental placement test within the first year or before the completion of 64 credits, whichever comes first.
4. Completing secondary school in another country in a language other than English.

LITERATURE
Students are required to take two literature courses to fulfill their distribution requirements. At least one of these two courses must be taken at Columbia. In addition to the rich variety of courses in the English department, students may choose from among many literature courses offered through different departments or a designated GS Colloquium. Literature courses in languages other than English may also count toward this requirement.

MUSIC AND ART
To satisfy the music and art requirement, a student must successfully complete the following courses:

Select one of the following:
HUMA UN1123 Masterpieces of Western Music
AHMM V3320
AHMM UN3321 Introduction To the Musics of India and West Asia
Select one of the following:
HUMA UN1121 Masterpieces of Western Art
AHUM V3340 Art In China, Japan, and Korea
AHUM V3342 Masterpieces of Indian Art and Architecture
AHUM V3343 Masterpieces of Islamic Art and Architecture

HUMANITIES
Students must fulfill a humanities requirement by successfully completing two courses outside the major department, chosen from the following departments:
- Archaeology
- Art History and Archaeology
- Classics
- Comparative Literature and Society
- English and Comparative Literature
- French and Romance Philology (3000 level and above)
- Film Studies
- Germanic Languages and Literatures (3000 level and above)
- History
- Italian (3000 level and above)
- Music
- Philosophy (except GS1401, UN3411)
- Religion
- Slavic Languages (3000 level and above)
- Spanish and Portuguese (3000 level and above)

SOCIAL SCIENCE*
To satisfy the social science requirement, a student must successfully complete two courses outside the major department, chosen from the following departments:
- Anthropology (except UN1010, UN1011, UN3940, UN3970, GU4147–GU4148)
- Economics (except UN3412, UN4414, UN4415)
- Political Science
- Psychology (at the 2600 level)
- Sociology (except UN1205, UN3211, UN3212)

* Interdisciplinary majors (African-American Studies, American Studies, East Asian Languages & Cultures, Middle East & Asian Languages & Cultures, and Women’s & Gender Studies) offer courses in both humanities and social sciences categories.

SCIENCE
To fulfill the science requirement, a student must successfully complete three courses at the 1000 level or above from the list of following departments, two of which must be chosen from the same department. (Students in certain majors can count two science courses in the major towards the science requirement.)
- Anthropology (UN1010, UN1011, UN3940, UN3970, GU4147–GU4148)
- Astronomy
- Biological Sciences
- Chemistry
- Computer Science
- Earth and Environmental Sciences
- Ecology, Evolution, and Environmental Biology
- Economics (UN3412, GU4414, GU4415)
- History and Philosophy of Science (UN3201)
• Mathematics
• Philosophy (GS1401, UN3411)
• Physics
• Psychology (UN1001, UN1010; all courses at the 1400, 2200, or 2400 level; all courses at the 3200, 3400, 4200, and 4400 level with the approval of the departmental representative; Biology–Psychology UN3450)
• Sociology (UN1205, UN3211, UN3212)
• Statistics

Note:
Fulfilling the math requirement is a prerequisite for all sciences. No Barnard Psychology or Earth and Environmental Science courses can count towards the science requirement.

Cultural Diversity
The distribution requirement to fulfill the cultural diversity category includes at least one term of study of a culture, society, literature, or language of a nation or region that, as a general principle, is located outside the United States, Canada, or Europe. The course must focus primarily on Asia, Africa, or Latin America. A course meeting a major requirement or another distribution requirement may simultaneously meet the cultural diversity requirement.

The Major
Concentrations (p. 37) | Transfer Credit Toward the Major (p. 38) | Double Majors (p. 38)

Policies Governing Majors and Concentrations
In addition to the Core, all GS students must fulfill the requirements for a major to qualify for a bachelor’s degree from Columbia. The purpose of a major is to provide students with an opportunity to delve deeply into the study of a particular subject, developing expertise and critical thinking through sustained and advanced work. Students may declare their respective majors as early as their first semester at GS provided they have completed at least 45 points toward the degree, with at least 12 points in progress at GS. Majors are noted on the Columbia transcript.

Students should consider various options and become familiar with the requirements for a particular major before filing a major declaration. In most cases, students should have begun coursework in the discipline before declaring the major. Faculty members are often excellent resources for discussing possible majors. Many departments sponsor open houses for potential majors during the academic year.

For information about specific majors and their requirements, see Major Fields of Study.

Students may also link to department websites to obtain additional information. It is recommended that students also attend a department open house to obtain more information about the major from faculty and students in the major department. Major open houses are usually held in the spring term and are publicized through the DOS News & Announcements newsletter. Many departments also have informational handouts for potential majors in their departmental offices. Certain majors require an application process and approval by the department.

Students eligible to declare a major may do so online in either October or March.

Students are expected to meet the requirements for the major that are in place at the time they declare their majors. Students who do not complete the major requirements within five years of their major declarations may be expected to comply with any new requirements that have been subsequently established.

The following rules pertain to all majors; exceptions to any of these rules are noted by individual departments on their official websites:

1. No course with a grade of D will be credited toward the major.
2. No course with the mark of P (Pass) will count toward the major.
3. No more than two courses may overlap with GS core requirements.
4. Students must check with departments for permission to count summer session classes and courses taken while studying abroad toward the major.
5. No more than 12 transfer credits may count toward the major (some departments have a different limit).
6. Students must submit all required paperwork relevant to petitioning major departments for transfer credit toward the major in the same semester in which the major is declared; failure to meet this deadline may result in the loss of eligibility to transfer credit toward the major.
7. At least 18 points of coursework toward the major must be taken at Columbia.

Concentrations
Concentrations are optional and provide students with the opportunity to develop a deeper understanding of a secondary field of study in addition to the major. Most departments and programs offer a concentration. Some programs offer only a concentration. See Major Fields of Study for more information about concentrations and requirements.

Choosing a Concentration
Courses counted toward a departmental concentration may simultaneously fulfill core requirements as long as the total number of overlapping classes from the major and/or concentration counted to the core does not exceed two. (Since
the premedical concentration is not considered a departmental concentration, it is exempt from this policy.)

Students interested in choosing a concentration in addition to a major must do so before completing 80 points toward the degree and must have a minimum GPA of 3.2. In order for a concentration to appear on the Columbia transcript, students must file paperwork with their GS advisor.

**TRANSFER CREDIT TOWARD THE MAJOR AND CONCENTRATION**

The director of undergraduate studies (DUS) in each department is authorized to accept up to 12 GS-approved transfer credits toward the major; some departments have a different limit. The limit on transfer credits toward a concentration is six. Students must check individual department policies concerning transfer credits. Credits from other institutions of higher education do not automatically transfer—and in some cases are not approved—toward the Columbia major or concentration, although they may count as electives or core requirements.

It is the student’s responsibility to discuss with the DUS the possibility of counting transfer credits toward the major or concentration and to provide the department with any materials needed in order to make a decision about transfer credits. When reviewing transfer credits the DUS needs copies of official transcripts from the other institutions (supplied by the GS Dean of Students Office) and often the syllabus for the course in question (supplied by the student).

**Note:** Students must submit all required paperwork relevant to petitioning major departments for transfer credit toward the major or concentration in the same semester in which the major or concentration is declared; failure to meet this deadline will result in the loss of eligibility for transfer credit toward the major or concentration.

**DOUBLE MAJORS**

Students should have a strong academic record, and excellent academic reasons for choosing to declare two programs (majors and concentrations). Students who wish to pursue two programs must declare both programs prior to completing 80 points toward the degree. Students who wish to declare two programs must have a minimum GPA of 3.2.

Students cannot declare two programs owned by the same offering unit (department, institute, or center). For example, a student may not declare programs in Russian Language and Culture and in Slavic Studies, both of which are owned by the Department of Slavic Languages; similarly, a student may not declare programs in Mathematics and in Applied Mathematics, both of which are owned by the Department of Mathematics. All joint majors (e.g., Economics-Political Science) will be considered as owned by both offering units, so that a student may not, for example, major in both Political Science and Economics-Political Science.

**Double Counting**

Students who declare two programs may, in some cases, overlap requirements for the two programs. There are three scenarios in which students may double-count program requirements, and students may take advantage of any or all of these scenarios:

- If two programs both require the same coursework to teach fundamental skills needed for the field, those courses may be applied to both programs; specifically: (1) elementary and intermediate foreign language courses, (2) the calculus sequence (I through IV, or Honors A and B), (3) introductory courses in Statistics (STAT UN1101 or 1201), and (4) the introductory course in computer programming (COMS W1004).
- Students may also apply a maximum of two courses to both programs, if each course is already approved toward the fulfillment of the student’s two declared programs. Offering departments, institutes, or centers may choose to restrict the double-counting of particular courses, and such restrictions cannot be appealed.
- As with students with one declared program, the maximum number of courses students with two declared programs may overlap to the Core is two. Students may not overlap core courses with both of their programs (triple-counting).

**DECLARING A MAJOR OR CONCENTRATION**

**MAJOR DECLARATION**

From anthropology to astronomy, from economics to ethnicity and race studies, Columbia offers over eighty majors across foundational disciplines in the liberal arts. We encourage you to explore the many fields of study in the Arts and Sciences. Whatever department you choose as your academic home, you will have the opportunity to develop your critical thinking, refine your research skills, challenge your intellectual presuppositions, and expand your cultural horizons.

**Beginning the Major Declaration Process (p. 39)**

| Criteria for Declaring a Major (p. 39) |
| Exploring Majors and Careers (https://www.careereducation.columbia.edu/students/undergrad/explore) |
| Policies Governing Major Declaration (p. 39) |
| Using the Online Major Declaration System (p. 39) |
| FAQs (p. 40) |
**BEGINNING THE MAJOR DECLARATION PROCESS**

GS students may declare a major or concentration online (https://majordec.college.columbia.edu/gs) during the following periods. Please refer to the GS Academic Calendar (https://gs.columbia.edu/academic-calendar) for specific dates.

- October
- Mid-February - Mid-March

GS students must fulfill the requirements for a major to receive a bachelor’s degree from Columbia, and must formally declare a major program before completing 90 points towards the degree; concentrations must be declared prior to completing 80 points. Ideally students should declare a major after completing 45 points of coursework toward the degree. Students who matriculate with at least 45 transfer credits may declare their respective majors in their first term at GS as long as they have 12 points in progress.

Before declaring a major, students should read the information on majors and concentrations on the Degree Fulfillment (p. 37) page in order to understand the choices and policies relevant to these academic programs. Students may also wish to consult with GS academic advisors, faculty members, department websites, and the department descriptions on the GS website when deciding on a major.

**CRITERIA FOR DECLARING A MAJOR**

In order to declare a major during major declaration month, students must meet the following criteria:

- Enrollment in at least one semester at GS with a minimum of 12 points completed or in progress
- Completion of at least 45 points toward the bachelor’s degree (including transfer credit)
- Regular and satisfactory progress toward fulfilling the GS core requirements

Students who have completed 90 or more cumulative points without a major on record will be placed on registration hold and may receive an Academic Warning. Additionally, students who wish to make any changes to their declared major and/or concentration must see their academic advisor.

**POLICIES GOVERNING MAJOR DECLARATION**

Before using the online major declaration system to declare an academic program, GS students should review the following academic policies, if applicable:

**Major/Concentration Degree Requirements**

All students must complete at least one major to fulfill the degree requirements, and may select a second major, concentration, or special concentration in addition to this first selection. Selecting only a concentration will not fulfill the requirements for the bachelor’s degree.

**Double Majors**

Students should have a strong academic record, and excellent academic reasons for choosing to declare two programs (majors and concentrations). Students who wish to pursue two programs must declare both programs prior to completing 80 points toward the degree. Students who wish to declare two programs must have a minimum GPA of 3.2.

Students cannot declare two programs owned by the same offering unit (department, institute, or center). For example, a student may not declare programs in Russian Language and Culture and in Slavic Studies, both of which are owned by the Department of Slavic Languages; similarly, a student may not declare programs in Mathematics and in Applied Mathematics, both of which are owned by the Department of Mathematics. All joint majors (e.g., Economics-Political Science) will be considered as owned by both offering units, so that a student may not, for example, pursue programs in both Political Science and Economics-Political Science.

**Double Counting**

Students who declare two programs may, in some cases, overlap requirements for the two programs. There are three scenarios in which students may double-count program requirements, and students may take advantage of any or all of these scenarios:

- If two programs both require the same coursework to teach fundamental skills needed for the field, those courses may be applied to both programs; specifically: (1) elementary and intermediate foreign language courses, (2) the calculus sequence (I through IV, or Honors A and B), (3) introductory courses in Statistics (STAT UN1101 or 1201), and (4) the introductory course in computer programming (COMS W1004).
- Students may also apply a maximum of two courses to both programs, if each course is already approved toward the fulfillment of the student’s two declared programs. Offering departments, institutes, or centers may choose to restrict the double-counting of particular courses.
- As with students with one declared program, the maximum number of courses students with two declared programs may overlap to the Core is two. Students may not overlap Core courses with both of their programs (triple-counting).

**USING THE ONLINE MAJOR DECLARATION SYSTEM**

The online major declaration system (https://majordec.college.columbia.edu/gs) will be available on the first day of each major declaration month.
Students who use the system must declare at least one major and are limited to a maximum of two program selections (the second choice of program may either be a major or a concentration).

Students will receive an email confirming their academic program and providing information about their department’s system for advising new majors.

Students with questions about declaring a major, or who experience any technical difficulties with the online major declaration system, should email gsmajordeclaration@columbia.edu.

**Majors Requiring Departmental Approval**

While most majors can be officially declared using the online system, the departments listed below require written departmental approval.

Students selecting a major from any of the departments listed below must print and fill out the GS Major Declaration Form (https://gs.columbia.edu/gs-student-forms) (also available from the GS Dean of Students Office) and take it to the appropriate department (addresses listed below). Once departmental approval has been obtained, bring the form to 403 Lewisohn to finalize the major declaration process.

- Architecture (http://www.columbia.edu/cu/archprogram) (500 Diana Center, Barnard College)
- Astronomy (http://www.astro.columbia.edu) (1328 Pupin Hall)
- Astrophysics (http://www.astro.columbia.edu) (1328 Pupin Hall)

- Urban Studies (http://www.barnard.edu/urban) (236 Milbank Hall, Barnard College)
- Visual Arts (http://arts.columbia.edu/undergraduate-visual-arts-program) (310 Dodge Hall)

Before visiting the departmental advisor, students should create a plan of study based upon the major’s prerequisites, requirements, and course offerings, and bring this plan to the meeting with the departmental advisor.

**FREQUENTLY ASKED QUESTIONS**

Can I take courses that may count toward my major prior to declaring the major?

In sampling courses across the curriculum, many students end up taking courses that will count toward their major prior to actually declaring the major. This is a good way to receive an introduction to a major and to get a head start on some of the major requirements prior to declaring. However, students should be aware of the following:

1. Most departments do not allow a student to count toward the major or concentration courses in which the final grade earned is a “D” or a “P”. (Exceptions are noted in departmental guidelines for the major.)
2. Some Columbia departments have restrictions on the number or kind of Barnard courses that will count toward the Columbia major or concentration.
3. Some departments, like Economics, will not count courses taken out of sequence.
4. When in doubt, check the department website.

What if I cannot decide among several different options?

Students are urged to schedule an advising appointment with their GS advisor to discuss their interests and options. A student’s advisor can help in thinking about the important questions to consider when choosing a major. Students also encouraged to visit departments, attend Major Open Houses, review their undergraduate handbook (several departments have these), meet with the Director of Undergraduate Studies or another faculty member in the
department, and review the departmental websites. Many departments and programs host open houses for potential majors during February and March; watch for announcements in the twice-weekly GS News and Announcements email or contact a department directly to find out if an open house is scheduled.

What if I am interested in a concentration?
All GS students must complete a major in order to graduate from GS. Concentrations are optional but, if pursued, must be declared. Students who want to declare a concentration must do so before completing 80 points of coursework toward the degree. Prior to declaring a concentration, students must declare (or have declared) a major and must have a minimum GPA of 3.2. In some cases, students who have attempted a double major choose, later in the process, to change the second major to a concentration.

What if I want to pursue a double major?
Students interested in double-majoring should discuss the viability of this with their respective GS advisors. Students may also consider doing a concentration in one area and a major in the other. Students who are interested in double-majoring must declare both majors before completing 80 points toward the degree; exceptions to this rule may be made if the student has already made significant progress toward major completion prior to the formal declaration.

What happens if I do not declare a major?
Students who do not declare a major by the time they have earned 90 points toward the degree will be placed on registration hold.

What if I want to change my major or concentration after one or both have been declared?
Students should schedule an appointment with their GS advisor to discuss why they want to change their major as well as the new major they are considering. The student and advisor will then complete the necessary paperwork for deleting the old major and declaring a new one, as this cannot be done online. Students normally are not permitted to declare a new major after earning more than 90 points toward the degree, but for compelling reasons exceptions can be made. Students should follow a similar process for changing or dropping a concentration.

Can any of my transfer credits count toward my major?
1. Each department has the discretion to count up to 12 credits in transfer toward the major; some departments have a different limit and may accept a different number of credits. Approval by GS of transfer credit toward the degree does not mean that this credit will automatically count toward the major.
2. At least 18 points toward the major must be taken at Columbia.
3. Students should consult with the Director of Undergraduate Studies (DUS) about which transfer courses may count toward the major and satisfy existing departmental requirements.
4. Directors of Undergraduate Studies usually require transcripts and syllabi to make decisions about whether transfer credits will count toward the major. Once a student has declared the major, the GS Dean of Students Office sends the DUS copies of all the relevant transcripts on file with GS.

Can courses taken as part of study abroad count toward the major?
Students who are approved for study abroad by GS must receive approval from their major department with respect to any courses taken abroad that may be counted toward the major.

Can summer term courses count toward the major?
Students must make sure that summer term courses at Columbia will count toward the major. This permission comes from the department, not the student’s GS advisor.

Any other exemptions to the above rules are clearly articulated on the GS website or on departmental websites.

**ELECTIVES**

In addition to the core requirements and the major requirements, many students will meet part of the 124 points required for the bachelor’s degree with elective courses chosen from a range of programs and departments.

Students are encouraged to choose as electives those courses that will broaden their knowledge base, provide an opportunity to acquire or improve certain skills, introduce them to a new field of inquiry, or give them access to a unique Columbia strength or resource.

Personal interests as well as professional objectives often inform the selection of elective courses.

Electives may be taken Pass/D/Fail (p. 386); however, GS students may only elect the P/D/F option six times, for a total of eighteen points, during their undergraduate career at Columbia and may only choose the P/D/F option in one course per term.

**PROFESSIONAL COURSES**

GS students are permitted only 6 points of professional studies coursework toward their GS degrees. Those six points may be counted in transfer credits or courses taken at Columbia, or a combination thereof. “Professional studies” include professional level courses in law, business, journalism or any of Columbia’s other professional schools, as well as any comparable courses clearly professional in orientation.

GS students are not allowed to count professional courses in any of the professional studies programs offered through Columbia’s School of Professional Studies toward the
degree. Undergraduate cross-registration (p. 401) in courses offered by Columbia’s graduate and professional schools is restricted and requires special approval.

Any professional course that is listed or cross-listed as an undergraduate course in business, public health, international and public affairs, journalism, or within a Columbia Arts and Sciences department is excluded from the six-point limit. The final decision of whether or not a course is professional rests with the GS Committee on Academic Affairs.

**Physical Education Courses**
The Physical Education (P.E.) Department offers a variety of courses in the areas of aquatics, dance, fitness, martial arts, individual and dual “lifetime” sports, team sports, and outdoor education which are available for academic credit. Since P.E. is a requirement for undergraduates in Columbia College and the School of Engineering and Applied Science, preference is given to CC and SEAS students when registering for P.E. classes. If space is available, undergraduate General Studies students are permitted to take courses in the Physical Education academic credit program. The grading in all physical education courses is Pass/Fail. Students who fulfill the attendance and participation requirement receive a Pass.

Normally students may take only one P.E. course per semester; enrollment in more than one P.E. course per semester requires the approval of the Director of Physical Education Programs, to whom students should submit a petition. GS students may count up to two points of Physical Education toward the degree requirements.

**Transfer Credit**

**Transfer Credit Policy**
All B.A. candidates are eligible to transfer up to 60 of the 124 points required for graduation. Admitted students may transfer credit only from the institutions listed on the application for admission at the time the application is submitted to the Office of Admissions. Coursework from institutions not listed on the application for admission will not be considered for transfer credit. Transcripts from all institutions previously attended must be listed on the application form and submitted to the School of General Studies. Failure to report and send transcripts from all schools previously attended may result in disciplinary action and may result in the review of the student’s admission status. The Office of Admissions reserves the right to rescind the offer of admission based on the results of this review.

In general, the School grants transfer credit for a course that satisfies the following criteria:

- It was taken at an accredited college or university.
- It is an academic class consistent with the General Studies curriculum. (Please note: as part of the undergraduate degree program, Columbia University does not offer online courses for credit; therefore, online courses are not eligible for transfer credit.)
- It carries a grade of “C” or higher and is documented by an official transcript.
- It is not a “mini” or intersession course (however, coursework completed during a summer session is eligible for transfer credit evaluation).
- The course was not taken after the student matriculated at the School of General Studies. This policy does not apply to students enrolled in the Joint Program with the Jewish Theological Seminary or students enrolled in Columbia-approved study abroad programs. In exceptional cases, as specified in Study Away from Columbia (p. 397), students may petition the Dean of Students Office to accept coursework taken at another institution after matriculation.

The Office of Admissions and the Dean of Students Office determine the award of transfer credit. The Entrance Credit Report (ECR) and the Core Requirements Checklist specify both the total number of transfer credits awarded and the core requirements to which those credits may correspond. Both the ECR and the Core Requirements Checklist are usually contained within the admissions acceptance packet or sent separately soon after notification of acceptance. As noted on the ECR at the time of admission, some pending transfer credit may require further information such as course descriptions and/or syllabi.

**Coursework Completed at Other Institutions During Deferral Period**

Students who defer their offers of admissions and subsequently receive credit for coursework done elsewhere (between the date of their initial offer of admission and their matriculation at Columbia) may or may not receive Columbia transfer credit for that coursework. In all cases, students must notify the Office of Admissions of their intentions to complete coursework at other institutions during the deferral period. Failure to do so will result in the student not receiving credit for that coursework but may also result in the review of the student’s admission status. The Office of Admission reserves the right to rescind the offer of admission based on the results of this review.

**Transfer Credit Toward the Major**

Credits from other institutions of higher education do not automatically count toward fulfilling the Columbia major, although they may satisfy core requirements or be counted as electives. Transfer credits toward the major are accepted at the department’s discretion and are not always approved. The Director of Undergraduate Studies in each department is authorized to accept up to 12 GS-approved transfer credits toward the major. Some departments accept a different transfer credit limit; students must check individual department policies concerning transfer credits.
Physical Education
While up to 60 transfer credits may be granted, no more than two credits of physical education will be accepted in transfer toward the degree.

Professional Courses
GS students are permitted only six transfer credits of professional studies coursework toward their GS degrees. Professional studies include both pre-professional and professional courses in law, business, or journalism, as well as any other courses clearly professional in orientation. Any professional course that is listed or cross-listed as an undergraduate course with a Columbia Arts & Sciences department or the schools of business, journalism, public health, or international and public affairs, is excluded from the six-credit limit.

Non-Degree Coursework
Of the allowed 60 transfer credits, a maximum of 15 credits may transfer from Columbia’s School of Professional Studies and Special Programs or any other accredited non-degree program.

Other Columbia Divisions
SEAS and Columbia College students considering a transfer to the School of General Studies should meet with their class deans to consider the implications of such a transfer. Students currently enrolled within CC or SEAS, or students who have been away from CC or SEAS for less than three years, must have the support of their academic deans before applying for admission to the School of General Studies; transfer applications to GS from CC or SEAS students will not be accepted without the written endorsement of the relevant school dean. The appropriate academic dean from CC or SEAS should consult with the GS dean of admissions in cases where the student is returning after a break of less than three years. In cases where the student has been away from CC or SEAS for more than three years, express support from the CC/SEAS academic dean is not required, but may be helpful in the admission process. In all cases, applicants to the School of General Studies must have a break of at least one academic year to be eligible to apply for admission, or have compelling personal or professional reasons to attend on a part-time basis.

Online Courses
As part of the undergraduate degree program Columbia University does not offer online courses for credit; therefore, online courses are not eligible for transfer credit. Courses will be understood as “online courses” if they are fully transacted online, with no face-to-face contact with the instructor.

Repeated Courses
Students who have received credit for a course at Columbia may not receive credit toward the degree for repeating the course unless the specific course description (http://bulletin.columbia.edu/general-studies/undergraduates/courses) authorizes such repetition. A course taken at another college or university may be repeated at Columbia, but transfer credit for that course will be lost.

Advanced Credit by Examination
Advanced Placement
As determined by Columbia, students who have achieved satisfactory scores on the College Entrance Examination Board tests used in the Advanced Placement Program may be granted credit or be exempted from certain courses or requirements. Any credit will be considered part of the 60-credit transfer maximum. The following conditions apply:

- The relevant departments must approve the use of these examinations.
- Credit so earned is not granted until a student has demonstrated a capacity to do satisfactory advanced work in the overall program.
- Credit awarded under the Advanced Placement Program does not constitute part of the 64 points earned at Columbia required for the GS degree.

Specific details about subject test areas, scores, advanced credit, and placement status can be found under Advanced Placement Credit (p. 381).

International Baccalaureate
International Baccalaureate (IB) exams are offered at both the Higher and Subsidiary levels. The School of General Studies awards transfer credit only for exams taken at the Higher level. No transfer credit is awarded for the “Theory of Knowledge” exam.

Students receive the equivalent of one year of credit (usually 6 points) for any Higher level exam on which they receive a 6 or 7. Any credit will be considered part of the 60-credit transfer maximum. The following conditions apply:

- The relevant departments must approve the use of these examinations.
Credit so earned is not granted until a student has demonstrated a capacity to do satisfactory advanced work in the overall program.

Credit awarded for International Baccalaureate Exams does not constitute part of the 64 points earned at Columbia required for the GS degree.

Contact Information
Applicants seeking further information or clarification about advanced placement and credit should contact the Admissions Office at 212-854-2772. Students who have matriculated at GS should consult their GS advisor.

MAJORS AND CONCENTRATIONS
Columbia University School of General Studies offers the following majors and concentrations. Students at GS must complete a major to receive a bachelor’s degree.

CONCENTRATIONS
Students may also wish to pursue a concentration, which is optional and provides students the opportunity to develop in-depth knowledge in a secondary field. Most academic departments offer both a major and a concentration.

A few areas of study, which are marked with an *, are offered exclusively as concentrations.

DECLARING A MAJOR OR CONCENTRATION

MAJOR DECLARATION

From anthropology to astronomy, from economics to ethnicity and race studies, Columbia offers over eighty majors across foundational disciplines in the liberal arts. We encourage you to explore the many fields of study in the Arts and Sciences. Whichever department you choose as your academic home, you will have the opportunity to develop your critical thinking, refine your research skills, challenge your intellectual presuppositions, and expand your cultural horizons.

Beginning the Major Declaration Process (p. 39) | Criteria for Declaring a Major (p. 39)
Using the Online Major Declaration System (p. 39) | FAQs (p. 40)

BEGINNING THE MAJOR DECLARATION PROCESS

GS students may declare a major or concentration online (https://majordec.college.columbia.edu/gs) during the following periods. Please refer to the GS Academic Calendar (https://gs.columbia.edu/academic-calendar) for specific dates.

• October
• Mid-February - Mid-March

GS students must fulfill the requirements for a major to receive a bachelor’s degree from Columbia, and must formally declare a major program before completing 90 points towards the degree; concentrations must be declared prior to completing 80 points. Ideally students should declare a major after completing 45 points of coursework toward the degree. Students who matriculate with at least 45 transfer credits may declare their respective majors in their first term at GS as long as they have 12 points in progress.

Before declaring a major, students should read the information on majors and concentrations on the Degree Fulfillment (p. 37) page in order to understand the choices and policies relevant to these academic programs. Students may also wish to consult with GS academic advisors, faculty members, department websites, and the department descriptions on the GS website when deciding on a major.

CRITERIA FOR DECLARING A MAJOR

In order to declare a major during major declaration month, students must meet the following criteria:

• Enrollment in at least one semester at GS with a minimum of 12 points completed or in progress
• Completion of at least 45 points toward the bachelor’s degree (including transfer credit)
• Regular and satisfactory progress toward fulfilling the GS core requirements

Students who have completed 90 or more cumulative points without a major on record will be placed on registration hold and may receive an Academic Warning. Additionally, students who wish to make any changes to their declared major and/or concentration must see their academic advisor.

POLICIES GOVERNING MAJOR DECLARATION

Before using the online major declaration system to declare an academic program, GS students should review the following academic policies, if applicable:

Major/Concentration Degree Requirements

All students must complete at least one major to fulfill the degree requirements, and may select a second major, concentration, or special concentration in addition to this first selection. Selecting only a concentration will not fulfill the requirements for the bachelor’s degree.

Double Majors

Students should have a strong academic record, and excellent academic reasons for choosing to declare two programs (majors and concentrations). Students who wish to pursue two programs must declare both programs prior to completing 80 points toward the degree. Students who wish to declare two programs must have a minimum GPA of 3.2.

Students cannot declare two programs owned by the same offering unit (department, institute, or center). For example, a student may not declare programs in Russian Language and Culture and in Slavic Studies, both of which are owned by the Department of Slavic Languages; similarly, a student may not declare programs in Mathematics and in Applied Mathematics, both of which are owned by the Department of Mathematics. All joint majors (e.g., Economics-Political Science) will be considered as owned by both offering units, so
that a student may not, for example, pursue programs in both Political Science and Economics-Political Science.

**Double Counting**

Students who declare two programs may, in some cases, overlap requirements for the two programs. There are three scenarios in which students may double-count program requirements, and students may take advantage of any or all of these scenarios:

- If two programs both require the same coursework to teach fundamental skills needed for the field, those courses may be applied to both programs; specifically: (1) elementary and intermediate foreign language courses, (2) the calculus sequence (I through IV, or Honors A and B), (3) introductory courses in Statistics (STAT UN1101 or 1201), and (4) the introductory course in computer programming (COMS W1004).
- Students may also apply a maximum of two courses to both programs, if each course is already approved toward the fulfillment of the student’s two declared programs. Offering departments, institutes, or centers may choose to restrict the double-counting of particular courses.
- As with students with one declared program, the maximum number of courses students with two declared programs may overlap to the Core is two. Students may not overlap Core courses with both of their programs (triple-counting).

**Using the Online Major Declaration System**

The online major declaration system (https://majordec.college.columbia.edu/gs) will be available on the first day of each major declaration month.

Students who use the system must declare at least one major and are limited to a maximum of two program selections (the second choice of program may either be a major or a concentration).

Students will receive an email confirming their academic program and providing information about their department’s system for advising new majors.

Students with questions about declaring a major, or who experience any technical difficulties with the online major declaration system, should email gsmajordeclaration@columbia.edu.

**Majors Requiring Departmental Approval**

While most majors can be officially declared using the online system, the departments listed below require written departmental approval.

Students selecting a major from any of the departments listed below must print and fill out the GS Major Declaration Form (https://gs.columbia.edu/gs-student-forms) (also available from the GS Dean of Students Office) and take it to the appropriate department (addresses listed below). Once departmental approval has been obtained, bring the form to 403 Lewisohn to finalize the major declaration process.

- Architecture (http://www.columbia.edu/cu/archprogram) (500 Diana Center, Barnard College)
- Astronomy (http://www.astro.columbia.edu) (1328 Pupin Hall)
- Astrophysics (http://www.astro.columbia.edu) (1328 Pupin Hall)

Before visiting the departmental advisor, students should create a plan of study based upon the major’s prerequisites,
requirements, and course offerings, and bring this plan to the meeting with the departmental advisor.

FREQUENTLY ASKED QUESTIONS

Can I take courses that may count toward my major prior to declaring the major?

In sampling courses across the curriculum, many students end up taking courses that will count toward their major prior to actually declaring the major. This is a good way to receive an introduction to a major and to get a head start on the some of the major requirements prior to declaring. However, students should be aware of the following:

1. Most departments do not allow a student to count toward the major or concentration courses in which the final grade earned is a “D” or a “P”. (Exceptions are noted in departmental guidelines for the major.)
2. Some Columbia departments have restrictions on the number or kind of Barnard courses that will count toward the Columbia major or concentration.
3. Some departments, like Economics, will not count courses taken out of sequence.
4. When in doubt, check the department website.

What if I am interested in a concentration?

All GS students must complete a major in order to graduate from GS. Concentrations are optional but, if pursued, must be declared. Students who want to declare a concentration must do so before completing 80 points of coursework toward the degree. Prior to declaring a concentration, students must declare (or have declared) a major and must have a minimum GPA of 3.2. In some cases, students who have attempted a double major choose, later in the process, to change the second major to a concentration.

What if I want to pursue a double major?

Students interested in double-majoring should discuss the viability of this with their respective GS advisors. Students may also consider doing a concentration in one area and a major in the other. Students who are interested in double-majoring must declare both majors before completing 80 points toward the degree; exceptions to this rule may be made if the student has already made significant progress toward major completion prior to the formal declaration.

What happens if I do not declare a major?

Students who do not declare a major by the time they have earned 90 points toward the degree will be placed on registration hold.

What if I want to change my major or concentration after one or both have been declared?

Students should schedule an appointment with their GS advisor to discuss why they want to change their major as well as the new major they are considering. The student and advisor will then complete the necessary paperwork for deleting the old major and declaring a new one, as this cannot be done online. Students normally are not permitted to declare a new major after earning more than 90 points toward the degree, but for compelling reasons exceptions can be made. Students should follow a similar process for changing or dropping a concentration.

Can any of my transfer credits count toward my major?

1. Each department has the discretion to count up to 12 credits in transfer toward the major; some departments have a different limit and may accept a different number of credits. Approval by GS of transfer credit toward the degree does not mean that this credit will automatically count toward the major.
2. At least 18 points toward the major must be taken at Columbia.
3. Students should consult with the Director of Undergraduate Studies (DUS) about which transfer courses may count toward the major and satisfy existing departmental requirements.
4. Directors of Undergraduate Studies usually require transcripts and syllabi to make decisions about whether transfer credits will count toward the major. Once a student has declared the major, the GS Dean of Students Office sends the DUS copies of all the relevant transcripts on file with GS.

Can courses taken as part of study abroad count toward the major?

Students who are approved for study abroad by GS must receive approval from their major department with respect to any courses taken abroad that may be counted toward the major.

Can summer term courses count toward the major?

Students must make sure that summer term courses at Columbia will count toward the major. This permission comes from the department, not the student’s GS advisor.

Any other exemptions to the above rules are clearly articulated on the GS website or on departmental websites.
AFRICAN-AMERICAN STUDIES

Institute for Research in African-American Studies: 758 Schermerhorn Extension; 212-854-7080
http://iraas.columbia.edu/

Director of the Institute for Research in African-American Studies: Prof. Farah J. Griffin; 758 Schermerhorn Extension; 212-854-7080; fjg8@columbia.edu

Director of Undergraduate Studies: Prof. Josef Sorett; 758 Schermerhorn Extension 212-851-4141; js3119@columbia.edu

Assistant Director: Shawn Mendoza; 758 Schermerhorn Extension; 212-854-8789; sm322@columbia.edu

Administrative Assistant: Sharon Harris; 758 Schermerhorn Extension; 212-854-7080; sh2004@columbia.edu

The Institute for Research in African-American Studies was established at Columbia in 1993, expanding the University’s commitment to this field of study. The African-American studies curriculum explores the historical, cultural, social, and intellectual contours of the development of people of African descent. The curriculum enables students to master the basic foundations of interdisciplinary knowledge in the humanities and social sciences in the black American, Caribbean, and sub-Saharan experience.

Courses examine the cultural character of the African diaspora; its social institutions and political movements; its diversity in thought, belief systems, and spiritual expressions; and the factors behind the continuing burden of racial inequality. During their junior and senior years of study, students focus their research within a specific discipline or regional study relevant to the African diaspora.

Students should consider a major in African-American studies if they are interested in careers where strong liberal arts preparation is needed, such as fields in the business, social service, or government sectors. Depending on one’s area of focus within the major, the African-American studies program can also prepare individuals for career fields like journalism, politics, public relations, and other lines of work that involve investigative skills and working with diverse groups. A major in African-American studies can also train students in graduate research skills and methods, such as archival research, and is very useful for individuals who are considering an advanced graduate degree such as the Ph.D.

DEPARTMENTAL HONORS

The requirements for departmental honors in African-American studies are as follows:

1. All requirements for major must be completed by graduation date;
2. Minimum GPA of 3.6 in the major;
3. Completion of senior thesis—due to the director of undergraduate studies on the first Monday in April.

A successful thesis for departmental honors must be selected as the most outstanding paper of all papers reviewed by the thesis committee in a particular year. The Thesis Evaluation Committee is comprised of department faculty and led by the director of undergraduate studies. The thesis should be of superior quality, clearly demonstrating originality and excellent scholarship, as determined by the committee. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

THE AFRICAN-AMERICAN STUDIES THESIS

Although the senior thesis is a prerequisite for consideration for departmental honors, all African-American studies majors are strongly encouraged to consider undertaking thesis work even if they are ineligible or do not wish to be considered for departmental honors. The senior thesis gives undergraduate majors the opportunity to engage in rigorous, independent, and original research on a specific topic of their choosing, the result of which is a paper of 35-60 pages in length.

The senior thesis must be written under the supervision of at least one faculty member. Should the thesis writer elect to have more than one thesis adviser (either from the outset or added on during the early stages of research), these faculty in the aggregate comprise the Thesis Committee, of which one faculty member must be designated chair. In either case, it is incumbent upon the thesis writer to establish with the thesis chair and committee a reasonable schedule of deadlines for submission of outlines, chapters, bibliographies, drafts, etc.

In many cases, thesis writers may find that the most optimal way in which to complete a thesis is to formally enroll in an AFAS independent study course with their thesis adviser as the instructor. All students interested in writing a thesis should notify the director of undergraduate studies and submit the name of the faculty adviser ideally by October 1, but certainly no later than the end of the fall semester. In close consultation with the thesis adviser, students develop a viable topic, schedule of meetings, bibliography, and timeline for completion (including schedule of drafts and outlines).

AFAS UN1001 Introduction to African-American Studies
AFAS UN3936 Black Intellectuals Seminar
A new course "Major Debates in African-American Studies" will replace this course in 2018-2019

One senior research seminar
A minimum of four courses in the governed electives category, which provides an interdisciplinary background in the field of African-American studies. Such electives must be drawn from at least three different departments. Of these, one must be a literature course; one must be a history course; and one must focus primarily on cultures and societies located in Africa or within the African diaspora outside of the United States, such as the Caribbean or Latin America.

Five courses must be taken within a designated area of study, preferably within a distinct discipline (e.g., anthropology, English, sociology, political science, history). Students may also select their five courses within a distinct regional or geographical area within the African diaspora (e.g., sub-Saharan Africa). One of these five courses must be a seminar.

CONCENTRATION IN AFRICAN-AMERICAN STUDIES
Please note that as of December 2017 Concentration Requirements have changed. Please consult with the department if there are any questions. A minimum of 19 points is required for the concentration. All students must take the introductory course, AFAS UN1001 Introduction to African-American Studies. Within the governed elective category, a minimum of 9 points must be taken. Of these, one course must be selected from the humanities; one course must be in the social sciences; and one must focus primarily on non-U.S. cultures and societies within the African diaspora and sub-Saharan Africa. Additionally, a minimum of 12 points must be acquired from courses within a designated area of study, such as a specific discipline or a regional area (e.g., Africa). One of the courses taken to fulfill either the governed electives category or the designated area of study category must be either AFAS UN3936 Black Intellectuals Seminar (This course will be replace by "Major Debates in African-American Studies" in 2018-2019 ) or a research seminar.

MAJOR IN AFRICAN-AMERICAN STUDIES
Please note that as of December 2017 Major Requirements have changed. Please consult with the department if there are any questions. The major should be arranged in consultation with the director of undergraduate studies. Students interested in majoring should plan their course of study no later than the end of their sophomore year. A minimum of 27 points is required for the major as follows:

CONCENTRATION IN AFRICAN-AMERICAN STUDIES
Please note that as of December 2017 Concentration Requirements have changed. Please consult with the department if there are any questions. A minimum of 19 points is required for the concentration. All students must take the introductory course, AFAS UN1001 Introduction to African-American Studies. Within the governed elective category, a minimum of 9 points must be taken. Of these, one course must be selected from the humanities; one course must be in the social sciences; and one must focus primarily on non-U.S. cultures and societies within the African diaspora and sub-Saharan Africa. Additionally, a minimum of 12 points must be acquired from courses within a designated area of study, such as a specific discipline or a regional area (e.g., Africa). One of the courses taken to fulfill either the governed electives category or the designated area of study category must be either AFAS UN3936 Black Intellectuals Seminar (This course will be replace by "Major Debates in African-American Studies" in 2018-2019 ) or a research seminar.

AMERICAN STUDIES
Director: Prof. Casey N. Blake, 321 Hamilton; 212-854-6698; cb460@columbia.edu
Associate Director: Prof. Robert Amdur, 311 Hamilton; 212-854-4049; rla2@columbia.edu
Assistant Director: Angela Darling, 319 Hamilton; 212-854-6698; amd44@columbia.edu
American studies offers students the opportunity to explore the experience and values of the people of the United States as embodied in their history, literature, politics, art, and other enduring forms of cultural expression. The program seeks to prepare students to confront with historical awareness the pressing problems that face our society. The program takes advantage of Columbia’s location by involving students with the life of the city—working with community service organizations such as the Double Discovery Center, which serves New York City high school students; and by inviting leading figures in the local political and cultural scene to participate in colloquia, public conferences, and classroom discussions. It is an interdisciplinary program designed to be open and flexible while taking seriously the challenge of striving for a liberal education that helps prepare students for responsible citizenship.

ADVISING
Each American studies major or concentrator is assigned an academic adviser who monitors their progress through graduation. With at least ten advisers for each academic year, students are assured of individual attention and guidance. Advisers meet with students at least twice a semester.

DEPARTMENTAL HONORS
Students with a 3.6 minimum GPA in the major and an outstanding senior project are considered for honors. Normally no more than 10% of graduating majors receive departmental honors in a given year.

GUIDELINES FOR ALL AMERICAN STUDIES MAJORS AND CONCENTRATORS
Declaring the Major or Concentration
Although students generally declare their major or concentration in the spring of their sophomore year, students may want to take electives early on in areas that interest them but that later connect with the American studies major.

Grading
A grade lower than C- cannot be counted toward the major or concentration in American studies. A grade of C- can be counted only with the approval of the director or associate director. Pass/D/Fail courses do not count toward the major or concentration unless the course was taken before the student declared the major or concentration.
MAJOR IN AMERICAN STUDIES

A minimum of nine courses is required to complete the major. Please note that as of January 2018 Major requirements have changed, beginning with the Class of 2020. Please consult with the department if there are any questions.

Two American Studies Core courses.
The following two courses are ordinarily required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AMST UN1010</td>
<td>Introduction to American Studies</td>
</tr>
<tr>
<td>HIST UN2478</td>
<td>U.S. Intellectual History, 1865 To the Present</td>
</tr>
</tbody>
</table>

or AMST UN3930 Topics in American Studies

Please note, the AMST UN3930 section MUST be Freedom and Citizenship in the U.S. to count towards the core course requirement

Two seminars in American Studies

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AMST UN3930</td>
<td>Topics in American Studies</td>
</tr>
<tr>
<td>AMST UN3931</td>
<td>Topics in American Studies</td>
</tr>
</tbody>
</table>

Additional Courses

Four courses drawn from at least two departments, one of which must be in History and one of which must deal primarily with some aspect of American experience before 1900. (A course in U.S. History before 1900 would fulfill both requirements.)

Senior Research Project

The final requirement for the major in American Studies is completion of a senior essay, to be submitted in the spring of senior year. Alternatively, students may fulfill this requirement by taking an additional seminar in which a major paper is required or by writing an independent essay under the supervision of a faculty member. Seniors who wish to do a senior research project are required to take the Senior Project Colloquium AMST UN3920 in the fall of the senior year.

CONCENTRATION IN AMERICAN STUDIES

A minimum of 7 courses is required to complete the concentration. Please note that as of January 2018 Concentration requirements have changed, beginning with the Class of 2020. Please consult with the department if there are any questions.

Two American Studies Core courses.
The following are ordinarily required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AMST UN1010</td>
<td>Introduction to American Studies</td>
</tr>
<tr>
<td>HIST UN2478</td>
<td>U.S. Intellectual History, 1865 To the Present</td>
</tr>
</tbody>
</table>

or AMST UN3930 Topics in American Studies

Please note, the AMST UN3930 section MUST be Freedom and Citizenship in the U.S. to count towards the core course requirement

Additional Courses

Select five additional courses drawn from at least two departments, one of which must be in History, and one of which must deal with the period before 1900.

ANCIENT STUDIES

Program Office: 617 Hamilton; 212-854-3902; classics@columbia.edu
http://www.columbia.edu/cu/classics/

Director of Undergraduate Studies: Prof. Katharina Volk, 601 Hamilton; 212-854-5683; kv2018@columbia.edu

Director of Academic Administration and Finance: Juliana Driever, 617 Hamilton; 212-854-2726; jd2185@columbia.edu (gwv1@columbia.edu)

The purpose of this program is to enable the student to explore the cultural context of the ancient Mediterranean as a whole while concentrating on one specific Mediterranean or Mesopotamian culture. Central to the concept of the program is its interdisciplinary approach, in which the student brings the perspectives and methodologies of at least three different disciplines to bear on his or her area of specialization.

Faculty participating in the program are scholars specializing in all aspects of ancient culture and civilization from the Departments of Anthropology; Art History and Archaeology; Classics; History; Middle Eastern, South Asian, and African Studies; Philosophy; and Religion, ensuring that a wide variety of approaches are available.

Course offerings vary year to year. Students are required to discuss their program prior to or during registration. The culmination of the ancient studies major comes in the senior year, when students with different areas of specialization come together to share their ideas in the senior seminar and then to write a substantial piece of original research. Students should think about topics for their senior paper during the junior year and find a faculty adviser at the beginning of the fall term of their senior year, after consulting with the director of undergraduate studies.

In the senior year, students register for ANCS UN3995 during the fall, and ANCS UN3998 Directed Research In Ancient Studies is usually taken during the spring. Sections should be arranged directly with the academic departmental administrator after finding a faculty adviser.

GUIDELINES FOR ALL ANCIENT STUDIES MAJORS

Grading

Advanced placement credits and courses passed with a grade of D may not be counted toward the major.
Courses

In an interdisciplinary program, courses that are available may on occasion have a substantial overlap in content. Since credit cannot be given twice for the same work, no courses may be counted toward the major that overlap significantly with courses already taken or in progress.

It is the student’s responsibility to discuss his or her program with the director of undergraduate studies well in advance and to provide him or her with all the necessary information on the courses concerned, since failure to do so may result in a course not being counted after it has already been taken.

Any course in the Department of Classics may be credited toward the major.

</tbody>
</table>

Language Study
Select two courses of an ancient language at or above the intermediate level, i.e., 1200-level or above.

Fundamental Breadth
Select two introductory courses on some aspect of the ancient Mediterranean. Some examples include:
- HIST UN1010 The Ancient Greeks 800-146 B.C.E.
- AHIS UN3248 Greek Art and Architecture
- AHIS UN3250 Roman Art and Architecture
- PHIL UN2101 The History of Philosophy I: Presocratics to Augustine
- CLLT UN3132 Classical Myth

Advanced Study
Select two advanced courses on the ancient Mediterranean, typically at the 3000- or 4000-level.

Cultural Concentration
Select four courses on the culture of the language chosen, including one history course.

* The minimum language requirement must be completed by the end of the first semester of the student’s senior year, so that the student is equipped to use sources in the original language in their thesis. Students are strongly urged to begin study of an ancient language as soon as possible and to complete more than the minimum requirements, since the best way to gain an understanding of a culture is through the actual words of its people. Those considering graduate work on the ancient world should also be aware that most graduate schools require more than two years of undergraduate language training for admission. The language offered in fulfillment of this requirement should generally match the student’s area of cultural concentration; special arrangements are available with other universities for students whose cultural concentration require languages not normally taught at Columbia. Students entering with expertise in their chosen languages are placed in advanced courses as appropriate but are still required to complete at least two semesters of language courses at Columbia; exceptions to this policy may be made in the case of languages not normally taught at Columbia. Language courses at the 1100-level may not be counted toward the major. Language courses, including those at the 1100-level, must be taken for a letter grade.

** Relevant introductory courses are offered by the Department of Classics or from offerings in the Programs or Departments of Ancient Studies, Art History and Archaeology, History, Philosophy, or Religion. Students should confirm a course’s relevance with the director of undergraduate studies as soon as possible.

ANTHROPOLOGY

http://www.columbia.edu/cu/anthropology

Directors of Undergraduate Studies:
Professor Catherine Fennell; 959 Schermerhorn Extension; 212 854-4752; cdf2106@columbia.edu; Office Hours: TBA
Professor John Pemberton; 858 Schermerhorn Extension; 212 854-7463; jp373@columbia.edu; Office Hours: Tuesdays 2:30-4:30

Departmental Consultants:
Archeology: Prof. Zoë Crossland, 965 Schermerhorn Extension; 212-854-7465; zc2149@columbia.edu
Biological/Physical Anthropology: Prof. Ralph Holloway, 856 Schermerhorn Extension; 212-854-4570; rlh2@columbia.edu

Anthropology at Columbia is the oldest department of anthropology in the United States. Founded by Franz Boas in 1896 as a site of academic inquiry inspired by the uniqueness of cultures and their histories, the department fosters an
expansiveness of thought and independence of intellectual pursuit.

Cross-cultural interpretation, global socio-political considerations, a markedly interdisciplinary approach, and a willingness to think otherwise have formed the spirit of anthropology at Columbia. Boas himself wrote widely on pre-modern cultures and modern assumptions, on language, race, art, dance, religion, politics, and much else, as did his graduate students including, most notably, Ruth Benedict and Margaret Mead.

In these current times of increasing global awareness, this same spirit of mindful interconnectedness guides the department. Professors of anthropology at Columbia today write widely on colonialism and postcolonialism; on matters of gender, theories of history, knowledge, and power; on language, law, magic, mass-mediated cultures, modernity, and flows of capital and desire; on nationalism, ethnic imaginations, and political contestations; on material cultures and environmental conditions; on ritual, performance, and the arts; and on linguistics, symbolism, and questions of representation. Additionally, they write across worlds of similarities and differences concerning the Middle East, China, Africa, the Caribbean, Japan, Latin America, South Asia, Europe, Southeast Asia, North America, and other increasingly transnational and technologically virtual conditions of being.

The Department of Anthropology traditionally offered courses and majors in three main areas: sociocultural anthropology, archaeology, and biological/physical anthropology. While the sociocultural anthropology program now comprises the largest part of the department and accounts for the majority of faculty and course offerings, archaeology is also a vibrant program within anthropology whose interests overlap significantly with those of sociocultural anthropology. Biological/physical anthropology has shifted its program to the Department of Ecology, Evolution, and Environmental Biology. The Anthropology Department enthusiastically encourages cross-disciplinary dialogue across disciplines as well as participation in study abroad programs.

SOCIOCULTURAL ANTHROPOLOGY

At the heart of sociocultural anthropology is an exploration of the possibilities of difference and the craft of writing. Sociocultural anthropology at Columbia has emerged as a particularly compelling undergraduate liberal arts major. Recently, the number of majors in sociocultural anthropology has more than tripled.

Students come to sociocultural anthropology with a wide variety of interests, often pursuing overlapping interests in, for example, performance, religion, writing, law, ethnicity, mass-media, teaching, language, literature, history, human rights, art, linguistics, environment, medicine, film, and many other fields, including geographical areas of interest and engagement. Such interests can be brought together into provocative and productive conversation with a major or concentration in sociocultural anthropology. The requirements for a major in sociocultural anthropology reflect this intellectual expansiveness and interdisciplinary spirit.

ARCHAEOLOGY

Archaeologists study the ways in which human relations are mediated through material conditions, both past and present. Particular emphases in the program include the development of ancient states and empires, especially in the indigenous Americas; the impact of colonial encounters on communities in the American Southwest, the Levant and Africa; and human-animal relations in prehistory, religion and ritual, and the archaeology of the dead.

Themes in our teaching include the political, economic, social, and ideological foundations of complex societies; and archaeological theory and its relationship to broader debates in social theory, technology studies, and philosophy. Faculty members also teach and research on questions of museum representations, archaeological knowledge practices, and the socio-politics of archaeology. The program includes the possibility of student internships in New York City museums and archaeological fieldwork in the Americas and elsewhere.

ADVISING

Majors and concentrators should consult the director of undergraduate studies when entering the department and devising programs of study. Students may also seek academic advice from any anthropology faculty member, as many faculty members hold degrees in several fields or positions in other departments and programs at Columbia. All faculty in the department are committed to an expansiveness of thought and an independence of intellectual pursuit and advise accordingly.

HONORS THESIS

Anthropology majors with a minimum GPA of 3.6 in the major who wish to write an honors thesis for departmental honors consideration may enroll in ANTH UN3999 The Senior Thesis Seminar in Anthropology. Students should have a preliminary concept for their thesis prior to course enrollment. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

GUIDELINES FOR ALL

ANTHROPOLOGY MAJORS AND

CONCENTRATORS

Grading

No course with a grade of D or lower can count toward the major or concentration. Only the first course that is to count toward the major or concentration can be taken Pass/D/Fail.

Courses

Courses offered in other departments count toward the major and concentration only when taught by a member of the Department of Anthropology. Courses from other departments not taught by anthropology faculty must have the approval of the director of undergraduate studies in order to count toward the major or concentration.

MAJOR IN ANTHROPOLOGY

The requirements for this program were modified on January 29, 2016.

The program of study should be planned as early as possible in consultation with the director of undergraduate studies.

The anthropology major requires 30 points in the Department of Anthropology.

Sociocultural Focus

Students interested in studying sociocultural anthropology are required to take the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH UN1002</td>
<td>The Interpretation of Culture</td>
</tr>
<tr>
<td>ANTH UN2004</td>
<td>Introduction to Social and Cultural Theory</td>
</tr>
<tr>
<td>ANTH UN2005</td>
<td>Ethnographic Imagination</td>
</tr>
</tbody>
</table>

Archaeology Focus

Students interested in studying archaeological anthropology are required to take the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH UN1002</td>
<td>The Interpretation of Culture</td>
</tr>
<tr>
<td>ANTH UN2004</td>
<td>Introduction to Social and Cultural Theory</td>
</tr>
<tr>
<td>ACLG UN2028</td>
<td>Pasts, Presents &amp; Futures: An Introduction to 21st Century Archaeology</td>
</tr>
</tbody>
</table>

NOTE: Students wishing to pursue an interdisciplinary major in archaeology should see the Archaeology section of this Bulletin.

Biological/Physical Focus

Students interested in studying this field should refer to the major in evolutionary biology of the human species in the Department of Ecology, Evolution, and Environmental Biology.

CONCENTRATION IN ANTHROPOLOGY

The anthropology concentration requires 20 points in the Department of Anthropology.

Sociocultural Focus

Students interested in studying sociocultural anthropology are required to take the following course:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH UN1002</td>
<td>The Interpretation of Culture</td>
</tr>
</tbody>
</table>

Archaeology Focus

Students interested in studying archaeological anthropology are required to take the following course:
ACLG UN2028  Pasts, Presents & Futures: An Introduction to 21st Century Archaeology

**Biological/Physical Focus**

Students interested in pursuing study in this field should refer to the concentration in evolutionary biology of the human species in the Department of Ecology, Evolution, and Environmental Biology.

**Director of Undergraduate Studies:** Prof. Ovidiu Savin, 409 Mathematics; 212-854-8233; savin@math.columbia.edu

**Calculus Director:** Prof. Michael Woodbury; 525 Mathematics; 212-854-2849; woodbury@math.columbia.edu

**Computer Science-Mathematics Adviser:** Prof. Patrick X. Gallagher, 411 Mathematics; 212-854-4346; pxg@math.columbia.edu

**Economics-Mathematics Advisers:**
- *Mathematics:* Prof. Julien Dubedat, 601 Mathematics; 212-854-8806; jd2653@columbia.edu
- *Economics:* Dr. Susan Elmes, 1006 International Affairs Building; 212-854-9124; se5@columbia.edu

**Mathematics-Statistics Advisers:**
- *Mathematics:* Prof. Julien Dubedat, 601 Mathematics; 212-854-8806; dubedat@math.columbia.edu
- *Statistics:* Prof. Banu Baydil, 611 Watson; 212-851-2132; bb2717@columbia.edu

The major in mathematics is an introduction to some of the highlights of the development of theoretical mathematics over the past four hundred years from a modern perspective. This study is also applied to many problems, both internal to mathematics and arising in other disciplines such as physics, cryptography, and finance.

Majors begin by taking either Honors mathematics or the calculus sequence. Students who do not take MATH UN1207 Honors Mathematics A and MATH UN1208 Honors Mathematics B normally take MATH UN2010 Linear Algebra in the second year. Following this, majors begin to learn some aspects of the main branches of modern mathematics: algebra, analysis, and geometry; as well as some of their subdivisions and hybrids (e.g., number theory, differential geometry, and complex analysis). As the courses become more advanced, they also become more theoretical and proof-oriented and less computational.

Aside from the courses offered by the Mathematics Department, cognate courses in areas such as astronomy, chemistry, physics, probability, logic, economics, and computer science can be used toward the major. A cognate course must be a 2000-level (or higher) course and must be approved by the director of undergraduate studies. In general, a course not taught by the Mathematics Department is a cognate course for the mathematics major if either (a) it has at least two semesters of calculus as a stated prerequisite, or (b) the subject matter in the course is mathematics beyond an elementary level, such as PHIL UN3411 Symbolic Logic, in the Philosophy Department, or COMS W3203 Discrete Mathematics: Introduction to Combinatorics and Graph Theory, in the Computer Science Department.

Another requirement for majors is participation in an undergraduate seminar, usually in the junior or senior year. In these seminars, students gain experience in learning an advanced topic and lecturing on it. In order to be eligible for departmental honors, majors must write a senior thesis.

**COURSES FOR FIRST-YEAR STUDENTS**

The systematic study of mathematics begins with one of the following three alternative calculus and linear algebra sequences:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
<tr>
<td>MATH UN1102</td>
<td>and Calculus II</td>
</tr>
<tr>
<td>MATH UN1201</td>
<td>and Calculus III</td>
</tr>
<tr>
<td>MATH UN1202</td>
<td>and Calculus IV</td>
</tr>
<tr>
<td>MATH UN2010</td>
<td>and Linear Algebra</td>
</tr>
</tbody>
</table>

MATH UN1101  Calculus I
- MATH UN1102  and Calculus II
- MATH UN1201  and Calculus III
- MATH UN1202  and Calculus IV
- MATH UN2010  and Linear Algebra

MATH UN1101  Calculus I
- MATH UN1102  and Calculus II
- MATH UN1205  and Accelerated Multivariable
- MATH UN2010  Calculus and Linear Algebra

MATH UN1101  Calculus I
- MATH UN1102  and Calculus II
- MATH UN1207  and Honors Mathematics A
- MATH UN1208  and Honors Mathematics B

Credit is allowed for only one calculus and linear algebra sequence.

*Calculus I, II* is a standard course in single-variable differential and integral calculus; *Calculus III, IV* is a standard course in multivariable differential and integral calculus; *Accelerated Multivariable Calculus* is an accelerated course in multivariable differential and integral calculus.

While *Calculus II* is no longer a prerequisite for *Calculus III, students are strongly urged to take it before taking *Calculus III. In particular, students thinking of majoring or concentrating in mathematics or one of the joint majors involving mathematics should take *Calculus II before taking *Calculus III. Note that *Calculus II is a prerequisite for*
Accelerated Multivariable Calculus, and both Calculus II and Calculus III are prerequisites for Calculus IV.

The third sequence, Honors Mathematics A-B, is for exceptionally well-qualified students who have strong Advanced Placement scores. It covers multivariable calculus (MATH UN1201 Calculus III - MATH UN1202 Calculus IV) and linear algebra (MATH UN2010 Linear Algebra), with an emphasis on theory.

MATH UN1003 College Algebra and Analytic Geometry does not count toward the degree. Students who take this course do not receive college credit.

ADVANCED PLACEMENT

The department grants 3 credits for a score of 4 or 5 on the AP Calculus AB exam provided students complete MATH UN1102 Calculus II or MATH UN1201 Calculus III with a grade of C or better. The department grants 3 credits for a score of 4 on the AP Calculus BC exam provided students complete MATH UN1102 Calculus II or MATH UN1201 Calculus III with a grade of C or better. The department grants 6 credits for a score of 5 on the AP Calculus BC exam provided students complete MATH UN1201 Calculus III or MATH UN1205 Accelerated Multivariable Calculus MATH UN1207 Honors Mathematics A with a grade of C or better. Students can receive credit for only one calculus sequence.

PLACEMENT IN THE CALCULUS SEQUENCES

Calculus I
Students who have essentially mastered a precalculus course and those who have a score of 3 or less on an Advanced Placement (AP) exam (either AB or BC) should begin their study of calculus with MATH UN1101 Calculus I.

Calculus II and III
Students with a score of 4 or 5 on the AB exam, 4 on the BC exam, or those with no AP score but with a grade of A in a full year of high school calculus may begin with either MATH UN1102 Calculus II or MATH UN1201 Calculus III. Note that such students who decide to start with Calculus III may still need to take Calculus II since it is a requirement or prerequisite for other courses. In particular, they MUST take Calculus II before going on to MATH UN1202 Calculus IV. Students with a score of 5 on the BC exam may begin with Calculus III and do not need to take Calculus II.

Those with a score of 4 or 5 on the AB exam or 4 on the BC exam may receive 3 points of AP credit upon completion of Calculus II with a grade of C or higher. Those students with a score of 5 on the BC exam may receive 6 points of AP credit upon completion of Calculus III with a grade of C or higher.

Accelerated Multivariable Calculus
Students with a score of 5 on the AP BC exam or 7 on the IB HL exam may begin with MATH UN1205 Accelerated Multivariable Calculus. Upon completion of this course with a grade of C or higher, they may receive 6 points of AP credit.

Honors Mathematics A
Students who want a proof-oriented theoretical sequence and have a score of 5 on the BC exam may begin with MATH UN1207 Honors Mathematics A, which is especially designed for mathematics majors. Upon completion of this course with a grade of C or higher, they may receive 6 points of AP credit.

TRANSFERS INSIDE THE CALCULUS SEQUENCES

Students who wish to transfer from one calculus course to another are allowed to do so beyond the date specified on the Academic Calendar. They are considered to be adjusting their level, not changing their program. However, students must obtain the approval of the new instructor and their advising dean prior to reporting to the Office of the Registrar.

GRADING

No course with a grade of D or lower can count toward the major, interdepartmental major, or concentration. Students who are doing a double major cannot double count courses for their majors.

DEPARTMENTAL HONORS

In order to be eligible for departmental honors, majors must write a senior thesis. To write a senior thesis, students must register for MATH UN3999 Senior Thesis in Mathematics in the fall semester of their senior year. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

</tr>
</tbody>
</table>

12 points in any combination of mathematics and cognate courses. **

* Students who are not contemplating graduate study in mathematics may replace one or both of the two terms of MATH GU4061-4062 by one or two of the following courses: MATH UN2500 Analysis and Optimization, MATH UN3007 Complex Variables, MATH UN3028 Partial Differential Equations, or MATH GU4032 Fourier Analysis.

** A course not taught by the Mathematics Department is a cognate course for the mathematics major if either (a) it has at least two semesters of calculus as a stated prerequisite and is a 2000-level (or higher) course, or (b) the subject matter in the course is mathematics beyond an elementary level, such as PHIL UN3411 Symbolic Logic, in the Philosophy Department, or COMS W3203 Discrete Mathematics: Introduction to Combinatorics and Graph Theory, in the Computer Science Department. In exceptional cases, the director of undergraduate studies may approve the substitution of certain more advanced courses for those mentioned above.
The program of study should be planned with a departmental adviser before the end of the sophomore year. Majors who are planning on graduate studies in mathematics are urged to obtain a reading knowledge of one of the following languages: French, German, or Russian.

Majors are offered the opportunity to write an honors senior thesis under the guidance of a faculty member. Interested students should contact the director of undergraduate studies.

**MAJOR IN APPLIED MATHEMATICS**

The major requires 38-40 points as follows:

Select one of the following three calculus and linear algebra sequences (13-15 points including Advanced Placement Credit):

| MATH UN1101 | Calculus I |
| - MATH UN1102 | and Calculus II |
| - MATH UN1201 | and Calculus III |
| - MATH UN1202 | and Calculus IV |
| - MATH UN2010 | and Linear Algebra |

| MATH UN1101 | Calculus I |
| - MATH UN1102 | and Calculus II |
| - MATH UN1205 | and Accelerated Multivariable Calculus |
| - MATH UN2010 | and Linear Algebra |

| MATH UN1101 | Calculus I |
| - MATH UN1102 | and Calculus II |
| - MATH UN1207 | and Honors Mathematics A |
| - MATH UN1208 | and Honors Mathematics B |

Select one of the following three courses:

| MATH UN2500 | Analysis and Optimization |
| MATH GU4032 | Fourier Analysis |
| MATH GU4061 | Introduction To Modern Analysis I |

| APMA E4901 | Seminar: Problem in Applied Mathematics (junior year) |
| APMA E4903 | Seminar: Problems in Applied Mathematics (senior year) |

18 points in electives, selected from the following (other courses may be used with the approval of the Applied Mathematics Committee):

| MATH UN2500 | Analysis and Optimization |
| MATH UN3007 | Complex Variables |
| - MATH GU4065 | Honors Complex Variables |
| - APMA E4204 | Functions of a Complex Variable |

| MATH UN3027 | Ordinary Differential Equations |
| MATH UN3028 | Partial Differential Equations |
| - APMA E4200 | Partial Differential Equations |
| - APMA E6301 | Analytic methods for partial differential equations |

| MATH GU4032 | Fourier Analysis |
| APMA E4300 | Computational Math: Introduction to Numerical Methods |

| APMA E4101 | Introduction to Dynamical Systems |
| APMA E4150 | Applied Functional Analysis |
| APMA E4400 | Introduction to Biophysical Modeling |

---

**MAJOR IN COMPUTER SCIENCE–MATHEMATICS**

The goal of this interdepartmental major is to provide substantial background in each of these two disciplines, focusing on some of the parts of each which are closest to the other. Students intending to pursue a Ph.D. program in either discipline are urged to take additional courses, in consultation with their advisers.

The major requires 20 points in computer science, 19-21 points in mathematics, and two 3-point electives in either computer science or mathematics.

**Computer Science**

| COMS W1004 | Introduction to Computer Science and Programming in Java |
| or COMS W1007 | Honors Introduction to Computer Science |

| COMS W3134 | Data Structures in Java |
| or COMS W3137 | Honors Data Structures and Algorithms |

**Major in Economics-Mathematics**

**Major in Mathematics-Statistics**

The program is designed to prepare the student for: (1) a career in industries such as finance and insurance that require a high level of mathematical sophistication and a substantial knowledge of probability and statistics, and (2) graduate study in quantitative disciplines. Students choose electives in finance, actuarial science, operations research, or other quantitative fields to complement requirements in mathematics, statistics, and computer science.

or an advanced computer science offering in programming

**Electives**

An approved selection of three advanced courses in mathematics, statistics, applied mathematics, industrial engineering and operations research, computer science, or approved mathematical methods courses in a quantitative discipline. At least one elective must be a Mathematics Department course numbered 3000 or above.

Students interested in modeling applications are recommended to take MATH UN3027 Ordinary Differential Equations and MATH UN3028 Partial Differential Equations.

Students interested in finance are recommended to take MATH GR5010 Introduction to the Mathematics of Finance, STAT GU4261 Statistical Methods in Finance, and STAT GU4221 Time Series Analysis.

Students interested in graduate study in mathematics or in statistics are recommended to take MATH GU4061 Introduction To Modern Analysis I and MATH GU4062 Introduction To Modern Analysis II.

Students preparing for a career in actuarial science are encouraged to replace STAT GU4205 Linear Regression Models with STAT GU4282 Linear Regression and Time Series Methods, and to take among their electives STAT GU4281 Theory of Interest.

**Concentration in Mathematics**

The concentration requires the following:

**Mathematics**

Select one of the following three multivariable calculus and linear algebra sequences:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1201</td>
<td>Calculus III</td>
</tr>
<tr>
<td>- MATH UN1202</td>
<td>and Calculus IV</td>
</tr>
<tr>
<td>- MATH UN2010</td>
<td>and Linear Algebra</td>
</tr>
</tbody>
</table>

**Statistics**

Select one of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT GU4203</td>
<td>PROBABILITY THEORY</td>
</tr>
<tr>
<td>STAT GU4204</td>
<td>Statistical Inference</td>
</tr>
<tr>
<td>STAT GU4205</td>
<td>Linear Regression Models</td>
</tr>
</tbody>
</table>
# Archaeology

**The Columbia Center for Archaeology** (http://www.columbia.edu/cu/archaeology): 965 Schermerhorn Extension

**Director of Undergraduate Studies**: Prof. Terence D’Altroy, 961 Schermerhorn; 212-854-2131; tnd1@columbia.edu

Archaeology is the study of the material conditions inhabited and acted upon by people in the past and present. Investigation of the past through the study of material remains is entangled with historiography, politics, and individual and collective memory, and is implicated in the production of present-day identities. Archaeology has come to mean many things to different generations of scholars, yet all approaches share in common a focus on the physical remains of the past and on the interpretive acts that enliven these remains and are challenged by them.

At Columbia, archaeology is a multidisciplinary field practiced by faculty and students in the humanities, social sciences, and natural sciences. At present, there are faculty in the Departments of Anthropology; Art History and Archaeology; Classics; East Asian Languages and Cultures; Historic Preservation; History; Middle Eastern, South Asian, and African Studies; as well as in the Center for Environmental Research and Conservation, the Institute for Research on Women and Gender, and the Lamont-Doherty Earth Observatory, all of whom conduct research on prehistory, ancient society, or historical archaeology.

Among locations in which students and faculty are conducting or participating in field programs are Argentina, Peru, Central America, the North American Southwest, New York City, upstate New York, the UK, France, Italy, Greece, Turkey, Egypt, Yemen, Israel, Palestine, and Madagascar. Archaeologists at Columbia also work with professionals at a wide range of institutions in New York. Among the institutions at which students in particular programs may conduct research, or work on internships, are the American Museum of Natural History, the Brooklyn Museum, the Metropolitan Museum of Art, the Museum of the City of New York, the National Museum of the American Indian, the New York Botanical Garden, and the South Street Seaport Museum.

## Departmental Honors

For the requirements for departmental honors, please check with the program advisers. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

### Professors
- Zainab Bahrani
- Terence D'Altroy
- William V. Harris
- Holger Klein
- Feng Li
- Kristina Milnor (Barnard)
- Stephen Murray
- Esther Pasztory (*emerita*)
- Nan Rothschild (Barnard, *emerita*)
- Marc Van De Mieroop

### Associate Professors
- Francesco Benelli
- Zoë Crossland
- Francesco de Angelis
- Severin Fowles (Barnard)
- Ioannis Mylonopoulos

### Assistant Professors
- Ellen Morris (Barnard)
- Marco Maiuro

### Adjunct/Visiting Professors
- Brian Boyd
- Megan O’Neil (Barnard)
- Walter Pitman
- Adam Watson
- Norman Weiss
- George Wheeler

### Lecturers
- Clarence Gifford
- Jill Shapiro

### On Leave
- Prof. Crossland (2015-2016)
Guidelines for All Archaeology Majors and Concentrators

Courses

It is recommended that archaeology students consider introductory courses in Earth and environmental sciences, environmental biology, and/or chemistry for their Core Curriculum science requirement.

For information on upper-level graduate courses and courses in historic preservation, please see the program advisers. Decisions about upper-level, related, or seminar courses that are not on this list and their applicability to the major or concentration in archaeology should be made in consultation with the program advisers.

Graduate Study

Students intending to pursue graduate degrees in archaeology should be aware that a reading knowledge of two languages is often required as part of graduate study. Further, although language courses do not count toward the major or concentration, students are encouraged to acquire language training that is relevant to their particular interests in archaeology.

Major in Archaeology

Please read Guidelines for all Archaeology Majors and Concentrators above.

The program of study should be planned as early as possible with the program advisers, preferably before the end of the sophomore year and no later than the beginning of the junior year. The major in archaeology requires a total of 30 points within the major and 9 points of related courses as follows:

Two introductory courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACLG UN2028</td>
<td>Pasts, Presents &amp; Futures: An Introduction to 21st Century Archaeology</td>
</tr>
<tr>
<td>ANTH UN1008</td>
<td>The Rise of Civilization</td>
</tr>
<tr>
<td>or ANTH UN1007</td>
<td>The Origins of Human Society</td>
</tr>
</tbody>
</table>

Select two upper-level courses from different regions of the world, in addition to three other upper-level courses, planned in consultation with the program advisers.

Participation of four to six weeks in field projects with which Columbia University is affiliated, independent study in excavation or other field projects, or relevant museum internship and/or lab work. *

Select one laboratory course in archaeology or its equivalent in the field, as approved by the program advisers.

The capstone seminar in archaeology:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH UN3993</td>
<td>World Archaeologies/Global Perspectives</td>
</tr>
</tbody>
</table>

Select 9 points of related courses, planned with the program advisers in accordance with the student’s interests.

A senior thesis is recommended for students planning to pursue a graduate degree. ***

* The field, school, project, or internship must be approved in advance by the program advisers, and arrangements should be made in advance with the director of undergraduate studies for credits to be accepted as part of the degree. For more information, see the Center for Archaeology (http://www.columbia.edu/cu/archaeology) website.

** Taught alternate years, preferably taken in the junior or senior year, or a substitute seminar to be decided with the advance approval of the director of undergraduate studies. Students who are writing a thesis may substitute a thesis seminar for this requirement.

*** Topics should be discussed with a faculty adviser during the junior year, allowing time for planning, research, and travel during the following summer. In the senior year, students may register for two semesters of senior thesis study with their adviser, e.g., ANTH UN3997 Supervised Individual Research Course In Anthropology or ANTH UN3999 The Senior Thesis Seminar in Anthropology, to cover the writing of the thesis. The final draft of the thesis must be submitted by March 25. (See the Center for Archaeology (http://www.columbia.edu/cu/archaeology) webpages for more information.)

Concentration in Archaeology

Please read Guidelines for all Archaeology Majors and Concentrators above.

The program of study should be planned with the program advisers. The concentration in archaeology requires a total of 21 points from within anthropology, art history and archaeology, and other approved departments, with no more than four courses being taken within any single department. Requirements for the concentration are as follows:

Select one of the following introductory courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH UN1007</td>
<td>The Origins of Human Society</td>
</tr>
<tr>
<td>ANTH UN1008</td>
<td>The Rise of Civilization</td>
</tr>
<tr>
<td>ACLG UN2028</td>
<td>Pasts, Presents &amp; Futures: An Introduction to 21st Century Archaeology</td>
</tr>
</tbody>
</table>

Select one seminar or colloquium in the Departments of Anthropology, Art History and Archaeology, Classics, or History, as approved by the program advisers.

Select three upper-level courses, including at least one from two different regions of the world.

Select one related course, planned with the program advisers in accordance with the student’s interests.
The Architecture curriculum introduces design at a variety of scales, acknowledging that integrated design thinking is effective for problem solving at any scale and in any discipline. Students will experiment with full-scale installations and devices and make small-scale models of urban conditions from which they extract, interpret and invent new possibilities of inhabitation and use. The curriculum intentionally balances the traditions of handcrafted representation with evolving digital technologies of architectural design and communication.

The Architecture major complements, and makes great use of its University setting. With access to superb libraries, research centers, graduate programs, and abundant intellectual resources, our students have the opportunity to follow their creative instincts to great depth and breadth – and they do. The major depends on New York City as more than a convenient site for many design and research projects and frames the City as one of the key social and architectural, and thus didactic, markers of Modernity. Architecture students study with peers from countries around the world in one of the most diverse cities in the world. A large majority of the Architecture students expand their education by interning in Architecture or a related field during their undergraduate studies. Alumni of the Department are leaders in architecture and design fields around the world. The faculty teaching in the undergraduate program are dedicated teachers who are also at the forefront of practice and research and are similarly drawn to New York City as a nexus of global design thinking.

Students interested in obtaining a professional degree in Architecture continue on to graduate programs after their undergraduate degree, and students from the Barnard-Columbia program have enjoyed enormous success in their admissions to the most competitive graduate programs in the country. Students who study Architecture as undergraduates have also pursued graduate degrees in a variety of disciplines including Urban Planning, Law, and Media and Communications.

**Student Learning Outcomes**

Students in the Architecture Majors who fully engage with the curriculum should be able to complete the following outcomes:

- Apply integrated design thinking to specific problems in and beyond the discipline;
- Visually communicate architectural concepts and research using discipline-specific techniques in multiple media;
- Verbally present independent, group or assigned research, in multiple media formats;
- Organize and concisely write in a variety of formats including reports, case studies, synthetic overviews, etc.;
- Understand and critically interpret major buildings and themes of Architectural history and theory;
- Be intellectually prepared for graduate studies in architecture and related disciplines.
Departmental Honors

Senior requirements (a portfolio and research paper from a previous architecture course) are used to award departmental honors. Students must have a grade point average of at least 3.6 in classes for the major. Normally no more than 10% of the graduating majors in the department each year receive departmental honors.

Professors of Professional Practice:
Kadambari Baxi and Karen Fairbanks (Chair)

Assistant Professor:
Ralph Ghoche

Term Assistant Professor of Professional Practice:
Ignacio G. Galan

Adjunct Professors:
Joeb Moore
Madeline Schwartzman
Suzanne Stephens

Adjunct Assistant Professors:
Severino Alfonso Dunn
Marcelo Lopez-Dinardi
Carrie Norman
Ana Penalba
Todd Rouhe
Brad Samuels
Fred Tang
Irina Verona

**MAJOR IN ARCHITECTURE**

The major in architecture requires a total of 14 courses, distributed as follows:

**Studio Courses**

Four studio courses, to be taken one per semester (studio courses have limited enrollment and priority is given to Architecture majors):

ARCH UN3101 Architectural Representation: Abstraction
ARCH UN3103 Architectural Representation: Perception
ARCH UN3201 Architectural Design, I
ARCH UN3202 Architectural Design, II

**Required History/Theory Courses** *

Five elective courses following the distribution requirement below:

ARCH UN3117 Perceptions of Architecture
One course with a topic that is pre-1750
One course with a topic that is post-1750
Two electives (it is suggested that one of these be on a non-western topic)

**Senior Courses** *

ARCH UN3901 Senior Seminar

Either a second Senior Seminar (from our program), a seminar from a related department (and related to student’s disciplinary specialization/cluster), Architectural Design III, or Independent Research

**Cluster of Related Courses**

Three courses that relate to a single topic or theme that is relevant to architecture. Courses for the cluster may be taken in any department and may not overlap with any other courses for the major (e.g. history/theory courses or senior courses). All cluster courses should be selected in consultation with a major adviser.

**Senior Requirements**

Portfolio
Research Paper from Senior Seminar or Senior Course

* These are courses offered by the architecture department or other applicable departments offered within the University. Students should consult the program office for a list of applicable courses each semester.

**ART HISTORY**

**Departmental Office:** 826 Schermerhorn; 212-854-4505
http://www.columbia.edu/cu/arthistory/

**Director of Undergraduate Studies:** Prof. Avinoam Shalem, 814 Schermerhorn; 212-854-5681; as4501@columbia.edu (kej2110@columbia.edu)

**Director of Art Humanities:** Prof. Matthew McKelway, 919 Schermerhorn; 212-854-3182; mpm8@columbia.edu

**Coordinator for Undergraduate Programs:** Emily Benjamin, 826 Schermerhorn; 212-854-4505; eb3061@columbia.edu

The goal of the major in the Department of Art History and Archaeology is to explore the history of art, architecture, and archaeology across a broad historical, cultural, geographic, and methodological spectrum.

Department courses take advantage of the extraordinary cultural resources of New York City and often involve museum assignments and trips to local monuments. The department offers a major and concentration in art history and in the history and theory of architecture, and a combined major in art history and visual arts.

At the heart of the major is AHIS UN3000 Majors’ Colloquium: the Literature and Methods of Art History, which introduces different methodological approaches to art history and critical texts that have shaped the discipline. The colloquium also prepares students for the independent research required in seminars and advanced lecture courses, and should be taken during the junior year.

Surveys and advanced lecture courses offered by Barnard and Columbia cover the spectrum of art history from antiquity to the present and introduce students to a wide range of materials
and methodologies. Limited-enrollment seminars have a narrower focus and offer intensive instruction in research and writing. The opportunity for advanced research with a senior thesis is available to students who qualify.

The major readily accommodates students who wish to study abroad during junior year. Courses taken at accredited programs can generally count as transfer credits toward the major, but students must gain the approval of the director of undergraduate studies. Similarly, any transfer credit for the major must be approved by the director of undergraduate studies. Generally no more than 12 points of transfer credit are applicable to the major. The form to petition for transfer credit can be found on the department website (http://www.columbia.edu/cu/arthistory/undergraduate/forms.html). Eligible Art History courses taken at Reid Hall and through the Berlin Consortium are counted as Columbia courses, not transfer courses.

All newly declared majors and concentrators should visit the department office and speak with the undergraduate program coordinator about the requirements and their planned curriculum.

The director of undergraduate studies regularly communicates with majors by e-mail to announce departmental events, museum internships, and other news. Students who do not receive these messages should email the undergraduate program coordinator. The director of undergraduate studies is also available to talk to students about their professional goals and plans to study abroad.

**COURSE INFORMATION**

**Lectures**

Attendance at the first class meeting is recommended.

**Colloquia**

For information about enrollment in the required colloquium **AHIS UN3000 Majors’ Colloquium: the Literature and Methods of Art History**, students should consult the department during the registration period in the semester prior to the one in which the course is offered. Interested students must sign up using an online form; majors will be informed of the sign-up dates and deadline via the majors mailing list. Enrollment is limited and admission is at the discretion of the instructor. It is recommended that students sign up for the colloquium in their junior year.

**Seminars**

Seminars require an application which is due in the departmental office in 826 Schermerhorn before the registration period in the semester prior to the one in which the course is offered (April for fall courses, November for spring courses). The required application form is available in PDF format on the departmental website (http://www.columbia.edu/cu/arthistory/undergraduate/forms.html). Students should wait list the seminars to which they apply on SSOL.

**Bridge Seminars**

Bridge seminars are open to graduate and undergraduate students. As with other seminars, they require an application, which are due in the semester prior to the semester in which the course is offered (August for fall courses, December for spring courses). The required application form is available in PDF format on the department website (http://www.columbia.edu/cu/arthistory/undergraduate/forms.html).

**Bridge Lectures**

Bridge lectures are open to graduate and advanced undergraduate students. They do not require an application.

**Travel Seminar**

In the spring, one or more undergraduate seminars in the Department of Art History and Archaeology may be designated as a travel seminar. Travel seminars receive funding to sponsor travel over the spring break to a distant site related to the subject matter of the seminar.

**STUDY ABROAD**

**Reid Hall, Paris**

For information about the Columbia University in Paris Art History Program at Reid Hall, including summer session courses, visit the Office of Global Programs website.

**Summer Program in Italy: Archaeological Fieldwork at Hadrian’s Villa**

Columbia University offers a four-week summer program that provides undergraduate and graduate students with the opportunity to excavate and learn together at Hadrian’s Villa, a UNESCO World Heritage site near Rome and the most important Roman villa. It synthesizes Roman, Greek, and Egyptian architectural and artistic traditions and has attracted scholarly attention for centuries. For more information, visit the program website.

**Columbia Summer Program in Venice**

The Department of Art History and Archaeology and the Department of Italian offer a summer program based at Co’ Foscari University in Venice. The program uses an interdisciplinary approach to understanding Italian culture through study of its language, literature/film, architecture, art history and conservation, and economy. Students have the opportunity to gain a deeper appreciation of the rich Venetian culture, traditions and history. The program is open to qualified undergraduate and graduate students from the U.S. and Italy. For more information, visit the program website.
Columbia Summer Program in Greece

The Department of Art History and Archaeology and the Program in Hellenic Studies offer a new summer program in Athens. “Curating the Histories of the Greek Present” examines aspects of Greek history and culture through the organization of an art exhibition under the general theme of the environment. The project is structured around classroom seminars, museum and site visits, walking tours, and workshop sessions in which students will learn about and gain experience in all stages of curating an exhibition. For more information, visit the program website.

DEPARTMENTAL HONORS

Senior Thesis Prize

A prize is awarded each year to the best senior honors thesis written in the Department of Art History and Archaeology.

PROFESSORS

- Alexander Alberro (Barnard)
- Zainab Bahrami
- Barry Bergdoll
- Michael Cole
- Jonathan Crary
- Vidya Dehejia
- David Freedberg
- Robert E. Harrist, Jr.
- Anne Higonnet (Barnard)
- Holger Klein
- Rosalind Krauss
- Branden Joseph
- Matthew McKelway
- Stephen Murray
- Jonathan Reynolds (Barnard)
- Simon Schama
- Avinoam Shalem
- Zoë Strother

ASSOCIATE PROFESSORS

- Francesco de Angelis
- Noam M. Elcott
- Elizabeth Hutchinson (Barnard)
- Kellie Jones
- Ioannis Mylonopoulos

ASSISTANT PROFESSORS

- Diane Bodart
- Meredith Gamer
- Eleonora Pistis
- Michael Waters

ADJUNCT FACULTY

- Dawn Delbanclo
- Rosalyn Deutsche (Barnard)
- John Rajchman
- Stefaan Van Liefferinge

LECTURERS

- Talia Andrei
- Frederique Baumgartner
- Marta Becherini
- Colby Chamberlain
- Miriam Chusid
- Huffa Frobes-Cross
- Alessandra Di Croce
- Daniel Greenberg
- Yoko Hara
- Alexandra Helprin
- Page Knox
- Janet Kraynak
- Sandrine Larrive-Bass
- Martina Mims
- Irina Oryshkevich
- Olivia Powell
- Maria Gonzalez Pendas
- Elizabeth Perkins
- Michael Sanchez
- Rachel Silveri
- Susan Sivard
- Caroline Wamsler

ON LEAVE

- Profs. Alberro, Mylonopoulos, Strother (2017-2018)
- Profs. Bergdoll, Elcott, Gamer, Kraynak (Fall 2017)
- Profs. Dehejia, Krauss (Spring 2018)
- Prof. Bergdoll (Reid Hall, Spring 2018)

GUIDELINES FOR ALL ART HISTORY AND ARCHAEOLOGY MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS

Courses

HUMA UN1121 Masterpieces of Western Art (Art Humanities) does not count toward the majors or concentrations, and no credit is given for Advanced Placement exams.

Grading

Courses in which a grade of D has been received do not count toward the major or concentration requirements.
Only the first course a student takes in the department may be taken for a grade of Pass/D/Fail. Classes taken in the Architecture or Visual Arts departments to fulfill the studio requirement may be taken for a grade of Pass/D/Fail.

**Senior Thesis**

The senior thesis project consists of a research paper 35-45 pages in length. It is a year-long project, and students writing a thesis must register for AHIS UN3002 Senior Thesis for the fall and spring terms. Much of the fall semester is devoted to research, and the spring semester to writing.

All thesis writers are required to participate in class and, on alternate weeks, meet as a group or individually with the instructor. Group meetings are designed as a series of research and writing workshops geared toward students’ research projects. Students receive a total of six credits for successful completion of the thesis and class.

In order to apply, students follow a selection process similar to the one currently used for seminars. Students must identify a thesis topic and secure a faculty adviser in the Department of Art History and Archaeology. Applications must indicate the subject of the thesis, a short annotated bibliography, and the name and the signature of the adviser, followed by a one-page statement (400 words) outlining the topic, goals, and methodology of the thesis.

The application deadline is set for August before the senior year. Please check the department website (http://www.columbia.edu/cu/arthistory/undergraduate/senior-thesis.html) for exact dates. Applications may be delivered in person or emailed to the coordinator for undergraduate programs. The director of undergraduate studies, in consultation with the thesis adviser, reviews the applications.

Students who intend to write a thesis should begin formulating a research topic and approaching potential faculty sponsors during the spring of the junior year. Currently, the department offers the Summer Research Travel Grant fellowship, which supports thesis-related research and travel during the summer. Additional senior thesis research funding during the academic year is administered through Columbia College and General Studies.

Senior thesis applications may be found at: http://www.columbia.edu/cu/arthistory/undergraduate/forms.html

**Summer Research Travel Grant**

The department offers the Summer Research Travel Grant, which may be used for travel to museums, building sites, libraries, archives, and other places of interest relevant to the thesis project. Students normally use these funds to conduct research during the summer before senior year.

Travel grant applications require a carefully edited thesis proposal, itemized budget, and supporting letter from a faculty sponsor. Applications are due in April of the student’s junior year. Students will be notified of deadlines as they become available. Please contact the coordinator for undergraduate programs with any questions.

**Major in Art History**

Please read Guidelines for all for Art History and Archaeology Majors, Concentrators, and Interdepartmental Majors above.

The year-long senior thesis project (for qualified students; see below) AHIS UN3002 Senior Thesis may substitute for one elective lecture course. Seminars may substitute for lecture courses and may count toward fulfillment of the distribution requirements. Barnard Art History courses count toward the majors and concentration requirements.

The requirements for the major are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AHIS UN3000</td>
<td>Majors’ Colloquium: the Literature and Methods of Art History</td>
</tr>
<tr>
<td>Seven 3-point lecture courses in Art History:</td>
<td></td>
</tr>
<tr>
<td>At least one course in three of four historical periods, listed below</td>
<td></td>
</tr>
<tr>
<td>An additional two courses in two different world regions, listed below</td>
<td></td>
</tr>
<tr>
<td>Two additional lectures of the student’s choice</td>
<td></td>
</tr>
<tr>
<td>Two seminars in art history</td>
<td></td>
</tr>
<tr>
<td>A studio course taken in the Visual Arts or Architecture departments (which may be taken Pass/D/Fail)</td>
<td></td>
</tr>
</tbody>
</table>

**Historical Periods**

- Ancient (pre-400 CE/AD)
- 400-1400
- 1400-1700
- 1700-Present

**World Regions**

- Africa
- Asia
- Europe/North America/Australia
- Latin America
- Middle East

NOTE: These chronological divisions are approximate. In case of ambiguities, please contact the director of undergraduate studies.

**Major in History and Theory of Architecture**

Please read Guidelines for all for Art History and Archaeology Majors, Concentrators, and Interdepartmental Majors above.

Majors can take advantage of one of the strengths of the department by focusing on architectural history. This track
combines an introductory studio in architectural design with a slightly modified program in art history. Courses in the Department of Architecture may substitute for up to two courses in art history, with approval of the director of undergraduate studies.

The requirements for the major are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AHIS UN3000</td>
<td>Majors’ Colloquium: the Literature and Methods of Art History</td>
</tr>
</tbody>
</table>

Seven lecture courses in art history, one of which must be AHIS UN1007 Introduction to Architecture, and three of which must focus on architectural history. Courses must cover four of five general areas:

- Ancient Mediterranean
- Medieval Europe
- Renaissance and Baroque
- 18th-20th century
- Non-Western

At least one seminar in art history or architectural history

Architectural Studio:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ARCH UN1020</td>
<td>Introduction To Architectural Design and Visual Culture</td>
</tr>
</tbody>
</table>

NOTE: These chronological divisions are approximate. In case of ambiguities, please contact the director of undergraduate studies.

**MAJOR IN ART HISTORY AND VISUAL ARTS**

Please read Guidelines for all for Art History and Archaeology Majors, Concentrators, and Interdepartmental Majors above.

Students interested in the combined major should contact the coordinator for undergraduate programs in the Art History department, as well as the director of undergraduate studies in the Visual Arts department.

Up to two 3-point courses in art history may be replaced by a related course in another department, with approval of the adviser. The combined major requires the completion of sixteen or seventeen courses. It is recommended that students interested in this major begin working toward the requirements in their sophomore year.

The requirements for the major are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AHIS UN3000</td>
<td>Majors’ Colloquium: the Literature and Methods of Art History</td>
</tr>
</tbody>
</table>

Seven 3-point lecture courses in art history:

- At least one course in three of four historical periods, as listed below
- An additional two courses in two different world regions, as listed below
- Two additional lectures of the student’s choice

In the senior year, students must complete either a seminar in the Department of Art History and Archaeology or a senior project in visual arts (pending approval by the Visual Arts Department).

NOTE: These chronological divisions are approximate. In case of ambiguities, please contact the director of undergraduate studies.

**HISTORICAL PERIODS**

- Ancient (pre-400 CE/AD)
- 400-1400
- 1400-1700
- 1700-present

**WORLD REGIONS**

- Africa
- Asia
- Europe/North America/Australia
- Latin America
- Middle East

**CONCENTRATION IN ART HISTORY**

Please read Guidelines for all for Art History and Archaeology Majors, Concentrators, and Interdepartmental Majors above.

The requirements for the concentration are as follows:

Seven 3-point lecture courses in art history:

- At least one course in three of four historical periods, listed below
- An additional two courses in two different world regions, listed below
- Two additional lectures of the student’s choice

NOTE: These chronological divisions are approximate. In case of ambiguities, please contact the director of undergraduate studies.

**HISTORICAL PERIODS**

- Ancient (pre-400 CE/AD)
- 400-1400
- 1400-1700
- 1700-present

**WORLD REGIONS**

- Africa
Concentrators are not required to take the majors colloquium, a seminar, or a studio course.

Concentration in History and Theory of Architecture

Please read Guidelines for all for Art History and Archaeology Majors, Concentrators, and Interdepartmental Majors above.

The requirements for the concentration are as follows:

Seven courses in art history, including four in architectural history. Courses must cover four of five general areas, as described for the major:

- Ancient Mediterranean
- Medieval Europe
- Renaissance and Baroque
- 18th-20th century
- Non-Western

Concentrators are not required to take the majors colloquium, a seminar, or a studio course.

At the heart of the major is AHIS UN3000 Majors’ Colloquium: the Literature and Methods of Art History, which introduces different methodological approaches to art history and critical texts that have shaped the discipline. The colloquium also prepares students for the independent research required in seminars and advanced lecture courses, and should be taken during the junior year.

Surveys and advanced lecture courses offered by Barnard and Columbia cover the spectrum of art history from antiquity to the present and introduce students to a wide range of materials and methodologies. Limited-enrollment seminars have a narrower focus and offer intensive instruction in research and writing. The opportunity for advanced research with a senior thesis is available to students who qualify.

The major readily accommodates students who wish to study abroad during junior year. Courses taken at accredited programs can generally count as transfer credits toward the major, but students must gain the approval of the director of undergraduate studies. Similarly, any transfer credit for the major must be approved by the director of undergraduate studies. Generally no more than 12 points of transfer credit are applicable to the major. The form to petition for transfer credit can be found on the department website (http://www.columbia.edu/cu/arthistory/undergraduate/forms.html).

Eligible Art History courses taken at Reid Hall and through the Berlin Consortium are counted as Columbia courses, not transfer courses.

All newly declared majors and concentrators should visit the department office and speak with the undergraduate program coordinator about the requirements and their planned curriculum.

The director of undergraduate studies regularly communicates with majors by e-mail to announce departmental events, museum internships, and other news. Students who do not receive these messages should email the undergraduate program coordinator. The director of undergraduate studies is also available to talk to students about their professional goals and plans to study abroad.

Course Information

Lectures

Attendance at the first class meeting is recommended.

Colloquia

For information about enrollment in the required colloquium AHIS UN3000 Majors’ Colloquium: the Literature and Methods of Art History, students should consult the department during the registration period in the semester prior to the one in which the course is offered. Interested students must sign up using an online form; majors will be informed of the sign-up dates and deadline via the majors mailing list. Enrollment is limited and admission is at the discretion of the
instructor. It is recommended that students sign up for the colloquium in their junior year.

Seminars
Seminars require an application which is due in the departmental office in 826 Schermerhorn before the registration period in the semester prior to the one in which the course is offered (April for fall courses, November for spring courses). The required application form is available in PDF format on the departmental website (http://www.columbia.edu/cu/arthistory/undergraduate/forms.html). Students should wait list the seminars to which they apply on SSOL.

Bridge Seminars
Bridge seminars are open to graduate and undergraduate students. As with other seminars, they require an application, which are due in the semester prior to the semester in which the course is offered (August for fall courses, December for spring courses). The required application form is available in PDF format on the department website (http://www.columbia.edu/cu/arthistory/undergraduate/forms.html).

Bridge Lectures
Bridge lectures are open to graduate and advanced undergraduate students. They do not require an application.

Travel Seminar
In the spring, one or more undergraduate seminars in the Department of Art History and Archaeology may be designated as a travel seminar. Travel seminars receive funding to sponsor travel over the spring break to a distant site related to the subject matter of the seminar.

STUDY ABROAD
Reid Hall, Paris
For information about the Columbia University in Paris Art History Program at Reid Hall, including summer session courses, visit the Office of Global Programs website.

Summer Program in Italy: Archaeological Fieldwork at Hadrian’s Villa
Columbia University offers a four-week summer program that provides undergraduate and graduate students with the opportunity to excavate and learn together at Hadrian’s Villa, a UNESCO World Heritage site near Rome and the most important Roman villa. It synthesizes Roman, Greek, and Egyptian architectural and artistic traditions and has attracted scholarly attention for centuries. For more information, visit the program website.

Columbia Summer Program in Venice
The Department of Art History and Archaeology and the Department of Italian offer a summer program based at Co’ Foscari University in Venice. The program uses an interdisciplinary approach to understanding Italian culture through study of its language, literature/film, architecture, art history and conservation, and economy. Students have the opportunity to gain a deeper appreciation of the rich Venetian culture, traditions and history. The program is open to qualified undergraduate and graduate students from the U.S. and Italy. For more information, visit the program website.

Columbia Summer Program in Greece
The Department of Art History and Archaeology and the Program in Hellenic Studies offer a new summer program in Athens. "Curating the Histories of the Greek Present" examines aspects of Greek history and culture through the organization of an art exhibition under the general theme of the environment. The project is structured around classroom seminars, museum and site visits, walking tours, and workshop sessions in which students will learn about and gain experience in all stages of curating an exhibition. For more information, visit the program website.

DEPARTMENTAL HONORS
SENIOR THESIS PRIZE
A prize is awarded each year to the best senior honors thesis written in the Department of Art History and Archaeology.

• Kellie Jones
Major in Art History and Visual Arts

Students electing the combined major should consult with a faculty adviser in the department, as well as with the director of undergraduate studies in the Visual Arts Department.

Up to two of the seven 3-point courses in art history may be replaced by a specifically related course in another department with approval of the adviser. The combined major requires fulfillment of sixteen or seventeen courses. It is recommended that students interested in this major begin work toward the requirements in their sophomore year.

The requirements for the major are as follows:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AHIS W3895</td>
<td>Majors’ Colloquium: the Literature and Methods of Art History</td>
</tr>
</tbody>
</table>

Seven 3-point lecture courses in art history.

- At least one course in three of four historical periods, as listed below.
- An additional two courses drawn from at least two different world regions, as listed below.
- Two additional lectures of the student’s choice

21 points in Visual Arts covering:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>VIAR R1001</td>
<td>Basic Drawing</td>
</tr>
<tr>
<td>VIAR R3330</td>
<td>Sculpture I</td>
</tr>
</tbody>
</table>

Five additional VIAR R3000-level or above course

In the senior year, students undertake either a seminar in the Department of Art History and Archaeology or a senior project in visual arts (pending approval by the Visual Arts Department).

NOTE: These chronological divisions are approximate. In case of ambiguities about the eligibility of a course to fill the requirement, please consult the director of undergraduate studies.

Historical Periods

- Ancient (up to 400 CE/AD)
- 400-1400
- 1400-1700
- 1700-present

World Regions

- Africa
- Asia
- Europe, North America, Australia
- Latin America
- Middle East

Astronomy

Departmental Office: 1328 Pupin; 212-854-3278
http://www.astro.columbia.edu

Director of Undergraduate Studies:
Fall 2016: Prof. Frederik B.S. Paerels, 1022 Pupin; 212-854-0181; frits@astro.columbia.edu
Astronomy is, at once, the oldest science and one of the most vibrant fields of modern research. Its goal is to construct testable, quantitative, coherent models of the universe (the UNIty of the diVERSE) and its contents—galaxies, stars, and planets. The department offers two majors, both of which require a solid grounding in the mathematics and physics necessary for the pursuit of the discipline.

The astrophysics major is designed as preparation for graduate study and consists of a standard physics major sequence; a yearlong introduction to astrophysics (typically taken in the sophomore year, but open to first-years with adequate preparation in calculus and physics); and two required courses covering advanced topics in astronomy. Research, in the form of summer internships and/or term-time independent projects, which can lead to a senior thesis, is strongly encouraged. For a research thesis, students should enroll in the parallel, two-semester sequence ASTR UN3997-ASTR UN3998 Independent Research, preferably in their senior year. Students begin the research project in the fall and complete the written thesis in the spring. ASTR UN3997 and ASTR UN3998 cannot be repeated for credit.

The astronomy major provides a basis for further study in the field, but is also designed to be compatible with liberal arts students who pursue other careers and those wishing to combine astronomy with related sciences other than physics, such as chemistry or geology. It requires only two physics courses beyond the introductory sequence and can be completed easily if begun in the sophomore year.

The department offers numerous introductory astronomy courses at the 1000-level that do not have prerequisites. The calculus-based ASTR UN2001 Introduction To Astrophysics, I-ASTR UN2002 Introduction To Astrophysics, II sequence is recommended for astronomy majors and concentrators and is required for astrophysics majors.

Most 3000-level courses, as well as ASTR GU4260 Modeling the Universe, are offered every other year. Students should inquire with the director of undergraduate studies if they have specific questions on the course schedule. ASTR UN3996 Current Research in Astrophysics is a one-point course offered in the fall, designed to introduce majors to research methods and topics. It requires students to attend the department colloquia and a seminar designed to help students understand the colloquium topic. The 3000-level courses need not be taken in any particular order.

GUIDELINES FOR ALL ASTRONOMY MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS
Courses in which the grade of D has been received do not count toward the major or concentration requirements.

MAJOR IN ASTRONOMY
The major requirements, to be planned with the director of undergraduate studies, are as follows:

Mathematics
Calculus sequence through MATH UN1202 Calculus IV or MATH UN1208 Honors Mathematics IV

Astronomy
Select one of the following options:

Option 1:
Two 3-point 1000-level astronomy courses
12 points in astronomy at the 2000-level or above

Option 2:
ASTR UN2001
- ASTR UN2002
Introduction To Astrophysics, I
and Introduction To Astrophysics, II

9 points in astronomy at the 3000-level or above

Physics
Select one of the following physics sequences:

**Sequence 1:**
PHYS UN1401
- PHYS UN1402
- PHYS UN1403
Introduction To Mechanics and Thermodynamics
and Introduction To Electricity, Magnetism, and Optics
and Introduction to Classical and Quantum Waves

**Sequence 2:**
PHYS UN1601
- PHYS UN1602
- PHYS UN2601
Physics, I: Mechanics and Relativity
and Physics, II: Thermodynamics, Electricity, and Magnetism
and Physics, III: Classical and Quantum Waves

**Sequence 3:**
PHYS UN2801
- PHYS UN2802
Accelerated Physics I
and Accelerated Physics II

Additional Physics Courses
Two physics courses at the 3000-level or above

Students contemplating graduate study are advised to include at least two of these physics courses:

PHYS UN3003
Mechanics

PHYS UN3007
Electricity and Magnetism

PHYS GU4021
- PHYS GU4022
Quantum Mechanics
and Quantum Mechanics II

OR

PHYS BC3006
- PHYS GU4023
Quantum Physics
and Thermal and Statistical Physics

Concentration in Astronomy
An extra 3 points of physics can substitute for 3 points of astronomy, as long as the course submitted is at the equivalent or higher level. The concentration requirements are as follows:

**Mathematics**
9 points of mathematics

**Astronomy**
15 points of astronomy, nine of which must be at or above the 2000-level

**Physics**
9 points of physics

**ASTROPHYSICS**

Departmental Office: 1328 Pupin; 212-854-3278

GUIDELINES FOR ALL ASTRONOMY MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS

Courses in which the grade of D has been received do not count toward the major or concentration requirements.

MAJOR IN ASTRONOMY

The major requirements, to be planned with the director of undergraduate studies, are as follows:

Mathematics

Calculus sequence through MATH UN1202 Calculus IV or MATH UN1208 Honors Mathematics IV

Astronomy

Select one of the following options:

Option 1:
- Two 3-point 1000-level astronomy courses
- 12 points in astronomy at the 2000-level or above

Option 2:
- ASTR UN2001 Introduction To Astrophysics, I
- ASTR UN2002 and Introduction To Astrophysics, II

- 9 points in astronomy at the 3000-level or above

Physics

Select one of the following physics sequences:
Sequence 1:
PHYS UN1401 - PHYS UN1402 - PHYS UN1403
Introduction To Mechanics and Thermodynamics and Introduction To Electricity, Magnetism, and Optics and Introduction to Classical and Quantum Waves

Sequence 2:
PHYS UN1601 - PHYS UN1602 - PHYS UN2601
Physics, I: Mechanics and Relativity and Physics, II: Thermodynamics, Electricity, and Magnetism and Physics, III: Classical and Quantum Waves

Sequence 3:
PHYS UN2801 - PHYS UN2802
Accelerated Physics I and Accelerated Physics II

Additional Physics Courses
Two physics courses at the 3000-level or above

Students contemplating graduate study are advised to include at least two of these physics courses:
PHYS UN3003 Mechanics
PHYS UN3007 Electricity and Magnetism
PHYS GU4021 - PHYS GU4022 Quantum Mechanics and Quantum Mechanics II

One of these may be substituted for 3 points of astronomy.

MAJOR IN ASTROPHYSICS

Students considering an Astrophysics major are encouraged to meet with the director of undergraduate studies. If possible, it is useful to start the physics sequence in the first year.

Mathematics
Calculus sequence through MATH UN1202 Calculus IV or MATH UN1208 Honors Mathematics IV

Astronomy
ASTR UN2001 - ASTR UN2002
Introduction To Astrophysics, I and Introduction To Astrophysics, II

6 points in astronomy at the 3000-level or above

Physics
Select one of the following physics sequences:

Sequence 1:
PHYS UN1401 - PHYS UN1402 - PHYS UN1403
Introduction To Mechanics and Thermodynamics and Introduction To Electricity, Magnetism, and Optics and Introduction to Classical and Quantum Waves

Sequence 2:
PHYS UN1601 - PHYS UN1602 - PHYS UN2601
Physics, I: Mechanics and Relativity and Physics, II: Thermodynamics, Electricity, and Magnetism and Physics, III: Classical and Quantum Waves

Sequence 3:
PHYS UN2801 - PHYS UN2802
Accelerated Physics I and Accelerated Physics II

Additional Physics Courses
PHYS UN3003 Mechanics
PHYS UN3007 Electricity and Magnetism
PHYS UN3008 Electromagnetic Waves and Optics
PHYS GU4021 - PHYS GU4022 Quantum Mechanics and Quantum Mechanics II
OR
PHYS BC3006 - PHYS GU4023 Quantum Physics and Thermal and Statistical Physics

CONCENTRATION IN ASTRONOMY

An extra 3 points of physics can substitute for 3 points of astronomy, as long as the course submitted is at the equivalent or higher level. The concentration requirements are as follows:

Mathematics
9 points of mathematics

Astronomy
15 points of astronomy, nine of which must be at or above the 2000-level

Physics
9 points of physics

BIOCHEMISTRY

Undergraduate Office: 340 Havemeyer; 212-854-2163

Departmental Office: 344 Havemeyer; 212-854-2202
http://www.columbia.edu/cu/chemistry/

Director of Undergraduate Studies: Prof. Karen Phillips, 422 Havemeyer; 212-851-7534; kep12@columbia.edu (kep12@chem.columbia.edu)

Program Manager for Undergraduate Studies: Dr. Vesna Gasperov, 211A Havemeyer; 212-854-2017; vg2231@columbia.edu

Biochemistry Advisers:
Biology: Prof. Brent Stockwell, 1208 Northwest Corner Building; 212-854-2919; stockwell@biology.columbia.edu

Chemistry, the study of molecules, is a central science interesting for its own sake but also necessary as an
intellectual link to the other sciences of biology, physics, and environmental science. Faculty find the various disciplines of chemistry fascinating because they establish intellectual bridges between the macroscopic or human-scale world that we see, smell, and touch, and the microscopic world that affects every aspect of our lives. The study of chemistry begins on the microscopic scale and extends to engage a variety of different macroscopic contexts.

Chemistry is currently making its largest impact on society at the nexus between chemistry and biology and the nexus between chemistry and engineering, particularly where new materials are being developed. A typical chemistry laboratory now has more computers than test tubes and no longer smells of rotten eggs.

The chemistry department majors are designed to help students focus on these new developments and to understand the factors influencing the nature of the discipline. Because the science is constantly changing, courses change as well, and while organic and physical chemistry remain the bedrock courses, they too differ greatly from the same courses 40 years ago. Many consider biochemistry to be a foundation course as well. Although different paths within the chemistry major take different trajectories, there is a core that provides the essential foundation students need regardless of the path they choose. Students should consider majoring in chemistry if they share can develop a fascination with the explanatory power that comes with an advanced understanding of the nature and influence of the microscopic world of molecules.

Students who choose to major in chemistry may elect to continue graduate study in this field and obtain a Ph.D. which is a solid basis for a career in research, either in the industry or in a university. A major in chemistry also provides students with an astonishing range of career choices such as working in the chemical or pharmaceutical industries or in many other businesses where a technical background is highly desirable. Other options include becoming a financial analyst for a technical company, a science writer, a high school chemistry teacher, a patent attorney, an environmental consultant, or a hospital laboratory manager, among others. The choices are both numerous and various as well as intellectually exciting and personally fulfilling.

**Advanced Placement**

The department grants advanced placement (AP) credit for a score of 4 or 5. The amount of credit granted is based on the results of the department placement exam and completion of the requisite course. Students who are placed into CHEM UN1604 Intensive General Chemistry (Lecture) are granted 3 points of credit; students who are placed into CHEM UN2045 Intensive Organic Chemistry I (Lecture)-CHEM UN2046 Intensive Organic Chemistry II (Lecture) are granted 6 points of credit. In either case, credit is granted only upon completion of the course with a grade of C or better. Students must complete a department placement exam prior to registering for either of these courses.

**Programs of Study**

The Department of Chemistry offers four distinct academic major programs for undergraduates interested in professional-level training and education in the chemical sciences: chemistry, chemical physics, biochemistry and environmental chemistry. For students interested in a program of less extensive study and coursework, the department offers a concentration in chemistry.

**Course Information**

The results of the placement exam are used to advise students which track to pursue. The Department of Chemistry offers three different tracks. Students who wish to take Track 2 or 3 classes must take the placement exam. Students who wish to pursue Track 1 classes do not need to take the placement exam.

**Track Information**

In the first year, Track 1 students with one year of high school chemistry take a one-year course in general chemistry, and the one-term laboratory course that accompanies it. In the second year, students study organic chemistry, and take organic chemistry laboratory.

Students who qualify by prior examination during orientation week can place into the advanced tracks. There are two options. Track 2 students take, in the fall term, a special one-term intensive course in general chemistry in place of the one-year course. In the second year, students study organic chemistry and take organic chemistry laboratory. Track 3 students take a one-year course in organic chemistry for first-year students and the one-term intensive general chemistry laboratory course. In the second year, students enroll in physical chemistry and the organic chemistry laboratory course.

Additional information on the tracks can be found in the Requirements section.

**Additional Courses**

First-year students may also elect to take CHEM UN2408. This seminar focuses on topics in modern chemistry, and is offered to all qualified students.

Biochemistry (BIOC UN3501, BIOC UN3512) is recommended for students interested in the biomedical sciences.

Physical chemistry (CHEM UN3079-CHEM UN3080), a one-year program, requires prior preparation in mathematics and physics. The accompanying laboratory is CHEM UN3085-CHEM UN3086.
Also offered are a senior seminar (CHEM UN3920); advanced courses in biochemistry, inorganic, organic, and physical chemistry; and an introduction to research (CHEM UN3098).

SAMPLE PROGRAMS

Some typical programs are shown below. Programs are crafted by the student and the director of undergraduate studies to meet individual needs and interests.

Track 1

**First Year**
- CHEM UN1403 General Chemistry I (Lecture)
- CHEM UN1404 General Chemistry II (Lecture)
- CHEM UN1500 General Chemistry Laboratory
- CHEM UN2408 First-Year Seminar in Chemical Research

**Second Year**
- CHEM UN2443 Organic Chemistry I (Lecture)
- CHEM UN2444 Organic Chemistry II (Lecture)
- CHEM UN2493 Organic Chemistry Laboratory I (Techniques)
- CHEM UN2494 Organic Chemistry Laboratory II (Synthesis)

**Third Year**
- CHEM UN3079 Physical Chemistry I
- BIOC UN3501 Biochemistry: Structure and Metabolism
- CHEM UN3546 Advanced Organic Chemistry Laboratory
- CHEM UN3080 Physical Chemistry II
- CHEM UN3098 Supervised Independent Research

**Fourth Year**
- CHEM UN3085 Physical and Analytical Chemistry Laboratory I
- CHEM UN3086 Physical and Analytical Chemistry Laboratory II
- CHEM UN3920 Senior Seminar in Chemical Research
- CHEM GU4071 INORGANIC CHEMISTRY
- Advanced courses (4000-level or higher)

Track 2

**First Year**
- CHEM UN1507 Intensive General Chemistry Laboratory
- CHEM UN2045 Intensive Organic Chemistry I (Lecture)
- CHEM UN2046 Intensive Organic Chemistry II (Lecture)
- CHEM UN2408 First-Year Seminar in Chemical Research

**Second Year**
- CHEM UN3079 Physical Chemistry I
- CHEM UN3080 Physical Chemistry II
- CHEM UN2545 Intensive Organic Chemistry Laboratory
- CHEM UN3546 Advanced Organic Chemistry Laboratory

**Third Year**
- Calculus and physics as required.
- BIOC UN3501 Biochemistry: Structure and Metabolism
- CHEM UN3085 Physical and Analytical Chemistry Laboratory I
- CHEM UN3086 Physical and Analytical Chemistry Laboratory II
- CHEM UN3098 Supervised Independent Research
- CHEM GU4071 INORGANIC CHEMISTRY

**Fourth Year**
- CHEM UN3085 Physical and Analytical Chemistry Laboratory I
- CHEM UN3086 Physical and Analytical Chemistry Laboratory II
- CHEM UN3920 Senior Seminar in Chemical Research
- CHEM GU4071 INORGANIC CHEMISTRY
- Advanced courses (4000-level or higher)

**Track 3**

**First Year**
- Calculus and physics as required.
- CHEM UN1507 Intensive General Chemistry Laboratory
- CHEM UN1604 Intensive General Chemistry (Lecture)
- CHEM UN2408 First-Year Seminar in Chemical Research

**Second Year**
- CHEM UN2443 Organic Chemistry I (Lecture)
- CHEM UN2444 Organic Chemistry II (Lecture)
- CHEM UN2493 Organic Chemistry Laboratory I (Techniques)
- CHEM UN2494 Organic Chemistry Laboratory II (Synthesis)

**Third Year**
- CHEM UN3079 Physical Chemistry I
- BIOC UN3501 Biochemistry: Structure and Metabolism
- CHEM UN3546 Advanced Organic Chemistry Laboratory
- CHEM UN3080 Physical Chemistry II
- CHEM UN3098 Supervised Independent Research

**Fourth Year**
- CHEM UN3085 Physical and Analytical Chemistry Laboratory I
- CHEM UN3086 Physical and Analytical Chemistry Laboratory II
- CHEM UN3920 Senior Seminar in Chemical Research
- CHEM GU4071 INORGANIC CHEMISTRY
- Advanced courses (4000-level or higher)

**PROFESSORS**
- Bruce J. Berne
- Ronald Breslow
- Louis E. Brus
- Virginia W. Cornish
- Kenneth B. Eisenthal
- Richard A. Friesner
- Ruben Gonzalez
ASSOCIATE PROFESSORS
- Angelo Cacciuto
- Luis Campos
- Tristan Lambert
- Wei Min
- Jonathan Owen
- Dalibor Sames
- Latha Venkataraman

ASSISTANT PROFESSORS
- Xavier Roy

SENIOR LECTURER
Karen Phillips

LECTURERS

GUIDELINES FOR ALL CHEMISTRY MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS

Students majoring in chemistry or in one of the interdepartmental majors in chemistry should go to the director of undergraduate studies or the undergraduate program manager in the Department of Chemistry to discuss their program of study. Chemistry majors and interdepartmental majors usually postpone part of the Core Curriculum beyond the sophomore year.

Chemistry Tracks

All students who wish to start with Track 2 or 3 courses must take a placement exam. The results of the placement exam are used to advise students which track to pursue. Unless otherwise specified below, all students must complete one of the following tracks:

Track 1
- CHEM UN1403 General Chemistry I (Lecture)
- CHEM UN1404 General Chemistry II (Lecture)
- CHEM UN1500 General Chemistry Laboratory
- CHEM UN2443 Organic Chemistry I (Lecture)
- CHEM UN2444 Organic Chemistry II (Lecture)
- CHEM UN2493 Organic Chemistry Laboratory I (Techniques)
- CHEM UN2494 Organic Chemistry Laboratory II (Synthesis)

Track 2
- CHEM UN1500 General Chemistry Laboratory
- CHEM UN1604 Intensive General Chemistry (Lecture)
- CHEM UN2443 Organic Chemistry I (Lecture)
- CHEM UN2444 Organic Chemistry II (Lecture)
- CHEM UN2493 Organic Chemistry Laboratory I (Techniques)
- CHEM UN2494 Organic Chemistry Laboratory II (Synthesis)

Track 3
- CHEM UN1507 Intensive General Chemistry Laboratory
- CHEM UN2045 Intensive Organic Chemistry I (Lecture)
- CHEM UN2046 Intensive Organic Chemistry II (Lecture)
- CHEM UN2545 Intensive Organic Chemistry Laboratory

Physics Sequences

The requirements for the physics sequences were modified on December 5, 2014. Students who declared before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

Unless otherwise specified below, all students must complete one of the following sequences:

Sequence A
For students with limited background in high school physics:
- PHYS UN1401 Introduction To Mechanics and Thermodynamics
**Sequence B**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1601</td>
<td>Physics, I: Mechanics and Relativity</td>
</tr>
<tr>
<td>PHYS UN1602</td>
<td>Physics, II: Thermodynamics, Electricity, and Magnetism</td>
</tr>
<tr>
<td>PHYS UN2601</td>
<td>Physics, III: Classical and Quantum Waves</td>
</tr>
</tbody>
</table>

For chemistry majors, the following laboratory courses are recommended, NOT required. For chemical physics majors, the following laboratory courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1493</td>
<td>Introduction to Experimental Physics</td>
</tr>
<tr>
<td>PHYS UN2699</td>
<td>Experiments in Classical and Modern Physics</td>
</tr>
<tr>
<td>PHYS UN3081</td>
<td>Intermediate Laboratory Work</td>
</tr>
</tbody>
</table>

**Sequence C**

For students with advanced preparation in physics and mathematics:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN2801</td>
<td>Accelerated Physics I</td>
</tr>
<tr>
<td>PHYS UN2802</td>
<td>and Accelerated Physics II</td>
</tr>
</tbody>
</table>

For chemistry majors, the following laboratory courses are recommended, NOT required. For chemical physics majors, the following laboratory courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN2699</td>
<td>Experiments in Classical and Modern Physics</td>
</tr>
</tbody>
</table>

**Major in Chemistry**

Select one of the tracks outlined above in *Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors* and complete the following lectures and labs.

**Chemistry**

Select one of the chemistry tracks outlined above.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN2408</td>
<td>First-Year Seminar in Chemical Research (Recommended NOT required)</td>
</tr>
<tr>
<td>CHEM UN3079</td>
<td>Physical Chemistry I</td>
</tr>
<tr>
<td>CHEM UN3080</td>
<td>Physical Chemistry II</td>
</tr>
</tbody>
</table>

**Biology**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>

BIOL UN3500  Independent Biological Research

**Physics**

Select one of the following physics sequences:

**Sequence A:**
- PHYS UN1201  General Physics I
- PHYS UN1202  and General Physics II

**Sequence B:**
- PHYS UN1401  Introduction To Mechanics and Thermodynamics
- PHYS UN1402  and Introduction To Electricity, Magnetism, and Optics
- PHYS UN1403  and Introduction to Classical and Quantum Waves (PHYS UN1403 is recommended but not required)

**Sequence C:**
- PHYS UN1601  Physics, I: Mechanics and Relativity
- PHYS UN1602  and Physics, II: Thermodynamics, Electricity, and Magnetism
- PHYS UN2601  and Physics, III: Classical and Quantum Waves (PHYS UN2601 is recommended but not required)

**Sequence D:**
- PHYS UN2801  Accelerated Physics I
- PHYS UN2802  and Accelerated Physics II

**Mathematics**

Select one of the following sequences:

- Two semesters of calculus:
  - MATH UN1101  Calculus I
  - MATH UN1102  and Calculus II
  - MATH UN1201  and Calculus III
  - MATH UN1202  and Calculus IV

- Two semesters of honors mathematics:
  - MATH UN1207  Honors Mathematics A
  - MATH UN1208  and Honors Mathematics B
  - AP credit and one term of calculus (Calculus II or higher)

**Additional Courses**

Select one of the following additional laboratory courses:

- BIOL UN3040  Lab in Molecular Biology and Contemporary Biology Laboratory
- BIOL UN3050  Project Laboratory In Protein Biochemistry
- BIOL UN3052  Project Laboratory in Molecular Genetics
- BIOL UN3500  Independent Biological Research
- CHEM UN3085  Physical and Analytical Chemistry Laboratory I
- CHEM UN3086  Physical and Analytical Chemistry Laboratory II
- CHEM UN3098  Supervised Independent Research
- CHEM UN3546  Advanced Organic Chemistry Laboratory

Select any three courses from the following:

- CHEM GU4071  INORGANIC CHEMISTRY
- CHEM GU4102  Chemistry for the Brain
- CHEM GU4147  Advanced Organic Chemistry
- BIOC GU4323  BIOPHYSICAL CHEMISTRY I
- BIOC GU4324  Biophysical Chemistry II
- MATH UN3027  Ordinary Differential Equations
- or MATH UN2030  Ordinary Differential Equations

**Major in Chemical Physics**

Select one of the tracks outlined above in Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors and complete the following lectures and labs.

**Chemistry**

Select one of the chemistry tracks outlined above.

- CHEM UN3079  Physical Chemistry I
- CHEM UN3080  Physical Chemistry II
- CHEM UN3085  Physical and Analytical Chemistry Laboratory I
- CHEM UN3086  Physical and Analytical Chemistry Laboratory II
- CHEM UN3098  Supervised Independent Research
- CHEM UN3920  Senior Seminar in Chemical Research
- CHEM GU4221  Quantum Chemistry
- or PHYS GU4021  Quantum Mechanics

**Physics**

Select one of the physics sequences outlined above in Guidelines for all Chemistry Majors, Concentrators and Interdepartmental Majors. For the chemical physics major, one lab MUST be completed for the sequence chosen.

Complete the following lectures:

- PHYS UN3003  Mechanics
- PHYS UN3007  Electricity and Magnetism
- PHYS UN3008  Electromagnetic Waves and Optics

**Mathematics**
Select one of the following sequences:

Four semesters of calculus:
- MATH UN1101 Calculus I
- MATH UN1102 Calculus II
- MATH UN1201 Calculus III
- MATH UN1202 Calculus IV

Two semesters of honors mathematics:
- MATH UN1207 Honors Mathematics A
- MATH UN1208 Honors Mathematics B
- MATH UN3027 Ordinary Differential Equations

Two semesters of advanced calculus:
- MATH UN1202 Calculus IV
- MATH UN3027 Ordinary Differential Equations

Major in Environmental Chemistry

The requirements for this program were modified on February 1, 2016. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

Select one of the tracks outlined above in Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors and complete the following lectures and labs.

Chemistry
Select one of the chemistry tracks outlined above. A second semester of Organic Chemistry lecture is recommended NOT required.
- CHEM UN3079 Physical Chemistry I
- CHEM GU4071 INORGANIC CHEMISTRY

The following courses are recommended NOT required:
- CHEM UN2408 First-Year Seminar in Chemical Research
- CHEM UN3920 Senior Seminar in Chemical Research

Earth and Environmental Science
Select two of the following three courses:
- EESC UN2100 Earth’s Environmental Systems: The Climate System
- EESC UN2200 Earth’s Environmental Systems: The Solid Earth System
- EESC UN2300 Earth’s Environmental Systems: The Life System

Additional course required:
- EESC UN3101 Geochemistry for a Habitable Planet

Select one of the following labs:
- EESC BC3016 Environmental Measurements
- CHEM UN3085 Physical and Analytical Chemistry Laboratory I

Select one option for Independent Research in Environmental Chemistry:
- EESC BC3800 Senior Research Seminar
- EESC BC3801 Senior Research Seminar
- CHEM UN3098 Supervised Independent Research (It is strongly recommended to take CHEM UN3920 if taking CHEM UN3098)

Physics
Select one of the following physics sequences:

Sequence A:
- PHYS UN1201 General Physics I
- PHYS UN1202 General Physics II

Sequence B:
- PHYS UN1401 Introduction To Mechanics and Thermodynamics
- PHYS UN1402 and Introduction To Electricity, Magnetism, and Optics
- PHYS UN1403 and Introduction to Classical and Quantum Waves (Recommended NOT required)

Sequence C:
- PHYS UN1601 Physics, I: Mechanics and Relativity
- PHYS UN1602 and Physics, II: Thermodynamics, Electricity, and Magnetism
- PHYS UN2601 and Physics, III: Classical and Quantum Waves (Recommended, not required)

Sequence D:
- PHYS UN2801 Accelerated Physics I
- PHYS UN2802 and Accelerated Physics II

Mathematics
Two semesters of calculus:
- MATH UN1101 Calculus I
- MATH UN1102 Calculus II
- MATH UN1201 Calculus III
- MATH UN1202 Calculus IV

Additional Courses
Select any two of the following:

Chemistry:
- CHEM UN3080 Physical Chemistry II
- CHEM GU4103 Organometallic Chemistry
- CHEM GU4147 Advanced Organic Chemistry

Earth and Environmental Science:
- EESC BC3017 Environmental Data Analysis
- EESC BC3025 Hydrology
- EESC GU4008 Introduction to Atmospheric Science
- EESC GU4009 Chemical Geology
- EESC GU4040 Climate Thermodynamics and Energy Transfer
- EESC GU4050 Global Assessment and Monitoring Using Remote Sensing
- EESC GU4600 Earth Resources and Sustainable Development
- EESC GU4835 Wetlands and Climate Change
<table>

**Mathematics:**

One additional semester of calculus

---

**Concentration in Chemistry**

No more than four points of CHEM UN3098 Supervised Independent Research may be counted toward the concentration.

Select one of the three chemistry tracks listed below.

**Track 1**

- PHYS UN1201 General Physics I
- PHYS UN1202 and General Physics II

Two semesters of calculus

**Track 2**

- CHEM UN1403 General Chemistry I (Lecture)
- CHEM UN1404 General Chemistry II (Lecture)
- CHEM UN1500 General Chemistry Laboratory

Select 22 points of chemistry at the 2000-level or higher (excluding W2408).

**Track 3**

- CHEM UN1500 General Chemistry Laboratory
- CHEM UN1507 Intensive General Chemistry Laboratory
- CHEM UN1604 Intensive General Chemistry (Lecture)

Select 22 points of chemistry at the 2000-level or higher (excluding W2408).

---

**Biology**

**Departmental Office:** 600 Fairchild, 212-854-4581; mes2314@columbia.edu; biology@columbia.edu

**Director of Undergraduate Studies, Undergraduate Programs and Laboratories:**
Prof. Deborah Mowshowitz, 744D Mudd; 212-854-4497; dbm2@columbia.edu

**Biology Major and Concentration Advisers:**
For a list of current biology, biochemistry, biophysics, and neuroscience and behavior advisers, please visit http://biology.columbia.edu/programs/advisors

- A-H: Prof. Daniel Kalderon, 1013 Fairchild; ddk1@columbia.edu
- I-P: Prof. Alice Heicklen, 744B Mudd; ah2289@columbia.edu
- Q-Z: Prof. Harmen Bussemaker, 607E Fairchild; hjb2004@columbia.edu
- Backup Advisor: Prof. Deborah Mowshowitz, 744D Mudd; 212-854-4497; dbm2@columbia.edu

**Biochemistry Advisers:**

- Biology: Prof. Brent Stockwell, 1208 Northwest Corner Building; 212-854-2948; stockwell@biology.columbia.edu
- Chemistry: Prof. Virginia Cornish, 1209 Northwest Corner Building; 212-854-5209; vc114@columbia.edu

**Biophysics Adviser:** Prof. Ozgur Sahin, 908 Northwest Corner Building; os2246@columbia.edu

**Neuroscience and Behavior Advisers:**

- Biology: Prof. Jian Yang, 917A Fairchild; 212-854-6161; jy160@columbia.edu
- or Prof. Deborah Mowshowitz, 744D Mudd; 212-854-4497; dbm2@columbia.edu

**Psychology:**

- (A-S) Professor Caroline Marvin, 317 Schermerhorn Ext, 854-0166, cbm2118@columbia.edu
- (T-Z) Professor Sarah Woolley, 402B Schermerhorn, 851-9421, sw2277@columbia.edu

**On-Line Resources:**

- Checklist of major requirements: http://biology.columbia.edu/programs-major-requirements
- Additional course information: http://biology.columbia.edu/courses
For the first term of their introductory biology sequence, students may take either BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology, which has a prerequisite of chemistry, or EEEB UN2001 Environmental Biology I: Elements to Organisms, which does not require chemistry. EEEB UN2001 Environmental Biology I: Elements to Organisms may be taken in the first year.

BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology should be taken later, after general chemistry. For more details, see Introductory Courses under Requirements—Major in Biology. All students interested in biology are encouraged to take BIOL UN1908 First-Year Seminar in Modern Biology in the fall semester of their first year.

Non-science majors who wish to take a biology course to fulfill the science requirement are encouraged to take BIOL UN1130 Genes and Development. They may also take, with the instructor’s permission, BIOL UN3208 Introduction to Evolutionary Biology or EEEB UN2001 Environmental Biology I: Elements to Organisms.

Interested students should consult listings in other departments for courses related to biology. For courses in environmental studies, see listings for Earth and environmental sciences or for ecology, evolution, and environmental biology. For courses in human evolution, see listings for anthropology or for ecology, evolution, and environmental biology. For courses in the history of evolution, see listings for history and for philosophy of science. For a list of courses in computational biology and genomics, visit http://systemsbiology.columbia.edu/courses.

**ADVANCED PLACEMENT TRANSFER CREDIT**

Transfer credits granted toward the degree are not automatically counted toward the major. The department determines which transfer credits can be counted toward the major. For most majors, at least four biology or biochemistry courses and at least 18 credits of the total (biology, biochemistry, math, physics, and chemistry) must be taken at Columbia. Barnard courses may not be substituted for the required Columbia courses without advance permission from the advisor. For neuroscience and behavior, one of the five biology course and one of the psychology courses may be transferred. Students who wish to count a course from outside Columbia toward their major must receive written approval from their advisor or the director of undergraduate studies. Students must supply a syllabus and/or course description to receive approval.

**ADVISING**

**Neuroscience and Behavior Advisers:**

Biology: Prof. Jian Yang, 917A Fairchild; 854-6161; jj160@columbia.edu or Prof. Deborah Mowshowitz, 744D Mudd; 854-4497; dbm2@columbia.edu

Psychology:

A-E: Professor Carl Hart, 401D Schermerhorn Hall; 212-854-5313; chair@psych.columbia.edu

F-Q: Professor Caroline Marvin, 355B Schermerhorn Ext; 212-854-3608; ccbm2118@columbia.edu

R-Z: Professor Don Hood, 415 Schermerhorn; 212-854-4587; dch3@columbia.edu

**SUMMER UNDERGRADUATE RESEARCH FELLOWSHIP (SURF) PROGRAM**

First-year students, sophomores, and juniors are eligible for the department’s paid internship program (SURF). This program is competitive; the department cannot assure every eligible student a place in any given summer.

Students apply to the program early in the spring term. A faculty committee headed by Dr. Alice Heicklen then matches selected students to appropriate labs. The deadline for SURF applications is at the beginning of the spring semester.

SURF students must submit a report on their work at the end of the summer session and participate in the following year’s annual Undergraduate Research Symposium. Although it does not carry any academic credit, SURF can be used toward the lab requirement for majors and toward graduation with honors. For detailed information on all summer research programs and how to apply, please visit the SURF website (http://www.columbia.edu/cu/biology/ug/surf). Current detailed descriptions of the SURF program and the application procedure are available at SURF’s website, http://www.columbia.edu/cu/biology/ug/surf/. For more information on the Amgen Scholarship Program, please visit http://www.columbia.edu/cu/biology/ug/amgen/. Applications to all of these programs are through SURF.

**DEPARTMENTAL HONORS**

Students must apply for departmental honors. Applications are due no later than one day after spring break of their senior year. For details, please visit the departmental website at http://biology.columbia.edu/programs/honors-biological-sciences.
(http://biology.columbia.edu/programs/honors-biological-sciences)

**PROFESSORS**

- J. Chloé Bulinski
- Harmen Bussemaker
- Martin Chalfie
- Lawrence A. Chasin
- Julio M. Fernandez
- Stuart Firestein
- Joachim Frank
- Tulle Hazelrigg
- John Hunt
- Daniel Kalderon
- Darcy B. Kelley

- Nataliya Galifianakis
- Jay Hammel
- Danny Nam Ho
- John Loike
- Deborah B. Mowshowitz
- Solomon Mowshowitz
- Vincent R. Racaniello

**GUIDELINES FOR ALL BIOLOGICAL SCIENCES MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS**

Returning students should check the departmental website for any last-minute changes and/or additional information. See especially undergraduate updates and list of department courses. All major and concentration requirements are detailed on the website and links provided below.

**Exceptions to Requirements**

Students must get written permission in advance for any exceptions to the requirements listed below. For the exceptions to be applied toward graduation, the student must notify the biology department in one of the following two ways:

1. The student can file a completed paper planning form, signed by a faculty adviser, in the biology department office at 600 Fairchild;
2. The faculty member approving the exception can send an email explaining the exceptions to mes2314@columbia.edu.

**Grade Requirements for the Major**

A grade of C- or higher must be earned and revealed on your transcript for any course – including the first – to be counted toward the major or concentration requirements. The grade of P is not acceptable. A course that was taken Pass/D/Fail may be counted if and only if the P is uncovered by the Registrar’s deadline.

**Courses**

Courses with the subject code *HPSC* or *SCNC* do not count toward the majors or concentrations.

**MAJOR IN BIOLOGY**

**General Information**

The requirements for the biology major include courses in biology, chemistry, physics, and mathematics.

The required biology courses are one year of introductory biology, two core courses in biology or biochemistry, two 3-point electives in biology or biochemistry, and an appropriate lab experience. See below for details.

The required courses outside the biology department are chemistry through organic (plus labs), one year of college-level
physics (plus lab), and the completion of one year of college-level mathematics (usually calculus).

Alternative sequences to the above may be arranged in special circumstances, but only with the permission of the director of undergraduate studies or a departmental adviser obtained in advance; for example, certain courses listed in the Summer Term Bulletin, the School of General Studies Bulletin, and the Barnard College Bulletin may be applied toward the major. In addition, selected courses at the Columbia-Presbyterian Medical Center are open to advanced undergraduates. Credit toward the major for courses not listed in the Columbia College Bulletin must be discussed in advance with the director of undergraduate studies or a departmental adviser. Students are responsible for notifying the department of all exceptions either in writing or by e-mail as explained above.

Alternative programs must be arranged in advance with the director of undergraduate studies. Students planning graduate work in biology should keep in mind that physical chemistry and statistics are important for many graduate programs.

**Introductory Courses**

The usual one-year introductory biology sequence is BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology-BIOL UN2006 Introductory Biology II: Cell Biology, Development & Physiology, taken in the sophomore year, or EEEB UN2001 Environmental Biology I: Elements to Organisms-BIOL UN2006 Introductory Biology II: Cell Biology, Development & Physiology, which may be taken in the first year.

Other sequences require permission in advance from the director of undergraduate studies or departmental advisers. Students with a strong background in chemistry or molecular biology may take BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology-BIOL UN2006 Introductory Biology II: Cell Biology, Development & Physiology in their first year; the permission of one of the instructors is required.

Premedical students usually take BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology-BIOL UN2006 Introductory Biology II: Cell Biology, Development & Physiology after a year of general chemistry; premedical students interested in the environmental sciences may take EEEB UN2001 Environmental Biology I: Elements to Organisms followed by BIOL UN2006 Introductory Biology II: Cell Biology, Development & Physiology in their first year; the permission of one of the instructors is required.

Students with advanced placement in biology are expected but not required to take EEEB UN2001 Environmental Biology I: Elements to Organisms or BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology as their initial biology course, because BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology-BIOL UN2006 Introductory Biology II: Cell Biology, Development & Physiology is taught at a level of detail and depth not found in most advanced placement courses.

Students who wish to skip BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology and start with a higher-level biology course may do so, but they must obtain permission in advance from the director of undergraduate studies. For additional information, see FAQs for first-year students at [http://www.columbia.edu/cu/biology/ug/advice/faqs/firstyr.html](http://www.columbia.edu/cu/biology/ug/advice/faqs/firstyr.html).

**Core Courses**

Two out of the following five departmental core courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN3022</td>
<td>Developmental Biology</td>
</tr>
<tr>
<td>BIOL UN3031</td>
<td>Genetics</td>
</tr>
<tr>
<td>BIOL UN3041</td>
<td>Cell Biology</td>
</tr>
<tr>
<td>BIOC UN3501</td>
<td>Biochemistry: Structure and Metabolism</td>
</tr>
<tr>
<td>BIOC UN3512</td>
<td>Molecular Biology</td>
</tr>
</tbody>
</table>

**Laboratory Courses**

A laboratory experience in biology is required. It may be fulfilled by completing any one of the following options:

**Option 1:**

Select one of the following 5-point laboratory courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN3050</td>
<td>Project Laboratory In Protein Biochemistry</td>
</tr>
<tr>
<td>BIOL UN3052</td>
<td>Project Laboratory in Molecular Genetics</td>
</tr>
<tr>
<td>BIOL UN3058</td>
<td>Project Laboratory in Microbiology</td>
</tr>
</tbody>
</table>

**Option 2:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN2501</td>
<td>Contemporary Biology Laboratory</td>
</tr>
</tbody>
</table>

Select an additional 3-point lab such as BIOL UN3040 or a Barnard lab.

**Option 3:**

Two terms of BIOL UN3500 taken for a letter grade, including the submission of a satisfactory research report at the end of each semester.

**Option 4:**

Completion of all the requirements for one session of the Summer Undergraduate Research Fellowship (SURF). An additional semester of BIOL UN3500 in the same research lab is recommended but not required. Summer lab work under other auspices may not be substituted for the SURF Program.

The laboratory fee ($150) partially covers the cost of nonreturnable items. This fee is charged for all lab courses, including BIOL UN3500 Independent Biological Research.

**Upper-Level Elective Courses**

Select two additional courses, carrying at least 3 points each, from any of the 3000- or 4000-level lecture courses.
courses. BIOL UN3500 Independent Biological Research cannot be used as one of the courses to satisfy the upper-level elective course requirement.

Chemistry

All majors must take chemistry through organic including labs. One of the following three groups of chemistry courses is required:

Option 1:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1403</td>
<td>General Chemistry I (Lecture) and General Chemistry II (Lecture)</td>
</tr>
<tr>
<td>CHEM UN1500</td>
<td>General Chemistry Laboratory</td>
</tr>
<tr>
<td>CHEM UN3443</td>
<td>Organic Chemistry I (Lecture) and Organic Chemistry II (Lecture)</td>
</tr>
<tr>
<td>CHEM UN2493</td>
<td>Organic Chemistry Laboratory I (Techniques)</td>
</tr>
<tr>
<td>CHEM UN2494</td>
<td>Organic Chemistry Laboratory II (Synthesis)</td>
</tr>
</tbody>
</table>

Option 2:

For students who qualify for intensive chemistry

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1604</td>
<td>Intensive General Chemistry (Lecture) and Intensive General Chemistry Laboratory</td>
</tr>
<tr>
<td>CHEM UN1507</td>
<td>Intensive General Chemistry Laboratory</td>
</tr>
<tr>
<td>CHEM UN3443</td>
<td>Organic Chemistry I (Lecture) and Organic Chemistry II (Lecture)</td>
</tr>
<tr>
<td>CHEM UN2545</td>
<td>Intensive Organic Chemistry Laboratory</td>
</tr>
</tbody>
</table>

Option 3:

For students who qualify for first year organic chemistry

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN2507</td>
<td>Intensive General Chemistry Laboratory</td>
</tr>
<tr>
<td>CHEM UN3045</td>
<td>Intensive Organic Chemistry I (Lecture) and Intensive Organic Chemistry II (Lecture)</td>
</tr>
</tbody>
</table>

Physics

Students must take two terms of physics including the accompanying labs. The usual choices are PHYS UN1201-PHYS UN1202 General Physics II and PHYS UN1291-PHYS UN1292 General Physics Laboratory II. Higher-level physics sequences are also acceptable. The 1400-level sequence is recommended for students who plan to take three terms of physics.

Mathematics

Two semesters of calculus or honors mathematics are required. Students may substitute one semester of statistics for one semester of calculus with an adviser’s permission. For students with AP credit, completion of MATH UN1102 Calculus II, MATH UN1201 Calculus III, or MATH UN1207 Honors Mathematics A is sufficient. However, students with AP credit are encouraged to take additional courses in mathematics or statistics at Columbia.

For more details on the biology major requirements, visit http://biology.columbia.edu/pages/biology-major-requirements.

Major in Biochemistry

The required basic courses for the biochemistry major are chemistry through organic, including laboratory, and one year each of physical chemistry, physics, calculus, biology, and biochemistry/molecular biology.

The required additional courses are three lecture courses chosen from mathematics, chemistry, and biology, and two upper-level laboratory courses.

http://biology.columbia.edu/pages/biochemistry-major-requirements

For more details, see the Chemistry section in this Bulletin or visit http://biology.columbia.edu/pages/biochemistry-major-requirements.

Major in Biophysics

The requirements for the biophysics major are as follows:

One year of introductory biology:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN2005</td>
<td>Introductory Biology I: Biochemistry, Genetics &amp; Molecular Biology</td>
</tr>
<tr>
<td>BIOL UN2006</td>
<td>and Introductory Biology II: Cell Biology, Development &amp; Physiology</td>
</tr>
</tbody>
</table>

Select at least one of the following laboratory courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN3050</td>
<td>Project Laboratory In Protein Biochemistry</td>
</tr>
<tr>
<td>BIOL UN3052</td>
<td>Project Laboratory in Molecular Genetics</td>
</tr>
<tr>
<td>BIOL UN3058</td>
<td>Project Laboratory in Microbiology</td>
</tr>
<tr>
<td>BIOL UN3500</td>
<td>Independent Biological Research</td>
</tr>
</tbody>
</table>

One course in biochemistry or molecular biology:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOC UN3501</td>
<td>Biochemistry: Structure and Metabolism</td>
</tr>
<tr>
<td>or BIOC UN3512</td>
<td>Molecular Biology</td>
</tr>
</tbody>
</table>

Select one of the following options:

Option 1 - Genetics:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN3031</td>
<td>Genetics</td>
</tr>
</tbody>
</table>

Option 2 - Neurobiology:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN3004</td>
<td>Neurobiology I: Cellular and Molecular Neurobiology</td>
</tr>
</tbody>
</table>
or BIOL UN3005 Neurobiology II: Development & Systems

Option 3 - Developmental Biology:

BIOL UN3022 Developmental Biology

Select one of the following sequences to be completed at the end of sophomore year:

<table>
<thead>

<td>- PHYS UN3081</td>
<td>and Intermediate Laboratory Work</td>
</tr>
</tbody>
</table>

Select any two physics courses at the 3000-level or above, chosen in consultation with the adviser.

Calculus through MATH UN1202 or MATH UN1208, and MATH V3027

Chemistry through organic including labs; see biology major for options

Select one additional course at the 3000- or 4000-level in either physics or biology.

For more details, see the Physics section in this Bulletin or visit http://biology.columbia.edu/pages/biophysics-major-requirements.

### Major in Neuroscience and Behavior

In addition to one year of general chemistry, ten courses are required to complete the major in neuroscience and behavior—five in biology and five in psychology.

For more details, see the Psychology section in this Bulletin or visit http://biology.columbia.edu/pages/neuroscience-and-behavior-major-requirements.

### Concentration in Biology

Students who wish to concentrate in biology must design their programs in advance with the director of undergraduate studies or a departmental adviser.

The requirement for the concentration is 22 points in biology or biochemistry, with at least five courses chosen from the courses listed in the Biological Sciences section of the Bulletin. Additional courses in physics, chemistry, and mathematics are required as detailed below.

A project laboratory and BIOL UN2501 Contemporary Biology Laboratory may not both be counted toward the 22-point total. See the biology major requirements for additional information.

The requirements for the concentration in biology are as follows:

<table>
<thead>
<tr>
<th>BIOL UN2005</th>
<th>Introductory Biology I: Biochemistry, Genetics &amp; Molecular Biology</th>
</tr>
</thead>
<tbody>
<tr>
<td>or EEB UN2001</td>
<td>Environmental Biology I: Elements to Organisms</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>BIOL UN2006</th>
<th>Introductory Biology II: Cell Biology, Development &amp; Physiology</th>
</tr>
</thead>
</table>

Select at least one of the following core courses:

<table>
<thead>
<tr>
<th>BIOL UN3022</th>
<th>Developmental Biology</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN3031</td>
<td>Genetics</td>
</tr>
<tr>
<td>BIOL UN3041</td>
<td>Cell Biology</td>
</tr>
<tr>
<td>BIOC UN3501</td>
<td>Biochemistry: Structure and Metabolism</td>
</tr>
<tr>
<td>BIOC UN3512</td>
<td>Molecular Biology</td>
</tr>
</tbody>
</table>

One of these options to fulfill the lab requirement:

<table>
<thead>
<tr>
<th>BIOL UN2501</th>
<th>Contemporary Biology Laboratory (plus second course including laboratory work, usually BIOL UN3040)</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN3050</td>
<td>Project Laboratory In Protein Biochemistry</td>
</tr>
<tr>
<td>BIOL UN3052</td>
<td>Project Laboratory in Molecular Genetics</td>
</tr>
<tr>
<td>BIOL UN3058</td>
<td>Project Laboratory in Microbiology</td>
</tr>
</tbody>
</table>

One or two additional biology or biochemistry lecture courses, level 3000 or above, to reach the total Biology credits of 22 points required for the concentration. Either UN2501 or a five-point lab course, but not both, may count towards the 22 point total.

Chemistry through organic including labs; see biology major for options

One year of physics, including laboratory; see biology major for options

One year of college-level mathematics (ordinarily this should be calculus); see biology major for options

For more details, visit http://biology.columbia.edu/pages/biology-concentration-requirements.
MAJOR IN ENVIRONMENTAL BIOLOGY

For a description of the environmental biology major, see the Ecology, Evolution, and Environmental Biology section in this Bulletin.

BIOPHYSICS

Departmental Office: 600 Fairchild, 212-854-4581; mes2314@columbia.edu; biology@columbia.edu

Director of Undergraduate Studies, Undergraduate Programs and Laboratories:
Prof. Deborah Mowshowitz, 744D Mudd; 212-854-4497; dbm2@columbia.edu

Biology Major and Concentration Advisers:
For a list of current biology, biochemistry, biophysics, and neuroscience and behavior advisers, please visit http://biology.columbia.edu/programs/advisors

- A-H: Prof. Daniel Kalderon, 1013 Fairchild; ddk1@columbia.edu
- I-P: Prof. Alice Heicklen, 744B Mudd; ah2289@columbia.edu
- Q-Z: Prof. Harmen Bussemaker, 607E Fairchild; hjb2004@columbia.edu
- Backup Advisor: Prof. Deborah Mowshowitz, 744D Mudd; 212-854-4497; dbm2@columbia.edu

Biochemistry Advisers:
Biology: Prof. Brent Stockwell, 1208 Northwest Corner Building; 212-854-2948; stockwell@biology.columbia.edu
Chemistry: Prof. Virginia Cornish, 1209 Northwest Corner Building; 212-854-5209; vc114@columbia.edu

Biophysics Adviser: Prof. Ozgur Sahin, 908 Northwest Corner Building; os2246@columbia.edu

Neuroscience and Behavior Advisers:
Biology: Prof. Jian Yang, 917A Fairchild; 212-854-6161; jy160@columbia.edu
or Prof. Deborah Mowshowitz, 744D Mudd; 212-854-4497; dbm2@columbia.edu
Psychology:
(A-S) Professor Caroline Marvin, 317 Schermerhorn Ext, 854-0166, cbm2118@columbia.edu
(T-Z) Professor Sarah Woolley, 402B Schermerhorn, 851-9421, sw2277@columbia.edu

On-Line Resources:

- Checklist of major requirements: http://biology.columbia.edu/programs/major-requirements
- Additional course information: http://biology.columbia.edu/courses

The department offers broad training in basic biological disciplines, with an emphasis in cell and molecular biology. Students have many opportunities to participate in ongoing projects in research laboratories. All the biology-related majors require one year of introductory biology, plus additional courses as detailed in the major requirements and listed on the websites provided above.

For the first term of their introductory biology sequence, students may take either BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology, which has a prerequisite of chemistry, or EEEB UN2001 Environmental Biology I: Elements to Organisms, which does not require chemistry. EEEB UN2001 Environmental Biology I: Elements to Organisms may be taken in the first year.

BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology should be taken later, after general chemistry. For more details, see Introductory Courses under Requirements—Major in Biology. All students interested in biology are encouraged to take BIOL UN1908 First-Year Seminar in Modern Biology in the fall semester of their first year.

Nonscience majors who wish to take a biology course to fulfill the science requirement are encouraged to take BIOL UN1130 Genes and Development. They may also take, with the instructor’s permission, BIOL UN3208 Introduction to Evolutionary Biology or EEEB UN2001 Environmental Biology I: Elements to Organisms.

Interested students should consult listings in other departments for courses related to biology. For courses in environmental studies, see listings for Earth and environmental sciences or for ecology, evolution, and environmental biology. For courses in human evolution, see listings for anthropology or for ecology, evolution, and environmental biology. For courses in the history of evolution, see listings for history and for philosophy of science. For a list of courses in computational biology and genomics, visit http://systemsbiology.columbia.edu/courses.

ADVANCED PLACEMENT TRANSFER CREDIT

Transfer credits granted toward the degree are not automatically counted toward the major. The department determines which transfer credits can be counted toward the major. For most majors, at least four biology or
biochemistry courses and at least 18 credits of the total (biology, biochemistry, math, physics, and chemistry) must be taken at Columbia. Barnard courses may not be substituted for the required Columbia courses without advance permission from the adviser. For neuroscience and behavior, one of the five biology course and one of the psychology courses may be transferred. Students who wish to count a course from outside Columbia toward their major must receive written approval from their adviser or the director of undergraduate studies. Students must supply a syllabus and/or course description to receive approval.

ADVISING

Neuroscience and Behavior Advisers:
Biology: Prof. Jian Yang, 917A Fairchild; 854-6161; jy160@columbia.edu
or Prof. Deborah Mowshowitz, 744D Mudd; 854-4497; dbm2@columbia.edu
Psychology:
A-E: Professor Carl Hart, 401D Schermerhorn Hall; 212-854-5313; chair@psych.columbia.edu
F-Q: Professor Caroline Marvin, 355B Schermerhorn Ext; 212-854-3608; cbm2118@columbia.edu
R-Z: Professor Don Hood, 415 Schermerhorn; 212-854-4587; dch3@columbia.edu

SUMMER UNDERGRADUATE RESEARCH FELLOWSHIP (SURF) PROGRAM

First-year students, sophomores, and juniors are eligible for the department’s paid internship program (SURF). This program is competitive; the department cannot assure every eligible student a place in any given summer.

Students apply to the program early in the spring term. A faculty committee headed by Dr. Alice Heicklen then matches selected students to appropriate labs. The deadline for SURF applications is at the beginning of the spring semester.

SURF students must submit a report on their work at the end of the summer session and participate in the following year’s annual Undergraduate Research Symposium. Although it does not carry any academic credit, SURF can be used toward the lab requirement for majors and toward graduation with honors. For detailed information on all summer research programs and how to apply, please visit the SURF website (http://www.columbia.edu/cu/biology/ug/surf).

Current detailed descriptions of the SURF program and the application procedure are available at SURF’s website, http://www.columbia.edu/cu/biology/ug/surf/. For more information on the Amgen Scholarship Program, please visit http://www.columbia.edu/cu/biology/ug/amgen/. Applications to all of these programs are through SURF.

DEPARTMENTAL HONORS

Students must apply for departmental honors. Applications are due no later than one day after spring break of their senior year. For details, please visit the departmental website at http://biology.columbia.edu/programs/honors-biological-sciences.

GUIDELINES FOR ALL BIOLOGICAL SCIENCES MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS

Returning students should check the departmental website for any last-minute changes and/or additional information. See especially undergraduate updates and list of department courses. All major and concentration requirements are detailed on the website and links provided below.

Exceptions to Requirements

Students must get written permission in advance for any exceptions to the requirements listed below. For the exceptions to be applied toward graduation, the student must notify the biology department in one of the following two ways:

1. The student can file a completed paper planning form, signed by a faculty adviser, in the biology department office at 600 Fairchild;
2. The faculty member approving the exception can send an e-mail explaining the exceptions to mes2314@columbia.edu.

Grade Requirements for the Major

A grade of C- or higher must be earned and revealed on your transcript for any course – including the first – to be counted toward the major or concentration requirements. The grade of P is not acceptable. A course that was taken Pass/D/Fail may be counted if and only if the P is uncovered by the Registrar’s deadline.

Courses

Courses with the subject code HPSC or SCNC do not count toward the majors or concentrations.

MAJOR IN BIOLOGY

General Information

The requirements for the biology major include courses in biology, chemistry, physics, and mathematics.

The required biology courses are one year of introductory biology, two core courses in biology or biochemistry, two 3-point electives in biology or biochemistry, and an appropriate lab experience. See below for details.

The required courses outside the biology department are chemistry through organic (plus labs), one year of college-level physics (plus lab), and the completion of one year of college-level mathematics (usually calculus).

Alternative sequences to the above may be arranged in special circumstances, but only with the permission of the director of undergraduate studies or a departmental adviser obtained in advance; for example, certain courses listed in the Summer Term Bulletin, the School of General Studies Bulletin, and the Barnard College Bulletin may be applied toward the major. In addition, selected courses at the Columbia-Presbyterian Medical Center are open to advanced undergraduates. Credit toward the major for courses not listed in the Columbia College Bulletin must be discussed in advance with the director of undergraduate studies or a departmental adviser. Students are responsible for notifying the department of all exceptions either in writing or by e-mail as explained above.

Alternative programs must be arranged in advance with the director of undergraduate studies. Students planning graduate work in biology should keep in mind that physical chemistry and statistics are important for many graduate programs.

Introductory Courses

The usual one-year introductory biology sequence is BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology-BIOL UN2006 Introductory Biology II: Cell Biology, Development & Physiology, taken in the sophomore year, or EEEB UN2001 Environmental Biology I: Elements to Organisms-BIOL UN2006 Introductory Biology II: Cell Biology, Development & Physiology, which may be taken in the first year.

Other sequences require permission in advance from the director of undergraduate studies or departmental advisers. Students with a strong background in chemistry or molecular biology may take BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology-BIOL UN2006 Introductory Biology II: Cell Biology, Development & Physiology in their first year; the permission of one of the instructors is required.

Premedical students usually take BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology-BIOL UN2006 Introductory Biology II: Cell Biology, Development & Physiology after a year of general chemistry; premedical students interested in the environmental sciences may take EEEB UN2001 Environmental Biology I: Elements to Organisms followed by BIOL UN2006 Introductory Biology II: Cell Biology, Development & Physiology.

Students with advanced placement in biology are expected but not required to take EEEB UN2001 Environmental Biology I: Elements to Organisms or BIOL UN2005
Introductory Biology I: Biochemistry, Genetics & Molecular Biology as their initial biology course, because BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology-BIOL UN2006 Introductory Biology II: Cell Biology, Development & Physiology is taught at a level of detail and depth not found in most advanced placement courses.

Students who wish to skip BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology and start with a higher-level biology course may do so, but they must obtain permission in advance from the director of undergraduate studies. For additional information, see FAQs for first-year students at http://www.columbia.edu/cu/biology/ug/advice/FAQs/firstyr.html.

Core Courses
Two out of the following five departmental core courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN3022</td>
<td>Developmental Biology</td>
</tr>
<tr>
<td>BIOL UN3031</td>
<td>Genetics</td>
</tr>
<tr>
<td>BIOL UN3041</td>
<td>Cell Biology</td>
</tr>
<tr>
<td>BIOC UN3501</td>
<td>Biochemistry: Structure and Metabolism</td>
</tr>
<tr>
<td>BIOC UN3512</td>
<td>Molecular Biology</td>
</tr>
</tbody>
</table>

Laboratory Courses
A laboratory experience in biology is required. It may be fulfilled by completing any one of the following options:

**Option 1:**
Select one of the following 5-point laboratory courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN3050</td>
<td>Project Laboratory In Protein Biochemistry</td>
</tr>
<tr>
<td>BIOL UN3052</td>
<td>Project Laboratory in Molecular Genetics</td>
</tr>
<tr>
<td>BIOL UN3058</td>
<td>Project Laboratory in Microbiology</td>
</tr>
</tbody>
</table>

**Option 2:**
BIOL UN2501 Contemporary Biology Laboratory
Select an additional 3-point lab such as BIOL UN3040 or a Barnard lab.

**Option 3:**
Two terms of BIOL UN3500 taken for a letter grade, including the submission of a satisfactory research report at the end of each semester

**Option 4:**
Completion of all the requirements for one session of the Summer Undergraduate Research Fellowship (SURF). An additional semester of BIOL UN3500 in the same research lab is recommended but not required. Summer lab work under other auspices may not be substituted for the SURF Program.

The laboratory fee ($150) partially covers the cost of nonreturnable items. This fee is charged for all lab courses, including BIOL UN3500 Independent Biological Research.

Upper-Level Elective Courses
Select two additional courses, carrying at least 3 points each, from any of the 3000- or 4000-level lecture courses. BIOL UN3500 Independent Biological Research cannot be used as one of the courses to satisfy the upper-level elective course requirement.

Chemistry
All majors must take chemistry through organic including labs. One of the following three groups of chemistry courses is required:

**Option 1:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1403</td>
<td>General Chemistry I (Lecture) and General Chemistry II (Lecture)</td>
</tr>
<tr>
<td>CHEM UN1500</td>
<td>General Chemistry Laboratory</td>
</tr>
<tr>
<td>CHEM UN3443</td>
<td>Organic Chemistry I (Lecture) and Organic Chemistry II (Lecture)</td>
</tr>
<tr>
<td>CHEM UN2493</td>
<td>Organic Chemistry Laboratory I (Techniques)</td>
</tr>
<tr>
<td>CHEM UN2494</td>
<td>Organic Chemistry Laboratory II (Synthesis)</td>
</tr>
</tbody>
</table>

**Option 2:**
For students who qualify for intensive chemistry

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1604</td>
<td>Intensive General Chemistry (Lecture) and Intensive General Chemistry Laboratory</td>
</tr>
<tr>
<td>CHEM UN1507</td>
<td>Intensive General Chemistry Laboratory</td>
</tr>
<tr>
<td>CHEM UN3443</td>
<td>Organic Chemistry I (Lecture) and Organic Chemistry II (Lecture)</td>
</tr>
<tr>
<td>CHEM UN2545</td>
<td>Intensive Organic Chemistry Laboratory</td>
</tr>
</tbody>
</table>

**Option 3:**
For students who qualify for first year organic chemistry

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN2507</td>
<td>Intensive General Chemistry Laboratory</td>
</tr>
<tr>
<td>CHEM UN3045</td>
<td>Intensive Organic Chemistry I (Lecture) and Intensive Organic Chemistry II (Lecture)</td>
</tr>
</tbody>
</table>

Physics
Students must take two terms of physics including the accompanying labs. The usual choices are PHYS UN1201-PHYS UN1202 General Physics II and PHYS UN1291-PHYS UN1292 General Physics Laboratory II. Higher-level physics sequences are also
acceptable. The 1400-level sequence is recommended for students who plan to take three terms of physics.

Mathematics

Two semesters of calculus or honors mathematics are required. Students may substitute one semester of statistics for one semester of calculus with an adviser’s permission. For students with AP credit, completion of MATH UN1102 Calculus II, MATH UN1201 Calculus III, or MATH UN1207 Honors Mathematics A is sufficient. However, students with AP credit are encouraged to take additional courses in mathematics or statistics at Columbia.

For more details on the biology major requirements, visit http://biology.columbia.edu/pages/biology-major-requirements.

Major in Biochemistry

The required basic courses for the biochemistry major are chemistry through organic, including laboratory, and one year each of physical chemistry, physics, calculus, biology, and biochemistry/molecular biology.

The required additional courses are three lecture courses chosen from mathematics, chemistry, and biology, and two upper-level laboratory courses.

http://biology.columbia.edu/pages/biochemistry-major-requirements

For more details, see the Chemistry section in this Bulletin or visit http://biology.columbia.edu/pages/biochemistry-major-requirements.

Major in Biophysics

The requirements for the biophysics major are as follows:

One year of introductory biology:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN2005</td>
<td>Introductory Biology I: Biochemistry, Genetics &amp; Molecular Biology and Introductory Biology II: Cell Biology, Development &amp; Physiology</td>
</tr>
</tbody>
</table>

Select at least one of the following laboratory courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN3050</td>
<td>Project Laboratory In Protein Biochemistry</td>
</tr>
<tr>
<td>BIOL UN3052</td>
<td>Project Laboratory in Molecular Genetics</td>
</tr>
<tr>
<td>BIOL UN3058</td>
<td>Project Laboratory in Microbiology</td>
</tr>
<tr>
<td>BIOL UN3500</td>
<td>Independent Biological Research</td>
</tr>
</tbody>
</table>

One course in biochemistry or molecular biology:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOC UN3501</td>
<td>Biochemistry: Structure and Metabolism</td>
</tr>
</tbody>
</table>

or BIOC UN3512 Molecular Biology

Select one of the following options:

Option 1 - Genetics:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN3051</td>
<td>Genetics</td>
</tr>
</tbody>
</table>

Option 2 - Neurobiology:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN3004</td>
<td>Neurobiology I: Cellular and Molecular Neurobiology</td>
</tr>
<tr>
<td>or BIOL UN3005</td>
<td>Neurobiology II: Development &amp; Systems</td>
</tr>
</tbody>
</table>

Option 3 - Developmental Biology:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN3022</td>
<td>Developmental Biology</td>
</tr>
</tbody>
</table>

Select one of the following sequences to be completed at the end of sophomore year:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1403</td>
<td>Introduction to Classical and Quantum Waves and Introduction To Electricity, Magnetism, and Optics and Introduction to Classical and Quantum Waves and Introduction to Experimental Physics</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1601</td>
<td>Physics, I: Mechanics and Relativity and Physics, II: Thermodynamics, Electricity, and Magnetism and Physics, III: Classical and Quantum Waves and Experiments in Classical and Modern Physics</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN2801</td>
<td>Accelerated Physics I and Accelerated Physics II and Intermediate Laboratory Work</td>
</tr>
</tbody>
</table>

Select any two physics courses at the 3000-level or above, chosen in consultation with the adviser.

Calculus through MATH UN1202 or MATH UN1208, and MATH V3027

Chemistry through organic including labs; see biology major for options

Select one additional course at the 3000- or 4000-level in either physics or biology.

For more details, see the Physics section in this Bulletin or visit http://biology.columbia.edu/pages/biophysics-major-requirements.

Major in Neuroscience and Behavior

In addition to one year of general chemistry, ten courses are required to complete the major in neuroscience and behavior—five in biology and five in psychology.

For more details, see the Psychology section in this Bulletin or visit http://biology.columbia.edu/pages/neuroscience-and-behavior-major-requirements.
CONCENTRATION IN BIOLOGY

Students who wish to concentrate in biology must design their programs in advance with the director of undergraduate studies or a departmental adviser.

The requirement for the concentration is 22 points in biology or biochemistry, with at least five courses chosen from the courses listed in the Biological Sciences section of the Bulletin. Additional courses in physics, chemistry, and mathematics are required as detailed below.

A project laboratory and BIOL UN2501 Contemporary Biology Laboratory may not both be counted toward the 22-point total. See the biology major requirements for additional information.

The requirements for the concentration in biology are as follows:

BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology
or EEEB UN2001 Environmental Biology I: Elements to Organisms

BIOL UN2006 Introductory Biology II: Cell Biology, Development & Physiology

Select at least one of the following core courses:

BIOL UN3022 Developmental Biology
BIOL UN3031 Genetics
BIOL UN3041 Cell Biology
BIOC UN3501 Biochemistry: Structure and Metabolism
BIOC UN3512 Molecular Biology

One of these options to fulfill the lab requirement:

BIOL UN2501 Contemporary Biology Laboratory (plus second course including laboratory work, usually BIOL UN3040)
BIOL UN3050 Project Laboratory In Protein Biochemistry
BIOL UN3052 Project Laboratory in Molecular Genetics
BIOL UN3058 Project Laboratory in Microbiology

One or two additional biology or biochemistry lecture courses, level 3000 or above, to reach the total Biology credits of 22 points required for the concentration. Either UN2501 or a five-point lab course, but not both, may count towards the 22 point total.

Chemistry through organic including labs; see biology major for options

One year of physics, including laboratory; see biology major for options

One year of college-level mathematics (ordinarily this should be calculus); see biology major for options

For more details, visit http://biology.columbia.edu/pages/biology-concentration-requirements.

MAJOR IN ENVIRONMENTAL BIOLOGY

For a description of the environmental biology major, see the Ecology, Evolution, and Environmental Biology section in this Bulletin.

BUSINESS MANAGEMENT*

*Business Management is offered exclusively as a concentration.

Program Manager: Cara Mandarino, 104 Uris; 212-854-0140; MendelsonCenter@gsb.columbia.edu
http://www8.gsb.columbia.edu/mendelson

The collaboration between the faculty of Arts and Sciences and Columbia Business School offers students access to the ideas and expertise of the faculty of a top-ranked professional school recognized for its excellence in graduate business education through a series of elective courses. These courses, designed by Business School faculty specifically for undergraduates, build upon the strong liberal arts education at Columbia. Students learn how finance is directly connected to the fundamental principles of economics; that marketing utilizes concepts from psychology; and how management depends upon principles developed in psychology and sociology.

Students can take advantage of the opportunity to enhance their experience by participating in co-curricular activities, such as Business School faculty lecture series, industry panels, informal mentoring/networking activities with MBA students and alumni, in addition to research opportunities with Business School faculty.

This curricular and co-curricular programming capitalizes on the Business School’s ability to connect academic theory with real-world practice, providing students with the opportunity to develop key leadership skills, an entrepreneurial mindset, and the ability to innovate.

Eligibility:

- To be eligible to earn a Special Concentration in Business Management, students must apply to the program in the spring semester of their sophomore or junior years, and they must be accepted through a process governed by the Columbia Business School. Beginning with the Special Concentration cohort of 2017-2018 (i.e., students accepted via the application process of Spring 2017), the program will accept up to 45 qualified candidates each year. The
size of the program may be reviewed from time to time by Columbia College and Columbia Business School and adjusted, if desired by both schools.

• For students who entered Columbia College in, or before, Fall 2016: Students who have not been accepted into the Special Concentration program may have the option to “shadow” the Special Concentration in Business Management by taking the required courses if space is available in those courses. Students who “shadow” the program will not be given priority registration in any courses that count toward the Special Concentration. If a student is able to take all of the courses, she or he will be allowed to declare retroactively the Special Concentration and have the program noted on their transcript.

• The shadowing option is no longer available for students who entered Columbia College in, or before, Fall 2016.

APPLICATION REQUIREMENTS
To apply for the special concentration in business management, students must meet these three requirements:

1. Sophomore or junior standing;
2. Have a cumulative GPA of 3.4 or higher;
3. Have received a B+ or better in at least one, but preferably two, of the following three prerequisite courses, i.e. in statistics, economics, and psychology. Students who completed only one prerequisite at the time of application must be currently enrolled in at least one other; acceptance is conditional on achieving a grade of B+ or higher in the second course.

Statistics Prerequisite
Select one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT UN1001</td>
<td>Introduction to Statistical Reasoning</td>
</tr>
<tr>
<td>STAT UN1101</td>
<td>Introduction to Statistics</td>
</tr>
<tr>
<td>STAT UN1201</td>
<td>Calculus-Based Introduction to Statistics</td>
</tr>
<tr>
<td>PSYC UN1610</td>
<td>Introductory Statistics for Behavioral Scientists</td>
</tr>
<tr>
<td>SOCI UN3020</td>
<td>Social Statistics</td>
</tr>
</tbody>
</table>

Economics Prerequisite

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105</td>

Application Components

1. Application form
2. Current class schedule, including a brief description of how all concentration requirements will be completed
3. Official transcript

4. Resume

Benefits for Admitted Students
While students may complete the special concentration requirements without applying to the program, the following benefits are available to students admitted through the application process:

1. Guaranteed enrollment in popular undergraduate business courses (must reserve in advance through program manager);
2. Access to special guest speaker presentations at the Business School, including business leader or faculty presentations exclusively for admitted students;
3. Formal and informal networking opportunities with Business School students, faculty, and alumni.

GUIDELINES FOR ALL BUSINESS MANAGEMENT SPECIAL CONCENTRATORS

The business management special concentration is not a stand-alone concentration: it is intended to complement the disciplinary specialization and methodological training inherent in a major. In addition to the special concentration requirements, students must complete a major.

Students who matriculated at Columbia in Fall 2012 and beyond must earn a minimum GPA of 3.0 in prerequisite, core, and elective courses. Students who matriculated before Fall 2012 must either adhere to the above requirement or previous requirement of B+ or better in at least two of the prerequisites and a minimum GPA of 3.0 in core and elective classes.

Students who do not meet course prerequisites or who do not receive a passing grade do not receive credit for that course towards the special concentration. All courses must be taken for a letter grade. Only prerequisites may be double counted for other majors or concentrations. The core classes cannot be double counted. Electives may be double counted if a student’s major allows double counting.

For information about this special concentration, including the application process, visit http://www8.gsb.columbia.edu/mendelson.

SPECIAL CONCENTRATION IN BUSINESS MANAGEMENT

Please read Guidelines for all Business Management Special Concentrators above.

The requirements for the special concentration in business management are as follows:

Prerequisites
Select one of the following Statistics courses:

<table>
<thead>
<tr>
<th>Course</th>

</table>

NOTE: Students may not receive credit for two or more of PSYC BC1136 Social Psychology, PSYC BC1138 Social Psychology, and PSYC UN2630 Social Psychology.

CHEMICAL PHYSICS

Undergraduate Office: 340 Havemeyer; 212-854-2163

Departmental Office: 344 Havemeyer; 212-854-2202
http://www.columbia.edu/cu/chemistry/

Director of Undergraduate Studies: Prof. Karen Phillips, 422 Havemeyer; 212-851-7534; kep12@columbia.edu (kep12@chem.columbia.edu)

Program Manager for Undergraduate Studies: Dr. Vesna Gasperov, 211A Havemeyer; 212-854-2017; vg2231@columbia.edu

Biochemistry Advisers: Biology: Prof. Brent Stockwell, 1208 Northwest Corner Building; 212-854-2919; stockwell@biology.columbia.edu

Chemistry, the study of molecules, is a central science interesting for its own sake but also necessary as an intellectual link to the other sciences of biology, physics, and environmental science. Faculty find the various disciplines
of chemistry fascinating because they establish intellectual bridges between the macroscopic or human-scale world that we see, smell, and touch, and the microscopic world that affects every aspect of our lives. The study of chemistry begins on the microscopic scale and extends to engage a variety of different macroscopic contexts.

Chemistry is currently making its largest impact on society at the nexus between chemistry and biology and the nexus between chemistry and engineering, particularly where new materials are being developed. A typical chemistry laboratory now has more computers than test tubes and no longer smells of rotten eggs.

The chemistry department majors are designed to help students focus on these new developments and to understand the factors influencing the nature of the discipline. Because the science is constantly changing, courses change as well, and while organic and physical chemistry remain the bedrock courses, they too differ greatly from the same courses 40 years ago. Many consider biochemistry to be a foundation course as well. Although different paths within the chemistry major take different trajectories, there is a core that provides the essential foundation students need regardless of the path they choose. Students should consider majoring in chemistry if they share or can develop a fascination with the explanatory power that comes with an advanced understanding of the nature and influence of the microscopic world of molecules.

Students who choose to major in chemistry may elect to continue graduate study in this field and obtain a Ph.D. which is a solid basis for a career in research, either in the industry or in a university. A major in chemistry also provides students with an astonishing range of career choices such as working in the chemical or pharmaceutical industries or in many other businesses where a technical background is highly desirable. Other options include becoming a financial analyst for a technical company, a science writer, a high school chemistry teacher, a patent attorney, an environmental consultant, or a hospital laboratory manager, among others. The choices are both numerous and various as well as intellectually exciting and personally fulfilling.

**ADVANCED PLACEMENT**

The department grants advanced placement (AP) credit for a score of 4 or 5. The amount of credit granted is based on the results of the department placement exam and completion of the requisite course. Students who are placed into CHEM UN1604 Intensive General Chemistry (Lecture) are granted 3 points of credit; students who are placed into CHEM UN2045 Intensive Organic Chemistry I (Lecture)-CHEM UN2046 Intensive Organic Chemistry II (Lecture) are granted 6 points of credit. In either case, credit is granted only upon completion of the course with a grade of C or better. Students must complete a department placement exam prior to registering for either of these courses.

**PROGRAMS OF STUDY**

The Department of Chemistry offers four distinct academic major programs for undergraduates interested in professional-level training and education in the chemical sciences: chemistry, chemical physics, biochemistry and environmental chemistry. For students interested in a program of less extensive study and coursework, the department offers a concentration in chemistry.

**COURSE INFORMATION**

The results of the placement exam are used to advise students which track to pursue. The Department of Chemistry offers three different tracks. Students who wish to take Track 2 or 3 classes must take the placement exam. Students who wish to pursue Track 1 classes do not need to take the placement exam.

**TRACK INFORMATION**

In the first year, Track 1 students with one year of high school chemistry take a one-year course in general chemistry, and the one-term laboratory course that accompanies it. In the second year, students study organic chemistry, and take organic chemistry laboratory.

Students who qualify by prior examination during orientation week can place into the advanced tracks. There are two options. Track 2 students take, in the fall term, a special one-term intensive course in general chemistry in place of the one-year course. In the second year, students study organic chemistry and take organic chemistry laboratory. Track 3 students take a one-year course in organic chemistry for first-year students and the one-term intensive general chemistry laboratory course. In the second year, students enroll in physical chemistry and the organic chemistry laboratory course.

Additional information on the tracks can be found in the Requirements section.

**ADDITIONAL COURSES**

First-year students may also elect to take CHEM UN2408. This seminar focuses on topics in modern chemistry, and is offered to all qualified students.

Biochemistry (BIOC UN3501, BIOC UN3512) is recommended for students interested in the biomedical sciences.

Physical chemistry (CHEM UN3079-CHEM UN3080), a one-year program, requires prior preparation in mathematics and physics. The accompanying laboratory is CHEM UN3085-CHEM UN3086.

Also offered are a senior seminar (CHEM UN3920); advanced courses in biochemistry, inorganic, organic, and physical chemistry; and an introduction to research (CHEM UN3098).
SAMPLE PROGRAMS

Some typical programs are shown below. Programs are crafted by the student and the director of undergraduate studies to meet individual needs and interests.

Track 1

First Year
CHEM UN1403 General Chemistry I (Lecture)
CHEM UN1404 General Chemistry II (Lecture)
CHEM UN1500 General Chemistry Laboratory
CHEM UN2408 First-Year Seminar in Chemical Research Calculus and physics as required.

Second Year
CHEM UN2443 Organic Chemistry I (Lecture)
CHEM UN2444 Organic Chemistry II (Lecture)
CHEM UN2493 Organic Chemistry Laboratory I (Techniques)
CHEM UN2494 Organic Chemistry Laboratory II (Synthesis) Calculus and physics as required.

Third Year
CHEM UN3079 Physical Chemistry I
BIOC UN3501 Biochemistry: Structure and Metabolism
CHEM UN3546 Advanced Organic Chemistry Laboratory
CHEM UN3080 Physical Chemistry II
CHEM UN3098 Supervised Independent Research

Fourth Year
CHEM UN3085 Physical and Analytical Chemistry Laboratory I
CHEM UN3086 Physical and Analytical Chemistry Laboratory II
CHEM UN3920 Senior Seminar in Chemical Research
CHEM GU4071 INORGANIC CHEMISTRY

Track 2

First Year
CHEM UN1507 Intensive General Chemistry Laboratory
CHEM UN2045 Intensive Organic Chemistry I (Lecture)
CHEM UN2046 Intensive Organic Chemistry II (Lecture)
CHEM UN2408 First-Year Seminar in Chemical Research Calculus and physics as required.

Second Year
CHEM UN3079 Physical Chemistry I
CHEM UN3080 Physical Chemistry II
CHEM UN2545 Intensive Organic Chemistry Laboratory
CHEM UN3546 Advanced Organic Chemistry Laboratory Calculus and physics as required.

Third Year
BIOC UN3501 Biochemistry: Structure and Metabolism

Fourth Year
CHEM UN3085 Physical and Analytical Chemistry Laboratory I
CHEM UN3086 Physical and Analytical Chemistry Laboratory II
CHEM UN3920 Senior Seminar in Chemical Research
CHEM GU4071 INORGANIC CHEMISTRY

Advanced courses (4000-level or higher)

Track 3

First Year
Calculus and physics as required.

Second Year
CHEM UN2443 Organic Chemistry I (Lecture)
CHEM UN2444 Organic Chemistry II (Lecture)
CHEM UN2493 Organic Chemistry Laboratory I (Techniques)
CHEM UN2494 Organic Chemistry Laboratory II (Synthesis) Calculus and physics as required.

Third Year
CHEM UN3079 Physical Chemistry I
BIOC UN3501 Biochemistry: Structure and Metabolism
CHEM UN3546 Advanced Organic Chemistry Laboratory
CHEM UN3080 Physical Chemistry II
CHEM UN3098 Supervised Independent Research

Fourth Year
CHEM UN3085 Physical and Analytical Chemistry Laboratory I
CHEM UN3086 Physical and Analytical Chemistry Laboratory II
CHEM UN3920 Senior Seminar in Chemical Research
CHEM GU4071 INORGANIC CHEMISTRY

Advanced courses (4000-level or higher)

PROFESSORS

• Bruce J. Berne
• Ronald Breslow
• Louis E. Brus
• Virginia W. Cornish
• Kenneth B. Eisenthal
• Richard A. Friesner
• Ruben Gonzalez
• Laura Kaufman
• James L. Leighton
• Ann E. McDermott
Chemistry Tracks

All students who wish to start with Track 2 or 3 courses must take a placement exam. The results of the placement exam are used to advise students which track to pursue. Unless otherwise specified below, all students must complete one of the following tracks:

**Track 1**

<table>
<thead>
<tr>
<th>Course Code</th>

Physics Sequences

The requirements for the physics sequences were modified on December 5, 2014. Students who declared before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

Unless otherwise specified below, all students must complete one of the following sequences:

**Sequence A**

For students with limited background in high school physics:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1401</td>
<td>Introduction To Mechanics and Thermodynamics</td>
</tr>
<tr>
<td>PHYS UN1402</td>
<td>Introduction To Electricity, Magnetism, and Optics</td>
</tr>
</tbody>
</table>
PHYS UN1403  Introduction to Classical and Quantum Waves

For chemistry majors, the following laboratory courses are recommended, NOT required. For chemical physics majors, the following laboratory courses are required:

| Sequence B |
|-----------------|-----------------|
| PHYS UN1493 | Introduction to Experimental Physics |
| PHYS UN2699 | Experiments in Classical and Modern Physics |
| PHYS UN3081 | Intermediate Laboratory Work |

For chemistry majors, the following laboratory courses are recommended NOT required. For chemical physics majors, the following laboratory courses are required:

| Sequence C |
|-----------------|-----------------|
| PHYS UN1601 | Physics, I: Mechanics and Relativity |
| PHYS UN1602 | Physics, II: Thermodynamics, Electricity, and Magnetism |
| PHYS UN2601 | Physics, III: Classical and Quantum Waves |
| or PHYS UN3081 | Intermediate Laboratory Work |

For chemistry majors, the following laboratory courses are recommended NOT required. For chemical physics majors, the following laboratory courses are required:

| Sequence C |
|-----------------|-----------------|
| PHYS UN2699 | Experiments in Classical and Modern Physics |
| or PHYS UN3081 | Intermediate Laboratory Work |

MAJOR IN CHEMISTRY

Select one of the tracks outlined above in Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors and complete the following lectures and labs.

Chemistry

Select one of the chemistry tracks outlined above.

| Chemistry |
|-----------------|-----------------|
| CHEM UN2408 | First-Year Seminar in Chemical Research (Recommended NOT required) |
| CHEM UN3079 | Physical Chemistry I |
| CHEM UN3080 | Physical Chemistry II |
| CHEM UN3085 | Physical and Analytical Chemistry Laboratory I |
| CHEM UN3086 | Physical and Analytical Chemistry Laboratory II |

MAJOR IN BIOCHEMISTRY

Select one of the tracks outlined above in Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors and complete the following lectures and labs.

Chemistry

Select one of the chemistry tracks outlined above.

| Chemistry |
|-----------------|-----------------|
| CHEM UN2408 | First-Year Seminar in Chemical Research (Recommended NOT required) |
| CHEM UN3079 | Physical Chemistry I |
| CHEM UN3080 | Physical Chemistry II |

Biology

| Biology |
|-----------------|-----------------|
| BIOL UN1908 | First-Year Seminar in Modern Biology (Recommended NOT required) |
| BIOL UN2005 | Introductory Biology I: Biochemistry, Genetics & Molecular Biology |
| BIOL UN2006 | Introductory Biology II: Cell Biology, Development & Physiology |
| BIOC UN3501 | Biochemistry: Structure and Metabolism |
| BIOC UN3512 | Molecular Biology |

Select one of the following laboratory courses:

| Biology |
|-----------------|-----------------|
| BIOL UN3050 | Project Laboratory In Protein Biochemistry |
| BIOL UN3052 | Project Laboratory in Molecular Genetics |
| BIOL UN3500 | Independent Biological Research |
Select one of the following physics sequences:

Sequence A:
PHYS UN1201 - PHYS UN1202
General Physics I and General Physics II

Sequence B:
PHYS UN1401 - PHYS UN1402 - PHYS UN1403
Introduction To Mechanics and Thermodynamics and Introduction To Electricity, Magnetism, and Optics and Introduction to Classical and Quantum Waves (PHYS UN1403 is recommended NOT required)

Sequence C:
PHYS UN1601 - PHYS UN1602 - PHYS UN2601
Physics, I: Mechanics and Relativity and Physics, II: Thermodynamics, Electricity, and Magnetism and Physics, III: Classical and Quantum Waves (PHYS UN2601 is recommended but not required)

Sequence D:
PHYS UN2801 - PHYS UN2802
Accelerated Physics I and Accelerated Physics II

Mathematics
Select one of the following sequences:

Two semesters of calculus:
MATH UN1101 - MATH UN1102 - MATH UN1201 - MATH UN1202
Calculus I and Calculus II and Calculus III and Calculus IV

Two semesters of honors mathematics:
MATH UN1207 - MATH UN1208
Honors Mathematics A and Honors Mathematics B

AP credit and one term of calculus (Calculus II or higher)

Additional Courses
Select one of the following additional laboratory courses:
BIOL UN3040 - BIOL UN2501
Lab in Molecular Biology and Contemporary Biology Laboratory

BIOL UN3050 - Project Laboratory In Protein Biochemistry

BIOL UN3052 - Project Laboratory in Molecular Genetics

BIOL UN3500 - Independent Biological Research

CHEM UN3085 - Physical and Analytical Chemistry Laboratory I

CHEM UN3086 - Physical and Analytical Chemistry Laboratory II

CHEM UN3098 - Supervised Independent Research

CHEM UN3546 - Advanced Organic Chemistry Laboratory

Select any three courses from the following:
CHEM GU4071 - INORGANIC CHEMISTRY
CHEM GU4102 - Chemistry for the Brain
CHEM GU4147 - Advanced Organic Chemistry
BIOC GU4324 - Biophysical Chemistry II

MATH UN3027 - Ordinary Differential Equations or MATH UN2030 - Ordinary Differential Equations

One additional semester of calculus

One additional semester of honors math:
MATH UN1207 - Honors Mathematics A or MATH UN1208 - Honors Mathematics B

Any biology course at the 3000/4000 level for 3 or more points. The following are recommended:
BIOL UN3004 - Neurobiology I: Cellular and Molecular Neurobiology or BIOL UN3005 - Neurobiology II: Development & Systems
BIOL UN3008 - The Cellular Physiology of Disease
BIOL UN3022 - Developmental Biology
BIOL UN3034 - Biotechnology
BIOL UN3041 - Cell Biology
BIOL UN3073 - Cellular and Molecular Immunology
BIOL GU4065 - Molecular Biology of Disease
BIOL GU4300 - Drugs and Disease

Major in Chemical Physics
Select one of the tracks outlined above in Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors and complete the following lectures and labs.

Chemistry
Select one of the chemistry tracks outlined above.
CHEM UN3079 - Physical Chemistry I
CHEM UN3080 - Physical Chemistry II
CHEM UN3085 - Physical and Analytical Chemistry Laboratory I
CHEM UN3086 - Physical and Analytical Chemistry Laboratory II
CHEM UN3098 - Supervised Independent Research
CHEM UN3920 - Senior Seminar in Chemical Research
CHEM GU4221 - Quantum Chemistry or PHYS GU4021 - Quantum Mechanics

Physics
Select one of the physics sequences outlined above in Guidelines for all Chemistry Majors, Concentrators and Interdepartmental Majors. For the chemical physics major, one lab MUST be completed for the sequence chosen.
Complete the following lectures:
PHYS UN3003 - Mechanics
PHYS UN3007 - Electricity and Magnetism
PHYS UN3008 - Electromagnetic Waves and Optics

Mathematics
Select one of the following sequences:

Four semesters of calculus:
MAJOR IN ENVIRONMENTAL CHEMISTRY

The requirements for this program were modified on February 1, 2016. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

Select one of the tracks outlined above in Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors and complete the following lectures and labs.

Chemistry
Select one of the chemistry tracks outlined above. A second semester of Organic Chemistry lecture is recommended NOT required.
CHEM UN3079 Physical Chemistry I
CHEM GU4071 INORGANIC CHEMISTRY

The following courses are recommended NOT required:
CHEM UN2408 First-Year Seminar in Chemical Research
CHEM UN3920 Senior Seminar in Chemical Research

Earth and Environmental Science
Select two of the following three courses:
EESC UN2100 Earth's Environmental Systems: The Climate System
EESC UN2200 Earth’s Environmental Systems: The Solid Earth System
EESC UN2300 Earth’s Environmental Systems: The Life System

Additional course required:
EESC UN3101 Geochemistry for a Habitable Planet

Select one of the following labs:
EESC BC3016 Environmental Measurements
CHEM UN3085 Physical and Analytical Chemistry Laboratory I

Select one option for Independent Research in Environmental Chemistry:
EESC BC3800 Senior Research Seminar
EESC BC3801 and Senior Research Seminar

CHEM UN3098 Supervised Independent Research
(It is strongly recommended to take CHEM UN3920 if taking CHEM UN3098)

Physics
Select one of the following physics sequences:

Sequence A:
PHYS UN1201 General Physics I
PHYS UN1202 and General Physics II

Sequence B:
PHYS UN1401 Introduction To Mechanics and
PHYS UN1402 Thermodynamics
PHYS UN1403 and Introduction To Electricity, Magnetism, and Optics
and Introduction to Classical and Quantum Waves (Recommended NOT required)

Sequence C:
PHYS UN1601 Physics, I: Mechanics and
PHYS UN1602 Relativity
PHYS UN2601 and Physics, II: Thermodynamics,
PHYS UN2601 Electricity, and Magnetism
PHYS UN2601 and Physics, III: Classical and
PHYS UN2601 Quantum Waves (Recommended,
PHYS UN2601 not required)

Sequence D:
PHYS UN2801 Accelerated Physics I
PHYS UN2802 and Accelerated Physics II

Mathematics
Two semesters of calculus:
MATH UN1101 Calculus I
MATH UN1102 Calculus II
MATH UN1201 Calculus III
MATH UN1202 Calculus IV

Additional Courses
Select any two of the following:

Chemistry:
CHEM UN3080 Physical Chemistry II
CHEM GU4103 Organometallic Chemistry
CHEM GU4147 Advanced Organic Chemistry

Earth and Environmental Science:
EESC BC3017 Environmental Data Analysis
EESC BC3025 Hydrology
EESC GU4008 Introduction to Atmospheric Science
EESC GU4009 Chemical Geology
EESC GU4040 Climate Thermodynamics and Energy Transfer
EESC GU4050 Global Assessment and Monitoring Using Remote Sensing
EESC GU4600 Earth Resources and Sustainable Development
EESC GU4835 Wetlands and Climate Change
EESC GU4885 The Chemistry of Continental Waters

Chemistry, the study of molecules, is a central science
interesting for its own sake but also necessary as an
intellectual link to the other sciences of biology, physics, and
environmental science. Faculty find the various disciplines
of chemistry fascinating because they establish intellectual
bridges between the macroscopic or human-scale world that we
see, smell, and touch, and the microscopic world that affects
every aspect of our lives. The study of chemistry begins on the
microscopic scale and extends to engage a variety of different
macroscopic contexts.

Chemistry is currently making its largest impact on society
at the nexus between chemistry and biology and the nexus
between chemistry and engineering, particularly where new
materials are being developed. A typical chemistry laboratory
now has more computers than test tubes and no longer smells
of rotten eggs.

The chemistry department majors are designed to help students
focus on these new developments and to understand the factors
influencing the nature of the discipline. Because the science
is constantly changing, courses change as well, and while
organic and physical chemistry remain the bedrock courses,
they too differ greatly from the same courses 40 years ago.
Many consider biochemistry to be a foundation course as well.

Chemistry Tracks

Track 1
CHEM UN1403 General Chemistry I (Lecture)
CHEM UN1404 General Chemistry II (Lecture)
CHEM UN1500 General Chemistry Laboratory
Select 22 points of chemistry at the 2000-level or higher
(excluding W2408).

Track 2
CHEM UN1500 General Chemistry Laboratory
or CHEM UN1507 Intensive General Chemistry Laboratory
CHEM UN1604 Intensive General Chemistry (Lecture)
Select 22 points of chemistry at the 2000-level or higher
(excluding W2408).

Track 3
CHEM UN1507 Intensive General Chemistry Laboratory
CHEM UN2045 Intensive Organic Chemistry I (Lecture)
CHEM UN2046 Intensive Organic Chemistry II (Lecture)
Select 18 points of chemistry at the 2000-level or higher
(excluding W2408).
businesses where a technical background is highly desirable. Other options include becoming a financial analyst for a technical company, a science writer, an environmental consultant, or a hospital laboratory manager, among others. The choices are both numerous and various as well as intellectually exciting and personally fulfilling.

**ADVANCED PLACEMENT**

The department grants advanced placement (AP) credit for a score of 4 or 5. The amount of credit granted is based on the results of the department placement exam and completion of the requisite course. Students who are placed into CHEM UN1604 Intensive General Chemistry (Lecture) are granted 3 points of credit; students who are placed into CHEM UN2045 Intensive Organic Chemistry I (Lecture)-CHEM UN2046 Intensive Organic Chemistry II (Lecture) are granted 6 points of credit. In either case, credit is granted only upon completion of the course with a grade of C or better. Students must complete a department placement exam prior to registering for either of these courses.

**PROGRAMS OF STUDY**

The Department of Chemistry offers four distinct academic major programs for undergraduates interested in professional-level training and education in the chemical sciences: chemistry, chemical physics, biochemistry and environmental chemistry. For students interested in a program of less extensive study and coursework, the department offers a concentration in chemistry.

**COURSE INFORMATION**

The results of the placement exam are used to advise students which track to pursue. The Department of Chemistry offers three different tracks. Students who wish to take Track 2 or 3 classes must take the placement exam. Students who wish to pursue Track 1 classes do not need to take the placement exam.

**TRACK INFORMATION**

In the first year, Track 1 students with one year of high school chemistry take a one-year course in general chemistry, and the one-term laboratory course that accompanies it. In the second year, students study organic chemistry, and take organic chemistry laboratory.

Students who qualify by prior examination during orientation week can place into the advanced tracks. There are two options. Track 2 students take, in the fall term, a special one-term intensive course in general chemistry in place of the one-year course. In the second year, students study organic chemistry and take organic chemistry laboratory. Track 3 students take a one-year course in organic chemistry for first-year students and the one-term intensive general chemistry laboratory course. In the second year, students enroll in physical chemistry and the organic chemistry laboratory course.

Additional information on the tracks can be found in the Requirements section.

**ADDITIONAL COURSES**

First-year students may also elect to take CHEM UN2408. This seminar focuses on topics in modern chemistry, and is offered to all qualified students.

Biochemistry (BIOC UN3501, BIOC UN3512) is recommended for students interested in the biomedical sciences.

Physical chemistry (CHEM UN3079-CHEM UN3080), a one-year program, requires prior preparation in mathematics and physics. The accompanying laboratory is CHEM UN3085-CHEM UN3086.

Also offered are a senior seminar (CHEM UN3920); advanced courses in biochemistry, inorganic, organic, and physical chemistry; and an introduction to research (CHEM UN3098).

**SAMPLE PROGRAMS**

Some typical programs are shown below. Programs are crafted by the student and the director of undergraduate studies to meet individual needs and interests.

**Track 1**

**First Year**

- CHEM UN1403 General Chemistry I (Lecture)
- CHEM UN1404 General Chemistry II (Lecture)
- CHEM UN1500 General Chemistry Laboratory
- CHEM UN2408 First-Year Seminar in Chemical Research

Calculus and physics as required.

**Second Year**

- CHEM UN2443 Organic Chemistry I (Lecture)
- CHEM UN2444 Organic Chemistry II (Lecture)
- CHEM UN2493 Organic Chemistry Laboratory I (Techniques)
- CHEM UN2494 Organic Chemistry Laboratory II (Synthesis)

Calculus and physics as required.

**Third Year**

- CHEM UN3079 Physical Chemistry I
- BIOC UN3501 Biochemistry: Structure and Metabolism
- CHEM UN3546 Advanced Organic Chemistry Laboratory
- CHEM UN3080 Physical Chemistry II
- CHEM UN3098 Supervised Independent Research

**Fourth Year**

- CHEM UN3085 Physical and Analytical Chemistry Laboratory I
- CHEM UN3086 Physical and Analytical Chemistry Laboratory II
- CHEM UN3920 Senior Seminar in Chemical Research
- CHEM GU4071 INORGANIC CHEMISTRY
Advanced courses (4000-level or higher)

**Track 2**

**First Year**
- CHEM UN1507 Intensive General Chemistry Laboratory
- CHEM UN2045 Intensive Organic Chemistry I (Lecture)
- CHEM UN2046 Intensive Organic Chemistry II (Lecture)
- CHEM UN2408 First-Year Seminar in Chemical Research

Calculus and Physics as required.

**Second Year**
- CHEM UN3079 Physical Chemistry I
- CHEM UN3080 Physical Chemistry II
- CHEM UN2545 Intensive Organic Chemistry Laboratory
- CHEM UN3546 Advanced Organic Chemistry Laboratory

Calculus and physics as required.

**Third Year**
- BIOC UN3501 Biochemistry: Structure and Metabolism
- CHEM UN3085 Physical and Analytical Chemistry Laboratory I
- CHEM UN3086 Physical and Analytical Chemistry Laboratory II
- CHEM UN3098 Supervised Independent Research
- CHEM GU4071 INORGANIC CHEMISTRY

**Fourth Year**
- CHEM UN3920 Senior Seminar in Chemical Research

Advanced courses (4000-level or higher)

**Track 3**

**First Year**

Calculus and physics as required.
- CHEM UN1507 Intensive General Chemistry Laboratory
- CHEM UN1604 Intensive General Chemistry (Lecture)
- CHEM UN2408 First-Year Seminar in Chemical Research

**Second Year**

- CHEM UN2443 Organic Chemistry I (Lecture)
- CHEM UN2444 Organic Chemistry II (Lecture)
- CHEM UN2493 Organic Chemistry Laboratory I (Techniques)
- CHEM UN2494 Organic Chemistry Laboratory II (Synthesis)

Calculus and physics as required.

**Third Year**

- CHEM UN3079 Physical Chemistry I
- BIOC UN3501 Biochemistry: Structure and Metabolism
- CHEM UN3546 Advanced Organic Chemistry Laboratory
- CHEM UN3080 Physical Chemistry II
- CHEM UN3098 Supervised Independent Research

**Fourth Year**

- CHEM UN3085 Physical and Analytical Chemistry Laboratory I

**Professors**
- Bruce J. Berne
- Ronald Breslow
- Louis E. Brus
- Virginia W. Cornish
- Kenneth B. Eisenthal
- Richard A. Friesner
- Ruben Gonzalez
- Laura Kaufman
- James L. Leighton
- Ann E. McDermott
- Jack R. Norton
- Colin Nuckolls
- Gerard Parkin
- David R. Reichman
- Tomislav Rovis
- Brent Stockwell
- James J. Valentini
- Xiaoyang Zhu

**Associate Professors**
- Angelo Cacciuto
- Luis Campos
- Tristan Lambert
- Wei Min
- Jonathan Owen
- Dalibor Sames
- Latha Venkataraman

**Assistant Professors**
- Xavier Roy

**Senior Lecturer**

Karen Phillips

**Lecturers**
- Luis Avila
- Robert Beer
- John Decatur
- Charles E. Doubleday
- Sarah Hansen
- Fay Ng
- Ruben Savizky

GUIDELINES FOR ALL CHEMISTRY MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS

Students majoring in chemistry or in one of the interdepartmental majors in chemistry should go to the director of undergraduate studies or the undergraduate program manager in the Department of Chemistry to discuss their program of study. Chemistry majors and interdepartmental majors usually postpone part of the Core Curriculum beyond the sophomore year.

Chemistry Tracks

All students who wish to start with Track 2 or 3 courses must take a placement exam. The results of the placement exam are used to advise students which track to pursue. Unless otherwise specified below, all students must complete one of the following tracks:

Track 1

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1403</td>
<td>General Chemistry I (Lecture)</td>
</tr>
<tr>

CHEM UN2545 | Intensive Organic Chemistry Laboratory |

Physics Sequences

The requirements for the physics sequences were modified on December 5, 2014. Students who declared before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

Unless otherwise specified below, all students must complete one of the following sequences:

Sequence A

For students with limited background in high school physics:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1401</td>
<td>Introduction To Mechanics and Thermodynamics</td>
</tr>
<tr>
<td>PHYS UN1402</td>
<td>Introduction To Electricity, Magnetism, and Optics</td>
</tr>
<tr>
<td>PHYS UN1403</td>
<td>Introduction to Classical and Quantum Waves</td>
</tr>
</tbody>
</table>

For chemistry majors, the following laboratory courses are recommended, NOT required. For chemical physics majors, the following laboratory courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1493</td>
<td>Introduction to Experimental Physics</td>
</tr>
<tr>
<td>PHYS UN2699</td>
<td>Experiments in Classical and Modern Physics</td>
</tr>
<tr>
<td>PHYS UN3081</td>
<td>Intermediate Laboratory Work</td>
</tr>
</tbody>
</table>

Sequence B

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1601</td>
<td>Physics, I: Mechanics and Relativity</td>
</tr>
<tr>
<td>PHYS UN1602</td>
<td>Physics, II: Thermodynamics, Electricity, and Magnetism</td>
</tr>
<tr>
<td>PHYS UN2601</td>
<td>Physics, III: Classical and Quantum Waves</td>
</tr>
<tr>
<td>or PHYS UN3081</td>
<td>Intermediate Laboratory Work</td>
</tr>
</tbody>
</table>

For chemistry majors, the following laboratory courses are recommended NOT required. For chemical physics majors, the following laboratory courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN2699</td>
<td>Experiments in Classical and Modern Physics</td>
</tr>
</tbody>
</table>

Sequence C

For students with advanced preparation in physics and mathematics:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN2801 - PHYS UN2802</td>
<td>Accelerated Physics I and Accelerated Physics II</td>
</tr>
</tbody>
</table>

For chemistry majors, the following laboratory courses are recommended NOT required. For chemical physics majors, the following laboratory courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN2699</td>
<td>Experiments in Classical and Modern Physics</td>
</tr>
<tr>
<td>or PHYS UN3081</td>
<td>Intermediate Laboratory Work</td>
</tr>
</tbody>
</table>
## MAJOR IN CHEMISTRY
Select one of the tracks outlined above in *Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors* and complete the following lectures and labs.

### Chemistry
Select one of the chemistry tracks outlined above.
- **CHEM UN2408** First-Year Seminar in Chemical Research (Recommended NOT required)
- **CHEM UN3079** Physical Chemistry I
- **CHEM UN3080** Physical Chemistry II
- **CHEM UN3085** Physical and Analytical Chemistry Laboratory I
- **CHEM UN3086** Physical and Analytical Chemistry Laboratory II
- **CHEM UN3546** Advanced Organic Chemistry Laboratory
- **CHEM UN3920** Senior Seminar in Chemical Research
- **CHEM GU4071** INORGANIC CHEMISTRY

Select one course from the following:
- **CHEM UN3098** Supervised Independent Research
  - OR Chemistry courses numbered CHEM GU4000 or above

### Physics
Select one of the following physics sequences:

- **Sequence A:**
  - **PHYS UN1201** General Physics I
  - **PHYS UN1202** and General Physics II
- **Sequence B:**
  - **PHYS UN1401** Introduction To Mechanics and Thermodynamics
  - **PHYS UN1402** and Introduction To Electricity, Magnetism, and Optics
  - **PHYS UN1403** and Introduction to Classical and Quantum Waves (PHYS UN1403 is recommended NOT required)
- **Sequence C:**
  - **PHYS UN1601** Physics, I: Mechanics and Relativity
  - **PHYS UN1602** and Physics, II: Thermodynamics, Electricity, and Magnetism
  - **PHYS UN2601** and Physics, III: Classical and Quantum Waves (PHYS UN2601 is recommended but not required)
- **Sequence D:**
  - **PHYS UN2801** Accelerated Physics I
  - **PHYS UN2802** and Accelerated Physics II

### Mathematics
Select one of the following sequences:

- **Two semesters of calculus:**
  - **MATH UN1101** Calculus I
  - **MATH UN1102** and Calculus II
  - **MATH UN1201** and Calculus III
  - **MATH UN1202** and Calculus IV
- **Two semesters of honors mathematics:**
  - **MATH UN1207** Honors Mathematics A
  - **MATH UN1208** and Honors Mathematics B

## MAJOR IN BIOCHEMISTRY
Select one of the tracks outlined above in *Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors* and complete the following lectures and labs.

### Chemistry
Select one of the chemistry tracks outlined above.
- **CHEM UN2408** First-Year Seminar in Chemical Research (Recommended NOT required)
- **CHEM UN3079** Physical Chemistry I
- **CHEM UN3080** Physical Chemistry II

### Biology
- **BIOL UN1908** First-Year Seminar in Modern Biology (Recommended NOT required)
- **BIOL UN2005** Introductory Biology I: Biochemistry, Genetics & Molecular Biology
- **BIOL UN2006** Introductory Biology II: Cell Biology, Development & Physiology
- **BIOC UN3501** Biochemistry: Structure and Metabolism
- **BIOC UN3512** Molecular Biology

Select one of the following laboratory courses:
- **BIOL UN3050** Project Laboratory In Protein Biochemistry
- **BIOL UN3052** Project Laboratory in Molecular Genetics
- **BIOL UN3500** Independent Biological Research

### Physics
Select one of the following physics sequences:

- **Sequence A:**
  - **PHYS UN1201** General Physics I
  - **PHYS UN1202** and General Physics II
- **Sequence B:**
  - **PHYS UN1401** Introduction To Mechanics and Thermodynamics
  - **PHYS UN1402** and Introduction To Electricity, Magnetism, and Optics
  - **PHYS UN1403** and Introduction to Classical and Quantum Waves (PHYS UN1403 is recommended NOT required)
- **Sequence C:**
  - **PHYS UN1601** Physics, I: Mechanics and Relativity
  - **PHYS UN1602** and Physics, II: Thermodynamics, Electricity, and Magnetism
  - **PHYS UN2601** and Physics, III: Classical and Quantum Waves (PHYS UN2601 is recommended but not required)
- **Sequence D:**
  - **PHYS UN2801** Accelerated Physics I
  - **PHYS UN2802** and Accelerated Physics II

### Mathematics
Select one of the following sequences:

- **Two semesters of calculus:**
  - **MATH UN1101** Calculus I
  - **MATH UN1102** and Calculus II
  - **MATH UN1201** and Calculus III
  - **MATH UN1202** and Calculus IV
- **Two semesters of honors mathematics:**
  - **MATH UN1207** Honors Mathematics A
  - **MATH UN1208** and Honors Mathematics B

AP credit and one term of calculus (Calculus II or higher)

### Additional Courses
Select one of the following additional laboratory courses:
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL UN3040 - BIOL UN2501</td>
<td>Lab in Molecular Biology and Contemporary Biology Laboratory</td>
</tr>
<tr>
<td>BIOL UN3050</td>
<td>Project Laboratory In Protein Biochemistry</td>
</tr>
<tr>
<td>BIOL UN3052</td>
<td>Project Laboratory in Molecular Genetics</td>
</tr>
<tr>
<td>BIOL UN3500</td>
<td>Independent Biological Research</td>
</tr>
<tr>
<td>CHEM UN3085</td>
<td>Physical and Analytical Chemistry Laboratory I</td>
</tr>
<tr>
<td>CHEM UN3086</td>
<td>Physical and Analytical Chemistry Laboratory II</td>
</tr>
<tr>
<td>CHEM UN3098</td>
<td>Supervised Independent Research</td>
</tr>
<tr>
<td>BIOL UN3050</td>
<td>Project Laboratory In Protein Biochemistry</td>
</tr>
<tr>
<td>BIOL UN3052</td>
<td>Project Laboratory in Molecular Genetics</td>
</tr>
<tr>
<td>BIOL UN3500</td>
<td>Independent Biological Research</td>
</tr>
<tr>
<td>CHEM UN3085</td>
<td>Physical and Analytical Chemistry Laboratory I</td>
</tr>
<tr>
<td>CHEM UN3086</td>
<td>Physical and Analytical Chemistry Laboratory II</td>
</tr>
<tr>
<td>CHEM UN3098</td>
<td>Supervised Independent Research</td>
</tr>
<tr>
<td>BIOL UN3546</td>
<td>Advanced Organic Chemistry Laboratory</td>
</tr>
</tbody>
</table>

Select any three courses from the following:

- CHEM GU4071: INORGANIC CHEMISTRY
- CHEM GU4102: Chemistry for the Brain
- CHEM GU4147: Advanced Organic Chemistry
- BIOC GU4323: BIOPHYSICAL CHEMISTRY I
- BIOC GU4324: Biophysical Chemistry II
- MATH UN3027: Ordinary Differential Equations

**Chemistry**

Select one of the chemistry tracks outlined above. A second semester of Organic Chemistry Lecture is recommended NOT required.

- CHEM UN3079: Physical Chemistry I
- CHEM UN3080: Physical Chemistry II
- CHEM UN3085: Physical and Analytical Chemistry Laboratory I

- CHEM UN3086: Physical and Analytical Chemistry Laboratory II
- CHEM UN3098: Supervised Independent Research
- CHEM UN3920: Senior Seminar in Chemical Research
- CHEM GU4221: Quantum Chemistry
  or PHYS GU4021: Quantum Mechanics

**Physics**

Select one of the physics sequences outlined above in Guidelines for all Chemistry Majors, Concentrators and Interdepartmental Majors. For the chemical physics major, one lab MUST be completed for the sequence chosen.

Complete the following lectures:

- PHYS UN3003: Mechanics
- PHYS UN3007: Electricity and Magnetism
- PHYS UN3008: Electromagnetic Waves and Optics

**Mathematics**

Select one of the following sequences:

- Four semesters of calculus:
  - MATH UN1101: Calculus I
  - MATH UN1102: and Calculus II
  - MATH UN1201: and Calculus III
  - MATH UN1202: and Calculus IV

- Two semesters of honors mathematics:
  - MATH UN1207: Honors Mathematics A
  - MATH UN1208: and Honors Mathematics B
  - MATH UN3027: and Ordinary Differential Equations

- Two semesters of advanced calculus:
  - MATH UN1202: Calculus IV
  - MATH UN3027: and Ordinary Differential Equations

**Major in Environmental Chemistry**

The requirements for this program were modified on February 1, 2016. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

Select one of the tracks outlined above in Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors and complete the following lectures and labs.

**Chemistry**

Select one of the chemistry tracks outlined above. A second semester of Organic Chemistry Lecture is recommended NOT required.

- CHEM UN2408: First-Year Seminar in Chemical Research

- CHEM UN3079: Physical Chemistry I
- CHEM GU4071: INORGANIC CHEMISTRY

The following courses are recommended NOT required:

- CHEM UN2408: First-Year Seminar in Chemical Research
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN3920</td>
<td>Senior Seminar in Chemical Research</td>
</tr>
</tbody>
</table>

**Earth and Environmental Science**

Select two of the following three courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN2100</td>
<td>Earth's Environmental Systems: The Climate System</td>
</tr>
<tr>
<td>EESC UN2200</td>
<td>Earth's Environmental Systems: The Solid Earth System</td>
</tr>
<tr>
<td>EESC UN2300</td>
<td>Earth's Environmental Systems: The Life System</td>
</tr>
</tbody>
</table>

Additional course required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN3101</td>
<td>Geochemistry for a Habitable Planet</td>
</tr>
</tbody>
</table>

Select one of the following labs:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC BC3016</td>
<td>Environmental Measurements</td>
</tr>
<tr>
<td>CHEM UN3085</td>
<td>Physical and Analytical Chemistry Laboratory I</td>
</tr>
</tbody>
</table>

Select one option for Independent Research in Environmental Chemistry:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC BC3800</td>
<td>Senior Research Seminar</td>
</tr>
<tr>
<td>EESC BC3801</td>
<td>Senior Research Seminar</td>
</tr>
<tr>
<td>CHEM UN3098</td>
<td>Supervised Independent Research (It is strongly recommended to take CHEM UN3920 if taking CHEM UN3098)</td>
</tr>
</tbody>
</table>

**Physics**

Select one of the following physics sequences:

**Sequence A:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1201</td>
<td>General Physics I</td>
</tr>
<tr>
<td>PHYS UN1202</td>
<td>and General Physics II</td>
</tr>
</tbody>
</table>

**Sequence B:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1401</td>
<td>Introduction To Mechanics and Thermodynamics</td>
</tr>
<tr>
<td>PHYS UN1402</td>
<td>and Introduction To Electricity, Magnetism, and Optics</td>
</tr>
<tr>
<td>PHYS UN1403</td>
<td>and Introduction to Classical and Quantum Waves (Recommended NOT required)</td>
</tr>
</tbody>
</table>

**Sequence C:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1601</td>
<td>Physics, I: Mechanics and Relativity</td>
</tr>
<tr>
<td>PHYS UN1602</td>
<td>and Physics, II: Thermodynamics, Electricity, and Magnetism</td>
</tr>
<tr>
<td>PHYS UN2601</td>
<td>and Physics, III: Classical and Quantum Waves (Recommended, not required)</td>
</tr>
</tbody>
</table>

**Sequence D:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN2801</td>
<td>Accelerated Physics I</td>
</tr>
<tr>
<td>PHYS UN2802</td>
<td>and Accelerated Physics II</td>
</tr>
</tbody>
</table>

**Mathematics**

Two semesters of calculus:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
<tr>
<td>MATH UN1102</td>
<td>Calculus II</td>
</tr>
<tr>
<td>MATH UN1201</td>
<td>Calculus III</td>
</tr>
<tr>
<td>MATH UN1202</td>
<td>Calculus IV</td>
</tr>
</tbody>
</table>

**Additional Courses**

Select any two of the following:

**Chemistry:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>

Select 22 points of chemistry at the 2000-level or higher (excluding W2408).
happy? What is the best political constitution for our (or any)
state? What responsibilities do I have to the society in which I
live? What national significance is served or owed by literature?

The study of Greek and Latin language and culture
concentrates in one main area (ancient Greece and Rome)
and on many of the questions that are of direct pertinence
to the ways in which modern lives are shaped and lived; at
the same time, Greco-Roman literature and philosophy, so
fundamental to the later development of the Western tradition,
boast works of great intrinsic worth and interest. While all
Columbia students get an introduction to classical texts in
Literature Humanities and Contemporary Civilization, classics/
classical studies provides a more advanced study of ancient
cultural issues and habits of mind already sampled in the Core.

Study abroad in Greece or Italy offers a variety of educational
experiences that are continuous with those of the major,
enriching both linguistic expertise and cultural awareness.
Students in classics have the opportunity to take part in
archaeological digs abroad and, on occasion, to assist faculty
in research projects that require, for example, bibliographical
collection or the checking of research data.

Many majors pursue graduate study in classics and classical
studies. Upon earning their graduate degrees, they often
embark on teaching careers in universities, colleges, and high
schools. Many graduating majors also enter a number of other
professional fields, among them law, banking, accountancy,
publishing, and museum-work. Employers tend to find that
students in classics are articulate on paper, as well as orally; are
organized of mind; and have good skills in general reasoning,
an ability developed by the study of Greek and Latin language.
In effect, the study of classics opens up a wide array of options,
both in education and in the wider world.

The program of the department aims for a comprehensive
understanding of classical literature and culture, and the
mastery of Greek and Latin on which such understanding
depends. Careful study of the language occupies the largest
part of the first-year courses and is not omitted in the more
advanced courses. Although literature becomes the chief subject
only in the advanced courses, important authors like Homer,
Plato, and Virgil are studied as literary texts already in the
part of the first-year courses and is not omitted in the more
advanced courses. Although literature becomes the chief subject
only in the advanced courses, important authors like Homer,
Plato, and Virgil are studied as literary texts already in the
intermediate courses. A wide variety of courses are offered in
translation.

Through a joint program with Barnard, the department offers
a broad range of subjects. The department annually offers
four advanced courses in each language (at the 3000- or 4000-
level), the content of which changes each year in order to
provide a curricular range and to balance authors and genres
over a two-year period.

Opportunities for individual projects of reading and research
are available. Students are also permitted to take graduate
courses if they are sufficiently prepared. Additionally, they
can supplement their studies within the department through
work in other departments, such as art history and archaeology,

CLASSICS

Departmental Office: 617 Hamilton; 212-854-3902;
classics@columbia.edu
http://www.columbia.edu/cu/classics/

Director of Undergraduate Studies (Classics): Prof.
Katharina Volk; 212-854-5683; kv2018@columbia.edu

Director of Undergraduate Studies (Modern
Greek Studies): Prof. Nikolas Kakkoufa;
212-854-3902; nk2776@columbia.edu

Director of Academic Administration and Finance: Juliana
Driever; 212-854-2726; jd2185@columbia.edu
(wdd3@columbia.edu)

When one visits Rome or Athens, they also visit the many
layers of physical, historical, and cultural development that
have contributed to the complex evolution of those cities.
When one tours the Roman Forum or the Greek Parthenon,
they set foot on monuments whose physical impressiveness
symbolizes political strength and historical importance; in a
very physical way they experience the past. When one studies
Latin and Greek language and culture, they embark on a
tour of an alternative kind, making their way through texts
and other cultural forms—such as paintings, sculptures, and
philosophical ideas—that bring them directly into contact with
the Greco-Roman past. Literature, philosophy, history, art and
architecture, linguistics, papyrology, religion: all (and more)
are branches of investigation to which the modern student of
classics/classical studies has access through the surviving literary
and material evidence.

But when one studies in the original language Virgil’s Aeneid,
say, or Plato’s philosophical writings, they find that ancient
Greek or Latin literature deals with issues and ideas that are,
for us, of central contemporary importance: e.g., How can I be
happy? What is the best political constitution for our (or any)
history, philosophy, and the other departments of languages and literature.

It is not necessary to have previously studied either language in order to major in it. A student starting Greek or Latin at Columbia can meet all the requirements of a major within an ordinary undergraduate program.

**In Fulfillment of the Language Requirement**

Students beginning the study of Greek or Latin at Columbia must take four terms of either of the following two-year sequences:

<table>
<thead>
<tr>
<th>Greek</th>
<th>Latin</th>
</tr>
</thead>
<tbody>
<tr>
<td>GREK UN1101</td>
<td>LATN UN1101</td>
</tr>
<tr>
<td>- GREK UN1102</td>
<td>- LATN UN1102</td>
</tr>
<tr>
<td>Elementary Greek I</td>
<td>Elementary Latin I</td>
</tr>
<tr>
<td>and Elementary Greek II</td>
<td>and Elementary Latin II</td>
</tr>
<tr>
<td>GREK UN2101</td>
<td>LATN UN2101</td>
</tr>
<tr>
<td>- GREK UN2102</td>
<td>- LATN UN2102</td>
</tr>
<tr>
<td>Intermediate Greek I Attic Prose</td>
<td>Intermediate Latin I</td>
</tr>
<tr>
<td>and Intermediate Greek II: Homer</td>
<td>and Intermediate Latin II</td>
</tr>
</tbody>
</table>

With the permission of the director of undergraduate studies, GREK UN2102 Intermediate Greek II: Homer may be taken before GREK UN2101 Intermediate Greek I Attic Prose.

The intensive elementary courses GREK UN1121 Intensive Elementary Greek and LATN UN1121 Intensive Elementary Latin may be substituted for the two-term UN1101-UN1102 sequence. The intensive intermediate courses GREK S1221 and LATN S1221 may be substituted for the two-term UN2101-UN2102 sequence.

LATN UN2101 Intermediate Latin I should be taken before LATN UN2102 Intermediate Latin II.

For students with secondary-school training in Greek or Latin, the director of undergraduate studies determines, on the basis of records and test scores, what further work is needed to fulfill the language requirement.

**Advanced Placement**

The department grants 3 credits for a score of 5 on the Latin AP exam, which also satisfies the foreign language requirement, upon successful completion (with a grade of B or higher) of a Latin class at the 3000-level or higher.

**Major Program**

The department offers a major in classics and a major track in classical studies. The major in classics involves the intensive study of both Greek and Latin, as well as their cultural matrix; the track in classical studies offers a more interdisciplinary approach. The major in classics is recommended for students planning to continue the study of classics in graduate school. The department also participates in the interdepartmental ancient studies program and offers a concentration in classics; these are all described below.

The major in classics and the track in classical studies are designed in part to build on the experience of the ancient world that undergraduates have acquired at Columbia in the Core Curriculum (especially in Literature Humanities). The major in classics is structured on the principle of gradual and closely monitored linguistic progress from the elementary (1100-level) to the advanced (3000- and 4000-levels) and ultimately to the literature survey courses (GU4105-GU4106) in Greek and/or Latin.

Those majors intending to embark on graduate study in classics are especially encouraged to undertake, in their senior year, an independent research project (UN3998). This option is designed to allow students to personalize their experience in the major by conducting advanced study in a specialized area under the guidance of the specializing faculty member of their choice.

UN3998 is required in the classical studies track. Otherwise, students in classical studies are not required to take advanced courses beyond UN3996 The Major Seminar, but are expected to follow a coherent plan of study by taking a sequence of cognate courses in different but related departments (e.g., art history and archaeology, history, etc.).

The director of undergraduate studies is responsible for overseeing the path of study followed by each student in classics or classical studies. Through close interaction with the director of undergraduate studies, as well as with other faculty members where appropriate, each major is strongly encouraged to debate the strengths and weaknesses of his or her own trajectory of study even as the requirements for the major are being completed.

Students should contact the director of undergraduate studies with any questions about the classics majors and course offerings. The director of undergraduate studies can provide students with a worksheet to help in planning their progress toward major requirements.

MAJOR IN CLASSICS
The major in classics involves a program in both Greek and Latin languages and literatures, and in Greek and Roman civilization. Students generally emphasize the study of one of the languages (the primary language), but significant study of the other (secondary) language is required as well.

The major requires the completion of 11 courses (a minimum of 34 points) and must include the following:

1. In a primary language:
   • Four courses at or above the UN2100-level;
   • The Major Seminar UN3996;
   • Two courses from the following four advanced options: GU4105, GU4106, GU4139, UN3998 (any others may count toward the four upper level requirement).

2. In a secondary language:
   • Two courses at or above the UN2100-level.

3. Two ancient culture courses, including:
   • One course in the culture of the primary language;
   • One course in any aspect of ancient history or culture (HIST, AHIS, PHIL, CLLT, CLCV). All substitutions must be approved by the director of undergraduate studies.

The classical languages follow a standard track of elementary (1100-level) and intermediate (2100-level) levels, followed by 3000- and 4000-level classes that may generally be taken in any order.

Although it is easier to complete the major if at least one classical language is begun no later than the first year, it is possible to begin one classical language in the sophomore year and the other in the junior year and still complete the major.

Those planning to go on to graduate study in classics are urged to take both terms of GU4105-GU4106 if possible, to write a senior research thesis, and to acquire a reading knowledge of German and preferably also of French (Italian is also useful).

To be eligible for departmental honors and prizes, students must take UN3998.

MAJOR TRACK IN CLASSICAL STUDIES
The major track in classical studies requires the completion of 11 courses (a minimum of 35 points) and must include the following:

1. Five courses, at or above the UN1102-level, in either or both Latin and Greek;
2. The Major Seminar UN3996;
3. Four classes in Ancient History, Art, Philosophy, Religion, and Civilization. Note that certain courses may be 6 credits, e.g., ICCS’s City of Rome course, and may count as two courses towards this requirement. Students in doubt about a course’s relevance should confirm it with the director of undergraduate studies as soon as possible;
4. Senior Thesis UN3998, completed on a chosen aspect of Greek or Roman civilization under the direction of a faculty member (3 points).

Summer courses 1221/1221 are counted as four credits for the purposes of major requirements.

MAJOR IN ANCIENT STUDIES

CONCENTRATION IN CLASSICS
Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

The concentration in classics is designed for those who cannot fit the complete major into their undergraduate schedule, but still wish to take a substantial program in Greek and Latin.

The concentration requires the completion of seven courses (a minimum of 21 points) and must include the following:

1. In a primary language, six courses distributed as follows:
   • Five courses above the 1100-level, three of which must be 3000- or 4000-level;
   • One course from the following three advanced options: GU4105, GU4106, GU4139.

2. One course in Ancient History or Classical Civilization (3 points).
SPECIAL CONCENTRATION IN Hellenic Studies

The courses in the Hellenic Studies program are designed to develop the student’s proficiency in aspects of Modern Greek culture, language, and history. The minimum credit requirement for the Hellenic Studies Concentration is 21 credits and includes:

1. Modern Greek language and culture courses (Elementary, Intermediate, Advanced, Conversation I & II, Reading in Greek; minimum 8 credits). Students will work with undergraduate advisor to determine their level of the language.
2. Modern Greek Studies interdepartmental courses (CLGM, CSGM, HSGM; minimum 12 credits). The program of study should be planned as early as possible with the Director of Undergraduate Studies. Students meet with the Director of Undergraduate Studies each semester in order to obtain program approval. Opportunities exist for study abroad in Greece, Cyprus and Turkey for the summer or an academic term for credit. Students work closely with the concentration advisor on the selection of the foreign schools and the transfer of credit.

Students may also wish to write a Senior Thesis which will substitute one Modern Greek Studies interdepartmental seminar. While not required for graduation, the thesis enables a student to be considered for departmental honors. It is advisable to begin planning for the thesis during the student’s junior year. Interested students should identify a potential faculty advisor.

COMPARATIVE LITERATURE AND SOCIETY

Program Office: B-101 Heyman Center, East Campus; 212-854-4541; icls@columbia.edu
http://icls.columbia.edu

Director: Prof. Lydia Liu, 407 Kent Hall; 212-854-5631; ll2410@columbia.edu

Associate Director: Associate Prof. Anupama Rao, Barnard Hall 2nd Floor, Lefrak 226; 212-854-8547; arao@barnard.edu

Director of Undergraduate Studies: Associate Prof. Madeleine Dobie, 510 Philosophy; 212-854-9874; mld2027@columbia.edu

Director of Medicine, Literature and Society Major track: Assistant Prof. of Medicine Rishi Goyal; B106 Heyman Center, East Campus; 212-854-4541; rkg6@columbia.edu

Assistant Director: Sarah Monks, B-102 Heyman Center, East Campus; 212-854-8850; sm3373@columbia.edu

Established at Columbia in 1998, the Institute for Comparative Literature and Society (ICLS) (http://icls.columbia.edu) promotes a global perspective in the study of literature and its social context. Committed to cross-disciplinary study of literary works, the Institute brings together the rich resources of Columbia in the various literatures of the world; in the social sciences; in art history, architecture, and media; and in the medical humanities.

The major program at ICLS allows qualified students to study literature, culture, and society with reference to material from several national traditions, or in combination of literary study with comparative study in other disciplines in the humanities and social sciences. Under the guidance of the director of undergraduate studies, students select courses offered by participating departments.

The program is designed for students whose interest and expertise in languages other than English permit them to work comparatively in several national or regional cultures. The course of study differs from that of traditional comparative literature programs, both in its cross-disciplinary nature and in its expanded geographic range, including not just European, but also Asian, Middle Eastern, African, and Latin American cultures.

The program includes course work in the social sciences, and several core courses are jointly taught by faculty from different disciplines. Students thus explore a variety of methodological and disciplinary approaches to cultural and literary artifacts in the broadest sense. The cross-disciplinary range of the program includes visual and media studies; law and the humanities; medicine and the humanities; and studies of space, cities, and architecture. As a major or concentration, this program can be said to flow naturally from Columbia’s Core Curriculum, which combines literature, art, philosophy, and social thought, and consistently attracts some of Columbia’s most ambitious and cosmopolitan students.

Students can choose to complete the major in Comparative Literature and Society (CLS) or the major track in Medicine, Literature, and Society (MLS). Currently, the MLS track is not available for the concentration.

Given the wide variety of geographic and disciplinary specializations possible within the major and concentration, students construct their course sequence in close collaboration with the director of undergraduate studies. All students, however, share the experience of taking the course CPLS UN3900 Introduction to Comparative Literature and Society in their sophomore year, as well as the required senior seminar in the fall of their last year in the program. The ICLS major and concentration are designed for students interested in the cross-disciplinary and cross-cultural study of texts, traditions, media, and discourses in an increasingly transnational world.

Students planning to apply for admission to the CLS major, the MLS major track, or the CLS concentration should organize
their course of study in order to complete the following prerequisites by the end of the sophomore year:

1. Preparation to undertake advanced work in one foreign language, to be demonstrated by completion of two introduction to literature courses, typically numbered 3333-3350.
2. Completion of at least four terms of study of a second foreign language or two terms in each of two foreign languages.
3. Enrollment in CPLS UN3900 Introduction to Comparative Literature and Society in the spring semester of the sophomore year.

Information about admission requirements and application to the major or concentration can be found at http://icls.columbia.edu/academics/undergraduate/the_undergraduate_program. Students are advised to meet with the director of undergraduate studies before submitting the statement of purpose for the application.

**DEPARTMENTAL HONORS**

To be eligible for departmental honors, students must have a minimum grade point average of 3.6 for courses in the major. Departmental honors will be conferred only on students who have submitted a superior senior thesis that clearly demonstrates originality and excellent scholarship. Note that the senior thesis is not required for the major. For information on the honors program, see http://icls.columbia.edu/academics/undergraduate/undergraduate_departmental_honors.

**EXECUTIVE COMMITTEE OF ICLS**

Gil Anidjar (Religion; Middle Eastern, South Asian, and African Studies)
Bruno Bosteels (Latin American and Iberian Cultures)
Jean Louise Cohen (Political Science)
Patricia A. Dailey (English and Comparative Literature)
Souleymane Bachir Diagne (French and Romance Philology)
Mamadou Diouf (Middle Eastern, South Asian, and African Studies)
Madeleine Dobie (French and Romance Philology)
Brent Hayes Edwards (English and Comparative Literature, Jazz)
Stathis Gourgouris (Classics, English and Comparative Literature)
Rishi Kumar Goyal (Emergency Medicine)
Bernard Harcourt (Columbia Law School)
Lydia H. Liu (East Asian Languages and Cultures)
Anupama P. Rao (History, Barnard)
Jesus R. Velasco (Latin American and Iberian Cultures)
Alessandra Russo (Latin American and Iberian Cultures)
Felicity Scott (Graduate School of Architecture and Public Planning)
Oliver Simons (Germanic Languages)
Gayatri Chakravorty Spivak (University Professor of the Humanities)

Dennis Tenen (English and Comparative Literature)
Nadia Urbinati (Political Science)

**GUIDELINES FOR ALL ICLS MAJORS AND CONCENTRATORS**

An application worksheet can be found on our website (http://icls.columbia.edu/programs/undergraduate-admissions). Applications are due in early January of a student’s sophomore year. At the time of application, students interested in the major (including the major track in Medicine, Literature, and Society) or concentration must have met these requirements:

1. Foreign language 1: four semesters of language training (or equivalent) and two semesters of introductory literature courses, typically numbered 3330-3350;
2. (CLS Majors only) Foreign language 2: four semesters of one language or two semesters of two languages;
3. CPLS UN3900 Introduction to Comparative Literature and Society, usually taken in the spring of the sophomore year;
4. A GPA of at least 3.5;
5. A focus statement, 1-2 pages in length. The focus is a period, theme, problem, movement, etc., that is explored from an interdisciplinary and/or a comparative perspective. Faculty understand that this statement is a work in progress, but that it serves as a useful guide to students’ academic pursuits and course selection.

**MAJOR IN COMPARATIVE LITERATURE AND SOCIETY**

The major in Comparative Literature and Society requires a minimum of 42 points, or 14-15 courses. Note that language courses taken to fulfill the application requirements 1 and 2 above do not count toward the major or concentration. In the description below, “affiliated disciplines” refers to the humanities (except the language and literature departments), the social sciences (history, anthropology, political science, etc.), law, and architecture:

1. CPLS UN3900 Introduction to Comparative Literature and Society, required for all majors and normally taken in the spring of the sophomore year;
2. Advanced courses as follows (please note that one course may be used to fulfill two of the advanced course requirements):
   - Two courses with a CPLS designator. CLxx courses, i.e., courses designated as comparative in nature by various language and literature departments, may count for the major with director of undergraduate studies’ approval
   - Two seminars (discussion-driven courses at the 3000- or 4000-level), chosen from among the affiliated disciplines
   - Two courses requiring readings in a language other than English, preferably conducted in the target language
and for which written assignments are composed in the language as well
- Three courses in a single national or regional literature and/or culture, chosen from any discipline or school
- Four courses in literature or any of the affiliated disciplines and related to the student’s historical or thematic focus;

3. CPLS UN3991 Senior Seminar in Comparative Literature and Society;

MAJOR TRACK IN MEDICINE, LITERATURE, AND SOCIETY

The major track in Medicine, Literature, and Society requires 39 points. Note that language courses taken to fulfill the application requirements 1 above do not count toward the required points for the major. Students interested in the track are strongly encouraged to fulfill their science requirement with classes in human biology (e.g., Human Species, Genes and Development) or human psychology (e.g., Mind, Brain, and Behavior).

1. CPLS UN3900 Introduction to Comparative Literature and Society, required for all ICLS majors and normally taken in the spring of the sophomore year
2. Advanced courses as follows (please note that one course may be used to fulfill two of the advanced course requirements):
   - Three courses within a given department/discipline that address the student’s focused interest (Literature and Medicine; Medical Anthropology; History of Medicine/Public Health) but most importantly develop the methodological skills of that discipline
   - Three courses with a CPLS designator, or courses designated as comparative in nature by the various language-literature or social science departments (i.e., CL-- courses)
   - Two courses requiring readings in a language other than English, preferably conducted in the target language and for which written assignments are composed in the language as well
   - Four courses in interdisciplinary studies that address the nexus of the student’s interests (Literature and Medicine; Medical Anthropology; History of Medicine/Public Health) OR an individual area of specialization (e.g., Disability Studies; Neuroscience and the Human; Technology Studies; Discourses of the Body; Biopolitics; Bioethics; etc.)
   - One course of engaged service learning/independent project (this may be fulfilled by appropriate study abroad and/or study elsewhere in the US)

3. CPLS UN3992 Senior Seminar in Medicine, Literature, and Society or CPLS UN3991 Senior Seminar in Comparative Literature and Society
1. Senior thesis (optional).

CONCENTRATION IN COMPARATIVE LITERATURE AND SOCIETY

The concentration in Comparative Literature and Society requires a total of 36 points, or 12 courses in comparative literature and society as follows:

1. CPLS UN3900 Introduction to Comparative Literature and Society, normally taken in the spring of the sophomore year;
2. Advanced courses as follows:
   - Two courses with a CPLS designator. CLxx courses, i.e., courses designated as comparative in nature by the various language and literature departments, may count for the major with director of undergraduate studies’ approval
   - Two seminars (discussion-driven courses at the 3000- or 4000-level), chosen from among the affiliated disciplines
   - One to two courses requiring readings in a language other than English, preferably conducted in the target language and for which written assignments are composed in the language as well
   - Two to three courses in a single national or regional literature and/or culture, chosen from any discipline or school
   - Two to four courses in literature or any of the affiliated disciplines and related to the student’s historical or thematic focus.

COMPUTER SCIENCE

Departmental Office: 450 Computer Science Building; 212-939-7000
http://www.cs.columbia.edu/

Director of Undergraduate Studies: Dr. Jae Woo Lee, 715 CEPSR; 212-939-7066; jae@cs.columbia.edu

Departmental Advisers:
For updated adviser information, see http://www.cs.columbia.edu/education/undergrad/advisors.

For administrative advising issues please contact: advising@cs.columbia.edu.

The majors in the Department of Computer Science provide students with the appropriate computer science background necessary for graduate study or a professional
career. Computers impact nearly all areas of human endeavor. Therefore, the department also offers courses for students who do not plan a computer science major or concentration. The computer science majors offer maximum flexibility by providing students with a range of options for program specialization. The department offers four majors: computer science; information science; data science; and computer science-mathematics, offered jointly with the Mathematics Department.

**COMPUTER SCIENCE MAJOR**

Students study a common core of fundamental topics, supplemented by a track that identifies specific areas for deeper study. The foundations track prepares students for advanced work in fundamental, theoretical, and mathematical aspects of computing, including analysis of algorithms, scientific computing, and security. The systems track prepares students for immediate employment in the computer industry as well as advanced study in software engineering, operating systems, computer-aided digital design, computer architecture, programming languages, and user interfaces. The intelligent systems track provides specialization for the student interested in natural language processing and systems capable of exhibiting “human-like” intelligence. The applications track is for students interested in the implementation of interactive multimedia content for the Internet and wireless applications. The vision, graphics, interaction, and robotics track exposes students to computer vision, graphics, human-computer interaction, and robotics.

A combination track is available to students who wish to pursue an interdisciplinary course of study combining computer science and another field in the arts, humanities, mathematics, natural sciences, or social sciences. A student planning a combination track should be aware that one additional course is required to complete this option.

**INFORMATION SCIENCE MAJOR**

Information science is an interdisciplinary major designed to provide a student with an understanding of how information is organized, accessed, stored, distributed, and processed in strategic segments of today’s society. Recent years have seen an explosive growth of on-line information, with people of all ages and all walks of life making use of the World Wide Web and other information in digital form.

This major puts students at the forefront of the information revolution, studying how on-line access touches on all disciplines and changing the way people communicate. Organizations have large stores of in-house information that are crucial to their daily operation. Today’s systems must enable quick access to relevant information, must ensure that confidential information is secure, and must enable new forms of communication among people and their access to information.

The information science major can choose a scientific focus on algorithms and systems for organizing, accessing, and processing information, or an interdisciplinary focus in order to develop an understanding of, and tools for, information modeling and use within an important sector of modern society such as economics or health.

**ADVANCED PLACEMENT**

The department grants 3 points for a score of 4 or 5 on the AP Computer Science exam along with exemption from COMS W1004 Introduction to Computer Science and Programming in Java. However, we still recommend that you take COMS W1004 or W1007 even if you have credits from the CS AP exam. COMS W1007 Honors Introduction to Computer Science is recommended if you scored 5 on the AP exam, and COMS W1004 is recommended if you scored 4.

**PRE-INTRODUCTORY COURSES**

COMS W1004 is the first course in the Computer Science major curriculum, and it does not require any previous computing experience. Before taking COMS W1004, however, students have an option to start with one of the pre-introductory courses: ENGI E1006 or COMS W1002.

**LABORATORY FACILITIES**

The department has well-equipped lab areas for research in computer graphics, computer-aided digital design, computer vision, databases and digital libraries, data mining and knowledge discovery, distributed systems, mobile and wearable computing, natural language processing, networking, operating systems, programming systems, robotics, user interfaces, and real-time multimedia.

Research labs contain several large Linux and Solaris clusters; Puma 500 and IBM robotic arms; a UTAH-MIT dexterous hand; an Adept-1 robot; three mobile research robots; a real-time defocus range sensor; interactive 3-D graphics workstations with 3-D position and orientation trackers; prototype wearable computers, wall-sized stereo projection systems; see-through head-mounted displays; a networking testbed with three Cisco 7500 backbone routers, traffic generators; an IDS testbed with secured LAN, Cisco routers, EMC storage, and Linux servers; and a simulation testbed with several Sun servers and Cisco Catalyst routers. The department uses a SIP IP phone system. The protocol was developed in the department.
The department’s computers are connected via a switched 1Gb/s Ethernet network, which has direct connectivity to the campus OC-3 Internet and internet 2 gateways. The campus has 802.11b/g wireless LAN coverage.

The research facility is supported by a full-time staff of professional system administrators and programmers.

GUIDELINES FOR ALL COMPUTER SCIENCE MAJORS AND CONCENTRATORS

Courses

Students may receive credit for only one of the following two courses:

- COMS W1004 Introduction to Computer Science and Programming in Java
- COMS W1005 Introduction to Computer Science and Programming in MATLAB.

Students may receive credit for only one of the following three courses:

- COMS W3134 Data Structures in Java
- COMS W3136 Data Structures with C/C++
- COMS W3137 Honors Data Structures and Algorithms

However, COMS W1005 and COMS W3136 cannot be counted towards the Computer Science major, minor, and concentration.

Transfer Credit

As a rule, no more than 12 transfer credits are accepted toward the major.

Grading

A maximum of one course worth no more than 4 points passed with a grade of D may be counted toward the major or concentration.

MAJOR IN COMPUTER SCIENCE

Please read Guidelines for all Computer Science Majors and Concentrators above.

All majors should confer with their program adviser each term to plan their programs of study. Students considering a major in computer science are encouraged to talk to a program adviser during their first or second year. A typical program of study is as follows:

Program of Study

Computer Science Core (22-24 points)

For students who declare in Spring 2014 and beyond:

ENGI E1006 Introduction to Computing for Engineers and Applied Scientists (recommended but not required)

First Year

COMS W1004 Introduction to Computer Science and Programming in Java
  or COMS W1007 Honors Introduction to Computer Science

Sophomore Year

COMS W3134 Data Structures in Java
  or COMS W3137 Honors Data Structures and Algorithms

COMS W3157 Advanced Programming

COMS W3203 Discrete Mathematics: Introduction to Combinatorics and Graph Theory

Junior and Senior Year

Select the remaining required core courses:

COMS W3261 Computer Science Theory
CSEE W3827 Fundamentals of Computer Systems

Select one of the following courses:

MATH UN2010 Linear Algebra
APMA E2101 Introduction to Applied Mathematics
APMA E3101 Linear Algebra
STAT GU4001 Introduction to Probability and Statistics

For students who declared prior to Spring 2014:

First Year

COMS W1004 Introduction to Computer Science and Programming in Java

Sophomore Year

COMS W1007 Honors Introduction to Computer Science

COMS W3137 Honors Data Structures and Algorithms

COMS W3157 Advanced Programming

COMS W3203 Discrete Mathematics: Introduction to Combinatorics and Graph Theory

Junior and Senior Year

COMS W3261 Computer Science Theory
CSEE W3827 Fundamentals of Computer Systems

In addition to the CS Core (22-24 points), all CS majors must complete the Calculus Requirement (3 points) and a Track Requirement (15 or 18 points). The CS major therefore requires 40-45 points total.

Mathematics (3 points)

Calculus II or Calculus III.

Note that Calculus III does NOT depend on Calculus II. You can take either Calculus II or III, but we recommend Calculus III, which covers topics that are a bit more relevant for upper-level Computer Science courses.

If you have received equivalent credits for Calculus I & II already (through AP Calculus exam for example), you are
not required to take any more Calculus courses. But we recommend taking one more semester of Calculus, either Math UN1201 Calculus III or APAM E2000 Multivariate Calculus for Engineers and Scientists. APAM E2000 covers relevant topics from Calculus III and IV.

Track Requirement (15 or 18 points)
Students must select one of the following six upper-level tracks. Each track, except the combination track, requires five courses consisting of required, elective breadth, and elective track courses. The combination track requires a selection of six advanced courses: three 3000- or 4000-level computer science courses and three 3000- or 4000-level courses from another field. The elective breadth requirement in each track can be fulfilled with any 3-point computer science 3000-level or higher course that is not a computer science core course or a technical elective course in that track. In addition to the breadth elective, the track requirements are as follows:

Foundations Track (15 points)
For students interested in algorithms, computational complexity, and other areas of theoretical Computer Science.

Note: Students who declared their Computer Science major prior to Fall 2016 may also count COMS 4241, COMS 4205, COMS 4281, COMS 4444, COMS 4771, and COMS 4772 as track elective courses.

Required Courses
CSOR W4231 Analysis of Algorithms I
COMS W4236 Introduction to Computational Complexity

Track Electives
Select 2 from:
MATH UN3020 Number Theory and Cryptography
MATH UN3025 Making, Breaking Codes
COMS W4203 Graph Theory
MATH GU4032 Fourier Analysis
MATH GU4041 Introduction to Modern Algebra I
MATH GU4042 Introduction to Modern Algebra II
MATH GU4061 Introduction To Modern Analysis I
MATH GU4155 Probability Theory
COMS W4252 Introduction to Computational Learning Theory
COMS W4261 Introduction to Cryptography
APMA E4300 Computational Math: Introduction to Numerical Methods
IEOR E4407 Game Theoretic Models of Operations
CSPH G4802 Math Logic II: Incompleteness
COMS E6232 Analysis of Algorithms, II
MATH G6238 Enumerative Combinatorics
COMS E6253 Advanced Topics in Computational Learning Theory
COMS E6261 Advanced Cryptography
EEOR E6616 Convex optimization
IEOR E6613 Optimization, I
IEOR E6614 Optimization, II
IEOR E6711 Stochastic models, I
IEOR E6712 Stochastic models, II
ELEN E6717 Information theory
ELEN E6718 Error Correcting Codes: Classical and Modern
Adviser Approved:
COMS W3902 Undergraduate Thesis
COMS W3998 Undergraduate Projects in Computer Science
COMS W4901 Projects in Computer Science
COMS W4995 Special topics in computer science, I
COMS E6998 Topics in Computer Science

One Breadth Course
Any 3-point COMS 3000- or 4000-level course except those courses in the CS core or in the required or elective courses for this track

Software Systems Track (15 points)
For students interested in networking, programming languages, operating systems, and software systems.

Required Courses
COMS W4115 Programming Languages and Translators
COMS W4118 Operating Systems I
CSEE W4119 Computer Networks

Track Electives
Select 1 from:
Any COMS W41xx course
COMS W4444 Programming and Problem Solving
Any COMS W48xx course
Adviser Approved:
COMS W3902 Undergraduate Thesis
COMS W3998 Undergraduate Projects in Computer Science
COMS W4901 Projects in Computer Science
COMS W4995 Special topics in computer science, I
COMS W4996 Special topics in computer science, II
Any COMS E68XX course
Any COMS E61XX course

One Breadth Course
Any 3-point COMS 3000- or 4000-level course except those courses in the CS core or in the required or elective courses for this track
**Intelligent Systems Track (15 points)**
For students interested in machine learning, robotics, and systems capable of exhibiting “human-like” intelligence.

**Required Courses**
Select two of the following courses:

- COMS W4701 Artificial Intelligence
- COMS W4705 Natural Language Processing
- COMS W4706 Spoken Language Processing
- COMS W4731 Computer Vision
- COMS W4733 Computational Aspects of Robotics
- COMS W4771 Machine Learning

**Track Electives**
Select 2 from:

- COMS W4252 Introduction to Computational Learning Theory
- Any COMS W47xx course
- Any COMS E67XX course

**Adviser Approved:**

- COMS W3902 Undergraduate Thesis
- COMS W3998 Undergraduate Projects in Computer Science
- COMS W4901 Projects in Computer Science
- COMS W4995 Special topics in computer science, I
- COMS W4771 Machine Learning

**One Breadth Course**
Any 3-point COMS 3000- or 4000-level course except those courses in the CS core or in the required or elective courses for this track

**Applications Track (15 points)**
For students interested in interactive multimedia applications for the internet and wireless networks.

**Required Courses**

- COMS W4115 Programming Languages and Translators
- COMS W4170 User Interface Design

**Track Electives**
Select 2 from:

- Any COMS W41xx course
- Any COMS W47xx course

**Adviser Approved:**

- COMS W3902 Undergraduate Thesis
- COMS W3998 Undergraduate Projects in Computer Science
- COMS W4901 Projects in Computer Science
- COMS W4995 Special topics in computer science, I
- Any COMS E69XX course

**One Breadth Course**
Any 3-point COMS 3000- or 4000-level course except those courses in the CS core or in the required or elective courses for this track

**Vision, Graphics, Interaction, and Robotics Track (15 points)**
For students interested in computer vision, graphics, and advanced forms of human computer interaction.

**Required Courses**
Select two of the following courses:

- COMS W4160 Computer Graphics
- COMS W4167 Computer Animation
- COMS W4731 Computer Vision

**Track Electives**
Select 2 from:

- COMS W4162 Advanced Computer Graphics
- COMS W4170 User Interface Design
- COMS W4172 3D User Interfaces and Augmented Reality
- COMS W4701 Artificial Intelligence
- COMS W4733 Computational Aspects of Robotics
- COMS W4735 Visual Interfaces to Computers
- COMS W4771 Machine Learning

**Adviser Approved:**

- COMS W3902 Undergraduate Thesis
- COMS W3998 Undergraduate Projects in Computer Science
- COMS W4901 Projects in Computer Science
- COMS W4995 Special topics in computer science, I
- Any COMS E69XX course

**One Breadth Course**
Any 3-point COMS 3000- or 4000-level course except those courses in the CS core or in the required or elective courses for this track

**Combination Track (18 points)**
For students who wish to combine computer science with another discipline in the arts, humanities, social or natural sciences. A coherent selection of six upper-level courses is required: three from computer science and three from another discipline.

The courses should be planned with and approved by the student’s CS faculty advisor by the first semester of the junior year. The six courses are typically 4000-level elective courses that would count towards the individual majors. Moreover, the six courses should have a common theme. The combination track is not available to those students who pursue double majors.
MAJOR IN COMPUTER SCIENCE—MATHEMATICS

For a description of the joint major in computer science—mathematics, see the Mathematics section in this bulletin.

MAJOR IN INFORMATION SCIENCE

Please read Guidelines for all Computer Science Majors and Concentrators above.

The major in information science requires a minimum of 33 points including a core requirement of five courses.

The elective courses must be chosen with a faculty adviser to focus on the modeling and use of information within the context of a disciplinary theme. After discussing potential selections students prepare a proposal of study that must be approved by the faculty adviser. In all cases the six courses must be at the 3000-level or above with at least three courses chosen from computer science. Following are some example programs. For more examples or templates for the program proposal, see a faculty adviser.

Note: In most cases additional courses will be necessary as prerequisites in order to take some of the elective courses. This will depend on the student’s proposed program of study.

Core Requirement

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMS W1001</td>
<td>Introduction to Information Science</td>
</tr>
<tr>
<td>or COMS W1002</td>
<td>Computing in Context</td>
</tr>
<tr>
<td>COMS W1004</td>
<td>Introduction to Computer Science and Programming in Java</td>

<tr>
<td>COMS W1007</td>
<td>Honors Introduction to Computer Science</td>
</tr>
<tr>
<td>COMS W3134</td>
<td>Data Structures in Java</td>
</tr>
<tr>
<td>STAT GU4001</td>
<td>Introduction to Probability and Statistics</td>
</tr>
</tbody>
</table>

Following are some suggested programs of instruction:

Information Science and Contemporary Society

Students may focus on how humans use technology and how technology has changed society.

The requirements include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMS W4111</td>
<td>Introduction to Databases</td>
</tr>
<tr>
<td>COMS W4170</td>
<td>User Interface Design</td>
</tr>
<tr>
<td>COMS W4701</td>
<td>Artificial Intelligence</td>
</tr>
<tr>
<td>BINF G4001</td>
<td>Introduction To Computer Applications In Health Care and Biomedicine</td>
</tr>
<tr>
<td>BIOL W4037</td>
<td>Bioinformatics of Gene Expression</td>
</tr>
<tr>
<td>ECBM E3060/E4060</td>
<td>Introduction to genomic information science and technology</td>
</tr>
</tbody>
</table>

Information Science and the Economy

Students may focus on understanding information modeling together with existing and emerging needs in economics and finance as well as algorithms and systems to address those needs.

The requirements include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMS W4111</td>
<td>Introduction to Databases</td>
</tr>
<tr>
<td>COMS W4701</td>
<td>Artificial Intelligence</td>
</tr>
<tr>
<td>ECON UN3412</td>
<td>Introduction To Econometrics</td>
</tr>
<tr>
<td>ECON UN3025</td>
<td>Financial Economics</td>
</tr>
<tr>
<td>ECON UN3265</td>
<td>The Economics of Money and Banking</td>
</tr>
</tbody>
</table>

Information Science and Health Sciences

Students may focus on understanding information modeling together with existing and emerging needs in health sciences, as well as algorithms and systems to address those needs.

The requirements include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMS W4111</td>
<td>Introduction to Databases</td>
</tr>
<tr>
<td>COMS W4701</td>

<td>COMS W4771</td>
<td>Machine Learning</td>
</tr>
<tr>
<td>BINF G4001</td>
<td>Introduction To Computer Applications In Health Care and Biomedicine</td>
</tr>
<tr>
<td>BIOL W4037</td>
<td>Bioinformatics of Gene Expression</td>
</tr>
<tr>
<td>ECBM E3060/E4060</td>
<td>Introduction to genomic information science and technology</td>
</tr>
</tbody>
</table>

Major in Data Science

Please read Guidelines for all Computer Science Majors and Concentrators above.

In response to the ever growing importance of "big data" in scientific and policy endeavors, the last few years have seen an explosive growth in theory, methods, and applications at the interface between computer science and statistics. The statistics and computer science departments have responded with a joint-major that emphasizes the interface between the disciplines.

Prerequisites (15 points)

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
<tr>
<td>MATH UN1102</td>
<td>Calculus II</td>
</tr>
<tr>
<td>MATH UN1201</td>
<td>Calculus III</td>
</tr>
<tr>
<td>MATH UN2010</td>
<td>Linear Algebra</td>
</tr>
</tbody>
</table>

Select one of the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT UN1001</td>
<td>Introduction to Statistical Reasoning</td>
</tr>
<tr>
<td>Course Code</td>
<td>Course Title</td>
</tr>
<tr>
<td>-------------</td>
<td>--------------</td>
</tr>
<tr>
<td>STAT UN1101</td>

</tr>
<tr>
<td>STAT UN1201</td>
<td>Calculus-Based Introduction to Statistics</td>
</tr>
</tbody>
</table>

### Statistics (12 points)

- STAT GU4203: PROBABILITY THEORY
- STAT GU4204: Statistical Inference
- STAT GU4205: Linear Regression Models
- STAT GU4241: Statistical Machine Learning
  or COMS W4771 Machine Learning

### Computer Science (12 points)

Select one of the following courses:

- COMS W1004: Introduction to Computer Science and Programming in Java
- COMS W1005: Introduction to Computer Science and Programming in MATLAB
- COMS W1007: Honors Introduction to Computer Science
- ENGI E1006: Introduction to Computing for Engineers and Applied Scientists

Select one of the following courses:

- COMS W3134: Data Structures in Java
- COMS W3136: Data Structures with C/C++
- COMS W3137: Honors Data Structures and Algorithms

Two required courses:

- COMS W3203: Discrete Mathematics: Introduction to Combinatorics and Graph Theory
- CSOR W4231: Analysis of Algorithms I

### Electives (15 points)

Select two of the following courses:

- STAT UN3106: Applied Data Mining
- STAT GU4206: Statistical Computing and Introduction to Data Science
- STAT GU4224: Bayesian Statistics
- STAT GU4243: Applied Data Science
- STAT Q4242: Advanced Machine Learning

Select three of the following courses:

- COMS W3261: Computer Science Theory
- COMS W4111: Introduction to Databases
- COMS W4130: Principles and Practice of Parallel Programming
- COMS W4236: Introduction to Computational Complexity
- COMS W4252: Introduction to Computational Learning Theory

Any COMS W47xx course EXCEPT W4771

### Concentration in Computer Science

Please read Guidelines for all Computer Science Majors and Concentrators above.

---

**For students who declare in Spring 2014 and beyond:**

The concentration in computer science requires a minimum of 22-24 points, as follows:

- COMS W1004: Introduction to Computer Science and Programming in Java
  or COMS W1007: Honors Introduction to Computer Science
- COMS W3134: Data Structures in Java
  or COMS W3137: Honors Data Structures and Algorithms
- COMS W3157: Advanced Programming
- COMS W3203: Discrete Mathematics: Introduction to Combinatorics and Graph Theory
- COMS W3261: Computer Science Theory
- CSEE W3827: Fundamentals of Computer Systems (or any 3-point 4000-level computer science course)

Select one of the following courses:

- MATH UN2010: Linear Algebra
- MATH V2020: Honors Linear Algebra
- APMA E2101: Introduction to Applied Mathematics
- APMA E3101: Linear Algebra
- STAT GU4001: Introduction to Probability and Statistics
- SIEO W3600: Introduction to Probability and Statistics

### For students who declared prior to Spring 2014:

The concentration requires a minimum of 23 points, as follows:

- COMS W1004: Introduction to Computer Science and Programming in Java
- COMS W1007: Honors Introduction to Computer Science
- COMS W3137: Honors Data Structures and Algorithms
- COMS W3157: Advanced Programming
- COMS W3261: Computer Science Theory
- CSEE W3827: Fundamentals of Computer Systems (or any 3-point 4000-level computer science course)

---

**Computer Science - Mathematics**

**Departmental Undergraduate Office:** 410 Mathematics; 212-854-2432
http://www.math.columbia.edu/
Undergraduate seminar, usually in the junior or senior year. Another requirement for majors is participation in an undergraduate seminar, usually in the junior or senior year.

Our major in mathematics is an introduction to some of the highlights of the development of theoretical mathematics over the past four hundred years from a modern perspective. This study is also applied to many problems, both internal to mathematics and arising in other disciplines such as physics, cryptography, and finance.

Majors begin by taking either Honors mathematics or the calculus sequence. Students who do not take MATH UN1207 Honors Mathematics A and MATH UN1208 Honors Mathematics B normally take MATH UN2010 Linear Algebra in the second year. Following this, majors begin to learn some aspects of the main branches of modern mathematics: algebra, analysis, and geometry; as well as some of their subdivisions and hybrids (e.g., number theory, differential geometry, and complex analysis). As the courses become more advanced, they also become more theoretical and proof-oriented and less computational.

Aside from the courses offered by the Mathematics Department, cognate courses in areas such as astronomy, chemistry, physics, probability, logic, economics, and computer science can be used toward the major. A cognate course must be a 2000-level (or higher) course and must be approved by the director of undergraduate studies. In general, a course not taught by the Mathematics Department is a cognate course for the mathematics major if either (a) it has at least two semesters of calculus as a stated prerequisite, or (b) the subject matter in the course is mathematics beyond an elementary level, such as PHIL UN3411 Symbolic Logic, in the Philosophy Department, or COMS W3203 Discrete Mathematics: Introduction to Combinatorics and Graph Theory, in the Computer Science Department.

In these seminars, students gain experience in learning an advanced topic and lecturing on it. In order to be eligible for departmental honors, majors must write a senior thesis.

### COURSES FOR FIRST-YEAR STUDENTS

The systematic study of mathematics begins with one of the following three alternative calculus and linear algebra sequences:

<table>
<thead>
<tr>
<th>MATH UN1101</th>
<th>Calculus I</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1102</td>
<td>and Calculus II</td>
</tr>
<tr>
<td>MATH UN1201</td>
<td>and Calculus III</td>
</tr>
<tr>
<td>MATH UN1202</td>
<td>and Calculus IV</td>
</tr>
<tr>
<td>MATH UN2010</td>
<td>and Linear Algebra</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>MATH UN1101</th>
<th>Calculus I</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1102</td>
<td>and Calculus II</td>
</tr>
<tr>
<td>MATH UN1205</td>
<td>and Accelerated Multivariable Calculus</td>
</tr>
<tr>
<td>MATH UN2010</td>
<td>and Linear Algebra</td>
</tr>
</tbody>
</table>

Credit is allowed for only one calculus and linear algebra sequence.

**Calculus I, II** is a standard course in single-variable differential and integral calculus; **Calculus III, IV** is a standard course in multivariable differential and integral calculus; **Accelerated Multivariable Calculus** is an accelerated course in multivariable differential and integral calculus.

While **Calculus II** is no longer a prerequisite for **Calculus III**, students are strongly urged to take it before taking **Calculus III**. In particular, students thinking of majoring or concentrating in mathematics or one of the joint majors involving mathematics should take **Calculus II** before taking **Calculus III**. Note that **Calculus II** is a prerequisite for **Accelerated Multivariable Calculus**, and both **Calculus II** and **Calculus III** are prerequisites for **Calculus IV**.

The third sequence, **Honors Mathematics A- B**, is for exceptionally well-qualified students who have strong Advanced Placement scores. It covers multivariable calculus (MATH UN1201 Calculus III- MATH UN1202 Calculus IV) and linear algebra (MATH UN2010 Linear Algebra), with an emphasis on theory.

MATH UN1003 College Algebra and Analytic Geometry does not count toward the degree. Students who take this course do not receive college credit.

### ADVANCED PLACEMENT

The department grants 3 credits for a score of 4 or 5 on the AP Calculus AB exam provided students complete MATH UN1102 Calculus II or MATH UN1201 Calculus
III with a grade of C or better. The department grants 3 credits for a score of 4 on the AP Calculus BC exam provided students complete MATH UN1102 Calculus II or MATH UN1201 Calculus III with a grade of C or better. The department grants 6 credits for a score of 5 on the AP Calculus BC exam provided students complete MATH UN1201 Calculus III or MATH UN1205 Accelerated Multivariable Calculus MATH UN1207 Honors Mathematics A with a grade of C or better. Students can receive credit for only one calculus sequence.

**Placement in the Calculus Sequences**

**Calculus I**
Students who have essentially mastered a precalculus course and those who have a score of 3 or less on an Advanced Placement (AP) exam (either AB or BC) should begin their study of calculus with MATH UN1101 Calculus I.

**Calculus II and III**
Students with a score of 4 or 5 on the AB exam, 4 on the BC exam, or those with no AP score but with a grade of A in a full year of high school calculus may begin with either MATH UN1102 Calculus II or MATH UN1201 Calculus III. Note that such students who decide to start with Calculus III may still need to take Calculus II since it is a requirement or prerequisite for other courses. In particular, they MUST take Calculus II before going on to MATH UN1202 Calculus IV. Students with a score of 5 on the BC exam may begin with Calculus III and do not need to take Calculus II.

Those with a score of 4 or 5 on the AB exam or 4 on the BC exam may receive 3 points of AP credit upon completion of Calculus II with a grade of C or higher. Those students with a score of 5 on the BC exam may receive 6 points of AP credit upon completion of Calculus III with a grade of C or higher.

**Accelerated Multivariable Calculus**
Students with a score of 5 on the AP BC exam or 7 on the IB HL exam may begin with MATH UN1205 Accelerated Multivariable Calculus. Upon completion of this course with a grade of C or higher, they may receive 6 points of AP credit.

**Honors Mathematics A**
Students who want a proof-oriented theoretical sequence and have a score of 5 on the BC exam may begin with MATH UN1207 Honors Mathematics A, which is especially designed for mathematics majors. Upon completion of this course with a grade of C or higher, they may receive 6 points of AP credit.

**Transfers Inside the Calculus Sequences**
Students who wish to transfer from one calculus course to another are allowed to do so beyond the date specified on the Academic Calendar. They are considered to be adjusting their level, not changing their program. However, students must obtain the approval of the new instructor and their advising dean prior to reporting to the Office of the Registrar.

**Grading**
No course with a grade of D or lower can count toward the major, interdepartmental major, or concentration. Students who are doing a double major cannot double count courses for their majors.

**Departmental Honors**
In order to be eligible for departmental honors, majors must write a senior thesis. To write a senior thesis, students must register for MATH UN3999 Senior Thesis in Mathematics in the fall semester of their senior year. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

**Professors**
- Mohammed Abouzaid
- David A. Bayer (Barnard)
- Simon Brendle
- Ivan Corwin
- Panagiota Daskalopoulos
- Aise Johan de Jong
- Robert Friedman
- Patrick X. Gallagher
- Dorian Goldfeld
- Brian Greene
- Richard Hamilton
- Michael Harris
- Ioannis Karatzas
- Mikhail Khovanov
- Igor Krichever
- Chiu-Chu Liu
- Dusa McDuff (Barnard)
- Walter Neumann (Barnard)
- Andrei Okounkov
- D. H. Phong
- Henry Pinkham
- Ovidiu Savin
- Michael Thaddeus (Department Chair)
- Eric Urban
- Mu-Tao Wang
- Wei Zhang

**Associate Professors**
- Daniela De Silva (Barnard)
- Julien Dubedat

• Profs. Daskalopoulos, Liu, Makisumi, Okounkov, Pinkham, Wang, Zhang (Spring 2018)

MAJOR IN MATHEMATICS
The major requires 40-42 points as follows:

Select one of the following three calculus and linear algebra sequences (13-15 points including Advanced Placement Credit):

| MATH UN1101 | Calculus I |
| MATH UN1102 | Calculus II |
| MATH UN1201 | Calculus III |
| MATH UN1202 | Calculus IV |
| MATH UN2010 | Linear Algebra |

| MATH UN1101 | Calculus I |
| MATH UN1102 | Calculus II |
| MATH UN1205 | Accelerated Multivariable |
| MATH UN2010 | Calculus |
|             | Linear Algebra |

15 points in the following required courses:

| MATH UN3951 | Undergraduate Seminars in Mathematics I |
| MATH UN3952 | Undergraduate Seminars in Mathematics II |
| MATH GU4041 | Introduction to Modern Algebra I |
| MATH GU4042 | Introduction to Modern Algebra II |

12 points in any combination of mathematics and cognate courses. **

* Students who are not contemplating graduate study in mathematics may replace one or both of the two terms of MATH GU4061- MATH GU4062 by one or two of the following courses: MATH UN2500 Analysis and Optimization, MATH UN3007 Complex Variables, MATH UN3028 Partial Differential Equations, or MATH GU4032 Fourier Analysis.

** A course not taught by the Mathematics Department is a cognate course for the mathematics major if either (a) it has at least two semesters of calculus as a stated prerequisite and is a 2000-level (or higher) course, or (b) the subject matter in the course is mathematics beyond an elementary level, such as PHIL UN3411 Symbolic Logic, in the Philosophy Department, or COMS W3203 Discrete Mathematics: Introduction to Combinatorics and Graph Theory, in the Computer Science Department. In exceptional cases, the director of undergraduate studies may approve the substitution of certain more advanced courses for those mentioned above.

The program of study should be planned with a departmental adviser before the end of the sophomore year. Majors who are planning on graduate studies in mathematics are urged to obtain a reading knowledge of one of the following languages: French, German, or Russian.

Majors are offered the opportunity to write an honors senior thesis under the guidance of a faculty member. Interested students should contact the director of undergraduate studies.

MAJOR IN APPLIED MATHEMATICS
The major requires 38-40 points as follows:

Select one of the following three calculus and linear algebra sequences (13-15 points including Advanced Placement Credit):

<p>| MATH UN1101 | Calculus I |
| MATH UN1102 | Calculus II |
| MATH UN1201 | Calculus III |
| MATH UN1202 | Calculus IV |
| MATH UN2010 | Linear Algebra |
| MATH UN1105 | Calculus |
| MATH UN2010 | Linear Algebra |</p>
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
<tr>

<td>and Calculus III</td>
</tr>
<tr>
<td>MATH UN1202</td>
<td>and Calculus IV</td>
</tr>
<tr>
<td>MATH UN2010</td>
<td>and Linear Algebra</td>
</tr>
</tbody>
</table>

Select one of the following three courses:

- MATH UN2500 Analysis and Optimization
- MATH GU4032 Fourier Analysis
- MATH GU4061 Introduction to Modern Analysis I

APMA E4901 Seminar: Problem in Applied Mathematics (junior year)

APMA E4903 Seminar: Problems in Applied Mathematics (senior year)

18 points in electives, selected from the following (other courses may be used with the approval of the Applied Mathematics Committee):

- MATH UN2500 Analysis and Optimization
- MATH UN3007 Complex Variables
- or MATH GU4065 Honors Complex Variables
- or APMA E4204 Functions of a Complex Variable
- MATH UN3027 Ordinary Differential Equations
- or MATH UN3028 Partial Differential Equations
- or APMA E4200 Partial Differential Equations
- or APMA E6301 Analytic methods for partial differential equations
- MATH GU4032 Fourier Analysis
- APMA E4300 Computational Math: Introduction to Numerical Methods
- APMA E4101 Introduction to Dynamical Systems
- APMA E4150 Applied Functional Analysis
- APMA E4400 Introduction to Biophysical Modeling

Select two of the following courses:

- CSOR W4231 Analysis of Algorithms I
- COMS W4241 Numerical Algorithms and Complexity
- MATH BC2006 Combinatorics
- MATH UN2500 Analysis and Optimization
- MATH UN3007 Complex Variables
- MATH UN3020 Number Theory and Cryptography
- MATH UN3386 Differential Geometry
- MATH GU4051 Topology
- MATH GU4061 Introduction to Modern Analysis I

The major requires 20 points in computer science, 19-21 points in mathematics, and two 3-point electives in either computer science or mathematics.

**Computer Science**

- Introduction to Computer Science and Programming in Java
- Honors Introduction to Computer Science
- Data Structures in Java
- Honors Data Structures and Algorithms
- Advanced Programming
- Discrete Mathematics: Introduction to Combinatorics and Graph Theory
- Computer Science Theory
- Fundamentals of Computer Systems

**Mathematics**

Select one of the following three calculus and linear algebra sequences (13-15 points including Advanced Placement Credit):

- Calculus I and Calculus II and Calculus III and Calculus IV and Linear Algebra
- Calculus I and Calculus II and Accelerated Multivariable Calculus and Linear Algebra
- Calculus I and Calculus II and Honors Mathematics A and Honors Mathematics B

- Undergraduate Seminars in Mathematics I
- Undergraduate Seminars in Mathematics II

**Electives**

Select two of the following courses:

- Analysis of Algorithms I
- Numerical Algorithms and Complexity
- Combinatorics
- Analysis and Optimization
- Complex Variables
- Number Theory and Cryptography
- Differential Geometry
- Topology
- Introduction to Modern Analysis I

---

**MAJOR IN COMPUTER SCIENCE–MATHEMATICS**

The goal of this interdepartmental major is to provide substantial background in each of these two disciplines, focusing on some of the parts of each which are closest to the other. Students intending to pursue a Ph.D. program in either discipline are urged to take additional courses, in consultation with their advisers.
MAJOR IN ECONOMICS-MATHEMATICS

MAJOR IN MATHEMATICS-STATISTICS

The program is designed to prepare the student for: (1) a career in industries such as finance and insurance that require a high level of mathematical sophistication and a substantial knowledge of probability and statistics, and (2) graduate study in quantitative disciplines. Students choose electives in finance, actuarial science, operations research, or other quantitative fields to complement requirements in mathematics, statistics, and computer science.

Mathematics

Select one of the following sequences:

- MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1201 and Calculus III
- MATH UN2010 and Linear Algebra
- MATH UN2500 and Analysis and Optimization

- MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1205 and Accelerated Multivariable Calculus
- MATH UN2010 Calculus
- MATH UN2500 and Linear Algebra and Analysis and Optimization

- MATH UN1207 Honors Mathematics A
- MATH UN1208 and Honors Mathematics B
- MATH UN2500 and Analysis and Optimization (with approval from the adviser)

Statistics

Introductory Course

STAT UN1201 Calculus-Based Introduction to Statistics

Required Courses

- STAT GU4203 PROBABILITY THEORY
- STAT GU4204 Statistical Inference
- STAT GU4205 Linear Regression Models

Select one of the following courses:

- STAT GU4207 Elementary Stochastic Processes
- STAT GU4262 Stochastic Processes for Finance
- STAT GU4264 Stochastic Processes and Applications
- STAT GU4265 Stochastic Methods in Finance

Computer Science

Select one of the following courses:

- COMS W1004 Introduction to Computer Science and Programming in Java
- COMS W1005 Introduction to Computer Science and Programming in MATLAB
- ENGI E1006 Introduction to Computing for Engineers and Applied Scientists

COMS W1007 Honors Introduction to Computer Science

or an advanced computer science offering in programming

Electives

An approved selection of three advanced courses in mathematics, statistics, applied mathematics, industrial engineering and operations research, computer science, or approved mathematical methods courses in a quantitative discipline. At least one elective must be a Mathematics Department course numbered 3000 or above.

Students interested in modeling applications are recommended to take MATH UN3027 Ordinary Differential Equations and MATH UN3028 Partial Differential Equations.

Students interested in finance are recommended to take MATH GR5010 Introduction to the Mathematics of Finance, STAT GU4261 Statistical Methods in Finance, and STAT GU4221 Time Series Analysis.

Students interested in graduate study in mathematics or statistics are recommended to take MATH GU4061 Introduction To Modern Analysis I and MATH GU4062 Introduction To Modern Analysis II.

Students preparing for a career in actuarial science are encouraged to replace STAT GU4205 Linear Regression Models with STAT GU4282 Linear Regression and Time Series Methods, and to take among their electives STAT GU4281 Theory of Interest.

CONCENTRATION IN MATHEMATICS

The concentration requires the following:

Mathematics

Select one of the following three multivariable calculus and linear algebra sequences:

- MATH UN1201 Calculus III
- MATH UN1202 and Calculus IV
- MATH UN2010 and Linear Algebra

- MATH UN1205 Accelerated Multivariable Calculus
- MATH UN2010 and Linear Algebra

- MATH UN1207 Honors Mathematics A
- MATH UN1208 and Honors Mathematics B

Additional Courses

Select at least 12 additional points from any of the courses offered by the department numbered 2000 or higher.

For mathematics courses taken in other departments, consult with the director of undergraduate studies.

Any course given by the Mathematics department fulfills the General Studies quantitative reasoning requirement when passed with a satisfactory letter grade.
CREATIVE WRITING

Undergraduate Creative Writing Program Office: 609 Kent; 212-854-3774
http://arts.columbia.edu/writing/undergraduate

Director of Undergraduate Studies: Prof. Heidi Julavits, 609 Kent; 212-854-3774; hj26@columbia.edu

Executive Committee on Undergraduate Creative Writing:
Prof. Timothy Donnelly, Poetry (Chair), 415 Dodge; 212-854-4391; td28@columbia.edu
Prof. Margo Jefferson, Nonfiction, 609 Kent; 212-854-3774; mlj4@columbia.edu
Prof. Heidi Julavits, Fiction, 609 Kent; 212-854-3774; hj26@columbia.edu
Prof. Dorothea "Dottie" Lasky, Poetry, 609 Kent; 212-854-3774; dsl2121@columbia.edu
Prof. Sam Lipsyte, Fiction, 415 Dodge; 212-854-4391; sam.lipsyte@columbia.edu

The Creative Writing Program in The School of the Arts combines intensive writing workshops with seminars that study literature from a writer’s perspective. Students develop and hone their literary technique in workshops. The seminars (which explore literary technique and history) broaden their sense of possibility by exposing them to various ways that language has been used to make art. Related courses are drawn from departments such as English, comparative literature and society, philosophy, history, and anthropology, among others.

Students consult with faculty advisers to determine the related courses that best inform their creative work. The creative writing major is by application only. For details, see the Creative Writing website: http://arts.columbia.edu/writing/undergraduate.

PROFESSORS
- Margo L. Jefferson

- Trenton Pollard
- Nicola Sebastian
- Sihan Tan
- Rashida Williams

MAJOR IN CREATIVE WRITING

The major in creative writing requires a minimum of 36 points: five workshops, four seminars, and three related courses.

Workshop Curriculum (15 points)

Students in the workshops produce original works of fiction, poetry, or nonfiction, and submit them to their classmates and instructor for a close critical analysis. Workshop critiques (which include detailed written reports and thorough line-edits) assess the mechanics and merits of the writing pieces. Individual instructor conferences distill the critiques into a direct plan of action to improve the work. Student writers develop by practicing the craft under the diligent critical attention of their peers and instructor, which guides them toward new levels of creative endeavor.

Creative writing majors select 15 points within the division in the following courses. One workshop must be in a genre other
than the primary focus. For instance, a fiction writer might take four fiction workshops and one poetry workshop.

**Beginning Workshop**
Designed for students who have little or no previous experience writing literary texts in a particular genre.

<table>

<td>Advanced Poetry Workshop</td>
</tr>
</tbody>
</table>

**Senior Creative Writing Workshop**
Seniors who are creative writing majors are given priority. Enrollment limited to 12, by instructor’s permission. The senior workshop offers students the opportunity to work exclusively with classmates who are at the same high level of accomplishment in the major. This course is only offered by graduate faculty professors.

**Related Courses (9 points)**

Drawn from various departments, these courses provide concentrated intellectual and creative stimulation, as well as exposure to ideas that enrich students’ artistic instincts. Courses may be different for each student writer. Students should consult with faculty advisers to determine the related courses that best inform their creative work.

**DANCE**

310 Barnard Hall
212-854-2995
dance@barnard.edu
Department Assistant: Diane Roe
THE DEPARTMENT OF DANCE

Mission

The Barnard College Department of Dance, located in a world dance capital, offers an interdisciplinary program that integrates the study of dance within a liberal arts setting of intellectual and creative exploration. The major builds upon studio courses, the Department’s productions at Miller Theater, New York Live Arts, and other venues, as well as a rich array of dance studies courses, allowing students’ creative work to develop in dialogue with critical inquiry into the history, culture, theory and forms of western and non-western performance, typically enhanced by study in other disciplines. Students work with accomplished artists whose work enriches contemporary American dance; they also study with outstanding research scholars.

Making, thinking about, and writing about art are an essential part of the liberal arts education. For this reason, the Department of Dance offers technique courses for students of all levels of expertise, while opening its other courses to majors and non-majors alike, who may also audition for its productions. The Department partners with cultural institutions in New York City to connect students with the professional world.

The Department of Dance is fully accredited and in good standing with the National Association of Schools of Dance.

Student Learning Outcomes for the Major and Concentration

Students graduating with a major in Dance should be able to attain the following outcomes:

• Apply critical thinking, reading, and writing skills to dance-related texts and choreography.
• Develop the knowledge and research skills to explore the dance past in writing, orally, and in performance.
• Present interpretations of dance-related texts orally, in writing, and in performance.
• Apply library, archival, and internet research skills to dance scholarship and choreography.
• Demonstrate improved efficiency and expressivity in dance technique.
• Demonstrate growing technical understanding and fluency in dance technique.
• Create original dances, dance/theater works or dance-based, mixed media works.
• Collaborate with an artist in the creation of original dance works.
• Participate in the creative process through the creation and interpretation of choreography.
• Apply interdisciplinary research methods to dance scholarship and choreography.
• Apply historical research methods to dance scholarship and choreography.
• Demonstrate conceptual and methodological approaches for studying world dance forms through research and writing.
• Demonstrate the ability to understand cultural and historical texts in relation to dance forms.
• Apply anatomical knowledge to movement and choreography.
• Evaluate the theoretical and artistic work of peers.
• Communicate with an audience in oral presentations and dance performance.
• Understand and interpret the language and form of an artist’s choreography.
• Solve technical problems in dance movement.
• Apply musical knowledge to movement and choreography.
• Design choreographic movement and structures.

Dance Technique Courses

Level I courses, except for global and somatic courses, have no prerequisite and students receive a Pass/Fail grade. All other courses must be taken for a letter grade and require a placement audition (held at the first meeting of classes) or the permission of the instructor. These courses may be taken to fulfill the physical education requirement.

GS students registering for a dance technique class must register for at least one credit: GS students may not register for a 0-credit dance technique class.

Additionally, a maximum of six (6) points of dance technique courses can be taken for credit by GS non-dance majors.

Ballet

Technique of classical ballet emphasizing proper alignment and graduated study of its vocabulary. Artistry of articulation, phrasing, dynamics, and nuance in the broad range of classical materials are addressed at each level.

Modern

The study of contemporary dance based on the work of the 20th and 21st century innovators. Aesthetic principles of modern dance will be taught with increased technical demands required at each successive level.

Global and Somatic Forms

The study of dance forms including classical Spanish, Jazz, Tap, West African, Afro-Cuban, and Indian.

Assistant Professor of Professional Practice: Gabri Christa
Term Associate Professor of Professional Practice: Marjorie Folkman
Chair, Senior Associate: Katie Glasner
Associate Professor: Paul Scolieri
**Associate Professor of Professional Practice:** Colleen Thomas-Young  
**Assistant Professor:** Seth Williams  
**Adjunct Faculty:** Cynthia Anderson, Jennifer Archibald, Rebecca Bliss, Siobhan Burke, Maguette Camara, Antonio Carmena, Mary Carpenter, Utara Coolawala, Molissa Fenley, Caroline Fermín, Allegra Kent, Katiit King, Melinda Marquez, Vincent Mc Closkey, Jodi Melnick, Margaret Morrison, Brian Reeder, Leigh Schanfein, Kathryn Sullivan, Caitlin Trainor, Ashley Tuttle, Andrea Weber  
**Artists in Residence:** Katie Dorn, Shannon Gillen, Sharon Milanese, Okwui Okpokwasili, Claudia Schreier  
**Technical Director and Lighting Designer:** Tricia Toliver  
**Music Director:** Robert Boston  
**Administrative Assistant:** Diane Roe

**MAJOR IN DANCE (FOR STUDENTS ENTERING IN FALL 2011 OR LATER)**

Majors must complete eleven academic courses (six required, five elective) and a minimum of eight 1-point technique courses. All majors write a senior thesis as part of their coursework.

The required courses for the major in dance are distributed as follows:

**Dance History**  
The following two courses in Dance History must be completed before the fall of the senior year:
- DNCE BC2565 World Dance History 3  
- DNCE BC3001 Western Theatrical Dance from the Renaissance to the 1960s 3

**Movement Science**  
Select one or more of the following:
- DNCE BC2501 Biomechanics for the Dancer: Theory and Practice 3  
- DNCE BC2561 Kinesiology: Applied Anatomy for Human Movement 3  
- DNCE BC2562 Movement Analysis 3

**Composition**  
One course in Composition must be completed before the fall of the senior year.
- DNCE BC2564 Dance Composition: Content 3  
- DNCE BC3565 Composition: Collaboration and the Creative Process 3  
- DNCE BC3566 Composition: Site Specific and Experimental Methods 3  
- DNCE BC2563 Composition: Form, Dance/Theater 3

**Senior Work**  
Seniors planning to write a combined thesis must request approval from both departments and notify the Registrar. All majors must complete two semesters of senior work. The following course, which culminates in a 25-30-page written thesis and an oral presentation to the Department at the end of the semester, is required of all seniors:
- DNCE BC3591 Senior Seminar in Dance 4  
In addition, all majors must take one of the following two courses, depending on whether the senior requirement is completed with a creative project or a two-semester written thesis:
- DNCE BC3592 Senior Project: Research for Dance 4  
- DNCE BC3593 Senior Project: Repertory for Dance 3

Students who are double majors may request permission to write a two-semester combined thesis.

**Electives**

Five additional 3- or 4-point courses, chosen in consultation with the major advisor, are required. Electives may be chosen from among the departmental offerings listed above or below, including additional coursework in Composition, Movement Science, and/or Senior Work beyond the major requirement.

**History/Criticism:**
- DNCE BC2570 Dance in New York City  
- DNCE BC2575 Choreography for the American Musical  
- DNCE BC2580 Tap as an American Art Form  
- DNCE BC3000 From Page to Stage: Interactions of Literature and Choreography  
- DNCE BC3200 Dance in Film  
- DNCE BC3567 Dance of India  
- DNCE BC3570 Latin American and Caribbean Dance: Identities in Motion  
- DNCE BC3575 George Balanchine and the Reinvention of Modern Ballet  
- DNCE BC3576 Dance Criticism  
- DNCE BC3577 Performing the Political: Embodying Change in American Performance  
- DNCE BC3578 Traditions of African-American Dance  
- DNCE BC3580 History of Social Dancing: Dance Crazes from the Waltz to Flash Mobs  
- DNCE BC3583 Gender and Historical Memory in American Dance of the 1930’s to the Early 1960’s  
- DNCE BC3980 Performing the Political: Embodying Change in American Performance  
- DNCE BC3981 Inventing American Modern Dance: Ruth St. Denis and Ted Shawn  
- DNCE BC3982 Diaghilev’s Ballets Russes and Its World
Studio/Performance:
DNCE BC2555  Ensemble Dance Repertory (Modern Dance)
DNCE BC2556  Ensemble Dance Repertory: Ballet
DNCE BC2557  Evolution of Spanish Dance Style
DNCE BC2558  Tap Ensemble
DNCE BC2567  Music for Dance
DNCE BC3571  Solo Repertory: Performance Styles
DNCE BC3601 - DNCE BC3604  Rehearsal and Performance in Dance and Rehearsal and Performance in Dance

Overview of Major Requirements (11 total, plus 8 technique courses)

- 1 Movement Science
- 1 Composition
- 2 History
- 1 Senior Seminar
- 1 Senior Project (Research in Dance or Repertory for Dance)
- 5 Electives
- 8 Technique Courses

MAJOR IN DANCE (FOR STUDENTS DECLARING A MAJOR BEFORE FALL 2011)

Majors must fulfill an eleven-course requirement, including the DNCE BC3591 Senior Seminar in Dance and either Senior Project: Research in Dance (DNCE BC3592 Senior Project: Research for Dance) or DNCE BC3593 Senior Project: Repertory for Dance, in addition to taking a minimum of eight 1-point technique courses.

To fulfill the distribution requirements, one course must be taken in each of the following four areas:

Movement Science
DNCE BC2501  Biomechanics for the Dancer: Theory and Practice 3
DNCE BC2561  Kinesiology: Applied Anatomy for Human Movement 3
DNCE BC2562  Movement Analysis 3

Composition
DNCE BC3566  Composition: Site Specific and Experimental Methods 3
DNCE BC2563  Composition: Form, Dance/ Theater 3
DNCE BC2564  Dance Composition: Content 3
DNCE BC3565  Composition: Collaboration and the Creative Process 3

DNCE BC2565  World Dance History 3

Writing
DNCE BC2570  Dance in New York City 3
DNCE BC3570  Latin American and Caribbean Dance: Identities in Motion 3
DNCE BC3574  Inventing the Contemporary: Dance Since the 1960s 3
DNCE BC3576  Dance Criticism 3
DNCE BC3577  Performing the Political: Embodying Change in American Performance 3

Electives
In consultation with the major advisor, an additional five courses should be chosen from the courses listed above or below:

History/Criticism:
DNCE BC2575  Choreography for the American Musical 3
DNCE BC2580  Tap as an American Art Form 3
DNCE BC3000  From Page to Stage: Interactions of Literature and Choreography 3
DNCE BC3567  Dance of India 3
DNCE BC3575  George Balanchine and the Reinvention of Modern Ballet 3
DNCE BC3577  Performing the Political: Embodying Change in American Performance 3
DNCE BC3578  Traditions of African-American Dance 3
DNCE BC3980  Performing the Political: Embodying Change in American Performance 3
DNCE BC3982  Diaghilev’s Ballets Russes and Its World 3

Studio/Performance:
DNCE BC2555  Ensemble Dance Repertory (Modern Dance) 3
DNCE BC2556  Ensemble Dance Repertory: Ballet 3
DNCE BC2558  Tap Ensemble 3
DNCE BC2567  Music for Dance 3
DNCE BC3571  Solo Repertory: Performance Styles 3
DNCE BC3572  Dance Production 3
DNCE BC3601 - DNCE BC3604  Rehearsal and Performance in Dance and Rehearsal and Performance in Dance 3

Senior Work
All dance majors must complete two semesters of senior work. DNCE BC3591 Senior Seminar in Dance given in the fall semester, requires a 25-30 page written thesis and an oral presentation to the Department at the end of the semester. The second semester is usually a performance project for which the student registers in DNCE BC3593 Senior Project:
Repetory for Dance. Students may also choose to do a two-
semester thesis, registering in DNCE BC3592 Senior Project:
Research for Dance. Students who are double majors may
request permission to do a two-semester combined thesis.

Overview of Major Requirements (11 total,
plus 8 technique classes)

• 1 Movement Science
• 1 Composition
• 1 History
• 1 Writing
• 1 Senior Seminar
• 1 Senior Project (Research in Dance or Repertory for
  Dance)
• 5 Electives
• 8 Technique Classes

CONCENTRATION IN DANCE
The concentration in dance is identical to the major except that
only two electives are required.

For the major requirements, please see above.

Overview of Concentration Requirements (8
total, plus 8 technique classes)

• 1 Movement Science
• 1 Composition
• 2 History
• 1 Senior Seminar
• 1 Senior Project (Research in Dance or Repertory for
  Dance)
• 2 Electives
• 8 Technique Classes

DATA SCIENCE
Departmental Office: 450 Computer Science Building;
212-939-7000
http://www.cs.columbia.edu/

Director of Undergraduate Studies: Dr. Jae Woo Lee, 715
CEPSR; 212-939-7066; jae@cs.columbia.edu

Departmental Advisers:
For updated adviser information, see http://

For administrative advising issues please contact:
advising@cs.columbia.edu.

The majors in the Department of Computer Science
provide students with the appropriate computer science
background necessary for graduate study or a professional
career. Computers impact nearly all areas of human endeavor.

Therefore, the department also offers courses for students
who do not plan a computer science major or concentration.
The computer science majors offer maximum flexibility
by providing students with a range of options for program
specialization. The department offers four majors: computer
science; information science; data science; and computer
science-mathematics, offered jointly with the Mathematics
Department.

COMPUTER SCIENCE MAJOR
Students study a common core of fundamental topics,
supplemented by a track that identifies specific areas for deeper
study. The foundations track prepares students for advanced
work in fundamental, theoretical, and mathematical aspects
of computing, including analysis of algorithms, scientific
computing, and security. The systems track prepares students
for immediate employment in the computer industry as
well as advanced study in software engineering, operating
systems, computer-aided digital design, computer architecture,
programming languages, and user interfaces. The intelligent
systems track provides specialization for the student interested
in natural language processing and systems capable of
exhibiting “human-like” intelligence. The applications track
is for students interested in the implementation of interactive
multimedia content for the Internet and wireless applications.
The vision, graphics, interaction, and robotics track exposes
students to computer vision, graphics, human-computer
interaction, and robotics.

A combination track is available to students who wish to pursue
an interdisciplinary course of study combining computer
science and another field in the arts, humanities, mathematics,
natural sciences, or social sciences. A student planning a
combination track should be aware that one additional course
is required to complete this option.

INFORMATION SCIENCE MAJOR
Information science is an interdisciplinary major designed to
provide a student with an understanding of how information
is organized, accessed, stored, distributed, and processed in
strategic segments of today’s society. Recent years have seen an
explosive growth of on-line information, with people of all ages
and all walks of life making use of the World Wide Web and
other information in digital form.

This major puts students at the forefront of the information
revolution, studying how on-line access touches on all
disciplines and changing the very way people communicate.
Organizations have large stores of in-house information that
are crucial to their daily operation. Today’s systems must
enable quick access to relevant information, must ensure
that confidential information is secure, and must enable new
forms of communication among people and their access to
information.

The information science major can choose a scientific focus
on algorithms and systems for organizing, accessing, and
processing information, or an interdisciplinary focus in order to develop an understanding of, and tools for, information modeling and use within an important sector of modern society such as economics or health.

**ADVANCED PLACEMENT**

The department grants 3 points for a score of 4 or 5 on the AP Computer Science exam along with exemption from COMS W1004 Introduction to Computer Science and Programming in Java. However, we still recommend that you take COMS W1004 or W1007 even if you have credits from the CS AP exam. COMS W1007 Honors Introduction to Computer Science is recommended if you scored 5 on the AP exam, and COMS W1004 is recommended if you scored 4.

**PRE-INTRODUCTORY COURSES**

COMS W1004 is the first course in the Computer Science major curriculum, and it does not require any previous computing experience. Before taking COMS W1004, however, students have an option to start with one of the pre-introductory courses: ENGI E1006 or COMS W1002.

ENGI E1006 Introduction to Computing for Engineers and Applied Scientist is a general introduction to computing for STEM students. ENGI E1006 is in fact a required course for all engineering students. COMS W1002 Computing In Context is a course primarily intended for humanities majors, but it also serves as a pre-introductory course for CS majors. ENGI E1006 and COMS W1002 do not count towards Computer Science major.

**LABORATORY FACILITIES**

The department has well-equipped lab areas for research in computer graphics, computer-aided digital design, computer vision, databases and digital libraries, data mining and knowledge discovery, distributed systems, mobile and wearable computing, natural language processing, networking, operating systems, programming systems, robotics, user interfaces, and real-time multimedia.

Research labs contain several large Linux and Solaris clusters; Puma 500 and IBM robotic arms; a UTAH-MIT dexterous hand; an Adept-1 robot; three mobile research robots; a real-time defocus range sensor; interactive 3-D graphics workstations with 3-D position and orientation trackers; prototype wearable computers, wall-sized stereo projection systems; see-through head-mounted displays; a networking testbed with three Cisco 7500 backbone routers, traffic generators; an IDS testbed with secured LAN, Cisco routers, EMC storage, and Linux servers; and a simulation testbed with several Sun servers and Cisco Catalyst routers. The department uses a SIP IP phone system. The protocol was developed in the department.

The department’s computers are connected via a switched 1Gb/s Ethernet network, which has direct connectivity to the campus OC-3 Internet and internet 2 gateways. The campus has 802.11b/g wireless LAN coverage.

The research facility is supported by a full-time staff of professional system administrators and programmers.

**PROFESSORS**

- Alfred V. Aho
- Peter K. Allen
- Peter Belhumeur
- Steven M. Bellovin
- David Blei
- Michael J. Collins
- Steven K. Feiner
- Luis Gravano
- Julia Hirschberg
- Gail E. Kaiser

Guidelines for All Computer Science Majors and Concentrators

Courses
Students may receive credit for only one of the following two courses:
• COMS W1004 Introduction to Computer Science and Programming in Java
• COMS W1005 Introduction to Computer Science and Programming in MATLAB.

Students may receive credit for only one of the following three courses:
• COMS W3134 Data Structures in Java
• COMS W3136 Data Structures with C/C++
• COMS W3137 Honors Data Structures and Algorithms

However, COMS W1005 and COMS W3136 cannot be counted towards the Computer Science major, minor, and concentration.

Transfer Credit
As a rule, no more than 12 transfer credits are accepted toward the major.

Grading
A maximum of one course worth no more than 4 points passed with a grade of D may be counted toward the major or concentration.

Major in Computer Science
Please read Guidelines for All Computer Science Majors and Concentrators above.

All majors should confer with their program adviser each term to plan their programs of study. Students considering a major in computer science are encouraged to talk to a program adviser during their first or second year. A typical program of study is as follows:

Program of Study
Computer Science Core (22-24 points)
For students who declare in Spring 2014 and beyond:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGI E1006</td>
<td>Introduction to Computing for Engineers and Applied Scientists (recommended but not required)</td>
</tr>
<tr>
<td>COMS W1004</td>
<td>Introduction to Computer Science and Programming in Java</td>
</tr>
</tbody>
</table>

First Year
or COMS W1007 Honors Introduction to Computer Science

Sophomore Year

COMS W3134 Data Structures in Java
or COMS W3137 Honors Data Structures and Algorithms
COMS W3157 Advanced Programming
COMS W3203 Discrete Mathematics: Introduction to Combinatorics and Graph Theory

Junior and Senior Year

Select the remaining required core courses:

COMS W3261 Computer Science Theory
CSEE W3827 Fundamentals of Computer Systems

Select one of the following courses:

MATH UN2010 Linear Algebra
APMA E2101 Introduction to Applied Mathematics
APMA E3101 Linear Algebra
STAT GU4001 Introduction to Probability and Statistics

For students who declared prior to Spring 2014:

First Year

COMS W1004 Introduction to Computer Science and Programming in Java

Sophomore Year

COMS W1007 Honors Introduction to Computer Science
COMS W3137 Honors Data Structures and Algorithms
COMS W3157 Advanced Programming
COMS W3203 Discrete Mathematics: Introduction to Combinatorics and Graph Theory

Junior and Senior Year

COMS W3261 Computer Science Theory
CSEE W3827 Fundamentals of Computer Systems

In addition to the CS Core (22-24 points), all CS majors must complete the Calculus Requirement (3 points) and a Track Requirement (15 or 18 points). The CS major therefore requires 40-45 points total.

Mathematics (3 points)

Calculus II or Calculus III.

Note that Calculus III does NOT depend on Calculus II. You can take either Calculus II or III, but we recommend Calculus III, which covers topics that are a bit more relevant for upper-level Computer Science courses.

If you have received equivalent credits for Calculus I & II already (through AP Calculus exam for example), you are not required to take any more Calculus courses. But we recommend taking one more semester of Calculus, either Math UN1201 Calculus III or APAM E2000 Multivariate Calculus for Engineers and Scientists. APAM E2000 covers relevant topics from Calculus III and IV.

Track Requirement (15 or 18 points)

Students must select one of the following six upper-level tracks. Each track, except the combination track, requires five courses consisting of required, elective breadth, and elective track courses. The combination track requires a selection of six advanced courses: three 3000- or 4000-level computer science courses and three 3000- or 4000-level courses from another field. The elective breadth requirement in each track can be fulfilled with any 3-point computer science 3000-level or higher course that is not a computer science core course or a technical elective course in that track. In addition to the breadth elective, the track requirements are as follows:

Foundations Track (15 points)

For students interested in algorithms, computational complexity, and other areas of theoretical Computer Science.

Note: Students who declared their Computer Science major prior to Fall 2016 may also count COMS 4241, COMS 4205, COMS 4281, COMS 4444, COMS 4771, and COMS 4772 as track elective courses.

Required Courses

CSOR W4231 Analysis of Algorithms I
COMS W4236 Introduction to Computational Complexity

Track Electives

Select 2 from:

MATH UN3020 Number Theory and Cryptography
MATH UN3025 Making, Breaking Codes
COMS W4203 Graph Theory
MATH GU4032 Fourier Analysis
MATH GU4041 Introduction to Modern Algebra I
MATH GU4042 Introduction to Modern Algebra II
MATH GU4061 Introduction To Modern Analysis I
MATH GU4155 Probability Theory
COMS W4252 Introduction to Computational Learning Theory
COMS W4261 Introduction to Cryptography
APMA E4300 Computational Math: Introduction to Numerical Methods
IEOR E4407 Game Theoretic Models of Operations
CSPH G4802 Math Logic II: Incompletness
COMS E6232 Analysis of Algorithms, II
MATH G6238 Combinatorial Analysis
COMS E6253 Advanced Topics in Computational Learning Theory
COMS E6261  Advanced Cryptography
EEOR E6616  Convex optimization
IEOR E6613  Optimization, I
IEOR E6614  Optimization, II
IEOR E6711  Stochastic models, I
IEOR E6712  Stochastic models, II
ELEN E6717  Information theory
ELEN E6718  Error Correcting Codes: Classical and Modern

Adviser Approved:
COMS W3902  Undergraduate Thesis
COMS W3998  Undergraduate Projects in Computer Science
COMS W4901  Projects in Computer Science
COMS W4995  Special topics in computer science, I
COMS E6998  Topics in Computer Science

One Breadth Course
Any 3-point COMS 3000- or 4000-level course except those courses in the CS core or in the required or elective courses for this track

Software Systems Track (15 points)
For students interested in networking, programming languages, operating systems, and software systems.

Required Courses
COMS W4115  Programming Languages and Translators
COMS W4118  Operating Systems I
CSEE W4119  Computer Networks

Track Electives
Select 1 from:
Any COMS W41xx course
COMS W4444  Programming and Problem Solving
Any COMS W48xx course

Adviser Approved:
COMS W3902  Undergraduate Thesis
COMS W3998  Undergraduate Projects in Computer Science
COMS W4901  Projects in Computer Science
COMS W4995  Special topics in computer science, I
COMS E6998  Topics in Computer Science

One Breadth Course
Any 3-point COMS 3000- or 4000-level course except those courses in the CS core or in the required or elective courses for this track

Intelligent Systems Track (15 points)
For students interested in machine learning, robotics, and systems capable of exhibiting “human-like” intelligence.

Required Courses
Select two of the following courses:
COMS W4701  Artificial Intelligence
COMS W4705  Natural Language Processing
COMS W4706  Spoken Language Processing
COMS W4731  Computer Vision
COMS W4733  Computational Aspects of Robotics
COMS W4771  Machine Learning

Track Electives
Select 2 from:
COMS W4252  Introduction to Computational Learning Theory
Any COMS W47xx course
Any COMS E67XX course

Adviser Approved:
COMS W3902  Undergraduate Thesis
COMS W3998  Undergraduate Projects in Computer Science
COMS W4901  Projects in Computer Science
COMS W4995  Special topics in computer science, I
COMS E6998  Topics in Computer Science

One Breadth Course
Any 3-point COMS 3000- or 4000-level course except those courses in the CS core or in the required or elective courses for this track

Applications Track (15 points)
For students interested in interactive multimedia applications for the internet and wireless networks.

Required Courses
COMS W4115  Programming Languages and Translators
COMS W4170  User Interface Design

Track Electives
Select 2 from:
Any COMS W41xx course
Any COMS W47xx course

Adviser Approved:
COMS W3902  Undergraduate Thesis
COMS W3998  Undergraduate Projects in Computer Science
COMS W4901  Projects in Computer Science
COMS W4995  Special topics in computer science, I
Any COMS E69XX course

One Breadth Course
Any 3-point COMS 3000- or 4000-level course except those courses in the CS core or in the required or elective courses for this track

One Breadth Course
Any 3-point COMS 3000- or 4000-level course except those courses in the CS core or in the required or elective courses for this track

**Vision, Graphics, Interaction, and Robotics Track (15 points)**

For students interested in computer vision, graphics, and advanced forms of human computer interaction.

**Required Courses**

Select two of the following courses:

- COMS W4160 Computer Graphics
- COMS W4167 Computer Animation
- COMS W4731 Computer Vision

**Track Electives**

Select 2 from:

- COMS W4162 Advanced Computer Graphics
- COMS W4170 User Interface Design
- COMS W4172 3D User Interfaces and Augmented Reality
- COMS W4701 Artificial Intelligence
- COMS W4733 Computational Aspects of Robotics
- COMS W4735 Visual Interfaces to Computers
- COMS W4771 Machine Learning

Adviser Approved:

- COMS W3902 Undergraduate Thesis
- COMS W3998 Undergraduate Projects in Computer Science
- COMS W4901 Projects in Computer Science
- COMS W4995 Special topics in computer science, I

Any COMS E69XX course

**One Breadth Course**

Any 3-point COMS 3000- or 4000-level course except those courses in the CS core or in the required or elective courses for this track

**Combination Track (18 points)**

For students who wish to combine computer science with another discipline in the arts, humanities, social or natural sciences. A coherent selection of six upper-level courses is required: three from computer science and three from another discipline.

The courses should be planned with and approved by the student’s CS faculty advisor by the first semester of the junior year. The six courses are typically 4000-level elective courses that would count towards the individual majors. Moreover, the six courses should have a common theme. The combination track is not available to those students who pursue double majors.

---

**Major in Computer Science—Mathematics**

For a description of the joint major in computer science—mathematics, see the Mathematics section in this bulletin.

---

**Major in Information Science**

Please read Guidelines for all Computer Science Majors and Concentrators above.

The major in information science requires a minimum of 33 points including a core requirement of five courses.

The elective courses must be chosen with a faculty adviser to focus on the modeling and use of information within the context of a disciplinary theme. After discussing potential selections students prepare a proposal of study that must be approved by the faculty adviser. In all cases the six courses must be at the 3000-level or above with at least three courses chosen from computer science. Following are some example programs.

For more examples or templates for the program proposal, see a faculty adviser.

Note: In most cases additional courses will be necessary as prerequisites in order to take some of the elective courses. This will depend on the student’s proposed program of study.

**Core Requirement**

- COMS W1001 Introduction to Information Science
- or COMS W1002 Computing in Context
- COMS W1004 Introduction to Computer Science and Programming in Java
- COMS W1007 Honors Introduction to Computer Science
- COMS W3134 Data Structures in Java
- STAT GU4001 Introduction to Probability and Statistics

Following are some suggested programs of instruction:

**Information Science and Contemporary Society**

Students may focus on how humans use technology and how technology has changed society.

The requirements include:

- COMS W4111 Introduction to Databases
- COMS W4170 User Interface Design
- COMS W4701 Artificial Intelligence
- COMS W3410 Computers and Society
- SOCI UN3010 Methods for Social Research
**Information Science and the Economy**

Students may focus on understanding information modeling together with existing and emerging needs in economics and finance as well as algorithms and systems to address those needs.

The requirements include:

- COMS W4111 Introduction to Databases
- COMS W4701 Artificial Intelligence
- COMS W4771 Machine Learning
- ECON UN3412 Introduction To Econometrics
- ECON UN3025 Financial Economics
- ECON UN3265 The Economics of Money and Banking

**Information Science and Health Sciences**

Students may focus on understanding information modeling together with existing and emerging needs in health sciences, as well as algorithms and systems to address those needs.

The requirements include:

- COMS W4111 Introduction to Databases
- COMS W4170 User Interface Design
- COMS W4701 Artificial Intelligence
- BINF G4001 Introduction To Computer Applications In Health Care and Biomedicine
- BIOL W4037 Bioinformatics of Gene Expression
- ECBM E3060/E4060 Introduction to genomic information science and technology

**MAJOR IN DATA SCIENCE**

Please read **Guidelines for all Computer Science Majors and Concentrators** above.

In response to the ever growing importance of "big data" in scientific and policy endeavors, the last few years have seen an explosive growth in theory, methods, and applications at the interface between computer science and statistics. The statistics and computer science departments have responded with a joint-major that emphasizes the interface between the disciplines.

**Prerequisites (15 points)**

- MATH UN1101 Calculus I
- MATH UN1102 Calculus II
- MATH UN1201 Calculus III
- MATH UN2010 Linear Algebra

Select one of the following courses:

- STAT UN1001 Introduction to Statistical Reasoning

**Statistics (12 points)**

- STAT GU4201 PROBABILITY THEORY
- STAT GU4204 Statistical Inference
- STAT GU4205 Linear Regression Models
- STAT GU4241 Statistical Machine Learning
  or COMS W4771 Machine Learning

**Computer Science (12 points)**

Select one of the following courses:

- COMS W1004 Introduction to Computer Science and Programming in Java
- COMS W1005 Introduction to Computer Science and Programming in MATLAB
- COMS W1007 Honors Introduction to Computer Science
- ENGI E1006 Introduction to Computing for Engineers and Applied Scientists

Select one of the following courses:

- COMS W3134 Data Structures in Java
- COMS W3136 Data Structures with C/C++
- COMS W3137 Honors Data Structures and Algorithms

**Electives (15 points)**

Select two of the following courses:

- STAT UN3106 Applied Data Mining
- STAT GU4206 Statistical Computing and Introduction to Data Science
- STAT GU4224 Bayesian Statistics
- STAT GU4243 Applied Data Science
- STAT Q4242 Advanced Machine Learning

Select three of the following courses:

- COMS W3261 Computer Science Theory
- COMS W4111 Introduction to Databases
- COMS W4130 Principles and Practice of Parallel Programming
- COMS W4236 Introduction to Computational Complexity
- COMS W4252 Introduction to Computational Learning Theory

Any COMS W47xx course EXCEPT W4771

---

**CONCENTRATION IN COMPUTER SCIENCE**

Please read **Guidelines for all Computer Science Majors and Concentrators** above.
For students who declare in Spring 2014 and beyond:

The concentration in computer science requires a minimum of 22-24 points, as follows:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMS W1004</td>
<td>Introduction to Computer Science and Programming in Java</td>
</tr>
<tr>

Faculty Department Assistant: Coretta Grant

The Barnard and Columbia undergraduate theatre program engages the disciplines of drama, theatre, and performance studies as a distinctive mode of intellectual and artistic inquiry. Majors take foundational coursework in the literary, cultural, and embodied traditions of western and nonwestern performance as well as in the practices of acting, directing, design, and playwriting. All majors then specialize in a specific area and undertake advanced thesis work, leading either to a formal essay of original research, or to an artistic project (in acting, design, directing, dramaturgy, playwriting, or solo performance) that combines the practices of research and artistic creation.

While Barnard and Columbia students fulfill the overall graduation requirements of their respective institutions, major requirements for the Barnard Major in Theatre/Columbia Major in Drama and Theatre Arts are identical, and the majority of required coursework is offered through the Barnard College Department of Theatre. Barnard and Columbia students receive their degrees from their respective colleges of Columbia University.

The Department’s season of productions in the Minor Latham Playhouse and the Glicker-Milstein Black Box Theatre is a crucible of investigation: the place where professional directors and designers collaborate with undergraduates, using a wide range of classic and contemporary plays and performance practices to shape insights unique to theatrical inquiry today. Whether it’s Shakespeare or Soyinka or Caryl Churchill, or the directing, solo performance, and playwriting theses in the Senior Thesis Festival, Department of Theatre productions are both a learning process and a scene of encounter, where perceptions are shaped for the attention and creative response of a larger public.

Students interested in majoring in Theatre should consider taking three or four of the required classes in their first two years of study: Theatre History I, Theatre History II and/or a course fulfilling the “world theatre” requirement, and at least one class in acting, design, directing, or playwriting (preferably in the area you might choose as areas of specialization). Students thinking about a research focus might consider an additional dramatic literature class early in their studies; students thinking about an acting or design focus, for example, might consider additional classes in those areas in the second or third year of study.

Students declare the major in the spring semester of the sophomore year. The major requirements are spelled out below, and the process for choosing a thesis area as well: all Theatre/Drama and Theatre Arts majors complete a thesis as a capstone to their work in the degree. For more information about the major, please contact any full-time faculty member (see Faculty pages).

Barnard students must make an appointment or come by the office of the Department Chair to have the major-
declaration form signed, and will have a major adviser from the Department faculty; Columbia students are encouraged to meet with members of the faculty to discuss the degree. All majors should introduce themselves to the Theatre Administrator in 507 Milbank Hall; he will add names to the departmental listserv, and help students to keep up to date in important information about studying in the Department.

**STUDENT LEARNING OBJECTIVES**

Upon completion of the major, successful students will be able to attain the following objectives:

- Assess critically the artistic ambitions of contemporary theatrical performance, and of literary, critical and theoretical issues involved in the interpretation of dramatic literature and theatrical performance;
- Create with proficiency in at least one area of creative work in the field: critical/research writing, acting, directing, design, playwriting, and dramaturgy.

**Areas of Concentration**

**Drama and Theatre Studies Student Learning Objectives**

Students successfully completing drama and theatre studies coursework, or concentrating in drama and theatre studies, should be able to attain the following objectives:

1. Write clearly about dramatic literature, and about performance, including where applicable film performance;
2. Synthesize and evaluate contemporary criticism and research scholarship in writing;
3. Know specific authors, movements, periods, styles, and ideological structures in the history of drama, theatre, and performance (i.e., Shakespeare, American drama, Performative Cultures of the Third Reich, Black Theatre);
4. Use critical, theoretical, and historical concepts in the analysis of drama and performance.

**Acting Student Learning Objectives**

Students successfully completing a concentration in acting should be able to attain the following objectives:

1. Analyze dramatic texts and apply the analysis to developing a performable role/character;
2. Synthesize external elements with external elements (social mores, environment, historical context, status relationship to others) and internal elements (center of gravity, personal rhythm, speed, tempo) toward the expression of a character’s physicality and emotionality;
3. Recognize and apply the fundamental concepts of character development: objectives, obstacles, actions, given circumstances;
4. Develop vocal, physical and emotional awareness and imagination, and to explore techniques available to aid the actor in applying these elements in a conscious way during rehearsal and performance.

**Design Student Learning Objectives**

Students successfully completing a concentration in design should be able to attain the following objectives:

1. Analyze dramatic texts and translate that analysis into documents used in the production process (breakdowns, plots, etc.);
2. Collect images and texts that provide insight into the developing design idea, and accurately communicate historical and stylistic choices;
3. Demonstrate fluency with the craft of a design field – e.g. sketching, model making, drafting, sound and lighting plots, and associated software;
4. Perform collaboratively, adapting and informing their designs with ideas generated through conversation with colleagues, classmates, and advisors.

**Directing Student Learning Objectives**

Students successfully completing a concentration in directing should be able to attain the following objectives:

1. Recognize the different demands of different configurations of stage space;
2. Apply compositional tools;
3. Define production style and its influence on performance choices;
4. Communicate effectively with actors;
5. Analyze the historical, social, and aesthetic elements of a dramatic text as the basis for a directorial conception.

**Dramaturgy Student Learning Objectives**

Students successfully completing a concentration in dramaturgy should be able to attain the following objectives:

1. Apply important critical and theoretical concepts to the analysis of dramatic writing and theatrical performance;
2. Synthesize and evaluate contemporary research scholarship and apply it to a specific production, including biographical, historical, and interpretive information;
3. Write clearly and effectively about the goals of a production, its critical contexts and purposes;
4. Communicate the critical stakes of a performance to a director and cast; to be able to work with a director in fashioning those stakes;
5. Edit dramatic scripts for production.

**Playwriting Student Learning Objectives**

Students successfully completing a concentration in playwriting should be able to attain the following objectives:

1. Create an individual theatrical voice in writing;
2. Construct dramatic and theatrical events onstage;
3. Communicate supportive critique to fellow writers;
4. Interpret plot and story, and to employ language and spectacle creatively;
5. Recognize dramatic structures, and be able to shape and hold an audience’s attention.

Chair: W.B. Worthen (Alice Brady Pels Professor in the Arts, Co-Director of Undergraduate Studies, Drama and Theatre Arts)

Assistant Professors: Shayoni Mitra, Hana Worthen

Assistant Professors of Professional Practice: Sandra Goldmark, Alice Reagan

Adjunct Lecturers: Betsy Adams, Mana Allen, Linda Bartholomai, Andy Bragen, Grant Chapman, Kyle deCamp, Crystal Finn, Sharon Fogarty, Mikhail Tara Garver, Tuomas Hiltunen, Anne Kenney, Jimmy King, Stacey McMath, Suman Mukherjee, Piia Mustamäki, Fitz Patton, Rita Pietropinto, Wendy Waterman

Affiliated Faculty:
Associate Professor: Maja Horn (Spanish and Latin American Cultures)
Senior Lecturers: Pam Cobrin (English, Director, Writing Program), Patricia Denison (English, Co-Director of Undergraduate Studies, Drama and Theatre Arts)

Other officers of the University offering courses listed below:
Professors: Austin E. Quigley, Julie Stone Peters
Professor of Professional Practice: Steven Chaikelson
Assistant Professor: Katherine Biers

Department Administrator: Mike Cavalier
Technical Director: Greg Winkler
Production Manager: Michael Banta
Costume Shop Manager: Kara Feely
Faculty Department Assistant: Coretta Grant

REQUIREMENTS FOR THE MAJOR

Download the Theatre major self-audit form (https://theatre.barnard.edu/sites/default/files/inline/selfaudit2012_revised_12-12-12.doc)

Students intending to major in Theatre should consult with the Department Chair in their sophomore year or earlier to plan a program: this consultation is required for Barnard students and strongly recommended for Columbia students. Twelve courses and one senior thesis (in Performance or in Research) are required as follows:

Dramatic Literature and Theatre History

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>THTR UN3150</td>
<td>Western Theatre Traditions: Classic to Romantic</td>
<td></td>
</tr>
<tr>
<td>THTR UN3000</td>
<td>Theatre Traditions in a Global Context</td>
<td></td>
</tr>
<tr>
<td>THTR V3155</td>
<td>Traditional Indian Theatre</td>
<td></td>
</tr>
</tbody>
</table>

Select one course in drama, theatre, and performance theories:

<table>
<thead>
<tr>
<th>Course</th>

</table>

Select one course in Shakespeare

Select two courses in dramatic literature, theatre studies, or performance studies, taken in the Theatre Department or in another department with advisor’s approval. One course must be a seminar

Theatre Practice

Select one of the following courses in theatre design:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>THTR UN3132</td>
<td>Sound Design</td>
<td></td>
</tr>
<tr>
<td>THTR V3132</td>
<td>Costume Design</td>
<td></td>
</tr>
<tr>
<td>THTR V3133</td>
<td>Lighting Design</td>
<td></td>
</tr>
<tr>
<td>THTR UN3135</td>
<td>Problems in Design</td>
<td></td>
</tr>
<tr>
<td>THTR V3203</td>
<td>Collaboration: Directing and Design (may be counted if not counted toward directing)</td>
<td></td>
</tr>
</tbody>
</table>

Select one of the following courses in acting:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>THTR V2007</td>
<td>Scene Lab</td>
<td></td>
</tr>
<tr>
<td>THTR UN3004</td>
<td>Acting Lab</td>

</tr>
<tr>
<td>THTR UN3006</td>
<td>Advanced Acting Lab</td>
<td></td>
</tr>
</tbody>
</table>

Select one of the following courses in directing:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>THTR UN3200</td>
<td>Directing I</td>
<td></td>
</tr>
<tr>
<td>THTR V3203</td>
<td>Collaboration: Directing and Design (may be counted if not counted toward Design)</td>
<td></td>
</tr>
</tbody>
</table>

Concentration

All majors must take an additional two courses in the field of the senior thesis: acting, directing, design, dramaturgy, playwriting, or research. See below.

Senior Thesis

All students must take either THTR V3997 or THTR V3998:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>THTR UN3997</td>
<td>Senior Thesis: Performance (acting, directing, design, dramaturgy, or playwriting)</td>
<td></td>
</tr>
<tr>
<td>THTR UN3998</td>
<td>Senior Thesis: Research</td>
<td></td>
</tr>
</tbody>
</table>
Prior to completing the Senior Thesis: Performance, majors must take an additional two courses in the field of the thesis (acting, design, dramaturgy, directing, playwriting). Courses in acting, design, and directing are offered through the Department of Theatre. Courses in playwriting are offered through the Department of Theatre; courses offered through the Barnard Department of English may be taken as well with advisor approval. For theses in Directing, students must take Dramaturgy prior to the thesis year. For theses in Dramaturgy, students take two courses in drama, theatre, or performance research; these courses may be drawn from courses in dramatic literature, theatre studies, and global performance traditions offered in the Theatre department, or from dramatic literature courses offered in other departments with adviser’s approval. Dramaturgy concentrators may substitute one course in playwriting for one of these two courses. Students taking a Solo Performance thesis are required to have taken theSolo Performance course prior to the thesis semester (spring), among the three required courses in acting.

Prior to completing the Senior Thesis: Research, majors must take an additional two courses in drama, theatre, or performance research; these courses may be drawn from courses in dramatic literature, theatre studies, and global performance traditions offered in the Theatre department, or from dramatic literature courses offered in other departments with adviser’s approval. These courses should be discussed with the student’s major advisor, as well as with the sponsor of the thesis.

Production Crew
Theatre majors planning on completing a Senior Thesis in Performance (acting, design, directing, dramaturgy, playwriting, solo performance) are required to complete a run crew assignment and a crew head assignment prior to their final semester; to be in the strongest position for the thesis, ideally these assignments are completed during the junior year. Please see the section on Production Crew (http://theatre.barnard.edu/department-and-production-information/#productioncrew) for more information.

Studio Courses
Please note that for Barnard students there is a limit on studio courses. Theatre majors may take 24 studio points in Theatre and an additional six in another discipline for a total of 30 studio points. Theatre Department studio courses are:

<table>
<thead>
<tr>
<th>Course</th>

Business Manager: Sally Odland, 108 Geoscience, Lamont-Doherty Earth Observatory; 845-365-8633; odland@ldeo.columbia.edu

The undergraduate major in Earth and environmental sciences provides an understanding of the natural functioning of our planet and considers the consequences of human interactions with it. Our program for majors aims to convey an understanding of how the complex Earth system works at a level that encourages students to think creatively about the Earth system processes and how to address multidisciplinary environmental problems. The breadth of material covered provides an excellent background for those planning to enter the professions of law, business, diplomacy, public policy, teaching, journalism, etc. At the same time, the program provides sufficient depth so that our graduates are prepared for graduate school in one of the Earth sciences. The program can be adjusted to accommodate students with particular career goals in mind.
The department’s close affiliations with the Lamont-Doherty Earth Observatory, the American Museum of Natural History (AMNH), NASA’s Goddard Institute for Space Studies (GISS), the Earth Institute at Columbia (EI), and several departments within the Fu Foundation School of Engineering and Applied Sciences afford opportunities for student participation in a wide variety of current research programs. Summer employment, research, and additional educational opportunities are available at Lamont and GISS. The department encourages majors to become involved in a research project by their junior year.

All majors and concentrators, when planning their programs of study, should regularly consult the directors of undergraduate studies and make themselves aware of the requirements for their particular program.

PROGRAMS OF STUDY

Environmental Science Major

The environmental science major curriculum provides an introduction to a variety of fields of study relevant to the environment. Environmental science majors are required to take three semesters of introductory courses and to develop a grounding in basic physics, chemistry, biology, and mathematics. Here, students may select courses depending on their interest. With this introduction to the Earth’s environment and equipped with a knowledge of the basic sciences, students are prepared to choose a set of upper-level courses in consultation with an undergraduate adviser. All environmental science majors are required to complete a research project, providing a practical application of mastered coursework. This research culminates in a senior thesis. The research and the thesis are usually done at Lamont-Doherty Earth Observatory with guidance from a faculty member or a research scientist. However, other options are also possible.

Environmental science majors have an option to complete the special concentration in environmental biology for environmental science majors.

Earth Science Major

The major in Earth science follows a similar rationale but is designed to allow students to pursue particular fields of the Earth sciences in greater depth. Compared with the environmental science major, one fewer introductory course is required, while one additional advanced course should be part of the plan of study. The Earth science major also offers the possibility of in-depth field experience through a six-to-eight-week geology summer field course, arrangements for which are made through another university. The research and senior thesis capstone requirements are the same as for the environmental science major. The geology summer field course may be used as an alternative means of fulfilling the capstone requirement in the Earth science major.

Concentrations

The program for concentrators serves students who want more exposure to Earth and environmental science than is provided by introductory-level courses. The program aims to provide concentrators with experience in data analysis and a thorough introduction to the Earth’s systems.

The concentrations in environmental science and in Earth science are designed to give students an understanding of how the Earth works and an introduction to the methods used to investigate Earth processes, including their capabilities and limitations. Concentrators often join the social professions (e.g., business, law, medicine, etc.) and take with them a strong scientific background. They take the same introductory courses as the majors, but fewer basic science and upper-level courses are required.

In addition to the environmental science and Earth science concentrations, the department sponsors a special concentration which must be done in conjunction with the environmental biology major. Students should be aware that they must complete the environmental biology major in order to receive credit for the special concentration. There is also a special concentration in environmental biology for environmental science majors sponsored by the Department of Ecology, Evolution, and Environmental Biology.

DEPARTMENTAL HONORS

The Department of Earth and Environmental Science awards departmental honors to the major or majors in Earth science or environmental science judged to have the best overall academic record. The award is accorded to no more than 10% of the graduating class, or one student in the case of a class smaller than 10. A grade point average of at least 3.6 in the major and a senior thesis or equivalent research of high quality are required. Students who wish to be considered should contact the director of undergraduate studies early in their senior year.

PROFESSORS

• Wallace S. Broecker

Guidelines for all Earth and Environmental Sciences Majors, Concentrators, and Special Concentrators

Advising

All majors and concentrators, when planning their programs of study, should regularly consult the directors of undergraduate studies, who can be contacted through the department office on the fifth floor of Schermerhorn. The requirements are different for each major and concentration and must be met in conjunction with the general requirements for the bachelor’s degree. Declaration of the major must be approved by the department and filed in the departmental office.

Substitutions and Exceptions

1. Higher-level courses may be used to satisfy supporting mathematics and science requirements for students with Advanced Placement preparation with the permission of the major adviser.

2. In addition to the courses listed for the depth, and breadth and related courses requirements, several graduate-level courses offered in the department as well as several advanced courses offered at Barnard may be substituted with the permission of the major adviser.

3. 1000-level courses in the Earth and Environmental Sciences Department can not be used toward meeting the requirements of any of the majors, concentrations, or special concentrations.
4. The following courses are not suitable for undergraduates and cannot be used toward meeting any of the requirements for the majors, concentrations, or special concentrations:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC W4001</td>
<td>Dynamics of Climate Variability and Climate Change</td>
</tr>
<tr>
<td>EESC GU4400</td>
<td>Quantitative Models of Climate-Sensitive Natural and Human Systems</td>
</tr>
<tr>
<td>EESC GU4930</td>
<td>Earth’s Oceans and Atmosphere</td>
</tr>
<tr>
<td>EESC GU4401</td>
<td>Regional Climate and Climate Impacts</td>
</tr>
</tbody>
</table>

Grading

A grade of C- or better must be obtained for a course to count toward the majors, concentrations, or special concentrations. The grade of P is not acceptable, but a course taken Pass/D/Fail may be counted if and only if the P is uncovered by the Registrar’s deadline.

MAJOR IN EARTH SCIENCE

Please read Guidelines for all Earth and Environmental Sciences Majors, Concentrators, and Special Concentrators above.

The major in Earth science requires a minimum of 45.5 points, distributed as follows:

Foundation Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN2100</td>
<td>Earth’s Environmental Systems: The Climate System</td>
</tr>
<tr>
<td>EESC UN2200</td>
<td>Earth’s Environmental Systems: The Solid Earth System</td>
</tr>
</tbody>
</table>

Students who wish to take both EESC UN2100 Earth’s Environmental Systems: The Climate System and EESC UN2300 Earth’s Environmental Systems: The Life System can include one of these under breadth and related fields below.

Supporting Mathematics and Science Courses

One semester of Calculus at the level of Calculus I or higher (3 credits)

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
</tbody>
</table>

Select one of the following three-course sequences:

- CHEM UN1403 and General Chemistry I (Lecture)
- CHEM UN1404 and General Chemistry II (Lecture)
- PHYS UN1201 and General Physics I

Capstone Experience

Select one of the following:

- EESC BC3800 and EESC UN3901 Senior Research Seminar and Environmental Science Senior Seminar
- EESC BC3801 and EESC UN3901 Senior Research Seminar and Environmental Science Senior Seminar

A six to eight week summer geology field course

Breadth and Related Fields Requirement

A minimum of 6 points (two courses) chosen with the major adviser are required.

Breadth and related field courses are science courses relevant for an Earth science major that do not require an Earth science background. Several such courses are offered at the 2000-, 3000- and 4000-level in the department and at Barnard. Examples include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN2100</td>
<td>Earth’s Environmental Systems: The Climate System</td>
</tr>
<tr>
<td>EESC UN2300</td>
<td>Earth’s Environmental Systems: The Life System</td>
</tr>
<tr>
<td>EESC UN3010</td>
<td>Field Geology</td>
</tr>
<tr>
<td>EESC BC3017</td>
<td>Environmental Data Analysis</td>
</tr>
<tr>
<td>EESC GU4050</td>
<td>Global Assessment and Monitoring Using Remote Sensing</td>
</tr>
<tr>
<td>EESC GU4600</td>
<td>Earth Resources and Sustainable Development</td>
</tr>
<tr>
<td>EESC GU4917</td>
<td>Earth/Human Interactions</td>
</tr>
<tr>
<td>EAEE E2002</td>
<td>Alternative energy resources</td>
</tr>
</tbody>
</table>

Also included among breadth and related fields courses are science, mathematics, statistics, and engineering courses offered by other departments that count toward fulfilling degree requirements in those departments.

Depth Requirement

A minimum of 12 points (four courses) chosen with the major adviser to provide depth in the field of Earth science.

These courses build on the foundation and supporting courses listed above and provide a coherent focus in some area of Earth science. Students should include at least one of the following in their course of study:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN3101</td>
<td>Geochemistry for a Habitable Planet</td>
</tr>
<tr>
<td></td>
<td>or EESC UN3201 Solid Earth Dynamics</td>
</tr>
</tbody>
</table>

Areas of focus include one of the courses listed above and three or more additional courses. Students are not required to specialize in a focus area, but examples are given below for those who choose to do so.
### Geological Science

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC GU4090</td>
<td>Introduction to Geochronology and Thermochronology</td>
</tr>
<tr>
<td>EESC GU4113</td>
<td>Introduction to Mineralogy</td>
</tr>
<tr>
<td>EESC GU4223</td>
<td>Sedimentary Geology</td>
</tr>
<tr>
<td>EESC GU4230</td>
<td>Crustal Deformation</td>
</tr>
<tr>
<td>EESC GU4701</td>
<td>Introduction to Igneous Petrology</td>
</tr>
<tr>
<td>EESC GU4887</td>
<td>Isotope Geology I</td>
</tr>
<tr>
<td>EESC GU4947</td>
<td>Plate Tectonics</td>
</tr>
</tbody>
</table>

It is strongly recommended that students focusing in geological science take the summer geology field course as their capstone experience.

### Geochemistry

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN3015</td>
<td>The Earth’s Carbon Cycle</td>
</tr>
<tr>
<td>EESC BC3016</td>
<td>Environmental Measurements</td>
</tr>
<tr>
<td>EESC BC3200</td>
<td>Ecotoxicology</td>
</tr>
<tr>
<td>EESC GU4090</td>
<td>Introduction to Geochronology and Thermochronology</td>
</tr>
<tr>
<td>EESC GU4113</td>
<td>Introduction to Mineralogy</td>
</tr>
<tr>
<td>EESC GU4701</td>
<td>Introduction to Igneous Petrology</td>
</tr>
<tr>
<td>EESC GU4885</td>
<td>The Chemistry of Continental Waters</td>
</tr>
<tr>
<td>EESC GU4887</td>
<td>Isotope Geology I</td>
</tr>
<tr>
<td>EESC GU4926</td>
<td>Principles of Chemical Oceanography</td>
</tr>
</tbody>
</table>

It is recommended that students focusing in geochemistry take CHEM UN1403–CHEM UN1404 General Chemistry I and II, and PHYS UN1201 General Physics I as their supporting science sequence.

### Atmosphere and Ocean Science

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC GU4008</td>
<td>Introduction to Atmospheric Science</td>
</tr>
<tr>
<td>EESC GU4920</td>
<td>Paleocenography</td>
</tr>
<tr>
<td>EESC GU4924</td>
<td>Introduction to Atmospheric Chemistry</td>
</tr>
<tr>
<td>EESC GU4925</td>
<td>Principles of Physical Oceanography</td>
</tr>
<tr>
<td>EESC GU4926</td>
<td>Principles of Chemical Oceanography</td>
</tr>
</tbody>
</table>

It is recommended that students focusing on atmosphere and ocean science also take a course in fluid dynamics and a course in differential equations.

### Solid Earth Geophysics

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC GU4230</td>
<td>Crustal Deformation</td>
</tr>
<tr>
<td>EESC GU4300</td>
<td>The Earth’s Deep Interior</td>
</tr>
<tr>
<td>EESC GU4937</td>
<td>Cenozoic Paleocenography</td>
</tr>
<tr>
<td>EESC GU4947</td>
<td>Plate Tectonics</td>
</tr>
<tr>
<td>EESC GU4949</td>
<td>Introduction to Seismology</td>
</tr>
</tbody>
</table>

It is recommended that students focusing in solid Earth geophysics take PHYS UN1201-PHYS UN1202 General Physics I and II, and CHEM UN1403 General Chemistry I as their supporting science sequence and also take MATH UN1201 Calculus II.

### Climate

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN3015</td>
<td>The Earth’s Carbon Cycle</td>
</tr>
</tbody>
</table>

### MAJOR IN ENVIRONMENTAL SCIENCE

Please read Guidelines for all Earth and Environmental Sciences Majors, Concentrators, and Special Concentrators above.

The major in environmental science requires a minimum of 47 points, distributed as follows:

#### Foundation Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN2100</td>
<td>Earth’s Environmental Systems: The Climate System</td>
</tr>
<tr>
<td>EESC UN2200</td>
<td>Earth’s Environmental Systems: The Solid Earth System</td>
</tr>
<tr>
<td>EESC UN2300</td>
<td>Earth’s Environmental Systems: The Life System</td>
</tr>
</tbody>
</table>

#### Supporting Mathematics and Science Courses

One semester of Calculus at the level of Calculus I or higher (3 credits)

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
</tbody>
</table>

Select one of the following three-course sequences:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1403</td>
<td>General Chemistry I (Lecture)</td>
</tr>
<tr>
<td>- CHEM UN1404</td>
<td>General Chemistry II (Lecture)</td>
</tr>
<tr>
<td>- PHYS UN1201</td>
<td>General Physics I</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1403</td>
<td>General Chemistry I (Lecture)</td>
</tr>
<tr>
<td>- PHYS UN1201</td>
<td>General Physics I</td>
</tr>
<tr>
<td>- PHYS UN1202</td>
<td>General Physics II</td>
</tr>
</tbody>
</table>
CHEM UN1403 General Chemistry I (Lecture) and Environmental Biology I: Elements to Organisms and General Physics I

Capstone Experience

EESC BC3800 Senior Research Seminar
or EESC BC3801 Senior Research Seminar
EESC UN3901 Environmental Science Senior Seminar

Breadth and Related Fields Requirement

A minimum of 6 points (two courses) chosen with the major adviser are required.

Breadth and related field courses are science courses relevant for an environmental science major that do not require an environmental science background. Several such courses are offered at the 2000-, 3000- and 4000-level in the department and at Barnard. Examples include:

EESC BC3017 Environmental Data Analysis
EESC GU4050 Global Assessment and Monitoring Using Remote Sensing
EESC GU4600 Earth Resources and Sustainable Development
EESC GU4917 Earth/Human Interactions
EESC UN3010 Field Geology

Also included among breadth and related fields courses are science, mathematics, statistics, and engineering courses offered by other departments that count toward fulfilling degree requirements in those departments.

Depth Requirement

A minimum of 9 points (three courses) chosen with the major adviser to provide depth in the field of environmental science.

These courses build on the foundation and supporting courses listed above and provide a coherent focus in some area of environmental science. Students should include at least one of the following in their course of study:

EESC UN3101 Geochemistry for a Habitable Planet
or EESC UN3201 Solid Earth Dynamics

Areas of focus include one of the courses listed above and two or more additional courses. Students are not required to specialize in a focus area, but examples are given below for those who choose to do so.

Environmental Geology

EESC GU4076 Geologic Mapping
EESC GU4480 Paleobiology and Earth System History
EAEE E3221 Environmental geophysics

It is recommended that students focusing in environmental geology also take EESC W4050 Remote Sensing.

Environmental Geochemistry

EESC UN3015 The Earth’s Carbon Cycle
EESC GU4885 The Chemistry of Continental Waters
EESC GU4887 Isotope Geology I
EESC GU4924 Introduction to Atmospheric Chemistry
EESC GU4888 Isotope Geology II
EESC GU4926 Principles of Chemical Oceanography

Hydrology

EESC GU4076 Geologic Mapping
EESC GU4835 Wetlands and Climate Change
EESC GU4885 The Chemistry of Continental Waters
EESC BC3025 Hydrology
EAEE E3221 Environmental geophysics

Climate Change

EESC UN3015 The Earth’s Carbon Cycle
EESC GU4008 Introduction to Atmospheric Science
EESC GU4330 Introduction to Terrestrial Paleoclimate
EESC GU4480 Paleobiology and Earth System History
EESC GU4835 Wetlands and Climate Change
EESC GU4920 Paleoclimatology

It is recommended that students focusing in environmental geology also take EESC GU4050 Remote Sensing.

Energy and Resources

EESC GU4076 Geologic Mapping
EESC GU4701 Introduction to Igneous Petrology
EAEE E2002 Alternative energy resources

CONCENTRATION IN EARTH SCIENCE

Please read Guidelines for all Earth and Environmental Sciences Majors, Concentrators, and Special Concentrators above.

The concentration in Earth science requires a minimum of 25 points, distributed as follows:

Foundation Courses

EESC UN2100 Earth’s Environmental Systems: The Climate System
or EESC UN2300 Earth’s Environmental Systems: The Life System
EESC UN2200 Earth’s Environmental Systems: The Solid Earth System
Supporting Mathematics and Science Courses

Two science or mathematics courses (6-7 points) selected from among those listed for the Earth science major above.

Depth and Breadth and Related Fields Requirements

A minimum of 10 points (typically three courses) is required as follows:

- EESC UN3101 Geochemistry for a Habitable Planet
- or EESC UN3201 Solid Earth Dynamics

One additional course chosen from those listed under Depth Requirement for the earth science major above.

The third course selected from those listed under either Depth Requirement or Breadth and Related Fields Requirement for the earth science major above.

CONCENTRATION IN ENVIRONMENTAL SCIENCE

Please read Guidelines for all Earth and Environmental Sciences Majors, Concentrators, and Special Concentrators above.

The concentration in environmental science requires a minimum of 25.5 points, distributed as follows:

Foundation Courses

- EESC UN2100 Earth’s Environmental Systems: The Climate System
- EESC UN2200 Earth’s Environmental Systems: The Solid Earth System
- EESC UN2300 Earth’s Environmental Systems: The Life System

Supporting Mathematics and Science Courses

Two science or mathematics courses (6-7 points) selected from among those listed for the environmental science major above.

Depth and Breadth and Related Fields Requirements

A minimum of 6 points (two courses) is required as follows:

- EESC UN3101 Geochemistry for a Habitable Planet
- or EESC UN3201 Solid Earth Dynamics

One additional course selected from those listed under either Depth Requirement or Breadth and Related Fields Requirement for the environmental science major above.

SPECIAL CONCENTRATION IN ENVIRONMENTAL SCIENCE FOR MAJORS IN ENVIRONMENTAL BIOLOGY

Please read Guidelines for all Earth and Environmental Sciences Majors, Concentrators, and Special Concentrators above.

The Department of Earth and Environmental Sciences sponsors a special concentration which must be done in conjunction with the environmental biology major. Students should be aware that they must complete the environmental biology major in order to receive credit for the special concentration.

The special concentration in environmental science requires a minimum of 31.5 points, distributed as follows:

Introductory Environmental Science (13.5 points)

- EESC UN2100 Earth’s Environmental Systems: The Climate System
- EESC UN2200 Earth’s Environmental Systems: The Solid Earth System
- EESC UN2300 Earth’s Environmental Systems: The Life System

Introductory Science (6 points)

Two courses in chemistry, physics, mathematics, or environmental biology from the supporting mathematics and science list for the environmental science major above.

Advanced Environmental Science (12 points)

Four courses at the 3000-level or above chosen from those recommended for the environmental science major above.

Advanced courses used to fulfill requirements in the environmental biology major cannot count toward requirements for the special concentration.

SPECIAL CONCENTRATION IN ENVIRONMENTAL BIOLOGY FOR MAJORS IN ENVIRONMENTAL SCIENCE

Please read Guidelines for all Earth and Environmental Sciences Majors, Concentrators, and Special Concentrators above.

The Department of Ecology, Evolution, and Environmental Biology sponsors a special concentration which must be done in conjunction with the environmental science major. Students should be aware that they must complete the
environmental science major in order to receive credit for the special concentration.

The special concentration in environmental biology requires a minimum of 39 points, distributed as follows:

**Introductory Environmental Biology and Environmental Science (17 points)**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEEB UN2001</td>
<td>Environmental Biology I: Elements to Organisms</td>
</tr>
<tr>
<td>EESC UN2100</td>
<td>Earth’s Environmental Systems: The Climate System</td>
</tr>
<tr>
<td>EESC UN2200</td>
<td>Earth’s Environmental Systems: The Solid Earth System</td>
</tr>
<tr>
<td>EEEB UN2002</td>
<td>Environmental Biology II: Organisms to the Biosphere</td>
</tr>
</tbody>
</table>

**Introductory Science (13 points)**

Select one of the following chemistry sequences:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1403 - CHEM UN1404</td>
<td>General Chemistry I (Lecture) and General Chemistry II (Lecture)</td>
</tr>
<tr>
<td>CHEM UN1604 - CHEM UN2507</td>
<td>Intensive General Chemistry (Lecture) and Intensive General Chemistry Laboratory</td>
</tr>
</tbody>
</table>

One term of statistics such as the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT UN1101</td>
<td>Introduction to Statistics</td>
</tr>
<tr>
<td>STAT UN1201</td>
<td>Calculus-Based Introduction to Statistics</td>
</tr>
<tr>
<td>BIOL BC2286</td>
<td>Statistics and Research Design</td>
</tr>
<tr>
<td>EEEB UN3005</td>
<td>Introduction to Statistics for Ecology and Evolutionary Biology</td>
</tr>
<tr>
<td>EEEB UN3087</td>
<td>Conservation Biology</td>
</tr>
</tbody>
</table>

**Advanced Environmental Biology (9 points)**

Three additional advanced EEEB courses (3000-level and above), each chosen from a different curricular area (evolution/genetics, ecology/behavior/conservation, anatomy/physiology/diversity, biology laboratory courses).

Advanced courses used to fulfill requirements in the environmental science major cannot count toward requirements for the special concentration.

**Sustainable Development**

Students interested in sustainable development should refer to the Sustainable Development section in this Bulletin.

**Director of Undergraduate Studies:** Prof. Paul Anderer, 414 Kent; 212-854-1525; pja1@columbia.edu

The program in East Asian studies offers a wide range of courses in a variety of disciplines, as well as training in the Chinese, Japanese, Korean, and Tibetan languages. The program is designed to provide a coherent curriculum for undergraduates wishing to major in East Asian studies, with disciplinary specialization in anthropology, art history, economics, history, literature, philosophy, political science, sociology, or religion. The department also offers a series of introductory and thematic courses especially designed for students seeking to acquire some knowledge of East Asia as part of their broader undergraduate experience.

**ADMISSION TO LANGUAGE COURSES**

All students wishing to enter the language program at another point besides the first term of the first level must pass a language placement test before registering. The language placement exams are held during the change of program period, the week before classes begin.

Students who have been absent from the campus for one term or more must take a placement test before enrolling in a language course beyond the first term of the first level.

Students who wish to place out of the Columbia College Foreign Language Requirement for a language taught in the department of East Asian Languages and Cultures must consult with the director of the relevant language program. The names of the directors, and additional information about East Asian language programs, can be accessed via the department website at ealac.columbia.edu.

**LANGUAGE LABORATORY**

An additional hour of study in the language laboratory is required in first-year Japanese (JPNS UN101 and JPNS UN1102).

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>JPNS UN1101 - JPNS UN1102</td>
<td>First-Year Japanese I and First-Year Japanese II</td>
</tr>
</tbody>
</table>

Students taking these courses must attend all assigned language laboratory sessions. Grades for written and oral work in the language laboratory and for additional work in oral drill sessions count as 10% of the final grade in the course. Assignments of laboratory hours are made during the first session of the regular classes.

**COURSE NUMBERING**

The following are general guidelines to the numbering of department courses open to undergraduates. Students with questions about the nature of a course should consult with the instructor or the director of undergraduate studies.
• 1000-level: Introductory-level undergraduate courses and first-year language courses
• 2000-level: Intermediate-level undergraduate courses and second-year language courses
• 3000-level: Advanced-level undergraduate courses and third-year language courses
• 4000-level: Advanced courses geared toward undergraduate students available to graduate students or geared toward both undergraduate and graduate students, fourth-year and above language courses

STUDY ABROAD
East Asian Studies majors or concentrators who plan to spend their junior spring abroad must contact the director of undergraduate studies for information about course selection in the sophomore year.

The Kyoto Center for Japanese Studies
The Kyoto Center offers Columbia students the opportunity to study in Japan in a program combining intensive instruction in the Japanese language with courses taught in English on a wide range of topics in Japanese studies. Students should have at least the equivalent of two years of Japanese by the time of their departure. The program is most appropriate for the junior year, although other arrangements are considered.

East Asian Studies majors or concentrators who opt to spend their junior spring at the Kyoto Center must take the required disciplinary and senior thesis-related courses in the spring of their sophomore year (contact the director of undergraduate studies for details). For further information about the Kyoto Center, please consult Robin Lephaibul: rl2705@columbia.edu.

GRADING
Courses in which the grade of D or P has been received do not count toward the major or concentration requirements.

DEPARTMENTAL HONORS
Departmental honors are conferred only on East Asian Studies majors who have earned a grade point average of at least 3.6 for courses in the major, have pursued a rigorous and ambitious program of study, and have submitted senior theses of superior quality, clearly demonstrating originality and excellent scholarship. Qualified seniors are nominated by their thesis advisers. Normally no more than 10% of graduating majors receive departmental honors in a given academic year. Concentrators are not eligible for departmental honors.

MAJOR IN EAST ASIAN STUDIES

The requirements for this program were modified in the Spring 2017 semester. Students who declared an EAS major before this semester have the option of following the old or the new requirements. If you have any questions, please contact the Director of Undergraduate Studies.

Prerequisite
Students must meet the following prerequisite prior to declaring the East Asian Studies major: two years of Chinese, Japanese, Korean, or Tibetan, or the proficiency equivalent (to be demonstrated by placement examination).

Language Requirement
Third-year Chinese, Japanese, Korean, or Tibetan (completion of the UN3005-UN3006 level in Chinese, Japanese, or Korean; TIBT UN3611-UN3612 level in Tibetan), or the proficiency equivalent (to be demonstrated by placement examination). Students of Chinese may also complete UN3003-UN3004 to meet the third-year requirement.

One of the following sequences (in the target language):
- CHNS UN3003 Third-Year Chinese I (N)
- CHNS UN3004 and Third-Year Chinese II (N)

Or, for heritage students:
- CHNS UN3005 Third-Year Chinese I (W)
- CHNS UN3006 and Third-Year Chinese II (W)
- JPNS UN3005 Third-Year Japanese I
- JPNS UN3006 and Third-Year Japanese II
- KORN UN3005 Third-Year Korean I
- KORN UN3006 and Third-Year Korean II
- TIBT UN3611 Third-Year Modern Colloquial
- TIBT UN3612 Tibetan I
- TIBT UN3612 and Third-Year Modern Tibetan II

Students who test out of three years or more of a language must take an additional year of that language or another East Asian language at Columbia in order to satisfy the language requirement.

Introductory Courses
Students are required to take:
- AHUM UN1400 Colloquium on Major Texts: East Asia

Students must also select two of the following:
- ASCE UN1359 Introduction to East Asian Civilizations: China
- ASCE UN1361 Introduction to East Asian Civilizations: Japan
- ASCE UN1363 Introduction to East Asian Civilizations: Korea
- ASCE UN1365 Introduction to East Asian Civilizations: Tibet
- ASCE UN1367 Introduction to East Asian Civilizations: Vietnam

First-year students and sophomores, prior to declaring an East Asian studies major, are strongly urged to take one or more of the introductory courses.

Methodology Course
All majors must also take EAAS UN3990 Approaches to East Asian Studies which is offered every spring.

Elective Courses
For students must take four elective courses in East Asian studies, to be chosen in consultation with the DUS. Two of these courses must be EALAC or AMEC courses. Courses in a
second East Asian language (one year minimum) or a classical East Asian language (one semester minimum) may be used to fulfill one elective course.

**Senior Thesis Program**

East Asian Studies majors who wish to write a senior thesis apply to the EALAC Senior Thesis Program at the end of their junior year. Students must have a minimum grade point average of 3.6 in courses taken in the major at the time of the application. Students interested in applying to the Senior Thesis Program should submit the EALAC Senior Thesis Program Application (see Undergraduate Planning Sheets and Forms (http://ealac.columbia.edu/undergraduate/planning-sheets-forms)) to the DUS by Monday, May 1, 2017. Decisions will be made by the week of May 15th.

All potential thesis writers are required to enroll in the Senior Thesis Research Workshop (EAAS UN3999) in the fall of the senior year. Students who perform satisfactorily in this workshop, successfully complete a thesis proposal, and find a faculty adviser will then write the Senior Thesis itself in the spring semester under the direction of the adviser and a graduate student tutor (EAAS UN3901).

The senior thesis typically consists of about 30-35 pages of text (double-spaced, normal typeface and margins) and 5-8 pages of references. Under no circumstances should a thesis exceed a total of 50 pages (including references), without the special permission of the faculty adviser.

Successful completion of the thesis by the April 1 deadline in the spring semester will be necessary but not sufficient for a student to receive departmental honors. Normally no more than 10% of graduating majors receive departmental honors in a given academic year; as such, not all thesis writers will receive honors.

**Concentration in East Asian Studies**

**Prerequisite**

Students must meet the following prerequisite prior to declaring the East Asian Studies concentration: two years of Chinese, Japanese, Korean, or Tibetan, or the proficiency equivalent (to be demonstrated by placement examination).

**Language Requirement**

Third-year Chinese, Japanese, Korean, or Tibetan (completion of the UN3005-UN3006 level in Chinese, Japanese, or Korean; TIBT UN3611-UN3612 level in Tibetan), or the proficiency equivalent (to be demonstrated by placement examination). Students of Chinese may also complete UN3003-UN3004 to meet the third-year requirement.

One of the following sequences (in the target language):

<table>
<thead>
<tr>
<th>Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHNS UN3003</td>
<td>Third-Year Chinese I (N)</td>
</tr>
<tr>
<td>CHNS UN3004</td>
<td>and Third-Year Chinese II (N)</td>
</tr>
<tr>
<td>CHNS UN3005</td>
<td>Third-Year Chinese I (W)</td>
</tr>
<tr>
<td>CHNS UN3006</td>
<td>and Third-Year Chinese II (W)</td>
</tr>
<tr>
<td>JPNS UN3005</td>
<td>Third-Year Japanese I</td>
</tr>
<tr>
<td>JPNS UN3006</td>
<td>and Third-Year Japanese II</td>
</tr>
<tr>
<td>KORN UN3005</td>
<td>Third-Year Korean I</td>
</tr>
<tr>
<td>KORN UN3006</td>
<td>and Third-Year Korean II</td>
</tr>
<tr>
<td>TIBT UN3611</td>
<td>Third Year Modern Colloquial</td>
</tr>
<tr>
<td>TIBT UN3612</td>
<td>Tibetan I</td>
</tr>
<tr>
<td></td>
<td>and Third Year Modern</td>
</tr>
<tr>
<td></td>
<td>Colloquial Tibetan II</td>
</tr>
</tbody>
</table>

Students who test out of a third-year level East Asian language must take either an additional year of the same language, one year of a classical East Asian language, one year of an additional East Asian language, or two electives.

**Introductory Courses**

<table>
<thead>
<tr>
<th>Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AHUM UN1400</td>
<td>Colloquium on Major Texts: East Asia</td>
</tr>
</tbody>
</table>

Select one of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASCE UN1359</td>
<td>Introduction to East Asian Civilizations: China</td>
</tr>
<tr>
<td>ASCE UN1361</td>
<td>Introduction to East Asian Civilizations: Japan</td>
</tr>
<tr>
<td>ASCE UN1363</td>
<td>Introduction to East Asian Civilizations: Korea</td>
</tr>
<tr>
<td>ASCE UN1365</td>
<td>Introduction to East Asian Civilizations: Tibet</td>
</tr>
<tr>
<td>ASCE UN1367</td>
<td>Introduction to East Asian Civilizations: Vietnam</td>
</tr>
</tbody>
</table>

**Electives**

Two courses in East Asian Studies at Columbia or Barnard at the 3000- or 4000-level, subject to approval by the DUS. Concentrators may count Classical Chinese, Classical Japanese, or Classical Tibetan as one of the electives for this requirement.

Concentrators are not eligible for the Senior Thesis Program or for departmental honors.

**Economics**

**Departmental Office:** 1022 International Affairs Building; 212-854-3680

http://www.columbia.edu/cu/economics/

**Director of Undergraduate Studies:** Dr. Susan Elmes, 1006 International Affairs Building; 212-854-9124; se5@columbia.edu

**Director of Departmental Honors Program:** Dr. Susan Elmes, 1006 International Affairs Building; 212-854-9124; se5@columbia.edu
Economics is the study of the ways in which society allocates its scarce resources among alternative uses and the consequences of these decisions. The areas of inquiry deal with a varied range of topics such as international trade, domestic and international financial systems, labor market analysis, and the study of less developed economies. Broadly speaking, the goal of an economics major is to train students to think analytically about social issues and, as such, provide a solid foundation for not only further study and careers in economics, but also for careers in law, public service, business, and related fields.

The Economics Department offers a general economics major in addition to five interdisciplinary majors structured to suit the interests and professional goals of a heterogeneous student body. All of these programs have different specific requirements but share the common structure of core theoretical courses that provide the foundation for higher-level elective courses culminating in a senior seminar. Students are urged to carefully look through the details of each of these programs and to contact an appropriate departmental adviser to discuss their particular interests.

ADVANCED PLACEMENT
Tests must be taken in both microeconomics and macroeconomics, with a score of 5 on one test and at least a 4 on the other. Provided that this is achieved, the department grants 4 credits for a score of 4 and 5 on the AP Economics exam along with exemption from ECON UN1105 Principles of Economics.

ADVISING
The Department of Economics offers a variety of advising resources to provide prospective and current undergraduate majors and concentrators with the information and support needed to successfully navigate through the program. These resources are described below.

Frequently Asked Questions
Please see: http://econ.columbia.edu/frequently-asked-questions-0

As a first step, students are encouraged to visit the department’s FAQ page, which provides comprehensive information and answers to the most frequently asked questions about the departmental majors and requirements. This page also includes a section that answers specific questions of first-years, sophomores, and non-majors.

Graduate Student Advisers
For answers to the most common questions that students have about the majors, the department has graduate student advisers, who are available by e-mail at econ-advising@columbia.edu, or during weekly office hours to meet with students.

Students should direct all questions and concerns about their major to the graduate student advisers either in person or via e-mail. The graduate student advisers can discuss major requirements, scheduling, and major course selection, as well as review student checklists and discuss progress in the major. Occasionally, graduate student advisers may refer a student to someone else in the department (such as the director of undergraduate studies) or in the student’s school for additional advising.

Contact information and office hours for the graduate student advisers are posted on the Advisers page of the departmental website (http://www.columbia.edu/cu/economics) in the week prior to the beginning of the semester. Students considering one of the interdepartmental majors should speak to both a graduate student adviser from the Economics Department and the adviser from the other department early in the sophomore year.

Faculty Advisers
Faculty advisers are available to discuss students’ academic and career goals, both in terms of the undergraduate career and post-graduate degrees and research. Students wishing to discuss these types of substantive topics may request a faculty adviser by completing the form available on the Advisers page of the departmental website (http://www.columbia.edu/cu/economics) and depositing it in the mailbox of the director of undergraduate studies in the department’s main office, 1022 International Affairs Building.

The department does its best to match students with faculty members that share similar academic interests. While faculty advisers do not discuss major requirements—that is the role of the graduate student advisers—they do provide guidance in course selection as it relates to meeting a student’s intellectual goals and interests, as well as advise on career and research options. It is recommended that students who plan on attending a Ph.D. program in economics or are interested in pursuing economics research after graduation request a faculty adviser.

ON-LINE INFORMATION
Students can access useful information on-line, including: a comprehensive FAQ page; requirement changes to the major and concentration; sample programs and checklists; faculty office hours, contact information and fields of specialization; adviser information; teaching assistant information; research assistant opportunities; list of tutors; and Columbia-Barnard Economics Society information.

DEPARTMENTAL HONORS
Economics majors and economics joint majors who wish to be considered for departmental honors in economics must:

1. Have at least a 3.7 GPA in their major courses;
2. Take ECON GU4999 Senior Honors Thesis (a one-year course);
3. Receive at least a grade of A- in ECON GU4999 Senior Honors Thesis.

Students must consult and obtain the approval of the departmental undergraduate director in order to be admitted to the workshop. Please note that ECON GU4999 Senior Honors Thesis may be taken to fulfill the seminar requirement for the economics major and all economics joint majors. Students who wish to write a senior thesis (ECON GU4999 Senior Honors Thesis) must have completed the core major requirements. Normally no more than 10% of graduating majors receive departmental honors in a given academic year. Please see the Honors Prizes page on the department’s website for more information.

UNDERGRADUATE PRIZES

All prize recipients are announced at the end of the spring semester each academic year.

The Dean’s Prize in Economics

Awarded to General Studies students for excellence in the study of Economics.

Romine Prize

Established in 1997, this prize is awarded annually to two students (Columbia College or General Studies) majoring in economics: one for the best honors thesis paper, and the other for the best economics seminar paper.

Parker Prize for Summer Research

GUIDELINES FOR ALL ECONOMICS MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS

Economics Core Courses
All of the core courses must be completed no later than the spring semester of the student’s junior year and must be taken at Columbia. Students who take any core course during the fall semester of their senior year must obtain written permission from the department’s director of undergraduate studies. Unless otherwise specified below, all students must complete the following core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105</td>
<td>Principles of Economics</td>
</tr>
<tr>
<td>ECON UN3211</td>
<td>Intermediate Microeconomics</td>
</tr>
<tr>
<td>ECON UN3213</td>
<td>Intermediate Macroeconomics</td>
</tr>
<tr>
<td>ECON UN3412</td>
<td>Introduction To Econometrics</td>
</tr>
</tbody>
</table>

Prerequisites
Course prerequisites are strictly enforced. Prerequisites must be taken before the course, not after or concurrently.

Economics courses taken before the completion of any of its prerequisites, even with instructor approval, are not counted toward the major, concentration, or interdepartmental majors. Exemptions from a prerequisite requirement may only be made, in writing, by the department’s director of undergraduate studies. Credits from a course taken prior to the completion of its prerequisites are not counted towards the major requirements. As a consequence, students are required to complete additional, specific courses in economics at the direction of the director of undergraduate studies.

The prerequisites for required courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105 Principles of Economics</td>
<td>None</td>
</tr>
<tr>
<td>MATH UN1101 Calculus I</td>
<td>MATH UN1101 Calculus I</td>
</tr>
<tr>
<td>STAT UN1201 Calculus-Based Introduction to Statistics</td>
<td>MATH UN1201 Calculus III or UN1205</td>
</tr>
<tr>
<td>ECON UN3211 Intermediate Microeconomics</td>
<td>ECON UN1105 Principles of Economics</td>
</tr>
<tr>
<td>MATH UN1201 Calculus III or UN1205</td>
<td>ECON UN1105 Principles of Economics</td>
</tr>
<tr>
<td>ECON UN3213 Intermediate Macroeconomics</td>
<td>MATH UN1101 Calculus I Co-require: MATH UN1201 Calculus III or UN1205</td>
</tr>
<tr>
<td>ECON UN3412 Introduction To Econometrics</td>
<td>MATH UN1201 Calculus III or UN1205</td>
</tr>
<tr>
<td>ECON GU4211 Advanced Microeconomics</td>
<td>ECON UN3211 Intermediate Microeconomics</td>
</tr>
<tr>
<td>MATH UN2010 Linear Algebra</td>
<td>MATH UN2500 Analysis and Optimization</td>
</tr>
<tr>
<td>ECON GU4213 Advanced Macroeconomics</td>
<td>ECON UN3213 Intermediate Macroeconomics</td>
</tr>
<tr>
<td>MATH UN2010 Linear Algebra</td>

ECON GU4913 Seminar In Macroeconomics
ECON GU4918 Seminar In Econometrics
ECPS GU4921 Seminar In Political Economy
ECPH GU4950 Economics and Philosophy Seminar

Barnard electives See Barnard bulletin

It is strongly recommended that students take ECON UN3412 Introduction To Econometrics in the semester immediately following the completion of the statistics course.

Grading

No course with a grade of D or lower, including calculus and statistics courses, can count toward the major, concentration, or interdepartmental majors. Economics core courses with a grade of D or F must be retaken and completed with a grade of C- or better.

Students who receive a grade of D or F in a core course are permitted to take a higher-level elective course that has that core course as a prerequisite, so long as it is taken concurrently with the retaking of that core course. For example, if a student fails ECON UN3211 Intermediate Microeconomics, the student must retake it and, in the same semester, may enroll in an elective course for which it is a prerequisite, provided that all other prerequisites for the elective have been completed. The same rule applies to the required math and statistics courses. For example, if a student fails MATH UN1201 Calculus III, the student may retake calculus III concurrently with Intermediate Microeconomics. Students who must retake any core economics or math course may not retake it concurrently with a senior seminar; the economics core courses ECON UN3211 Intermediate Microeconomics, ECON UN3213 Intermediate Macroeconomics, and ECON UN3412 Introduction To Econometrics must be successfully completed before a student may enroll in a seminar.

A grade of W is not equivalent to a grade of D or F; it does not qualify a student to retake the course concurrently with a higher level course that lists the course as a prerequisite. Students who receive a grade of W in a core course must complete the course with a grade of C- or better before taking a course that lists it as a prerequisite.

Only ECON UN1105 Principles of Economics may be taken for a grade of Pass/D/Fail, and the student must receive a grade of P for it to count towards the requirements for the major, concentration, or interdepartmental majors.

Economics Electives

Only those courses identified in the Economics Department listings in this Bulletin may be taken for elective credit. All 3000-level or higher electives offered by the Economics Department have ECON UN3211 Intermediate Microeconomics and ECON UN3213 Intermediate Macroeconomics as prerequisites. However, some electives have additional prerequisites and students should ensure that all prerequisites have been completed (see the table of prerequisites printed above). Seminars do not count as electives.
Seminars
Seminars can be taken only after all of the required core courses in economics have been completed. ECON UN3412 Introduction To Econometrics may not be taken or retaken concurrently with a senior seminar. Seminars do not count as electives. Each seminar is limited to sixteen students, with priority given to seniors. For ECPS GU4921 Seminar In Political Economy and ECPH GU4950 Economics and Philosophy Seminar, priority is given to economics–political science and economics-philosophy majors, respectively.

For seminar registration details, read the information posted on the department’s Senior Seminar Registration page: http://econ.columbia.edu/senior-seminars-registration.

Mathematics
Students must consult with the Mathematics Department for the appropriate placement in the calculus sequence. Students must complete one of the following sequences:

Select one of the following sequences:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
<tr>
<td>- MATH UN1201</td>
<td>and Calculus III</td>
</tr>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
<tr>
<td>- MATH UN1205</td>
<td>and Accelerated Multivariable Calculus</td>
</tr>
<tr>
<td>MATH UN1207</td>
<td>Honors Mathematics A</td>
</tr>
<tr>
<td>- MATH UN1208</td>
<td>and Honors Mathematics B</td>
</tr>
</tbody>
</table>

In addition:

1. Students who receive a grade of D or F in MATH UN1201 Calculus III or MATH UN1205 must retake the course but may enroll in ECON UN3211 Intermediate Microeconomics.

2. Students who receive a grade of D or F in MATH UN1207 Honors Mathematics A may either retake the course, or take MATH UN1201 Calculus III or MATH UN1205, and enroll in ECON UN3211 Intermediate Microeconomics concurrently.

Statistics
Unless otherwise specified below, all students must take STAT UN1201 Calculus-Based Introduction to Statistics, or a higher level course, such as STAT GU4204 Statistical Inference, or SIEO S3001 Introduction to Probability and Statistics.

Barnard Courses
A limited number of Barnard economics electives may count toward the major, concentration, and interdepartmental majors. Students should pay careful attention to the limit of Barnard electives indicated in their program requirements. Please see the Transfer Credit section below for information on the number of Barnard electives that may be taken to fulfill major requirements. In addition, students may receive credit for the major, concentration, and interdepartmental majors only for those Barnard economics courses listed in this Bulletin. However, students may not receive credit for two courses whose content overlaps. Barnard and Columbia economics electives with overlapping content include but are not limited to:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>

Students should always first consult with econ-advising to confirm that the Barnard elective they wish to take does not overlap with a Columbia elective that they have already taken or plan to take. Students may not take the Barnard core economics, math, statistics, or seminar courses for credit towards the completion of major requirements.

School of Professional Studies Courses
The Department of Economics does not accept any of the courses offered through the School of Professional Studies for credit towards the economics major, concentration, or interdepartmental majors with the exception of the courses offered by the Economics Department during the summer session at Columbia.

Other Department and School Courses
Please note that with the exception of the above Barnard courses and the specific courses listed below for the financial economics major, no other courses offered through the different departments and schools at Columbia count toward the economics majors or concentration.
Transfer Credits

Students are required to take a minimum number of courses in the Columbia Economics Department. For all majors and interdepartmental majors, students must complete a minimum of five lecture courses in the Columbia department. Students may fulfill their remaining requirements for economics lecture courses through AP (or IB or GCE) credits, Barnard electives, transfer courses, and study abroad courses (the latter two are subject to the approval of the Economics Department). The following table summarizes the new rules:

<table>
<thead>
<tr>
<th>Program</th>
<th>Number of required economics lecture courses</th>
<th>Minimum number which must be taken in the department</th>
<th>Maximum number of outside allowed</th>
</tr>

</table>

1. **Lecture courses** do not include seminars, which must be taken in the Columbia Economics Department. The lecture course counts are counts of economics courses only and do **not** include math, statistics, or courses in other departments;
2. At least two of the three 3000-level economics core courses must be taken in the department and no corresponding Barnard courses are accepted. ECON UN3025 Financial Economics and ECON UN3265 The Economics of Money and Banking are counted as departmental courses regardless of the instructor;
3. **Outside courses** include AP (or IB or GCE) credits, transfer credits, Barnard 2000- and 3000-level elective courses and transfer credits from other universities. In the case where two or more courses taken outside of Columbia are used as the equivalent of ECON UN1105 Principles of Economics, those courses are counted as one transfer course.

Approval of transfer credits to fulfill economics requirements must be obtained in writing from the Department of Economics (see the departmental website (http://www.columbia.edu/cu/economics) or speak with your advising dean for information regarding applications for transfer credit). Approval is granted only for courses that are considered to be comparable to those offered at Columbia.

**Summer courses** taken at other institutions must be approved in writing by the department’s transfer credit adviser before the course is taken. The department does not accept transfer credits for any 3000 level core courses taken during a summer session outside of Columbia University. Summer courses taken from the department of economics at Columbia University do not need approval.

**Guidelines and instructions** on how to request transfer credit approval can be found in the Transfer Credit Information page of the departmental website (http://www.columbia.edu/cu/economics).

**MAJOR IN ECONOMICS**

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The economics major requires a minimum of 35 points in economics, 6 points in mathematics, and 3 points in statistics, for a total of 44 points as follows:

**Economics Core Courses**

- All economics core courses

**Mathematics**

- Select a mathematics sequence

**Statistics**

- Select a statistics course

**Economics Electives**

- Select at least five electives, of which no more than one may be taken at the 2000-level (including Barnard courses)

**Economics Seminar**

- Select one economics seminar course

**CONCENTRATION IN ECONOMICS**

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The economics concentration requires a minimum of 25 points in economics, 6 points in mathematics, and 3 points in statistics, for a total of 34 points as follows:

**Economics Core Courses**

- All economics core courses

**Mathematics**

- Select a mathematics sequence

**Statistics**

- Select a statistics course

**Economics Electives**

- Select at least three electives, of which no more than one may be taken at the 2000-level (including Barnard courses)
Major in Financial Economics

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The Department of Economics offers the major in financial economics, which provides an academic framework to explore the role of financial markets and intermediaries in the allocation (and misallocation) of capital. Among the topics studied in financial economics are financial markets, banks and other financial intermediaries, asset valuation, portfolio allocation, regulation and corporate governance.

The financial economics major requires 26 points in economics, 6 points in mathematics, 3 points in statistics, 3 points in business, and 12 points from a list of selected courses for a total of 50 points as follows:

**Economics Core Courses**

All economics core courses

**Finance Core Courses**

- ECON UN3025 Financial Economics
- ECON GU4280 Corporate Finance
- BUSI UN3013 Financial Accounting

*NOTE: The department considers BUSI UN3013 and IEOR E2261 as overlapping courses. Students who take both courses shall be credited with one course only.

Financial economics majors who are also in the Business Management concentration program (CNBUMG) must take an additional elective from either the financial economics prescribed elective list (below) or from the CNBUMB prescribed list.

**Mathematics**

Select a mathematics sequence

**Statistics**

Select a statistics course

**Electives**

Select four of the following, of which two must be from the Columbia or Barnard economics departments, or equivalent economics transfer credits:

- ECON BC3014 Entrepreneurship
- ECON BC3017 Economics of Business Organization
- ECON UN3265 The Economics of Money and Banking
- ECON UN3952 Seminar in Macroeconomics and Formation of Expectations
- ECON GU4020 Economics of Uncertainty and Information
- ECON GU4213 Advanced Macroeconomics
- ECON GU4251 Industrial Organization
- ECON GU4260 Market Design
- ECON GU4412 Advanced Econometrics
- ECON GU4415 Game Theory
- ECON GU4465 Public Economics

- ECON GU4500 International Trade
- ECON GU4505 International Macroeconomics or ECON BC3038 International Money and Finance
- ECON G4526 Transition Reforms, Globalization and Financial Crisis

**Finance Core Courses**

- ECON GU4700 Financial Crises
- ECON GU4710 Finance and the Real Economy
- ECON GU4840 Behavioral Economics
- ECON GU4850 Cognitive Mechanisms and Economic Behavior

**Electives**

- ECON GU4860 Behavioral Finance
- BIOT GU4180

- BUSI UN3021 Marketing Management
- BUSI UN3701 Strategy Formulation
- BUSI UN3702 Venturing to Change the World
- BUSI UN3703 Leadership in Organizations
- BUSI UN3704 Making History Through Venturing

- COMS W1002 Computing in Context
- HIST W2904 History of Finance

**Seminar**

The seminar must be chosen from a list of seminars eligible for the financial economics major. The department indicates which seminars are eligible for the major on the Senior Seminars page of the departmental website.

Students must have completed at least one of ECON UN3025 or ECON GU4280 prior to taking their senior seminar.

* Students must complete the finance core no later than fall of their senior year.

Major in Economics-Mathematics

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The major in economics and mathematics provides students with a grounding in economic theory comparable to that provided by the general economics major and exposes students to rigorous and extensive training in mathematics. The
program is recommended for any student planning to do graduate work in economics.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Mathematics has an assigned adviser with whom students may consult on mathematics requirements. The economics adviser can only advise on economics requirements; the mathematics adviser can only advise on mathematics requirements.

The economics-mathematics major requires a total of 56 points: 29 points in economics and 27 points in mathematics and statistics as follows:

**Economics Core Courses**

All economics core courses

**Economics Electives**

Select three electives at the 3000-level or above

**Mathematics**

Select one of the following sequences:

MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1201 and Calculus III
- MATH UN2010 and Linear Algebra

MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN2010 and Accelerated Multivariable Calculus
- MATH UN2010 and Linear Algebra

MATH UN1207 Honors Mathematics A
- MATH UN1208 and Honors Mathematics B

Note: Students who take MATH UN1205 may not receive credit for both MATH UN1201 and MATH UN1202.

Analysis requirement:

MATH UN2500 Analysis and Optimization

Select three of the following:

MATH UN1202 Calculus IV
MATH UN2030 Ordinary Differential Equations

Any mathematics course at the 3000-level or above

Note: Students who take MATH UN1205 will not receive credit for MATH UN1202.

**Statistics**

Select one of the following sequences:

STAT GU4001 Introduction to Probability and Statistics

STAT GU4203 PROBABILITY THEORY
- STAT GU4204 and Statistical Inference

**Economics Seminar**

Select an economics seminar

**NOTE:**

1. Students who fulfill the statistics requirement with STAT GU4203 and STAT GU4204, may count STAT GU4203 or STAT GU4204 as one of the three required mathematics electives.

2. Students who choose the one year sequence (STAT GU4203/ STAT GU4204), must complete the year long sequence prior to taking ECON UN3412. Students receive elective credit for the probability course.

---

**MAJOR IN ECONOMICS-PHILOSOPHY**

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

Economics-philosophy is an interdisciplinary major that introduces students to basic methodologies of economics and philosophy and stresses areas of particular concern to both, e.g. rationality and decision making, justice and efficiency, freedom and collective choice, logic of empirical theories and testing. Many issues are dealt with historically. Classic texts of Plato, Kant, Mill, Marx, and Smith are reviewed.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Philosophy has an assigned adviser with whom students may consult on philosophy requirements. The economics adviser can only advise on economics requirements; the philosophy adviser can only advise on philosophy requirements.

The economics-philosophy major requires a total of 53 points: 25 points in economics, 15 points in philosophy, 6 points in mathematics, 3 points in statistics, and 4 points in the interdisciplinary seminar as follows:

**Economics Core Courses**

ECON UN1105 Principles of Economics
ECON UN3211 Intermediate Microeconomics
ECON UN3213 Intermediate Macroeconomics
ECON UN3412 Introduction To Econometrics

**Mathematics**

Select a mathematics sequence

**Statistics**

Select a statistics course

**Economics Electives**

Three Electives are required; two must be selected from the below list, and the remaining elective may be any economics elective at the 3000-level or above.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON GU4020</td>
<td>Economics of Uncertainty and Information</td>
</tr>
<tr>
<td>ECON GU4211</td>
<td>Advanced Microeconomics</td>
</tr>
<tr>
<td>ECON GU4213</td>
<td>Advanced Macroeconomics</td>
</tr>
<tr>
<td>ECON GU4228</td>
<td>Urban Economics</td>
</tr>
<tr>
<td>ECON GU4230</td>
<td>Economics of New York City</td>
</tr>
<tr>
<td>ECON GU4235</td>
<td>HISTORICAL FOUNDATIONS OF MODERN ECONOMICS: Adam Smith to J M Keynes</td>
</tr>
</tbody>
</table>

NOTE:

1. Students who fulfill the statistics requirement with STAT GU4203 and STAT GU4204, may count STAT GU4203 or STAT GU4204 as one of the three required mathematics electives.
The political science courses are grouped into three areas, i.e. subfields: (1) American politics, (2) comparative politics, and (3) international relations. For the political science part of the major, students are required to select one area as a major subfield and one as a minor subfield. The corresponding introductory courses in both subfields must be taken, plus two electives in the major subfield, and one in the minor subfield.

**Economics Core Courses**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105</td>
<td>Principles of Economics</td>
</tr>
<tr>
<td>ECON UN3211</td>
<td>Intermediate Microeconomics</td>
</tr>
<tr>
<td>ECON UN3213</td>
<td>Intermediate Macroeconomics</td>
</tr>
<tr>
<td>ECON GU4370</td>
<td>Political Economy</td>
</tr>
</tbody>
</table>

**Mathematics**

Select a mathematics sequence

**Statistical Methods**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT UN1201</td>
<td>Calculus-Based Introduction to Statistics</td>
</tr>
</tbody>
</table>

Select one of the following:

- ECON UN3412 Introduction To Econometrics
- POLS GU4712 Analysis of Political Data

**Economics Electives**

Select two electives (6 points) at the 3000-level or above

**Political Science Courses**

Students must choose a Primary Subfield and a Secondary Subfield to study. The subfields are as follows: American Politics (AP), Comparative Politics (CP), International Relations (IR), and Political Theory (PT).

- Primary Subfield: Minimum three courses, one of which must be the subfield’s introductory course.
- Secondary Subfield: Minimum two courses, one of which must be the subfield’s introductory course.

**Seminars**

Students must take the following two seminars:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECPS GU4921</td>
<td>Seminar In Political Economy</td>
</tr>
</tbody>
</table>

and a Political Science Department seminar, in the student’s Primary Subfield. Please select one of the following *:

- POLS UN3911 Seminar in Political Theory
- POLS UN3912 Seminar in Political Theory

- POLS UN3921 Seminar in American Politics
- POLS UN3922 Seminar in American Politics

- POLS UN3951 Seminar in Comparative Politics
- POLS UN3952 Seminar in Comparative Politics

- POLS UN3961 International Politics Seminar
- POLS UN3962 Seminar in International Politics

Students who wish to count toward the political science seminar requirement a course that is not in the above list of approved seminars must obtain permission from the political science Director of Undergraduate studies. Barnard colloquia can count for seminar credit only with the written permission of the Director of Undergraduate Studies. Note that admission to Barnard colloquia is by application to the Barnard political science department only.
MAJOR IN ECONOMICS-STATISTICS

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The major in economics-statistics provides students with a grounding in economic theory comparable to that provided by the general economics major, but also exposes students to a significantly more rigorous and extensive statistics training than is provided by the general major. This program is recommended for students with strong quantitative skills and for those contemplating graduate studies in economics.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Statistics has an assigned adviser with whom students may consult on statistics requirements. The economics adviser can only advise on economics requirements; the statistics adviser can only advise on statistics requirements.

The economics-statistics major requires a total of 59 points: 29 in economics, 15 points in statistics, 12 points in mathematics, 3 points in computer science as follows:

Economics Core Courses
All economics core courses

Economics Electives
Select three electives at the 3000-level or above

Mathematics
Select one of the following sequences:
- MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1201 and Calculus III
- MATH UN2010 and Linear Algebra

MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1205 and Accelerated Multivariable
- MATH UN2010 and Linear Algebra

MATH UN1207 Honors Mathematics A
- MATH UN1208 and Honors Mathematics B

Statistics
- STAT UN1201 Calculus-Based Introduction to Statistics
- STAT GU4203 PROBABILITY THEORY
- STAT GU4204 Statistical Inference
- STAT GU4205 Linear Regression Models

One elective in statistics from among courses numbered STAT GU 4206 through GU 4266.

Computer Science
Select one of the following:
- COMS W1004 Introduction to Computer Science and Programming in Java
- COMS W1005 Introduction to Computer Science and Programming in MATLAB

ECONOMICS - MATHEMATICS

Departmental Office: 1022 International Affairs Building; 212-854-3680
http://www.columbia.edu/cu/economics/

Director of Undergraduate Studies: Dr. Susan Elmes, 1006 International Affairs Building; 212-854-9124; se5@columbia.edu

Director of Departmental Honors Program: Dr. Susan Elmes, 1006 International Affairs Building; 212-854-9124; se5@columbia.edu

Economics is the study of the ways in which society allocates its scarce resources among alternative uses and the consequences of these decisions. The areas of inquiry deal with a varied range of topics such as international trade, domestic and international financial systems, labor market analysis, and the study of less developed economies. Broadly speaking, the goal of an economics major is to train students to think analytically about social issues and, as such, provide a solid foundation for not only further study and careers in economics, but also for careers in law, public service, business, and related fields.

The Economics Department offers a general economics major in addition to five interdisciplinary majors structured to suit the interests and professional goals of a heterogeneous student body. All of these programs have different specific requirements but share the common structure of core theoretical courses that provide the foundation for higher-level elective courses culminating in a senior seminar. Students are urged to carefully look through the details of each of these programs and to contact an appropriate departmental adviser to discuss their particular interests.

ADVANCED PLACEMENT

Tests must be taken in both microeconomics and macroeconomics, with a score of 5 on one test and at least a 4 on the other. Provided that this is achieved, the department grants 4 credits for a score of 4 and 5 on the AP Economics exam along with exemption from ECON UN1105 Principles of Economics.
ADVISING

The Department of Economics offers a variety of advising resources to provide prospective and current undergraduate majors and concentrators with the information and support needed to successfully navigate through the program. These resources are described below.

Frequently Asked Questions
Please see: http://econ.columbia.edu/frequently-asked-questions-0

As a first step, students are encouraged to visit the department’s FAQ page, which provides comprehensive information and answers to the most frequently asked questions about the departmental majors and requirements. This page also includes a section that answers specific questions of first-years, sophomores, and non-majors.

Graduate Student Advisers

For answers to the most common questions that students have about the majors, the department has graduate student advisers, who are available by e-mail at econ-advising@columbia.edu, or during weekly office hours to meet with students.

Students should direct all questions and concerns about their major to the graduate student advisers either in person or via e-mail. The graduate student advisers can discuss major requirements, scheduling, and major course selection, as well as review student checklists and discuss progress in the major. Occasionally, graduate student advisers may refer a student to someone else in the department (such as the director of undergraduate studies) or in the student’s school for additional advising.

Contact information and office hours for the graduate student advisers are posted on the Advisers page of the departmental website (http://www.columbia.edu/cu/economics) in the week prior to the beginning of the semester. Students considering one of the interdepartmental majors should speak to both a graduate student adviser from the Economics Department and the adviser from the other department early in the sophomore year.

Faculty Advisers

Faculty advisers are available to discuss students’ academic and career goals, both in terms of the undergraduate career and post-graduate degrees and research. Students wishing to discuss these types of substantive topics may request a faculty adviser by completing the form available on the Advisers page of the departmental website (http://www.columbia.edu/cu/economics) and depositing it in the mailbox of the director of undergraduate studies in the department’s main office, 1022 International Affairs Building.

The department does its best to match students with faculty members that share similar academic interests. While faculty advisers do not discuss major requirements—that is the role of the graduate student advisers—they do provide guidance in course selection as it relates to meeting a student’s intellectual goals and interests, as well as advise on career and research options. It is recommended that students who plan on attending a Ph.D. program in economics or are interested in pursuing economics research after graduation request a faculty adviser.

ON-LINE INFORMATION

Students can access useful information on-line, including: a comprehensive FAQ page; requirement changes to the major and concentration; sample programs and checklists; faculty office hours, contact information and fields of specialization; adviser information; teaching assistant information; research assistant opportunities; list of tutors; and Columbia-Barnard Economics Society information.

DEPARTMENTAL HONORS

Economics majors and economics joint majors who wish to be considered for departmental honors in economics must:
1. Have at least a 3.7 GPA in their major courses;
2. Take ECON GU4999 Senior Honors Thesis (a one-year course);
3. Receive at least a grade of A- in ECON GU4999 Senior Honors Thesis.

Students must consult and obtain the approval of the departmental undergraduate director in order to be admitted to the workshop. Please note that ECON GU4999 Senior Honors Thesis may be taken to fulfill the seminar requirement for the economics major and all economics joint majors. Students who wish to write a senior thesis (ECON GU4999 Senior Honors Thesis) must have completed the core major requirements. Normally no more than 10% of graduating majors receive departmental honors in a given academic year. Please see the Honors Prizes page on the department’s website for more information.

UNDERGRADUATE PRIZES

All prize recipients are announced at the end of the spring semester each academic year.

The Dean’s Prize in Economics
Awarded to General Studies students for excellence in the study of Economics.

Romine Prize
Established in 1997, this prize is awarded annually to two students (Columbia College or General Studies) majoring in economics: one for the best honors thesis paper, and the other for the best economics seminar paper.

Parker Prize for Summer Research

GUIDELINES FOR ALL ECONOMICS MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS

Economics Core Courses

All of the core courses must be completed no later than the spring semester of the student’s junior year and must be taken at Columbia. Students who take any core course during the fall semester of their senior year must obtain written permission from the department’s director of undergraduate studies. Unless
otherwise specified below, all students must complete the following core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105 Principles of Economics</td>
<td>None</td>
</tr>
<tr>
<td>ECON UN3211 Intermediate Microeconomics</td>
<td>ECON UN1105 Principles of Economics, MATH UN1201 Calculus III or UN1205</td>
</tr>
<tr>
<td>ECON UN3213 Intermediate Macroeconomics</td>
<td>ECON UN1105 Principles of Economics, MATH UN1201 Calculus III or UN1205</td>
</tr>
<tr>
<td>ECON UN3412 Introduction To Econometrics</td>
<td>MATH UN1201 Calculus III or UN1205, ECON UN3211 Intermediate Microeconomics or UN3213 Intermediate Macroeconomics, STAT UN1201 Calculus-Based Introduction to Statistics</td>
</tr>
<tr>
<td>ECON 2000-level electives</td>
<td>ECON UN1105 Principles of Economics</td>
</tr>
<tr>
<td>ECON GU4211 Advanced Microeconomics</td>
<td>ECON UN3211 Intermediate Microeconomics, ECON UN3213 Intermediate Macroeconomics</td>
</tr>
<tr>
<td>ECON GU4213 Advanced Macroeconomics</td>
<td>ECON UN3211 Intermediate Microeconomics, ECON UN3213 Intermediate Macroeconomics</td>
</tr>
<tr>
<td>ECON GU4412 Advanced Econometrics</td>
<td>ECON UN3211 Intermediate Microeconomics, ECON UN3213 Intermediate Macroeconomics</td>
</tr>
<tr>
<td>ECON GU4230 Economics of New York City</td>
<td>ECON UN3211 Intermediate Microeconomics</td>
</tr>
<tr>
<td>ECON GU4260 Market Design</td>
<td>ECON UN3211 Intermediate Microeconomics</td>
</tr>
<tr>
<td>ECON GU4280 Corporate Finance</td>
<td>ECON UN3211 Intermediate Microeconomics</td>

<td>ECON UN3211 Intermediate Microeconomics</td>
</tr>
<tr>
<td>ECON GU4860 Behavioral Finance</td>
<td>ECON UN3211 Intermediate Microeconomics</td>
</tr>
<tr>
<td>All other ECON 3000- and 4000-level electives</td>
<td>ECON UN3211 Intermediate Microeconomics</td>
</tr>
</tbody>
</table>

**Prerequisites**

Course prerequisites are strictly enforced. Prerequisites must be taken before the course, not after or concurrently.

Economics courses taken before the completion of any of its prerequisites, even with instructor approval, are **not** counted toward the major, concentration, or interdepartmental majors. Exemptions from a prerequisite requirement may only be made, in writing, by the department’s director of undergraduate studies. Credits from a course taken **prior** to the completion of its prerequisites are **not** counted towards the major requirements. As a consequence, students are required to complete **additional**, specific courses in economics at the direction of the director of undergraduate studies.

The prerequisites for required courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101 Calculus I</td>
<td>None</td>
</tr>
<tr>
<td>STAT UN1201 Calculus-Based Introduction to Statistics</td>
<td>MATH UN1101 Calculus I</td>
</tr>
<tr>
<td>ECON UN3211 Intermediate Microeconomics</td>
<td>ECON UN1105 Principles of Economics, MATH UN1201 Calculus III or UN1205</td>
</tr>
<tr>
<td>ECON UN3213 Intermediate Macroeconomics</td>
<td>ECON UN1105 Principles of Economics, MATH UN1201 Calculus III or UN1205</td>
</tr>
<tr>
<td>ECON UN3412 Introduction To Econometrics</td>
<td>MATH UN1201 Calculus III or UN1205, ECON UN3211 Intermediate Microeconomics or UN3213 Intermediate Macroeconomics, STAT UN1201 Calculus-Based Introduction to Statistics</td>
</tr>
<tr>
<td>ECON 2000-level electives</td>
<td>ECON UN1105 Principles of Economics</td>
</tr>
</tbody>
</table>
It is **strongly recommended** that students take ECON UN3412 Introduction To Econometrics in the semester immediately following the completion of the statistics course.

**Grading**

No course with a grade of D or lower, including calculus and statistics courses, can count toward the major, concentration, or interdepartmental majors. Economics core courses with a grade of D or F must be retaken and completed with a grade of C- or better.

Students who receive a grade of D or F in a core course are permitted to take a higher-level elective course that has that core course as a prerequisite, so long as it is taken concurrently with the retaking of that core course. For example, if a student fails ECON UN3211 Intermediate Microeconomics, the student must retake it and, in the same semester, may enroll in an elective course for which it is a prerequisite, provided that all other prerequisites for the elective have been completed. The same rule applies to the required math and statistics courses. For example, if a student fails MATH UN1201 Calculus III, the student may retake calculus III concurrently with Intermediate Microeconomics. Students who must retake any core economics or math course may not retake it concurrently with a senior seminar; the economics core courses ECON UN3211 Intermediate Microeconomics, ECON UN3213 Intermediate Macroeconomics, and ECON UN3412 Introduction To Econometrics must be successfully completed before a student may enroll in a seminar.

A grade of W is not equivalent to a grade of D or F; it does not qualify a student to retake the course concurrently with a higher level course that lists the course as a prerequisite. Students who receive a grade of W in a core course must complete the course with a grade of C- or better before taking a course that lists it as a prerequisite.

Only ECON UN1105 Principles of Economics may be taken for a grade of Pass/D/Fail, and the student must receive a grade of P for it to count towards the requirements for the major, concentration, or interdepartmental majors.

**Economics Electives**

Only those courses identified in the Economics Department listings in this Bulletin may be taken for elective credit. All 3000-level or higher electives offered by the Economics Department have ECON UN3211 Intermediate Microeconomics and ECON UN3213 Intermediate Macroeconomics as prerequisites. However, some electives have additional prerequisites and students should ensure that all prerequisites have been completed (see the table of prerequisites printed above). *Seminars do not count as electives.*

**Seminars**

Seminars can be taken only after all of the required core courses in economics have been completed. ECON UN3412 Introduction To Econometrics may not be taken or retaken concurrently with a senior seminar. *Seminars do not count as electives.* Each seminar is limited to sixteen students, with priority given to seniors. For ECPS GU4921 Seminar In Political Economy and ECPH GU4950 Economics and Philosophy Seminar, priority is given to economics–political science and economics-philosophy majors, respectively.

For seminar registration details, read the information posted on the department’s Senior Seminar Registration page: http://econ.columbia.edu/senior-seminars-registration.

**Mathematics**

Students must consult with the Mathematics Department for the appropriate placement in the calculus sequence. Students must complete one of the following sequences:

Select one of the following sequences:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
<tr>
<td>- MATH UN1201</td>
<td>and Calculus III</td>
</tr>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
<tr>
<td>- MATH UN1205</td>
<td>and Accelerated Multivariable Calculus</td>
</tr>
<tr>
<td>MATH UN1207</td>
<td>Honors Mathematics A</td>
</tr>
<tr>
<td>- MATH UN1208</td>
<td>and Honors Mathematics B</td>
</tr>
</tbody>
</table>
In addition:

1. Students who receive a grade of D or F in MATH UN1201 Calculus III or MATH UN1205 must retake the course but may enroll in ECON UN3211 Intermediate Microeconomics.

2. Students who receive a grade of D or F in MATH UN1207 Honors Mathematics A may either retake the course, or take MATH UN1201 Calculus III or MATH UN1205, and enroll in ECON UN3211 Intermediate Microeconomics concurrently.

Statistics

Unless otherwise specified below, all students must take STAT UN1201 Calculus-Based Introduction to Statistics, or a higher level course, such as STAT GU4204 Statistical Inference, or SIEO S3001 Introduction to Probability and Statistics.

Barnard Courses

A limited number of Barnard economics electives may count toward the major, concentration, and interdepartmental majors. Students should pay careful attention to the limit of Barnard electives indicated in their program requirements. Please see the Transfer Credit section below for information on the number of Barnard electives that may be taken to fulfill major requirements. In addition, students may receive credit for the major, concentration, and interdepartmental majors only for those Barnard economics courses listed in this Bulletin. However, students may not receive credit for two courses whose content overlaps. Barnard and Columbia economics electives with overlapping content include but are not limited to:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON BC3029</td>
<td>Empirical Development Economics and Economic Development</td>
</tr>
<tr>
<td>ECON BC3038</td>
<td>International Money and Finance and International Macroeconomics</td>
</tr>
<tr>
<td>ECON BC3019</td>
<td>Labor Economics and Labor Economics</td>
</tr>
<tr>
<td>ECON BC3047</td>
<td>International Trade and International Trade</td>
</tr>
<tr>
<td>ECON BC3039</td>
<td>Environmental and Natural Resource Economics and Economics of the Environment</td>
</tr>
<tr>
<td>ECON BC3041</td>
<td>Theoretical Foundations of Political Economy and HISTORICAL FOUNDATIONS OF MODERN ECONOMICS: Adam Smith to J M Keynes</td>
</tr>
<tr>
<td>ECON GU4400</td>
<td>Labor Economics</td>
</tr>
</tbody>
</table>

ECON GU4235 | HISTORICAL FOUNDATIONS OF MODERN ECONOMICS: Adam Smith to J M Keynes

Students should always first consult with econ-advising to confirm that the Barnard elective they wish to take does not overlap with a Columbia elective that they have already taken or plan to take. Students may not take the Barnard core economics, math, statistics, or seminar courses for credit towards the completion of major requirements.

School of Professional Studies Courses

The Department of Economics does not accept any of the courses offered through the School of Professional Studies for credit towards the economics major, concentration, or interdepartmental majors with the exception of the courses offered by the Economics Department during the summer session at Columbia.

Other Department and School Courses

Please note that with the exception of the above Barnard courses and the specific courses listed below for the financial economics major, no other courses offered through the different departments and schools at Columbia count toward the economics majors or concentration.

Transfer Credits

Students are required to take a minimum number of courses in the Columbia Economics Department. For all majors and interdepartmental majors, students must complete a minimum of five lecture courses in the Columbia department. Students may fulfill their remaining requirements for economics lecture courses through AP (or IB or GCE) credits, Barnard electives, transfer courses, and study abroad courses (the latter two are subject to the approval of the Economics Department). The following table summarizes the new rules:

<table>
<thead>
<tr>
<th>Program</th>
<th>Number of required economics lecture courses</th>
<th>Minimum number which must be of outside allowed</th>
<th>Maximum number</th>
</tr>
</thead>
<tbody>
<tr>
<td>Economics major</td>
<td>9</td>
<td>5</td>
<td>4</td>
</tr>
<tr>
<td>Financial economics</td>
<td>8</td>
<td>5</td>
<td>3</td>
</tr>
<tr>
<td>Economics-mathematics</td>
<td>7</td>
<td>5</td>
<td>2</td>
</tr>
<tr>
<td>Economics-political science</td>
<td>7</td>
<td>5</td>

<td>5</td>
<td>2</td>
</tr>
</tbody>
</table>
Economics-philosophy 7 5 2
Economics concentration 7 4 3

1. Lecture courses do not include seminars, which must be taken in the Columbia Economics Department. The lecture course counts are counts of economics courses only and do not include math, statistics, or courses in other departments;

2. At least two of the three 3000-level economics core courses must be taken in the department and no corresponding Barnard courses are accepted. ECON UN3025 Financial Economics and ECON UN3265 The Economics of Money and Banking are counted as departmental courses regardless of the instructor;

3. Outside courses include AP (or IB or GCE) credits, transfer credits, Barnard 2000- and 3000-level elective courses and transfer credits from other universities. In the case where two or more courses taken outside of Columbia are used as the equivalent of ECON UN1105 Principles of Economics, those courses are counted as one transfer course.

Approval of transfer credits to fulfill economics requirements must be obtained in writing from the Department of Economics (see the departmental website (http://www.columbia.edu/cu/economics) or speak with your advising dean for information regarding applications for transfer credit). Approval is granted only for courses that are considered to be comparable to those offered at Columbia.

Summer courses taken at other institutions must be approved in writing by the department’s transfer credit adviser before the course is taken. The department does not accept transfer credits for any 3000 level core courses taken during a summer session outside of Columbia University. Summer courses taken from the department of economics at Columbia University do not need approval.

Guidelines and instructions on how to request transfer credit approval can be found in the Transfer Credit Information page of the departmental website (http://www.columbia.edu/cu/economics).

Concentration in Economics

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The economics concentration requires a minimum of 25 points in economics, 6 points in mathematics, and 3 points in statistics, for a total of 34 points as follows:

Economics Core Courses
All economics core courses

Mathematics
Select a mathematics sequence

Statistics
Select a statistics course

Economics Electives
Select at least five electives, of which no more than one may be taken at the 2000-level (including Barnard courses)

Economics Seminar
Select one economics seminar course

Major in Financial Economics

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The Department of Economics offers the major in financial economics, which provides an academic framework to explore the role of financial markets and intermediaries in the allocation (and misallocation) of capital. Among the topics studied in financial economics are financial markets, banks and other financial intermediaries, asset valuation, portfolio allocation, regulation and corporate governance.

The financial economics major requires 26 points in economics, 6 points in mathematics, 3 points in statistics, 3 points in business, and 12 points from a list of selected courses for a total of 50 points as follows:

Economics Core Courses
All economics core courses

Finance Core Courses
ECON UN3025 Financial Economics
ECON GU4280 Corporate Finance
BUSI UN3013 Financial Accounting

Major in Economics

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The economics major requires a minimum of 35 points in economics, 6 points in mathematics, and 3 points in statistics, for a total of 44 points as follows:

Economics Core Courses
All economics core courses

Mathematics
*NOTE: The department considers BUSI UN3013 and IEOR E2261 as overlapping courses. Students who take both courses shall be credited with one course only. Financial economics majors who are also in the Business Management concentration program (CNBUMG) must take an additional elective from either the financial economics prescribed elective list (below) or from the CNBUMB prescribed list.

**Mathematics**

Select a mathematics sequence

**Statistics**

Select a statistics course

**Electives**

Select four of the following, of which two must be from the Columbia or Barnard economics departments, or equivalent economics transfer credits:

- ECON BC3014 Entrepreneurship
- ECON BC3017 Economics of Business Organization
- ECON UN3265 The Economics of Money and Banking
- ECON UN3952 Seminar in Macroeconomics and Formation of Expectations
- ECON GU4020 Economics of Uncertainty and Information
- ECON GU4213 Advanced Macroeconomics
- ECON GU4251 Industrial Organization
- ECON GU4260 Market Design
- ECON GU4412 Advanced Econometrics
- ECON GU4415 Game Theory
- ECON GU4465 Public Economics
- ECON GU4500 International Trade
- ECON GU4505 International Macroeconomics or ECON BC3038 International Money and Finance
- ECON G4526 Transition Reforms, Globalization and Financial Crisis
- ECON GU4700 Financial Crises
- ECON GU4710 Finance and the Real Economy
- ECON GU4840 Behavioral Economics
- ECON GU4850 Cognitive Mechanisms and Economic Behavior
- ECON GU4860 Behavioral Finance
- BIOT GU4180
- BUSI UN3021 Marketing Management
- BUSI UN3701 Strategy Formulation
- BUSI UN3702 Venturing to Change the World
- BUSI UN3703 Leadership in Organizations
- BUSI UN3704 Making History Through Venturing
- COMS W1002 Computing in Context
- HIST W2904 History of Finance
- IEOR E3106 Introduction to Operations Research: Stochastic Models
- IEOR E4700 Introduction to Financial Engineering
- MATH UN3050 Discrete Time Models in Finance
- POLS UN3630 Politics of International Economic Relations
- STAT W3201 Math Finance in Continuous Time
- STAT GU4261 Statistical Methods in Finance
- STAT GU4207 Elementary Stochastic Processes
- STAT GU4262 Stochastic Processes for Finance

**Seminar**

The seminar must be chosen from a list of seminars eligible for the financial economics major. The department indicates which seminars are eligible for the major on the Senior Seminars page of the departmental website.

Students must have completed at least one of ECON UN3025 or ECON GU4280 prior to taking their senior seminar.

* Students must complete the finance core no later than fall of their senior year.

### MAJOR IN ECONOMICS-MATHEMATICS

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The major in economics and mathematics provides students with a grounding in economic theory comparable to that provided by the general economics major and exposes students to rigorous and extensive training in mathematics. The program is recommended for any student planning to do graduate work in economics.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Mathematics has an assigned adviser with whom students may consult on mathematics requirements. The economics adviser can only advise on economics requirements; the mathematics adviser can only advise on mathematics requirements.

The economics-mathematics major requires a total of 56 points: 29 points in economics and 27 points in mathematics and statistics as follows:

#### Economics Core Courses

All economics core courses

#### Economics Electives

Select three electives at the 3000-level or above

#### Mathematics

Select one of the following sequences:

- MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1201 and Calculus III
- MATH UN2010 and Linear Algebra
MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1205 and Accelerated Multivariable Calculus and Linear Algebra

MATH UN1207 Honors Mathematics A
- MATH UN1208 and Honors Mathematics B

Note: Students who take MATH UN1205 may not receive credit for both MATH UN1201 and MATH UN1202.

Analysis requirement:
MATH UN2500 Analysis and Optimization
Select three of the following:
MATH UN1202 Calculus IV
MATH UN2030 Ordinary Differential Equations
Any mathematics course at the 3000-level or above

Statistics
Select one of the following sequences:
STAT GU4001 Introduction to Probability and Statistics
STAT GU4203 PROBABILITY THEORY and Statistical Inference

Economics Seminar
Select an economics seminar

NOTE:
1. Students who fulfill the statistics requirement with STAT GU4203 and STAT GU4204, may count STAT GU4203 or STAT GU4204 as one of the three required mathematics electives.
2. Students who choose the one year sequence (STAT GU4203/ STAT GU4204), must complete the year long sequence prior to taking ECON UN3412. Students receive elective credit for the probability course.

MAJOR IN ECONOMICS-PHILosophy

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

Economics-philosophy is an interdisciplinary major that introduces students to basic methodologies of economics and philosophy and stresses areas of particular concern to both, e.g. rationality and decision making, justice and efficiency, freedom and collective choice, logic of empirical theories and testing. Many issues are dealt with historically. Classic texts of Plato, Kant, Mill, Marx, and Smith are reviewed.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Philosophy has an assigned adviser with whom students may consult on philosophy requirements. The economics adviser can only advise on economics requirements; the philosophy adviser can only advise on philosophy requirements.

The economics-philosophy major requires a total of 53 points: 25 points in economics, 15 points in philosophy, 6 points in mathematics, 3 points in statistics, and 4 points in the interdisciplinary seminar as follows:

Economics Core Courses
ECON UN1105 Principles of Economics
ECON UN3211 Intermediate Microeconomics
ECON UN3213 Intermediate Macroeconomics
ECON UN3412 Introduction To Econometrics

Mathematics
Select a mathematics sequence

Statistics
Select a statistics course

Economics Electives
Three Electives are required; two must be selected from the below list, and the remaining elective may be any economics elective at the 3000-level or above.

ECON GU4020 Economics of Uncertainty and Information
ECON GU4211 Advanced Microeconomics
ECON GU4213 Advanced Macroeconomics
ECON GU4228 Urban Economics
ECON GU4230 Economics of New York City
ECON GU4235 HISTORICAL FOUNDATIONS OF MODERN ECONOMICS: Adam Smith to J M Keynes
ECON GU4301 Economic Growth and Development
ECON GU4370 Political Economy
ECON GU4400 Labor Economics
ECON GU4415 Game Theory
ECON GU4438 Economics of Race in the U.S.
ECON GU4465 Public Economics
ECON GU4480 Gender and Applied Economics
ECON GU4500 International Trade
ECON W4615 Law and Economics
ECON GU4625 Economics of the Environment or ECON BC3039 Environmental and Natural Resource Economics
ECON GU4750 Globalization and Its Risks
ECON GU4840 Behavioral Economics
ECON GU4850 Cognitive Mechanisms and Economic Behavior
ECON BC3011 Inequality and Poverty

Philosophy Courses
PHIL UN1010 Methods and Problems of Philosophical Thought
PHIL UN3411 Symbolic Logic
PHIL UN3701 Ethics
PHIL UN3551 Philosophy of Science
MAJOR IN ECONOMICS–POLITICAL SCIENCE

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

Political economy is an interdisciplinary major that introduces students to the methodologies of economics and political science and stresses areas of particular concern to both. This program is particularly beneficial to students planning to do graduate work in schools of public policy and international affairs.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Political Science has an assigned adviser with whom students may consult on political science requirements. The economics adviser can only advise on economics requirements; the political science adviser can only advise on political science requirements.

The economics–political science major requires a total of 57 points: 22 points in economics, 15 points in political science, 6 points in mathematics, 6 points in statistical methods, 4 points in a political science seminar, and 4 points in the interdisciplinary seminar as follows:

Economics Core Courses
ECON UN1105 Principles of Economics
ECON UN3211 Intermediate Microeconomics
ECON UN3213 Intermediate Macroeconomics
ECON GU4370 Political Economy

Mathematics
Select a mathematics sequence

Statistical Methods
STAT UN1201 Calculus-Based Introduction to Statistics

Select one of the following:
ECON UN3412 Introduction To Econometrics
POLS GU4712 Analysis of Political Data

Economics Electives
Select two electives (6 points) at the 3000-level or above

Political Science Courses

Students must choose a Primary Subfield and a Secondary Subfield to study. The subfields are as follows: American Politics (AP), Comparative Politics (CP), International Relations (IR), and Political Theory (PT).

Primary Subfield: Minimum three courses, one of which must be the subfield’s introductory course.

Secondary Subfield: Minimum two courses, one of which must be the subfield’s introductory course.

Seminars
Students must take the following two seminars:
ECPS GU4921 Seminar In Political Economy
and a Political Science Department seminar, in the student’s Primary Subfield. Please select one of the following: *
POLS UN3911 Seminar in Political Theory
or POLS UN3912 Seminar in Political Theory
POLS UN3921 Seminar in American Politics
or POLS UN3922 Seminar in American Politics
POLS UN3951 Seminar in Comparative Politics
or POLS UN3952 Seminar in Comparative Politics
POLS UN3961 International Politics Seminar
or POLS UN3962 Seminar in International Politics

* Students who wish to count toward the political science seminar requirement a course that is not in the above list of approved seminars must obtain permission from the political science Director of Undergraduate studies. Barnard colloquia can count for seminar credit only with the written permission of the Director of Undergraduate Studies. Note that admission to Barnard colloquia is by application to the Barnard political science department only.

MAJOR IN ECONOMICS–STATISTICS

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The major in economics-statistics provides students with a grounding in economic theory comparable to that provided by the general economics major, but also exposes students to a significantly more rigorous and extensive statistics training than is provided by the general major. This program is recommended for students with strong quantitative skills and for those contemplating graduate studies in economics.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Statistics has an assigned adviser with whom students may consult on statistics requirements. The economics adviser can only advise on economics requirements; the statistics adviser can only advise on statistics requirements.

The economics-statistics major requires a total of 59 points: 29 in economics, 15 points in statistics, 12 points in mathematics, 3 points in computer science as follows:

Economics Core Courses
ECON UN1105 Principles of Economics
ECON UN3211 Intermediate Microeconomics
ECON UN3213 Intermediate Macroeconomics
ECON GU4370 Political Economy

Mathematics
Select a mathematics sequence

Statistical Methods
STAT UN1201 Calculus-Based Introduction to Statistics

Select one of the following:
ECON UN3412 Introduction To Econometrics
POLS GU4712 Analysis of Political Data

Economics Electives
Select two electives (6 points) at the 3000-level or above

Political Science Courses

Students must choose a Primary Subfield and a Secondary Subfield to study. The subfields are as follows: American Politics (AP), Comparative Politics (CP), International Relations (IR), and Political Theory (PT).

Primary Subfield: Minimum three courses, one of which must be the subfield’s introductory course.

Secondary Subfield: Minimum two courses, one of which must be the subfield’s introductory course.

Seminars
Students must take the following two seminars:
ECPS GU4921 Seminar In Political Economy
and a Political Science Department seminar, in the student’s Primary Subfield. Please select one of the following: *
POLS UN3911 Seminar in Political Theory
or POLS UN3912 Seminar in Political Theory
POLS UN3921 Seminar in American Politics
or POLS UN3922 Seminar in American Politics
POLS UN3951 Seminar in Comparative Politics
or POLS UN3952 Seminar in Comparative Politics
POLS UN3961 International Politics Seminar
or POLS UN3962 Seminar in International Politics

* Students who wish to count toward the political science seminar requirement a course that is not in the above list of approved seminars must obtain permission from the political science Director of Undergraduate studies. Barnard colloquia can count for seminar credit only with the written permission of the Director of Undergraduate Studies. Note that admission to Barnard colloquia is by application to the Barnard political science department only.
# Economics Core Courses
All economics core courses

# Economics Electives
Select three electives at the 3000-level or above

# Mathematics
Select one of the following sequences:
- MATH UN1101 and Calculus I
- MATH UN1102 and Calculus II
- MATH UN1201 and Calculus III
- MATH UN2010 and Linear Algebra

- MATH UN1101 and Calculus I
- MATH UN1102 and Calculus II
- MATH UN1205 and Accelerated Multivariable Calculus
- MATH UN2010 and Linear Algebra

- MATH UN1207 and Honors Mathematics A
- MATH UN1208 and Honors Mathematics B

# Statistics
- STAT UN1201 and Calculus-Based Introduction to Statistics
- STAT GU4203 and PROBABILITY THEORY
- STAT GU4204 and Statistical Inference
- STAT GU4205 and Linear Regression Models

One elective in statistics from among courses numbered STAT GU 4206 through GU 4266.

# Computer Science
Select one of the following:
- COMS W1004 and Introduction to Computer Science and Programming in Java
- COMS W1005 and Introduction to Computer Science and Programming in MATLAB
- COMS W1007 and Honors Introduction to Computer Science
- ENGI E1006 and Introduction to Computing for Engineers and Applied Scientists
- STAT UN2102 and Applied Statistical Computing

# Economics Seminar
- ECON GU4918 and Seminar In Econometrics

---

**ECONOMICS - PHILOSOPHY**

**Departmental Office:** 1022 International Affairs Building; 212-854-3680  
http://www.columbia.edu/cu/economics/

**Director of Undergraduate Studies:** Dr. Susan Elmes, 1006 International Affairs Building; 212-854-9124; se5@columbia.edu

**Director of Departmental Honors Program:** Dr. Susan Elmes, 1006 International Affairs Building; 212-854-9124; se5@columbia.edu

Economics is the study of the ways in which society allocates its scarce resources among alternative uses and the consequences of these decisions. The areas of inquiry deal with a varied range of topics such as international trade, domestic and international financial systems, labor market analysis, and the study of less developed economies. Broadly speaking, the goal of an economics major is to train students to think analytically about social issues and, as such, provide a solid foundation for not only further study and careers in economics, but also for careers in law, public service, business, and related fields.

The Economics Department offers a general economics major in addition to five interdisciplinary majors structured to suit the interests and professional goals of a heterogeneous student body. All of these programs have different specific requirements but share the common structure of core theoretical courses that provide the foundation for higher-level elective courses culminating in a senior seminar. Students are urged to carefully look through the details of each of these programs and to contact an appropriate departmental adviser to discuss their particular interests.

**ADVANCED PLACEMENT**

Tests must be taken in both microeconomics and macroeconomics, with a score of 5 on one test and at least a 4 on the other. Provided that this is achieved, the department grants 4 credits for a score of 4 and 5 on the AP Economics exam along with exemption from ECON UN1105 *Principles of Economics*.

**ADVISING**

The Department of Economics offers a variety of advising resources to provide prospective and current undergraduate majors and concentrators with the information and support needed to successfully navigate through the program. These resources are described below.

**Frequently Asked Questions**

Please see: http://econ.columbia.edu/frequently-asked-questions-0

As a first step, students are encouraged to visit the department’s FAQ page, which provides comprehensive information and answers to the most frequently asked questions about the departmental majors and requirements. This page also includes a section that answers specific questions of first-years, sophomores, and non-majors.

**Graduate Student Advisers**

For answers to the most common questions that students have about the majors, the department has graduate student advisers, who are available by e-mail at econ-advising@columbia.edu, or during weekly office hours to meet with students.

Students should direct all questions and concerns about their major to the graduate student advisers either in person or
via e-mail. The graduate student advisers can discuss major requirements, scheduling, and major course selection, as well as review student checklists and discuss progress in the major. Occasionally, graduate student advisers may refer a student to someone else in the department (such as the director of undergraduate studies) or in the student’s school for additional advising.

Contact information and office hours for the graduate student advisers are posted on the Advisers page of the departmental website (http://www.columbia.edu/cu/economics) in the week prior to the beginning of the semester. Students considering one of the interdepartmental majors should speak to both a graduate student adviser from the Economics Department and the adviser from the other department early in the sophomore year.

Faculty Advisers
Faculty advisers are available to discuss students’ academic and career goals, both in terms of the undergraduate career and post-graduate degrees and research. Students wishing to discuss these types of substantive topics may request a faculty adviser by completing the form available on the Advisers page of the departmental website (http://www.columbia.edu/cu/economics) and depositing it in the mailbox of the director of undergraduate studies in the department’s main office, 1022 International Affairs Building.

The department does its best to match students with faculty members that share similar academic interests. While faculty advisers do not discuss major requirements—that is the role of the graduate student advisers—they do provide guidance in course selection as it relates to meeting a student’s intellectual goals and interests, as well as advise on career and research options. It is recommended that students who plan on attending a Ph.D. program in economics or are interested in pursuing economics research after graduation request a faculty adviser.

On-Line Information
Students can access useful information on-line, including: a comprehensive FAQ page; requirement changes to the major and concentration; sample programs and checklists; faculty office hours, contact information and fields of specialization; adviser information; teaching assistant information; research assistant opportunities; list of tutors; and Columbia-Barnard Economics Society information.

Departmental Honors
Economics majors and economics joint majors who wish to be considered for departmental honors in economics must:

1. Receive at least a 3.7 GPA in their major courses;
2. Take ECON GU4999 Senior Honors Thesis (a one-year course);
3. Receive at least a grade of A- in ECON GU4999 Senior Honors Thesis.

Students must consult and obtain the approval of the departmental undergraduate director in order to be admitted to the workshop. Please note that ECON GU4999 Senior Honors Thesis may be taken to fulfill the seminar requirement for the economics major and all economics joint majors. Students who wish to write a senior thesis (ECON GU4999 Senior Honors Thesis) must have completed the core major requirements. Normally no more than 10% of graduating majors receive departmental honors in a given academic year. Please see the Honors Prizes page on the department’s website for more information.

Undergraduate Prizes
All prize recipients are announced at the end of the spring semester each academic year.

The Dean’s Prize in Economics
Awarded to General Studies students for excellence in the study of Economics.

Romine Prize
Established in 1997, this prize is awarded annually to two students (Columbia College or General Studies) majoring in economics: one for the best honors thesis paper, and the other for the best economics seminar paper.

Parker Prize for Summer Research

Professors

• Profs. Dean, Riordan (Spring 2018)

GUIDELINES FOR ALL ECONOMICS MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS

Economics Core Courses
All of the core courses must be completed no later than the spring semester of the student’s junior year and must be taken at Columbia. Students who take any core course during the fall semester of their senior year must obtain written permission from the department’s director of undergraduate studies. Unless otherwise specified below, all students must complete the following core courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105</td>
<td>Principles of Economics</td>
</tr>
<tr>
<td>ECON UN3211</td>
<td>Intermediate Microeconomics</td>
</tr>
<tr>
<td>ECON UN3213</td>
<td>Intermediate Macroeconomics</td>
</tr>
<tr>
<td>ECON UN3412</td>
<td>Introduction To Econometrics</td>
</tr>
</tbody>
</table>

Prerequisites
Course prerequisites are strictly enforced. Prerequisites must be taken before the course, not after or concurrently.

Economics courses taken before the completion of any of its prerequisites, even with instructor approval, are not counted toward the major, concentration, or interdepartmental majors. Exemptions from a prerequisite requirement may only be made, in writing, by the department’s director of undergraduate studies. Credits from a course taken prior to the completion of its prerequisites are not counted towards the major requirements. As a consequence, students are required to complete additional, specific courses in economics at the direction of the director of undergraduate studies.

The prerequisites for required courses are as follows:
<table>
<thead>
<tr>
<th>Course</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105 Principles of Economics</td>
<td>None</td>
</tr>
<tr>
<td>MATH UN1101 Calculus I</td>
<td></td>
</tr>
<tr>
<td>STAT UN1201 Calculus-Based Introduction to Statistics</td>
<td></td>
</tr>
<tr>
<td>ECON UN3211 Intermediate Microeconomics</td>
<td>ECON UN1105 Principles of Economics</td>
</tr>
<tr>
<td>MATH UN1101 Calculus I</td>
<td></td>
</tr>
<tr>
<td>ECON UN3213 Intermediate Macroeconomics</td>
<td>ECON UN1105 Principles of Economics</td>
</tr>
<tr>
<td>MATH UN1101 Calculus I</td>
<td></td>
</tr>
<tr>
<td>ECON UN3213 Intermediate Macroeconomics</td>
<td>Co-requisite: MATH UN1201 Calculus III or UN1205</td>
</tr>
<tr>
<td>ECON UN1201 Calculus III or UN1205</td>
<td></td>
</tr>
<tr>
<td>ECON UN3412 Introduction to Econometrics</td>
<td>ECON UN1201 Calculus III or UN1205</td>
</tr>
<tr>
<td>MATH UN1201 Calculus III or UN1205</td>
<td></td>
</tr>
<tr>
<td>ECON 2000-level electives</td>

</tr>
</tbody>
</table>
Barnard electives  See Barnard bulletin

It is strongly recommended that students take ECON UN3412 Introduction To Econometrics in the semester immediately following the completion of the statistics course.

Grading
No course with a grade of D or lower, including calculus and statistics courses, can count toward the major, concentration, or interdepartmental majors. Economics core courses with a grade of D or F must be retaken and completed with a grade of C- or better.

Students who receive a grade of D or F in a core course are permitted to take a higher-level elective course that has that core course as a prerequisite, so long as it is taken concurrently with the retaking of that core course. For example, if a student fails ECON UN3211 Intermediate Microeconomics, the student must retake it and, in the same semester, may enroll in an elective course for which it is a prerequisite, provided that all other prerequisites for the elective have been completed. The same rule applies to the required math and statistics courses. For example, if a student fails MATH UN1201 Calculus III, the student may retake calculus III concurrently with Intermediate Microeconomics. Students who must retake any core economics or math course may not retake it concurrently with a senior seminar; the economics core courses ECON UN3211 Intermediate Microeconomics, ECON UN3213 Intermediate Macroeconomics, and ECON UN3412 Introduction To Econometrics must be successfully completed before a student may enroll in a seminar.

A grade of W is not equivalent to a grade of D or F; it does not qualify a student to retake the course concurrently with a higher level course that lists the course as a prerequisite. Students who receive a grade of W in a core course must complete the course with a grade of C- or better before taking a course that lists it as a prerequisite.

Only ECON UN1105 Principles of Economics may be taken for a grade of Pass/D/Fail, and the student must receive a grade of P for it to count towards the requirements for the major, concentration, or interdepartmental majors.

Economics Electives
Only those courses identified in the Economics Department listings in this Bulletin may be taken for elective credit. All 3000-level or higher electives offered by the Economics Department have ECON UN3211 Intermediate Microeconomics and ECON UN3213 Intermediate Macroeconomics as prerequisites. However, some electives have additional prerequisites and students should ensure that all prerequisites have been completed (see the table of prerequisites printed above). Seminars do not count as electives.

Seminars
Seminars can be taken only after all of the required core courses in economics have been completed. ECON UN3412 Introduction To Econometrics may not be taken or retaken concurrently with a senior seminar. Seminars do not count as electives. Each seminar is limited to sixteen students, with priority given to seniors. For ECPS GU4921 Seminar In Political Economy and ECPH GU4950 Economics and Philosophy Seminar, priority is given to economics–political science and economics-philosophy majors, respectively.

For seminar registration details, read the information posted on the department’s Senior Seminar Registration page: http://econ.columbia.edu/senior-seminars-registration.

Mathematics
Students must consult with the Mathematics Department for the appropriate placement in the calculus sequence. Students must complete one of the following sequences:

Select one of the following sequences:

<table>
<thead>
<tr>
<th>Sequence</th>
<th>Calculus I</th>
<th>Calculus II</th>
<th>Calculus III</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101 - MATH UN1201</td>
<td>Calculus I</td>
<td>and Calculus II</td>
<td>Calculus III</td>
</tr>
<tr>
<td>MATH UN1101 - MATH UN1205</td>
<td>Calculus I</td>
<td>and Accelerated Multivariable Calculus</td>
<td>Calculus III</td>
</tr>
<tr>
<td>MATH UN1207 - MATH UN1208</td>
<td>Honors Mathematics A</td>
<td>and Honors Mathematics B</td>
<td>Calculus III</td>
</tr>
</tbody>
</table>

In addition:

1. Students who receive a grade of D or F in MATH UN1201 Calculus I or MATH UN1205 must retake the course but may enroll in ECON UN3211 Intermediate Microeconomics.
2. Students who receive a grade of D or F in MATH UN1207 Honors Mathematics A may either retake the course, or take MATH UN1201 Calculus I or MATH UN1205, and enroll in ECON UN3211 Intermediate Microeconomics concurrently.

Statistics
Unless otherwise specified below, all students must take STAT UN1201 Calculus-Based Introduction to Statistics, or a higher level course, such as STAT GU4204 Statistical Inference, or SIEO S3001 Introduction to Probability and Statistics.

Barnard Courses
A limited number of Barnard economics electives may count toward the major, concentration, and interdepartmental majors. Students should pay careful attention to the limit of Barnard electives indicated in their program requirements. Please see the Transfer Credit section below for information on the number of Barnard electives that may be taken to fulfill major requirements. In addition, students may receive credit

175
for the major, concentration, and interdepartmental majors only for those Barnard economics courses listed in this Bulletin. However, students may not receive credit for two courses whose content overlaps. Barnard and Columbia economics electives with overlapping content include but are not limited to:

<table>
<thead>
<tr>
<th>Course Combination</th>
<th>Overlapping Course</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON BC3029 - ECON GU4321</td>
<td>Empirical Development Economics and Economic Development</td>
</tr>
<tr>
<td>ECON BC3038 - ECON GU4505</td>
<td>International Money and Finance and International Macroeconomics</td>
</tr>
<tr>
<td>ECON BC3019 - ECON GU4400</td>
<td>Labor Economics and Labor Economics</td>
</tr>
<tr>
<td>ECON BC3047 - ECON GU4500</td>
<td>International Trade and International Trade</td>
</tr>
<tr>
<td>ECON BC3039 - ECON GU4625</td>
<td>Environmental and Natural Resource Economics and Economics of the Environment</td>
</tr>
<tr>
<td>ECON BC3041 - ECON GU4235</td>
<td>Theoretical Foundations of Political Economy and HISTORICAL FOUNDATIONS OF MODERN ECONOMICS: Adam Smith to J M Keynes</td>
</tr>
<tr>
<td>ECON GU4400</td>
<td>Labor Economics</td>
</tr>
<tr>
<td>ECON GU4235</td>
<td>HISTORICAL FOUNDATIONS OF MODERN ECONOMICS: Adam Smith to J M Keynes</td>
</tr>
</tbody>
</table>

Students should always first consult with econ-advising to confirm that the Barnard elective they wish to take does not overlap with a Columbia elective that they have already taken or plan to take. Students may not take the Barnard core economics, math, statistics, or seminar courses for credit towards the completion of major requirements.

School of Professional Studies Courses

The Department of Economics does not accept any of the courses offered through the School of Professional Studies for credit towards the economics major, concentration, or interdepartmental majors with the exception of the courses offered by the Economics Department during the summer session at Columbia.

Other Department and School Courses

Please note that with the exception of the above Barnard courses and the specific courses listed below for the financial economics major, no other courses offered through the different departments and schools at Columbia count toward the economics majors or concentration.

Transfer Credits

Students are required to take a minimum number of courses in the Columbia Economics Department. For all majors and interdepartmental majors, students must complete a minimum of five lecture courses in the Columbia department. Students may fulfill their remaining requirements for economics lecture courses through AP (or IB or GCE) credits, Barnard electives, transfer courses, and study abroad courses (the latter two are subject to the approval of the Economics Department). The following table summarizes the new rules:

<table>
<thead>
<tr>
<th>Program</th>
<th>Number of required economics lecture courses</th>
<th>Minimum number which must be taken in the department</th>
<th>Maximum number of outside allowed</th>
</tr>
</thead>
<tbody>
<tr>
<td>Economics major</td>
<td>9</td>
<td>5</td>
<td>4</td>
</tr>
<tr>
<td>Financial economics</td>
<td>8</td>
<td>5</td>
<td>3</td>
</tr>
<tr>
<td>Economics-mathematics</td>
<td>7</td>
<td>5</td>
<td>2</td>
</tr>
<tr>
<td>Economics-political science</td>
<td>7</td>
<td>5</td>
<td>2</td>
</tr>
<tr>
<td>Economics-statistics</td>
<td>7</td>
<td>5</td>
<td>2</td>
</tr>
<tr>
<td>Economics-philosophy</td>
<td>7</td>
<td>5</td>
<td>2</td>
</tr>
<tr>
<td>Economics concentration</td>
<td>7</td>
<td>4</td>
<td>3</td>
</tr>
</tbody>
</table>

1. Lecture courses do not include seminars, which must be taken in the Columbia Economics Department. The lecture course counts are counts of economics courses only and do not include math, statistics, or courses in other departments;
2. At least two of the three 3000-level economics core courses must be taken in the department and no corresponding Barnard courses are accepted. ECON UN3025 Financial Economics and ECON UN3265 The Economics of Money and Banking are counted as departmental courses regardless of the instructor;
3. Outside courses include AP (or IB or GCE) credits, transfer credits, Barnard 2000- and 3000-level elective courses and transfer credits from other universities. In the case where two or more courses taken outside of Columbia are used as the equivalent of ECON UN1105 Principles of Economics, those courses are counted as one transfer course.

Approval of transfer credits to fulfill economics requirements must be obtained in writing from the Department of Economics (see the departmental website (http://www.columbia.edu/cu/economics) or speak with your advising...
Approval is granted only for courses that are considered to be comparable to those offered at Columbia.

Summer courses taken at other institutions must be approved in writing by the department’s transfer credit adviser before the course is taken. The department does not accept transfer credits for any 3000 level core courses taken during a summer session outside of Columbia University. Summer courses taken from the department of economics at Columbia University do not need approval.

Guidelines and instructions on how to request transfer credit approval can be found in the Transfer Credit Information page of the departmental website (http://www.columbia.edu/cu/economics).

## Major in Economics

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The economics major requires a minimum of 35 points in economics, 6 points in mathematics, and 3 points in statistics, for a total of 44 points as follows:

### Economics Core Courses
All economics core courses

### Mathematics
Select a mathematics sequence

### Statistics
Select a statistics course

### Economics Electives
Select at least five electives, of which no more than one may be taken at the 2000-level (including Barnard courses)

### Economics Seminar
Select one economics seminar course

## Concentration in Economics

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The economics concentration requires a minimum of 25 points in economics, 6 points in mathematics, and 3 points in statistics, for a total of 34 points as follows:

### Economics Core Courses
All economics core courses

### Mathematics
Select a mathematics sequence

### Statistics
Select a statistics course

### Economics Electives
Select at least three electives, of which no more than one may be taken at the 2000-level (including Barnard courses)

## Major in Financial Economics

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The Department of Economics offers the major in financial economics, which provides an academic framework to explore the role of financial markets and intermediaries in the allocation (and misallocation) of capital. Among the topics studied in financial economics are financial markets, banks and other financial intermediaries, asset valuation, portfolio allocation, regulation and corporate governance.

The financial economics major requires 26 points in economics, 6 points in mathematics, 3 points in statistics, 3 points in business, and 12 points from a list of selected courses for a total of 50 points as follows:

### Economics Core Courses
All economics core courses

### Finance Core Courses
- ECON UN3025 Financial Economics
- ECON GU280 Corporate Finance
- BUSI UN3013 Financial Accounting

*NOTE: The department considers BUSI UN3013 and IEOR E2261 as overlapping courses. Students who take both courses shall be credited with one course only.

Financial economics majors who are also in the Business Management concentration program (CNBUMG) must take an additional elective from either the financial economics prescribed elective list (below) or from the CNBUMG prescribed list.

### Mathematics
Select a mathematics sequence

### Statistics
Select a statistics course

### Electives
Select four of the following, of which two must be from the Columbia or Barnard economics departments, or equivalent economics transfer credits:
- ECON BC3014 Entrepreneurship
- ECON BC3017 Economics of Business Organization
- ECON UN3265 The Economics of Money and Banking
- ECON UN3952 Seminar in Macroeconomics and Formation of Expectations
- ECON GU4020 Economics of Uncertainty and Information
- ECON GU4213 Advanced Macroeconomics
- ECON GU4251 Industrial Organization
- ECON GU4260 Market Design
- ECON GU4412 Advanced Econometrics
- ECON GU4415 Game Theory
- ECON GU4465 Public Economics
ECON GU4500  International Trade
ECON GU4505  International Macroeconomics
or ECON BC3038  International Money and Finance
ECON G4526  Transition Reforms, Globalization and Financial Crisis
ECON GU4700  Financial Crises
ECON GU4710  Finance and the Real Economy
ECON GU4840  Behavioral Economics
ECON GU4850  Cognitive Mechanisms and Economic Behavior
ECON GU4860  Behavioral Finance
BIOT GU4180  
BUSI UN3021  Marketing Management
BUSI UN3701  Strategy Formulation
BUSI UN3702  Venturing to Change the World
BUSI UN3703  Leadership in Organizations
BUSI UN3704  Making History Through Venturing
COMS W1002  Computing in Context
HIST W2904  History of Finance
IEOR E3106  Introduction to Operations Research: Stochastic Models
IEOR E4700  Introduction to Financial Engineering
MATH UN3050  Discrete Time Models in Finance
POLS UN3630  Politics of International Economic Relations
STAT W3201  Math Finance in Continuous Time
STAT GU4261  Statistical Methods in Finance
STAT GU4207  Elementary Stochastic Processes
STAT GU4262  Stochastic Processes for Finance

Seminar
The seminar must be chosen from a list of seminars eligible for the financial economics major. The department indicates which seminars are eligible for the major on the Senior Seminars page of the departmental website.

Students must have completed at least one of ECON UN3025 or ECON GU4280 prior to taking their senior seminar.

* Students must complete the finance core no later than fall of their senior year.

**MAJOR IN ECONOMICS-MATHEMATICS**

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The major in economics and mathematics provides students with a grounding in economic theory comparable to that provided by the general economics major and exposes students to rigorous and extensive training in mathematics. The program is recommended for any student planning to do graduate work in economics.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Mathematics has an assigned adviser with whom students may consult on mathematics requirements. The economics adviser can only advise on economics requirements; the mathematics adviser can only advise on mathematics requirements.

The economics-mathematics major requires a total of 56 points: 29 points in economics and 27 points in mathematics and statistics as follows:

**Economics Core Courses**
All economics core courses

**Economics Electives**
Select three electives at the 3000-level or above

**Mathematics**
Select one of the following sequences:

- MATH UN1101  Calculus I
- MATH UN1102  and Calculus II
- MATH UN1201  and Calculus III
- MATH UN2010  and Linear Algebra

- MATH UN1101  Calculus I
- MATH UN1102  and Calculus II
- MATH UN1205  and Accelerated Multivariable
- MATH UN2010  Calculus and Linear Algebra

- MATH UN1207  Honors Mathematics A
- MATH UN1208  and Honors Mathematics B

Note: Students who take MATH UN1205 may not receive credit for both MATH UN1201 and MATH UN1202.

Analysis requirement:

- MATH UN2500  Analysis and Optimization

Select three of the following:

- MATH UN1202  Calculus IV
- MATH UN2030  Ordinary Differential Equations

Any mathematics course at the 3000-level or above

Note: Students who take MATH UN1205 will not receive credit for MATH UN1202.

**Statistics**
Select one of the following sequences:

- STAT GU4001  Introduction to Probability and Statistics
- STAT GU4203  PROBABILITY THEORY
- STAT GU4204  and Statistical Inference

**Economics Seminar**
Select an economics seminar

**NOTE:**

1. Students who fulfill the statistics requirement with STAT GU4203 and STAT GU4204, may count STAT GU4203 or STAT GU4204 as one of the three required mathematics electives.
2. Students who choose the one year sequence (STAT GU4203/STAT GU4204), must complete the year long sequence prior to taking ECON UN3412. Students receive elective credit for the probability course.

**MAJOR IN ECONOMICS-PHILOSOPHY**

Please read *Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors* above.

Economics-philosophy is an interdisciplinary major that introduces students to basic methodologies of economics and philosophy and stresses areas of particular concern to both, e.g., rationality and decision making, justice and efficiency, freedom and collective choice, logic of empirical theories and testing. Many issues are dealt with historically. Classic texts of Plato, Kant, Mill, Marx, and Smith are reviewed.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Philosophy has an assigned adviser with whom students may consult on philosophy requirements. The economics adviser can only advise on economics requirements; the philosophy adviser can only advise on philosophy requirements.

The economics-philosophy major requires a total of 53 points: 25 points in economics, 15 points in philosophy, 6 points in mathematics, 3 points in statistics, and 4 points in the interdisciplinary seminar as follows:

**Economics Core Courses**
- ECON UN1105 Principles of Economics
- ECON UN3211 Intermediate Microeconomics
- ECON UN3213 Intermediate Macroeconomics
- ECON UN3412 Introduction To Econometrics

**Mathematics**
Select a mathematics sequence

**Statistics**
Select a statistics course

**Economics Electives**
Three Electives are required; two must be selected from the below list, and the remaining elective may be any economics elective at the 3000-level or above.
- ECON GU4020 Economics of Uncertainty and Information
- ECON GU4211 Advanced Microeconomics
- ECON GU4213 Advanced Macroeconomics
- ECON GU4228 Urban Economics
- ECON GU4230 Economics of New York City
- ECON GU4235 HISTORICAL FOUNDATIONS OF MODERN ECONOMICS: Adam Smith to J M Keynes

**Philosophy Courses**
- PHIL UN1010 Methods and Problems of Philosophical Thought
- PHIL UN3411 Symbolic Logic
- PHIL UN3701 Ethics
- PHIL UN3551 Philosophy of Science
- PHIL GU4561 Probability and Decision Theory

**Seminar**
- ECPH GU4950 Economics and Philosophy Seminar

**MAJOR IN ECONOMICS–POLITICAL SCIENCE**

Please read *Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors* above.

Political economy is an interdisciplinary major that introduces students to the methodologies of economics and political science and stresses areas of particular concern to both. This program is particularly beneficial to students planning to do graduate work in schools of public policy and international affairs.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Political Science has an assigned adviser with whom students may consult on political science requirements. The economics adviser can only advise on economics requirements; the political science adviser can only advise on political science requirements.

The economics–political science major requires a total of 57 points: 22 points in economics, 15 points in political science, 6 points in mathematics, 6 points in statistical methods, 4 points in a political science seminar, and 4 points in the interdisciplinary seminar as follows:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON GU4301</td>
<td>Economic Growth and Development</td>
</tr>
<tr>
<td>ECON GU4370</td>
<td>Political Economy</td>
</tr>
<tr>
<td>ECON GU4400</td>
<td>Labor Economics</td>
</tr>
<tr>
<td>ECON GU4415</td>
<td>Game Theory</td>
</tr>
<tr>
<td>ECON GU4438</td>
<td>Economics of Race in the U.S.</td>
</tr>
<tr>
<td>ECON GU4465</td>
<td>Public Economics</td>
</tr>
<tr>
<td>ECON GU4500</td>
<td>International Trade</td>
</tr>
<tr>
<td>ECON W4615</td>
<td>Law and Economics</td>
</tr>
<tr>
<td>ECON GU4625</td>
<td>Economics of the Environment</td>

</tr>
</tbody>
</table>

**Seminar**
- ECPH GU4950 Economics and Philosophy Seminar
The political science courses are grouped into three areas, i.e. subfields: (1) American politics, (2) comparative politics, and (3) international relations. For the political science part of the major, students are required to select one area as a major subfield and one as a minor subfield. The corresponding introductory courses in both subfields must be taken, plus two electives in the major subfield, and one in the minor subfield.

**Economics Core Courses**
ECON UN1105  Principles of Economics  
ECON UN3211  Intermediate Microeconomics  
ECON UN3213  Intermediate Macroeconomics  
ECON GU4370  Political Economy

**Mathematics**
Select a mathematics sequence

**Statistical Methods**
STAT UN1201  Calculus-Based Introduction to Statistics  
Select one of the following:  
ECON UN3412  Introduction To Econometrics  
POLS GU4712  Analysis of Political Data

**Economics Electives**
Select two electives (6 points) at the 3000-level or above

**Political Science Courses**
Students must choose a Primary Subfield and a Secondary Subfield to study. The subfields are as follows: American Politics (AP), Comparative Politics (CP), International Relations (IR), and Political Theory (PT).  
- Primary Subfield: Minimum three courses, one of which must be the subfield’s introductory course.  
- Secondary Subfield: Minimum two courses, one of which must be the subfield’s introductory course.

**Seminars**
Students must take the following two seminars:  
ECPS GU4921  Seminar In Political Economy  
and a Political Science Department seminar, in the student’s Primary Subfield. Please select one of the following: *  
- POLS UN3911  Seminar in Political Theory  
or POLS UN3912  Seminar in Political Theory  
- POLS UN3921  Seminar in American Politics  
or POLS UN3922  Seminar in American Politics  
- POLS UN3951  Seminar in Comparative Politics  
or POLS UN3952  Seminar in Comparative Politics  
or POLS UN3961  International Politics Seminar  
or POLS UN3962  Seminar in International Politics  
* Students who wish to count toward the political science seminar requirement a course that is not in the above list of approved seminars must obtain permission from the political science Director of Undergraduate studies. Barnard colloquia can count for seminar credit only with the written permission of the Director of Undergraduate Studies. Note that admission to Barnard colloquia is by application to the Barnard political science department only.

**Major in Economics-Statistics**

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The major in economics-statistics provides students with a grounding in economic theory comparable to that provided by the general economics major, but also exposes students to a significantly more rigorous and extensive statistics training than is provided by the general major. This program is recommended for students with strong quantitative skills and for those contemplating graduate studies in economics.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Statistics has an assigned adviser with whom students may consult on statistics requirements. The economics adviser can only advise on economics requirements; the statistics adviser can only advise on statistics requirements.

The economics-statistics major requires a total of 59 points: 29 in economics, 15 points in statistics, 12 points in mathematics, 3 points in computer science as follows:

**Economics Core Courses**
All economics core courses

**Economics Electives**
Select three electives at the 3000-level or above

**Mathematics**
Select one of the following sequences:
MATH UN1101  Calculus I  
- MATH UN1102  and Calculus II  
- MATH UN1201  and Calculus III  
- MATH UN2010  and Linear Algebra  
MATH UN1101  Calculus I  
- MATH UN1102  and Calculus II  
- MATH UN1205  and Accelerated Multivariable  
- MATH UN2010  Calculus  
and Linear Algebra  
MATH UN1207  Honors Mathematics A  
- MATH UN1208  and Honors Mathematics B

**Statistics**
STAT UN1201  Calculus-Based Introduction to Statistics  
STAT GU4203  PROBABILITY THEORY  
STAT GU4204  Statistical Inference  
STAT GU4205  Linear Regression Models  
One elective in statistics from among courses numbered STAT GU 4206 through GU 4266.

**Computer Science**
Select one of the following:
COMS W1004  Introduction to Computer Science and Programming in Java  
COMS W1005  Introduction to Computer Science and Programming in MATLAB
ECONOMICS - POLITICAL SCIENCE

Departmental Office: 1022 International Affairs Building; 212-854-3680
http://www.columbia.edu/cu/economics/

Director of Undergraduate Studies: Dr. Susan Elmes, 1006 International Affairs Building; 212-854-9124; se5@columbia.edu

Director of Departmental Honors Program: Dr. Susan Elmes, 1006 International Affairs Building; 212-854-9124; se5@columbia.edu

Economics is the study of the ways in which society allocates its scarce resources among alternative uses and the consequences of these decisions. The areas of inquiry deal with a varied range of topics such as international trade, domestic and international financial systems, labor market analysis, and the study of less developed economies. Broadly speaking, the goal of an economics major is to train students to think analytically about social issues and, as such, provide a solid foundation for not only further study and careers in economics, but also for careers in law, public service, business, and related fields.

The Economics Department offers a general economics major in addition to five interdisciplinary majors structured to suit the interests and professional goals of a heterogeneous student body. All of these programs have different specific requirements but share the common structure of core theoretical courses that provide the foundation for higher-level elective courses culminating in a senior seminar. Students are urged to carefully look through the details of each of these programs and to contact an appropriate departmental adviser to discuss their particular interests.

ADVANCED PLACEMENT

Tests must be taken in both microeconomics and macroeconomics, with a score of 5 on one test and at least a 4 on the other. Provided that this is achieved, the department grants 4 credits for a score of 4 and 5 on the AP Economics exam along with exemption from ECON UN1105 Principles of Economics.

ADVISING

The Department of Economics offers a variety of advising resources to provide prospective and current undergraduate majors and concentrators with the information and support needed to successfully navigate through the program. These resources are described below.

Frequently Asked Questions

Please see: http://econ.columbia.edu/frequently-asked-questions-0

As a first step, students are encouraged to visit the department’s FAQ page, which provides comprehensive information and answers to the most frequently asked questions about the departmental majors and requirements. This page also includes a section that answers specific questions of first-years, sophomores, and non-majors.

Graduate Student Advisers

For answers to the most common questions that students have about the majors, the department has graduate student advisers, who are available by e-mail at econ-advising@columbia.edu, or during weekly office hours to meet with students.

Students should direct all questions and concerns about their major to the graduate student advisers either in person or via e-mail. The graduate student advisers can discuss major requirements, scheduling, and major course selection, as well as review student checklists and discuss progress in the major. Occasionally, graduate student advisers may refer a student to someone else in the department (such as the director of undergraduate studies) or in the student’s school for additional advising.

Contact information and office hours for the graduate student advisers are posted on the Advisers page of the departmental website (http://www.columbia.edu/cu/economics) in the week prior to the beginning of the semester. Students considering one of the interdepartmental majors should speak to both a graduate student adviser from the Economics Department and the adviser from the other department early in the sophomore year.

Faculty Advisers

Faculty advisers are available to discuss students’ academic and career goals, both in terms of the undergraduate career and post-graduate degrees and research. Students wishing to discuss these types of substantive topics may request a faculty adviser by completing the form available on the Advisers page of the departmental website (http://www.columbia.edu/cu/economics) and depositing it in the mailbox of the director of undergraduate studies in the department’s main office, 1022 International Affairs Building.

The department does its best to match students with faculty members that share similar academic interests. While faculty
advisers do not discuss major requirements—that is the role of the graduate student advisers—they do provide guidance in course selection as it relates to meeting a student’s intellectual goals and interests, as well as advise on career and research options. It is recommended that students who plan on attending a Ph.D. program in economics or are interested in pursuing economics research after graduation request a faculty adviser.

**ON-LINE INFORMATION**

Students can access useful information on-line, including: a comprehensive FAQ page; requirement changes to the major and concentration; sample programs and checklists; faculty office hours, contact information and fields of specialization; adviser information; teaching assistant information; research assistant opportunities; list of tutors; and Columbia-Barnard Economics Society information.

**DEPARTMENTAL HONORS**

Economics majors and economics joint majors who wish to be considered for departmental honors in economics must:

1. Have at least a 3.7 GPA in their major courses;
2. Take ECON GU4999 Senior Honors Thesis (a one-year course);
3. Receive at least a grade of A- in ECON GU4999 Senior Honors Thesis.

Students must consult and obtain the approval of the departmental undergraduate director in order to be admitted to the workshop. Please note that ECON GU4999 Senior Honors Thesis may be taken to fulfill the seminar requirement for the economics major and all economics joint majors. Students who wish to write a senior thesis (ECON GU4999 Senior Honors Thesis) must have completed the core major requirements. Normally no more than 10% of graduating majors receive departmental honors in a given academic year. Please see the Honors Prizes page on the department’s website for more information.

**UNDERGRADUATE PRIZES**

All prize recipients are announced at the end of the spring semester each academic year.

**The Dean’s Prize in Economics**

Awarded to General Studies students for excellence in the study of Economics.

**Romine Prize**

Established in 1997, this prize is awarded annually to two students (Columbia College or General Studies) majoring in economics: one for the best honors thesis paper, and the other for the best economics seminar paper.

**Parker Prize for Summer Research**

**PROFESSORS**

- Douglas Almond (also School of International and Public Affairs)
- Jushan Bai
- Jagdish N. Bhagwati
- Patrick Bolton (also Business School)
- André Burgstaller (Barnard)
- Alessandra Casella
- Yeon-Koo Che
- Pierre-André Chiappori

• Profs. Dean, Riordan (Spring 2018)

GUIDELINES FOR ALL ECONOMICS MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS

Economics Core Courses
All of the core courses must be completed no later than the spring semester of the student’s junior year and must be taken at Columbia. Students who take any core course during the fall semester of their senior year must obtain written permission from the department’s director of undergraduate studies. Unless otherwise specified below, all students must complete the following core courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105</td>
<td>Principles of Economics</td>
</tr>
<tr>
<td>ECON UN3211</td>
<td>Intermediate Microeconomics</td>
</tr>
<tr>
<td>ECON UN3213</td>
<td>Intermediate Macroeconomics</td>
</tr>
<tr>
<td>ECON UN3412</td>
<td>Introduction To Econometrics</td>
</tr>
</tbody>
</table>

Prerequisites
Course prerequisites are strictly enforced. Prerequisites must be taken before the course, not after or concurrently.

Economics courses taken before the completion of any of its prerequisites, even with instructor approval, are not counted toward the major, concentration, or interdepartmental majors. Exemptions from a prerequisite requirement may only be made, in writing, by the department’s director of undergraduate studies. Credits from a course taken prior to the completion of its prerequisites are not counted towards the major requirements. As a consequence, students are required to complete additional, specific courses in economics at the direction of the director of undergraduate studies.

The prerequisites for required courses are as follows:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105</td>
<td>Principles of Economics</td>
<td>None</td>
</tr>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
<td>MATH UN1101 Calculus I</td>
</tr>
<tr>
<td>STAT UN1201</td>
<td>Calculus-Based Introduction to Statistics</td>
<td>MATH UN1101 Calculus I</td>
</tr>
<tr>
<td>ECON UN3211</td>
<td>Intermediate Microeconomics</td>
<td>ECON UN1105 Principles of Economics</td>
</tr>
<tr>
<td>ECON UN3213</td>
<td>Intermediate Macroeconomics</td>
<td>ECON UN1105 Principles of Economics</td>
</tr>
<tr>
<td>ECON UN3412</td>
<td>Introduction To Econometrics</td>
<td>MATH UN1201 Calculus III or UN1205</td>
</tr>
<tr>
<td>ECON 2000-level electives</td>
<td></td>
<td>ECON UN1105 Principles of Economics</td>
</tr>
</tbody>
</table>
ECON GU4211 Advanced Microeconomics

ECON UN3211 Intermediate Microeconomics
ECON UN3213 Intermediate Macroeconomics

Corequisites:

ECON GU4918 Seminar In Econometrics

STAT UN1201 Calculus-Based Introduction to Statistics

ECON GU4860 Behavioral Finance

ECON UN3211 Intermediate Microeconomics
ECON UN3213 Intermediate Macroeconomics
ECON UN3412 Introduction To Econometrics

Barnard electives

It is strongly recommended that students take ECON UN3412 Introduction To Econometrics in the semester immediately following the completion of the statistics course.

Grading

No course with a grade of D or lower, including calculus and statistics courses, can count toward the major, concentration, or interdepartmental majors. Economics core courses with a grade of D or F must be retaken and completed with a grade of C- or better.

Students who receive a grade of D or F in a core course are permitted to take a higher-level elective course that has that core course as a prerequisite, so long as it is taken concurrently with the retaking of that core course. For example, if a student fails ECON UN3211 Intermediate Microeconomics, the student must retake it and, in the same semester, may enroll in an elective course for which it is a prerequisite, provided that all other prerequisites for the elective have been completed. The same rule applies to the required math and statistics courses. For example, if a student fails MATH UN1201 Calculus III, the student may retake calculus III concurrently with Intermediate Microeconomics.

Students who must retake any core economics or math course may not retake it concurrently with a senior seminar; the economics core courses ECON UN3211 Intermediate
Microeconomics, ECON UN3213 Intermediate Macroeconomics, and ECON UN3412 Introduction To Econometrics must be successfully completed before a student may enroll in a seminar.

A grade of W is not equivalent to a grade of D or F; it does not qualify a student to retake the course concurrently with a higher level course that lists the course as a prerequisite. Students who receive a grade of W in a core course must complete the course with a grade of C- or better before taking a course that lists it as a prerequisite.

Only ECON UN1105 Principles of Economics may be taken for a grade of Pass/D/Fail, and the student must receive a grade of P for it to count towards the requirements for the major, concentration, or interdepartmental majors.

Economics Electives

Only those courses identified in the Economics Department listings in this Bulletin may be taken for elective credit. All 3000-level or higher electives offered by the Economics Department have ECON UN3211 Intermediate Microeconomics and ECON UN3213 Intermediate Macroeconomics as prerequisites. However, some electives have additional prerequisites and students should ensure that all prerequisites have been completed (see the table of prerequisites printed above). Seminars do not count as electives.

Seminars

Seminars can be taken only after all of the required core courses in economics have been completed. ECON UN3412 Introduction To Econometrics may not be taken or retaken concurrently with a senior seminar. Seminars do not count as electives. Each seminar is limited to sixteen students, with priority given to seniors. For ECPS GU4921 Seminar In Political Economy and ECPH GU4950 Economics and Philosophy Seminar, priority is given to economics–political science and economics-philosophy majors, respectively.

For seminar registration details, read the information posted on the department’s Senior Seminar Registration page: http://econ.columbia.edu/senior-seminars-registration.

Mathematics

Students must consult with the Mathematics Department for the appropriate placement in the calculus sequence. Students must complete one of the following sequences:

Select one of the following sequences:

<table>
<thead>
<tr>
<th>Course Sequence</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101 - MATH UN1201</td>
<td>Calculus I and Calculus III</td>
</tr>
<tr>
<td>MATH UN1101 - MATH UN1205</td>
<td>Calculus I and Accelerated Multivariable Calculus</td>
</tr>
<tr>
<td>MATH UN1207 - MATH UN1208</td>
<td>Honors Mathematics A and Honors Mathematics B</td>
</tr>
<tr>
<td>ECON GU4321</td>
<td>Empirical Development Economics and Economic Development</td>
</tr>
<tr>
<td>ECON BC3038 - ECON GU4505</td>
<td>International Money and Finance and International Macroeconomics</td>
</tr>
<tr>
<td>ECON BC3019 - ECON GU4400</td>
<td>Labor Economics and Labor Economics</td>
</tr>
<tr>
<td>ECON BC3047 - ECON GU5000</td>
<td>International Trade and International Trade</td>
</tr>
<tr>
<td>ECON BC3039 - ECON GU4625</td>
<td>Environmental and Natural Resource Economics and Economics of the Environment</td>
</tr>
<tr>
<td>ECON BC3041 - ECON GU4235</td>
<td>Theoretical Foundations of Political Economy and HISTORICAL FOUNDATIONS OF MODERN ECONOMICS: Adam Smith to J M Keynes</td>
</tr>
<tr>
<td>ECON GU4400</td>
<td>Labor Economics</td>
</tr>
</tbody>
</table>

In addition:

1. Students who receive a grade of D or F in MATH UN1201 Calculus III or MATH UN1205 must retake the course but may enroll in ECON UN3211 Intermediate Microeconomics.
2. Students who receive a grade of D or F in MATH UN1207 Honors Mathematics A may either retake the course, or take MATH UN1201 Calculus III or MATH UN1205, and enroll in ECON UN3211 Intermediate Microeconomics concurrently.

Statistics

Unless otherwise specified below, all students must take STAT UN1201 Calculus-Based Introduction to Statistics, or a higher level course, such as STAT GU4204 Statistical Inference, or SIEO S3001 Introduction to Probability and Statistics.

Barnard Courses

A limited number of Barnard economics electives may count toward the major, concentration, and interdepartmental majors. Students should pay careful attention to the limit of Barnard electives indicated in their program requirements. Please see the Transfer Credit section below for information on the number of Barnard electives that may be taken to fulfill major requirements. In addition, students may receive credit for the major, concentration, and interdepartmental majors only for those Barnard economics courses listed in this Bulletin. However, students may not receive credit for two courses whose content overlaps. Barnard and Columbia economics electives with overlapping content include but are not limited to:

<table>
<thead>
<tr>
<th>Course Sequence</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON BC3029 - ECON GU4321</td>
<td>Empirical Development Economics and Economic Development</td>
</tr>
<tr>
<td>ECON BC3038 - ECON GU4505</td>
<td>International Money and Finance and International Macroeconomics</td>
</tr>
<tr>
<td>ECON BC3019 - ECON GU4400</td>
<td>Labor Economics and Labor Economics</td>
</tr>
<tr>
<td>ECON BC3047 - ECON GU5000</td>
<td>International Trade and International Trade</td>
</tr>
<tr>
<td>ECON BC3039 - ECON GU4625</td>
<td>Environmental and Natural Resource Economics and Economics of the Environment</td>
</tr>
<tr>
<td>ECON BC3041 - ECON GU4235</td>
<td>Theoretical Foundations of Political Economy and HISTORICAL FOUNDATIONS OF MODERN ECONOMICS: Adam Smith to J M Keynes</td>
</tr>
<tr>
<td>ECON GU4400</td>
<td>Labor Economics</td>
</tr>
</tbody>
</table>
Students should always first consult with econ-advising to confirm that the Barnard elective they wish to take does not overlap with a Columbia elective that they have already taken or plan to take. Students may not take the Barnard core economics, math, statistics, or seminar courses for credit towards the completion of major requirements.

School of Professional Studies Courses

The Department of Economics does not accept any of the courses offered through the School of Professional Studies for credit towards the economics major, concentration, or interdepartmental majors with the exception of the courses offered by the Economics Department during the summer session at Columbia.

Other Department and School Courses

Please note that with the exception of the above Barnard courses and the specific courses listed below for the financial economics major, no other courses offered through the different departments and schools at Columbia count toward the economics majors or concentration.

Transfer Credits

Students are required to take a minimum number of courses in the Columbia Economics Department. For all majors and interdepartmental majors, students must complete a minimum of five lecture courses in the Columbia department. Students may fulfill their remaining requirements for economics lecture courses through AP (or IB or GCE) credits, Barnard electives, transfer courses, and study abroad courses (the latter two are subject to the approval of the Economics Department). The following table summarizes the new rules:

<table>
<thead>
<tr>
<th>Program</th>
<th>Number of required economics lecture courses</th>
<th>Minimum number which must be of outside taken in the department</th>
<th>Maximum number allowed</th>
</tr>
</thead>
<tbody>
<tr>
<td>Economics major</td>
<td>9</td>
<td>5</td>
<td>4</td>
</tr>
<tr>
<td>Financial economics</td>
<td>8</td>
<td>5</td>
<td>3</td>
</tr>
<tr>
<td>Economics-mathematics</td>
<td>7</td>
<td>5</td>
<td>2</td>
</tr>
<tr>
<td>Economics-political science</td>
<td>7</td>
<td>5</td>
<td>2</td>
</tr>
<tr>
<td>Economics-statistics</td>
<td>7</td>
<td>5</td>
<td>2</td>
</tr>
</tbody>
</table>

1. Lecture courses do not include seminars, which must be taken in the Columbia Economics Department. The lecture course counts are counts of economics courses only and do not include math, statistics, or courses in other departments;
2. At least two of the three 3000-level economics core courses must be taken in the department and no corresponding Barnard courses are accepted. ECON UN3025 Financial Economics and ECON UN3265 The Economics of Money and Banking are counted as departmental courses regardless of the instructor;
3. Outside courses include AP (or IB or GCE) credits, transfer credits, Barnard 2000- and 3000-level elective courses and transfer credits from other universities. In the case where two or more courses taken outside of Columbia are used as the equivalent of ECON UN1105 Principles of Economics, those courses are counted as one transfer course.

Approval of transfer credits to fulfill economics requirements must be obtained in writing from the Department of Economics (see the departmental website (http://www.columbia.edu/cu/economics) or speak with your advising dean for information regarding applications for transfer credit). Approval is granted only for courses that are considered to be comparable to those offered at Columbia.

Summer courses taken at other institutions must be approved in writing by the department’s transfer credit adviser before the course is taken. The department does not accept transfer credits for any 3000 level core courses taken during a summer session outside of Columbia University. Summer courses taken from the department of economics at Columbia University do not need approval.

Guidelines and instructions on how to request transfer credit approval can be found in the Transfer Credit Information page of the departmental website (http://www.columbia.edu/cu/economics).

Major in Economics

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The economics major requires a minimum of 35 points in economics, 6 points in mathematics, and 3 points in statistics, for a total of 44 points as follows:

Economics Core Courses
All economics core courses

Mathematics
Select a mathematics sequence
Statistics
Select a statistics course
Economics Electives
Select at least five electives, of which no more than one may be taken at the 2000-level (including Barnard courses)
Economics Seminar
Select one economics seminar course

**CONCENTRATION IN ECONOMICS**

Please read *Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors* above.

The economics concentration requires a minimum of 25 points in economics, 6 points in mathematics, and 3 points in statistics, for a total of 34 points as follows:

**Economics Core Courses**
All economics core courses

**Mathematics**
Select a mathematics sequence

**Statistics**
Select a statistics course

**Economics Electives**
Select at least three electives, of which no more than one may be taken at the 2000-level (including Barnard courses)

---

**MAJOR IN FINANCIAL ECONOMICS**

Please read *Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors* above.

The Department of Economics offers the major in financial economics, which provides an academic framework to explore the role of financial markets and intermediaries in the allocation (and misallocation) of capital. Among the topics studied in financial economics are financial markets, banks and other financial intermediaries, asset valuation, portfolio allocation, regulation and corporate governance.

The financial economics major requires 26 points in economics, 6 points in mathematics, 3 points in statistics, 3 points in business, and 12 points from a list of selected courses for a total of 50 points as follows:

**Economics Core Courses**
All economics core courses

**Finance Core Courses**
- ECON UN3025 Financial Economics
- ECON GU4280 Corporate Finance
- BUSI UN3013 Financial Accounting

**Electives**
Select four of the following, of which two must be from the Columbia or Barnard economics departments, or equivalent economics transfer credits:
- ECON BC3014 Entrepreneurship
- ECON BC3017 Economics of Business Organization
- ECON UN3265 The Economics of Money and Banking
- ECON UN3952 Seminar in Macroeconomics and Formation of Expectations
- ECON GU4020 Economics of Uncertainty and Information
- ECON GU4213 Advanced Macroeconomics
- ECON GU4251 Industrial Organization
- ECON GU4260 Market Design
- ECON GU4412 Advanced Econometrics
- ECON GU4415 Game Theory
- ECON GU4465 Public Economics
- ECON GU4500 International Trade
- ECON GU4505 International Macroeconomics or ECON BC3038 International Money and Finance
- ECON G4526 Transition Reforms, Globalization and Financial Crisis
- ECON GU4700 Financial Crises
- ECON GU4710 Finance and the Real Economy
- ECON GU4840 Behavioral Economics
- ECON GU4850 Cognitive Mechanisms and Economic Behavior
- ECON GU4860 Behavioral Finance
- BIOT GU4180
- BUSI UN3021 Marketing Management
- BUSI UN3701 Strategy Formulation
- BUSI UN3702 Venturing to Change the World
- BUSI UN3703 Leadership in Organizations
- BUSI UN3704 Making History Through Venturing
- COMS W1002 Computing in Context
- HIST W2904 History of Finance
- IEOR E3106 Introduction to Operations Research: Stochastic Models
- IEOR E4700 Introduction to Financial Engineering

*NOTE: The department considers BUSI UN3013 and IEOR E2261 as overlapping courses. Students who take both courses shall be credited with one course only. Financial economics majors who are also in the Business Management concentration program (CNBUMG) must take an additional elective from either the financial economics prescribed elective list (below) or from the CNBUMG prescribed list.*
MATH UN3050 Discrete Time Models in Finance
POLS UN3630 Politics of International Economic Relations
STAT W3201 Math Finance in Continuous Time
STAT GU4261 Statistical Methods in Finance
STAT GU4207 Elementary Stochastic Processes
STAT GU4262 Stochastic Processes for Finance

Seminar
The seminar must be chosen from a list of seminars eligible for the financial economics major. The department indicates which seminars are eligible for the major on the Senior Seminars page of the departmental website.

Students must have completed at least one of ECON UN3025 or ECON GU4280 prior to taking their senior seminar.

* Students must complete the finance core no later than fall of their senior year.

**MAJOR IN ECONOMICS-MATHEMATICS**

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The major in economics and mathematics provides students with a grounding in economic theory comparable to that provided by the general economics major and exposes students to rigorous and extensive training in mathematics. The program is recommended for any student planning to do graduate work in economics.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Mathematics has an assigned adviser with whom students may consult on mathematics requirements. The economics adviser can only advise on economics requirements; the mathematics adviser can only advise on mathematics requirements.

The economics-mathematics major requires a total of 56 points: 29 points in economics and 27 points in mathematics and statistics as follows:

**Economics Core Courses**

All economics core courses

**Economics Electives**

Select three electives at the 3000-level or above

**Mathematics**

Select one of the following sequences:

| MATH UN1101 | Calculus I |
| - MATH UN1102 | and Calculus II |
| - MATH UN1205 | and Accelerated Multivariable |
| - MATH UN2010 | Calculus and Linear Algebra |

| MATH UN1207 | Honors Mathematics A |
| - MATH UN1208 | and Honors Mathematics B |

Note: Students who take MATH UN1205 may not receive credit for both MATH UN1201 and MATH UN1202.

Analysis requirement:

| MATH UN2500 | Analysis and Optimization |

Select three of the following:

| MATH UN1202 | Calculus IV |
| MATH UN2030 | Ordinary Differential Equations |

Any mathematics course at the 3000-level or above

Note: Students who take MATH UN1205 will not receive credit for MATH UN1202.

**Statistics**

Select one of the following sequences:

| STAT GU4001 | Introduction to Probability and Statistics |
| STAT GU4203 | PROBABILITY THEORY |
| - STAT GU4204 | and Statistical Inference |

**Economics Seminar**

Select an economics seminar

**NOTE:**

1. Students who fulfill the statistics requirement with STAT GU4203 and STAT GU4204, may count STAT GU4203 or STAT GU4204 as one of the three required mathematics electives.
2. Students who choose the one year sequence (STAT GU4203/ STAT GU4204), must complete the year long sequence prior to taking ECON UN3412. Students receive elective credit for the probability course.

**MAJOR IN ECONOMICS-PHILOSOPHY**

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

Economics-philosophy is an interdisciplinary major that introduces students to basic methodologies of economics and philosophy and stresses areas of particular concern to both, e.g. rationality and decision making, justice and efficiency, freedom and collective choice, logic of empirical theories and testing. Many issues are dealt with historically. Classic texts of Plato, Kant, Mill, Marx, and Smith are reviewed.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Philosophy has an assigned adviser with whom students may consult on philosophy requirements. The economics adviser can only advise on economics requirements;
the philosophy adviser can only advise on philosophy requirements.

The economics-philosophy major requires a total of 53 points: 25 points in economics, 15 points in philosophy, 6 points in mathematics, 3 points in statistics, and 4 points in the interdisciplinary seminar as follows:

**Economics Core Courses**
- ECON UN1105 Principles of Economics
- ECON UN3211 Intermediate Microeconomics
- ECON UN3213 Intermediate Macroeconomics
- ECON UN3412 Introduction To Econometrics

**Mathematics**
Select a mathematics sequence

**Statistics**
Select a statistics course

**Economics Electives**
Three Electives are required; two must be selected from the below list, and the remaining elective may be any economics elective at the 3000-level or above.

- ECON GU4020 Economics of Uncertainty and Information
- ECON GU4211 Advanced Microeconomics
- ECON GU4213 Advanced Macroeconomics
- ECON GU4228 Urban Economics
- ECON GU4230 Economics of New York City
- ECON GU4235 HISTORICAL FOUNDATIONS OF MODERN ECONOMICS: Adam Smith to J M Keynes

The philosophy adviser can only advise on philosophy requirements.

**Political Economy**

**Mathematics**
Select a mathematics sequence

**Statistical Methods**
Select one of the following:
- ECON UN3412 Introduction To Econometrics
- POLS GU4712 Analysis of Political Data

**Economics Electives**
Select two electives (6 points) at the 3000-level or above

**Political Science Courses**
Students must choose a Primary Subfield and a Secondary Subfield to study. The subfields are as follows: American Politics (AP), Comparative Politics (CP), International Relations (IR), and Political Theory (PT).

Primary Subfield: Minimum three courses, one of which must be the subfield’s introductory course.

Secondary Subfield: Minimum two courses, one of which must be the subfield’s introductory course.

Seminars

Students must take the following two seminars:

ECPS GU4921 Seminar In Political Economy

and a Political Science Department seminar, in the student’s Primary Subfield. Please select one of the following: *

- POLS UN3911 Seminar in Political Theory
- POLS UN3912 Seminar in Political Theory
- POLS UN3921 Seminar in American Politics
- POLS UN3922 Seminar in American Politics
- POLS UN3951 Seminar in Comparative Politics
- POLS UN3952 Seminar in Comparative Politics
- POLS UN3961 International Politics Seminar
- POLS UN3962 Seminar in International Politics

• Students who wish to count toward the political science seminar requirement a course that is not in the above list of approved seminars must obtain permission from the political science Director of Undergraduate studies. Barnard colloquia can count for seminar credit only with the written permission of the Director of Undergraduate Studies. Note that admission to Barnard colloquia is by application to the Barnard political science department only.

MAJOR IN ECONOMICS–STATISTICS

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The major in economics-statistics provides students with a grounding in economic theory comparable to that provided by the general economics major, but also exposes students to a significantly more rigorous and extensive statistics training than is provided by the general major. This program is recommended for students with strong quantitative skills and for those contemplating graduate studies in economics.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Statistics has an assigned adviser with whom students may consult on statistics requirements. The economics adviser can only advise on economics requirements; the statistics adviser can only advise on statistics requirements.

The economics-statistics major requires a total of 59 points: 29 in economics, 15 points in statistics, 12 points in mathematics, 3 points in computer science as follows:

Economics Core Courses

All economics core courses

Economics Electives

Select three electives at the 3000-level or above

Mathematics

Select one of the following sequences:

- MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1201 and Calculus III
- MATH UN2010 and Linear Algebra

- MATH UN1101
- MATH UN1102 and Calculus II
- MATH UN1205 and Accelerated Multivariable
- MATH UN2010 Calculus and Linear Algebra

- MATH UN1207 Honors Mathematics A
- MATH UN1208 Honors Mathematics B

Statistics

- STAT UN1201 Calculus-Based Introduction to Statistics
- STAT GU4203 PROBABILITY THEORY
- STAT GU4204 Statistical Inference
- STAT GU4205 Linear Regression Models

One elective in statistics from among courses numbered STAT GU 4206 through GU 4266.

Computer Science

Select one of the following:

- COMS W1004 Introduction to Computer Science and Programming in Java
- COMS W1005 Introduction to Computer Science and Programming in MATLAB
- COMS W1007 Honors Introduction to Computer Science
- ENGI E1006 Introduction to Computing for Engineers and Applied Scientists
- STAT UN2102 Applied Statistical Computing

Economics Seminar

ECON GU4918 Seminar In Econometrics

ECONOMICS - STATISTICS

Departmental Office: 1022 International Affairs Building; 212-854-3680
http://www.columbia.edu/cu/economics/

Director of Undergraduate Studies: Dr. Susan Elmes, 1006 International Affairs Building; 212-854-9124; se5@columbia.edu

Director of Departmental Honors Program: Dr. Susan Elmes, 1006 International Affairs Building; 212-854-9124; se5@columbia.edu
Economics is the study of the ways in which society allocates its scarce resources among alternative uses and the consequences of these decisions. The areas of inquiry deal with a varied range of topics such as international trade, domestic and international financial systems, labor market analysis, and the study of less developed economies. Broadly speaking, the goal of an economics major is to train students to think analytically about social issues and, as such, provide a solid foundation for not only further study and careers in economics, but also for careers in law, public service, business, and related fields.

The Economics Department offers a general economics major in addition to five interdisciplinary majors structured to suit the interests and professional goals of a heterogeneous student body. All of these programs have different specific requirements but share the common structure of core theoretical courses that provide the foundation for higher-level elective courses culminating in a senior seminar. Students are urged to carefully look through the details of each of these programs and to contact an appropriate departmental adviser to discuss their particular interests.

**ADVANCED PLACEMENT**

Tests must be taken in both microeconomics and macroeconomics, with a score of 5 on one test and at least a 4 on the other. Provided that this is achieved, the department grants 4 credits for a score of 4 and 5 on the AP Economics exam along with exemption from ECON UN1105 Principles of Economics.

**ADvising**

The Department of Economics offers a variety of advising resources to provide prospective and current undergraduate majors and concentrators with the information and support needed to successfully navigate through the program. These resources are described below.

**Frequently Asked Questions**

Please see: http://econ.columbia.edu/frequently-asked-questions-0

As a first step, students are encouraged to visit the department’s FAQ page, which provides comprehensive information and answers to the most frequently asked questions about the departmental majors and requirements. This page also includes a section that answers specific questions of first-years, sophomores, and non-majors.

**Graduate Student Advisers**

For answers to the most common questions that students have about the majors, the department has graduate student advisers, who are available by e-mail at econ-advising@columbia.edu, or during weekly office hours to meet with students.

Students should direct all questions and concerns about their major to the graduate student advisers either in person or via e-mail. The graduate student advisers can discuss major requirements, scheduling, and major course selection, as well as review student checklists and discuss progress in the major. Occasionally, graduate student advisers may refer a student to someone else in the department (such as the director of undergraduate studies) or in the student’s school for additional advising.

Contact information and office hours for the graduate student advisers are posted on the Advisers page of the departmental website (http://www.columbia.edu/cu/economics) in the week prior to the beginning of the semester. Students considering one of the interdepartmental majors should speak to both a graduate student adviser from the Economics Department and the adviser from the other department early in the sophomore year.

**Faculty Advisers**

Faculty advisers are available to discuss students’ academic and career goals, both in terms of the undergraduate career and post-graduate degrees and research. Students wishing to discuss these types of substantive topics may request a faculty adviser by completing the form available on the Advisers page of the departmental website (http://www.columbia.edu/cu/economics) and depositing it in the mailbox of the director of undergraduate studies in the department’s main office, 1022 International Affairs Building.

The department does its best to match students with faculty members that share similar academic interests. While faculty advisers do not discuss major requirements—that is the role of the graduate student advisers—they do provide guidance in course selection as it relates to meeting a student’s intellectual goals and interests, as well as advise on career and research options. It is recommended that students who plan on attending a Ph.D. program in economics or are interested in pursuing economics research after graduation request a faculty adviser.

**On-Line Information**

Students can access useful information on-line, including: a comprehensive FAQ page; requirement changes to the major and concentration; sample programs and checklists; faculty office hours, contact information and fields of specialization; adviser information; teaching assistant information; research assistant opportunities; list of tutors; and Columbia-Barnard Economics Society information.

**Departmental Honors**

Economics majors and economics joint majors who wish to be considered for departmental honors in economics must:

1. Have at least a 3.7 GPA in their major courses;
2. Take ECON GU4999 Senior Honors Thesis (a one-year course);
3. Receive at least a grade of A- in ECON GU4999 Senior Honors Thesis.

Students must consult and obtain the approval of the departmental undergraduate director in order to be admitted to the workshop. Please note that ECON GU4999 Senior Honors Thesis may be taken to fulfill the seminar requirement for the economics major and all economics joint majors. Students who wish to write a senior thesis (ECON GU4999 Senior Honors Thesis) must have completed the core major requirements. Normally no more than 10% of graduating majors receive departmental honors in a given academic year. Please see the Honors Prizes page on the department’s website for more information.

**UNDERGRADUATE PRIZES**

All prize recipients are announced at the end of the spring semester each academic year.

**The Dean’s Prize in Economics**

Awarded to General Studies students for excellence in the study of Economics.

**Romine Prize**

Established in 1997, this prize is awarded annually to two students (Columbia College or General Studies) majoring in economics: one for the best honors thesis paper, and the other for the best economics seminar paper.

**Parker Prize for Summer Research**

**PROFESSORS**

- Douglas Almond (also School of International and Public Affairs)
  - Jushan Bai
- Jagdish N. Bhagwati
- Patrick Bolton (also Business School)
- André Burgstaller (Barnard)
- Alessandra Casella
- Yeon-Koo Che
- Pierre-André Chiappori
- Graciela Chichilnisky
- Richard Clarida
- Donald Davis (Chair)
- Padma Desai (emerita)
- Prajit Dutta
- Harrison Hong
- Glenn Hubbard (also Business School)
- Navin Kartik
- Wojciech Kopczuk (also School of International and Public Affairs)
- Sokbae (Simon) Lee
- W. Bentley McLeod (also School of International and Public Affairs)
- Perry Mehrling (Barnard)
- Robert Mundell (emeritus)
  - Emi Nakamura (also Business School)
- Serena Ng
- Brendan O’Flaherty
- Edmund S. Phelps
- Michael Riordan
- Jeffrey Sachs (also Earth Institute)
- Xavier Sala-i-Martin
- Bernard Salanié
- José A. Scheinkman
- Stephanie Schmitt-Grohé
- Rajiv Sethi (Barnard)
  - Jón Steinsson
- Joseph Stiglitz (also Business School)
- Martín Uribe
- Miguel Urquiola (also School of International and Public Affairs)
  - Eric Verhoogen (also School of International and Public Affairs)
- David Weiman (Barnard)
- David Weinstein
- Michael Woodford

**ASSOCIATE PROFESSORS**

- Lena Edlund
- Katherine Ho
- Qingmin Liu

**ASSISTANT PROFESSORS**

- Hassam Afrouzi
  - Michael Best
  - Gregory Cox
  - Mark Dean
- Andres Drenik
- Francois Gerard
- Matthieu Gomez
- Reka Juhasz
- Supreet Kaur
- Jennifer La’O
- Suresh Naidu

ON LEAVE
• Profs. Casella, Dutta, Gerard, O’Flaherty (2017-2018)
• Profs. Clarida, Davis, Hong (Fall 2017)
• Profs. Dean, Riordan (Spring 2018)

GUIDELINES FOR ALL ECONOMICS MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS

Economics Core Courses
All of the core courses must be completed no later than the spring semester of the student’s junior year and must be taken at Columbia. Students who take any core course during the fall semester of their senior year must obtain written permission from the department’s director of undergraduate studies. Unless otherwise specified below, all students must complete the following core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105 Principles of Economics</td>
<td>None</td>
</tr>
<tr>
<td>MATH UN1101 Calculus I</td>
<td></td>
</tr>
<tr>
<td>STAT UN1201 Calculus-Based Introduction to Statistics</td>
<td>MATH UN1101 Calculus I</td>
</tr>
<tr>
<td>ECON UN3211 Intermediate Microeconomics</td>
<td>ECON UN1105 Principles of Economics</td>
</tr>
<tr>
<td>MATH UN1201 Calculus III or UN1205</td>
<td></td>
</tr>
<tr>
<td>ECON UN3213 Intermediate Macroeconomics</td>
<td>ECON UN1105 Principles of Economics</td>
</tr>
<tr>
<td>MATH UN1101 Calculus I Co-requisite: MATH UN1201 Calculus III or UN1205</td>
<td></td>
</tr>
<tr>
<td>ECON UN3412 Introduction To Econometrics</td>
<td>MATH UN1201 Calculus III or UN1205</td>
</tr>
<tr>
<td>ECON UN3412 Advanced Microeconomics</td>
<td>ECON UN3211 Intermediate Microeconomics</td>
</tr>
<tr>
<td>MATH UN2010 Linear Algebra</td>
<td></td>
</tr>
<tr>
<td>ECON GU4211 Advanced Macroeconomics</td>
<td>ECON UN3213 Intermediate Macroeconomics</td>
</tr>
<tr>

</tr>
<tr>
<td>ECON GU4413 Econometrics of Time Series and Forecasting</td>
<td>ECON UN3213 Intermediate Macroeconomics</td>
</tr>
<tr>
<td>MATH UN2010 Linear Algebra</td>
<td></td>
</tr>
</tbody>
</table>

Prerequisites
Course prerequisites are strictly enforced. Prerequisites must be taken before the course, not after or concurrently.

Economics courses taken before the completion of any of its prerequisites, even with instructor approval, are not counted toward the major, concentration, or interdepartmental majors. Exemptions from a prerequisite requirement may only be made, in writing, by the department’s director of undergraduate studies. Credits from a course taken prior to the completion of its prerequisites are not counted towards the major requirements. As a consequence, students are required to complete additional, specific courses in economics at the direction of the director of undergraduate studies.

The prerequisites for required courses are as follows:
It is strongly recommended that students take ECON UN3412 Introduction To Econometrics in the semester immediately following the completion of the statistics course.

Grading

No course with a grade of D or lower, including calculus and statistics courses, can count toward the major, concentration, or interdepartmental majors. Economics core courses with a grade of D or F must be retaken and completed with a grade of C- or better.

Students who receive a grade of D or F in a core course are permitted to take a higher-level elective course that has that core course as a prerequisite, so long as it is taken concurrently with the retaking of that core course. For example, if a student fails ECON UN3211 Intermediate Microeconomics, the student must retake it and, in the same semester, may enroll in an elective course for which it is a prerequisite, provided that all other prerequisites for the elective have been completed. The same rule applies to the required math and statistics courses. For example, if a student fails MATH UN1201 Calculus III, the student may retake calculus III concurrently with Intermediate Microeconomics. Students who must retake any core economics or math course may not retake it concurrently with a senior seminar; the economics core courses ECON UN3211 Intermediate Microeconomics, ECON UN3213 Intermediate Macroeconomics, and ECON UN3412 Introduction To Econometrics must be successfully completed before a student may enroll in a seminar.

A grade of W is not equivalent to a grade of D or F; it does not qualify a student to retake the course concurrently with a higher level course that lists the course as a prerequisite. Students who receive a grade of W in a core course must complete the course with a grade of C- or better before taking a course that lists it as a prerequisite.

Only ECON UN1105 Principles of Economics may be taken for a grade of Pass/D/Fail, and the student must receive a grade of P for it to count towards the requirements for the major, concentration, or interdepartmental majors.

Economics Electives

Only those courses identified in the Economics Department listings in this Bulletin may be taken for elective credit. All 3000-level or higher electives offered by the Economics Department have ECON UN3211 Intermediate Microeconomics and ECON UN3213 Intermediate Macroeconomics as prerequisites. However, some electives have additional prerequisites and students should ensure that all prerequisites have been completed (see the table of prerequisites printed above). Seminars do not count as electives.
Seminars
Seminars can be taken only after all of the required core courses in economics have been completed. ECON UN3412 Introduction To Econometrics may not be taken or retaken concurrently with a senior seminar. Seminars do not count as electives. Each seminar is limited to sixteen students, with priority given to seniors. For ECPS GU4921 Seminar In Political Economy and ECPH GU4950 Economics and Philosophy Seminar, priority is given to economics–political science and economics-philosophy majors, respectively.

For seminar registration details, read the information posted on the department’s Senior Seminar Registration page: http://econ.columbia.edu/senior-seminars-registration.

Mathematics
Students must consult with the Mathematics Department for the appropriate placement in the calculus sequence. Students must complete one of the following sequences:

Select one of the following sequences:

| MATH UN1101 | Calculus I |
| MATH UN1201 | and Calculus III |
| MATH UN1101 | Calculus I |
| MATH UN1205 | and Accelerated Multivariable Calculus |
| MATH UN1207 | Honors Mathematics A |
| MATH UN1208 | and Honors Mathematics B |

In addition:

1. Students who receive a grade of D or F in MATH UN1201 Calculus III or MATH UN1205 must retake the course but may enroll in ECON UN3211 Intermediate Microeconomics.
2. Students who receive a grade of D or F in MATH UN1207 Honors Mathematics A may either retake the course, or take MATH UN1201 Calculus III or MATH UN1205, and enroll in ECON UN3211 Intermediate Microeconomics concurrently.

Statistics
Unless otherwise specified below, all students must take STAT UN1201 Calculus-Based Introduction to Statistics, or a higher level course, such as STAT GU4204 Statistical Inference, or SIEO S3001 Introduction to Probability and Statistics.

Barnard Courses
A limited number of Barnard economics electives may count toward the major, concentration, and interdepartmental majors. Students should pay careful attention to the limit of Barnard electives indicated in their program requirements. Please see the Transfer Credit section below for information on the number of Barnard electives that may be taken to fulfill major requirements. In addition, students may receive credit for the major, concentration, and interdepartmental majors only for those Barnard economics courses listed in this Bulletin. However, students may not receive credit for two courses whose content overlaps. Barnard and Columbia economics electives with overlapping content include but are not limited to:

| ECON BC3029 | Empirical Development Economics |
| ECON BC3038 | International Money and Finance and International Macroeconomics |
| ECON BC3019 | Labor Economics |
| ECON BC3047 | International Trade and International Trade |
| ECON BC3039 | Environmental and Natural Resource Economics and Economics of the Environment |
| ECON BC3041 | Theoretical Foundations of Political Economy and HISTORICAL FOUNDATIONS OF MODERN ECONOMICS: Adam Smith to J M Keynes |
| ECON GU4400 | Labor Economics |
| ECON GU4235 | HISTORICAL FOUNDATIONS OF MODERN ECONOMICS: Adam Smith to J M Keynes |

Students should always first consult with econ-advising to confirm that the Barnard elective they wish to take does not overlap with a Columbia elective that they have already taken or plan to take. Students may not take the Barnard core economics, math, statistics, or seminar courses for credit towards the completion of major requirements.

School of Professional Studies Courses
The Department of Economics does not accept any of the courses offered through the School of Professional Studies for credit towards the economics major, concentration, or interdepartmental majors with the exception of the courses offered by the Economics Department during the summer session at Columbia.

Other Department and School Courses
Please note that with the exception of the above Barnard courses and the specific courses listed below for the financial economics major, no other courses offered through the different departments and schools at Columbia count toward the economics majors or concentration.
Transfer Credits

Students are required to take a minimum number of courses in the Columbia Economics Department. For all majors and interdepartmental majors, students must complete a minimum of five lecture courses in the Columbia department. Students may fulfill their remaining requirements for economics lecture courses through AP (or IB or GCE) credits, Barnard electives, transfer courses, and study abroad courses (the latter two are subject to the approval of the Economics Department). The following table summarizes the new rules:

<table>
<thead>
<tr>
<th>Program</th>
<th>Number of required economics lecture courses</th>
<th>Minimum number which must be of outside taken in the department</th>
<th>Maximum number allowed</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

1. **Lecture courses** do not include seminars, which must be taken in the Columbia Economics Department. The lecture course counts are counts of economics courses only and do not include math, statistics, or courses in other departments;

2. At least two of the three 3000-level economics core courses must be taken in the department and no corresponding Barnard courses are accepted. ECON UN3025 Financial Economics and ECON UN3265 The Economics of Money and Banking are counted as departmental courses regardless of the instructor;

3. **Outside courses** include AP (or IB or GCE) credits, transfer credits, Barnard 2000- and 3000-level elective courses and transfer credits from other universities. In the case where two or more courses taken outside of Columbia are used as the equivalent of ECON UN1105 Principles of Economics, those courses are counted as one transfer course.

Approval of transfer credits to fulfill economics requirements must be obtained in writing from the Department of Economics (see the departmental website (http://www.columbia.edu/cu/economics) or speak with your advising dean for information regarding applications for transfer credit). Approval is granted only for courses that are considered to be comparable to those offered at Columbia.

Summer courses taken at other institutions must be approved in writing by the department’s transfer credit adviser before the course is taken. The department does not accept transfer credits for any 3000 level core courses taken during a summer session outside of Columbia University. Summer courses taken from the department of economics at Columbia University do not need approval.

Guidelines and instructions on how to request transfer credit approval can be found in the Transfer Credit Information page of the departmental website (http://www.columbia.edu/cu/economics).

### Major in Economics

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The economics major requires a minimum of 35 points in economics, 6 points in mathematics, and 3 points in statistics, for a total of 44 points as follows:

**Economics Core Courses**

All economics core courses

**Mathematics**

Select a mathematics sequence

**Statistics**

Select a statistics course

**Economics Electives**

Select at least five electives, of which no more than one may be taken at the 2000-level (including Barnard courses)

**Economics Seminar**

Select one economics seminar course

### Concentration in Economics

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The economics concentration requires a minimum of 25 points in economics, 6 points in mathematics, and 3 points in statistics, for a total of 34 points as follows:

**Economics Core Courses**

All economics core courses

**Mathematics**

Select a mathematics sequence

**Statistics**

Select a statistics course

**Economics Electives**

Select at least three electives, of which no more than one may be taken at the 2000-level (including Barnard courses)
**MAJOR IN FINANCIAL ECONOMICS**

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The Department of Economics offers the major in financial economics, which provides an academic framework to explore the role of financial markets and intermediaries in the allocation (and misallocation) of capital. Among the topics studied in financial economics are financial markets, banks and other financial intermediaries, asset valuation, portfolio allocation, regulation and corporate governance.

The financial economics major requires 26 points in economics, 6 points in mathematics, 3 points in statistics, 3 points in business, and 12 points from a list of selected courses for a total of 50 points as follows:

**Economics Core Courses**
All economics core courses

**Finance Core Courses**
- ECON UN3025 Financial Economics
- ECON GU4280 Corporate Finance
- BUSI UN3013 Financial Accounting

*NOTE: The department considers BUSI UN3013 and IEOR E2261 as overlapping courses. Students who take both courses shall be credited with one course only. Financial economics majors who are also in the Business Management concentration program (CNBUMG) must take an additional elective from either the financial economics prescribed elective list (below) or from the CNBUMG prescribed list.

**Mathematics**
Select a mathematics sequence

**Statistics**
Select a statistics course

**Electives**
Select four of the following, of which two must be from the Columbia or Barnard economics departments, or equivalent economics transfer credits:

- ECON BC3014 Entrepreneurship
- ECON BC3017 Economics of Business Organization
- ECON UN3265 The Economics of Money and Banking
- ECON UN3952 Seminar in Macroeconomics and Formation of Expectations
- ECON GU4020 Economics of Uncertainty and Information
- ECON GU4213 Advanced Macroeconomics
- ECON GU4251 Industrial Organization
- ECON GU4260 Market Design
- ECON GU4412 Advanced Econometrics
- ECON GU4415 Game Theory
- ECON GU4465 Public Economics

- ECON GU4500 International Trade
- ECON GU4505 International Macroeconomics or ECON BC3038 International Money and Finance
- ECON G4526 Transition Reforms, Globalization and Financial Crisis
- ECON GU4700 Financial Crises
- ECON GU4710 Finance and the Real Economy
- ECON GU4840 Behavioral Economics
- ECON GU4850 Cognitive Mechanisms and Economic Behavior
- ECON GU4860 Behavioral Finance
- BIOT GU4180
- BUSI UN3021 Marketing Management
- BUSI UN3701 Strategy Formulation
- BUSI UN3702 Venturing to Change the World
- BUSI UN3703 Leadership in Organizations
- BUSI UN3704 Making History Through Venturing
- COMS W1002 Computing in Context
- HIST W2904 History of Finance
- IEOR E3106 Introduction to Operations Research: Stochastic Models
- IEOR E4700 Introduction to Financial Engineering
- MATH UN3050 Discrete Time Models in Finance
- POLS UN3630 Politics of International Economic Relations
- STAT W3201 Math Finance in Continuous Time
- STAT GU4261 Statistical Methods in Finance
- STAT GU4207 Elementary Stochastic Processes
- STAT GU4262 Stochastic Processes for Finance

The seminar must be chosen from a list of seminars eligible for the financial economics major. The department indicates which seminars are eligible for the major on the Senior Seminars page of the departmental website.

Students must have completed at least one of ECON UN3025 or ECON GU4280 prior to taking their senior seminar.

* Students must complete the finance core no later than fall of their senior year.

**MAJOR IN ECONOMICS-MATHEMATICS**

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The major in economics and mathematics provides students with a grounding in economic theory comparable to that provided by the general economics major and exposes students to rigorous and extensive training in mathematics. The
program is recommended for any student planning to do graduate work in economics.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Mathematics has an assigned adviser with whom students may consult on mathematics requirements. The economics adviser can only advise on economics requirements; the mathematics adviser can only advise on mathematics requirements.

The economics-mathematics major requires a total of 56 points: 29 points in economics and 27 points in mathematics and statistics as follows:

**Economics Core Courses**
- All economics core courses

**Economics Electives**
- Select three electives at the 3000-level or above

**Mathematics**
- Select one of the following sequences:
  - MATH UN1101 and Calculus I
  - MATH UN1102 and Calculus II
  - MATH UN1201 and Calculus III
  - MATH UN2010 and Linear Algebra

- MATH UN1101 and Calculus I
- MATH UN1102 and Calculus II
- MATH UN1205 and Accelerated Multivariable Calculus
- MATH UN2010 and Linear Algebra

- MATH UN1207 and Honors Mathematics A
- MATH UN1208 and Honors Mathematics B

**Statistics**
- Select one of the following sequences:
  - STAT GU4001 and Introduction to Probability and Statistics
  - STAT GU4203 and PROBABILITY THEORY
  - STAT GU4204 and Statistical Inference

**Economics Seminar**
- Select an economics seminar

**NOTE:**
1. Students who fulfill the statistics requirement with STAT GU4203 and STAT GU4204, may count STAT GU4203 or STAT GU4204 as one of the three required mathematics electives.
2. Students who choose the one year sequence (STAT GU4203/ STAT GU4204), must complete the year long sequence prior to taking ECON UN3412. Students receive elective credit for the probability course.

---

**MAJOR IN ECONOMICS-PHILOSOPHY**

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

Economics-philosophy is an interdisciplinary major that introduces students to basic methodologies of economics and philosophy and stresses areas of particular concern to both, e.g. rationality and decision making, justice and efficiency, freedom and collective choice, logic of empirical theories and testing. Many issues are dealt with historically. Classic texts of Plato, Kant, Mill, Marx, and Smith are reviewed.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Philosophy has an assigned adviser with whom students may consult on philosophy requirements. The economics adviser can only advise on economics requirements; the philosophy adviser can only advise on philosophy requirements.

The economics-philosophy major requires a total of 53 points: 25 points in economics, 15 points in philosophy, 6 points in mathematics, 3 points in statistics, and 4 points in the interdisciplinary seminar as follows:

**Economics Core Courses**
- ECON UN1105 Principles of Economics
- ECON UN3211 Intermediate Microeconomics
- ECON UN3213 Intermediate Macroeconomics
- ECON UN3412 Introduction To Econometrics

**Mathematics**
- Select a mathematics sequence

**Statistics**
- Select a statistics course

**Economics Electives**
- Three Electives are required; two must be selected from the below list, and the remaining elective may be any economics elective at the 3000-level or above.
  - ECON GU4020 Economics of Uncertainty and Information
  - ECON GU4211 Advanced Microeconomics
  - ECON GU4213 Advanced Macroeconomics
  - ECON GU4228 Urban Economics
  - ECON GU4230 Economics of New York City
  - ECON GU4235 HISTORICAL FOUNDATIONS OF MODERN ECONOMICS: Adam Smith to J M Keynes
The political science courses are grouped into three areas, i.e. subfields: (1) American politics, (2) comparative politics, and (3) international relations. For the political science part of the major, students are required to select one area as a major subfield and one as a minor subfield. The corresponding introductory courses in both subfields must be taken, plus two electives in the major subfield, and one in the minor subfield.

### Economics Core Courses
<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105</td>
<td>Principles of Economics</td>
</tr>
<tr>
<td>ECON UN3211</td>
<td>Intermediate Microeconomics</td>
</tr>
<tr>
<td>ECON UN3213</td>
<td>Intermediate Macroeconomics</td>
</tr>
<tr>
<td>ECON GU4370</td>
<td>Political Economy</td>
</tr>
</tbody>
</table>

### Mathematics
Select a mathematics sequence

### Statistical Methods
Select one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN3412</td>
<td>Introduction To Econometrics</td>
</tr>
<tr>
<td>POLS GU4712</td>
<td>Analysis of Political Data</td>
</tr>
</tbody>
</table>

### Economics Electives
Select two electives (6 points) at the 3000-level or above

### Political Science Courses
Students must choose a Primary Subfield and a Secondary Subfield to study. The subfields are as follows: American Politics (AP), Comparative Politics (CP), International Relations (IR), and Political Theory (PT).

#### Primary Subfield:
Minimum three courses, one of which must be the subfield’s introductory course.

#### Secondary Subfield:
Minimum two courses, one of which must be the subfield’s introductory course.

### Seminars
Students must take the following two seminars:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECPS GU4921</td>
<td>Seminar In Political Economy</td>
</tr>
</tbody>
</table>

and a Political Science Department seminar, in the student’s Primary Subfield. Please select one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLS UN3911</td>
<td>Seminar in Political Theory</td>
</tr>
<tr>
<td>or POLS UN3912</td>
<td>Seminar in Political Theory</td>
</tr>
<tr>
<td>POLS UN3921</td>
<td>Seminar in American Politics</td>
</tr>
<tr>
<td>or POLS UN3922</td>
<td>Seminar in American Politics</td>
</tr>
<tr>
<td>POLS UN3951</td>
<td>Seminar in Comparative Politics</td>
</tr>
<tr>
<td>or POLS UN3952</td>
<td>Seminar in Comparative Politics</td>
</tr>
<tr>
<td>POLS UN3961</td>
<td>International Politics Seminar</td>
</tr>
<tr>
<td>or POLS UN3962</td>
<td>Seminar in International Politics</td>
</tr>
</tbody>
</table>

### Additional Information
- Students who wish to count toward the political science seminar requirement a course that is not in the above list of approved seminars must obtain permission from the political science Director of Undergraduate studies. Barnard colloquia can count for seminar credit only with the written permission of the Director of Undergraduate Studies. Note that admission to Barnard colloquia is by application to the Barnard political science department only.
MAJOR IN ECONOMICS-STATISTICS

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The major in economics-statistics provides students with a grounding in economic theory comparable to that provided by the general economics major, but also exposes students to a significantly more rigorous and extensive statistics training than is provided by the general major. This program is recommended for students with strong quantitative skills and for those contemplating graduate studies in economics.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Statistics has an assigned adviser with whom students may consult on statistics requirements. The economics adviser can only advise on economics requirements; the statistics adviser can only advise on statistics requirements.

The economics-statistics major requires a total of 59 points: 29 in economics, 15 points in statistics, 12 points in mathematics, 3 points in computer science as follows:

Economics Core Courses
All economics core courses

Economics Electives
Select three electives at the 3000-level or above

Mathematics
Select one of the following sequences:

MATH UN1101 - MATH UN1102 - MATH UN1201 - MATH UN2010
Calculus I and Calculus II and Calculus III and Linear Algebra

MATH UN1101 - MATH UN1102 - MATH UN1205 - MATH UN2010
Calculus II and Accelerated Multivariable Calculus and Linear Algebra

MATH UN1207 - MATH UN1208
Honors Mathematics A and Honors Mathematics B

Statistics

STAT UN1201 - STAT GU4203 - STAT GU4204 - STAT GU4205
Calculation-Based Introduction to Statistics, Probability Theory, Statistical Inference, Linear Regression Models

One elective in statistics from among courses numbered STAT GU 4206 through GU 4266.

Computer Science

Select one of the following:

COMS W1004 - COMS W1005
Introduction to Computer Science and Programming in Java, Introduction to Computer Science and Programming in MATLAB

EDUCATION*

*Education is offered exclusively as a concentration.

The Barnard Education Program is committed to strengthening public education and addressing issues of equity and social justice, particularly in urban schools. We offer three tracks in Education: Urban Teaching-Elementary/Childhood Education, Urban Teaching-Secondary/Adolescent Education, and Education Studies. In these tracks, students develop a critical lens for looking at the issues facing public schooling and consider ways to promote fair and inclusive policies and practices for all children in our public system. The program is open to all undergraduates at Columbia (BC, SEAS, GS, CC) who are interested in becoming certified teachers, working with young people in human service agencies, or preparing for careers related to education.

Urban Teaching Minors/Special Concentrations: Our goal is to prepare students to become skilled and reflective teachers who can effectively respond to the learning needs of diverse learners, and create supportive and intellectually stimulating classroom communities. Students learn to create innovative curriculum; gain experience observing, tutoring, and teaching a diverse range of children and young people; develop confidence in their role as teachers who can promote fair and inclusive school practices; and graduate with certification to teach in New York. (Note: we are part of an interstate agreement for reciprocal certification with many other states.)

This program is registered by the New York State Department of Education and accredited by the Teacher Education Accreditation Council (TEAC), now the Council for the Accreditation of Education Preparation (CAEP). These tracks prepare students to obtain a teaching position as a certified teacher upon graduation and/or to pursue graduate studies in education, public policy, sociology, youth studies, and other related fields.

Education Studies Minor/Special Concentration: This track prepares students to pursue graduate studies or positions in public policy, sociology, history, youth studies, philosophy, psychology, and other areas where K-12 education is frequently a focus of coursework and scholarship. Students learn to think deeply and knowledgeably about the manner in which schools
socialize as well as educate citizens, and examine how the interests of different stakeholders are privileged or neglected. The courses are linked by a focus on educational inequality and youth studies. This track does not lead to certification.

All three tracks are minors (BC) or special concentrations (CC, GS, SEAS) and are intended to complement a major’s disciplinary specialization and methodological training. In addition to the requirements of the minor/special concentration, students must complete a major.

Student Learning Outcomes
1. Knowledge of Self: Students investigate how educational experiences in and out of school affect their vision for teaching and learning, use that knowledge to reflect upon and critique their practice, and set goals for continuing growth as equitable, multicultural educators.

2. Knowledge of Students: Students understand the importance of getting to know the children and youth in their classrooms; develop specific strategies that aid in understanding students’ needs, capacities, interests, funds of knowledge, and social identities; and construct learning experiences that are responsive and relevant to their students.

3. Knowledge of Content: Students develop knowledge and skills to critique the social, political, cultural, and historical forces that construct traditional content knowledge and design academic content that is dynamic, inquiry-based, and encompasses multiple literacies, and cultural perspectives.

5. Knowledge of Context: Students investigate the complex ways in which social, political, cultural, and historical forces shape school contexts, including students’ opportunities in schools, teacher empowerment, effective leadership, roles of parents and the community, and patterns of similarity and difference across schools.

The Education Program is accredited by Teacher Education Accreditation Council (TEAC) to recommend students who complete the program for Initial Certification in either Childhood Education (Grades 1-6) or Adolescent Education (Grades 7-12). Graduates of the program are also eligible for membership in the Interstate Certification Agreement, a reciprocal certification among forty-one states. We provide ongoing support to those who teach in the New York City area through our New Teacher Network.

To apply, visit our website (http://education.barnard.edu/program-education). Students are encouraged to apply for admission by March of the sophomore year but no later than the first Monday in October of the junior year. Those who plan to study abroad during junior year should apply by December of the sophomore year and take the Methods and Practicum courses in the spring of sophomore year. Admission criteria include good academic standing; evidence of commitment to the field of education; interest in issues of social justice issues as they affect education, particularly in urban schools; and capacity for growth as an intellectually resourceful and reflective teacher. Enrollment is limited.

Associate Professors
Thea Abu El-Haj
Maria Rivera Maulucci (Program Director/Chair)

Associate, Certification Officer, and Placement Coordinator

REQUIREMENTS FOR THE URBAN TEACHING MINORS/SPECIAL CONCENTRATIONS

Elementary/Childhood Education (To Teach Grades 1-6)
This program leads to New York State Initial Certification in Childhood Education (Grades 1-6). In addition to the liberal arts major, students must complete a total of 26-28 credits as follows:

**Requirement A - Educational Foundations** For students who have already taken EDUC BC3032, PHIL UN2100, SOCI UN3225, or ECON BC3012 to fulfill Requirement A prior to Fall 2018 do not need to enroll in EDUC BC1510 to fulfill the requirement.

**Requirement E - Liberal Arts and Sciences**
See https://education.barnard.edu/urban-teaching/liberal-arts-and-sciences-requirements-certification for more information.

* Courses offered at Columbia

Note: Senior year student teaching may conflict with other opportunities at Barnard (e.g., PSYC BC3465 Field Work and Research Seminar: The Barnard Toddler Center, PSYC BC3466 Field Work and Research Seminar: The Barnard Toddler Center). Students with these interests should arrange their schedules accordingly.

**Secondary/Adolescent Education (To Teach Grades 7-12)**

This program leads to the New York State Initial Certification in Adolescent Education (Grades 7-12) in the fields of English, Foreign and Ancient Languages, Mathematics, the Sciences, and Social Studies. Students must complete a total of 23-26 credits from the following course of study:

**Requirement A - Educational Foundations**
For students who have already taken EDUC BC3032, PHIL UN2100, SOCI UN3225, or ECON BC3012 to fulfill Requirement A prior to Fall 2018 do not need to enroll in EDUC BC1510 to fulfill the requirement.

</tbody>
</table>

**Requirement E - Liberal Arts and Sciences**
See https://education.barnard.edu/urban-teaching/liberal-arts-and-sciences-requirements-certification for more information.

* Please note that some applied science courses will not be accepted.

**Certification Requirements**

The Urban Teaching program is accredited by CAEP (formerly TEAC) and approved by the New York State Education Department to recommend students who complete the program for Initial Certification in either Childhood Education (grades 1-6) or Adolescent Education (grades 7-12). New York State has reciprocity with most other states, allowing graduates...
of the program the ability to apply for certification in another state through our membership in the Interstate Certification Agreement.

Certification is based on demonstrated competency in both academic and field settings. Students are required to complete a minimum of 360 hours of educational based field experiences. 260+ hours must be supervised field based experiences. Students must pass the New York State Teacher Certification Examinations and the edTPA performance assessment. Also required are workshops in Child Abuse Identification; School Violence Intervention and Prevention; and the Dignity for All Students Act (DASA), offered at Teachers College.

REQUIREMENTS FOR THE EDUCATION STUDIES MINOR/ SPECIAL CONCENTRATION

To complete the Minor (BC) or Special Concentration (CC/GS) in Education Studies, students must complete 20-24 points of course work, listed below.

The Education Studies track requires a minimum of six courses:

Requirement A - Educational Foundations
EDUC BC1510 Educational Foundations 3
Select two of the following:
EDUC BC3032 Contemporary Issues in Education
PHIL UN2100 Philosophy of Education
SOCI UN3225 Sociology of Education
SOCI UN3974 Sociology of Schools, Teaching and Learning
ECON BC3012 Economics of Education
PSYC BC2134 Educational Psychology
PSYC BC3382 Adolescent Psychology
PSYC BC3363 Pedagogy for Higher Education in Psychology

Requirement B - Educational Elective **
Select one of the following:
SOCI W2420 Race and Place in Urban America
SOCI UN3302 Sociology of Gender
SOCI W3923 Adolescent Society
URBS UN3420 Introduction to Urban Sociology
ECON BC3011 Inequality and Poverty
AMST UN3930 Topics in American Studies (Sec. 003) *
CSER UN3919 Modes of Inquiry *
CSER UN3928 Colonization/Decolonization *
OTHER - For a full list of courses that satisfy the Educational Elective requirement, see https://education.barnard.edu/education_studies. Advanced approval required for courses not on this list or the website.

Requirement C - Pedagogical Elective
Select one of the following:
EDUC BC3050 Science in the City
EDUC BC3052 Math and the City
EDUC BC3055 Arts and Humanities in the City: Critical Literacy and Digital Storytelling
EDUC BC3058 Science in the City II: Preparing Future Scientists Now

Requirement D - Pedagogical Core
EDUC BC2055 Urban School Practicum (Sec. 003; taken in the spring semester of your senior year) 3

* Courses offered at Columbia
** Your final project or paper for the Educational Elective course should focus on educational issues and a copy of the project or paper must be submitted to the Education Program office for inclusion in your student file.

REQUIREMENTS FOR THE URBAN STUDIES SPECIALIZATION IN EDUCATION

Urban Studies majors who wish to pursue certification should apply to the Education Program in the fall of their junior year. We encourage students to plan carefully if they wish to pursue this option.

Urban Studies majors who have selected education as their area of specialization within the major should complete the following:

Requirement A - Educational Foundations
Select one of the following:
EDUC BC1510 Educational Foundations
EDUC BC3032 Contemporary Issues in Education
PHIL UN2100 Philosophy of Education
SOCI UN3225 Sociology of Education
SOCI UN3974 Sociology of Schools, Teaching and Learning *
ECON BC3012 Economics of Education

Requirement B - Psychology
Select one of the following:
PSYC BC1107 Psychology of Learning
PSYC BC1115 Cognitive Psychology
PSYC BC1129 Developmental Psychology
PSYC BC2134 Educational Psychology
PSYC BC3382 Adolescent Psychology
PSYC UN1420 Experimental Psychology: Human Behavior *

Requirement C - Pedagogical Elective
Select one of the following:
EDUC BC3050 Science in the City
EDUC BC3052 Math and the City
EDUC BC3058 Science in the City II: Preparing Future Scientists Now

Requirement D - Pedagogical Core
EDUC BC2052 Seminar in Multicultural Elementary Pedagogy 4
or EDUC BC2062 Seminar in Multicultural Secondary Pedagogy
EDUC BC2055 Urban School Practicum 3

* Courses offered at Columbia

ENGLISH

Departmental Office: 602 Philosophy; 212-854-3215
http://www.english.columbia.edu

Director of Undergraduate Studies: Prof. Michael Golston,
407 Philosophy; 212-854-4707; mg2242@columbia.edu

Departmental Advisers:
Prof. Michael Golston, 407 Philosophy;
mg2242@columbia.edu
Prof. David Yerkes, 615 Philosophy; dmy1@columbia.edu

The program in English fosters the ability to read critically and imaginatively, to appreciate the power of language to shape thought and represent the world, and to be sensitive to the ways in which literature is created and achieves its effects. It has several points of departure, grounding the teaching of critical reading in focused attention to the most significant works of English literature, in the study of the historical and social conditions surrounding literary production and reception, and in theoretical reflection on the process of writing and reading and the nature of the literary work.

The courses the department offers draw on a broad range of methodologies and theoretical approaches, from the formalist to the political to the psychoanalytical (to mention just a few). Ranging from the medieval period to the 21st century, the department teaches major authors alongside popular culture, traditional literary genres alongside verbal forms that cut across media, and canonical British literature alongside postcolonial, global, and trans-Atlantic literatures.

At once recognizing traditional values in the discipline and reflecting its changing shape, the major points to three organizing principles for the study of literature—history, genre, and geography. Requiring students not only to take a wide variety of courses but also to arrange their thinking about literature on these very different grids, the major gives them broad exposure to the study of the past, an understanding of the range of forms that can shape literary meaning, and an encounter with the various geographical landscapes against which literature in English has been produced.

ADVISING

Students are not assigned specific advisers, but rather each year the faculty members serving on the department’s Committee on Undergraduate Education (CUE) are designated undergraduate advisers (see above). Upon declaring a major or concentration in English, students should meet with the director of undergraduate studies or a delegated faculty adviser to discuss the program, especially to ensure that students understand the requirements.

Students must fill out a Major Requirements Worksheet early in the semester preceding graduation. The worksheet must be reviewed by an adviser and submitted to 602 Philosophy before the registration period for the final semester. The worksheet is available in the English Department or on-line at http://english.columbia.edu/undergraduate-major-requirements. It is this worksheet—not the Degree Audit Report (DAR)—that determines eligibility for graduation as an English major or concentrator.

COURSE INFORMATION

Lectures

Generally, lectures are addressed to a broad audience and do not assume previous course work in the area, unless prerequisites are noted in the description. The size of some lectures is limited. Senior majors have preference unless otherwise noted, followed by junior majors, followed by senior and junior non-majors. Students are responsible for checking for any special registration procedures on-line at http://english.columbia.edu/courses.

Seminars

The department regards seminars as opportunities for students to do advanced undergraduate work in fields in which they have already had some related course experience. With the exception of some CLEN classes (in which, as comparative courses, much material is read in translation), students’ admission to a seminar presupposes their having taken ENGL UN3001 Literary Texts, Critical Methods. During the three weeks preceding the registration period, students should check http://english.columbia.edu/courses for application instructions for individual seminars. Applications to seminars are usually due by the end of the week preceding registration. Students should always assume that the instructor’s permission is necessary; those who register without having secured the instructor’s permission are not guaranteed admission.

DEPARTMENTAL HONORS

Writing a senior essay is a precondition, though not a guarantee, for the possible granting of departmental honors. After essays are submitted, faculty sponsors deliver a written report on the essay to the department’s Committee on Undergraduate Education (CUE), with a grade for the independent study and, if merited, a recommendation for honors. CUE considers all the essays, including sponsor recommendations, reviews students’ fall semester grades, and determines which students are to receive departmental honors. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.
The Degree Audit Reporting System (DARS)

The DAR is a useful tool for students to monitor their progress toward degree requirements, but it is not an official document for the major or concentration, nor should it replace consultation with departmental advisers. The department’s director of undergraduate studies is the final authority on whether requirements for the major have been met. Furthermore, the DAR may be inaccurate or incomplete for any number of reasons—for example, courses taken elsewhere and approved for credit do not show up on the DAR report as fulfilling a specific requirement.

On-Line Information

Other departmental information—faculty office hours, registration instructions, late changes, etc.—is available on the departmental website (http://www.english.columbia.edu).

Guidelines for all English and Comparative Literature Majors and Concentrators

Declaring a Major in English

Upon declaring a major in English, students should meet with either the director of undergraduate studies or a departmental adviser to discuss the program. Students declaring a major should obtain a Major Requirements Worksheet from 602 Philosophy or on-line (http://english.columbia.edu/files/english/content/ENGLISH%20MAJOR%20WKSHEET_0.pdf), which outlines the requirements.

Additional information, including events and deadlines of particular relevance to undergraduates, is provided at http://english.columbia.edu/undergraduate, the department’s undergraduate homepage. The sidebar on this page provides links to pages with details about undergraduate advising, major and concentration requirements, course options and restrictions, registration procedures, the senior essay, and writing prizes, as well as links to downloadable worksheets for the major and concentration and to course distribution requirement lists, past and present. For detailed information about registration procedures, students should consult http://english.columbia.edu/courses, which explains the requirements and enables students to monitor their own progress.

Newly declared majors should contact the undergraduate assistant in 602 Philosophy Hall and request that their names be added to the department’s electronic mailing list for English majors and concentrators. Because important information
now routinely is disseminated through e-mail, it is crucial that students be on this list.

**Literary Texts, Critical Methods**

The introductory course ENGL UN3001 Literary Texts, Critical Methods, together with its companion seminar, ENGL UN3011 Literary Texts, Critical Methods seminar, is required for the English major and concentration. It should be taken by the end of the sophomore year. Fulfillment of this requirement is a factor in admission to seminars and to some lectures. This once-a-week faculty lecture, accompanied by a seminar led by an advanced graduate student in the department, is intended to introduce students to the study of literature. Students read works from the three major literary modes (lyric, drama, and narrative), drawn from premodern to contemporary literature, and learn interpretative techniques required by these various modes or genres. This course does not fulfill any distribution requirements.

**Senior Essay**

The senior essay program is an opportunity for students to explore in depth some literary topic of special interest to them, involving extensive background reading and resulting in an essay (8,000–15,000 words) that constitutes a substantial and original critical or scholarly argument. Students submit proposals in September of their senior year, with acceptance contingent upon the quality of the proposal and the student’s record in the major. Students who are accepted are assigned a faculty sponsor to supervise the project, from its development during the fall semester to its completion in the spring. It is for the spring semester, not the fall, that students officially register for the course, designated as ENGL UN3999 Senior Essay. Senior essays are due in early April.

**Course Options and Restrictions**

1. No course at the 1000-level may be counted toward the major.

2. Speech courses may not be counted toward the major.

3. Two writing courses or two upper-level literature courses taught in a foreign language, or one of each, may count toward the major, though neither type of course fulfills any distribution requirement. Writing courses that may be applied toward the major include those offered through Columbia’s undergraduate Creative Writing Program and through Barnard College.

4. Comparative literature courses sponsored by the department (designated as **CLEN**) may count toward the major. **Those sponsored by other departments** (e.g. **CLFR** - Comp Lit French, **CPLS** - Comp Lit and Society) are **not counted toward the major without permission of the director of undergraduate studies**. Literature courses taught in English in language departments do not count toward the major.

5. No more than two courses taken during the summer session may be counted toward the major.

6. Courses offered through the Barnard English Department may count toward the major or concentration. Before taking Barnard courses, students should verify with the director of undergraduate studies whether and how such courses may count toward the major.

7. For courses taken abroad or at other American institutions to count toward the major, students must obtain approval of the director of undergraduate studies.

8. To register for more than 42 points (including advanced standing credit) in English and comparative literature, a student majoring in English must obtain permission of the director of undergraduate studies.

9. No more than five courses taken elsewhere may be applied to the major, four to the concentration.

10. One independent study (for at least 3 points) may count toward the major but cannot satisfy any distribution requirements; likewise, the Senior Essay may count toward the major but fulfills no requirements. Students **may not count both** an Independent Study and the Senior Essay toward the major.

11. Courses assigned a grade of D may not be counted toward the major.

12. Only the first course taken to count toward the major can be taken Pass/D/Fail.

**MAJOR IN ENGLISH**

Please read **Guidelines for all English and Comparative Literature Majors and Concentrators** above.

Ten departmental courses (for a minimum of 30 points) and, in the process, fulfillment of the following requirements. See course information above for details on fulfilling the distribution requirements.

1. ENGL UN3001 Literary Texts, Critical Methods and ENGL UN3011 Literary Texts, Critical Methods seminar

2. Period distribution: Three courses primarily dealing with periods before 1800, only one of which may be a course in Shakespeare

3. Genre distribution: One course in each of the following three generic categories:
   - Poetry
   - Prose fiction/narrative
   - Drama/film/new media

4. Geography distribution: One course in each of the following three geographical categories:
   - British
• American
• Comparative/global (comparative literature, postcolonial, global English, trans-Atlantic, diaspora)

Course Distribution Lists are available in the department and on-line at http://english.columbia.edu/course-distribution-lists to help students determine which courses fulfill which requirements. A single course can satisfy more than one distribution requirement. For example, a Shakespeare lecture satisfies three requirements at once: not only does it count as one of the three required pre-1800 courses it also, at the same time, fulfills both a genre and a geography distribution requirement (drama and British, respectively). Courses not on the distribution list may count toward the major requirements only with the permission of the director of undergraduate studies. Two writing courses or upper-level literature courses taught in a foreign language, or one of each, may count toward the ten required courses.

**Concentration in English**

Please read Guidelines for all English and Comparative Literature Majors and Concentrators above.

Eight departmental courses and, in the process, fulfillment of the following requirements. See course information above for details on fulfilling the distribution requirements.

1. ENGL UN3001 Literary Texts, Critical Methods and ENGL UN3011 Literary Texts, Critical Methods seminar
2. Period distribution: Two courses dealing with periods before 1800, only one of which may be a course in Shakespeare
3. Genre distribution: Two courses, each chosen from a different genre category (see above)
4. Geography distribution: Two courses, each chosen from a different geography category (see above)

See the Course Distribution Lists, available in the department or on-line at http://english.columbia.edu/course-distribution-lists, to determine which courses fulfill which requirements. All of the restrictions outlined for the English major also apply for the concentration in English.

**Comparative Literature Program**

**Ecology, Evolution, and Environmental Biology**

Departmental Office: Schermerhorn Extension, 10th floor; 212-854-9987

http://e3b.columbia.edu/

**Director of Undergraduate Studies:** Dr. Matthew Palmer, 1010 Schermerhorn; 212-854-4767; mp2434@columbia.edu

**Evolutionary Biology of the Human Species Adviser:** Dr. Jill Shapiro, 1011 Schermerhorn Extension; 212-854-5819; jss19@columbia.edu

**Director, Administration and Finance:** Lourdes A. Gautier, 1014B Schermerhorn Extension; 212-854-8665; lg2019@columbia.edu

The Department of Ecology, Evolution & Environmental Biology (E3B) at Columbia University was established in 2001. Although we are a relatively new department, we have grown rapidly in the past decade. We now have an internationally diverse student body and a broad network of supporters at Columbia and throughout New York City. Our affiliated faculty members come from departments at Columbia as well as from the American Museum of Natural History (http://www.amnh.org), the New York Botanical Garden (http://www.nybg.org), the Wildlife Conservation Society (http://www.wcs.org), and the EcoHealth Alliance (http://www.ecohealthalliance.org). Together, we provide an unparalleled breadth and depth of research opportunities for our students.

In creating E3B, Columbia University recognized that the fields of ecology, evolutionary biology, and environmental biology constitute a distinct subdivision of the biological sciences with its own set of intellectual foci, theoretical foundations, scales of analysis, and methodologies.

E3B’s mission is to educate a new generation of scientists and practitioners in the theory and methods of ecology, evolution, and environmental biology. Our educational programs emphasize a multi-disciplinary perspective to understand life on Earth from the level of organisms to global processes that sustain humanity and all life.

To achieve this multi-disciplinary perspective, the department maintains close ties to over 70 faculty members beyond its central core. Thus, many faculty members who teach, advise, and train students in research are based in other departments on the Columbia campus or at the partner institutions. Through this collaboration, the department is able to tap into a broad array of scientific and intellectual resources in the greater New York City area. The academic staff covers the areas of plant and animal systematics; evolutionary and population genetics; ecosystem science; demography and population biology; behavioral and community ecology; and related fields of epidemiology, ethnobiology, public health, and environmental policy. Harnessing the expertise of this diverse faculty and the institutions of which they are a part, E3B covers a vast area of inquiry into the evolutionary, genetic, and ecological relationships among all living things.
FACILITIES AND COLLABORATIVE INSTITUTIONS

The Department of Ecology, Evolution, and Environmental Biology (E3B)

In addition to the off-campus facilities detailed below, the Columbia community offers academic excellence in a range of natural and social science disciplines that are directly related to biodiversity conservation including: evolution, systematics, genetics, behavioral ecology, public health, business, economics, political science, anthropology, and public and international policy. These disciplines are embodied in world-class departments, schools, and facilities at Columbia. The divisions that bring their resources to bear on issues most relevant to E3B’s mission are: the Lamont-Doherty Earth Observatory, the School of International and Public Affairs, the Goddard Institute for Space Studies, the International Research Institute for Climate Prediction, the Black Rock Forest Reserve in New York State, the Rosenthal Center for Alternative/Complementary Medicine, the Division of Environmental Health Sciences at the School of Public Health, and the Center for International Earth Science Information Network (CIESIN). Several of these units of the University are networked through the Earth Institute at Columbia, a division of the University that acts as an intramural network of environmental programs and supplies logistical support for constituent programs, through planning, research, seminars, and conferences. All of the above schools, centers, and institutes contribute to finding solutions for the world’s environmental challenges.

The Earth Institute Center for Environmental Sustainability (EICES)

The Earth Institute Center for Environmental Sustainability (EICES), formerly known as the Center for Environmental Research and Conservation (CERC), is actively involved in protecting biodiversity and ecosystems. The Earth Institute Center for Environmental Sustainability is dedicated to the development of a rich, robust, and vibrant world within which we can secure a sustainable future. Through a diverse array of strategic partners in science, education, and outreach, the center builds unique programs that promote human well-being through the preservation, restoration, and management of biodiversity, and the services our ecosystems provide.

The Center for Environmental Research and Conservation (CERC), a leading provider of cutting-edge environmental research, education, and training, since its inception in 1994, has grown into two institutions—an Earth institute center and a Secretariat for a major environmental consortium. The center’s new name is the Earth Institute Center for Environmental Sustainability (EICES, pronounced “i-sees”). EICES also continues, however, as the Secretariat for the Consortium for Environmental Research and Conservation, continuing 15 years of collaborations between the Earth Institute, the American Museum of Natural History, the New York Botanical Garden, The Wildlife Conservation Society, and EcoHealth Alliance on biodiversity conservation.

American Museum of Natural History

The American Museum of Natural History is one of the world’s preeminent scientific, educational, and cultural institutions. Since its founding in 1869, the Museum has advanced its global mission to discover, interpret, and disseminate information about human cultures, the natural world, and the universe through a wide-reaching program of scientific research, education, and exhibitions. The institution comprises 45 permanent exhibition halls, state-of-the-art research laboratories, one of the largest natural history libraries in the Western Hemisphere, and a permanent collection of 32 million specimens and cultural artifacts. With a scientific staff of more than 200, the Museum supports research divisions in anthropology, paleontology, invertebrate and vertebrate zoology, and the physical sciences. The Museum’s scientific staff pursues a broad agenda of advanced scientific research, investigating the origins and evolution of life on Earth, the world’s myriad species, the rich variety of human culture, and the complex processes that have formed and continue to shape planet Earth and the universe beyond.

The Museum’s Center for Biodiversity and Conservation (CBC) was created in June 1993 to advance the use of scientific data to mitigate threats to biodiversity. CBC programs integrate research, education, and outreach so that people, a key force in the rapid loss of biodiversity, will become participants in its conservation. The CBC works with partners throughout the world to build professional and institutional capacities for biodiversity conservation and heightens public understanding and stewardship of biodiversity. CBC projects are under way in the Bahamas, Bolivia, Madagascar, Mexico, Vietnam, and the Metropolitan New York region.

The Museum’s scientific facilities include: two molecular systematics laboratories equipped with modern high-throughput technology; the interdepartmental laboratories, which include a state-of-the-art imaging facility that provides analytical microscopy, energy dispersive spectrometry, science visualization, and image analysis to support the Museum’s scientific activities; a powerful parallel-computing facility, including a cluster of the world’s fastest computers, positioned to make significant contributions to bioinformatics; and a frozen tissue facility with the capacity to store one million DNA samples.

New York Botanical Garden

The New York Botanical Garden (NYBG), with its 7 million specimen herbarium, the largest in the Western Hemisphere, and its LuEsther T. Mertz Library, the largest botanical and horticultural reference collection on a single site in the Americas, comprises one of the very best locations in the world to study plant science. NYBG’s systematic botanists discover, decipher, and describe the world’s plant and fungal diversity;
and its economic botanists study the varied links between plants and people. The Enid A. Haupt Conservatory, the largest Victorian glasshouse in the United States, features some 6,000 species in a newly installed “Plants of the World” exhibit. The new International Plant Science Center stores the Garden collection under state-of-the-art environmental conditions and has nine study rooms for visiting scholars. All specimens are available for on-site study or loan.

In recent years, NYBG has endeavored to grow and expand its research efforts, supporting international field projects in some two dozen different countries, ranging from Brazil to Indonesia. In 1994, AMNH and NYBG established the Lewis and Dorothy Cullman Program for Molecular Systematics Studies to promote the use of molecular techniques in phylogenetic studies of plant groups. This program offers many opportunities for research in conservation genetics. NYBG operates both the Institute for Economic Botany (IEB) and the Institute of Systematic Botany (ISB). The ISB builds on the Garden’s long tradition of intensive and distinguished research in systematic botany—the study of the kinds and diversity of plants and their relationships—to develop the knowledge and means for responding effectively to the biodiversity crisis.

The Garden has also established a molecular and anatomical laboratory program, which includes light and electron microscopes, and has made enormous advances in digitizing its collection. There is currently a searchable on-line library catalog and specimen database collection with some half million unique records. Field sites around the world provide numerous opportunities for work in important ecosystems of unique biodiversity.

**Wildlife Conservation Society**

The Wildlife Conservation Society (WCS), founded in 1895 as the New York Zoological Society, works to save wildlife and wild lands throughout the world. In addition to supporting the nation’s largest system of zoological facilities—the Bronx Zoo; the New York Aquarium; the Wildlife Centers in Central Park, Prospect Park, and Flushing Meadow Park; and the Wildlife Survival Center on St. Catherin’s Island, Georgia—WCS maintains a commitment to field-based conservation science. With 60 staff scientists and more than 100 research fellows, WCS has the largest professional field staff of any U.S.-based international conservation organization. Currently, WCS conducts nearly 300 field projects throughout the Americas, Asia, and Africa. The field program is supported by a staff of conservation scientists based in New York who also conduct their own research.

WCS’s field-based programs complement the organization’s expertise in veterinary medicine, captive breeding, animal care, genetics, and landscape ecology, most of which are based at the Bronx Zoo headquarters. WCS’s Conservation Genetics program places an emphasis on a rigorous, logical foundation for the scientific paradigms used in conservation biology and is linked to a joint Conservation Genetics program with the American Museum of Natural History. The Wildlife Health Sciences division is responsible for the health care of more than 17,000 wild animals in the five New York parks and wildlife centers. The departments of Clinical Care, Pathology, Nutrition, and Field Veterinary Programs provide the highest quality of care to wildlife.

**EcoHealth Alliance**

EcoHealth Alliance is an international organization of scientists dedicated to the conservation of biodiversity. For more than 40 years, EcoHealth Alliance has focused its efforts on conservation. Today, they are known for innovative research on the intricate relationships between wildlife, ecosystems, and human health.

EcoHealth Alliance’s work spans the U.S. and more than 20 countries in Central and South America, the Caribbean, Africa, and Asia to research ways for people and wildlife to share bioscapes for their mutual survival. Their strength is built on innovations in research, education, and training and accessibility to international conservation partners.

Internationally, EHA programs support conservationists in over a dozen countries at the local level to save endangered species and their habitats, and to protect delicate ecosystems for the benefit of wildlife and humans.

**ACADEMIC PROGRAMS**

The Department of Ecology, Evolution, and Environmental Biology runs two undergraduate majors/concentrations. The primary major is in environmental biology and the second is evolutionary biology of the human species. The foci and requirements vary substantially and are intended for students with different academic interests.

The environmental biology major emphasizes those areas of biology and other disciplines essential for students who intend to pursue careers in the conservation of Earth’s living resources. It is designed to prepare students for graduate study in ecology and evolutionary biology, conservation biology, environmental policy and related areas, or for direct entry into conservation-related or science teaching careers.

Interdisciplinary knowledge is paramount to solving environmental biology issues, and a wide breadth of courses is thus essential, as is exposure to current work. Conservation internships are available through partner institutions and serve as research experience leading to the development of the required senior thesis.

Declaration of the environmental biology major must be approved by the director of undergraduate studies and filed in the departmental office located on the 10th floor of Schermerhorn Extension.

The major in evolutionary biology of the human species provides students with a foundation in the interrelated spheres of behavior, ecology, genetics, evolution, morphology, patterns
of growth, adaptation, and forensics. Using the framework of evolution and with attention to the interplay between biology and culture, research in these areas is applied to our own species and to our closest relatives to understand who we are and where we came from. This integrated biological study of the human species is also known as biological anthropology. As an interdisciplinary major, students are also encouraged to draw on courses in related fields including biology, anthropology, geology, and psychology as part of their studies.

**PROFESSORS**
- Walter Bock (*emeritus*; Biological Sciences)
- Steve Cohen (International and Public Affairs)
- Marina Cords (also Anthropology)
- Ruth DeFries
- Kevin Griffin (also Earth and Environmental Sciences)
- Paul Hertz (Barnard)
- Ralph Holloway (Anthropology)
- Darcy Kelley (Biological Sciences)
- Don Melnick (also Anthropology and Biological Sciences)
- Brian Morton (Barnard)
- Shahid Naeem
- Paul Olsen (Earth and Environmental Sciences)
- Robert Pollack (Biological Sciences)
- Maria Uriarte
- Paige West (Barnard)

**ASSOCIATE PROFESSORS**
- Hilary Callahan (Barnard)
- Maria Diuk-Wasser
- Dustin Rubenstein

**ASSISTANT PROFESSORS**
- Krista McGuire (also Barnard)
- Duncan Menge

**LECTURERS**
- Joshua Drew
- Matthew Palmer
- Jill Shapiro

**ADJUNCT FACULTY/RESEARCH SCIENTISTS**

**Columbia University**
- Natalie Boelman (Lamont-Doherty)
- Cheryl Palm (Earth Institute Agriculture & Food Security Center)
- Dorothy Peteet (Lamont-Doherty)
- Miguel Pinedo-Vásquez (Center for Environmental Research and Conservation)
- Pedro Antonio Sanchez (Earth Institute Agriculture & Food Security Center)
- William Schuster (Center for Environmental Research and Conservation)

**American Museum of Natural History**
- George Amato
- Mary Blair
- Daniel Brumbaugh
- James Carpenter
- Joel Cracraft
- Rob DeSalle
- Eunsoo Kim
- Christopher Raxworthy
- Mark Siddall
- Nancy Simmons
- Brian Smith
- John Sparks
- Eleanor Sterling
- Melanie Stiassny
- Ward Wheeler

**The New York Botanical Garden**
- Michael Balick
- Roy Halling
- Charles Peters
- Dennis Stevenson

**Wildlife Conservation Society**
- Carter Ingram
- Martin Mendez
- Robert Rose
- Howard Rosenbaum
- Eric Sanderson
- Scott Silver
- Patrick R. Thomas

**Ecohealth Alliance**
- Peter Daszak
- Parvize Hosseini
- Kevin Olival
- Melinda Rostal

**Cary Institute of Ecosystem Studies**
- Joshua Ginsberg

**NYC Audubon**
- Susan Elbin
GUIDELINES FOR ALL
ECOLOGY, EVOLUTION, AND
ENVIRONMENTAL BIOLOGY
MAJORS AND CONCENTRATORS

The grade of D is not accepted for any course offered in fulfillment of the requirements toward the majors or concentrations.

MAJOR IN ENVIRONMENTAL BIOLOGY

The major in environmental biology requires 50 points, distributed as follows:

Lower Division Courses

Two terms of introductory or environmental biology such as the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEEB UN2001</td>
<td>Environmental Biology I: Elements to Organisms and Environmental Biology II: Organisms to the Biosphere</td>
</tr>
</tbody>
</table>

Two terms of environmental science such as the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN2100</td>
<td>Earth’s Environmental Systems: The Climate System</td>
</tr>
<tr>
<td>EESC UN2200</td>
<td>Earth’s Environmental Systems: The Solid Earth System</td>
</tr>
</tbody>
</table>

Two terms of chemistry such as the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1403</td>
<td>General Chemistry I (Lecture)</td>
</tr>
<tr>
<td>CHEM UN1404</td>
<td>General Chemistry II (Lecture)</td>
</tr>
</tbody>
</table>

Chemistry laboratory such as the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM BC2286</td>
<td>Statistics and Research Design</td>
</tr>
</tbody>
</table>

Two terms of physics such as the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS UN1201</td>
<td>General Physics I</td>
</tr>
</tbody>
</table>

One term of statistics such as the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL BC2286</td>
<td>Statistics and Research Design</td>
</tr>
<tr>
<td>STAT UN1101</td>
<td>Introduction to Statistics</td>
</tr>
<tr>
<td>STAT UN1201</td>
<td>Calculus-Based Introduction to Statistics</td>
</tr>
</tbody>
</table>

One term of calculus such as the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
<tr>
<td>MATH UN1102</td>
<td>Calculus II</td>
</tr>
<tr>
<td>MATH UN1201</td>
<td>Calculus III</td>
</tr>
<tr>
<td>MATH UN1202</td>
<td>Calculus IV</td>
</tr>
</tbody>
</table>

Upper Division Courses

Students must complete five advanced elective courses (generally 3000-level or above) satisfying the following distribution. At least one of these courses must include a laboratory component. For more information and a list of appropriate courses, contact the director of undergraduate studies.

1. Ecology, behavior, or conservation biology;
2. Evolution or genetics;
3. Morphology, physiology, or diversity;
4. Policy or economics;
5. One additional course from the preceding four groups.

Students must also complete a senior thesis, which involves completing a research internship (generally in the summer before the senior year) and completing at least one semester of the thesis research seminar, EEEB UN3991- EEEB UN3992 Senior Seminar. Enrollment in both semesters of the seminar, starting in the spring of the junior year, is recommended.

Students planning on continuing into graduate studies in environmental biology or related fields are encouraged to take organic chemistry and genetics.

ECOLOGY AND EVOLUTION TRACK WITHIN THE
ENVIRONMENTAL BIOLOGY MAJOR

The ecology and evolution track within the environmental biology major requires 50 points, distributed as follows:

Lower Division Courses

Two terms of introductory or environmental biology such as the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEEB UN2001</td>
<td>Environmental Biology I: Elements to Organisms and Environmental Biology II: Organisms to the Biosphere</td>

211
Upper Division Courses

Students must complete five advanced elective courses (generally 3000-level or above) satisfying the following distribution. At least one of these courses must include a laboratory component. For more information and a list of appropriate courses, contact the director of undergraduate studies.

1. Three courses in ecology, evolution, conservation biology, or behavior;
2. One course in genetics. BIOL UN3031 Genetics or BIOL BC2100 Molecular and Mendelian Genetics is recommended;
3. One course in morphology, physiology, or diversity.

Students must also complete a senior thesis, which involves completing a research internship (generally in the summer before the senior year) and completing at least one semester of the thesis research seminar, EEEB UN3991-EEEB UN3992 Senior Seminar. Enrollment in both semesters of the seminar, starting in the spring of the junior year, is recommended.

Students planning on continuing into graduate studies in ecology or evolutionary biology are encouraged to take organic chemistry.

MAJOR IN EVOLUTIONARY BIOLOGY OF THE HUMAN SPECIES

The major in evolutionary biology of the human species requires 36 points, distributed as described below.

Students must take a minimum of 20 points from approved biological anthropology courses. The additional courses may be taken in other departments with adviser approval. These include up to 6 points of introductory biology/chemistry or calculus (in any combination). Please speak with the major adviser about the extended list of courses from related areas including Biology, Psychology, Archaeology, Anthropology, Earth and Environmental Science, and Statistics that count toward this program.

For example, students interested in focusing on paleoanthropology would complement the requirements with additional courses in human evolution and morphology, evolutionary biology and theory, archaeology, genetics, and statistics. Those interested in primate behavior would supplement the requirements with classes in behavioral biology, ecology, and statistics.

Required Courses
EEEB UN1010 Human Origins and Evolution

EEEB UN1011 Behavioral Biology of the Living Primates

**Alternate options may be possible for all courses other than EEEB UN1010 Human Origins and Evolution and EEEB UN1011 Behavioral Biology of the Living Primates. These will be considered on an individual basis in consultation with the major/concentration adviser.

Conservation Course
EEEB UN3240 Challenges and Strategies of Primate Conservation (This is the recommended conservation course but this requirement can be fulfilled with other classes such as Conservation Biology, SEE-U in Brazil or Jordan, or other relevant offerings.)

Theoretical Foundation from Related Fields

Select one course from each of the two subsets:

Cultural Anthropology
ANTH UN1002 The Interpretation of Culture
ANTH UN2004 Introduction to Social and Cultural Theory
ANTH UN3040 Anthropological Theory I
ANTH UN2005 Ethnographic Imagination

Archaeology
ANTH UN1007 The Origins of Human Society
ANTH UN2028 Past, Present and Futures: An Introduction to 21st Century Archaeology
ANTH UN3064 Death and the Body
ANTH UN3823 Archaeology Engaged: The Past in the Public Eye
ANTH UN3933 Arabia Imagined

Breadth Requirement

Select a minimum of one course from each of the three sections (may overlap seminar requirement for majors):

Genetics/Human Variation
BIOL BC2100 Molecular and Mendelian Genetics
BIOL UN3031 Genetics
BIOL GU4560 Evolution in the age of genomics
ANTH UN3970 Biological Basis of Human Variation
EEEB GU4340 Human Adaptation
EEEB GU4700 Race: The Tangled History of a Biological Concept

Primate Behavioral Biology and Ecology
EEEB UN3940  Current Controversies in Primate Behavior and Ecology
BIOL BC2272  Ecology
BIOL BC2280  Animal Behavior
PSYC UN2420  Animal Behavior
PSYC BC1119  Systems and Behavioral Neuroscience
PSYC UN2450  Behavioral Neuroscience
PSYC BC3372  Comparative Cognition
PSYC UN3450  Evolution of Intelligence and Consciousness (Seminar)
PSYC UN3460  Evolution of Behavior (Seminar)
PSYC UN3470  Brain Evolution: Becoming Human (Seminar)
EEEB GU4010  The Evolutionary Basis of Human Behavior
EEEB GU4134  Behavioral Ecology

**Human Evolution/Morphology**

EEEB UN3208  Explorations in Primate Anatomy
EEEB UN3215  Forensic Osteology
EEEB UN3220  The Evolution of Human Growth and Development
ANTH GU4147  Human Skeletal Biology I
ANTH GU4148  The Human Skeletal Biology II
EEEB UN3204  Dynamics of Human Evolution
EEEB UN3910  The Neandertals
ANTH GU4002  Controversial Topics in Human Evolution
ANTH GU4200  Fossil Evidence of Human Evolution
BIOL BC2278  Evolution
BIOL UN3208  Introduction to Evolutionary Biology
EEEB UN3030  The Biology, Systematics, and Evolutionary History of the 'Apes'
BIOL BC2262  Vertebrate Biology
BIOL UN3066  Physiology
BIOL BC3360  Animal Physiology
EEEB GU4200  Natural History of the Mammals

**Seminar**

Selection at least one of the following seminars. May also count toward the breadth requirement.

EEEB UN3204  Dynamics of Human Evolution
EEEB UN3910  The Neandertals
EEEB UN3940  Current Controversies in Primate Behavior and Ecology
ANTH UN3970  Biological Basis of Human Variation
EEEB UN3993 - EEEB UN3994  EBHS Senior Seminar
EEEB GU4321  Human Nature: DNA, Race & Identity

ANTH GU4002  Controversial Topics in Human Evolution (Fulfills the seminar requirement for the major)

Additional courses in the student’s area of focus to complete the required 36 points overall including a minimum of 20 points of approved biological anthropology courses.

Students intending to pursue graduate study in this field should broaden their foundation by taking an introductory biology course (optimally EEEB UN2001 Environmental Biology I: Elements to Organisms) or advanced evolution course, a genetics course, and a statistics course. Students interested in forensic anthropology should take chemistry in lieu of biology (though the latter is recommended as a foundation course for all students). The adviser makes additional recommendations dependent on the student’s area of focus.

**Approved Biological Anthropology Courses**

**Paleoanthropology and Morphology**

EEEB UN1010  Human Origins and Evolution
EEEB UN3204  Dynamics of Human Evolution
EEEB UN3208  Explorations in Primate Anatomy
EEEB UN3215  Forensic Osteology
EEEB UN3220  The Evolution of Human Growth and Development
EEEB UN3910  The Neandertals
ANTH GU4147 - ANTH GU4148  Human Skeletal Biology I and The Human Skeletal Biology II
ANTH GU4200  Fossil Evidence of Human Evolution *taught intermittently*

**Primate Behavioral Ecology and Evolution**

EEEB UN1011  Behavioral Biology of the Living Primates
EEEB UN3030  The Biology, Systematics, and Evolutionary History of the ‘Apes’
EEEB UN3940  Current Controversies in Primate Behavior and Ecology
EEEB GU4010  The Evolutionary Basis of Human Behavior

**Human Variation**

ANTH UN3970  Biological Basis of Human Variation
EEEB GU4340  Human Adaptation
EEEB GU4700  Race: The Tangled History of a Biological Concept

**Additional Courses**

EEEB UN3240  Challenges and Strategies of Primate Conservation
EEEB UN3993 - EEEB UN3994  EBHS Senior Seminar
Concentration in Environmental Biology

The concentration in environmental biology differs from the major in omitting calculus and physics from the lower division, requiring three advanced electives rather than five, and omitting the senior seminar with thesis project. It requires 35 points, distributed as follows:

**Lower Division Courses**

Two terms of introductory or environmental biology such as the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEEB UN2001</td>
<td>Environmental Biology I: Elements to Organisms</td>
</tr>
<tr>
<td>- EEEB UN2002</td>
<td>and Environmental Biology II: Organisms to the Biosphere (or equivalents)</td>
</tr>
</tbody>
</table>

Two terms of environmental science such as the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN2100</td>
<td>Earth’s Environmental Systems: The Climate System</td>
</tr>
</tbody>
</table>

Two terms of chemistry such as the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM UN1403</td>
<td>General Chemistry I (Lecture)</td>
</tr>
<tr>
<td>- CHEM UN1404</td>
<td>and General Chemistry II (Lecture)</td>
</tr>
</tbody>
</table>

One term of statistics. Select one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL BC2286</td>
<td>Statistics and Research Design</td>
</tr>
<tr>
<td>EEEB UN3005</td>
<td>Introduction to Statistics for Ecology and Evolutionary Biology</td>
</tr>
<tr>
<td>STAT UN1101</td>
<td>Introduction to Statistics</td>
</tr>
<tr>
<td>STAT UN1201</td>
<td>Calculus-Based Introduction to Statistics</td>
</tr>
</tbody>
</table>

**Upper Division Courses**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EEEB UN3087</td>
<td>Conservation Biology</td>
</tr>
</tbody>
</table>

Two other 3000- or 4000-level courses from the advanced environmental biology courses listed for the major.

Concentrators do not have to complete the theoretical foundation courses from cultural anthropology/archaeology or a seminar.

Special Concentration in Environmental Science for Environmental Biology Majors

The special concentration in environmental science requires a minimum of 31.5 points, distributed as follows:

**Introductory Environmental Science (13.5 points)**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN2100</td>
<td>Earth’s Environmental Systems: The Climate System</td>
</tr>
<tr>
<td>EESC UN2200</td>
<td>Earth’s Environmental Systems: The Solid Earth System</td>

Advanced courses used to fulfill requirements in the environmental biology major cannot count toward requirements for the special concentration.

Concentration in Evolutionary Biology of the Human Species

The concentration in evolutionary biology of the human species requires 20 points including the required introductory courses EEEB UN1010 Human Origins and Evolution, EEEB UN1011 Behavioral Biology of the Living Primates, an approved conservation course (optimally Primate Conservation), and three courses for the breadth distribution requirements as described for the major. Students must take a minimum of 15 points from approved biological anthropology courses as described for the major (the two introductory classes count toward that total). The additional courses may be taken in other departments with adviser approval.
**Special Concentration in Environmental Biology for Environmental Science Majors**

The Department of Ecology, Evolution, and Environmental Biology sponsors a special concentration which must be done in conjunction with the environmental science major. Students should be aware that they must complete the environmental science major in order to receive credit for the special concentration.

The special concentration in environmental biology requires a minimum of 39 points, distributed as follows:

### Introductory Environmental Biology and Environmental Science (17 points)

<table>
<thead>
<tr>
<th>Code</th>

### Advanced Environmental Biology (9 points)

Three additional advanced environmental biology courses (3000-level and above), each chosen from a different curricular area (evolution/genetics, ecology/behavior/conservation, anatomy/physiology/diversity, biology laboratory courses).

---

**Environmental Chemistry**

**Undergraduate Office:** 340 Havemeyer; 212-854-2163  
**Departmental Office:** 344 Havemeyer; 212-854-2202  
http://www.columbia.edu/cu/chemistry/

**Director of Undergraduate Studies:** Prof. Karen Phillips, 422 Havemeyer; 212-851-7534; kep12@columbia.edu (kep12@chem.columbia.edu)

**Program Manager for Undergraduate Studies:** Dr. Vesna Gasperso, 211A Havemeyer; 212-854-2017; vg2231@columbia.edu

**Biochemistry Advisers:**  
*Biology:* Prof. Brent Stockwell, 1208 Northwest Corner Building; 212-854-2919; stockwell@biology.columbia.edu

Chemistry, the study of molecules, is a central science interesting for its own sake but also necessary as an intellectual link to the other sciences of biology, physics, and environmental science. Faculty find the various disciplines of chemistry fascinating because they establish intellectual bridges between the macroscopic or human-scale world that we see, smell, and touch, and the microscopic world that affects every aspect of our lives. The study of chemistry begins on the microscopic scale and extends to engage a variety of different macroscopic contexts.

Chemistry is currently making its largest impact on society at the nexus between chemistry and biology and the nexus between chemistry and engineering, particularly where new materials are being developed. A typical chemistry laboratory now has more computers than test tubes and no longer smells of rotten eggs.

The chemistry department majors are designed to help students focus on these new developments and to understand the factors influencing the nature of the discipline. Because the science is constantly changing, courses change as well, and while organic and physical chemistry remain the bedrock courses, they too differ greatly from the same courses 40 years ago. Many consider biochemistry to be a foundation course as well. Although different paths within the chemistry major take different trajectories, there is a core that provides the essential foundation students need regardless of the path they choose. Students should consider majoring in chemistry if they share or can develop a fascination with the explanatory power that comes with an advanced understanding of the nature and influence of the microscopic world of molecules.

Students who choose to major in chemistry may elect to continue graduate study in this field and obtain a Ph.D., which is a solid basis for a career in research, either in the industry or in a university. A major in chemistry also provides students...
with an astonishing range of career choices such as working in the chemical or pharmaceutical industries or in many other businesses where a technical background is highly desirable. Other options include becoming a financial analyst for a technical company, a science writer, a high school chemistry teacher, a patent attorney, an environmental consultant, or a hospital laboratory manager, among others. The choices are both numerous and various as well as intellectually exciting and personally fulfilling.

**ADVANCED PLACEMENT**

The department grants advanced placement (AP) credit for a score of 4 or 5. The amount of credit granted is based on the results of the department placement exam and completion of the requisite course. Students who are placed into CHEM UN1604 Intensive General Chemistry (Lecture) are granted 3 points of credit; students who are placed into CHEM UN2045 Intensive Organic Chemistry I (Lecture)-CHEM UN2046 Intensive Organic Chemistry II (Lecture) are granted 6 points of credit. In either case, credit is granted only upon completion of the course with a grade of C or better. Students must complete a department placement exam prior to registering for either of these courses.

**PROGRAMS OF STUDY**

The Department of Chemistry offers four distinct academic major programs for undergraduates interested in professional-level training and education in the chemical sciences: chemistry, chemical physics, biochemistry and environmental chemistry. For students interested in a program of less extensive study and coursework, the department offers a concentration in chemistry.

**COURSE INFORMATION**

The results of the placement exam are used to advise students which track to pursue. The Department of Chemistry offers three different tracks. Students who wish to take Track 2 or 3 classes must take the placement exam. Students who wish to pursue Track 1 classes do not need to take the placement exam.

**TRACK INFORMATION**

In the first year, Track 1 students with one year of high school chemistry take a one-year course in general chemistry, and the one-term laboratory course that accompanies it. In the second year, students study organic chemistry, and take organic chemistry laboratory. Students who qualify by prior examination during orientation week can place into the advanced tracks. There are two options. Track 2 students take, in the fall term, a special one-term intensive course in general chemistry in place of the one-year course. In the second year, students study organic chemistry and take organic chemistry laboratory. Track 3 students take a one-year course in organic chemistry for first-year students and the one-term intensive general chemistry laboratory course. In the second year, students enroll in physical chemistry and the organic chemistry laboratory course.

Additional information on the tracks can be found in the Requirements section.

**ADDITIONAL COURSES**

First-year students may also elect to take CHEM UN2408. This seminar focuses on topics in modern chemistry, and is offered to all qualified students.

Biochemistry (BIOC UN3501, BIOC UN3512) is recommended for students interested in the biomedical sciences.

Physical chemistry (CHEM UN3079-CHEM UN3080), a one-year program, requires prior preparation in mathematics and physics. The accompanying laboratory is CHEM UN3085-CHEM UN3086.

Also offered are a senior seminar (CHEM UN3920); advanced courses in biochemistry, inorganic, organic, and physical chemistry; and an introduction to research (CHEM UN3098).

**SAMPLE PROGRAMS**

Some typical programs are shown below. Programs are crafted by the student and the director of undergraduate studies to meet individual needs and interests.

**Track 1**

**First Year**

CHEM UN1403 General Chemistry I (Lecture)
CHEM UN1404 General Chemistry II (Lecture)
CHEM UN1500 General Chemistry Laboratory
CHEM UN2408 First-Year Seminar in Chemical Research
Calculus and physics as required.

**Second Year**

CHEM UN2443 Organic Chemistry I (Lecture)
CHEM UN2444 Organic Chemistry II (Lecture)
CHEM UN2493 Organic Chemistry Laboratory I (Techniques)
CHEM UN2494 Organic Chemistry Laboratory II (Synthesis)
Calculus and physics as required.

**Third Year**

CHEM UN3079 Physical Chemistry I
BIOC UN3501 Biochemistry: Structure and Metabolism
CHEM UN3546 Advanced Organic Chemistry Laboratory
CHEM UN3080 Physical Chemistry II
CHEM UN3098 Supervised Independent Research

**Fourth Year**

CHEM UN3085 Physical and Analytical Chemistry Laboratory I
CHEM UN3086 Physical and Analytical Chemistry Laboratory II
### Track 2

**First Year**
- CHEM UN1507 Intensive General Chemistry Laboratory
- CHEM UN2045 Intensive Organic Chemistry I (Lecture)
- CHEM UN2046 Intensive Organic Chemistry II (Lecture)
- CHEM UN2408 First-Year Seminar in Chemical Research

**Calculus and Physics as required.**

**Second Year**
- CHEM UN3079 Physical Chemistry I
- CHEM UN3080 Physical Chemistry II
- CHEM UN2545 Intensive Organic Chemistry Laboratory
- CHEM UN3546 Advanced Organic Chemistry Laboratory

**Calculus and physics as required.**

**Third Year**
- BIOC UN3501 Biochemistry: Structure and Metabolism
- CHEM UN3085 Physical and Analytical Chemistry Laboratory I
- CHEM UN3086 Physical and Analytical Chemistry Laboratory II
- CHEM UN3098 Supervised Independent Research
- CHEM GU4071 INORGANIC CHEMISTRY

**Fourth Year**
- CHEM UN3085 Physical and Analytical Chemistry Laboratory I
- CHEM UN3086 Physical and Analytical Chemistry Laboratory II
- CHEM UN3920 Senior Seminar in Chemical Research
- CHEM GU4071 INORGANIC CHEMISTRY

**Advanced courses (4000-level or higher)**

### Track 3

**First Year**
- Calculus and physics as required.
- CHEM UN1507 Intensive General Chemistry Laboratory
- CHEM UN1604 Intensive General Chemistry (Lecture)
- CHEM UN2408 First-Year Seminar in Chemical Research

**Second Year**
- CHEM UN2443 Organic Chemistry I (Lecture)
- CHEM UN2444 Organic Chemistry II (Lecture)
- CHEM UN2493 Organic Chemistry Laboratory I (Techniques)
- CHEM UN2494 Organic Chemistry Laboratory II (Synthesis)

**Calculus and physics as required.**

**Third Year**
- CHEM UN3079 Physical Chemistry I
- BIOC UN3501 Biochemistry: Structure and Metabolism
- CHEM UN3546 Advanced Organic Chemistry Laboratory
- CHEM UN3080 Physical Chemistry II
- CHEM UN3098 Supervised Independent Research

### Fourth Year
- CHEM UN3085 Physical and Analytical Chemistry Laboratory I
- CHEM UN3086 Physical and Analytical Chemistry Laboratory II
- CHEM UN3920 Senior Seminar in Chemical Research
- CHEM GU4071 INORGANIC CHEMISTRY

**Advanced courses (4000-level or higher)**

### Professors
- Bruce J. Berne
- Ronald Breslow
- Louis E. Brus
- Virginia W. Cornish
- Kenneth B. Eisenthal
- Richard A. Friesner
- Ruben Gonzalez
- Laura Kaufman
- James L. Leighton
- Ann E. McDermott
- Jack R. Norton
- Colin Nuckolls
- Gerard Parkin
- David R. Reichman
- Tomislav Rovis
- Brent Stockwell
- James J. Valentini
- Xiaoyang Zhu

### Associate Professors
- Angelo Cacciuto
- Luis Campos
- Tristan Lambert
- Wei Min
- Jonathan Owen
- Dalibor Sames
- Latha Venkataraman

### Assistant Professors
- Xavier Roy

### Senior Lecturer
- Karen Phillips

### Lecturers
- Luis Avila
- Robert Beer
- John Decatur
- Charles E. Doubleday
Students majoring in chemistry or in one of the interdepartmental majors in chemistry should go to the director of undergraduate studies or the undergraduate program manager in the Department of Chemistry to discuss their program of study. Chemistry majors and interdepartmental majors usually postpone part of the Core Curriculum beyond the sophomore year.

Chemistry Tracks
All students who wish to start with Track 2 or 3 courses must take a placement exam. The results of the placement exam are used to advise students which track to pursue. Unless otherwise specified below, all students must complete one of the following tracks:

Track 1
- CHEM UN1403 General Chemistry I (Lecture)
- CHEM UN1404 General Chemistry II (Lecture)
- CHEM UN1500 General Chemistry Laboratory
- CHEM UN2443 Organic Chemistry I (Lecture)
- CHEM UN2444 Organic Chemistry II (Lecture)
- CHEM UN2493 Organic Chemistry Laboratory I (Techniques)
- CHEM UN2494 Organic Chemistry Laboratory II (Synthesis)

Track 2
- CHEM UN1500 General Chemistry Laboratory
- CHEM UN1604 Intensive General Chemistry (Lecture)
- CHEM UN2443 Organic Chemistry I (Lecture)
- CHEM UN2444 Organic Chemistry II (Lecture)
- CHEM UN2493 Organic Chemistry Laboratory I (Techniques)
- CHEM UN2494 Organic Chemistry Laboratory II (Synthesis)

Track 3
- CHEM UN1507 Intensive General Chemistry Laboratory

Physics Sequences
The requirements for the physics sequences were modified on December 5, 2014. Students who declared before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

Unless otherwise specified below, all students must complete one of the following sequences:

Sequence A
For students with limited background in high school physics:
- PHYS UN1401 Introduction To Mechanics and Thermodynamics
- PHYS UN1402 Introduction To Electricity, Magnetism, and Optics
- PHYS UN1403 Introduction to Classical and Quantum Waves

For chemistry majors, the following laboratory courses are recommended, NOT required. For chemical physics majors, the following laboratory courses are required:
- PHYS UN1493 Introduction to Experimental Physics
- PHYS UN2699 Experiments in Classical and Modern Physics
- PHYS UN3081 Intermediate Laboratory Work

Sequence B
- PHYS UN1601 Physics, I: Mechanics and Relativity
- PHYS UN1602 Physics, II: Thermodynamics, Electricity, and Magnetism
- PHYS UN2601 Physics, III: Classical and Quantum Waves
  or PHYS UN3081 Intermediate Laboratory Work

For chemistry majors, the following laboratory courses are recommended NOT required. For chemical physics majors, the following laboratory courses are required:
- PHYS UN2699 Experiments in Classical and Modern Physics

Sequence C
For students with advanced preparation in physics and mathematics:
- PHYS UN2801 Accelerated Physics I
  - PHYS UN2802 Accelerated Physics II

For chemistry majors, the following laboratory courses are recommended NOT required. For chemical physics majors, the following laboratory courses are required:
- PHYS UN2801 Accelerated Physics I
  - PHYS UN2802 Accelerated Physics II
MAJOR IN CHEMISTRY

Select one of the tracks outlined above in Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors and complete the following lectures and labs.

Chemistry
Select one of the chemistry tracks outlined above.
CHEM UN2408 First-Year Seminar in Chemical Research (Recommended NOT required)
CHEM UN3079 Physical Chemistry I
CHEM UN3080 Physical Chemistry II
CHEM UN3085 Physical and Analytical Chemistry Laboratory I
CHEM UN3086 Physical and Analytical Chemistry Laboratory II
CHEM UN3546 Advanced Organic Chemistry Laboratory
CHEM UN3920 Senior Seminar in Chemical Research
CHEM GU4071 INORGANIC CHEMISTRY

Select one course from the following:
CHEM UN3098 Supervised Independent Research
OR Chemistry courses numbered CHEM GU4000 or above

Biology

Select one of the following laboratory courses:
BIOL UN3050 Project Laboratory in Protein Biochemistry
BIOL UN3052 Project Laboratory in Molecular Genetics
BIOL UN3500 Independent Biological Research

Physics

Select one of the following physics sequences:
Sequence A:
- PHYS UN1201 General Physics I
- PHYS UN1202 and General Physics II
Sequence B:
- PHYS UN1401 Introduction To Mechanics and Thermodynamics
- PHYS UN1402 and Introduction To Electricity, Magnetism, and Optics
- PHYS UN1403 and Introduction to Classical and Quantum Waves (PHYS UN1403 is recommended NOT required)
Sequence C:
- PHYS UN1601 Physics, I: Mechanics and Relativity
- PHYS UN1602 and Physics, II: Thermodynamics, Electricity, and Magnetism
- PHYS UN2601 and Physics, III: Classical and Quantum Waves (PHYS UN2601 is recommended but not required)
Sequence D:
- PHYS UN2801 Accelerated Physics I
- PHYS UN2802 and Accelerated Physics II

Mathematics

Select one of the following sequences:
Four semesters of calculus:
MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1201 and Calculus III
- MATH UN1202 and Calculus IV
Two semesters of honors mathematics:
MATH UN1207 Honors Mathematics A
- MATH UN1208 and Honors Mathematics B

MAJOR IN BIOCHEMISTRY

Select one of the tracks outlined above in Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors and complete the following lectures and labs.

Chemistry
Select one of the chemistry tracks outlined above.
CHEM UN2408 First-Year Seminar in Chemical Research (Recommended NOT required)
CHEM UN3079 Physical Chemistry I

Biology

Select one of the following laboratory courses:
BIOC UN3501 Biochemistry: Structure and Metabolism
BIOC UN3512 Molecular Biology

Physics

Select one of the following physics sequences:
Sequence A:
- PHYS UN1201 General Physics I
- PHYS UN1202 and General Physics II
Sequence B:
- PHYS UN1401 Introduction To Mechanics and Thermodynamics
- PHYS UN1402 and Introduction To Electricity, Magnetism, and Optics
- PHYS UN1403 and Introduction to Classical and Quantum Waves (PHYS UN1403 is recommended NOT required)
Sequence C:
- PHYS UN1601 Physics, I: Mechanics and Relativity
- PHYS UN1602 and Physics, II: Thermodynamics, Electricity, and Magnetism
- PHYS UN2601 and Physics, III: Classical and Quantum Waves (PHYS UN2601 is recommended but not required)
Sequence D:
- PHYS UN2801 Accelerated Physics I
- PHYS UN2802 and Accelerated Physics II

Mathematics

Select one of the following sequences:
Two semesters of calculus:
MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1201 and Calculus III
- MATH UN1202 and Calculus IV
Two semesters of honors mathematics:
MATH UN1207 Honors Mathematics A
- MATH UN1208 and Honors Mathematics B
AP credit and one term of calculus (Calculus II or higher)

Additional Courses
Select one of the following additional laboratory courses:

- BIOL UN3040 Lab in Molecular Biology and Contemporary Biology Laboratory
- BIOL UN3050 Project Laboratory in Protein Biochemistry
- BIOL UN3052 Project Laboratory in Molecular Genetics
- BIOL UN3500 Independent Biological Research
- CHEM UN3085 Physical and Analytical Chemistry Laboratory I
- CHEM UN3086 Physical and Analytical Chemistry Laboratory II
- CHEM UN3098 Supervised Independent Research
- CHEM UN3546 Advanced Organic Chemistry Laboratory

Select any three courses from the following:

- CHEM GU4071 INORGANIC CHEMISTRY
- CHEM GU4102 Chemistry for the Brain
- CHEM GU4147 Advanced Organic Chemistry
- BIOC GU4323 BIOPHYSICAL CHEMISTRY I
- BIOC GU4324 Biophysical Chemistry II
- MATH UN3027 Ordinary Differential Equations
- or MATH UN2030 Ordinary Differential Equations

One additional semester of calculus:

- MATH UN1207 Honors Mathematics A
- or MATH UN1208 Honors Mathematics B

Any biology course at the 3000/4000 level for 3 or more points. The following are recommended:

- BIOL UN3004 Neurobiology I: Cellular and Molecular Neurobiology
- or BIOL UN3005 Neurobiology II: Development & Systems
- BIOL UN3008 The Cellular Physiology of Disease
- BIOL UN3022 Developmental Biology
- BIOL UN3034 Biotechnology
- BIOL UN3041 Cell Biology
- BIOL UN3073 Cellular and Molecular Immunology
- BIOL GU4065 Molecular Biology of Disease
- BIOL GU4300 Drugs and Disease

CHEM UN3086 Physical and Analytical Chemistry Laboratory II
CHEM UN3098 Supervised Independent Research
CHEM UN3920 Senior Seminar in Chemical Research
CHEM GU4221 Quantum Chemistry
or PHYS GU4021 Quantum Mechanics

Physics

Select one of the physics sequences outlined above in Guidelines for all Chemistry Majors, Concentrators and Interdepartmental Majors. For the chemical physics major, one lab MUST be completed for the sequence chosen.

Complete the following lectures:

- PHYS UN3003 Mechanics
- PHYS UN3007 Electricity and Magnetism
- PHYS UN3008 Electromagnetic Waves and Optics

Mathematics

Select one of the following sequences:

Four semesters of calculus:

- MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1201 and Calculus III
- MATH UN1202 and Calculus IV

Two semesters of honors mathematics:

- MATH UN1207 Honors Mathematics A
- MATH UN1208 and Honors Mathematics B
- MATH UN3027 and Ordinary Differential Equations

Two semesters of advanced calculus:

- MATH UN1202 Calculus IV
- MATH UN3027 and Ordinary Differential Equations

**Major in Environmental Chemistry**

The requirements for this program were modified on February 1, 2016. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

Select one of the tracks outlined above in Guidelines for all Chemistry Majors, Concentrators, and Interdepartmental Majors and complete the following lectures and labs.

Chemistry

Select one of the chemistry tracks outlined above. A second semester of Organic Chemistry lecture is recommended NOT required.

- CHEM UN3079 Physical Chemistry I
- CHEM GU4071 INORGANIC CHEMISTRY

The following courses are recommended NOT required:

- CHEM UN2408 First-Year Seminar in Chemical Research
CHEM UN3920  Senior Seminar in Chemical Research

**Earth and Environmental Science**
Select two of the following three courses:
- EESC UN2100  Earth’s Environmental Systems: The Climate System
- EESC UN2200  Earth’s Environmental Systems: The Solid Earth System
- EESC UN2300  Earth’s Environmental Systems: The Life System

Additional course required:
- EESC UN3101  Geochemistry for a Habitable Planet

Select one of the following labs:
- EESC BC3016  Environmental Measurements
- CHEM UN3085  Physical and Analytical Chemistry Laboratory I

Select one option for Independent Research in Environmental Chemistry:
- EESC BC3800  Senior Research Seminar
- EESC BC3801  Senior Research Seminar
- CHEM UN3098  Supervised Independent Research (It is strongly recommended to take CHEM UN3920 if taking CHEM UN3098)

**Physics**
Select one of the following physics sequences:

**Sequence A:**
- PHYS UN1201  General Physics I
- PHYS UN1202  General Physics II

**Sequence B:**
- PHYS UN1401  Introduction To Mechanics and Thermodynamics
- PHYS UN1402  and Introduction To Electricity, Magnetism, and Optics
- PHYS UN1403  and Introduction to Classical and Quantum Waves (Recommended NOT required)

**Sequence C:**
- PHYS UN1601  Physics, I: Mechanics and Relativity
- PHYS UN1602  and Physics, II: Thermodynamics, Electricity, and Magnetism
- PHYS UN2601  and Physics, III: Classical and Quantum Waves (Recommended, not required)

**Sequence D:**
- PHYS UN2801  Accelerated Physics I
- PHYS UN2802  and Accelerated Physics II

**Mathematics**
Two semesters of calculus:
- MATH UN1101  Calculus I
- MATH UN1102  Calculus II
- MATH UN1201  Calculus III
- MATH UN1202  Calculus IV

**Additional Courses**
Select any two of the following:

**Chemistry:**
- CHEM UN3080  Physical Chemistry II
- CHEM GU4103  Organometallic Chemistry
- CHEM GU4147  Advanced Organic Chemistry

**Earth and Environmental Science:**
- EESC BC3017  Environmental Data Analysis
- EESC BC3025  Hydrology
- EESC GU4008  Introduction to Atmospheric Science
- EESC GU4009  Chemical Geology
- EESC GU4040  Climate Thermodynamics and Energy Transfer
- EESC GU4050  Global Assessment and Monitoring Using Remote Sensing

**Mathematics:**
Two additional semesters of calculus

**Concentration in Chemistry**
No more than four points of CHEM UN3098 Supervised Independent Research may be counted toward the concentration.

Select one of the three chemistry tracks listed below.

**Chemistry Tracks**

**Track 1**
- CHEM UN1403  General Chemistry I (Lecture)
- CHEM UN1404  General Chemistry II (Lecture)
- CHEM UN1500  General Chemistry Laboratory
Select 22 points of chemistry at the 2000-level or higher (excluding W2408).
Track 2

CHEM UN1500 General Chemistry Laboratory
or CHEM UN1507 Intensive General Chemistry Laboratory

CHEM UN1604 Intensive General Chemistry (Lecture)

Select 22 points of chemistry at the 2000-level or higher (excluding W2408).

Track 3

CHEM UN1507 Intensive General Chemistry Laboratory

CHEM UN2045 Intensive Organic Chemistry I (Lecture)

CHEM UN2046 Intensive Organic Chemistry II (Lecture)

Select 18 points of chemistry at the 2000-level or higher (excluding W2408).

Environmental Science

Departmental Offices:
556-7 Schermerhorn; 212-854-4525
106 Geoscience, Lamont-Doherty Earth Observatory;

Senior Administrative Manager: Carol Mountain, 557 Schermerhorn Extension; 212-854-9705; 107 Geoscience, Lamont-Doherty Earth Observatory; 845-365-8551; carolm@ldeo.columbia.edu

Business Manager: Sally Odland, 108 Geoscience, Lamont-Doherty Earth Observatory; 845-365-8633; odland@ldeo.columbia.edu

Environmental science majors have an option to complete the special concentration in environmental biology for environmental science majors.

Earth Science Major

The major in Earth science follows a similar rationale but is designed to allow students to pursue particular fields of the Earth sciences in greater depth. Compared with the environmental science major, one fewer introductory course is required, while one additional advanced course should be part of the plan of study. The Earth science major also offers the possibility of in-depth field experience through a six- to eight-week geology summer field course, arrangements for...
which are made through another university. The research and senior thesis capstone requirements are the same as for the environmental science major. The geology summer field course may be used as an alternative means of fulfilling the capstone requirement in the Earth science major.

Concentrations
The program for concentrators serves students who want more exposure to Earth and environmental science than is provided by introductory-level courses. The program aims to provide concentrators with experience in data analysis and a thorough introduction to the Earth’s systems.

The concentrations in environmental science and in Earth science are designed to give students an understanding of how the Earth works and an introduction to the methods used to investigate Earth processes, including their capabilities and limitations. Concentrators often join the social professions (e.g., business, law, medicine, etc.) and take with them a strong scientific background. They take the same introductory courses as the majors, but fewer basic science and upper-level courses are required.

In addition to the environmental science and Earth science concentrations, the department sponsors a special concentration which must be done in conjunction with the environmental biology major. Students should be aware that they must complete the environmental biology major in order to receive credit for the special concentration. There is also a special concentration in environmental biology for environmental science majors sponsored by the Department of Ecology, Evolution, and Environmental Biology.

Departmental Honors
The Department of Earth and Environmental Science awards departmental honors to the major or majors in Earth science or environmental science judged to have the best overall academic record. The award is accorded to no more than 10% of the graduating class, or one student in the case of a class smaller than 10. A grade point average of at least 3.6 in the major and a senior thesis or equivalent research of high quality are required. Students who wish to be considered should contact the director of undergraduate studies early in their senior year.

Professors
- Wallace S. Broecker
- Nicholas Christie-Blick
- Joel E. Cohen
- Peter B. de Menocal
- Hugh Ducklow
- Sonya Dyhrman
- Peter Eisenberger
- Göran Ekström
- Arlene M. Fiore
- Steven L. Goldstein
- Arnold L. Gordon
- Kevin L. Griffin
- Sidney R. Hemming (Chair)
- Peter B. Kelemen (Associate Chair)
- Galen McKinley
- Jerry F. McManus
- William H. Menke

Guidelines for All Earth and Environmental Sciences Majors, Concentrators, and Special Concentrators

Advising

All majors and concentrators, when planning their programs of study, should regularly consult the directors of undergraduate studies, who can be contacted through the department office on the fifth floor of Schermerhorn. The requirements are different for each major and concentration and must be met in conjunction with the general requirements for the bachelor’s degree. Declaration of the major must be approved by the department and filed in the departmental office.

Substitutions and Exceptions

1. Higher-level courses may be used to satisfy supporting mathematics and science requirements for students with Advanced Placement preparation with the permission of the major adviser.

2. In addition to the courses listed for the depth and breadth and related courses requirements, several graduate-level courses offered in the department as well as several advanced courses offered at Barnard may be substituted with the permission of the major adviser.

3. 1000-level courses in the Earth and Environmental Sciences Department cannot be used toward meeting the requirements of any of the majors, concentrations, or special concentrations.

4. The following courses are not suitable for undergraduates and cannot be used toward meeting any of the requirements for the majors, concentrations, or special concentrations:

   - EESC W4001: Dynamics of Climate Variability and Climate Change
   - EESC GU4401: Quantitative Models of Climate-Sensitive Natural and Human Systems
   - EESC GU4930: Earth’s Oceans and Atmosphere
   - EESC GU4404: Regional Climate and Climate Impacts

Grading

A grade of C- or better must be obtained for a course to count toward the majors, concentrations, or special concentrations. The grade of P is not acceptable, but a course taken Pass/D/Fail may be counted if and only if the P is uncovered by the Registrar’s deadline.

Major in Earth Science

Please read Guidelines for All Earth and Environmental Sciences Majors, Concentrators, and Special Concentrators above.

The major in Earth science requires a minimum of 45.5 points, distributed as follows:

Foundation Courses

- EESC UN2100: Earth’s Environmental Systems: The Climate System
- EESC UN2200: Earth’s Environmental Systems: The Solid Earth System

Students who wish to take both EESC UN2100 Earth’s Environmental Systems: The Climate System and EESC UN2300 Earth’s Environmental Systems: The Life System can include one of these under breadth and related fields below.

Supporting Mathematics and Science Courses

One semester of Calculus at the level of Calculus I or higher (3 credits)

- MATH UN1101: Calculus I

Select one of the following three-course sequences:
CHEM UN1403  General Chemistry I (Lecture) and General Chemistry II (Lecture) and General Physics I
CHEM UN1403  General Chemistry I (Lecture) and General Physics I
PHYS UN1201  General Physics II

Capstone Experience
Select one of the following:

- EESC BC3800  Senior Research Seminar and Environmental Science Senior Seminar
- EESC BC3801  Senior Research Seminar and Environmental Science Senior Seminar

A six to eight week summer geology field course

Breadth and Related Fields Requirement
A minimum of 6 points (two courses) chosen with the major adviser are required.

Breadth and related field courses are science courses relevant for an Earth science major that do not require an Earth science background. Several such courses are offered at the 2000-, 3000- and 4000-level in the department and at Barnard. Examples include:

- EESC UN2100  Earth’s Environmental Systems: The Climate System
- EESC UN2300  Earth’s Environmental Systems: The Life System
- EESC UN3010  Field Geology
- EESC BC3017  Environmental Data Analysis
- EESC GU4050  Global Assessment and Monitoring Using Remote Sensing
- EESC GU4600  Earth Resources and Sustainable Development
- EESC GU4917  Earth/Human Interactions
- EAEE E2002  Alternative energy resources

Also included among breadth and related fields courses are science, mathematics, statistics, and engineering courses offered by other departments that count toward fulfilling degree requirements in those departments.

Depth Requirement
A minimum of 12 points (four courses) chosen with the major adviser to provide depth in the field of Earth science.

These courses build on the foundation and supporting courses listed above and provide a coherent focus in some area of Earth science. Students should include at least one of the following in their course of study:

EESC UN3101  Geochemistry for a Habitable Planet
  or EESC UN3201  Solid Earth Dynamics

Areas of focus include one of the courses listed above and three or more additional courses. Students are not required to specialize in a focus area, but examples are given below for those who choose to do so.

Geological Science
- EESC GU4090  Introduction to Geochronology and Thermochronology
- EESC GU4113  Introduction to Mineralogy
- EESC GU4223  Sedimentary Geology
- EESC GU4230  Crustal Deformation
- EESC GU4701  Introduction to Igneous Petrology
- EESC GU4887  Isotope Geology I
- EESC GU4947  Plate Tectonics

It is strongly recommended that students focusing in geological science take the summer geology field course as their capstone experience.

Geochemistry
- EESC UN3015  The Earth’s Carbon Cycle
- EESC BC3016  Environmental Measurements
- EESC BC3200  Ecotoxicology
- EESC GU4090  Introduction to Geochronology and Thermochronology
- EESC GU4113  Introduction to Mineralogy
- EESC GU4701  Introduction to Igneous Petrology
- EESC GU4885  The Chemistry of Continental Waters
- EESC GU4887  Isotope Geology I
- EESC GU4926  Principles of Chemical Oceanography

It is recommended that students focusing in geochemistry take CHEM UN1403-CHEM UN1404 General Chemistry I and II, and PHYS UN1201 General Physics I as their supporting science sequence.

Atmosphere and Ocean Science
- EESC GU4008  Introduction to Atmospheric Science
- EESC GU4920  Paleoclimatology
- EESC GU4924  Introduction to Atmospheric Chemistry
- EESC GU4925  Principles of Physical Oceanography
- EESC GU4926  Principles of Chemical Oceanography

It is recommended that students focusing on atmosphere and ocean science also take a course in fluid dynamics and a course in differential equations.

Solid Earth Geophysics
- EESC GU4230  Crustal Deformation
- EESC GU4300  The Earth’s Deep Interior
- EESC GU4937  Cenozoic Paleoclimatology
- EESC GU4947  Plate Tectonics
It is recommended that students focusing in solid Earth geophysics take PHYS UN1201-PHYS UN1202 General Physics I and II, and CHEM UN1403 General Chemistry I as their supporting science sequence and also take MATH UN1201 Calculus II.

Climate

- EESC UN3015 The Earth’s Carbon Cycle
- EESC GU4008 Introduction to Atmospheric Science
- EESC GU4330 Introduction to Terrestrial Paleoclimate
- EESC GU4937 Cenozoic Paleceanography

It is recommended that students focusing in paleontology take EESC UN2300 Earth’s Environmental Systems: The Life System, as one of their foundation courses.

Major in Environmental Science

Please read Guidelines for all Earth and Environmental Sciences Majors, Concentrators, and Special Concentrators above.

The major in environmental science requires a minimum of 47 points, distributed as follows:

Foundation Courses

- EESC UN2100 Earth’s Environmental Systems: The Climate System
- EESC UN2200 Earth’s Environmental Systems: The Solid Earth System
- EESC UN2300 Earth’s Environmental Systems: The Life System

Supporting Mathematics and Science Courses

One semester of Calculus at the level of Calculus I or higher (3 credits)
MATH UN1101 Calculus I
Select one of the following three-course sequences:

CHEM UN1403 General Chemistry I (Lecture) and General Chemistry II
- CHEM UN1404 and General Chemistry II
- PHYS UN1201 (Lecture) and General Physics I

CHEM UN1403 General Chemistry I (Lecture) and General Physics I
- PHYS UN1201 and General Physics II
- PHYS UN1202 and General Physics I

CHEM UN1403 General Chemistry I (Lecture) and Environmental Biology I: Elements to Organisms
- EEEB UN2001 and General Physics I
- PHYS UN1201

Capstone Experience

- EESC BC3800 Senior Research Seminar
- or EESC BC3801 Senior Research Seminar
- EESC UN3901 Environmental Science Senior Seminar

Breadth and Related Fields Requirement

A minimum of 6 points (two courses) chosen with the major adviser are required.

Breadth and related field courses are science courses relevant for an environmental science major that do not require an environmental science background. Several such courses are offered at the 2000-, 3000- and 4000-level in the department and at Barnard. Examples include:

- EESC BC3017 Environmental Data Analysis
- EESC GU4050 Global Assessment and Monitoring Using Remote Sensing
- EESC GU4600 Earth Resources and Sustainable Development
- EESC GU4917 Earth/Human Interactions
- EESC UN3010 Field Geology

Also included among breadth and related fields courses are science, mathematics, statistics, and engineering courses offered by other departments that count toward fulfilling degree requirements in those departments.

Depth Requirement

A minimum of 9 points (three courses) chosen with the major adviser to provide depth in the field of environmental science.

These courses build on the foundation and supporting courses listed above and provide a coherent focus in some area of environmental science. Students should include at least one of the following in their course of study:

- EESC UN3101 Geochemistry for a Habitable Planet
- or EESC UN3201 Solid Earth Dynamics

Areas of focus include one of the courses listed above and two or more additional courses. Students are not required to
specialize in a focus area, but examples are given below for those who choose to do so.

**Environmental Geology**

<td>Earth’s Environmental Systems: The Solid Earth System</td>
</tr>
</tbody>
</table>

### Supporting Mathematics and Science Courses

Two science or mathematics courses (6-7 points) selected from among those listed for the Earth science major above.

### Depth and Breadth and Related Fields Requirements

A minimum of 10 points (typically three courses) is required as follows:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN3010</td>
<td>Geochemistry for a Habitable Planet</td>
</tr>
<tr>
<td>EESC UN3201</td>
<td>Solid Earth Dynamics</td>
</tr>
</tbody>
</table>

One additional course chosen from those listed under Depth Requirement for the earth science major above.

The third course selected from those listed under either Depth Requirement or Breadth and Related Fields Requirement for the earth science major above.

---

### Concentration in Environmental Science

Please read Guidelines for all Earth and Environmental Sciences Majors, Concentrators, and Special Concentrators above.

The concentration in environmental science requires a minimum of 25.5 points, distributed as follows:

#### Foundation Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EESC UN1000</td>
<td>Earth’s Environmental Systems: The Climate System</td>
</tr>
<tr>
<td>EESC UN2200</td>
<td>Earth’s Environmental Systems: The Solid Earth System</td>
</tr>
<tr>
<td>EESC UN2300</td>
<td>Earth’s Environmental Systems: The Life System</td>
</tr>
</tbody>
</table>

#### Supporting Mathematics and Science Courses

Two science or mathematics courses (6-7 points) selected from among those listed for the environmental science major above.

#### Depth and Breadth and Related Fields Requirements

A minimum of 6 points (two courses) is required as follows:
Special Concentration in Environmental Science for Majors in Environmental Biology

Please read Guidelines for all Earth and Environmental Sciences Majors, Concentrators, and Special Concentrators above.

The Department of Earth and Environmental Sciences sponsors a special concentration which must be done in conjunction with the environmental biology major. Students should be aware that they must complete the environmental biology major in order to receive credit for the special concentration.

The special concentration in environmental biology requires a minimum of 39 points, distributed as follows:

Introductory Environmental Biology and Environmental Science (17 points)

EEEB UN2001 Environmental Biology I: Elements to Organisms
EESC UN2100 Earth’s Environmental Systems: The Climate System
EESC UN2200 Earth’s Environmental Systems: The Solid Earth System
EEEB UN2002 Environmental Biology II: Organisms to the Biosphere

Introductory Science (13 points)

Select one of the following chemistry sequences:

CHEM UN1403 - CHEM UN1404 General Chemistry I (Lecture) and General Chemistry II (Lecture)
CHEM UN1604 - CHEM UN2507 Intensive General Chemistry (Lecture) and Intensive General Chemistry Laboratory

One term of statistics such as the following:

STAT UN1101 Introduction to Statistics
STAT UN1201 Calculus-Based Introduction to Statistics
BIOL BC2286 Statistics and Research Design
EEEB UN3005 Introduction to Statistics for Ecology and Evolutionary Biology
EEEB UN3087 Conservation Biology

Advanced Environmental Biology and Environmental Science (9 points)

Three additional advanced EEEB courses (3000-level and above), each chosen from a different curricular area (evolution/genetics, ecology/behavior/conservation, anatomy/physiology/diversity, biology laboratory courses).
Advanced courses used to fulfill requirements in the environmental science major cannot count toward requirements for the special concentration.

Sustainable Development

Students interested in sustainable development should refer to the Sustainable Development section in this Bulletin.

ETHNICITY AND RACE STUDIES

Center for the Study of Ethnicity and Race: 423 Hamilton; 212-854-0507
http://www.columbia.edu/cu/cser/

Program Director: Prof. Neferti Tadiar, 425 Hamilton; 212-854-2564; nt2181@columbia.edu
(fn2103@columbia.edu)

Director of Undergraduate Studies: Prof. Catherine Fennell, 957 Schermerhorn Extension; 212-854-7752; ck2106@columbia.edu

Founded in 1999, the Center for the Study of Ethnicity and Race (CSER) is an interdisciplinary intellectual space whose mission is to advance the most innovative teaching, research, and public discussion about race and ethnicity. To promote its mission, the Center organizes conferences, seminars, exhibits, film screenings, and lectures that bring together faculty, undergraduates, and graduate students with diverse interests and backgrounds. Moreover, CSER partners with departments, centers, and institutes at Columbia, as well as with colleagues and organizations on and off campus, in order to reach new audiences and facilitate an exchange of knowledge.

PROGRAMS OF STUDY

The ethnicity and race studies major encompasses a variety of fields and interdisciplinary approaches to the critical study of ethnicity and race. What makes CSER unique is its attention to the comparative study of racial and ethnic categories in the production of social identities, power relations, and forms of knowledge in a multiplicity of contexts including the arts, social sciences, natural sciences, and humanities. In addition to the major, CSER also offers a concentration in ethnicity and race studies.

In both the major and concentration, students have the opportunity to select from the following areas of specialization:

- Asian American studies
- Comparative ethnic studies
- Latino/a studies
- Native American/Indigenous studies
- Individualized courses of study

Faculty and students find this field exciting and important because it opens up new ways of thinking about two fundamental aspects of human social existence: race and ethnicity. Although various traditional disciplines such as history, sociology, anthropology, and literature, among others, offer valuable knowledge on race and ethnicity, ethnicity and race studies provides a flexible interdisciplinary and comparative space to bring the insights of various conceptual frameworks and disciplines together in critical dialogue.

Overall, this program introduces students to the study of ethnicity and race, and the deep implications of the subject matter for thinking about human bodies, identity, culture, social hierarchy, and the formation of political communities. The major encourages students to consider the repercussions of racial and ethnic identifications to local and global politics, and how race and ethnicity relates to gender, sexuality, and social class, among other forms of hierarchical difference.

Students majoring in ethnicity and race studies may focus their work on specific groups, such as Asian Americans, Latinos, or Native Americans; or a comparative study of how race and ethnicity are formed and how conceptions of race and ethnicity transform and change over time and place. Students also have the option of designing an individualized course of study, which may encompass a wide variety of themes. Among the most studied are those involving the relationship between race, ethnicity and law; health; human rights; urban spaces; cultural production; visual culture; and the environment.

Due to its rigorous curriculum, which trains students in theory, history, and a wide range of modes of inquiry, the major enables students to follow multiple directions after graduation. According to our internal surveys, nearly half of CSER students continue to Ph.D. programs in history, anthropology, and ethnic studies, among other areas. A second significant number of students continue on to professions most notably related to law, public policy, medicine, human rights, community organizing, journalism, and the environment.

STUDY ABROAD

Students are highly encouraged to participate in study abroad programs, as they represent an exciting opportunity to learn new languages and live in countries that are germane to their areas of study. In addition, traveling abroad can enrich every student’s intellectual experience by providing an opportunity to learn about other perspectives on ethnicity and race.

In summer 2017 CSER, together with Columbia’s Office of Global Programs (OGP) launched a pilot summer program in Mexico City in collaboration with the Centro de Investigación y Docencia Economicas—CIDE, a leading institution of higher education with a focus in the social sciences. The program consists of an intensive 5-week CSER core course, “Colonization-Decolonization,” visits to various historical colonial sites and a field trip to Oaxaca. Professors Claudio Lomnitz and Manan Ahmed jointly taught the class. Eleven Columbia students participated in this exchange. For more
information about Summer 2018 Global Programs, please contact cser@columbia.edu

In the past, students have also participated in study abroad programs in Australia, Dominican Republic, Mexico, and South Africa. To ensure that study abroad complements the major and integrates effectively with the requirements of the major, students are encouraged to consult with CSER’s undergraduate adviser as early in their academic program as possible. The director of undergraduate studies can advise students on what may be exciting programs for their areas.

DEPARTMENTAL HONORS

CSER majors may choose to write and/or produce an honors project. If a monograph, the honors thesis is expected to be 35-50 pages in length. Honors projects can also take other forms, such as video or websites. These projects also require a written component, but of a shorter length than the traditional thesis. During their senior year, honors students perform research as part of CSER UN3990 Senior Project Seminar. Senior projects are due in early April.

In order to qualify for departmental honors, students must satisfy all the requirements for the major, maintain a GPA of at least 3.6 in the major, and complete a high quality honors project. In addition, each student is expected to meet periodically with his or her supervising project adviser and preceptor. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

Executive Committee

- Sayantani DasGupta (CSER, Professional Studies)
- Catherine Fennel (Anthropology)
- Karl Jacoby (History)
- Natasha Lightfoot (History)
- Claudio Lomnitz (Anthropology)
- Frances Negrón-Muntaner (English and Comparative Literature)
- Mae Ngai (History)
- Ana Maria Ochoa (Ethnomusicology)
- Gary Okihiro (School of International and Public Affairs)
- Deborah Paredes (CSER and Professional Practice)
- Audra Simpson (Anthropology)
- Neferti Tadiar (Barnard, Women’s Studies)
- Gray Tuttle (East Asian Languages and Cultures)

Affiliated Faculty

- Rachel Adams (English and Comparative Literature)
- Carlos Alonso (Latin American and Iberian Cultures)
- Christina Burnett (Law School)
- Nadia Abu El-Haj (Anthropology, Barnard)
- Kevin Fellezs (Music)
- Kaíama L. Glover (French, Barnard)
- Steven Gregory (Anthropology)
- Kim Hall (English, Barnard)
- Marianne Hirsch (English and Comparative Literature)
- Maja Horn (Spanish and Latin American Cultures, Barnard)
- Jean Howard (English and Comparative Literature)
- Elizabeth Hutchinson (Art History, Barnard)
- Clara Irazabal Zurita (Architecture, Planning and Preservation)
- Ira Katzenelson (Political Science)
- George Lewis (Music)
- Natasha Lightfoot (History)
- Jose Moya (History, Barnard)
- Celia Naylor (History, Barnard)
- Greg Pflugfelder (East Asian Languages and Cultures)
- Pablo Piccato (History)
- Caterina Pizzigoni (History)
- Elizabeth A. Povinelli (Anthropology)
- Bruce Robbins (English and Comparative Literature)
- Samuel Roberts (History)
- Joseph Slaughter (English and Comparative Literature)
- Dennis Tenen (English and Comparative Literature)

MAJOR IN ETHNICITY AND RACE STUDIES

The major in ethnicity and race studies consists of a minimum of 27 points. Students take three core courses (may choose between CSER UN1010 and CSER UN1040) and write a senior research project. Following the core courses, students take a minimum of four elective courses, one of which must be a seminar:

Core Courses

| CSER UN1010 | Introduction to Comparative Ethnic Studies (or) |
| CSER UN1040 | Critical Approaches to the Study of Ethnicity and Race |
| CSER UN3919 | Modes of Inquiry |
| CSER UN3928 | Colonization/Decolonization |

Specialization

Students must complete at least four courses, in consultation with their major adviser, in one of the following areas of specialization:

- Asian American studies
- Comparative ethnic studies
- Latino/a studies
- Native American/Indigenous studies
- Individualized courses of study

Senior Research Project

| CSER UN3990 | Senior Project Seminar |

230
The final requirement for the major is completion of a senior essay, to be written in the spring of the senior year. All CSER seniors are expected to present their paper at the annual undergraduate symposium in April. Students may fulfill this requirement in one of the following two ways:

1. By matriculating in the Senior Thesis course and writing the thesis under the supervision of the course faculty.
2. By taking an additional 4-point seminar where a major paper is required and further developing the paper into a thesis length work (minimum of 30 pages) under the supervision of a CSER faculty member.

**Language Courses**

One of the following is highly recommended, although not required for the major:

- One course beyond the intermediate-level in language pertinent to the student’s focus
- An introductory course in a language other than that used to fulfill the degree requirements, but that is pertinent to the student’s focus
- A linguistics or other course that critically engages language
- An outside language and study abroad programs that include an emphasis on language acquisition

---

**Concentration in Ethnicity and Race Studies**

The requirements for this program were modified on September 19, 2014. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

The concentration in ethnicity and race studies requires a minimum of 19 points. Students take two core courses (may choose between CSER UN1010 and CSER UN1040) and four elective courses, one of which must be a seminar:

**Core Courses**

- **CSER UN1010** Introduction to Comparative Ethnic Studies (or)
- **CSER UN1040** Critical Approaches to the Study of Ethnicity and Race
- **CSER UN3928** Colonization/Decolonization

**Specialization**

Students must complete at least four courses, in consultation with their major adviser, in one of the following areas of specialization:

- Asian American studies
- Comparative ethnic studies
- Latino/a studies
- Native American/Indigenous studies
- Individualized courses of study

---

**Evolutionary Biology of the Human Species**

**Departmental Office:** Schermerhorn Extension, 10th floor; 212-854-9987
http://e3b.columbia.edu/

**Director of Undergraduate Studies:** Dr. Matthew Palmer, 1010 Schermerhorn; 212-854-4767; mp2434@columbia.edu

**Evolutionary Biology of the Human Species Adviser:** Dr. Jill Shapiro, 1011 Schermerhorn Extension; 212-854-5819; jss19@columbia.edu

**Director, Administration and Finance:** Lourdes A. Gautier, 1014B Schermerhorn Extension; 212-854-8665; lg2019@columbia.edu

The Department of Ecology, Evolution & Environmental Biology (E3B) at Columbia University was established in 2001. Although we are a relatively new department, we have grown rapidly in the past decade. We now have an internationally diverse student body and a broad network of supporters at Columbia and throughout New York City. Our affiliated faculty members come from departments at Columbia as well as from the American Museum of Natural History (http://www.amnh.org), the New York Botanical Garden (http://www.nybg.org), the Wildlife Conservation Society (http://www.wcs.org), and the EcoHealth Alliance (http://www.ecohealthalliance.org). Together, we provide an unparalleled breadth and depth of research opportunities for our students.

In creating E3B, Columbia University recognized that the fields of ecology, evolutionary biology, and environmental biology constitute a distinct subdivision of the biological sciences with its own set of intellectual foci, theoretical foundations, scales of analysis, and methodologies.

E3B’s mission is to educate a new generation of scientists and practitioners in the theory and methods of ecology, evolution, and environmental biology. Our educational programs emphasize a multi-disciplinary perspective to understand life on Earth from the level of organisms to global processes that sustain humanity and all life.

To achieve this multi-disciplinary perspective, the department maintains close ties to over 70 faculty members beyond its central core. Thus, many faculty members who teach, advise, and train students in research are based in other departments on the Columbia campus or at the partner institutions. Through this collaboration, the department is able to tap into a broad array of scientific and intellectual resources in the greater New York City area. The academic staff covers the areas of plant and animal systematics; evolutionary and
population genetics; ecosystem science; demography and population biology; behavioral and community ecology; and related fields of epidemiology, ethnobiology, public health, and environmental policy. Harnessing the expertise of this diverse faculty and the institutions of which they are a part, E3B covers a vast area of inquiry into the evolutionary, genetic, and ecological relationships among all living things.

**FACILITIES AND COLLABORATIVE INSTITUTIONS**

**The Department of Ecology, Evolution, and Environmental Biology (E3B)**

In addition to the off-campus facilities detailed below, the Columbia community offers academic excellence in a range of natural and social science disciplines that are directly related to biodiversity conservation including: evolution, systematics, genetics, behavioral ecology, public health, business, economics, political science, anthropology, and public and international policy. These disciplines are embodied in world-class departments, schools, and facilities at Columbia. The divisions that bring their resources to bear on issues most relevant to E3B’s mission are: the Lamont-Doherty Earth Observatory, the School of International and Public Affairs, the Goddard Institute for Space Studies, the International Research Institute for Climate Prediction, the Black Rock Forest Reserve in New York State, the Rosenthal Center for Alternative/Complementary Medicine, the Division of Environmental Health Sciences at the School of Public Health, and the Center for International Earth Science Information Network (CIESIN). Several of these units of the University are networked through the Earth Institute at Columbia, a division of the University that acts as an intramural network of environmental programs and supplies logistical support for constituent programs, through planning, research, seminars, and conferences. All of the above schools, centers, and institutes contribute to finding solutions for the world’s environmental challenges.

**The Earth Institute Center for Environmental Sustainability (EICES)**

The Earth Institute Center for Environmental Sustainability (EICES), formerly known as the Center for Environmental Research and Conservation (CERC), is actively involved in protecting biodiversity and ecosystems. The Earth Institute Center for Environmental Sustainability is dedicated to the development of a rich, robust, and vibrant world within which we can secure a sustainable future. Through a diverse array of strategic partners in science, education, and outreach, the center builds unique programs that promote human well-being through the preservation, restoration, and management of biodiversity, and the services our ecosystems provide.

The Center for Environmental Research and Conservation (CERC), a leading provider of cutting-edge environmental research, education, and training, since its inception in 1994, has grown into two institutions—an Earth institute center and a Secretariat for a major environmental consortium. The center’s new name is the Earth Institute Center for Environmental Sustainability (EICES, pronounced “i-sees”). EICES also continues, however, as the Secretariat for the Consortium for Environmental Research and Conservation, continuing 15 years of collaborations between the Earth Institute, the American Museum of Natural History, the New York Botanical Garden, The Wildlife Conservation Society, and EcoHealth Alliance on biodiversity conservation.

**American Museum of Natural History**

The American Museum of Natural History is one of the world’s preeminent scientific, educational, and cultural institutions. Since its founding in 1869, the Museum has advanced its global mission to discover, interpret, and disseminate information about human cultures, the natural world, and the universe through a wide-reaching program of scientific research, education, and exhibitions. The institution comprises 45 permanent exhibition halls, state-of-the-art research laboratories, one of the largest natural history libraries in the Western Hemisphere, and a permanent collection of 32 million specimens and cultural artifacts. With a scientific staff of more than 200, the Museum supports research divisions in anthropology, paleontology, invertebrate and vertebrate zoology, and the physical sciences. The Museum’s scientific staff pursues a broad agenda of advanced scientific research, investigating the origins and evolution of life on Earth, the world’s myriad species, the rich variety of human culture, and the complex processes that have formed and continue to shape planet Earth and the universe beyond.

The Museum’s Center for Biodiversity and Conservation (CBC) was created in June 1993 to advance the use of scientific data to mitigate threats to biodiversity. CBC programs integrate research, education, and outreach so that people, a key force in the rapid loss of biodiversity, will become participants in its conservation. The CBC works with partners throughout the world to build professional and institutional capacities for biodiversity conservation and heightens public understanding and stewardship of biodiversity. CBC projects are under way in the Bahamas, Bolivia, Madagascar, Mexico, Vietnam, and the Metropolitan New York region.

The Museum’s scientific facilities include: two molecular systematics laboratories equipped with modern high-throughput technology; the interdepartmental laboratories, which include a state-of-the-art imaging facility that provides analytical microscopy, energy dispersive spectrometry, science visualization, and image analysis to support the Museum’s scientific activities; a powerful parallel-computing facility, including a cluster of the world’s fastest computers, positioned to make significant contributions to bioinformatics; and a frozen tissue facility with the capacity to store one million DNA samples.
New York Botanical Garden

The New York Botanical Garden (NYBG), with its 7 million specimen herbarium, the largest in the Western Hemisphere, and its LuEsther T. Mertz Library, the largest botanical and horticultural reference collection on a single site in the Americas, comprises one of the very best locations in the world to study plant science. NYBG's systematic botanists discover, decipher, and describe the world's plant and fungal diversity; and its economic botanists study the varied links between plants and people. The Enid A. Haupt Conservatory, the largest Victorian glasshouse in the United States, features some 6,000 species in a newly installed "Plants of the World" exhibit. The new International Plant Science Center stores the Garden collection under state-of-the-art environmental conditions and has nine study rooms for visiting scholars. All specimens are available for on-site study or loan.

In recent years, NYBG has endeavored to grow and expand its research efforts, supporting international field projects in some two dozen different countries, ranging from Brazil to Indonesia. In 1994, AMNH and NYBG established the Lewis and Dorothy Cullman Program for Molecular Systematics Studies to promote the use of molecular techniques in phylogenetic studies of plant groups. This program offers many opportunities for research in conservation genetics. NYBG operates both the Institute for Economic Botany (IEB) and the Institute of Systematic Botany (ISB). The ISB builds on the Garden's long tradition of intensive and distinguished research in systematic botany—the study of the kinds and diversity of plants and their relationships—to develop the knowledge and means for responding effectively to the biodiversity crisis.

The Garden has also established a molecular and anatomical laboratory program, which includes light and electron microscopes, and has made enormous advances in digitizing its collection. There is currently a searchable on-line library catalog and specimen database collection with some half million unique records. Field sites around the world provide numerous opportunities for work in important ecosystems of unique biodiversity.

Wildlife Conservation Society

The Wildlife Conservation Society (WCS), founded in 1895 as the New York Zoological Society, works to save wildlife and wild lands throughout the world. In addition to supporting the nation's largest system of zoological facilities—the Bronx Zoo; the New York Aquarium; the Wildlife Centers in Central Park, Prospect Park, and Flushing Meadow Park; and the Wildlife Survival Center on St. Catherine's Island, Georgia—WCS maintains a commitment to field-based conservation science. With 60 staff scientists and more than 100 research fellows, WCS has the largest professional field staff of any U.S.-based international conservation organization. Currently, WCS conducts nearly 300 field projects throughout the Americas, Asia, and Africa. The field program is supported by a staff of conservation scientists based in New York who also conduct their own research.

WCS's field-based programs complement the organization's expertise in veterinary medicine, captive breeding, animal care, genetics, and landscape ecology, most of which are based at the Bronx Zoo headquarters. WCS's Conservation Genetics program places an emphasis on a rigorous, logical foundation for the scientific paradigms used in conservation biology and is linked to a joint Conservation Genetics program with the American Museum of Natural History. The Wildlife Health Sciences division is responsible for the health care of more than 17,000 wild animals in the five New York parks and wildlife centers. The departments of Clinical Care, Pathology, Nutrition, and Field Veterinary Programs provide the highest quality of care to wildlife.

EcoHealth Alliance

EcoHealth Alliance is an international organization of scientists dedicated to the conservation of biodiversity. For more than 40 years, EcoHealth Alliance has focused its efforts on conservation. Today, they are known for innovative research on the intricate relationships between wildlife, ecosystems, and human health.

EcoHealth Alliance's work spans the U.S. and more than 20 countries in Central and South America, the Caribbean, Africa, and Asia to research ways for people and wildlife to share bioscapes for their mutual survival. Their strength is built on innovations in research, education, and training and accessibility to international conservation partners.

Internationally, EHA programs support conservationists in over a dozen countries at the local level to save endangered species and their habitats, and to protect delicate ecosystems for the benefit of wildlife and humans.

ACADEMIC PROGRAMS

The Department of Ecology, Evolution, and Environmental Biology runs two undergraduate majors/concentrations. The primary major is in environmental biology and the second is evolutionary biology of the human species. The foci and requirements vary substantially and are intended for students with different academic interests.

The environmental biology major emphasizes those areas of biology and other disciplines essential for students who intend to pursue careers in the conservation of Earth’s living resources. It is designed to prepare students for graduate study in ecology and evolutionary biology, conservation biology, environmental policy and related areas, or for direct entry into conservation-related or science teaching careers.

Interdisciplinary knowledge is paramount to solving environmental biology issues, and a wide breadth of courses is thus essential, as is exposure to current work. Conservation internships are available through partner institutions and
serve as research experience leading to the development of the required senior thesis.

Declaration of the environmental biology major must be approved by the director of undergraduate studies and filed in the departmental office located on the 10th floor of Schermerhorn Extension.

The major in evolutionary biology of the human species provides students with a foundation in the interrelated spheres of behavior, ecology, genetics, evolution, morphology, patterns of growth, adaptation, and forensics. Using the framework of evolution and with attention to the interplay between biology and culture, research in these areas is applied to our own species and to our closest relatives to understand who we are and where we came from. This integrated biological study of the human species is also known as biological anthropology. As an interdisciplinary major, students are also encouraged to draw on courses in related fields including biology, anthropology, geology, and psychology as part of their studies.

**Film Studies**

**Departmental Office:** 513 Dodge; 212-854-2815  
http://arts.columbia.edu/film

**Director of Undergraduate Studies:** Prof. Robert King, 509C Dodge Hall; 212-854-2815; rk2704@columbia.edu. Office hours: Wednesdays, 2–5 p.m.

The major in film studies is scholarly, international in scope, and writing-intensive. Students choose to major in film if they want to learn more about the art form, from technology to cultural significance; want to work in the film industry; or are interested in a major that combines arts and humanities.

Students usually declare the major toward the end of the second year by meeting with the departmental adviser; together, they create a program of twelve required courses within the major, often supplemented by courses outside the department. In the lecture classes and seminars, there tends to be a mixed population of undergraduate majors and graduate film students.

Students have the opportunity to gain additional experience by taking advantage of internship opportunities with film companies, working on graduate student films, and participating in the Columbia Undergraduate Film Productions (CUFP), an active, student-run organization that provides filmmaking experience to Columbia undergraduate producers and directors. In addition to careers in screenwriting, directing, and producing, alumni have gone on to work in film distribution, publicity, archives, and festivals, and to attend graduate school to become teachers and scholars.

The trajectory of the major is from introductory-level courses (three are required), to intermediate and advanced-level courses (two are required, plus seven electives). While film studies majors take workshops in screenwriting and film-making, the course of study is rooted in film history, theory, and culture.

The prerequisite for all classes is *Introduction to Film and Media Studies (FILM UN1000)* offered each term at Columbia as well as at Barnard, and open to first-year students. Subsequently, majors take a combination of history survey courses; workshops (“Labs”); and advanced classes in theory, genre study, national cinemas, auteur study, and screenwriting.

The educational goal is to provide film majors with a solid grounding in the history and theory of film; its relation to other forms of art; and its synthesis of visual storytelling, technology, economics, and sociopolitical context, as well as the means to begin writing a script and making a short film.

Students who wish to graduate with honors must take the Senior Seminar in Film Studies (FILM UN3900), writing a thesis that reflects mastery of cinematic criticism. The essay is submitted after the winter break. Students decide upon the topic with the professor and develop the essay during the fall semester.

Since film courses tend to be popular, it is imperative that students attend the first class. Registration priority is usually given to film majors and seniors.

**Departmental Honors**

In order to qualify for departmental honors, students must take FILM UN3900 Senior Seminar in Film Studies, have a GPA of at least 3.75 in the major and distinction in their overall achievements in film study. The department submits recommendations to the undergraduate honors committees for confirmation. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

**Faculty**

- James Schamus
- Edward Turk

**Major in Film Studies**

The major in film studies requires a minimum of 36 points distributed as follows:

<table>
<thead>
<tr>
<th>Introductory Courses</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>FILM UN1000 Introduction to Film and Media Studies</td>
<td></td>
</tr>
<tr>
<td>Course Code</td>
<td>Course Title</td>
</tr>
<tr>
<td>-------------</td>
<td>--------------</td>
</tr>
<tr>
<td>FILM GU4000</td>
<td>Film and Media Theory</td>
</tr>
</tbody>
</table>

**History Courses**
Select two of the following courses, one of which must either be FILM UN2010 or FILM UN2020:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>FILM UN2010</td>
<td>Cinema History 1: Beginning-1930</td>
</tr>
<tr>
<td>FILM UN2020</td>
<td>Cinema History 2: 1930-60</td>
</tr>
<tr>
<td>FILM UN2030</td>
<td>Cinema History 3: 1960-90</td>
</tr>
<tr>
<td>FILM UN2040</td>
<td>Cinema History 4: after 1990</td>
</tr>
</tbody>
</table>

**Laboratories**
Select one of the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>FILM UN2410</td>
<td>Laboratory in Writing Film Criticism</td>
</tr>
<tr>
<td>FILM UN2510</td>
<td>Laboratory in Fiction Filmmaking</td>
</tr>
<tr>
<td>FILM UN2420</td>
<td>Laboratory in Screenwriting</td>
</tr>
<tr>
<td>FILM UN2520</td>
<td>Laboratory in Nonfiction Filmmaking</td>
</tr>
</tbody>
</table>

**Electives**
Select seven of the following electives, one of which must be an international course:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>FILM UN1010</td>
<td>Genre Study</td>
</tr>
<tr>
<td>FILM UN2310</td>
<td>The Documentary Tradition</td>
</tr>
<tr>
<td>FILM UN2190</td>
<td>Topics in American Cinema</td>
</tr>
<tr>
<td>FILM UN3020</td>
<td>Interdisciplinary Studies</td>
</tr>
<tr>
<td>FILM UN3900</td>
<td>Senior Seminar in Film Studies</td>
</tr>
<tr>
<td>FILM UN3910</td>
<td>Senior Seminar in Filmmaking</td>
</tr>
<tr>
<td>FILM UN3920</td>
<td>Senior Seminar in Screenwriting</td>
</tr>
<tr>
<td>FILM UN3925</td>
<td>Narrative Strategies in Screenwriting</td>
</tr>
<tr>
<td>FILM UN3930</td>
<td>Seminar in International Film</td>
</tr>
<tr>
<td>FILM UN3950</td>
<td>Seminar in Media: Seriality</td>
</tr>
<tr>
<td>FILM UN2400</td>
<td>Script Analysis</td>
</tr>
<tr>

<td>Auteur Study</td>
</tr>
<tr>
<td>FILM UN2290</td>
<td>Topics in World Cinema: Arab and Africa</td>
</tr>
<tr>
<td>FILM G4310</td>
<td>Experimental Film and Media</td>
</tr>
<tr>
<td>FILM G4320</td>
<td>New Directions in Film and Philosophy</td>
</tr>
<tr>
<td>FILM GU4910</td>
<td>Seeing Narrative</td>
</tr>
</tbody>
</table>

**Advanced Placement**
Tests must be taken in both microeconomics and macroeconomics, with a score of 5 on one test and at least a 4 on the other. Provided that this is achieved, the department grants 4 credits for a score of 4 and 5 on the AP Economics exam along with exemption from ECON UN1105 Principles of Economics.

**Advising**
The Department of Economics offers a variety of advising resources to provide prospective and current undergraduate majors and concentrators with the information and support needed to successfully navigate through the program. These resources are described below.

**Frequently Asked Questions**
Please see: http://econ.columbia.edu/frequently-asked-questions-0

As a first step, students are encouraged to visit the department’s FAQ page, which provides comprehensive information and answers to the most frequently asked questions about the departmental majors and requirements. This page also includes a section that answers specific questions of first-years, sophomores, and non-majors.

**Graduate Student Advisers**
For answers to the most common questions that students have about the majors, the department has graduate student advisers,
who are available by e-mail at econ-advising@columbia.edu, or during weekly office hours to meet with students.

Students should direct all questions and concerns about their major to the graduate student advisers either in person or via e-mail. The graduate student advisers can discuss major requirements, scheduling, and major course selection, as well as review student checklists and discuss progress in the major. Occasionally, graduate student advisers may refer a student to someone else in the department (such as the director of undergraduate studies) or in the student’s school for additional advising.

Contact information and office hours for the graduate student advisers are posted on the Advisers page of the departmental website (http://www.columbia.edu/cu/economics) in the week prior to the beginning of the semester. Students considering one of the interdepartmental majors should speak to both a graduate student adviser from the Economics Department and the adviser from the other department early in the sophomore year.

Faculty Advisers
Faculty advisers are available to discuss students’ academic and career goals, both in terms of the undergraduate career and post-graduate degrees and research. Students wishing to discuss these types of substantive topics may request a faculty adviser by completing the form available on the Advisers page of the departmental website (http://www.columbia.edu/cu/economics) and depositing it in the mailbox of the director of undergraduate studies in the department’s main office, 1022 International Affairs Building.

The department does its best to match students with faculty members that share similar academic interests. While faculty advisers do not discuss major requirements—that is the role of the graduate student advisers—they do provide guidance in course selection as it relates to meeting a student’s intellectual goals and interests, as well as advise on career and research options. It is recommended that students who plan on attending a Ph.D. program in economics or are interested in pursuing economics research after graduation request a faculty adviser.

ON-LINE INFORMATION
Students can access useful information on-line, including: a comprehensive FAQ page; requirement changes to the major and concentration; sample programs and checklists; faculty office hours, contact information and fields of specialization; adviser information; teaching assistant information; research assistant opportunities; list of tutors; and Columbia-Barnard Economics Society information.

DEPARTMENTAL HONORS
Economics majors and economics joint majors who wish to be considered for departmental honors in economics must:

1. Have at least a 3.7 GPA in their major courses;
2. Take ECON GU4999 Senior Honors Thesis (a one-year course);
3. Receive at least a grade of A- in ECON GU4999 Senior Honors Thesis.

Students must consult and obtain the approval of the departmental undergraduate director in order to be admitted to the workshop. Please note that ECON GU4999 Senior Honors Thesis may be taken to fulfill the seminar requirement for the economics major and all economics joint majors. Students who wish to write a senior thesis (ECON GU4999 Senior Honors Thesis) must have completed the core major requirements. Normally no more than 10% of graduating majors receive departmental honors in a given academic year. Please see the Honors Prizes page on the department’s website for more information.

UNDERGRADUATE PRIZES
All prize recipients are announced at the end of the spring semester each academic year.

The Dean’s Prize in Economics
Awarded to General Studies students for excellence in the study of Economics.

Romine Prize
Established in 1997, this prize is awarded annually to two students (Columbia College or General Studies) majoring in economics: one for the best honors thesis paper, and the other for the best economics seminar paper.

Parker Prize for Summer Research

PROFESSORS
- Douglas Almond (also School of International and Public Affairs)
- Jushan Bai
- Jagdish N. Bhagwati
- Patrick Bolton (also Business School)
- André Burgstaller (Barnard)

• Irasema Alonso
  Benjamin Ho
• Steven Ho
  Neal Masia
  Caterina Musatti
• Maxim Pinkovskiy
  Mauro Roca
• Argia Sbordone

ON LEAVE
• Profs. Casella, Dutta, Gerard, O’Flaherty (2017-2018)
• Profs. Clarida, Davis, Hong (Fall 2017)
• Profs. Dean, Riordan (Spring 2018)

GUIDELINES FOR ALL ECONOMICS MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS

Economics Core Courses
All of the core courses must be completed no later than the spring semester of the student’s junior year and must be taken at Columbia. Students who take any core course during the fall semester of their senior year must obtain written permission from the department’s director of undergraduate studies. Unless otherwise specified below, all students must complete the following core courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105</td>
<td>Principles of Economics</td>
</tr>
<tr>
<td>ECON UN3211</td>
<td>Intermediate Microeconomics</td>
</tr>
<tr>
<td>ECON UN3213</td>
<td>Intermediate Macroeconomics</td>
</tr>
<tr>
<td>ECON UN3412</td>
<td>Introduction To Econometrics</td>
</tr>
</tbody>
</table>

Prerequisites
Course prerequisites are strictly enforced. Prerequisites must be taken before the course, not after or concurrently.

Economics courses taken before the completion of any of its prerequisites, even with instructor approval, are not counted toward the major, concentration, or interdepartmental majors. Exemptions from a prerequisite requirement may only be made, in writing, by the department’s director of undergraduate studies. Credits from a course taken prior to the completion of its prerequisites are not counted towards the major requirements. As a consequence, students are required
to complete additional, specific courses in economics at the direction of the director of undergraduate studies.

The prerequisites for required courses are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105 Principles of Economics</td>
<td>None</td>
</tr>
<tr>
<td>MATH UN1101 Calculus I</td>
<td></td>
</tr>
<tr>

</tbody>
</table>
It is **strongly recommended** that students take ECON UN3412 Introduction To Econometrics in the semester **immediately** following the completion of the statistics course.

**Grading**

No course with a grade of D or lower, including calculus and statistics courses, can count toward the major, concentration, or interdepartmental majors. Economics core courses with a grade of D or F must be retaken and completed with a grade of C- or better.

Students who receive a grade of D or F in a core course are permitted to take a higher-level elective course that has that core course as a prerequisite, so long as it is taken **concurrently** with the retaking of that core course. For example, if a student fails ECON UN3211 Intermediate Microeconomics, the student must retake it and, in the same semester, may enroll in an elective course for which it is a prerequisite, provided that all other prerequisites for the elective have been completed. The same rule applies to the required math and statistics courses. For example, if a student fails MATH UN1201 Calculus III, the student may retake calculus III concurrently with Intermediate Microeconomics. Students who must retake any core economics or math course may not retake it concurrently with a senior seminar; the economics core courses ECON UN3211 Intermediate Microeconomics, ECON UN3213 Intermediate Macroeconomics, and ECON UN3412 Introduction To Econometrics must be successfully completed before a student may enroll in a seminar.

A grade of W is not equivalent to a grade of D or F; it does not qualify a student to retake the course concurrently with a higher level course that lists the course as a prerequisite. Students who receive a grade of W in a core course must complete the course with a grade of C- or better before taking a course that lists it as a prerequisite.

Only ECON UN1105 Principles of Economics may be taken for a grade of Pass/D/Fail, and the student must receive a grade of P for it to count towards the requirements for the major, concentration, or interdepartmental majors.

**Economics Electives**

Only those courses identified in the Economics Department listings in this Bulletin may be taken for elective credit. All 3000-level or higher electives offered by the Economics Department have ECON UN3211 Intermediate Microeconomics and ECON UN3213 Intermediate Macroeconomics as prerequisites. However, some electives have additional prerequisites and students should ensure that all prerequisites have been completed (see the table of prerequisites printed above). **Seminars do not count as electives.**

**Seminars**

Seminars can be taken only after all of the required core courses in economics have been completed. ECON UN3412 Introduction To Econometrics may not be taken or retaken concurrently with a senior seminar. **Seminars do not count as electives.** Each seminar is limited to sixteen students, with priority given to seniors. For ECPS GU4921 Seminar In Political Economy and ECPH GU4950 Economics and Philosophy Seminar, priority is given to economics–political science and economics-philosophy majors, respectively.

For seminar registration details, read the information posted on the department’s Senior Seminar Registration page: http://econ.columbia.edu/senior-seminars-registration.

**Mathematics**

Students must consult with the Mathematics Department for the appropriate placement in the calculus sequence. Students must complete one of the following sequences:

Select one of the following sequences:

<table>
<thead>
<tr>
<th>MATH UN1101</th>
<th>Calculus I</th>
</tr>
</thead>
<tbody>
<tr>
<td>- MATH UN1201</td>
<td>and Calculus III</td>
</tr>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
<tr>
<td>- MATH UN1205</td>
<td>and Accelerated Multivariable Calculus</td>
</tr>
<tr>
<td>MATH UN1207</td>
<td>Honors Mathematics A</td>
</tr>
<tr>
<td>- MATH UN1208</td>
<td>and Honors Mathematics B</td>
</tr>
</tbody>
</table>

In addition:

1. Students who receive a grade of D or F in MATH UN1201 Calculus III or MATH UN1205 must retake the course but may enroll in ECON UN3211 Intermediate Microeconomics.
2. Students who receive a grade of D or F in MATH UN1207 Honors Mathematics A may either retake the course, or take MATH UN1201 Calculus III or MATH UN1205, and enroll in ECON UN3211 Intermediate Microeconomics concurrently.

**Statistics**

Unless otherwise specified below, all students must take STAT UN1201 Calculus-Based Introduction to Statistics, or a higher level course, such as STAT GU4204 Statistical Inference, or SIEO S3001 Introduction to Probability and Statistics.

**Barnard Courses**

A limited number of Barnard economics electives may count toward the major, concentration, and interdepartmental majors. Students should pay careful attention to the limit of Barnard electives indicated in their program requirements. Please see the Transfer Credit section below for information on the number of Barnard electives that may be taken to fulfill major requirements. In addition, students may receive credit...
for the major, concentration, and interdepartmental majors only for those Barnard economics courses listed in this Bulletin. However, students may not receive credit for two courses whose content overlaps. Barnard and Columbia economics electives with overlapping content include but are not limited to:

<table>
<thead>
<tr>
<th>Course</th>
<th>Barnard Course</th>
<th>Columbia Course</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON BC3029</td>
<td>Empirical Development and Economic Development</td>
<td></td>
</tr>
<tr>
<td>ECON BC3038</td>
<td>International Money and Finance and International Macroeconomics</td>
<td></td>
</tr>
<tr>
<td>ECON BC3019</td>
<td>Labor Economics and Labor Economics</td>
<td></td>
</tr>
<tr>

</tbody>
</table>

Students should always first consult with econ-advising to confirm that the Barnard elective they wish to take does not overlap with a Columbia elective that they have already taken or plan to take. Students may not take the Barnard core economics, math, statistics, or seminar courses for credit towards the completion of major requirements.

**School of Professional Studies Courses**

The Department of Economics does not accept any of the courses offered through the School of Professional Studies for credit towards the economics major, concentration, or interdepartmental majors with the exception of the courses offered by the Economics Department during the summer session at Columbia.

**Other Department and School Courses**

Please note that with the exception of the above Barnard courses and the specific courses listed below for the financial economics major, no other courses offered through the different departments and schools at Columbia count toward the economics majors or concentration.

**Transfer Credits**

Students are required to take a minimum number of courses in the Columbia Economics Department. For all majors and interdepartmental majors, students must complete a minimum of five lecture courses in the Columbia department. Students may fulfill their remaining requirements for economics lecture courses through AP (or IB or GCE) credits, Barnard electives, transfer courses, and study abroad courses (the latter two are subject to the approval of the Economics Department). The following table summarizes the new rules:

<table>
<thead>
<tr>
<th>Program</th>
<th>Number of required economics lecture courses</th>
<th>Minimum number which must be taken in the department</th>
<th>Maximum number of outside allowed</th>

</table>

1. Lecture courses do not include seminars, which must be taken in the Columbia Economics Department. The lecture course counts are counts of economics courses only and do not include math, statistics, or courses in other departments;
2. At least two of the three 3000-level economics core courses must be taken in the department and no corresponding Barnard courses are accepted. ECON UN3025 Financial Economics and ECON UN3265 The Economics of Money and Banking are counted as departmental courses regardless of the instructor;
3. Outside courses include AP (or IB or GCE) credits, transfer credits, Barnard 2000- and 3000-level elective courses and transfer credits from other universities. In the case where two or more courses taken outside of Columbia are used as the equivalent of ECON UN1105 Principles of Economics, those courses are counted as one transfer course.

Approval of transfer credits to fulfill economics requirements must be obtained in writing from the Department of Economics (see the departmental website (http://www.columbia.edu/cu/economics) or speak with your advising
Summer courses taken at other institutions must be approved in writing by the department’s transfer credit adviser before the course is taken. The department does not accept transfer credits for any 3000 level core courses taken during a summer session outside of Columbia University. Summer courses taken from the department of economics at Columbia University do not need approval.

Guidelines and instructions on how to request transfer credit approval can be found in the Transfer Credit Information page of the departmental website (http://www.columbia.edu/cu/economics).

MAJOR IN ECONOMICS

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The economics major requires a minimum of 35 points in economics, 6 points in mathematics, and 3 points in statistics, for a total of 44 points as follows:

Economics Core Courses
All economics core courses

Mathematics
Select a mathematics sequence

Statistics
Select a statistics course

Economics Electives
Select at least five electives, of which no more than one may be taken at the 2000-level (including Barnard courses)

Economics Seminar
Select one economics seminar course

CONCENTRATION IN ECONOMICS

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The economics concentration requires a minimum of 25 points in economics, 6 points in mathematics, and 3 points in statistics, for a total of 34 points as follows:

Economics Core Courses
All economics core courses

Mathematics
Select a mathematics sequence

Statistics
Select a statistics course

Economics Electives
Select at least three electives, of which no more than one may be taken at the 2000-level (including Barnard courses)

MAJOR IN FINANCIAL ECONOMICS

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The Department of Economics offers the major in financial economics, which provides an academic framework to explore the role of financial markets and intermediaries in the allocation (and misallocation) of capital. Among the topics studied in financial economics are financial markets, banks and other financial intermediaries, asset valuation, portfolio allocation, regulation and corporate governance.

The financial economics major requires 26 points in economics, 6 points in mathematics, 3 points in statistics, 3 points in business, and 12 points from a list of selected courses for a total of 50 points as follows:

Economics Core Courses
All economics core courses

Finance Core Courses
ECON UN3025 Financial Economics
ECON GU4280 Corporate Finance
BUSI UN3013 Financial Accounting

*NOTE: The department considers BUSI UN3013 and IEOR E2261 as overlapping courses. Students who take both courses shall be credited with one course only.

Financial economics majors who are also in the Business Management concentration program (CNBUMG) must take an additional elective from either the financial economics prescribed elective list (below) or from the CNBUMG prescribed list.

Mathematics
Select a mathematics sequence

Statistics
Select a statistics course

Electives
Select four of the following, of which two must be from the Columbia or Barnard economics departments, or equivalent economics transfer credits:

ECON BC3014 Entrepreneurship
ECON BC3017 Economics of Business Organization
ECON UN3265 The Economics of Money and Banking
ECON UN3952 Seminar in Macroeconomics and Formation of Expectations
ECON GU4020 Economics of Uncertainty and Information
ECON GU4213 Advanced Macroeconomics
ECON GU4251 Industrial Organization
ECON GU4260 Marker Design
ECON GU4412 Advanced Econometrics
ECON GU4415 Game Theory
ECON GU4465 Public Economics
ECON GU4500 International Trade
ECON GU4505 International Macroeconomics or ECON BC3038 International Money and Finance
ECON G4526 Transition Reforms, Globalization and Financial Crisis
ECON GU4700 Financial Crises
ECON GU4710 Finance and the Real Economy
ECON GU4840 Behavioral Economics
ECON GU4850 Cognitive Mechanisms and Economic Behavior
ECON GU4860 Behavioral Finance
BIOT GU4180
BUSI UN3021 Marketing Management
BUSI UN3701 Strategy Formulation
BUSI UN3702 Venturing to Change the World
BUSI UN3703 Leadership in Organizations
BUSI UN3704 Making History Through Venturing
COMS W1002 Computing in Context
HIST W2904 History of Finance
IEOR E3106 Introduction to Operations Research: Stochastic Models
IEOR E4700 Introduction to Financial Engineering
MATH UN3050 Discrete Time Models in Finance
MATH UN3630 Politics of International Economic Relations
STAT W3201 Math Finance in Continuous Time
STAT GU4261 Statistical Methods in Finance
STAT GU4207 Elementary Stochastic Processes
STAT GU4262 Stochastic Processes for Finance

Seminar
The seminar must be chosen from a list of seminars eligible for the financial economics major. The department indicates which seminars are eligible for the major on the Senior Seminars page of the departmental website.

Students must have completed at least one of ECON UN3025 or ECON GU4280 prior to taking their senior seminar.

* Students must complete the finance core no later than fall of their senior year.

MAJOR IN ECONOMICS-MATHEMATICS

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The major in economics and mathematics provides students with a grounding in economic theory comparable to that provided by the general economics major and exposes students to rigorous and extensive training in mathematics. The program is recommended for any student planning to do graduate work in economics.

The Department of Economics has graduate student advisers whom students may consult on economics requirements. The Department of Mathematics has an assigned adviser with whom students may consult on mathematics requirements. The economics adviser can only advise on economics requirements; the mathematics adviser can only advise on mathematics requirements.

The economics-mathematics major requires a total of 56 points: 29 points in economics and 27 points in mathematics and statistics as follows:

Economics Core Courses
All economics core courses

Economics Electives
Select three electives at the 3000-level or above

Mathematics
Select one of the following sequences:
MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1201 and Calculus III
- MATH UN2010 and Linear Algebra

MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1205 and Accelerated Multivariable
- MATH UN2010 Calculus and Linear Algebra

MATH UN1107 Honors Mathematics A
- MATH UN1208 and Honors Mathematics B

Note: Students who take MATH UN1205 may not receive credit for both MATH UN1201 and MATH UN1202.

Analysis requirement:
MATH UN2500 Analysis and Optimization
Select three of the following:
MATH UN1202 Calculus IV
MATH UN2030 Ordinary Differential Equations
Any mathematics course at the 3000-level or above

Note: Students who take MATH UN1205 will not receive credit for MATH UN1202.

Statistics
Select one of the following sequences:
STAT GU4001 Introduction to Probability and Statistics
STAT GU4203 PROBABILITY THEORY
- STAT GU4204 and Statistical Inference

Economics Seminar
Select an economics seminar

NOTE:
1. Students who fulfill the statistics requirement with STAT GU4203 and STAT GU4204, may count STAT GU4203 or STAT GU4204 as one of the three required mathematics electives.
2. Students who choose the one year sequence (STAT GU4203/STAT GU4204), must complete the year long sequence prior to taking ECON UN3412. Students receive elective credit for the probability course.

MAJOR IN ECONOMICS–PHILOSOPHY

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

Economics-philosophy is an interdisciplinary major that introduces students to basic methodologies of economics and philosophy and stresses areas of particular concern to both, e.g., rationality and decision making, justice and efficiency, freedom and collective choice, logic of empirical theories and testing. Many issues are dealt with historically. Classic texts of Plato, Kant, Mill, Marx, and Smith are reviewed.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Philosophy has an assigned adviser with whom students may consult on philosophy requirements. The economics adviser can only advise on economics requirements; the philosophy adviser can only advise on philosophy requirements.

The economics-philosophy major requires a total of 53 points: 25 points in economics, 15 points in philosophy, 6 points in mathematics, 3 points in statistics, and 4 points in the interdisciplinary seminar as follows:

<table>
<thead>
<tr>
<th>Economics Core Courses</th>
<th></th>

MAJOR IN ECONOMICS–POLITICAL SCIENCE

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

Political economy is an interdisciplinary major that introduces students to the methodologies of economics and political science and stresses areas of particular concern to both. This program is particularly beneficial to students planning to do graduate work in schools of public policy and international affairs.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Political Science has an assigned adviser with whom students may consult on political science requirements. The economics adviser can only advise on economics requirements; the political science adviser can only advise on political science requirements.

The economics–political science major requires a total of 57 points: 22 points in economics, 15 points in political science, 6 points in mathematics, 6 points in statistical methods, 4 points in a political science seminar, and 4 points in the interdisciplinary seminar as follows:
The political science courses are grouped into three areas, i.e. subfields: (1) American politics, (2) comparative politics, and (3) international relations. For the political science part of the major, students are required to select one area as a major subfield and one as a minor subfield. The corresponding introductory courses in both subfields must be taken, plus two electives in the major subfield, and one in the minor subfield.

**Economics Core Courses**
- ECON UN1105 Principles of Economics
- ECON UN3211 Intermediate Microeconomics
- ECON UN3213 Intermediate Macroeconomics
- ECON GU4370 Political Economy

**Mathematics**
Select a mathematics sequence

**Statistical Methods**
- STAT UN1201 Calculus-Based Introduction to Statistics
- Select one of the following:
  - ECON UN3412 Introduction To Econometrics
  - POLS GU4712 Analysis of Political Data

**Economics Electives**
Select two electives (6 points) at the 3000-level or above

**Political Science Courses**
Students must choose a Primary Subfield and a Secondary Subfield to study. The subfields are as follows: American Politics (AP), Comparative Politics (CP), International Relations (IR), and Political Theory (PT).
- Primary Subfield: Minimum three courses, one of which must be the subfield’s introductory course.
- Secondary Subfield: Minimum two courses, one of which must be the subfield’s introductory course.

**Seminars**
Students must take the following seminars:
- ECPS GU4921 Seminar In Political Economy
- and a Political Science Department seminar, in the student’s Primary Subfield. Please select one of the following: *
  - POLS UN3911 Seminar in Political Theory
  - or POLS UN3912 Seminar in Theoretical Practice
  - POLS UN3921 Seminar in American Politics
  - or POLS UN3922 Seminar in American Politics
  - POLS UN3951 Seminar in Comparative Politics
  - or POLS UN3952 Seminar in Comparative Politics
  - POLS UN3961 International Politics Seminar
  - or POLS UN3962 Seminar in International Politics
- *Students who wish to count toward the political science seminar requirement a course that is not in the above list of approved seminars must obtain permission from the political science Director of Undergraduate studies. Barnard colloquia can count for seminar credit only with the written permission of the Director of Undergraduate Studies. Note that admission to Barnard colloquia is by application to the Barnard political science department only.

---

**Major in Economics-Statistics**

Please read Guidelines for all for Economics Majors, Concentrators, and Interdepartmental Majors above.

The major in economics-statistics provides students with a grounding in economic theory comparable to that provided by the general economics major, but also exposes students to a significantly more rigorous and extensive statistics training than is provided by the general major. This program is recommended for students with strong quantitative skills and for those contemplating graduate studies in economics.

The Department of Economics has graduate student advisers with whom students may consult on economics requirements. The Department of Statistics has an assigned adviser with whom students may consult on statistics requirements. The economics adviser can only advise on economics requirements; the statistics adviser can only advise on statistics requirements.

The economics-statistics major requires a total of 59 points: 29 in economics, 15 points in statistics, 12 points in mathematics, 3 points in computer science as follows:

**Economics Core Courses**
- All economics core courses

**Economics Electives**
Select three electives at the 3000-level or above

**Mathematics**
Select one of the following sequences:
- MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1201 and Calculus III
- MATH UN2010 and Linear Algebra
- MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1205 and Accelerated Multivariable
- MATH UN2010 Calculus
- MATH UN1207 and Linear Algebra
- MATH UN1208 Honors Mathematics A
- MATH UN1208 Honors Mathematics B

**Statistics**
- STAT UN1201 Calculus-Based Introduction to Statistics
- STAT GU4203 PROBABILITY THEORY
- STAT GU4204 Statistical Inference
- STAT GU4205 Linear Regression Models

One elective in statistics from among courses numbered STAT GU 4206 through GU 4266.

**Computer Science**
Select one of the following:
- COMS W1004 Introduction to Computer Science and Programming in Java
- COMS W1005 Introduction to Computer Science and Programming in MATLAB
The Department of French and Romance Philology offers a major and concentration in French, as well as a major and concentration in French and Francophone studies. Students who are primarily interested in French literature should consider the major in French. Students who are interested in French history and civilization, and in the literature and culture of the Francophone world, should consider the major in French and Francophone studies.

**Major in French**

The major in French gives students an in-depth familiarity with the language, culture, and literature of France and the French-speaking world. After completing the four-semester language requirement, students take courses in advanced grammar, and composition to refine their skills in reading, speaking, and writing French. In a required two-semester survey course (FREN UN3333-FREN UN3334), they receive a comprehensive overview of the development of French literature from the Middle Ages to the present day. After completing these core courses, French majors are encouraged to pursue individual interests; a wide range of language, literature, and cultural studies courses is available. Small classes and seminars allow for individual attention and enable students to work closely with faculty members. Advanced elective courses on French literature, history, philosophy, and cinema allow students to explore intellectual interests, perfect critical reading skills, and master close reading techniques.

The capstone course is the senior seminar, in which students study a range of texts and critical approaches and are encouraged to synthesize their learning in previous courses. The optional senior essay, written under the direction of a faculty member, introduces students to scholarly research. To be considered for departmental honors, students must complete the senior essay.

**Major in French and Francophone Studies**

The major in French and Francophone studies provides an interdisciplinary framework for the study of the history, literature, and culture of France and parts of the world in which French is an important medium of culture. Students explore the history and contemporary applications of concepts such as citizenship, national unity, secularism, and human rights, and explore central issues including universalism/relativism, tradition/modernity, and religion/state as they have developed in France and its colonies/former colonies since the 18th century.

Students take a series of required courses that includes:

- French grammar and composition/stylistics, essential to achieving proficiency in French language;
- FREN UN3420 Introduction To French and Francophone Studies I-FREN UN3421 Introduction To French and Francophone Studies II;
- FREN UN3995 Senior Seminar.

Having completed these courses, students take courses in related departments and programs, e.g., history, anthropology, political science, women’s studies, human rights, art history, to fulfill the interdisciplinary portion of the major. To ensure methodological focus, three of these courses should be taken within a single field (e.g., history, music, anthropology, or political science), or in relation to a single issue or world region, e.g., West Africa.

**In Fulfillment of the Language Requirement**

Students beginning the study of French at Columbia must take four terms of the following two-year sequence:

Entering students are placed, or exempted, on the basis of their College Board Achievement or Advanced Placement scores, or their scores on the placement test administered by the Center for Student Advising, 403 Lerner. An SAT score of 780 or a score of 4 on the AP exam satisfies the language requirement.

The Barnard course, FREN BC1204 Intermediate II does not fulfill the undergraduate language requirement.

**Language Proficiency Courses**

Elementary and intermediate French courses help students develop an active command of the language. In FREN UN1101 Elementary French I and FREN UN1102 Elementary French II, the communicative approach is the main instructional method. In addition to practicing all four language skills—listening, speaking, reading, and writing—students are introduced to the cultural features of diverse French-speaking communities.
In intermediate courses FREN UN2101 INTERMEDIATE FRENCH I and FREN UN2102 Intermediate Course II, students develop linguistic competence through the study of short stories, films, novels, and plays. After completing the four-semester language sequence, students can discuss and write in fairly proficient French on complex topics.

At the third-year level, attention is focused on more sophisticated use of language, in grammar and composition courses, and on literary, historical, and philosophical questions.

Conversation Courses
Students looking for intensive French oral practice may take one of the 2-point conversation courses offered at intermediate and advanced levels. Conversation courses generally may not be counted toward the major. The exception is the special 3-point advanced conversation course, FREN UN3498 French Cultural Workshop, offered in the fall, designed to meet the needs of students planning to study abroad at Reid Hall.

ADVANCED PLACEMENT

- AP score of 4: The department grants 0 credits for a score of 4 on the AP French Language exam, but the foreign language requirement is satisfied.
- AP score of 5 or DELF: The department grants 3 credits for a score of 5 on the AP French Language exam, or for the completion of DELF (Diplôme d'Etudes en Langue Française). Students are awarded this credit after they take a 3000-level French course (taught in French, for at least 3 points) and obtain a grade of B or above in that course.
- DALF C1 level or IB HL score of 6 or 7: The department grants 6 credits for the C1 level of DALF (Diplôme Approfondi de Langue Française), or for a score of 6 or 7 on the International Baccalaureate (IB) Higher Level (HL) exam. Students have no obligation to take higher-level French courses in order to receive these 6 credits, but restrictions apply on the use of these credits toward the French major.

LANGUAGE LABORATORY AND ON-LINE MATERIALS

Language laboratories located in the International Affairs Building provide opportunities for intensive practice in French pronunciation and aural comprehension. French courses typically make extensive use of on-line interactive materials that students can access from their own computer terminals.

MAISON FRANÇAISE

Students interested in French should acquaint themselves with the Maison Française, which houses a reading room of French newspapers, periodicals, books, and videos, and sponsors lectures/discussions by distinguished French visitors to New York City. With its weekly French film series, book club, café-conversation and other events, the Maison Française offers an excellent opportunity for students to perfect their language skills and enhance their knowledge of French and Francophone culture.

STUDY ABROAD

Because a direct experience of contemporary French society is an essential part of the program, majors and concentrators are strongly encouraged to spend either a semester or a year at Reid Hall-Columbia University in Paris, or at another French or Francophone university. During their time abroad, students take courses credited toward the major and, in some cases, also toward other majors (e.g. history, art history, political science).

For information on study abroad, visit the OGP website at www.ogp.columbia.edu, call 212-854-2559, or e-mail studyabroad@columbia.edu. For a list of approved study abroad programs, visit http://www.ogp.columbia.edu/index.cfm?FuseAction=Programs.ListAll.

Reid Hall, Paris

Located at 4 rue de Chevreuse, Paris, Reid Hall is administered by Columbia University. It offers semester and year-long programs of study, as well as summer courses.

Most students who study at Reid Hall take courses in the French university system (e.g., at the Sorbonne) and core courses offered at Reid Hall. In their first semester, students take a course in academic writing in French, enabling them to succeed at a high level in French university courses. Special opportunities include small topical seminars of Reid Hall students and French students.

For information on study abroad at Reid Hall, visit www.ogp.columbia.edu.

GRADING

Students who wish to use toward the major or concentration a course in which a grade of D has been received must consult with the director of undergraduate studies.

DEPARTMENTAL HONORS

Majors who wish to be considered for departmental honors should consult with the director of undergraduate studies. To be eligible, students must have a grade point average of at least 3.7 in major courses and have completed an approved senior thesis under the guidance of a faculty member at Columbia or Reid Hall. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

UNDERGRADUATE PRIZES

The Department of French and Romance Philology awards the following prizes to students enrolled in courses in the department:

1. Prize for Excellence in French Studies: awarded to a highly promising student in an intermediate or advanced French course;
2. Senior French Prize: awarded to an outstanding graduating major.

PROFESSORS
• Madeleine Dobie
• Antoine Compagnon
• Souleymane Bachir Diagne
• Pierre Force
• Elisabeth Ladenson
• Emmanuelle Saada

ASSOCIATE PROFESSORS
• Peter Connor (Barnard)
• Joanna Stalnaker

ASSISTANT PROFESSORS
Thomas Dodman
Eliza Zingesser

VISITING PROFESSORS
Etienne Balibar

SENIOR LECTURERS
• Heidi Holst-Knudsen
• Pascale Hubert-Leibler
• Sophie Queuniet

LECTURERS
• Vincent Aurora
• Alexandra Borer
• Pascale Crépon
• Samuel Skippon

MAJOR IN FRENCH
The program of study should be planned before the end of the sophomore year with the director of undergraduate studies.

The major in French requires a minimum of 33 points beyond completion of the language requirement (FREN UN2102 Intermediate Course II), distributed as follows:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>FREN UN3405</td>
<td>Advanced Grammar and Composition I</td>
</tr>
<tr>
<td>FREN UN3333 - FREN UN3334</td>
<td>Introduction to Literary Study I and Introduction to Literary Studies II</td>
</tr>
<tr>
<td>FREN UN3600</td>
<td>France, Past and Present. An Introduction to French Civilization.</td>
</tr>
<tr>
<td>FREN UN3995</td>
<td>Senior Seminar</td>
</tr>
</tbody>
</table>

Select one upper-level course on literature before 1800.

The remaining four courses (12 points) are to be chosen from 3000-level offerings in French literature, linguistics, or civilization.

One of the following advanced language classes can be counted as an elective: French for Diplomats; French Culture, Language and Society through…; Advanced Translation Workshop; and The Cultural Workshop.

Note the following:
• FREN BC3006 Composition and Conversation is not applicable to either the French major or the concentration. Other Barnard French courses may be taken with the approval of the director of undergraduate studies;
• Heritage speakers are exempted from FREN UN3405 Advanced Grammar and Composition I, but must replace the course by taking an advanced elective.

The following Columbia French courses are not applicable to the French major or concentration:

<table>

CONCENTRATION IN FRENCH
The requirements for this program were modified on March 1, 2016. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

The concentration in French requires a minimum of 24 points beyond completion of the language requirement (FREN UN2102 Intermediate Course II), distributed as follows:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>FREN UN3405</td>
<td>Advanced Grammar and Composition I</td>
</tr>
<tr>
<td>FREN UN3333 - FREN UN3334</td>
<td>Introduction to Literary Study I and Introduction to Literary Studies II</td>
</tr>
<tr>
<td>FREN UN3600</td>
<td>France, Past and Present. An Introduction to French Civilization.</td>
</tr>
</tbody>
</table>
The remaining four courses (12 points) are to be chosen from 3000-level offerings in French literature, linguistics, or civilization.

One of the following advanced language classes can be counted as an elective: French for Diplomats; French Culture, Language and Society through…; Advanced Translation Workshop; and The Cultural Workshop.

MAJOR IN FRENCH AND FRANCOPHONE STUDIES

The requirements for this program were modified on February 14, 2014. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

The program of study should be planned before the end of the sophomore year with the director of undergraduate studies.

The major in French and Francophone studies requires a minimum of 33 points beyond completion of the language requirement (FREN UN2102 Intermediate Course II), distributed as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>FREN UN3405</td>
<td>Advanced Grammar and Composition I</td>
</tr>
<tr>
<td>FREN UN3420</td>

<tr>
<td>FREN UN3421</td>
<td>Introduction To French and Francophone Studies II</td>
</tr>
<tr>
<td>FREN UN3995</td>
<td>Senior Seminar</td>
</tr>
</tbody>
</table>

Select one course on Francophone/postcolonial French literature.

The following Columbia French courses are not applicable to the French and Francophone studies major or concentration:

- FREN BC3006 Composition and Conversation
- Other Barnard College French courses may be taken with the approval of the director of undergraduate studies;
- Heritage speakers can be exempted from FREN UN3405 Advanced Grammar and Composition I, but must replace the course by taking an advanced elective.

- FREN UN3132 Third-Year Conversation II

FRENCH AND FRANCOPHONE STUDIES

Departmental Office: 515 Philosophy; 212-854-2500 or 212-854-3208
http://www.columbia.edu/cu/french/
Major in French
The major in French gives students an in-depth familiarity with the language, culture, and literature of France and the French-speaking world. After completing the four-semester language requirement, students take courses in advanced grammar, and composition to refine their skills in reading, speaking, and writing French. In a required two-semester survey course (FREN UN3333-FREN UN3334), they receive a comprehensive overview of the development of French literature from the Middle Ages to the present day. After completing these core courses, French majors are encouraged to pursue individual interests; a wide range of language, literature, and cultural studies courses is available. Small classes and seminars allow for individual attention and enable students to work closely with faculty members. Advanced elective courses on French literature, history, philosophy, and cinema allow students to explore intellectual interests, perfect critical reading skills, and master close reading techniques.

The capstone course is the senior seminar, in which students study a range of texts and critical approaches and are encouraged to synthesize their learning in previous courses. The optional senior essay, written under the direction of a faculty member, introduces students to scholarly research. To be considered for departmental honors, students must complete the senior essay.

In Fulfillment of the Language Requirement
Students beginning the study of French at Columbia must take four terms of the following two-year sequence:

Entering students are placed, or exempted, on the basis of their College Board Achievement or Advanced Placement scores, or their scores on the placement test administered by the Center for Student Advising, 403 Lerner. An SAT score of 780 or a score of 4 on the AP exam satisfies the language requirement.

The Barnard course, FREN BC1204 Intermediate II does not fulfill the undergraduate language requirement.

Language Proficiency Courses
Elementary and intermediate French courses help students develop an active command of the language. In FREN UN1101 Elementary French I and FREN UN1102 Elementary French II, the communicative approach is the main instructional method. In addition to practicing all four language skills—listening, speaking, reading, and writing—students are introduced to the cultural features of diverse French-speaking communities.

In intermediate courses FREN UN2101 INTERMEDIATE FRENCH I and FREN UN2102 Intermediate Course II, students develop linguistic competence through the study of short stories, films, novels, and plays. After completing the four-semester language sequence, students can discuss and write in fairly proficient French on complex topics.

At the third-year level, attention is focused on more sophisticated use of language, in grammar and composition courses, and on literary, historical, and philosophical questions.

Conversation Courses
Students looking for intensive French oral practice may take one of the 2-point conversation courses offered at intermediate and advanced levels. Conversation courses generally may not
be counted toward the major. The exception is the special 3-point advanced conversation course, FREN UN3498 French Cultural Workshop, offered in the fall, designed to meet the needs of students planning to study abroad at Reid Hall.

ADVANCED PLACEMENT

- AP score of 4: The department grants 0 credits for a score of 4 on the AP French Language exam, but the foreign language requirement is satisfied.
- AP score of 5 or DELF: The department grants 3 credits for a score of 5 on the AP French Language exam, or for the completion of DELF (Diplôme d’Études en Langue Française). Students are awarded this credit after they take a 3000-level French course (taught in French, for at least 3 points) and obtain a grade of B or above in that course.
- DALF C1 level or IB HL score of 6 or 7: The department grants 6 credits for the C1 level of DALF (Diplôme Approfondi de Langue Française), or for a score of 6 or 7 on the International Baccalaureate (IB) Higher Level (HL) exam. Students have no obligation to take higher-level French courses in order to receive these 6 credits, but restrictions apply on the use of these credits toward the French major.

LANGUAGE LABORATORY AND ON-LINE MATERIALS

Language laboratories located in the International Affairs Building provide opportunities for intensive practice in French pronunciation and aural comprehension. French courses typically make extensive use of on-line interactive materials that students can access from their own computer terminals.

MAISON FRANÇAISE

Students interested in French should acquaint themselves with the Maison Française, which houses a reading room of French newspapers, periodicals, books, and videos, and sponsors lectures/discussions by distinguished French visitors to New York City. With its weekly French film series, book club, café-conversation and other events, the Maison Française offers an excellent opportunity for students to perfect their language skills and enhance their knowledge of French and Francophone culture.

STUDY ABROAD

Because a direct experience of contemporary French society is an essential part of the program, majors and concentrators are strongly encouraged to spend either a semester or a year at Reid Hall-Columbia University in Paris, or at another French or Francophone university. During their time abroad, students take courses credited toward the major and, in some cases, also toward other majors (e.g. history, art history, political science).

For information on study abroad, visit the OGP website at www.ogp.columbia.edu, call 212-854-2559, or e-mail studyabroad@columbia.edu. For a list of approved study abroad programs, visit http://www.ogp.columbia.edu/index.cfm?FuseAction=Programs.ListAll.

Reid Hall, Paris

Located at 4 rue de Chevreuse, Paris, Reid Hall is administered by Columbia University. It offers semester and year-long programs of study, as well as summer courses.

Most students who study at Reid Hall take courses in the French university system (e.g., at the Sorbonne) and core courses offered at Reid Hall. In their first semester, students take a course in academic writing in French, enabling them to succeed at a high level in French university courses. Special opportunities include small topical seminars of Reid Hall students and French students.

For information on study abroad at Reid Hall, visit www.ogp.columbia.edu.

GRADING

Students who wish to use toward the major or concentration a course in which a grade of D has been received must consult with the director of undergraduate studies.

DEPARTMENTAL HONORS

Majors who wish to be considered for departmental honors should consult with the director of undergraduate studies. To be eligible, students must have a grade point average of at least 3.7 in major courses and have completed an approved senior thesis under the guidance of a faculty member at Columbia or Reid Hall. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

UNDERGRADUATE PRIZES

The Department of French and Romance Philology awards the following prizes to students enrolled in courses in the department:

1. Prize for Excellence in French Studies: awarded to a highly promising student in an intermediate or advanced French course;
2. Senior French Prize: awarded to an outstanding graduating major.

Select one course in area of Francophone literature or culture, i.e., bearing on practices of French outside of France or on internal cultural diversity of France.

The remaining four courses (12 points) are to be chosen from 3000-level offerings in French literature, linguistics, or civilization.
One of the following advanced language classes can be counted as an elective: French for Diplomats; French Culture, Language and Society through…; Advanced Translation Workshop; and The Cultural Workshop.

Major in French and Francophone Studies
The requirements for this program were modified on February 14, 2014. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.
The program of study should be planned before the end of the sophomore year with the director of undergraduate studies.

The major in French and Francophone studies requires a minimum of 33 points beyond completion of the language requirement (FREN UN2102 Intermediate Course II), distributed as follows:

- FREN UN3405 Advanced Grammar and Composition I
- FREN UN3420 Introduction To French and Francophone Studies I
- FREN UN3421 Introduction To French and Francophone Studies II
- FREN UN3995 Senior Seminar

Select one course on Francophone/postcolonial French literature.

The remaining six courses (18 points) are to be chosen from upper-level offerings in French and other disciplines. Nine (9) of these points must be taken in a discipline other than French literature. To ensure focus, these interdisciplinary electives must fall within a single discipline of subject area. Courses must be pre-approved by the director of undergraduate studies. One of the advanced electives may be a senior essay written under the direction of a faculty member affiliated with the French and Francophone studies committee or teaching at Reid Hall. Majors who choose to write a senior essay at Columbia should register for the senior tutorial course in their adviser’s home department.

Note the following:

- FREN BC3006 Composition and Conversation is not applicable to either the French and Francophone studies major or concentration. Other Barnard College French courses may be taken with the approval of the director of undergraduate studies;
- Heritage speakers can be exempted from FREN UN3405 Advanced Grammar and Composition I, but must replace the course by taking an advanced elective.

The following Columbia French courses are not applicable to the French and Francophone studies major or concentration:

- FREN UN1101 Elementary French I
- FREN UN1102 Elementary French II
- FREN UN1105 Accelerated Elementary French
- FREN UN2101 INTERMEDIATE FRENCH I
- FREN UN2102 Intermediate Course II
- FREN UN2106 RAPID READING AND TRANSLATION
- FREN UN2121 INTERMED CONVERSATION FRENCH I
- FREN UN2122 INTERMED CONVERSATION FRENCH II
- FREN UN3131 Third-Year Conversation I
- FREN UN3132 Third-Year Conversation II

CONCENTRATION IN FRENCH AND FRANCOPHONE STUDIES

The requirements for this program were modified on March 1, 2016. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

The concentration in French and Francophone studies requires a minimum of 24 points beyond completion of the language requirement (FREN UN2102 Intermediate Course II), distributed as follows:

- FREN UN3405 Advanced Grammar and Composition I
- FREN UN3420 Introduction To French and Francophone Studies I
- FREN UN3421 Introduction To French and Francophone Studies II

One course on Francophone/postcolonial French literature.

The remaining four courses (12 points) are to be chosen from upper-level offerings in French and other disciplines. Six (6) of these points must be taken in a discipline other than French literature. To ensure focus, these interdisciplinary elective courses must fall within a single discipline or subject area. Courses must be pre-approved by the director of undergraduate studies.

GERMAN LITERATURE AND CULTURAL HISTORY

Departmental Office: 414 Hamilton; 212-854-3202
https://germanic.columbia.edu/

Director of Undergraduate Studies: Prof. Tobias Wilke, 412 Hamilton; 212-854-5344; tw2284@columbia.edu

Language Instruction: Jutta Schmiers-Heller, 403A Hamilton; 212-854-4824; js2331@columbia.edu (rak23@columbia.edu)

The Department of Germanic Languages and Literatures is considered one of the very best in the country. Many of the faculty specialize in the study of German literature and culture from 1700 to the present. German majors acquire proficiency in examining literary, philosophical, and historical texts in the original, as well as critical understanding of modern German culture and society. Particular attention is given to German-speaking traditions within larger European and global contexts. Courses taught in translation build on Columbia’s Core Curriculum, thereby allowing students to enroll in upper-level seminars before completing the language requirement.

All classes are taught as part of a living culture. Students have ample opportunities to study abroad, to work with visiting scholars, and to take part in the cultural programs at Deutsches
Haus. In addition, the department encourages internships with German firms, museums, and government offices. This hands-on experience immerses students in both language and culture, preparing them for graduate study and professional careers.

Upon graduation, German majors compete successfully for Fulbright or DAAD scholarships for research in Germany or Austria beyond the B.A. degree. Our graduating seniors are highly qualified to pursue graduate studies in the humanities and social sciences, as well as professional careers. Former majors and concentrators have gone on to careers in teaching, law, journalism, banking and consulting, international affairs, and communications.

German literature and culture courses are taught as seminars integrating philosophical and social questions. Topics include romanticism, revolution, and national identity; German intellectual history; minority literatures; Weimar cinema; German-Jewish culture and modernity; the Holocaust and memory; and the history and culture of Berlin. Classes are small, with enrollment ranging from 5 to 15 students.

The department regularly offers courses in German literature and culture in English for students who do not study the German language. The department also participates in Columbia’s excellent program in comparative literature and society.

ADVANCED PLACEMENT

The department grants 3 credits for a score of 5 on the AP German Language exam, which satisfies the foreign language requirement. Credit is awarded upon successful completion of a 3000-level (or higher) course with a grade of B or higher. This course must be for at least 3 points of credit and be taught in German. Courses taught in English may not be used for language AP credit. The department grants 0 credits for a score of 4 on the AP German Language exam, but the foreign language requirement is satisfied.

THE YIDDISH STUDIES PROGRAM

The program in Yiddish studies offers a track in both the undergraduate major and concentration, in addition to graduate studies leading to the Ph.D. The graduate program is considered one of the world’s most important, with its graduates holding many of the major university positions in the field. In both the undergraduate and graduate program, emphasis is placed not merely on acquiring linguistic proficiency and textual study, but also viewing Yiddish literature in a larger cultural and interdisciplinary context.

Students work with faculty in Germanic languages, Jewish studies, history, and Slavic studies to broaden their understanding of the literature, language, and culture of Eastern European Jewry. Classes are small, and instruction is individualized and carefully directed to ensure that students gain both a thorough general grounding and are able to pursue their own particular interests in a wide-spanning field. The program also offers classes taught in translation for students who do not study Yiddish.

THE GERMAN LANGUAGE PROGRAM

First- and second-year German language courses emphasize spoken and written communication, and provide a basic introduction to German culture. Goals include mastery of the structure of the language and enough cultural understanding to interact comfortably with native speakers.

After successfully completing the elementary German sequence, GERM UN1101 Elementary German Language Course, I-GERM UN1102 Elementary German Language Course, II, students are able to provide information about themselves, their interests, and daily activities. They can participate in simple conversations, read edited texts, and understand the main ideas of authentic texts. By the end of GERM UN1102 Elementary German Language Course, II, students are able to write descriptions, comparisons, and creative stories, and to discuss general information about the German-speaking countries.

The intermediate German sequence, GERM UN2101 Intermediate German I-GERM UN2102 Intermediate German II, increases the emphasis on reading and written communication skills, expands grammatical mastery, and focuses on German culture and literary texts. Students read short stories, a German drama, and increasingly complex texts. Regular exposure to video, recordings, the World Wide Web, and art exhibits heightens the cultural dimensions of the third and fourth semesters. Students create portfolios comprised of written and spoken work.

Upon completion of the second-year sequence, students are prepared to enter advanced courses in German language, culture, and literature at Columbia and/or at the Berlin Consortium for German Studies in Berlin. Advanced-level courses focus on more sophisticated use of the language structure and composition (GERM UN3001 Advanced German, I-GERM UN3002 Advanced German II: Vienna); on specific cultural areas; and on literary, historical, and philosophical areas in literature-oriented courses (GERM UN3333 Introduction To German Literature [In German]).

IN FULFILLMENT OF THE LANGUAGE REQUIREMENT IN GERMAN

Students beginning the study of German at Columbia must take four terms of the following two-year sequence:

GERM UN1101 Elementary German Language Course, I
GERM UN1102 Elementary German Language Course, II
GERM UN2101 Intermediate German I
Entering students are placed, or exempted, on the basis of their College Board Achievement or Advanced Placement scores, or their scores on the placement test administered by the departmental language director. Students who need to take GERM UN1101 Elementary German Language Course, I-GERM UN1102 Elementary German Language Course, II may take GERM UN1125 Accelerated Elementary German I & II as preparation for GERM UN2101 Intermediate German I.

**University Study in Berlin**

**Deutsches Haus**

Deutsches Haus, 420 West 116th Street, provides a center for German cultural activities on the Columbia campus. It sponsors lectures, film series, and informal gatherings that enrich the academic programs of the department. Frequent events throughout the fall and spring terms offer students opportunities to practice their language skills.

**Grading**

Courses in which a grade of D has been received do not count toward the major or concentration requirements.

**Departmental Honors**

Normally no more than 10% of graduating majors receive departmental honors in a given academic year. For the requirements for departmental honors, see the director of undergraduate studies.

**Professors**

- Mark Anderson
- Stefan Andriopoulos
- Claudia Breger
- Jeremy Dauber
- Andreas Huyssen (emeritus)
- Harro Müller
- Dorothea von Mücke
- Oliver Simons (Chair)

**Assistant Professor**

- Tobias Wilke

**Senior Lecturers**

- Wijnie de Groot (Dutch)
- Jutta Schmiers-Heller

**Lecturers**

Agnieszka Legutko (Yiddish)

### Major in German Literature and Cultural History

The goal of the major is to provide students with reasonable proficiency in reading a variety of literary, philosophical, and historical texts in the original and, through this training, to facilitate a critical understanding of modern German-speaking cultures and societies. Students should plan their program of study with the director of undergraduate studies as early as possible. Competence in a second foreign language is strongly recommended, especially for those students planning to attend graduate school.

The major in German literature and cultural history requires a minimum of 30 points, distributed as follows:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>GERM UN3001</td>
<td>Advanced German, I</td>
</tr>
<tr>
<td>GERM UN3333</td>
<td>Introduction To German Literature [In German]</td>
</tr>
</tbody>
</table>

Select two of the following survey courses in German literature and culture (at least one of these must focus on pre-20th-century cultural history):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>GERM UN3443</td>
<td>Romanticism, Revolution, Realism [In German]</td>
</tr>
<tr>
<td>GERM UN3444</td>
<td>Decadence, Modernism, Exile [In German]</td>
</tr>
<tr>
<td>GERM UN3445</td>
<td>German Literature After 1945 [In German]</td>
</tr>
</tbody>
</table>

One course in German intellectual history

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>GERM UN3991</td>
<td>Senior Seminar</td>
</tr>
</tbody>
</table>

The remaining courses to be chosen from the 3000- or 4000-level offerings in German and Comparative Literature–German

### Senior Thesis

A senior thesis is not required for the major. Students interested in a senior thesis or research project may do so through independent study with a faculty member over one or two semesters.

### Major Track in Yiddish Studies

First- and second-year Yiddish language courses emphasize spoken and written communication, and provide a basic introduction to Eastern European Jewish culture. Goals include mastery of the structure of the language and enough cultural understanding to interact comfortably with native speakers.

After second-year Yiddish language courses are completed, students should feel sufficiently comfortable to begin to work with Yiddish literature in the original. Upper-level undergraduate/graduate courses are designed to accommodate students with a range of Yiddish language experience, and intensive language summer study is also encouraged for improvement in language acquisition and comprehension.
The goal is to provide students with reasonable proficiency in reading a variety of literary, philosophical, and historical texts in the original and, through this training, to provide them with a critical understanding of Yiddish-speaking culture and society. Students should plan their program of study with the director of undergraduate studies as early as possible.

The major track in Yiddish studies requires a minimum of 30 points, distributed as follows:

1. At least three courses of intermediate/advanced language study;
2. Two courses in Yiddish literature, at least one of which is not taught in translation;
3. One course in the senior seminar or independent study;
4. Four related courses, at least one of which is in medieval or modern Jewish history.

A senior thesis is required for the track in Yiddish studies. Students interested in a senior thesis or research project may do so through independent study with a faculty member over one or two semesters.

### Concentration in German Literature and Cultural History

The concentration in German literature and cultural history requires a minimum of 21 points in German courses numbered GERM UN3001 and above, including the senior seminar GERM UN3991 Senior Seminar, which may be taken in the junior or senior year.

### Concentration Track in Yiddish Studies

The concentration track in Yiddish studies requires a minimum of 24 points, distributed as follows:

1. At least three courses of beginning/intermediate language study
2. Two courses in Yiddish literature
3. Three related courses, at least one of which is in medieval or modern Jewish history

### Hispanic Studies

**Departmental Office:** 101 Casa Hispánica, 612 W. 116th Street; 212-854-4187; 212-854-5322 (fax)  
http://www.laic.columbia.edu/

**Director of Undergraduate Studies:** Prof. Bruno Bosteels, 302 Casa Hispánica; 212-854-4187; bb438@columbia.edu

**Director of Graduate Studies:** Prof. Graciela Montaldo, 307 Casa Hispánica; 212-854-4882; gm2168@columbia.edu

**Directors of the Spanish Language Program:**  
Lee B. Abraham, 402 Casa Hispánica; 212-854-3764; lba2133@columbia.edu  
Angelina Craig-Flórez, 402 Casa Hispánica; 212-854-3764; ac68@columbia.edu

The Department of Latin American and Iberian Cultures (LAIC) at Columbia, located in Casa Hispánica, has long enjoyed an international reputation as a center for Hispanic and Lusophone studies. The department provides linguistic preparation in Spanish, Portuguese, and Catalan, and offers a flexible program to study manifestations of the Hispanic and Lusophone worlds in all historical periods—from the medieval to the globalized present—and in a variety of cultural contexts: the Iberian Peninsula, Latin America, the former colonies of Portugal, and the United States.

Students can enter the program at any level of linguistic and cultural preparedness. The department offers a placement exam to determine the level at which students may either begin or continue study. Majors and concentrators in Hispanic studies and Portuguese studies are typically double majors who bring insights and methods from fields such as history, political science, women’s studies, anthropology, economics, Latino studies, Latin American studies, etc., which fosters engaging discussions.

### Academic Programs

The department offers two majors. The major in Hispanic studies gives students a well-rounded preparation in the history and culture of the Hispanic world. The second option, a major in Hispanic studies with specialization, allows students to study the Hispanic world through a number of fields, among them Latin American studies, gender studies, political science, economics, history, and sociology. The department also offers two concentrations: Hispanic studies and Portuguese studies.

The language and major programs have also been designed in close consultation and cooperation with Barnard’s Department of Spanish and Latin American Cultures. All courses taken in one program may be used to fulfill the requirements of the other. Hence, Columbia and Barnard students may move freely between departments of both institutions for courses that best fit their intellectual interests and schedules.

### Advanced Placement

The department grants 3 credits for a score of 5 on the AP Spanish Language exam, which satisfies the foreign language requirement. Credit is awarded upon successful completion of a 3300-level (or higher) course with a grade of B or higher. This course must be for at least 3 points of credit and be taught in Spanish. Courses taught in English may not be used for language AP credit.
The department grants 0 credits for a score of 4 on the AP Spanish Language exam, but the foreign language requirement is satisfied.

The department grants 3 credits for a score of 5 on the AP Spanish Literature exam, which satisfies the foreign language requirement. Credit is awarded upon successful completion of a 3300-level (or higher) course with a grade of B or higher. This course must be for at least 3 points of credit and be taught in Spanish. Courses taught in English may not be used for language AP credit.

The department grants 0 credits for a score of 4 on the AP Spanish Literature exam, but the foreign language requirement is satisfied.

**STUDY ABROAD**

The department strongly recommends that all Hispanic and Portuguese studies majors/concentrators study abroad. Most courses taken abroad can be used to fulfill the requirements for the major and concentration, and with adequate planning, even some of the requirements for a second major or concentration. A maximum of four (4) courses taken abroad may be applied to the major, and a maximum of three (3) to the concentration in Hispanic or Portuguese studies.

All students are strongly advised to take either SPAN UN3349 Hispanic Cultures I: Islamic Spain through the Colonial Period or SPAN UN3350 Hispanic Cultures II: Enlightenment to the Present before studying abroad. Actual or potential majors and concentrators in Hispanic or Portuguese studies should seek tentative approval of their programs from the director of undergraduate studies before their departure.

**INTERNSHIPS**

The department maintains an updated list of internship resources and volunteer opportunities in New York City, the United States, and abroad. No academic credit is given for internships.

**THE HISPANIC INSTITUTE**

The department hosts the Hispanic Institute at Columbia. Founded in 1920 as the Instituto de las Españas, the Institute sponsors and disseminates research on Hispanic and Lusobrazilian culture. Since 1934, the Institute has published the *Revista Hispánica Moderna*, a distinguished journal in Hispanic criticism and theory.

**IN FULFILLMENT OF THE LANGUAGE REQUIREMENT**

For students with no knowledge of Spanish, Portuguese, or Catalan, at least four terms of the language are required: **UN1101-UN1102 (or UN1120) and UN2101-UN2102 (or UN2120). All courses must be taken for a letter grade to fulfill the language requirement.**

Students with prior knowledge of Spanish who plan to continue studying Spanish are required to take the department’s on-line placement examination (http://laic.columbia.edu/programs/placement-examination) before registering for courses. Students with prior knowledge of Portuguese or Catalan should speak with the director of language programs.

Students may be exempted from the language requirement in one of four ways:

1. Present a score of 4 or 5 on the AP Spanish Language or Spanish Literature Exams. Students who receive a score of 5 in either exam are awarded 3 AP credits upon successful completion of a 3300-level (or above) course with a grade of B or higher. AP credit is not granted for a score of 4.
2. Present a score of 780 or above on the SAT Subject Test. Students with a score lower than 780 should take the department’s on-line placement exam and follow the placement advice received.
3. Present a score of a 7, 6, or 5 on the International Baccalaureate Higher Level Exam in Spanish.
4. Obtain a score of 625 or higher in the department’s on-line placement exam (http://laic.columbia.edu/programs/placement-examination). If the score in the on-line test qualifies a student for exemption from the language requirement, they are required to take a written version of the placement exam during orientation (for entering students) or during the semester (for continuing students). This written exam is offered every year on the Thursday before the beginning of classes in the fall semester from 10:00 a.m.- 2:00 p.m. in Room 352 of the International Affairs Building (the Language Resource Center Computer Lab). Students do not need to make an appointment to take the exam.

**DEPARTMENTAL HONORS**

Beginning in Spring 2015, the department has put in place a new timeline and training program for juniors, in order to assist students with planning and completing the Honors Thesis during their senior year. The Honors Thesis is an excellent option for any student interested in pursuing a Master's degree or Ph.D.; but, above all, it is a highly formative research and writing experience—one that can bear unexpected fruits toward any path the student decides to take in the future.

All students pursuing a major through the department may apply to write an Honors Thesis. The department envisions the thesis as an intellectually challenging and rewarding experience that crowns four years of undergraduate studies with an original contribution in the field chosen by the student.

The department supports students in shaping their research topic and provides frequent advising throughout the research and writing process. The timeline is as follows:
During the junior year, students take into consideration the possibility of writing an Honors Thesis in the following year. The topic of the Honors Thesis may likely originate in an advanced course taken during the junior year; students may also choose to develop ideas discussed or papers written in courses taken in previous years. Juniors schedule a meeting (or, if the student is studying abroad, a Skype conversation) with the director of undergraduate studies to discuss their proposed topic and faculty adviser.

By May 15, juniors who have decided to write an Honors Thesis in their senior year send a formal proposal to the director of undergraduate studies, which includes:

- A title and a one-page abstract;
- The name of the proposed faculty adviser;
- An application for departmental partial funding support (for those who would like to pursue research during the summer).

By May 30, the Honors Thesis committee reviews the proposals and informs the students of its decision.

In the fall of the senior year:

- Seniors selected to write the Honors Thesis enroll in SPAN UN3998 Supervised Individual Research (Spring) with their faculty adviser and write the Honors Thesis during the entire senior year under the direction of their adviser. For the purposes of the major, this independent study counts as a 3-point course towards elective courses.
- Faculty advisers organize Honors Thesis Workshops to discuss students’ ongoing projects and provide advising on research tools, methodological and theoretical frames, and overall writing process.

In either the fall or spring of the senior year, students enroll in SPAN UN3991 Senior Seminar or SPAN W3992 Senior Seminar: Modern Cities and Global Cities.

By April 15 of the senior year, students complete and present their Honors Thesis for consideration towards departmental honors and prizes. Students submit their thesis in hard copy, following the formatting specifications provided on the LAIC website (http://laic.columbia.edu/programs/formatting-specifications-for-the-senior-thesis).

By May 1, the Honors Thesis committee informs the students of its decision. Departmental honors and prizes are assigned. The committee provides publishing options to students whose work has resulted in a highly original scholarship piece.

In order to facilitate the transition to this new schedule, the department will organize an Honors Thesis Introductory Session during the last week of April 2015. All undergraduate students are welcome; students in the junior year will have the opportunity to discuss possible research themes and thesis topics.

To be considered for departmental honors, a student must write an Honors Thesis and maintain a GPA of at least 3.6 in major courses. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

UNDERGRADUATE PRIZES

The faculty awards an undergraduate prize every year:

Dr. Antonio G. Mier Prize
Awarded for excellence in Hispanic Studies to a major degree candidate in the School of General Studies at Columbia University.

## Major in Hispanic Studies

The requirements for this program were modified on March 2, 2016. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

The major in Hispanic studies requires 11 courses (minimum of 33 points) as follows:

### Core Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN UN3300</td>
<td>Advanced Language through Content [in Spanish]</td>
</tr>
<tr>
<td>SPAN UN3349</td>
<td>Hispanic Cultures I: Islamic Spain through the Colonial Period</td>
</tr>
<tr>
<td>SPAN UN3350</td>
<td>Hispanic Cultures II: Enlightenment to the Present</td>
</tr>
</tbody>
</table>

### Elective Courses

Select seven elective courses (21 points): a minimum of three 3000- or 4000-level electives must be chosen within the department and up to three electives related to Hispanic Studies may be taken outside the department.

### Senior Seminar

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN UN3991</td>
<td>Senior Seminar</td>
</tr>
<tr>
<td>or SPAN UN3992</td>
<td>Senior Seminar: Modern Cities and Global Cities</td>
</tr>
</tbody>
</table>

## Major in Hispanic Studies with Specialization

The requirements for this program were modified on March 2, 2016. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

The major in Hispanic studies with specialization requires 14 courses (minimum of 42 points) as follows. Students should consult the director of undergraduate studies to plan their program and refer to the Hispanic Studies Major Worksheet.

### Core Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN UN3300</td>
<td>Advanced Language through Content [in Spanish]</td>
</tr>
<tr>
<td>SPAN UN3349</td>
<td>Hispanic Cultures I: Islamic Spain through the Colonial Period</td>
</tr>
<tr>
<td>SPAN UN3350</td>
<td>Hispanic Cultures II: Enlightenment to the Present</td>
</tr>
</tbody>
</table>

### Elective Courses

Select ten elective courses (30 points): four of which must be chosen within the department and six of which must be in the field of specialization. Approved courses taken abroad may be counted as inside or outside the department for the specialization. A maximum of four courses taken abroad may be counted toward the major.

### Senior Seminar

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN UN3991</td>
<td>Senior Seminar</td>
</tr>
</tbody>
</table>

* In exceptional cases and with the director of undergraduate studies’ approval, students may take a senior seminar in their area of specialization as a seventh course outside the department, if they have completed enough foundational courses to manage the demands of an advanced seminar. In such cases, the director of undergraduate studies must receive a letter or e-mail from the seminar instructor indicating approval of a student’s membership in the course; the seminar project must be on a Hispanic topic; and a copy of the project must be turned in to the director of undergraduate studies for the student’s file upon completion of the course. Students who complete the senior seminar in another department may also count it as the third elective course on a Hispanic topic outside the department, in which case they may take a fourth 3000- or 4000-level course in the department.

## Concentration in Hispanic Studies

The requirements for this program were modified on March 2, 2016. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

The concentration in Hispanic studies requires eight courses (minimum of 24 points) as follows:

### Core Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN UN3300</td>
<td>Advanced Language through Content [in Spanish]</td>
</tr>
<tr>
<td>SPAN UN3349</td>
<td>Hispanic Cultures I: Islamic Spain through the Colonial Period</td>
</tr>
<tr>
<td>SPAN UN3350</td>
<td>Hispanic Cultures II: Enlightenment to the Present</td>
</tr>
</tbody>
</table>

### Elective Courses

Select five elective courses (15 points): a minimum of four 3000- or 4000-level courses must be chosen within the department and up to one elective related to Hispanic Studies may be taken outside the department. A maximum of three courses taken abroad may be counted toward the concentration.

## Concentration in Portuguese Studies

The concentration in Portuguese studies requires eight courses (minimum 24 points) as follows:

### Core Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PORT UN3101</td>
<td>Conversation about the Lusophone World</td>
</tr>
<tr>
<td>PORT UN3300</td>
<td>Advanced Language through Content</td>
</tr>
</tbody>
</table>
Elective Courses
Select four elective courses (12 points): at least two must have a PORT designation and be chosen from the department’s 3000-level offerings. Electives taken outside of the department must have the director of undergraduate studies’ approval and be related to Portuguese studies. A maximum of two courses taught in English may be counted toward the concentration overall. Refer to the Portuguese Concentration Worksheet.

HISTORY
Departmental Office: 413 Fayerweather; 212-854-4646
http://www.history.columbia.edu

Director of Undergraduate Studies: Prof. Caterina Pizzigoni, 321 Fayerweather; cp2313@columbia.edu

Undergraduate Administrator: Sia Mensah; sjm2206@columbia.edu

The history curriculum covers most areas of the world and most periods of history. It encourages students to develop historical understanding in the widest sense of the word: a thorough empirical grasp along with the kind of analytical skills that come with a genuinely historical sensibility. This is done through two types of courses: lectures and seminars. Lectures range from broad surveys of the history of a place or period to more thematically oriented courses. Seminars offer students the opportunity to work more closely with historical sources in smaller groups and to do more sophisticated written work. Because history courses usually have no prerequisites, there are no preordained sequences to follow. It is advisable, however, that students take a relevant lecture course in preparation for a seminar. Majors wishing to follow a more intensive program are advised to enroll in a historiography course and to undertake a senior thesis project. Historically, majors have pursued careers in a very wide range of areas including medicine, law, mass media, Wall Street, and academia.

ADVANCED PLACEMENT
Students may receive 3 credits toward the overall degree requirements for a score of 5 on the AP European History exam or the AP United States History exam. No points count toward or fulfill any requirements of the history major or concentration.

ADVISING
During their junior and senior years, majors and concentrators are advised by the faculty members of the Undergraduate Education Committee (UNDED). UNDED advisers also review and sign Plan of Study (POS) forms for majors and concentrators at least once per year. POS forms track students’ progress toward completing all major and concentration requirements. New history majors and concentrators may see any member of UNDED. For the most up-to-date information on UNDED members, please see the undergraduate advising page of the departmental website (http://www.history.columbia.edu).

Majors and concentrators can also receive pure academic interest advising (non-requirement advising) from any faculty member and affiliated faculty member of the department.

First-years and sophomores considering a history major or concentration can seek advising from UNDED or any other faculty member.

For questions about requirements, courses, or the general program, majors and concentrators can also contact the undergraduate administrator.

DEPARTMENTAL HONORS
To be eligible for departmental honors, the student must have a GPA of at least 3.6 in courses for the major, an ambitious curriculum, and an outstanding senior thesis. Honors are awarded on the basis of a truly outstanding senior thesis. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

COURSE NUMBERING
Courses are numbered by type:
UN 1xxx - Introductory Survey Lectures
UN 2xxx - Undergraduate Lectures
UN 3xxx - Undergraduate Seminars
GU 4xxx - Joint Undergraduate/Graduate Seminars

and field (with some exceptions):
x000-x059: Ancient
x060-x099: Medieval
x100-x199: Early modern Europe
x200-x299: East Central Europe
x300-x399: Modern Western Europe
x400-x599: United States
x600-x659: Jewish
x660-x699: Latin America
x700-x759: Middle East
x760-x799: Africa
x800-x859: South Asia
x860-x899: East Asia
x900-x999: Research, historiography, and transnational

SEMINARS
Seminars are integral to the undergraduate major in history. In these courses, students develop research and writing skills under the close supervision of a faculty member. Enrollment is normally limited to approximately 15 students. In order to maintain the small size of the courses, admission to most seminars is by instructor’s permission or application.
In conjunction with the Barnard History Department and other departments in the University (particularly East Asian Languages and Cultures), the History Department offers about 25 seminars each semester that majors may use to meet their seminar requirements. While there are sufficient seminars offered to meet the needs of majors seeking to fulfill the two-seminar requirement, given the enrollment limits, students may not always be able to enroll in a particular seminar. Students should discuss with UNDED their various options for completing the seminar requirement.

The History Department has developed an on-line application system for some seminars. The department regularly provides declared majors and concentrators with information on upcoming application periods, which typically occur midway through the preceding semester. Students majoring in other fields, or students who have not yet declared a major, must inform themselves of the application procedures and deadlines by checking the undergraduate seminar page of the departmental website (http://www.history.columbia.edu).

Guidelines for All History Majors and Concentrators

For detailed information about the history major or concentration, as well as the policies and procedures of the department, please refer to the History at Columbia Undergraduate Handbook, available for download on the departmental website (http://www.history.columbia.edu/undergraduate/handbook).

Major in History

Students must complete a minimum of nine courses in the department, of which four or more must be in an area of specialization chosen by the student and approved by a member of UNDED. Students must also fulfill a breadth requirement by taking three courses outside of their specialization. Two of the courses taken in the major must be seminars (including one seminar in the chosen specialization).

The requirements of the undergraduate program encourage students to do two things:

1. Develop a deeper knowledge of the history of a particular time and/or place. Students are required to complete a specialization by taking a number of courses in a single field of history of their own choosing. The field should be defined, in consultation with a member of UNDED, according to geographical, chronological, and/or thematic criteria. For example, a student might choose to specialize in 20th C. U.S. History, Medieval European History, Ancient Greek and Roman History, or Modern East Asian History. The specialization does not appear on the student’s transcript, but provides an organizing principle for the program the student assembles in consultation with UNDED.

2. Gain a sense of the full scope of history as a discipline by taking a broad range of courses. Students must fulfill a breadth requirement by taking courses outside their own specialization -- at least one course removed in time and two removed in space.

   a. Time: majors and concentrators must take at least one course removed in time from their specialization:
      - Students specializing in the modern period must take at least one course in the pre-modern period; students specializing in the pre-modern period must take at least one course in the modern period.
      - If the course proposed is in the same regional field as a student’s specialization, special care must be taken to ensure that it is as far removed as possible; please consult with UNDED to make sure a given course counts for the chronological breadth requirement.

   b. Space: majors must take at least two additional courses in regional fields not their own:
      - These two "removed in space" courses must also cover two different regions.
      - For example, students specializing in some part of Europe must take two courses in Africa, East or South Asia, Latin America/Caribbean, Middle East, and/or the U.S.
      - Some courses cover multiple geographic regions. If a course includes one of the regions within a student’s specialization, that course cannot count towards the breadth requirement unless it is specifically approved by the Director of Undergraduate Studies. For example, if a student is specializing in 20th C. U.S. history and takes the class World War II in Global Perspective, the class is too close to the specialization and may not count as a regional breadth course.

All courses in the Barnard History Department as well as select courses in East Asian Languages and Cultures; Middle Eastern, South Asian, and African Studies; and other departments count toward the major. Eligible inter-departmental courses may include:

- African Civilizations (AFCV UN1020) (when taught by Professor Gregory Mann, Professor Rhiannon Stephens, or PhD students in the Columbia University Department of History; the course does NOT count for History when taught by anyone else)
- Primary Texts of Latin American Civilization (LACV UN1020) (when taught by Professor Pablo Piccato, Professor Caterina Pizzigoni, or PhD students in the

School of General Studies
Columbia University Department of History; the course does NOT count for History when taught by anyone else)

- Introduction to East Asian Civilizations: China (ASCE UN1359), Introduction to East Asian Civilizations: Japan (ASCE UN1361), Introduction to East Asian Civilizations: Korea (ASCE UN1363) or other ASCE UN1xxx courses (when taught by Professors Charles Armstrong, Carol Gluck, Robert Hymes, Dorothy Ko, Eugenia Lean, Feng Li, David Lurie, Jungwon Kim, Paul Kreitman, Gregory Pflugfelder, Gray Tuttle, or Madeleine Zelin, and NOT when they are taught by anyone else)
- Please see the Courses section on the departmental website (http://www.history.columbia.edu) to see which of these might count in a given semester. Any courses not listed or linked on the departmental website, however historical in approach or content, do not count toward the history major or concentration, except with explicit written approval of the UNDED chair.
- If you suspect a History course has escaped being listed at the above link and want to confirm whether or not it counts for History students, please contact the Undergraduate Administrator.

Thematic Specializations
Suitably focused thematic and cross-regional specializations are permitted and the breadth requirements for students interested in these topics are set in consultation with a member of UNDED. Classes are offered in fields including, but not limited to:

- Ancient history
- Medieval history
- Early modern European history
- Modern European history
- United States history
- Latin American and Caribbean history
- Middle Eastern history
- East Asian history
- South Asian history

Additionally, classes are offered in thematic and cross-regional fields which include, but are not limited to:

- Intellectual history
- Jewish history
- Women's history
- International history
- History of science

These fields are only examples. Students should work with a member of UNDED to craft a suitably focused specialization on the theme or field that interests them.

Thesis Requirements
Majors may elect to write a senior thesis, though this is not a graduation requirement. Only senior thesis writers are eligible to be considered for departmental honors. The senior thesis option is not available to concentrators.

The yearlong HIST UN3838-HIST UN3839 Senior Thesis Seminar carries 8 points, 4 of which typically count as a seminar in the specialization. For the most up-to-date information on the field designations for history courses, please see the Courses section of the departmental website (http://www.history.columbia.edu).

CONCENTRATION IN HISTORY
Effective February 2018, students must complete a minimum of six courses in history. At least three of the six courses must be in an area of specialization, one far removed in time, and one on a geographic region far removed in space. There is no seminar requirement for the concentration.

ARCHITECTURE, HISTORY AND THEORY

Departmental Office: 826 Schermerhorn; 212-854-4505
http://www.columbia.edu/cu/arthistory/

Director of Undergraduate Studies: Prof. Avinoam Shalem,
814 Schermerhorn; 212-854-5681; as4501@columbia.edu
(kej2110@columbia.edu)

Director of Art Humanities: Prof. Matthew McKelway,
919 Schermerhorn; 212-854-3182; mpm8@columbia.edu

Coordinator for Undergraduate Programs: Emily Benjamin,
826 Schermerhorn; 212-854-4505; eb3061@columbia.edu

The goal of the major in the Department of Art History and Archaeology is to explore the history of art, architecture, and archaeology across a broad historical, cultural, geographic, and methodological spectrum.

Department courses take advantage of the extraordinary cultural resources of New York City and often involve museum assignments and trips to local monuments. The department offers a major and concentration in art history and in the history and theory of architecture, and a combined major in art history and visual arts.

At the heart of the major is AHIS UN3000 Majors’ Colloquium: the Literature and Methods of Art History, which introduces different methodological approaches to art history and critical texts that have shaped the discipline. The colloquium also prepares students for the independent research required in seminars and advanced lecture courses, and should be taken during the junior year.
Surveys and advanced lecture courses offered by Barnard and Columbia cover the spectrum of art history from antiquity to the present and introduce students to a wide range of materials and methodologies. Limited-enrollment seminars have a narrower focus and offer intensive instruction in research and writing. The opportunity for advanced research with a senior thesis is available to students who qualify.

The major readily accommodates students who wish to study abroad during junior year. Courses taken at accredited programs can generally count as transfer credits toward the major, but students must gain the approval of the director of undergraduate studies. Similarly, any transfer credit for the major must be approved by the director of undergraduate studies. Generally no more than 12 points of transfer credit are applicable to the major. The form to petition for transfer credit can be found on the department website (http://www.columbia.edu/cu/arthistory/undergraduate/forms.html).

Eligible Art History courses taken at Reid Hall and through the Berlin Consortium are counted as Columbia courses, not transfer courses.

All newly declared majors and concentrators should visit the department office and speak with the undergraduate program coordinator about the requirements and their planned curriculum.

The director of undergraduate studies regularly communicates with majors by e-mail to announce departmental events, museum internships, and other news. Students who do not receive these messages should email the undergraduate program coordinator. The director of undergraduate studies is also available to talk to students about their professional goals and plans to study abroad.

**COURSE INFORMATION**

**Lectures**

Attendance at the first class meeting is recommended.

**Colloquia**

For information about enrollment in the required colloquium AHIS UN3000 Majors’ Colloquium: the Literature and Methods of Art History, students should consult the department during the registration period in the semester prior to the one in which the course is offered. Interested students must sign up using an online form; majors will be informed of the sign-up dates and deadline via the majors mailing list. Enrollment is limited and admission is at the discretion of the instructor. It is recommended that students sign up for the colloquium in their junior year.

**Seminars**

Seminars require an application which is due in the departmental office in 826 Schermerhorn before the registration period in the semester prior to the one in which the course is offered (April for fall courses, November for spring courses). The required application form is available in PDF format on the departmental website (http://www.columbia.edu/cu/arthistory/undergraduate/forms.html). Students should wait list the seminars to which they apply on SSOL.

**Bridge Seminars**

Bridge seminars are open to graduate and undergraduate students. As with other seminars, they require an application, which are due in the semester prior to the semester in which the course is offered (August for fall courses, December for spring courses). The required application form is available in PDF format on the department website (http://www.columbia.edu/cu/arthistory/undergraduate/forms.html).

**Bridge Lectures**

Bridge lectures are open to graduate and advanced undergraduate students. They do not require an application.

**Travel Seminar**

In the spring, one or more undergraduate seminars in the Department of Art History and Archaeology may be designated as a travel seminar. Travel seminars receive funding to sponsor travel over the spring break to a distant site related to the subject matter of the seminar.

**STUDY ABROAD**

**Reid Hall, Paris**

For information about the Columbia University in Paris Art History Program at Reid Hall, including summer session courses, visit the Office of Global Programs website.

**Summer Program in Italy: Archaeological Fieldwork at Hadrian’s Villa**

Columbia University offers a four-week summer program that provides undergraduate and graduate students with the opportunity to excavate and learn together at Hadrian’s Villa, a UNESCO World Heritage site near Rome and the most important Roman villa. It synthesizes Roman, Greek, and Egyptian architectural and artistic traditions and has attracted scholarly attention for centuries. For more information, visit the program website.

**Columbia Summer Program in Venice**

The Department of Art History and Archaeology and the Department of Italian offer a summer program based at Co’ Foscari University in Venice. The program uses an interdisciplinary approach to understanding Italian culture through study of its language, literature/film, architecture, art history and conservation, and economy. Students have the opportunity to gain a deeper appreciation of the rich Venetian culture, traditions and history. The program is open
to qualified undergraduate and graduate students from the U.S. and Italy. For more information, visit the program website.

**Columbia Summer Program in Greece**

The Department of Art History and Archaeology and the Program in Hellenic Studies offer a new summer program in Athens. “Curating the Histories of the Greek Present” examines aspects of Greek history and culture through the organization of an art exhibition under the general theme of the environment. The project is structured around classroom seminars, museum and site visits, walking tours, and workshop sessions in which students will learn about and gain experience in all stages of curating an exhibition. For more information, visit the program website.

**DEPARTMENTAL HONORS**

**SENIOR THESIS PRIZE**

A prize is awarded each year to the best senior honors thesis written in the Department of Art History and Archaeology.

**PROFESSORS**

- Alexander Alberro (Barnard)
- Zainab Bahrani
- Barry Bergdoll
- Michael Cole
- Jonathan Crary
- Vidya Dehejia
- David Freedberg
- Robert E. Harrist, Jr.
- Anne Higonnet (Barnard)
- Holger Klein
- Rosalind Krauss
- Branden Joseph
- Matthew McKelway
- Stephen Murray
- Jonathan Reynolds (Barnard)
- Simon Schama
- Avinoam Shalem
- Zoë Strother

**ASSOCIATE PROFESSORS**

- Francesco de Angelis
- Noam M. Elcott
- Elizabeth Hutchinson (Barnard)
- Kellie Jones
- Ioannis Mylonopoulos

**ASSISTANT PROFESSORS**

- Diane Bodart
- Meredith Gamer
- Eleonora Pistis

**ADJUNCT FACULTY**

- Dawn Delbanco
- Rosalyn Deutsche (Barnard)
- John Rajchman
- Stefaan Van Liefferinge

**LECTURERS**

- Talia Andrei
- Frederique Baumgartner
- Marta Becherini
- Colby Chamberlain
- Miriam Chusid
- Huffa Frobes-Cross
- Alessandra Di Croce
- Daniel Greenberg
- Yoko Hara
- Alexandra Helprin
- Page Knox
- Janet Kraynak
- Sandrine Larrive-Bass
- Martina Mims
- Irina Oryshkevich
- Olivia Powell
- Maria Gonzalez Pendas
- Elizabeth Perkins
- Michael Sanchez
- Rachel Silveri
- Susan Sivard
- Caroline Wamsler

**ON LEAVE**

- Profs. Alberro, Mylonopoulos, Strother (2017-2018)
- Profs. Bergdoll, Elcott, Gamer, Kraynak (Fall 2017)
- Profs. Dehejia, Krauss (Spring 2018)
- Prof. Bergdoll (Reid Hall, Spring 2018)

**GUIDELINES FOR ALL ART HISTORY AND ARCHAEOLOGY MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS**

**Courses**

*HUMA UN1121 Masterpieces of Western Art* (Art Humanities) does not count toward the majors or concentrations, and no credit is given for Advanced Placement exams.
Grading
Courses in which a grade of D has been received do not count toward the major or concentration requirements.

Only the first course a student takes in the department may be taken for a grade of Pass/D/Fail. Classes taken in the Architecture or Visual Arts departments to fulfill the studio requirement may be taken for a grade of Pass/D/Fail.

Senior Thesis
The senior thesis project consists of a research paper 35-45 pages in length. It is a year-long project, and students writing a thesis must register for AHIS UN3002 Senior Thesis for the fall and spring terms. Much of the fall semester is devoted to research, and the spring semester to writing.

All thesis writers are required to participate in class and, on alternate weeks, meet as a group or individually with the instructor. Group meetings are designed as a series of research and writing workshops geared toward students' research projects. Students receive a total of six credits for successful completion of the thesis and class.

In order to apply, students follow a selection process similar to the one currently used for seminars. Students must identify a thesis topic and secure a faculty adviser in the Department of Art History and Archaeology. Applications must indicate the subject of the thesis, a short annotated bibliography, and the name and the signature of the adviser, followed by a one-page statement (400 words) outlining the topic, goals, and methodology of the thesis.

The application deadline is set for August before the senior year. Please check the department website (http://www.columbia.edu/cu/arthistory/undergraduate/senior-thesis.html) for exact dates. Applications may be delivered in person or emailed to the coordinator for undergraduate programs. The director of undergraduate studies, in consultation with the thesis adviser, reviews the applications.

Students who intend to write a thesis should begin formulating a research topic and approaching potential faculty sponsors during the spring of the junior year. Currently, the department offers the Summer Research Travel Grant fellowship, which supports thesis-related research and travel during the summer. Additional senior thesis research funding during the academic year is administered through Columbia College and General Studies.

Senior thesis applications may be found at: http://www.columbia.edu/cu/arthistory/undergraduate/forms.html

Summer Research Travel Grant
The department offers the Summer Research Travel Grant, which may be used for travel to museums, building sites, libraries, archives, and other places of interest relevant to the thesis project. Students normally use these funds to conduct research during the summer before senior year.

Travel grant applications require a carefully edited thesis proposal, itemized budget, and supporting letter from a faculty sponsor. Applications are due in April of the student’s junior year. Students will be notified of deadlines as they become available. Please contact the coordinator for undergraduate programs with any questions.

Major in Art History
Please read Guidelines for all for Art History and Archaeology Majors, Concentrators, and Interdepartmental Majors above.

The year-long senior thesis project (for qualified students; see below) AHIS UN3002 Senior Thesis may substitute for one elective lecture course. Seminars may substitute for lecture courses and may count toward fulfillment of the distribution requirements. Barnard Art History courses count toward the majors and concentration requirements.

The requirements for the major are as follows:

| AHIS UN3000 Majors’ Colloquium: the Literature and Methods of Art History |
| Seven 3-point lecture courses in Art History: |
| At least one course in three of four historical periods, listed below |
| An additional two courses in two different world regions, listed below |
| Two additional lectures of the student’s choice |
| Two seminars in art history |
| A studio course taken in the Visual Arts or Architecture departments (which may be taken Pass/D/Fail) |

Historical Periods
- Ancient (pre-400 CE/AD)
- 400-1400
- 1400-1700
- 1700-Present

World Regions
- Africa
- Asia
- Europe/North America/Australia
- Latin America
- Middle East

NOTE: These chronological divisions are approximate. In case of ambiguities, please contact the director of undergraduate studies.
## Major in History and Theory of Architecture

Please read Guidelines for all for Art History and Archaeology Majors, Concentrators, and Interdepartmental Majors above. Majors can take advantage of one of the strengths of the department by focusing on architectural history. This track combines an introductory studio in architectural design with a slightly modified program in art history. Courses in the Department of Architecture may substitute for up to two courses in art history, with approval of the director of undergraduate studies.

The requirements for the major are as follows:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>AHIS UN3000</td>
<td>Majors’ Colloquium: the Literature and Methods of Art History</td>
</tr>
</tbody>
</table>

Seven lecture courses in art history, one of which must be AHIS UN1007 Introduction to Architecture, and three of which must focus on architectural history. Courses must cover four of five general areas:

- Ancient Mediterranean
- Medieval Europe
- Renaissance and Baroque
- 18th-20th century
- Non-Western

At least one seminar in art history or architectural history

Architectural Studio:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>ARCH UN1020</td>
<td>Introduction To Architectural Design and Visual Culture</td>
</tr>
</tbody>
</table>

NOTE: These chronological divisions are approximate. In case of ambiguities, please contact the director of undergraduate studies.

## Major in Art History and Visual Arts

Please read Guidelines for all for Art History and Archaeology Majors, Concentrators, and Interdepartmental Majors above. Students interested in the combined major should contact the coordinator for undergraduate programs in the Art History department, as well as the director of undergraduate studies in the Visual Arts department.

Up to two 3-point courses in art history may be replaced by a related course in another department, with approval of the adviser. The combined major requires the completion of sixteen or seventeen courses. It is recommended that students interested in this major begin working toward the requirements in their sophomore year.

The requirements for the major are as follows:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>AHIS UN3000</td>
<td>Majors’ Colloquium: the Literature and Methods of Art History</td>
</tr>
</tbody>
</table>

Seven 3-point lecture courses in art history:

- At least one course in three of four historical periods, as listed below
- An additional two courses in two different world regions, as listed below
- Two additional lectures of the student’s choice

21 points in Visual Arts covering:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>VIAR UN1000</td>
<td>Basic Drawing</td>
</tr>
<tr>
<td>VIAR UN2300</td>
<td>Sculpture I</td>
</tr>
</tbody>
</table>

Five additional VIAR 3-point studio courses (15 points)

In the senior year, students must complete either a seminar in the Department of Art History and Archaeology or a senior project in visual arts (pending approval by the Visual Arts Department).

NOTE: These chronological divisions are approximate. In case of ambiguities, please contact the director of undergraduate studies.

### Historical Periods

- Ancient (pre-400 CE/AD)
- 400-1400
- 1400-1700
- 1700-present

### World Regions

- Africa
- Asia
- Europe/North America/Australia
- Latin America
- Middle East

## Concentration in Art History

Please read Guidelines for all for Art History and Archaeology Majors, Concentrators, and Interdepartmental Majors above.

The requirements for the concentration are as follows:

Seven 3-point lecture courses in art history:

- At least one course in three of four historical periods, listed below
- An additional two courses in two different world regions, listed below
- Two additional lectures of the student’s choice

NOTE: These chronological divisions are approximate. In case of ambiguities, please contact the director of undergraduate studies.
Historical Periods
- Ancient (pre-400 CE/AD)
- 400-1400
- 1400-1700
- 1700-present

World Regions
- Africa
- Asia
- Europe/North America/Australia
- Latin America
- Middle East

Concentrators are not required to take the majors colloquium, a seminar, or a studio course.

CONCENTRATION IN HISTORY AND THEORY OF ARCHITECTURE

Please read Guidelines for all for Art History and Archaeology Majors, Concentrators, and Interdepartmental Majors above.

The requirements for the concentration are as follows:

Seven courses in art history, including four in architectural history. Courses must cover four of five general areas, as described for the major:

<table>
<thead>
<tr>
<th>Area</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ancient Mediterranean</td>
</tr>
<tr>
<td>Medieval Europe</td>
</tr>
<tr>
<td>Renaissance and Baroque</td>
</tr>
<tr>
<td>18th-20th century</td>
</tr>
<tr>
<td>Non-Western</td>
</tr>
</tbody>
</table>

Concentrators are not required to take the majors colloquium, a seminar, or a studio course.

The Undergraduate Human Rights Program at the Institute for the Study of Human Rights engages students in this dynamic and evolving field and enhances their knowledge, skills, and commitment to human rights. The program offers a major and a concentration in human rights, provides students the opportunity to deepen their knowledge and explore their interests in human rights outside the classroom, and works to strengthen and support the undergraduate human rights community on campus. More information on academic and extracurricular events, opportunities, and resources for undergraduate human rights students is available on the program’s website. For an advising appointment, please e-mail humanrightsed@columbia.edu.

DEPARTMENTAL HONORS

To be eligible for departmental honors, a student must satisfy all the requirements for the major, maintain a 3.6 GPA in the major, maintain an overall GPA of 3.6, and complete a thesis of sufficiently high quality to merit honors. A thesis is required for all students who wish to be considered for honors, but does not guarantee honors. Students who graduate in October, February, or May of a given academic year are eligible for honors consideration in May. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

Students interested in writing a thesis for honors consideration enroll in the HRTS UN3996 Human Rights Thesis Seminar in the spring semester of their senior year. The course will consist of group sessions, where students will present their work and participate in discussions, as well as individual meetings with their thesis supervisor, who is also the course instructor.

Students are encouraged to write a thesis, but they should not do so solely to be eligible for honors consideration. Rather, students should consider enrolling in the thesis seminar in order to demonstrate their capacity to produce a work of original research and develop more specialized knowledge of a human rights issue.

GUIDELINES FOR ALL HUMAN RIGHTS MAJORS, CONCENTRATORS, AND SPECIAL CONCENTRATORS

Student should also consult the general academic policies of their school.

Planning Forms

Major and concentration planning forms are available on the ISHR undergraduate program website. Prior to each semester, students should submit an online course advising form (http://www.humanrightscolumbia.org/education/courseadvising). Students may also e-mail uhrp@columbia.edu to set up an advising appointment.
Grades

No course with a grade of D or lower is credited towards the major or concentration.

One course, with the exception of the three core courses required for the major, can be taken for Pass/D/Fail. The student must receive a grade of P for the course to count toward the requirements of the major or concentration. All other courses must be taken for a letter grade.

All seminar courses must be taken for a letter grade.

Transfer Credit/Study Abroad Credit

Human rights majors may transfer a maximum of three courses from other institutions. Human rights concentrators may transfer a maximum of two courses from other institutions. This includes study abroad credit. No more than one Advanced Placement course can be counted for the major or concentration. The application of transferred courses to the major or concentration must be approved by the Director of Undergraduate Studies or the undergraduate adviser.

Students wishing to count transfer courses toward the major or concentration should email uhrp@columbia.edu with their Transfer Credit Report, the syllabi of the courses they want to count toward departmental requirements, and a statement of how they want to apply the transfer credits to the requirements.

Double-Counting

Students may double count major or concentration courses toward the fulfillment of degree requirements in accordance with the academic policies of their school.

Normally, courses for one program of study (i.e. major, concentration, special concentration, etc.) may not be used to satisfy the course requirements for another program of study. Students should consult the academic policies of their school for specific information.

Major in Human Rights

The major in human rights requires 10 courses for a minimum of 31 points as follows. One of the distributional or specialization courses must be a seminar.

Core Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>HRTS UN3001</td>
<td>Introduction to Human Rights</td>
</tr>
<tr>
<td>HRTS UN3190</td>
<td>International Human Rights Law</td>
</tr>
<tr>
<td>HRTS UN3995</td>
<td>Human Rights Senior Seminar</td>
</tr>
</tbody>
</table>

Distributional Requirement

Students take one course in three of these four categories (three courses), for a minimum of 9 credit points.

Politics and history
Culture and representation
Political theory and philosophy
Social and economic processes

Specialization Requirement

Students fulfill the specialization requirement by focusing on a particular discipline, taking four courses for a minimum of 12 credit points offered by a single department or institute.

* Please see the ISHR undergraduate course list (http://www.humanrights.columbia.org/education/undergraduate/undergraduate-courses) for the current list of courses that fulfill the distributional requirement of the major.

** The goal of the specialization requirement is to equip students with the tools of a specific discipline. Students should inform the human rights program of their intended specialization before taking courses to fulfill this requirement. As a general rule, fields of study listed as academic programs (http://www.college.columbia.edu/academics/programs) on the bulletin are approved for the specialization requirement if a free-standing major is offered. Courses approved for that major are generally approved for the human rights specialization. However, language acquisition and studio courses may not be taken to fulfill the specialization requirement. Students are encouraged to take any core and/or methodology courses required by a program when fulfilling their specialization requirement. Students are also encouraged to take courses within their chosen specialization that focus on human rights issues, but the specialization requirement can be fulfilled by taking any four courses within the same discipline. For example, if a student’s specialization is Political Science, he or she can fulfill the specialization requirement by taking any four POLS courses.

Concentration in Human Rights

The concentration in human rights requires 8 courses for a minimum of 24 points as follows:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>HRTS UN3001</td>
<td>Introduction to Human Rights</td>
</tr>
<tr>
<td>Seven additional human rights courses</td>
<td></td>
</tr>
</tbody>
</table>

Please see the ISHR undergraduate course list (http://www.humanrights.columbia.org/education/undergraduate/undergraduate-courses) for the current list of courses that fulfill the concentration requirements.

Information Science

Departmental Office: 450 Computer Science Building; 212-939-7000
http://www.cs.columbia.edu/

Director of Undergraduate Studies: Dr. Jae Woo Lee, 715 CEPSR; 212-939-7066; jae@cs.columbia.edu

Departmental Advisers:
REVOLUTION, studying how on-line access touches on all other information in digital form. The explosive growth of on-line information, with people of all ages and all walks of life making use of the World Wide Web and all major puts students at the forefront of the information revolution, studying how on-line access touches on all disciplines and changing the very way people communicate. Organizations have large stores of in-house information that are crucial to their daily operation. Today’s systems must enable quick access to relevant information, must ensure that confidential information is secure, and must enable new forms of communication among people and their access to information.

The information science major can choose a scientific focus on algorithms and systems for organizing, accessing, and processing information, or an interdisciplinary focus in order to develop an understanding of, and tools for, information modeling and use within an important sector of modern society such as economics or health.

ADVANCED PLACEMENT
The department grants 3 points for a score of 4 or 5 on the AP Computer Science exam along with exemption from COMS W1004 Introduction to Computer Science and Programming in Java. However, we still recommend that you take COMS W1004 or W1007 even if you have credits from the CS AP exam. COMS W1007 Honors Introduction to Computer Science is recommended if you scored 5 on the AP exam, and COMS W1004 is recommended if you scored 4.

PRE-INTRODUCTORY COURSES
COMS W1004 is the first course in the Computer Science major curriculum, and it does not require any previous computing experience. Before taking COMS W1004, however, students have an option to start with one of the pre-introductory courses: ENGI E1006 or COMS W1002.

ENGI E1006 Introduction to Computing for Engineers and Applied Scientist is a general introduction to computing for STEM students. ENGI E1006 is in fact a required course for all engineering students. COMS W1002 Computing In Context is a course primarily intended for humanities majors, but it also serves as a pre-introductory course for CS majors. ENGI E1006 and COMS W1002 do not count towards Computer Science major.

LABORATORY FACILITIES
The department has well-equipped lab areas for research in computer graphics, computer-aided digital design, computer vision, databases and digital libraries, data mining and knowledge discovery, distributed systems, mobile and wearable computing, natural language processing, networking, operating systems, programming systems, robotics, user interfaces, and real-time multimedia.

Research labs contain several large Linux and Solaris clusters; Puma 500 and IBM robotic arms; a UTAH-MIT dexterous hand; an Adept-1 robot; three mobile research robots; a real-time defocus range sensor; interactive 3-D graphics workstations with 3-D position and orientation trackers; prototype wearable computers, wall-sized stereo projection systems; see-through head-mounted displays; a networking
testbed with three Cisco 7500 backbone routers, traffic
 generators; an IDS testbed with secured LAN, Cisco routers,
 EMC storage, and Linux servers; and a simulation testbed with
 several Sun servers and Cisco Catalyst routers. The department
 uses a SIP IP phone system. The protocol was developed in the
department.

The department’s computers are connected via a switched
1Gb/s Ethernet network, which has direct connectivity to the
campus OC-3 Internet and internet 2 gateways. The campus
has 802.11b/g wireless LAN coverage.

The research facility is supported by a full-time staff of
professional system administrators and programmers.

GUIDELINES FOR ALL COMPUTER
SCIENCE MAJORS AND
CONCENTRATORS

Courses
Students may receive credit for only one of the following two
courses:
• COMS W1004 Introduction to Computer Science and
  Programming in Java
• COMS W1005 Introduction to Computer Science and
  Programming in MATLAB.

Students may receive credit for only one of the following three
courses:
• COMS W3134 Data Structures in Java
• COMS W3136 Data Structures with C/C++
• COMS W3137 Honors Data Structures and Algorithms

However, COMS W1005 and COMS W3136 cannot be
counted towards the Computer Science major, minor, and
concentration.

Transfer Credit
As a rule, no more than 12 transfer credits are accepted toward
the major.

Grading
A maximum of one course worth no more than 4 points
passed with a grade of D may be counted toward the major or
concentration.

MAJOR IN COMPUTER SCIENCE

Please read Guidelines for all Computer Science Majors and
Concentrators above.

All majors should confer with their program adviser each term
to plan their programs of study. Students considering a major
in computer science are encouraged to talk to a program adviser
during their first or second year. A typical program of study is
as follows:

Program of Study

Computer Science Core (22-24 points)

For students who declare in Spring 2014 and
beyond:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGI E1006</td>
<td>Introduction to Computing for Engineers and Applied Scientists (recommended but not required)</td>

</tbody>
</table>

In addition to the CS Core (22-24 points), all CS majors
must complete the Calculus Requirement (3 points) and a
Track Requirement (15 or 18 points). The CS major therefore
requires 40-45 points total.
Mathematics (3 points)
Calculus II or Calculus III.

Note that Calculus III does NOT depend on Calculus II. You can take either Calculus II or III, but we recommend Calculus III, which covers topics that are a bit more relevant for upper-level Computer Science courses.

If you have received equivalent credits for Calculus I & II already (through AP Calculus exam for example), you are not required to take any more Calculus courses. But we recommend taking one more semester of Calculus, either Math UN1201 Calculus III or APAM E2000 Multivariate Calculus for Engineers and Scientists. APAM E2000 covers relevant topics from Calculus III and IV.

Track Requirement (15 or 18 points)
Students must select one of the following six upper-level tracks. Each track, except the combination track, requires five courses consisting of required, elective breadth, and elective track courses. The combination track requires a selection of six advanced courses: three 3000- or 4000-level computer science courses and three 3000- or 4000-level courses from another field. The elective breadth requirement in each track can be fulfilled with any 3-point computer science 3000-level or higher course that is not a computer science core course or a technical elective course in that track. In addition to the breadth elective, the track requirements are as follows:

Foundations Track (15 points)
For students interested in algorithms, computational complexity, and other areas of theoretical Computer Science.

Note: Students who declared their Computer Science major prior to Fall 2016 may also count COMS 4241, COMS 4205, COMS 4281, COMS 4444, COMS 4771, and COMS 4772 as track elective courses.

Required Courses
<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSOR W4231</td>
<td>Analysis of Algorithms I</td>
</tr>
<tr>
<td>COMS W4236</td>
<td>Introduction to Computational Complexity</td>
</tr>
</tbody>
</table>

Track Electives

COMS W3998 Undergraduate Projects in Computer Science
COMS W4901 Projects in Computer Science
COMS W4995 Special topics in computer science, I
COMS E6998 Topics in Computer Science

One Breadth Course
Any 3-point COMS 3000- or 4000-level course except those courses in the CS core or in the required or elective courses for this track

Combination Track (18 points)
For students who wish to combine computer science with another discipline in the arts, humanities, social or natural sciences. A coherent selection of six upper-level courses is required: three from computer science and three from another discipline.

The courses should be planned with and approved by the student’s CS faculty advisor by the first semester of the junior year. The six courses are typically 4000-level elective courses.
that would count towards the individual majors. Moreover, the six courses should have a common theme. The combination track is not available to those students who pursue double majors.

**MAJOR IN COMPUTER SCIENCE—MATHEMATICS**

For a description of the joint major in computer science—mathematics, see the *Mathematics* section in this bulletin.

**MAJOR IN INFORMATION SCIENCE**

Please read *Guidelines for all Computer Science Majors and Concentrators* above.

The major in information science requires a minimum of 33 points including a core requirement of five courses.

The elective courses must be chosen with a faculty adviser to focus on the modeling and use of information within the context of a disciplinary theme. After discussing potential selections students prepare a proposal of study that must be approved by the faculty adviser. In all cases the six courses must be at the 3000-level or above with at least three courses chosen from computer science. Following are some example programs. For more examples or templates for the program proposal, see a faculty adviser.

Note: In most cases additional courses will be necessary as prerequisites in order to take some of the elective courses. This will depend on the student’s proposed program of study.

**Core Requirement**

</tbody>
</table>

**MAJOR IN DATA SCIENCE**

Please read *Guidelines for all Computer Science Majors and Concentrators* above.

In response to the ever growing importance of "big data" in scientific and policy endeavors, the last few years have seen an explosive growth in theory, methods, and applications at the interface between computer science and statistics. The statistics and computer science departments have responded with a joint-major that emphasizes the interface between the disciplines.

**Prerequisites (15 points)**

- COMS W4111 Introduction to Databases
- COMS W4130 Principles and Practice of Parallel Programming
- COMS W4236 Introduction to Computational Complexity
- COMS W4252 Introduction to Computational Learning Theory

Any COMS W47xx course EXCEPT W4771

### Concentration in Computer Science

Please read Guidelines for all Computer Science Majors and Concentrators above.

**For students who declare in Spring 2014 and beyond:**

The concentration in computer science requires a minimum of 22-24 points, as follows:
- COMS W1004 Introduction to Computer Science and Programming in Java
  or COMS W1007 Honors Introduction to Computer Science
- COMS W3134 Data Structures in Java
  or COMS W3137 Honors Data Structures and Algorithms
- COMS W3157 Advanced Programming
- COMS W3203 Discrete Mathematics: Introduction to Combinatorics and Graph Theory
- COMS W3261 Computer Science Theory
- CSEE W3827 Fundamentals of Computer Systems (or any 3 point 4000-level computer science course)

Select one of the following courses:
- MATH UN2010 Linear Algebra
- MATH V2020 Honors Linear Algebra
- APMA E2101 Introduction to Applied Mathematics
- APMA E3101 Linear Algebra
- STAT GU4001 Introduction to Probability and Statistics
- SIEO W3600 Introduction to Probability and Statistics

**For students who declared prior to Spring 2014:**

The concentration requires a minimum of 23 points, as follows:
- COMS W1004 Introduction to Computer Science and Programming in Java
- COMS W1007 Honors Introduction to Computer Science
- COMS W3137 Honors Data Structures and Algorithms
- COMS W3157 Advanced Programming
- COMS W3261 Computer Science Theory
- CSEE W3827 Fundamentals of Computer Systems (or any 3 point 4000-level computer science course)

### Italian

**Departmental Office:** 502 Hamilton; 212-854-2308
http://italian.columbia.edu/

**Director of Undergraduate Studies:** Asst. Prof. Konstantina Zanou, 513 Hamilton; 212-854-0747; kz2269@columbia.edu

A major in Italian offers students the opportunity to study Italian literature and culture in an intimate, seminar setting with the close supervision of the department’s faculty. In addition, the prerequisite and corequisite sequence of language courses is designed to give students a command of written and spoken Italian.

Majors must complete 30 points and concentrators must complete 24 points. All majors and concentrators are required to take two semesters of Advanced Italian (ITAL UN3335 Advanced Italian-ITAL UN3336 Advanced Italian II: Italian Language & Culture, ITAL UN3337 Advanced Italian Through Cinema, or ITAL UN3338 Italiana. Introduction to Italian Culture, the High, the Low, and the In-between) as well as one of the following two sequences:

- **Introduction to Italian Literature I and II** (ITAL UN3333-ITAL UN3334) provides an overview of major authors and works in the Italian literary tradition from the Middle Ages to the present;
- **Italian Cultural Studies I and II** (ITAL GU4502-ITAL GU4503) is an interdisciplinary investigation into Italian culture and society from national unification in 1860 to the present.

In consultation with the director of undergraduate studies, majors select six additional courses (concentrators select four additional courses) from the department’s 3000- or 4000-level offerings or from other humanities and social science departments with a focus on Italian culture. Students who have taken courses in Italian Literature, Italian History, and/or Italian Culture while abroad should consult with the Director of Undergraduate Studies to determine if the courses may be applicable to the major.

Highly motivated students have the opportunity to pursue a senior thesis under the guidance of a faculty adviser in an area of Italian literature or culture of their choosing. The senior thesis tutorial, ITAL UN3993 Senior Thesis/Tutorial, will count for 3 points.

Departmental courses taught entirely in English do not have linguistic prerequisites and students from other departments who have interests related to Italian culture are especially welcome to enroll.

Italian language instruction employs a communicative approach that integrates speaking, reading, writing, and listening. Courses make use of materials that help students to learn languages not just as abstract systems of grammar and vocabulary but as living cultures with specific content. Across the levels from elementary to advanced, a wide range of literary, cultural and multimedia materials, including books, film, and opera, supplement the primary course text.

The sequence in elementary and intermediate Italian enables students to fulfill the College’s foreign language requirement and thoroughly prepares them for advanced study of language and for literature courses taught in Italian. Specialized language courses allow students to develop their conversational skills.

For highly motivated students, the department offers intensive elementary and intensive intermediate Italian, both of which cover a full year of instruction in one semester. Courses in advanced Italian, although part of the requirements for a major or a concentration in Italian, are open to any qualified student whose main goal is to improve and perfect their competence in the language.

Outside the classroom, the Department of Italian organizes a weekly Caffè e conversazione where students at all levels can converse with fellow students and faculty members over Italian espresso and cookies. Students can also attend the Serata al cinema, Italian film viewings scheduled in the evening throughout the academic year, in which faculty and graduate students introduce each film and then conclude with a question and answer session. In addition, the student-run Società Italiana (culasocieta@gmail.com) organizes events such as pasta-making workshops, movie nights, and costume parties.

**ADVANCED PLACEMENT**

The department grants 3 credits for a score of 5 on the AP Italian Language exam, which satisfies the foreign language requirement. Credit is awarded upon successful completion of a 3000-level (or higher) course with a grade of B or higher. This course must be for at least 3 points of credit and be taught in Italian. Courses taught in English may not be used for language AP credit. The department grants 0 credits for a score of 4 on the AP Italian Language exam, but the foreign language requirement is satisfied.

**CASA ITALIANA**

A wide range of cultural programs are sponsored by the Italian Academy for Advanced Studies in America (http://www.italianacademy.columbia.edu), located in Casa Italiana. These programs, which include the activities of the Columbia Seminar on Modern Italian Studies and the Italian Academy Film Festival, enrich the learning experience of the student and offer opportunities to meet distinguished Italian and Italian-American visitors to the University. The Paterno book collection is housed in Butler Library and contains valuable resources on Italian literature and culture.

For inquiries into the department and its undergraduate and graduate degrees offered, please contact 212-854-2308 or italian@columbia.edu.
**Language Resource Center**

The Language Resource Center (LRC) provides resources for intensive practice in pronunciation, diction, and aural comprehension of some twenty-five modern languages. LRC exercises are closely coordinated with the classroom’s work.

Coordinated tape programs and on-line audio are available and mandatory for students registered in elementary and intermediate Italian language courses. Taped exercises in pronunciation and intonation, as well as tapes of selected literary works, are also available to all students in Italian courses.

**Electronic Classrooms**

Language instruction courses meet at least once a week in a multimedia-equipped electronic classroom in order to facilitate exposure to Italian arts such as music, opera, and film, and for other pedagogical uses.

**Departmental Honors**

Majors in Italian literature or Italian cultural studies who wish to be considered for departmental honors in Italian must: (1) have at least a 3.6 GPA in their courses for the major; and (2) complete a senior thesis or tutorial and receive a grade of at least A- within the context of the course ITAL UN3993 Senior Thesis/Tutorial. Normally no more than one graduating senior receives departmental honors in a given academic year.

**Professors**

Teodolinda Barolini  
Jo Ann Cavallo (Chair)  
Elizabeth Leake

**Associate Professor**

Nelson Moe (Barnard)

**Assistant Professor**

Pier Mattia Tommasino (on leave 2016-17)  
Konstantia Zanou

**Senior Lecturers**

- Maria Luisa Gozzi  
- Carol Rounds (Hungarian)  
- Barbara Spinelli

**Lecturers**

- Felice Italo Beneduce  
- Federica Franze  
- Patrizia Palumbo  
- Alessandra Saggin

**Guidelines for all Italian Majors and Concentrators**

The courses in the Department of Italian are designed to develop the student’s proficiency in all the language skills and to present the literary and cultural traditions of Italy. The program of study is to be planned as early as possible with the director of undergraduate studies. Students are advised to meet with the director of undergraduate studies each semester in order to obtain program approval.

For students with no knowledge of Italian, the required language course sequence is:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL UN1101</td>
<td>Elementary Italian I and Elementary Italian II</td>
</tr>
<tr>
<td>ITAL UN2101</td>
<td>Intermediate Italian I and Intermediate Italian II</td>
</tr>
</tbody>
</table>

For students planning to enroll in Intensive Italian courses, a minimum of three semesters of Italian language instruction is required, such as:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL UN1121</td>
<td>Intensive Elementary Italian and Intermediate Italian I</td>
</tr>
<tr>
<td>ITAL UN2101</td>
<td>Intermediate Italian I and Intermediate Italian II</td>
</tr>
<tr>
<td>ITAL UN1203</td>
<td>Advanced Italian Through Cinema</td>
</tr>
</tbody>
</table>

And one of the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL UN3335</td>
<td>Advanced Italian</td>
</tr>
<tr>
<td>ITAL UN3336</td>
<td>Advanced Italian II: Italian Language &amp; Culture</td>
</tr>
<tr>
<td>ITAL UN3337</td>
<td>Advanced Italian Through Cinema</td>
</tr>
<tr>
<td>ITAL UN3338</td>
<td>Italiana. Introduction to Italian Culture, the High, the Low, and the In-between</td>
</tr>
</tbody>
</table>

Italian language proficiency equivalent to the elementary and intermediate sequence may be demonstrated by the departmental placement test, offered before the start of every semester; with a score of 4 or 5 on the Advanced Placement Examination; or with a score of 780 or higher on the SAT II Subject Test in Italian.

As noted above, courses given entirely in English do not have linguistic prerequisites; students planning a major in Italian may enroll in such courses before completing the language prerequisite for the major or concentration.

**Major in Italian**

Please read *Guidelines for all Italian Majors and Concentrators* above.
Requirements
The major in Italian literature requires a minimum of 30 points in Italian courses numbered above the intermediate level, i.e., above ITAL UN2121, to include the following:

<table>
<thead>
<tr>
<th>Two semesters of Advanced Italian</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL UN3335</td>
<td>Advanced Italian</td>
</tr>
<tr>
<td>- ITAL UN3336</td>
<td>and Advanced Italian II: Italian Language &amp; Culture</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Two semesters of Italian Literature</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL UN3333</td>
<td>Introduction To Italian Literature, I</td>
</tr>
<tr>
<td>- ITAL UN3334</td>
<td>and Introduction To Italian Literature, II</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Two Semesters of Italian Culture</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL GU4502</td>
<td>Italian Cultural Studies I: From Unification to World War I</td>
</tr>
<tr>
<td>- ITAL GU4503</td>
<td>and Italian Cultural Studies II: From World War I to the Present</td>
</tr>
</tbody>
</table>

Additional Courses
Select at least two other courses from the department’s GU4000-level courses.

In consultation with the director of undergraduate studies, the remaining courses may be selected from the department’s 3000- or 4000-level offerings or from other humanities and social science departments with a focus on Italian literature or culture.

ITAL UN3993  Senior Thesis/Tutorial (or another course in Italian literature or culture)

Native speakers and students with superior proficiency (as demonstrated by a departmental exam) may replace the Advanced Italian sequence with six points of Italian literature courses of their choice.

Period Distribution
At least two courses that cover material before 1700 and two courses that cover material after 1700.

CONCENTRATION IN ITALIAN
Please read Guidelines for all Italian Majors and Concentrators above.

Requirements
The concentration in Italian literature requires a minimum of 24 points in Italian courses numbered above the intermediate level, i.e., above ITAL UN2121, to include the following:

<table>
<thead>
<tr>
<th>Two semesters of Advanced Italian</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL UN3335</td>
<td>Advanced Italian</td>
</tr>
<tr>
<td>- ITAL UN3336</td>
<td>and Advanced Italian II: Italian Language &amp; Culture</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Two Semesters of Italian Literature</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL UN3333</td>
<td>Introduction To Italian Literature, I</td>
</tr>
<tr>
<td>- ITAL UN3334</td>
<td>and Introduction To Italian Literature, II</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Two Semesters of Italian Culture</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL GU4502</td>
<td>Italian Cultural Studies I: From Unification to World War I</td>
</tr>
<tr>
<td>- ITAL GU4503</td>
<td>and Italian Cultural Studies II: From World War I to the Present</td>
</tr>
</tbody>
</table>

Additional Courses
Select at least two other courses from the department’s GU4000-level courses.

In consultation with the director of undergraduate studies, the remaining courses may be selected from the department’s 3000- or 4000-level offerings or from other humanities and social science departments with a focus on Italian literature or culture.

ITAL UN3993  Senior Thesis/Tutorial (or another course in Italian literature or culture)

Native speakers and students with superior proficiency (as demonstrated by a departmental exam) may replace the Advanced Italian sequence with six points of Italian literature courses of their choice.

Period Distribution
At least two courses that cover material before 1700 and two courses that cover material after 1700.

JAZZ STUDIES*
*Jazz Studies is offered exclusively as a concentration.

The Center for Jazz Studies: Prentis Hall, 4th floor (632 W. 125th Street); 212-851-9270
http://www.columbia.edu/cu/cjs

Jazz at Columbia:
http://www.music.columbia.edu/-cecenter/JazzConcentration/

Director: Prof. Robert G. O’Meally, 611 Philosophy; 212-851-9270; rgo1@columbia.edu

Director of Jazz Performance: Prof. Christopher Washburne, 619A Dodge; 212-854-9862; cjw5@columbia.edu

Program Administrator: Yulanda McKenzie, 602 Philosophy; 212-851-9270; ym189@columbia.edu

The special concentration in jazz studies is an interdisciplinary liberal arts course of study that uses jazz music—and the jazz culture from which the music emanated—as a prism through which to study jazz culture during what might be termed the long jazz century, the Sprawling 20’s. The curriculum in this new field guides students in developing a firm grounding in the traditions and aesthetic motives of jazz music, viewed through the perspectives of music history and ethnomusicology as well as literary theory and cultural studies.

The program also explores in depth the development of jazz-oriented art works in the music’s sister arts—literature, dance, painting, photography, and film. While a U.S. focus is highly appropriate, considering the many ways in which
Jazz is a definitive music of this nation, students also explore jazz's geographical history beyond these shorelines, including complex, ongoing interactions with Africa, the Caribbean, Europe, and Asia.

The special concentration in jazz studies is designed for music majors as well as for those majoring in other fields. The main difference between music majors and non-music majors is that while music majors take advanced courses in arranging, composition, and transcription, non-music majors are required to take an introduction to music fundamentals.

While there are some fields where the fit with jazz studies is very obvious—music, American studies, African-American studies, English, comparative literature, and history—special concentrators can major in any field whatsoever. Is there a jazz or improvisatory philosophy? What might be its relation to studies of aesthetics or American pragmatism? And what are jazz's implications for the student of law? How does one protect the intellectual property rights of an improvised jazz solo? What about business? What economic and political forces have shaped jazz? Who buys jazz? What is its audience? What is a jazz painting? A jazz novel? What is jazz poetry? What is jazz dance? What is a jazz film? What are the sources and meanings of art? What work does the music do for the whole community?

Along with problems of musical history, form, and definition, our special courses explore jazz as a culture. Students not only study individual jazz artists but also explore the immeasurably variegated worlds through which such artists moved, and which they helped to shape. As cultural historians-in-training—focused on questions of nationality, race, sexuality, gender, economics, and politics—students explore the extraordinarily complicated terrains of the New Orleans of Bunk Johnson, for example, or the Baltimore of Billie Holiday (born in Philadelphia, reared in Baltimore). They explore such artists' other geographical travels. What did their images, including mistaken conceptions of who they were, tell us about the cultures that mythologized them?

How did these jazz musicians influence not only musicians but other artists of their era and milieu: the poets and novelists, painters and sculptors, photographers and filmmakers, dancers and choreographers who regularly heard them play and often shared with them a sense of common project?

One thinks of Tito Puente, working with singers and dancers at the Palladium; Jackson Pollock dancing to the music as he spun drips of paints on canvases placed on the studio floor; Langston Hughes writing detailed instructions to the musicians he hoped would accompany performance of his poetry; Romare Bearden's beautifully turned stage and costume designs for Alvin Ailey and Dianne McIntyre, whose improvisatory jazz dance workshop was called Sound in Motion; the drummer Jo Jones in an interview naming as key influences a series of tap dancers he admired; Stanley Crouch, stirring in his high-powered essays in a room where jazz drums stand at the center, the old dream-kit inspiration; Ralph Ellison, who kept in touch with his beginnings as a musician in Oklahoma City through hour-long conversations with his childhood friend, the singer Jimmy Rushing; Toni Morrison reading her magical prose to improvisations by Max Roach and the dancer Bill T. Jones; and the pianist Jason Moran playing at the Studio Museum in Harlem, where he introduced his group as including Beauford Delany, whose paintings hung on the wall near the bandstand—vigorously all and recall across the art forms.

Perhaps above all, the special concentration in jazz studies is designed to prepare students to be well-prepared and flexible improvisers in a universe of change and possibility.

**Interdepartmental Committee on Jazz Studies**

- Ann Douglas (English and Comparative Literature)
- Brent Hayes Edwards (English and Comparative Literature)
- Aaron Fox (Music)
- Farah Jasmine Griffin (English and Comparative Literature)
- George Lewis (Music)
- Robert G. O’Meally (English and Comparative Literature)
- Christopher Washburne (Music)

**Adjunct Lecturers in Jazz Performance**

- Paul Bollenbeck
- Christine Correa
- Krin Gabbard
- David Gibson
- Brad Jones
- Victor Lin
- Ole Mathiesen
- Tony Moreno
- Ugonna Okegwa
- Adriano Santos
- Don Sickler
- Leo Traversa
- Ben Waltzer

**Guidelines for All Jazz Studies Special Concentrators**

Students interested in a special concentration in jazz studies should speak with the director no later than the fall semester of the sophomore year.

In addition to the requirements of the special concentration, students must complete a major. Students interested in declaring a special concentration in jazz studies will be assigned
an adviser. The program of study is to be planned with the adviser as early as possible.

**Special Concentration in Jazz Studies**

Please read Guidelines for all Jazz Studies Special Concentrators above.

The special concentration in jazz studies requires a total of seven courses (22 points minimum), distributed as follows:

**Requirements for Non-Music Majors/Concentrators**

<table>

A senior independent study project

**Jewish Studies**

*Jewish Studies is offered exclusively as a concentration.*

**Program Office:** Institute for Israel and Jewish Studies, 617 Kent Hall; 212-854-2581; http://www.iijs.columbia.edu/

**Program Director:** Prof. Elisheva Carlebach, 505 Fayerweather; 212-854-5294; ec607@columbia.edu

**Assistant Director:** Dana Kresel, 619 Kent Hall; 212-854-4006; drk2106@columbia.edu

**Academic Advisor:** Prof. Yitzhak Lewis, 410 Knox Hall; 212-854-6668; yml2108@columbia.edu

The academic discipline of Jewish studies is an interdisciplinary field centered on the analysis and investigation of Jewish history, religion, language, and literature. The discipline ranges from the study of Jews and Judaism in antiquity to the present day. It explores Judaism not only as a religion, but as a civilization and culture.

A special concentration in Jewish studies is available for undergraduates and allows students to draw upon classes in a wide range of departments across the University, including History; Sociology; Middle Eastern, South Asian, and African Studies; Germanic Languages and Literature; and Religion. The requirements for the special concentration are designed to provide students with the interdisciplinary knowledge necessary to study Jewish civilization both broadly and deeply.

The roots of Judaism lie deeper than one region, gender, language, or culture; and by studying the interconnectedness of these areas, the depth of understanding across a range of spheres and disciplines greatly increases. The special concentration in Jewish studies enhances the current scholarly programs, adding to current Jewish studies courses’ vitality as students come to each course with a deeper understanding and background based on their complementary coursework.

Students wishing to complete a special concentration in Jewish studies work with a program adviser to decide upon course selection and sequencing. The program office provides and keeps on record a planning form to track the fulfillment of requirements for the special concentration.

**Affiliated Faculty**

- Beth Berkowitz (Religion, Barnard)
- Clemence Boulouque (Religion)
- Elisheva Carlebach (History)
- Yinon Cohen (Sociology)
- Jeremy Dauber (Germanic Languages)
- Rebecca Kobrin (History)
- Rina Kreitman (Middle Eastern, South Asian, and African Studies)
- Agnieszka Legutko (Germanic Languages)
- Yitzhak Lewis (Middle Eastern, South Asian, and African Studies)
- Dan Miron (Middle Eastern, South Asian, and African Studies)
- Seth Schwartz (History)
- Michael Stanislawski (History)

**Special Concentration in Jewish Studies**

In addition to the requirements of the special concentration, students must complete a major.

For a special concentration in Jewish studies, students are required to complete a minimum of 21 points. Please note:

- At least one course must be taken from each of three of the focus areas listed below.
• Credits for language courses may constitute at most 10 points, and one year of Hebrew or Yiddish language is strongly recommended.
• A minimum of 18 points must be taken at Columbia or as part of an approved study abroad program (unless equivalent courses are not offered at Columbia, as determined by the faculty adviser).

The focus areas and courses listed below are examples and do not include all the potential courses which may count. Additionally, as new courses are introduced, new focus areas may develop. Some courses may fall under multiple headings. Determination of a course’s focus area is at the discretion of the faculty adviser.

Focus Areas

Bible and Rabbincics/Ancient Judaism
- RELI V3512 The Bible and Its Interpreters
- RELI W4537 Talmudic Narrative
- RELI W4520 Patriarchal and Rabbinic Authority in Antiquity
- RELI V3501 Introduction To the Hebrew Bible
- RELI V3508 Origins of Judaism
- RELI V3561 Classics fo Judaism: Ethics of the Fathers
- RELI V2510 Jews and Judaism in Antiquity
- RELI W4535 Ancient Jewish Texts

Medieval Judaism
- HIST UN2657 Medieval Jewish Cultures
- HIST W3616 Jews and Christians in the Medieval World
- RELI W4510 The Thought of Maimonides
- RELI V3870 Inquisitions, New Christians, and Empire
- RELI W4515 Reincarnation and Technology
- HIST UN3180 Conversion in Historical Perspective

Modern Judaism
- HIST W3630 American Jewish History
- RELI V3571 Judaism, Jewishness, and Modernity
- MDES UN3542 Introduction to Israeli Literature

Israel Society
- MDES UN3541 Zionism: A Cultural Perspective
- MDES UN3542 Introduction to Israeli Literature
- RELI W4513 Homelands, Diasporas, Promised Lands

Gender and Judaism
- HIST W3640 Jewish Women and Family, 1000-1800
- RELI V3570 Women and Judaism: Folklore or Religion?
- RELI W4504 Reading the Patriarchal and Matriarchal Stories in Genesis

Jewish History and Culture

Latin American and Caribbean Studies

The Institute of Latin American Studies: 8th Floor, International Affairs Building; 212-854-4643
http://ilas.columbia.edu

Program Director: Prof. José Moya, 413 Lehman; jmoya@barnard.edu

Student Affairs Coordinator: Eliza Kwon-Ahn, 827 International Affairs Building; ek2159@columbia.edu

The major in Latin American and Caribbean Studies stresses knowledge of a dynamic, historically deep and extensive region, but it also focuses on social, political, and cultural phenomena that transcend physical boundaries. The major thus reflects multidisciplinary dialogues that are transnational yet remain anchored in the common historical experience of Latin American societies. Thanks to the broad range of courses on Latin America offered in different departments of instruction and centers at Columbia, the major provides a multidisciplinary training on politics, history, culture, economy, and society.

The Institute of Latin American Studies coordinates the major and offers access to research support, study abroad options, and linkages and credits toward the M.A. program in Latin American and Caribbean Studies.

Guidelines for all Latin American and Caribbean Studies Majors and Concentrators

Declaring the Major or Concentration

For additional information on Latin American and Caribbean Studies, please visit the Institute’s website (http://
Major in Latin American and Caribbean Studies

The major requires a minimum of 31 points as follows:

Select five of the following six courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST UN2618</td>
<td>The Modern Caribbean (formerly HIST W3618)</td>
</tr>
<tr>
<td>HIST UN2660</td>
<td>Latin American Civilization I</td>
</tr>
<tr>
<td>HIST UN2661</td>
<td>Modern Latin American History (Latin American Civilization II) (Formerly HIST W3661)</td>
</tr>
<tr>
<td>LACV UN1020</td>
<td>Primary Texts of Latin American Civilization</td>
</tr>
<tr>
<td>POLS GU4461</td>
<td>Latin American Politics</td>
</tr>
<tr>
<td>SPAN UN3300</td>
<td>Advanced Language through Content [in Spanish]</td>
</tr>
</tbody>
</table>

*** The SPAN UN3300 section taken for the Major must focus on Latin America. Please contact the ILAS Student Affairs Coordinator for details.

Language Requirement

Select one course on Spanish, Portuguese, or an indigenous language at the intermediate or advanced level; if students can demonstrate advance knowledge of one of these languages, they can replace this course with a course on other languages at any level.

Discipline of Choice:

Select four courses in a discipline or theme of choice with substantive focus on Latin America. One of these courses must be a seminar. All students, however, need to take at least two courses in a discipline or theme outside of their specialization. The director of undergraduate studies advises students on areas of specialization and must approve courses with substantial Latin American or Caribbean contents not included in the list of eligible courses.

Up to 12 credits for Discipline of Choice requirement can be earned through study abroad. Students are encouraged to explore study abroad options before their junior year. Upon return, they should submit the syllabi and all coursework related to each course taken abroad for approval by the director of undergraduate studies.

Concentration in Latin American and Caribbean Studies

The concentration requires a minimum of 18 points as follows:

Select three of the following six courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST UN2618</td>
<td>The Modern Caribbean (formerly HIST W3618)</td>
</tr>
<tr>
<td>HIST UN2660</td>
<td>Latin American Civilization I</td>
</tr>
<tr>
<td>HIST UN2661</td>
<td>Modern Latin American History (Latin American Civilization II) (Formerly HIST W3661)</td>
</tr>
<tr>
<td>LACV UN1020</td>
<td>Primary Texts of Latin American Civilization</td>
</tr>
<tr>
<td>POLS GU4461</td>
<td>Latin American Politics</td>
</tr>
<tr>
<td>SPAN UN3300</td>
<td>Advanced Language through Content [in Spanish]</td>
</tr>
</tbody>
</table>

*** The SPAN UN3300 section taken for the Concentration must focus on Latin America. Please contact the ILAS Student Affairs Coordinator for details.

Upon return, they should submit the syllabi and all coursework related to each course taken abroad for approval by the director of undergraduate studies.

Linguistics*

*Linguistics is offered exclusively as a concentration.

Program Director: Prof. Alan Timberlake (2017 - 2018), 1128 International Affairs Building 212-854-8488; a (jm3156@columbia.edu)r2205@columbia.edu.

In any discussion of linguistics, in popular or academic contexts, the first question is always, what is linguistics, after all? This is remarkable. Language informs most of our mental and cultural activity, and linguistics is the just study of language.

The tradition of generative grammar posits (a) an idealized individual user of language, which is then seen as (b) a thoroughly rule-governed, (c) biological and universal system. This tradition has been dominant in the sociology of the field since the appearance of Chomsky’s Syntactic Structures (1957).

But various programs have begun to move away from the reductionism of generative grammar and contextual approaches. Alternative approaches, which might be termed...
contextual, look at: (a) how individuals use language in the context of a community, from which it follows that (b) language is not just an abstract mental system; (c) language is rather a cultural habit, whose salient features are by no means universal.

Our program seeks to be inclusive; it presents both strains of linguistics, to ensure that students have the proper training to apply to graduate school, but leans more to a contextual approach. This bias to contextual linguistics fits with the tradition of linguistics at Columbia, from Franz Boas through Uriel Weinreich.

Linguistics, by virtue of dealing with language, naturally intersects with other academic disciplines which also touch on language from the perspective of the other discipline.

(a) Linguistics—at least contextual linguistics—shares with sociology and anthropology the axiom that language is communal, and therefore may be used (for example) to signal identity, to negotiate relations of power between members of a community, and the like. Linguistics does not reduce to sociology, however, in that linguistics investigates not only the communal side of language, but also the systemic and the cognitive properties of language.

(b) Cognitive psychology, in the attempt to understand the workings of the mind, often investigates language, which, after all, is the most accessible manifestation of the activity of the mind. Psychology, however, is virtually obligated to treat all languages as equivalent—after all, language is produced by the human brain, whose properties do not vary across individuals or cultures. In this way psychological investigations of language are less attuned to the variation and cultural accidence of language than linguistics.

(c) Some concerns of philosophy have been adopted by some practitioners of “formal semantics” in linguistics. Yet philosophy, like psychology, adopts an idealized view of language, whereby all languages and all modes of usage are equivalent; there is a tacit assumption that language is immutable. Linguistics—again, contextual linguistics, at least—when it investigates semantics finds the associative and subjective operations of metaphor (similarity) and metonymy (contiguity) as essential tools in modeling language meaning and change in meaning; the subdiscipline of cognitive linguistics focuses on these essentially tropic operations as the critical means whereby meaning is textured and changed over time; change in meaning over time is not relevant to psychology and philosophy. Philosophy and linguistics differ in their take on discourse. In philosophy, the Gricean approach to discourse, to take one example, posits an overarching and idealized “cooperative principle” against which behavior is evaluated. While Grice is in fact often invoked in linguistic discussions of discourse, linguistics is likely to be more empirical than the tradition of discourse in philosophy and pay attention, for example, to differences among functions of discourse (“genres” of speech), to differences in the roles of speaker, and to the differences between written and spontaneous oral use of language.

STUDY ABROAD
Undergraduates have engaged in unique travel and research projects, including sign language in Nicaragua; language attitudes in Kyrgyzstan; colloquial Arabic in Cairo; summer internship at the Max Planck Institute for Evolutionary Biology; and study abroad in Spain, England, India, Hungary, and Ireland.

GRADUATE STUDY
Columbia’s linguists have distinguished themselves with awards and plans after graduation, such as Fulbright Fellowships to France, Georgia, and Turkey; and graduate study of linguistics or psychology at Harvard, Stanford, UCSD, Northwestern, New York University, and SUNY Buffalo. Linguistics is also a natural background for the law, and our students have entered such law schools as Georgetown and Columbia.

There is no graduate program in linguistics at Columbia. Students interested in pursuing graduate study in linguistics in New York should investigate CUNY Graduate Center, New York University, or Teachers College (applied linguistics).

THE COLUMBIA LINGUISTICS SOCIETY
The Columbia Linguistics Society is an organization of undergraduates interested in linguistics which sponsors lectures and hosts informal social events. Information is available at http://columbialinguistics.wordpress.com/ or through Facebook.

AFFILIATED FACULTY
- May Ahmar (Arabic; MESAAS)
- Akeel Bilgrami (Philosophy)
- Aaron Fox (Music)

• Youssef Nouhi (Arabic; MESAAS)
• Christopher Peacocke (Philosophy)
• Owen Rambow (Center for Computational Learning Systems)
• Robert Remez (Psychology, Barnard)
• Francisco Rosales-Varo (Latin American and Iberian Studies)
• Carol Rounds (Hungarian; Italian)
• José Plácido Ruiz-Campillo (Latin American and Iberian Studies)
• Richard Sacks (English and Comparative Literature)
• Ann Senghas (Psychology, Barnard)
• Mariame Sy (Wolof; Pulaar; MESAAS)
• Alan Timberlake (Slavic Languages)
• Zhirong Wang (Chinese; East Asian Languages and Cultures)

Special Concentration in Linguistics

Linguistics at Columbia: Special Concentration

The special concentration in linguistics is not sufficient for graduation in and of itself. It must be taken in conjunction with a major or a full concentration in another discipline. For the special concentration, students must take 18 points in the linguistics program as follows:

1. Three core courses in linguistics chosen from:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>LING UN3101</td>
<td>Introduction to Linguistics</td>
</tr>
<tr>
<td>HNDR UN3343</td>
<td>Hungarian Descriptive Grammar</td>
</tr>
<tr>
<td>ANTH UN3906</td>
<td>Functional Linguistics and Language Typology</td>
</tr>
<tr>
<td>AMST UN3990</td>
<td>Senior Research Seminar</td>
</tr>
<tr>
<td>LING GU4108</td>
<td>Language History</td>
</tr>
<tr>
<td>LING GU4120</td>
<td>Language Documentation and Field Methods</td>
</tr>
<tr>
<td>LING GU4190</td>
<td>Discourse and Pragmatics</td>
</tr>
<tr>
<td>LING GU4202</td>
<td>Cognitive Linguistics</td>
</tr>
<tr>
<td>LING GU4206</td>
<td>Advanced Grammar and Grammars</td>
</tr>
<tr>
<td>LING GU4376</td>
<td>Phonetics and Phonology</td>
</tr>
<tr>
<td>LING GU4800</td>
<td>Language and Society</td>
</tr>
<tr>
<td>ENGL GU4901</td>
<td>History of the English Language</td>
</tr>
<tr>
<td>LING GU4903</td>
<td>Syntax</td>
</tr>
</tbody>
</table>

2. Two additional courses in either linguistics or in related fields chosen in consultation with the program director, in fields such as:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH V3044</td>
<td>Symbolic Anthropology</td>
</tr>
<tr>
<td>ANTH W4042</td>
<td>Agent, Person, Subject, Self</td>
</tr>
</tbody>
</table>

3. One language course at the intermediate level (third-semester), separate from the general language requirement.

In Fulfillment of the Language Requirement for Linguistics

The language taken in fulfillment of the linguistics requirement can be either an ancient or modern language, but should neither be the student’s native (or semi-native) language nor belong to one of the major groups of modern European languages (Germanic, Romance). In addition to the regularly taught courses listed under the Foreign Language Requirement, the following is a list of languages that have been offered at Columbia. See the list of languages offered through the Language Resource Center and consult with the program director about other languages to determine if they are acceptable for the linguistics language requirement.
The major in mathematics is an introduction to some of the highlights of the development of theoretical mathematics over the past four hundred years from a modern perspective. This study is also applied to many problems, both internal to mathematics and arising in other disciplines such as physics, cryptography, and finance.

Majors begin by taking either Honors mathematics or the calculus sequence. Students who do not take MATH UN1207 Honors Mathematics A and MATH UN1208 Honors Mathematics B normally take MATH UN2010 Linear Algebra in the second year. Following this, majors begin to learn some aspects of the main branches of modern mathematics: algebra, analysis, and geometry; as well as some of their subdivisions and hybrids (e.g., number theory, differential geometry, and complex analysis). As the courses become more advanced, they also become more theoretical and proof-oriented and less computational.

Aside from the courses offered by the Mathematics Department, cognate courses in areas such as astronomy, chemistry, physics, probability, logic, economics, and computer science can be used toward the major. A cognate course must be a 2000-level (or higher) course and must be approved by the director of undergraduate studies. In general, a course not taught by the Mathematics Department is a cognate course for the mathematics major if either (a) it has at least two semesters of calculus as a stated prerequisite, or (b) the subject matter in the course is mathematics beyond an elementary level, such as PHIL UN3411 Symbolic Logic, in the Philosophy Department, or COMS W3203 Discrete Mathematics: Introduction to Combinatorics and Graph Theory, in the Computer Science Department.

Another requirement for majors is participation in an undergraduate seminar, usually in the junior or senior year. In these seminars, students gain experience in learning an advanced topic and lecturing on it. In order to be eligible for departmental honors, majors must write a senior thesis.
The systematic study of mathematics begins with one of the following three alternative calculus and linear algebra sequences:

| MATH UN1101 - MATH UN1102 - MATH UN1201 - MATH UN1202 - MATH UN2010 | Calculus I and Calculus II and Calculus III and Calculus IV and Linear Algebra |
| MATH UN1101 - MATH UN1102 - MATH UN1205 - MATH UN2010 | Calculus I and Accelerated Multivariable Calculus and Linear Algebra |
| MATH UN1101 - MATH UN1102 - MATH UN1207 - MATH UN1208 | Calculus I and Honors Mathematics A and Honors Mathematics B |

Credit is allowed for only one calculus and linear algebra sequence.

Calculation I, II is a standard course in single-variable differential and integral calculus; Calculus III, IV is a standard course in multivariable differential and integral calculus; Accelerated Multivariable Calculus is an accelerated course in multivariable differential and integral calculus.

While Calculus II is no longer a prerequisite for Calculus III, students are strongly urged to take it before taking Calculus III. In particular, students thinking of majoring or concentrating in mathematics or one of the joint majors involving mathematics should take Calculus II before taking Calculus III. Note that Calculus II is a prerequisite for Accelerated Multivariable Calculus, and both Calculus II and Calculus III are prerequisites for Calculus IV.

The third sequence, Honors Mathematics A- B, is for exceptionally well-qualified students who have strong Advanced Placement scores. It covers multivariable calculus (MATH UN1201 Calculus III- MATH UN1202 Calculus IV) and linear algebra (MATH UN2010 Linear Algebra), with an emphasis on theory.

MATH UN1003 College Algebra and Analytic Geometry does not count toward the degree. Students who take this course do not receive college credit.

Advanced Placement

The department grants 3 credits for a score of 4 or 5 on the AP Calculus AB exam provided students complete MATH UN1102 Calculus II or MATH UN1201 Calculus III with a grade of C or better. The department grants 6 credits for a score of 5 on the AP Calculus BC exam provided students complete MATH UN1201 Calculus III or MATH UN1205 Accelerated Multivariable Calculus MATH UN1207 Honors Mathematics A with a grade of C or better. Students can receive credit for only one calculus sequence.

Placement in the Calculus Sequences

Calculus I

Students who have essentially mastered a precalculus course and those who have a score of 3 or less on an Advanced Placement (AP) exam (either AB or BC) should begin their study of calculus with MATH UN1101 Calculus I.

Calculus II and III

Students with a score of 4 or 5 on the AB exam, 4 on the BC exam, or those with no AP score but with a grade of A in a full year of high school calculus may begin with either MATH UN1102 Calculus II or MATH UN1201 Calculus III. Note that such students who decide to start with Calculus III may still need to take Calculus II since it is a requirement or prerequisite for other courses. In particular, they MUST take Calculus II before going on to MATH UN1202 Calculus IV. Students with a score of 5 on the BC exam may begin with Calculus III and do not need to take Calculus II.

Those with a score of 4 or 5 on the AB exam or 4 on the BC exam may receive 3 points of AP credit upon completion of Calculus II with a grade of C or higher. Those students with a score of 5 on the BC exam may receive 6 points of AP credit upon completion of Calculus III with a grade of C or higher.

Accelerated Multivariable Calculus

Students with a score of 5 on the AP BC exam or 7 on the IB HL exam may begin with MATH UN1205 Accelerated Multivariable Calculus. Upon completion of this course with a grade of C or higher, they may receive 6 points of AP credit.

Honors Mathematics A

Students who want a proof-oriented theoretical sequence and have a score of 5 on the BC exam may begin with MATH UN1207 Honors Mathematics A, which is especially designed for mathematics majors. Upon completion of this course with a grade of C or higher, they may receive 6 points of AP credit.

Transfers Inside the Calculus Sequences

Students who wish to transfer from one calculus course to another are allowed to do so beyond the date specified on the Academic Calendar. They are considered to be adjusting their level, not changing their program. However, students must
obtain the approval of the new instructor and their advising dean prior to reporting to the Office of the Registrar.

GRADING
No course with a grade of D or lower can count toward the major, interdepartmental major, or concentration. Students who are doing a double major cannot double count courses for their majors.

DEPARTMENTAL HONORS
In order to be eligible for departmental honors, majors must write a senior thesis. To write a senior thesis, students must register for MATH UN3999 Senior Thesis in Mathematics in the fall semester of their senior year. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

MAJOR IN MATHEMATICS
The major requires 40-42 points as follows:

Select one of the following three calculus and linear algebra sequences (13-15 points including Advanced Placement Credit):

<table>
<thead>
<tr>
<th>Sequence</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
<tr>
<td>MATH UN1102</td>
<td>and Calculus II</td>
</tr>
<tr>
<td>MATH UN1201</td>
<td>and Calculus III</td>
</tr>
<tr>
<td>MATH UN1202</td>
<td>and Calculus IV</td>
</tr>
<tr>
<td>MATH UN2010</td>
<td>and Linear Algebra</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Sequence</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
<tr>
<td>MATH UN1102</td>
<td>and Calculus II</td>
</tr>
<tr>
<td>MATH UN1205</td>
<td>and Accelerated Multivariable</td>
</tr>
<tr>
<td>MATH UN2010</td>
<td>Calculus</td>
</tr>
<tr>
<td></td>
<td>and Linear Algebra</td>
</tr>
</tbody>
</table>
MATH UN1101 - Calculus I
- MATH UN1102 and Calculus II
- MATH UN11201 and Calculus III
- MATH UN1202 and Calculus IV
- MATH UN2010 and Linear Algebra

15 points in the following required courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN3951</td>
<td>Undergraduate Seminars in Mathematics I</td>
</tr>
<tr>
<td>MATH UN3952</td>
<td>Undergraduate Seminars in Mathematics II (at least one term)</td>
</tr>
<tr>
<td>MATH GU4041</td>
<td>Introduction to Modern Algebra I</td>
</tr>
<tr>
<td>MATH GU4042</td>
<td>Introduction to Modern Algebra II</td>
</tr>
<tr>
<td>MATH GU4061</td>
<td>Introduction to Modern Analysis I</td>
</tr>
<tr>
<td>MATH GU4062</td>
<td>Introduction to Modern Analysis II</td>
</tr>
</tbody>
</table>

12 points in any combination of mathematics and cognate courses.

* Students who are not contemplating graduate study in mathematics may replace one or both of the two terms of MATH GU4061-MATH GU4062 by one or two of the following courses: MATH UN2500 Analysis and Optimization, MATH UN3007 Complex Variables, MATH UN3028 Partial Differential Equations, or MATH GU4032 Fourier Analysis.

** A course not taught by the Mathematics Department is a cognate course for the mathematics major if either (a) it has at least two semesters of calculus as a stated prerequisite and is a 2000-level (or higher) course, or (b) the subject matter in the course is mathematics beyond an elementary level, such as PHIL UN3411 Symbolic Logic, in the Philosophy Department, or COMS W3203 Discrete Mathematics: Introduction to Combinatorics and Graph Theory, in the Computer Science Department. In exceptional cases, the director of undergraduate studies may approve the substitution of certain more advanced courses for those mentioned above.

The program of study should be planned with a departmental adviser before the end of the sophomore year. Majors who are planning on graduate studies in mathematics are urged to obtain a reading knowledge of one of the following languages: French, German, or Russian.

Majors are offered the opportunity to write an honors senior thesis under the guidance of a faculty member. Interested students should contact the director of undergraduate studies.

### MAJOR IN APPLIED MATHEMATICS

The major requires 38-40 points as follows:

Select one of the following three calculus and linear algebra sequences (13-15 points including Advanced Placement Credit):

- MATH UN1101 and Calculus I
- MATH UN1102 and Calculus II
- MATH UN11201 and Calculus III
- MATH UN1202 and Calculus IV
- MATH UN2010 and Linear Algebra

### MAJOR IN COMPUTER SCIENCE–MATHEMATICS

The goal of this interdepartmental major is to provide substantial background in each of these two disciplines, focusing on some of the parts of each which are closest to the other. Students intending to pursue a Ph.D. program in either discipline are urged to take additional courses, in consultation with their advisers.
The major requires 20 points in computer science, 19-21 points in mathematics, and two 3-point electives in either computer science or mathematics.

COMS W1007  Honors Introduction to Computer Science

or an advanced computer science offering in programming.

**Electives**
An approved selection of three advanced courses in mathematics, statistics, applied mathematics, industrial engineering and operations research, computer science, or approved mathematical methods courses in a quantitative discipline. At least one elective must be a Mathematics Department course numbered 3000 or above.

Students interested in modeling applications are recommended to take MATH UN3027 Ordinary Differential Equations and MATH UN3028 Partial Differential Equations.

Students interested in finance are recommended to take MATH GR5010 Introduction to the Mathematics of Finance, STAT GU4261 Statistical Methods in Finance, and STAT GU4221 Time Series Analysis.

Students interested in graduate study in mathematics or in statistics are recommended to take MATH GU4061 Introduction To Modern Analysis I and MATH GU4062 Introduction To Modern Analysis II.

Students preparing for a career in actuarial science are encouraged to replace STAT GU4205 Linear Regression Models with STAT GU4282 Linear Regression and Time Series Methods, and to take among their electives STAT GU4281 Theory of Interest.

---

**CONCENTRATION IN MATHEMATICS**
The concentration requires the following:

**Mathematics**
Select one of the following three multivariable calculus and linear algebra sequences:

- MATH UN1201 Calculus III
- MATH UN1202 and Calculus IV
- MATH UN2010 and Linear Algebra
- MATH UN1205 Accelerated Multivariable Calculus
- MATH UN2010 and Linear Algebra
- MATH UN1207 Honors Mathematics A
- MATH UN1208 and Honors Mathematics B

**Additional Courses**
Select at least 12 additional points from any of the courses offered by the department numbered 2000 or higher.

For mathematics courses taken in other departments, consult with the director of undergraduate studies.

Any course given by the Mathematics department fulfills the General Studies quantitative reasoning requirement when passed with a satisfactory letter grade.

---

---

The major in mathematics is an introduction to some of the highlights of the development of theoretical mathematics over the past four hundred years from a modern perspective. This study is also applied to many problems, both internal to mathematics and arising in other disciplines such as physics, cryptography, and finance.

Majors begin by taking either Honors mathematics or the calculus sequence. Students who do not take MATH UN1207 Honors Mathematics A and MATH UN1208 Honors Mathematics B normally take MATH UN2010 Linear Algebra in the second year. Following this, majors begin to learn some aspects of the main branches of modern mathematics: algebra, analysis, and geometry; as well as some of their subdivisions and hybrids (e.g., number theory, differential geometry, and complex analysis). As the courses become more advanced, they also become more theoretical and proof-oriented and less computational.

Aside from the courses offered by the Mathematics Department, cognate courses in areas such as astronomy, chemistry, physics, probability, logic, economics, and computer science can be used toward the major. A cognate course must be a 2000-level (or higher) course and must be approved by the director of undergraduate studies. In general, a course not taught by the Mathematics Department is a cognate course for the mathematics major if either (a) it has at least two semesters...
of calculus as a stated prerequisite, or (b) the subject matter in the course is mathematics beyond an elementary level, such as PHIL UN3411 Symbolic Logic, in the Philosophy Department, or COMS W3203 Discrete Mathematics: Introduction to Combinatorics and Graph Theory, in the Computer Science Department.

Another requirement for majors is participation in an undergraduate seminar, usually in the junior or senior year. In these seminars, students gain experience in learning an advanced topic and lecturing on it. In order to be eligible for departmental honors, majors must write a senior thesis.

**Courses for First-Year Students**

The systematic study of mathematics begins with one of the following three alternative calculus and linear algebra sequences:

| MATH UN1101 | Calculus I |
| MATH UN1102 | and Calculus II |
| MATH UN1201 | and Calculus III |
| MATH UN1202 | and Calculus IV |
| MATH UN2010 | and Linear Algebra |

| MATH UN1101 | Calculus I |
| MATH UN1102 | and Calculus II |
| MATH UN1205 | and Accelerated Multivariable Calculus |
| MATH UN2010 | Calculus and Linear Algebra |

Credit is allowed for only one calculus and linear algebra sequence.

*Calculus I, II* is a standard course in single-variable differential and integral calculus; *Calculus III, IV* is a standard course in multivariable differential and integral calculus; *Accelerated Multivariable Calculus* is an accelerated course in multivariable differential and integral calculus.

While *Calculus II* is no longer a prerequisite for *Calculus III*, students are strongly urged to take it before taking *Calculus III*. In particular, students thinking of majoring or concentrating in mathematics or one of the joint majors involving mathematics should take *Calculus II* before taking *Calculus III*. Note that *Calculus II* is a prerequisite for *Accelerated Multivariable Calculus*, and both *Calculus II* and *Calculus III* are prerequisites for *Calculus IV*.

The third sequence, *Honors Mathematics A- B*, is for exceptionally well-qualified students who have strong Advanced Placement scores. It covers multivariable calculus (MATH UN1201 Calculus III- MATH UN1202 Calculus IV) and linear algebra (MATH UN2010 Linear Algebra), with an emphasis on theory.

MATH UN1003 College Algebra and Analytic Geometry does not count toward the degree. Students who take this course do not receive college credit.

**Advanced Placement**

The department grants 3 credits for a score of 4 or 5 on the AP Calculus AB exam provided students complete MATH UN1102 Calculus II or MATH UN1201 Calculus III with a grade of C or better. The department grants 3 credits for a score of 4 on the AP Calculus BC exam provided students complete MATH UN1102 Calculus II or MATH UN1201 Calculus III with a grade of C or better. The department grants 6 credits for a score of 5 on the AP Calculus BC exam provided students complete MATH UN1201 Calculus III or MATH UN1205 Accelerated Multivariable Calculus MATH UN1207 Honors Mathematics A with a grade of C or better. Students can receive credit for only one calculus sequence.

**Placement in the Calculus Sequences**

**Calculus I**

Students who have essentially mastered a precalculus course and those who have a score of 3 or less on an Advanced Placement (AP) exam (either AB or BC) should begin their study of calculus with MATH UN1101 Calculus I.

**Calculus II and III**

Students with a score of 4 or 5 on the AB exam, 4 on the BC exam, or those with no AP score but with a grade of A in a full year of high school calculus may begin with either MATH UN1102 Calculus II or MATH UN1201 Calculus III. Note that such students who decide to start with *Calculus III* may still need to take *Calculus II* since it is a requirement or prerequisite for other courses. In particular, they MUST take *Calculus II* before going on to MATH UN1202 Calculus IV. Students with a score of 5 on the BC exam may begin with *Calculus III* and do not need to take *Calculus II*.

Those with a score of 4 or 5 on the AB exam or 4 on the BC exam may receive 3 points of AP credit upon completion of *Calculus II* with a grade of C or higher. Those students with a score of 5 on the BC exam may receive 6 points of AP credit upon completion of *Calculus III* with a grade of C or higher.

**Accelerated Multivariable Calculus**

Students with a score of 5 on the AP BC exam or 7 on the IB HL exam may begin with MATH UN1205 Accelerated Multivariable Calculus. Upon completion of this course with a grade of C or higher, they may receive 6 points of AP credit.

**Honors Mathematics A**

Students who want a proof-oriented theoretical sequence and have a score of 5 on the BC exam may begin with MATH UN1207 Honors Mathematics A, which is especially
designed for mathematics majors. Upon completion of this course with a grade of C or higher, they may receive 6 points of AP credit.

**Transfers Inside the Calculus Sequences**

Students who wish to transfer from one calculus course to another are allowed to do so beyond the date specified on the Academic Calendar. They are considered to be adjusting their level, not changing their program. However, students must obtain the approval of the new instructor and their advising dean prior to reporting to the Office of the Registrar.

**Grading**

No course with a grade of D or lower can count toward the major, interdepartmental major, or concentration. Students who are doing a double major cannot double count courses for their majors.

**Departmental Honors**

In order to be eligible for departmental honors, majors must write a senior thesis. To write a senior thesis, students must register for MATH UN3999 Senior Thesis in Mathematics in the fall semester of their senior year. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

**Professors**

- Mohammed Abouzaid
- David A. Bayer (Barnard)
- Simon Brendle
- Ivan Corwin
- Panagiota Daskalopoulos
- Aise Johan de Jong
- Robert Friedman
- Patrick X. Gallagher
- Dorian Goldfeld
- Brian Greene
- Richard Hamilton
- Michael Harris
- Ioannis Karatzas
- Mikhail Khovanov
- Igor Krichever
- Chiu-Chu Liu
- Dusa McDuff (Barnard)
- Walter Neumann (Barnard)
- Andrei Okounkov
- D. H. Phong
- Henry Pinkham
- Ovidiu Savin
- Michael Thaddeus (Department Chair)
- Eric Urban
- Mu-Tao Wang
- Wei Zhang

**Associate Professors**

- Daniela De Silva (Barnard)
- Julien Dubedat

**Assistant Professors**

- n/a

**J.F. Ritt Assistant Professors**

- Akram Alishahi
- Guillaume Barraquand
- Hector Chang
- Teng Fei
- Bin Guo
- David Hansen
- Chao Li
- Shotaro Makisumi
- Joanna Nelson
- Gus Schrader
- Shrenik Shah
- Hao Shen
- Evan Warner
- Hui Yu
- Yihang Zhu

**Senior Lecturers in Discipline**

- Lars Nielsen
- Mikhail Smirnov
- Peter Woit

**Lecturers in Discipline**

- Michael Woodbury

**On Leave**

- Profs. Daskalopoulos, Liu, Okounkov, Pinkham, Wang, Zhang (*Fall 2017*)
- Profs. Daskalopoulos, Liu, Makisumi, Okounkov, Pinkham, Wang, Zhang (*Spring 2018*)

**Major in Mathematics**

The major requires 40-42 points as follows:

Select one of the following three calculus and linear algebra sequences (13-15 points including Advanced Placement Credit):
MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1201 and Calculus III
- MATH UN1202 and Calculus IV
- MATH UN2010 and Linear Algebra

MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1205 and Accelerated Multivariable Calculus
- MATH UN2010 and Linear Algebra

MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1207 and Honors Mathematics A
- MATH UN1208 and Honors Mathematics B

15 points in the following required courses:

- MATH UN3951 Undergraduate Seminars in Mathematics I
- MATH UN3952 and Undergraduate Seminars in Mathematics II (at least one term)

- MATH GU4041 Introduction to Modern Algebra I
- MATH GU4042 and Introduction to Modern Algebra II

- MATH GU4061 Introduction To Modern Analysis I
- MATH GU4062 and Introduction To Modern Analysis II

12 points in any combination of mathematics and cognate courses.

* Students who are not contemplating graduate study in mathematics may replace one or both of the two terms of MATH GU4061- MATH GU4062 by one or two of the following courses: MATH UN2500 Analysis and Optimization, MATH UN3007 Complex Variables, MATH UN3028 Partial Differential Equations, or MATH GU4032 Fourier Analysis.

** A course not taught by the Mathematics Department is a cognate course for the mathematics major if either (a) it has at least two semesters of calculus as a stated prerequisite and is a 2000-level (or higher) course, or (b) the subject matter in the course is mathematics beyond an elementary level, such as PHIL UN3411 Symbolic Logic, in the Philosophy Department, or COMS W3203 Discrete Mathematics: Introduction to Combinatorics and Graph Theory, in the Computer Science Department. In exceptional cases, the director of undergraduate studies may approve the substitution of certain more advanced courses for those mentioned above.

The program of study should be planned with a departmental adviser before the end of the sophomore year. Majors who are planning on graduate studies in mathematics are urged to obtain a reading knowledge of one of the following languages: French, German, or Russian.

Majors are offered the opportunity to write an honors senior thesis under the guidance of a faculty member. Interested students should contact the director of undergraduate studies.

**MAJOR IN APPLIED MATHEMATICS**

The major requires 38-40 points as follows:

Select one of the following three calculus and linear algebra sequences (13-15 points including Advanced Placement Credit):

- MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1201 and Calculus III
- MATH UN1202 and Calculus IV
- MATH UN2010 and Linear Algebra

- MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1205 and Accelerated Multivariable Calculus
- MATH UN2010 and Linear Algebra

- MATH UN1101 Calculus I
- MATH UN1102 and Calculus II
- MATH UN1205 and Accelerated Multivariable Calculus
- MATH UN2010 and Linear Algebra

Select one of the following three courses:

- MATH UN2500 Analysis and Optimization
- MATH GU4032 Fourier Analysis
- MATH GU4061 Introduction To Modern Analysis I

18 points in electives, selected from the following (other courses may be used with the approval of the Applied Mathematics Committee):

- MATH UN2500 Analysis and Optimization
- MATH UN3007 Complex Variables or MATH GU4065 Honors Complex Variables
- MATH UN3028 Partial Differential Equations or APMA E4204 Functions of a Complex Variable
- MATH UN3027 Ordinary Differential Equations
- MATH UN3028 Partial Differential Equations or APMA E4200 Partial Differential Equations or APMA E6301 Analytic methods for partial differential equations
- MATH GU4032 Fourier Analysis
- APMA E4300 Computational Math: Introduction to Numerical Methods
- APMA E4101 Introduction to Dynamical Systems
- APMA E4150 Applied Functional Analysis
- APMA E4400 Introduction to Biophysical Modeling
**MAJOR IN COMPUTER SCIENCE–MATHEMATICS**

The goal of this interdepartmental major is to provide substantial background in each of these two disciplines, focusing on some of the parts of each which are closest to the other. Students intending to pursue a Ph.D. program in either discipline are urged to take additional courses, in consultation with their advisers.

The major requires 20 points in computer science, 19-21 points in mathematics, and two 3-point electives in either computer science or mathematics.

or an advanced computer science offering in programming

**Electives**

An approved selection of three advanced courses in mathematics, statistics, applied mathematics, industrial engineering and operations research, computer science, or approved mathematical methods courses in a quantitative discipline. At least one elective must be a Mathematics Department course numbered 3000 or above.

Students interested in modeling applications are recommended to take MATH UN3027 Ordinary Differential Equations and MATH UN3028 Partial Differential Equations.

Students interested in finance are recommended to take MATH GR5010 Introduction to the Mathematics of Finance, STAT GU4261 Statistical Methods in Finance, and STAT GU4221 Time Series Analysis.

Students interested in graduate study in mathematics or in statistics are recommended to take MATH GU4061 Introduction To Modern Analysis I and MATH GU4062 Introduction To Modern Analysis II.

Students preparing for a career in actuarial science are encouraged to replace STAT GU4205 Linear Regression Models with STAT GU4282 Linear Regression and Time Series Methods, and to take among their electives STAT GU4281 Theory of Interest.

**CONCENTRATION IN MATHEMATICS**

The concentration requires the following:

**Mathematics**

Select one of the following three multivariable calculus and linear algebra sequences:

- MATH UN1201 - MATH UN1202 - MATH UN2010 Calculus III and Calculus IV and Linear Algebra
- MATH UN1205 - MATH UN2010 Accelerated Multivariable Calculus and Linear Algebra
- MATH UN1207 - MATH UN1208 Honors Mathematics A and Honors Mathematics B

**Additional Courses**

Select at least 12 additional points from any of the courses offered by the department numbered 2000 or higher.

For mathematics courses taken in other departments, consult with the director of undergraduate studies.

Any course given by the Mathematics department fulfills the General Studies quantitative reasoning requirement when passed with a satisfactory letter grade.

**MEDIEVAL AND RENAISSANCE STUDIES**

*Medieval and Renaissance Studies is offered exclusively as a concentration.

**Program Director:** Prof. Adam Kosto, 404 Fayerweather Hall, ajkosto@columbia.edu

**Program Administrator:** Helen Schreiber, medren@columbia.edu

Medieval and Renaissance studies is an interdisciplinary program in which a student combines a concentration in medieval or Renaissance civilization with a major or concentration in one of the following departments:

- Art History and Archaeology
- Classics
- East Asian Languages and Cultures
- English and Comparative Literature
- French and Romance Philology
- Germanic Languages
- History
- Italian
- Latin American and Iberian Cultures
- Middle Eastern, South Asian, and African Studies
- Music
- Philosophy
- Religion
- Slavic Languages

For more information about the special concentration in medieval and Renaissance studies, visit [http://medren.columbia.edu/](http://medren.columbia.edu/).

**EXECUTIVE COMMITTEE OF THE INTERDEPARTMENTAL COMMITTEE ON MEDIEVAL AND RENAISSANCE STUDIES**

- Christopher Baswell (English and Comparative Literature)
- Susan Boynton (Music; Program Director, Medieval and Renaissance Studies)
- Consuelo Dutschke (Rare Book and Manuscript Library)
- Rachel Eisendrath (Barnard Department of English, Barnard Medieval and Renaissance Studies)
• Carmela Franklin (Classics)
• Seth Kimmel (Latin American and Iberian Cultures)
• Adam Kosto (History)
• Pamela Smith (History)
• Alan Stewart (English and Comparative Literature)
• Jesus Rodriguez-Velasco (Latin American and Iberian Cultures)
• Michael Waters (Art History and Archaeology)
• Eliza Zingesser (French and Romance Philology)

Full Faculty List: https://medren.columbia.edu/people

SPECIAL CONCENTRATION IN MEDIEVAL AND RENAISSANCE STUDIES

Students considering the special concentration in medieval and Renaissance studies should consult with the director in advance of course registration to ensure that their selection of courses will count towards the special concentration.

Please note that requirements for the Special Concentration were revised November 2017.

In addition to fulfilling the requirements for a departmental major or concentration, students with this special concentration should plan on taking an additional four (4) courses in other departments of the program, to be chosen in consultation with an appropriate member of the committee.

Students must also demonstrate an ability to work with original language sources (other than in Early Modern English) from the medieval and/or Early Modern periods, either through language coursework focusing on the historical language (e.g., LATN UN3033 Medieval Language and Literature, MDES GU4214 Fourth Year Classical Arabic I) or through research (e.g., a senior thesis or seminar paper with substantial use of original language sources). Any courses outside the major used to demonstrate the language requirement may also count toward the course requirement for the special concentration. Students should gain approval of the director of the program in advance for plans to fulfill this language requirement.

The undergraduate program in Middle Eastern, South Asian, and African studies (MESAAS) offers students the opportunity to study in depth the cultures, ideas, histories, and politics of several overlapping world regions. The program emphasizes a close engagement with intellectual traditions, creative movements, and political debates, drawing on a wide variety of historical and contemporary sources in literature, religion, political thought, law, the visual and performing arts, and new media. Courses also examine the historical and cultural contexts in which these traditions and debates have been produced.

MAJORS AND CONCENTRATIONS

Majors develop two closely related skills. The first is linguistic expertise. A minimum of two years of course work in one language is required, and further work (including intensive summer language study) is greatly encouraged, because the aim is to study a cultural field through its own texts and discourses. The Department of Middle Eastern, South Asian, and African Studies offers courses in Arabic, Persian, Turkish, Hebrew, Armenian, Sanskrit, Hindi/Urdu, Bengali, Tamil, Swahili, Wolof, and Zulu.

The second skill is learning how to think and write about complex cultural formations, drawing on a variety of methods and disciplinary approaches. The approaches vary according to the faculty members’ expertise, incorporating methods from relevant fields in the humanities and social sciences, such as literary criticism, film studies, cultural studies, political theory, and intellectual history.

The only difference between the MESAAS major and the concentration is that the latter does not require language proficiency.

GUIDELINES FOR ALL MIDDLE EASTERN, SOUTH ASIAN, AND AFRICAN STUDIES MAJORS AND CONCENTRATORS

Introduction to MESAAS
Majors and concentrators begin their work with an introductory course that emphasizes a particular area (the Middle East, South Asia, or Africa). For instance, students interested in the Middle East would take ASCM UN2003 Introduction to Islamic Civilization or ASCM UN2008 Contemporary Islamic Civilization. Students keen on learning more about South Asia would take ASCM UN2357 Introduction to Indian Civilization, HSME UN3810 History of South Asia I: al-Hind to Hindustan, or HIST W3811 South Asia II: Empire and Its Aftermath. The introductory course generally recommended for students interested in Africa is MDES UN2030 Major Debates in the Study of Africa.

Required Core Courses
All majors must take two additional core courses. The first is a small seminar in which they explore some of the classic texts of the region, either AHUM UN3399 Colloquium on Major Texts: Middle East and South Asia (for those focusing on the Middle East and South Asia) or AFCV UN1020 African Civilizations (for those focusing on Africa).

With this background, students are ready to take MDES UN3000 Theory and Culture generally in the junior or senior year. This course examines critical approaches to the study of language, culture, and politics and encourages students to reflect on their own work from many different perspectives.

Additional Requirements
Fifteen additional points (generally five courses) are chosen in consultation with the director of undergraduate studies. These may include six points of coursework from other departments, subject to the director of undergraduate studies’ approval. Although students may have a particular interest (e.g., Arab political thought, Urdu literature, Armenian history, Iranian cinema, or contemporary West Africa), they are encouraged to gain exposure to the fullest range of courses and approaches offered by the faculty, and to familiarize themselves with other regions beyond their core area.
In Fulfillment of the Language Requirement  
(for Majors)
Enrollment in language courses is in some cases determined by placement exams. For more information, see Languages on the departmental website (http://www.columbia.edu/cu/mesaas) and, if necessary, consult the relevant Coordinator listed on that page. The website includes separate pages for each language, describing the program of instruction, courses for heritage speakers, summer language programs, and more. Language courses must be taken for a letter grade. Pass/D/Fail or Registration credit (R) is not permitted. Those seeking to waive a language requirement must take a proficiency test.

Students who enter with language proficiency at only the second-year level must complete one additional year of language study and one additional MESAAS course. When students enter with language proficiency at the third year level (or in cases where only two years of a particular language are offered in MESAAS), they must substitute three additional MESAAS courses.

Advising
Newly declared majors and concentrators should meet with the director of undergraduate studies in order to plan a program of study. The goal is to strike a balance between courses that help a student achieve depth in a particular area/discipline and those that foster a wider perspective.

Although students are encouraged to approach faculty in the department based on their specific interests, the director of undergraduate studies functions as an ad hoc adviser for all entering students, addressing issues of course requirements, credit, approval for courses in other departments or schools, study abroad, and, eventually, honors requirements (including the senior thesis). Students should not hesitate to contact the director of undergraduate studies to set up an appointment.

Grading
Courses in which the grade of D has been received do not count toward the major or concentration requirements, nor do those taken Pass/D/Fail, except for the first course taken toward the major or concentration.

Honors Program/Senior Thesis
Students may also wish to write a thesis. While not required for graduation, the thesis enables a student to be considered for departmental honors. It is advisable to begin planning for the thesis during the student’s junior year. Interested students should attend the relevant information sessions and identify a potential faculty adviser.

All students who wish to write a thesis must enroll in MDES UN3960 MESAAS Honors Thesis Seminar, a full year course consisting of a 1-point segment in the Fall semester and a 3-point segment in the Spring semester. Students work closely with their peers in a supportive environment to produce a substantial piece of research (in the range of 40 pages). The primary intellectual guidance is provided by the faculty adviser, whereas the director of undergraduate studies and the honors seminar teaching assistant oversee the general development of the project. Every year in April, MESAAS hosts a senior colloquium in which students present their research. For more information on the honors program, see Frequently Asked Questions on the departmental website (http://www.columbia.edu/cu/mesaas).

Major in Middle Eastern, South Asian, and African Studies
Students should obtain a Major Declaration form (available in the online major declaration system or from your adviser) and bring it to the director of undergraduate studies for approval. The director of undergraduate studies meets with students as necessary in order to establish and approve their individual programs of study. The requirements for the major are as follows:

Select one-term introductory culture course, to be approved by the director of undergraduate studies

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AHUM UN3399</td>
<td>Colloquium on Major Texts: Middle East and South Asia</td>
</tr>
<tr>
<td>MDES UN3000</td>
<td>Theory and Culture</td>
</tr>
</tbody>
</table>

Select two years of a language regularly taught in the department, or substitutional courses for students who test out of this requirement with the approval of the director of undergraduate studies

Select 15 points of coursework, which may include up to six points from other departments, selected in consultation with the director of undergraduate studies

The MESAAS Major and its ‘Tracks’

Students majoring in MESAAS are studying the languages, and central cultural and political aspects of the societies of the Middle East, South Asia, and Africa, in past and present. This can be done either with a focus on one of these three regions, i.e. the ‘African Studies’, the ‘South Asian Studies’, or the ‘Middle Eastern Studies’ track, or a comparative perspective on them, the ‘combined track’.

The coursework for each of those ‘tracks’ is composed of the same five elements: 1. an approved Introductory course; 2. a seminar on texts from the region; 3. ‘Theory and Culture’; 4. five approved elective courses; 5. the regional language requirement.

Note that some MESAAS courses are already comparative by design and connect more than one region: for example, Societies and Cultures Across the Indian Ocean, or Postcolonial Thought, or courses on Persianate culture that include North India, or Middle East courses that include North Africa. These...
may satisfy requirements for more than one track, subject to approval by the Director of Undergraduate Studies (DUS).

African Studies

1. MDES UN3130 Major Debates in the Study of Africa or another approved introductory lecture course.
2. CC1020 African Civilization
3. MDES UN3000 Theory and Culture
4. Five additional courses on Africa, such as: South African Literature and Culture: Apartheid and After; East Africa and the Swahili Coast; or Pan Africanism (see the Courses page for more options). You may include up to two courses from other departments, in fields such as African history, politics, and philosophy, the anthropology of Africa, and African art, subject to the approval of the Director of Undergraduate Studies. For a listing of courses in other departments, see here (http://www.ias.columbia.edu/academics).

Middle Eastern Studies

1. ASCM UN2003 Islamic Civilization or another approved introductory lecture course.
2. Asian Humanities UN3399 Major Texts: Middle East/India
3. MDES UN3000 Theory and Culture
4. Five additional courses on the Middle East, such as: Arabic Self-Narratives; Central Questions in Islamic Law, Palestinian-Israeli Politics and Society, or Epics and Empires (see the Courses page for more options). You may include up to two courses from other departments, in fields such as Middle Eastern history, politics, and anthropology, or Islamic art, subject to the approval of the Director of Undergraduate Studies. Find a list of Middle East courses in other departments here (http://www.mei.columbia.edu).
5. Language: A minimum of two years of coursework in Arabic, Hebrew, Persian, Turkish, or Armenian. See the MESAAS language programs here (http://www.columbia.edu/cu/mesaas/languages). Those already fluent in a Middle Eastern language may substitute other courses—see FAQ (http://www.columbia.edu/cu/mesaas/undergraduate/faqs.html#fluent). Not required for the concentration.

South Asian Studies

1. MDES UN2357 Indian Civilization or another approved introductory lecture course.
2. Asian Humanities UN3399 Major Texts: Middle East/India
3. MDES UN3000 Theory and Culture
4. Five additional courses on South Asia, such as: Mughal India; Gandhi and his Interlocutors; or Cinemas of India (see the Courses page for more options). You may include up to six points of coursework from other departments, in fields such as South Asian history, politics, and anthropology, or Indian art, subject to the approval of the Director of Undergraduate Studies. Find a list of South Asia courses in other departments here (http://sai.columbia.edu/courses).

Combined

There is also a combined option. For this, you may satisfy the five requirements by choosing courses from any of the three tracks.

1. An approved introductory lecture course.
2. Asian Humanities UN3399 Major Texts: Middle East/India – OR: CC1020 African Civilization
3. MDES UN3000 Theory and Culture
4. Five additional courses, fitting one’s course of study, to be approved by DUS
5. Language: A minimum of two years of coursework in any of the regional MESAAS languages, to be approved by the DUS.

CONCENTRATION IN MIDDLE EASTERN, SOUTH ASIAN, AND AFRICAN STUDIES

The requirements are identical with those for the major, except that there is no departmental language requirement. Fifteen points in department courses, selected with the approval of the director of undergraduate studies. These may not include elementary or intermediate language courses. Not more than two courses out of the general 15 points may be devoted to language study.

MODERN GREEK STUDIES*

*Modern Greek Studies is offered exclusively as a concentration.

Departmental Office: 617 Hamilton; 212-854-3902; classics@columbia.edu
http://www.columbia.edu/cu/classics/

Director of Undergraduate Studies (Classics): Prof. Katharina Volk; 212-854-5683; kv2018@columbia.edu

Director of Undergraduate Studies (Modern Greek Studies): Prof. Nikolas Kakkoufa; 212-854-3902; nk2776@columbia.edu
When one visits Rome or Athens, they also visit the many layers of physical, historical, and cultural development that have contributed to the complex evolution of those cities. When one tours the Roman Forum or the Greek Parthenon, they set foot on monuments whose physical impressiveness symbolizes political strength and historical importance; in a very physical way they experience the past. When one studies Latin and Greek language and culture, they embark on a tour of an alternative kind, making their way through texts and other cultural forms—such as paintings, sculptures, and philosophical ideas—that bring them directly into contact with the Greco-Roman past. Literature, philosophy, history, art and architecture, linguistics, papyrology, religion: all (and more) are branches of investigation to which the modern student of classics/classical studies has access through the surviving literary and material evidence.

But when one studies in the original language Virgil’s Aeneid, say, or Plato’s philosophical writings, they find that ancient Greek or Latin literature deals with issues and ideas that are, for us, of central contemporary importance: e.g., How can I be happy? What is the best political constitution for our (or any) state? What responsibilities do I have to the society in which I live? What national significance is served or owed by literature?

The study of Greek and Latin language and culture concentrates in one main area (ancient Greece and Rome) and on many of the questions that are of direct pertinence to the ways in which modern lives are shaped and lived; at the same time, Greco-Roman literature and philosophy, so fundamental to the later development of the Western tradition, boast works of great intrinsic worth and interest. While all Columbia students get an introduction to classical texts in Literature Humanities and Contemporary Civilization, classics/classical studies provides a more advanced study of ancient cultural issues and habits of mind already sampled in the Core.

Study abroad in Greece or Italy offers a variety of educational experiences that are continuous with those of the major, enriching both linguistic expertise and cultural awareness. Students in classics have the opportunity to take part in archaeological digs abroad and, on occasion, to assist faculty in research projects that require, for example, bibliographical collection or the checking of research data.

Many majors pursue graduate study in classics and classical studies. Upon earning their graduate degrees, they often embark on teaching careers in universities, colleges, and high schools. Many graduating majors also enter a number of other professional fields, among them law, banking, accountancy, publishing, and museum-work. Employers tend to find that students in classics are articulate on paper, as well as orally; are organized of mind; and have good skills in general reasoning, an ability developed by the study of Greek and Latin language.

In effect, the study of classics opens up a wide array of options, both in education and in the wider world.

The program of the department aims for a comprehensive understanding of classical literature and culture, and the mastery of Greek and Latin on which such understanding depends. Careful study of the language occupies the largest part of the first-year courses and is not omitted in the more advanced courses. Although literature becomes the chief subject only in the advanced courses, important authors like Homer, Plato, and Virgil are studied as literary texts already in the intermediate courses. A wide variety of courses are offered in translation.

Through a joint program with Barnard, the department offers a broad range of subjects. The department annually offers four advanced courses in each language (at the 3000- or 4000-level), the content of which changes each year in order to provide a curricular range and to balance authors and genres over a two-year period.

Opportunities for individual projects of reading and research are available. Students are also permitted to take graduate courses if they are sufficiently prepared. Additionally, they can supplement their studies within the department through work in other departments, such as art history and archaeology, history, philosophy, and the other departments of languages and literature.

It is not necessary to have previously studied either language in order to major in it. A student starting Greek or Latin at Columbia can meet all the requirements of a major within an ordinary undergraduate program.

IN FULFILLMENT OF THE LANGUAGE REQUIREMENT

Students beginning the study of Greek or Latin at Columbia must take four terms of either of the following two-year sequences:

<table>
<thead>
<tr>
<th>Greek</th>
<th>Latin</th>
</tr>
</thead>
<tbody>
<tr>
<td>G charact</td>
<td>LATIN UN1101</td>
</tr>
<tr>
<td>- GREK UN1101</td>
<td>- LATIN UN1101</td>
</tr>
<tr>
<td>- GREK UN2101</td>
<td>- LATIN UN2101</td>
</tr>
<tr>
<td></td>
<td>Elementary Greek I</td>
</tr>
<tr>
<td></td>
<td>Elementary Latin I</td>
</tr>
<tr>
<td></td>
<td>Intermediate Greek I Attic Prose</td>
</tr>
<tr>
<td></td>
<td>Intermediate Latin I</td>
</tr>
</tbody>
</table>

With the permission of the director of undergraduate studies, GREK UN2102 Intermediate Greek II: Homer may be taken before GREK UN2101 Intermediate Greek I Attic Prose.
The intensive elementary courses GREK UN1121 and LATN UN1121 may be substituted for the two-term UN1101-UN1102 sequence. The intensive intermediate courses GREK S1221 and LATN S1221 may be substituted for the two-term UN2101-UN2102 sequence.

LATN UN2101 Intermediate Latin I should be taken before LATN UN2102 Intermediate Latin II.

For students with secondary-school training in Greek or Latin, the director of undergraduate studies determines, on the basis of records and test scores, what further work is needed to fulfill the language requirement.

**ADVANCED PLACEMENT**

The department grants 3 credits for a score of 5 on the Latin AP exam, which also satisfies the foreign language requirement, upon successful completion (with a grade of B or higher) of a Latin class at the 3000-level or higher.

**MAJOR PROGRAM**

The department offers a major in classics and a major track in classical studies. The major in classics involves the intensive study of both Greek and Latin, as well as their cultural matrix; the track in classical studies offers a more interdisciplinary approach. The major in classics is recommended for students planning to continue the study of classics in graduate school. The department also participates in the interdepartmental ancient studies program and offers a concentration in classics; these are all described below.

The major in classics and the track in classical studies are designed in part to build on the experience of the ancient world that undergraduates have acquired at Columbia in the Core Curriculum (especially in Literature Humanities). The major in classics is structured on the principle of gradual and closely monitored linguistic progress from the elementary (1100-level) to the advanced (3000- and 4000-levels) and ultimately to the literature survey courses (GU4105-GU4106) in Greek and/or Latin.

Those majors intending to embark on graduate study in classics are especially encouraged to undertake, in their senior year, an independent research project (UN3998). This option is designed to allow students to personalize their experience in the major by conducting advanced study in a specialized area under the guidance of the specializing faculty member of their choice.

UN3998 is required in the classical studies track. Otherwise, students in classical studies are not required to take advanced courses beyond UN3996 The Major Seminar, but are expected to follow a coherent plan of study by taking a sequence of cognate courses in different but related departments (e.g., art history and archaeology, history, etc.).

The director of undergraduate studies is responsible for overseeing the path of study followed by each student in classics or classical studies. Through close interaction with the director of undergraduate studies, as well as with other faculty members where appropriate, each major is strongly encouraged to debate the strengths and weaknesses of his or her own trajectory of study even as the requirements for the major are being completed.

Students should contact the director of undergraduate studies with any questions about the classics majors and course offerings. The director of undergraduate studies can provide students with a worksheet to help in planning their progress toward major requirements.

- Elizabeth Irwin
- Ellen Morris (Barnard)

**LECTURERS**

- Dimitrios Antoniou
- Caitlin Gillespie
- Nikolas Kakkoufa
- Darcy Krasne
- Elizabeth Scharffenberger

**MAJOR IN CLASSICS**

The major in classics involves a program in both Greek and Latin languages and literatures, and in Greek and Roman civilization. Students generally emphasize the study of one of the languages (the primary language), but significant study of the other (secondary) language is required as well.

The major requires the completion of 11 courses (a minimum of 34 points) and must include the following:

1. In a primary language:
   - Four courses at or above the UN2100-level;
• The Major Seminar UN3996;
• Two courses from the following four advanced options: GU4105, GU4106, GU4139, UN3998 (any others may count toward the four upper level requirement).

2. In a secondary language:
• Two courses at or above the UN2100-level.

3. Two ancient culture courses, including:
• One course in the culture of the primary language;
• One course in any aspect of ancient history or culture (HIST, AHIS, PHIL, CLLT, CLCV). All substitutions must be approved by the director of undergraduate studies.

The classical languages follow a standard track of elementary (1100-level) and intermediate (2100-level) levels, followed by 3000- and 4000-level classes that may generally be taken in any order.

Although it is easier to complete the major if at least one classical language is begun no later than the first year, it is possible to begin one classical language in the sophomore year and the other in the junior year and still complete the major.

Those planning to go on to graduate study in classics are urged to take both terms of GU4105-GU4106 if possible, to write a senior research thesis, and to acquire a reading knowledge of German and preferably also of French (Italian is also useful).

To be eligible for departmental honors and prizes, students must take UN3998.

### Major Track in Classical Studies

The major track in classical studies requires the completion of 11 courses (a minimum of 35 points) and must include the following:

1. Five courses, at or above the UN1102-level, in either or both Latin and Greek;
2. The Major Seminar UN3996;
3. Four classes in Ancient History, Art, Philosophy, Religion, and Civilization. Note that certain courses may be 6 credits, e.g., ICCS’s City of Rome course, and may count as two courses towards this requirement. Students in doubt about a course’s relevance should confirm it with the director of undergraduate studies as soon as possible;
4. Senior Thesis UN3998, completed on a chosen aspect of Greek or Roman civilization under the direction of a faculty member (3 points).

Summer courses 1221/1221 are counted as four credits for the purposes of major requirements.

### Major in Ancient Studies

#### Concentration in Classics

Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

The concentration in classics is designed for those who cannot fit the complete major into their undergraduate schedule, but still wish to take a substantial program in Greek and Latin.

The concentration requires the completion of seven courses (a minimum of 21 points) and must include the following:

1. In a primary language, six courses distributed as follows:
   • Five courses above the 1100-level, three of which must be 3000- or 4000-level;
   • One course from the following three advanced options: GU4105, GU4106, GU4139.

2. One course in Ancient History or Classical Civilization (3 points).

### Special Concentration in Hellenic Studies

The courses in the Hellenic Studies program are designed to develop the student’s proficiency in aspects of Modern Greek culture, language, and history. The minimum credit requirement for the Hellenic Studies Concentration is 21 credits and includes:

1. Modern Greek language and culture courses (Elementary, Intermediate, Advanced, Conversation I & II, Reading in Greek; minimum 8 credits). Students will work with undergraduate advisor to determine their level of the language;
2. Modern Greek Studies interdepartmental courses (CLGM, CSGM, HSGM; minimum 12 credits). The program of study should be planned as early as possible with the Director of Undergraduate Studies. Students meet with the Director of Undergraduate Studies each semester in order to obtain program approval. Opportunities exist for study abroad in Greece, Cyprus and Turkey for the summer or an academic term for credit. Students work closely with the concentration advisor on the selection of the foreign schools and the transfer of credit.

Students may also wish to write a Senior Thesis which will substitute one Modern Greek Studies interdepartmental seminar. While not required for graduation, the thesis enables a student to be considered for departmental honors. It is advisable to begin planning for the thesis during the student’s junior year. Interested students should identify a potential faculty advisor.
The music major provides aspiring musicians and/or scholars with a wide range of ways to think about music (performance-related, theoretical, historical, cultural, and compositional) and to concentrate on the aspects of music that most interest them—from popular and world music to computer music. Our faculty engage in cultural studies (i.e., ethnomusicology) and with current literary theory, connect with faculty of other departments (i.e., English, Philosophy, and Psychology), and are on the cutting edge of technological change. Students who have a passion for music and who have already developed basic skills in areas including performance, music history, composition, or ethnography, should consider a major in music.

## Music Performance

For information on auditions, registration, and other aspects of performance not included below, visit http://www.music.columbia.edu/mpp or contact Prof. Magdalena Stern-Baczewska, Director of the Music Performance Program, in 618 Dodge, 212-854-1257.

Students with questions about the Columbia-Juilliard programs should consult Special Programs in this Bulletin or contact Rebecca Schiavo, 212-854-9478, rab2195@columbia.edu.

### Lessons

Individual lessons on instruments listed under Courses of Instruction may be taken for one half hour per week for 1 point of credit (or in the case of voice lessons at Barnard College, one full hour per week for 2 points). Auditions are only offered in the fall semester and courses are a one year commitment. There is a $250 lesson fee per semester for each instrumental instruction course.

- MPP UN1401 Bassoon Instruction
- MPP UN1403 Cello Instruction
- MPP UN1405 Clarinet Instruction
- MPP UN1407 Classical Saxophone Instruction
- MPP UN1409 Flute Instruction
- MPP UN1411 French Horn Instruction
- MPP UN1413 Guitar (Bluegrass) Instruction
- MPP UN1415 Guitar (Classical) Instruction
- MPP UN1417 Harp Instruction
- MPP UN1419 Oboe Instruction
- MPP UN1421 Organ Instruction
- MPP UN1423 Percussion Instruction
- MPP UN1425 Piano Instruction
- MPP UN1427 String Bass Instruction
- MPP UN1429 Trombone Instruction
- MPP UN1431 Trumpet Instruction
- MPP UN1433 Tuba Instruction
- MPP UN1435 Viola Instruction
- MPP UN1437 Violin Instruction
- MPP UN1439 Early Instruments: Harpsichord
- MPP UN1441 Early Instruments: Viola da Gamba
- MPP UN1443 Jazz Bass Instruction
- MPP UN1445 Jazz Bass (Electric) Instruction
- MPP UN1447 Jazz Guitar (Electric) Instruction
- MPP UN1449 Jazz Orchestration
- MPP UN1451 Jazz Percussion Instruction
- MPP UN1453 Jazz Piano Instruction
- MPP UN1455 Jazz Saxophone Instruction
- MPP UN1457 Jazz Trombone Instruction
- MPP UN1459 Jazz Trumpet Instruction
- MPP UN1461 Jazz Voice Instruction

### Ensembles

Participation in the following ensembles is open to all members of the University community. Students who wish to receive course credit may register for 1 point per semester for these courses as liste.

See Music Performance Program website (https://mpp.music.columbia.edu) for audition and activity information about all of the below.

- Columbia University Orchestra – Jeffrey Milarsky, Conductor
  See -MPP UN1521 University Orchestra for audition and activity information.
- Chamber Music Ensemble – Magdalena Stern-Baczewska, Director, Music Performance Program
  See -MPP UN1531 Chamber Ensemble for audition and activity information.
- Barnard-Columbia Chorus and Chamber Singers – Gail Archer, Director
  See MUSI UN1593 Barnard-Columbia Chorus-MUSI UN1594 Barnard-Columbia Chorus and MUSI UN1595 Barnard-Columbia Chamber Singers-MUSI UN1596 Barnard-Columbia Chamber Singers for audition and activity information.
- Collegium Musicum – Evelyn DeGraf, Director
  See - MPP UN1511 Collegium Musicum for audition and activity information.
• Jazz Ensembles – Christopher Washburne, Director
See MPP UN1541 Columbia University Jazz Ensemble for audition and activity information.
• World Music Ensembles – Magdalena Stern-Baczewska, Director, Music Performance Program
See MPP UN1551 World Music Ensemble

PRACTICE ROOMS
Please see Practice Rooms and Policies (https://mpp.music.columbia.edu/music-practice-rooms-and-policies) for the most up to date information.

GRADING
Ensembles: Letter Grade
Instrumental Lesson: P/F

DEPARTMENTAL HONORS
For departmental honors, see the director of undergraduate studies during the first week of the first semester of senior year. A formal written proposal is required. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

  Benjamin Steege (Fall 2017)

GUIDELINES FOR ALL MUSIC MAJORS AND CONCENTRATORS
A program of study should be planned with the director of undergraduate studies in the first semester of the sophomore year. Students planning to focus on a particular area (e.g., computer music, composition, ethnomusicology, music theory, or music history) may wish to select a faculty adviser in that area.

Prerequisites
Prospective music majors and concentrators are advised to satisfy the following prerequisites as early as possible: MUSI UN1002 Fundamentals of Music and MUSI UN1312 Introductory Ear Training. These requirements may be fulfilled either through successful completion of the courses or through satisfactory performance on exemption exams administered at the beginning of each semester by the department.

Keyboard Proficiency
All music majors are required to take a keyboard proficiency exam upon entrance into the first semester of theory. Those who do not pass the exam are required to take two terms of MUSI UN1518 Keyboard Harmony and Musicianship for 1 point each term.

Language Recommendations
For students who plan to do graduate work in music, studying German, French, Italian, and/or Latin is recommended.

MAJOR IN MUSIC
Please read Guidelines for all Music Majors and Concentrators above.

The major in music requires a minimum of 40 points, including the following courses:

MUSI UN2318 Music Theory I
- MUSI UN2319 and Music Theory II
MUSI UN3321 Music Theory III
- MUSI UN3322 and Music Theory IV

Select four terms of ear training from the following:

MUSI UN2314 Ear Training, I
- MUSI UN2315 and Ear Training, II
MUSI UN3316 Ear Training, III
- MUSI UN3317 and Ear Training, IV
MUSI GU4318 Ear Training, V
MUSI UN3128 History of Western Music I:
  MUSI UN3129 Middle Ages To Baroque
  History of Western Music II:
  Classical To the 20th Century
MUSI UN3400 Topics in Music and Society

Select at least two 3000- or 4000-level electives.

The remaining points are to be earned through 2000-, 3000-, or 4000-level courses subject to these constraints:

1. No more than 6 points of 2000-level courses
2. No more than 4 points of instrumental or vocal lessons or participation for a letter grade in these courses:

MPP UN1401 Bassoon Instruction
MPP UN1403 Cello Instruction
MPP UN1405 Clarinet Instruction
MPP UN1407 Classical Saxophone Instruction
MPP UN1409 Flute Instruction
MPP UN1411 French Horn Instruction
MPP UN1413 Guitar (Bluegrass) Instruction
MPP UN1415 Guitar (Classical) Instruction
MPP UN1417 Harp Instruction
MPP UN1419 Oboe Instruction
MPP UN1421 Organ Instruction
MPP UN1423 Percussion Instruction
MPP UN1425 Piano Instruction
MPP UN1427 String Bass Instruction
MPP UN1429  Trombone Instruction
MPP UN1431  Trumpet Instruction
MPP UN1433  Tuba Instruction
MPP UN1435  Viola Instruction
MPP UN1437  Violin Instruction
MPP UN1439  Early Instruments: Harpsichord
MPP UN1441  Early Instruments: Viola da Gamba
MPP UN1443  Jazz Bass Instruction
MPP UN1445  Jazz Bass (Electric) Instruction
MPP UN1447  Jazz Guitar (Electric) Instruction
MPP UN1449  Jazz Orchestration
MPP UN1451  Jazz Piano Instruction
MPP UN1453  Jazz Percussion Instruction
MPP UN1455  Jazz Saxophone Instruction
MPP UN1457  Jazz Trombone Instruction
MPP UN1459  Jazz Trumpet Instruction
MPP UN1461  Jazz Voice Instruction
MPP UN1511  Collegium Musicum
MPP UN1521  University Orchestra
MPP UN1531  Chamber Ensemble
MPP UN1541  Columbia University Jazz Ensemble
MPP UN1551  World Music Ensemble

3. Two terms of MUSI UN1518 Keyboard Harmony and Musicianship, when necessary, count against the 4-point maximum in performance before any other lessons

**CONCENTRATION IN MUSIC**

Please read Guidelines for all Music Majors and Concentrators above. All concentrators must consult the director of undergraduate studies each term before registering.

The concentration in music requires a minimum of 28 points, including the following courses:

- MUSI UN2318  Music Theory I
- MUSI UN2319  and Music Theory II
- MUSI UN3321  Music Theory III
- MUSI UN3322  and Music Theory IV

Select four terms of ear training from the following:

- MUSI UN2314  Ear Training, I
- MUSI UN2315  and Ear Training, II
- MUSI UN3316  Ear Training, III
- MUSI UN3317  and Ear Training, IV

- MUSI GU4318  Ear Training, V
- MUSI GU4319  and Ear-Training VI (if offered)
- MUSI UN3128  History of Western Music I: Middle Ages To Baroque
- MUSI UN3129  and History of Western Music II: Classical To the 20th Century
- MUSI UN3400  Topics in Music and Society

Select at least one additional course at the 3000- or 4000-level.

No more than 4 points of instrumental or vocal lessons or participation for a letter grade in these courses:

- MUSI UN1518  Keyboard Harmony and Musicianship (two terms *)
- MPP UN1401  Bassoon Instruction
- MPP UN1403  Cello Instruction
- MPP UN1405  Clarinet Instruction
- MPP UN1407  Classical Saxophone Instruction
- MPP UN1409  Flute Instruction
- MPP UN1411  French Horn Instruction
- MPP UN1413  Guitar (Bluegrass) Instruction
- MPP UN1415  Guitar (Classical) Instruction
- MPP UN1417  Harp Instruction
- MPP UN1419  Oboe Instruction
- MPP UN1421  Organ Instruction
- MPP UN1423  Percussion Instruction
- MPP UN1425  Piano Instruction
- MPP UN1427  String Bass Instruction
- MPP UN1429  Trombone Instruction
- MPP UN1431  Trumpet Instruction
- MPP UN1433  Tuba Instruction
- MPP UN1435  Viola Instruction
- MPP UN1437  Violin Instruction
- MPP UN1439  Early Instruments: Harpsichord
- MPP UN1441  Early Instruments: Viola da Gamba
- MPP UN1443  Jazz Bass Instruction
- MPP UN1445  Jazz Bass (Electric) Instruction
- MPP UN1447  Jazz Guitar (Electric) Instruction
- MPP UN1449  Jazz Orchestration
- MPP UN1451  Jazz Piano Instruction
- MPP UN1453  Jazz Percussion Instruction
- MPP UN1455  Jazz Saxophone Instruction
- MPP UN1457  Jazz Trombone Instruction
- MPP UN1459  Jazz Trumpet Instruction
- MPP UN1461  Jazz Voice Instruction
- MPP UN1511  Collegium Musicum
- MPP UN1521  University Orchestra
- MPP UN1531  Chamber Ensemble
- MPP UN1541  Columbia University Jazz Ensemble
- MPP UN1551  World Music Ensemble

* When necessary, count against the 4-point maximum in performance before any other lessons

**SPECIAL CONCENTRATION IN JAZZ STUDIES**

Students interested in a special concentration in jazz studies should see Jazz Studies.
NEUROSCIENCE AND BEHAVIOR

Departmental Office: 406 Schermerhorn; 212-854-3608 https://psychology.columbia.edu/

Directors of Undergraduate Studies:

Psychology Major and Concentration:
Prof. Patricia Lindemann, 358E Schermerhorn Extension; 212-854-8285; pgl2@columbia.edu (Students with last names beginning A-H)
Prof. Katherine Fox-Glassman, 314 Schermerhorn; 212-854-4550; kjt2111@columbia.edu (Students with last names beginning I-S)
Prof. Larisa Heiphetz, 355C Schermerhorn; 212-854-1348; lah2201@columbia.edu (Students with last names beginning T-Z)
Prof. Nim Tottenham, 370 Schermerhorn Extension; 212-854-1925; nlt7@psych.columbia.edu (nlt7@columbia.edu) (Honors)

Neuroscience and Behavior Major:
Psychology (A-S): Prof. Caroline Marvin, 317 Schermerhorn Extension; 212-854-0166; cbm2118@columbia.edu
Psychology (T-Z): Prof. Sarah Woolley, 402B Schermerhorn Hall; 212-851-9421; sw2277@columbia.edu

Biology: Prof. Jian Yang, 917A Fairchild; 212-854-6161; jy160@columbia.edu

Biology: Prof. Deborah Mowshowitz, 744 Mudd; 212-854-4597; dbm2@columbia.edu

Director of Instruction:
Prof. Caroline Marvin, 355B Schermerhorn Extension; 212-854-0166; cbm2118@columbia.edu

Directors of Psychology Honors Program:
Prof. Lila Davachi, 315 Schermerhorn; 212-854-3608; ld24@columbia.edu
Prof. Nim Tottenham, 370 Schermerhorn Extension; 212-854-1925; nlt7@psych.columbia.edu

Preclinical Adviser: Prof. E’mett McCaskill, 415O Milbank; 212-854-8601; emccaski@barnard.edu

Administrative Coordinator: Joanna Borchart-Kopcuzk, 406 Schermerhorn; 212-854-3940; jbj2330@columbia.edu

Undergraduate Curriculum Assistant: Liz Walters, 406 Schermerhorn; 212-854-8859; uca@psych.columbia.edu

The Department of Psychology (https://psychology.columbia.edu) offers students a balanced curriculum in psychological science, including research methods, cognition, neuroscience, developmental, social, and clinical areas. The curriculum prepares majors for graduate education in these fields and provides a relevant background for social work, education, medicine, law, and business. Psychology course offerings are designed to meet the varying needs and interests of students, from those wishing to explore a few topics in psychology or to fulfill the science requirement, to those interested in majoring in Psychology (https://psychology.columbia.edu/content/psychology-major) or in Neuroscience and Behavior (https://psychology.columbia.edu/content/neuroscience-behavior-major).

PROGRAM GOALS

The department’s program goals (https://psychology.columbia.edu/content/psychology-program-goals) start with the development of a solid knowledge base in psychological science. Consistent with the value psychology places on empirical evidence, courses at every level of the curriculum nurture the development of skills in research methods, quantitative literacy, and critical thinking, and foster respect for the ethical values that undergird the science of psychology.

Most of these program goals (https://psychology.columbia.edu/content/psychology-program-goals) are introduced in PSYC UN1001 The Science of Psychology, the recommended first psychology course required for all majors that satisfies the prerequisite for most 2000-level courses. These goals are extended and reinforced in our statistics (1600-level) and research methods (1400-level) laboratory courses, as well as in the 2000-level lecture courses and 3000- and 4000-level seminars. Each of the 2000-level lecture courses enables students to study systematically, and in greater depth, one of the content areas introduced in PSYC UN1001 The Science of Psychology. These lecture courses are the principal means by which psychology majors satisfy the distribution requirements, ensuring not only depth but also breadth of coverage across three central areas of psychology: (1) perception and cognition, (2) psychobiology and neuroscience, and (3) social, personality, and abnormal psychology. To complete the major, students take one or more advanced seminars and are encouraged to participate in supervised research courses, where they have the opportunity to explore research questions in depth and further develop their written and oral communication skills.

RESEARCH PARTICIPATION

All qualified students are welcome to participate in research project opportunities (https://psychology.columbia.edu/content/research-opportunities) within the Department of Psychology. Students may volunteer to work in a lab, register for supervised individual research (PSYC UN3950 SUPERVISED INDIVIDUAL RESEARCH), or participate in the department’s two-year Honors Program (https://psychology.columbia.edu/content/honors-program). Information on faculty research (https://psychology.columbia.edu/content/faculty) is available on the departmental website. Students are advised to read about research laboratories on faculty lab sites (https://psychology.columbia.edu/content/lab-websites) and visit...
the professor’s office hours to discuss opportunities. At the beginning of the fall term, the department also hosts a Lab-Preview (https://psychology.columbia.edu/sites/default/files/content/Lab%20Preview%20Handout%202017_0.pdf) event for students to learn about research opportunities for the upcoming semester.

**PROGRAM PLANNING**

Majors and concentrators in psychology and majors in neuroscience and behavior should begin planning a program of study as early as possible. All necessary forms and information are available in Program Planning Tips (https://psychology.columbia.edu/content/program-planning-tips). All majors and concentrators in Psychology (https://psychology.columbia.edu/content/psychology-major) and majors in Neuroscience and Behavior (https://psychology.columbia.edu/content/neuroscience-behavior-major) should complete a Major Requirement Checklist (https://psychology.columbia.edu/content/major-concentration-requirement-checklists) before consulting a program adviser to discuss program plans. At minimum, all students must submit a Major Requirement Checklist (https://psychology.columbia.edu/content/major-concentration-requirement-checklists) prior to the start of their final semester, so that graduation eligibility can be certified.

**ADVISING**

The Department of Psychology offers a variety of advising resources to provide prospective and current undergraduate majors and concentrators with the information and support needed to successfully plan their programs. An overview of these resources is provided on the Psychology Undergraduate Advising Resources website (https://psychology.columbia.edu/content/advising).

Students are encouraged to consult with Peer, Faculty, and Program Advisers as they plan their course of study in Psychology or Neuroscience and Behavior. Faculty and Peer Advisers are important contacts for general advice on class choices, research opportunities, and post-graduation plans. For definitive answers to questions regarding major requirements and other aspects of your degree, including transfer credit, current and prospective majors should consult their Program Adviser (Director of Undergraduate Studies) or the Undergraduate Curriculum Assistant in the departmental office. Program Adviser assignments (https://psychology.columbia.edu/content/advisors) and contact information are provided on the departmental website. Please see this page as well for additional information about program, faculty, peer, and pre-clinical advising, please see the Psychology Undergraduate Advising Resources website (https://psychology.columbia.edu/content/advising).

**E-MAIL COMMUNICATION**

The department maintains an e-mail distribution list with the UNIs of all declared majors and concentrators. Students are held responsible for information sent to their Columbia e-mail addresses. Students should read these messages from the department regularly and carefully. They are intended to keep students informed about deadlines, requirements, events, and opportunities. Prospective majors or concentrators who would like to be added to the e-mail distribution list should contact the Undergraduate Curriculum Assistant (uca@psych.columbia.edu) in the departmental office.

**GUIDE TO COURSE NUMBERS**

Course numbers reflect the structure of the Psychology curriculum:

- **The 1000-level** comprises introductions to psychology, introductory research methods courses, and statistics. PSYC UN1001 The Science of Psychology and PSYC UN1010 Mind, Brain and Behavior are introductory courses with no prerequisites. Either one can serve as the prerequisite for most of the 2000-level courses. However, most students find it advantageous to take PSYC UN1001 The Science of Psychology first. The 1400s contain the research methods laboratory courses, and the 1600s contain statistics courses; these two course types are designed to prepare students for the types of research found in many psychology and neuroscience labs.

- **The 2000-level** comprises lecture courses that are introductions to areas within psychology; most require PSYC UN1001 The Science of Psychology or PSYC UN1010 Mind, Brain and Behavior as a prerequisite.

- **The 3000-level** comprises more advanced and specialized undergraduate courses; most are given in a seminar format and require instructor permission.

- **The 3900s** are the courses providing research opportunities for undergraduates.

- **The 4000-level** comprises advanced seminars suitable for both advanced undergraduates and graduate students.

Subcategories within the 2000-, 3000-, and 4000-levels correspond to the three groups in our distribution requirement for undergraduate Psychology majors:

1. Perception and cognition (2200s, 3200s, and 4200s),
2. Psychobiology and neuroscience (2400s, 3400s, and 4400s), and
3. Social, personality, and abnormal psychology (2600s, 3600s, and 4600s).

Note that Barnard psychology courses do not follow the same numbering scheme.

**HONORS PROGRAM**

The department offers a two-year Honors Program (https://psychology.columbia.edu/content/honors-program), designed for a limited number of juniors and seniors interested in participating in research. Beginning in the first term of junior year and continuing through senior year, students
take PSYC UN3920 Honors Research and simultaneously participate in an honors research course (PSYC UN3920 Honors Research) under the supervision of a member of the department. Students make a formal presentation and complete an honors essay based on this research toward the end of their senior year.

To qualify for honors, students must take a total of 6 points beyond the number required for their major and satisfy all other requirements for the major. The additional 6 points may include the Honors Seminar and Honors Research courses. Interested students should apply at the end of their sophomore year. Instructions and an application form are available on the Honors Program page of the department website. Typically no more than 10% of graduating majors receive departmental honors in a given academic year.

**Requirements for Admission to Graduate Programs in Psychology**

Most graduate programs in psychology, including those in clinical psychology, require:

An undergraduate course in introductory psychology:
- PSYC UN1001 The Science of Psychology

A course in statistics such as one of the following:
- PSYC UN1610 Introductory Statistics for Behavioral Scientists
- PSYC UN1660 Advanced Statistical Inference
- STAT UN1001 Introduction to Statistical Reasoning
- STAT UN1101 Introduction to Statistics
- STAT UN1201 Calculus-Based Introduction to Statistics

A laboratory course in research methods such as one of the following:
- PSYC UN1420 Experimental Psychology: Human Behavior
- PSYC UN1450 Experimental Psychology: Social Cognition and Emotion
- PSYC UN1455 Experimental Psychology: Social and Personality
- PSYC UN1490 Experimental Psychology: Cognition and Decision Making

Students should also take a variety of more advanced undergraduate courses and seminars and participate in PSYC UN3950 SUPERVISED INDIVIDUAL RESEARCH. Students are encouraged to apply for the Psychology Honors Program at the end of their sophomore year.

Students interested in clinical psychology should obtain experience working in a community service program in addition to supervised individual research experience. Students should consult the department’s pre-clinical advising events for more information. Additional resources to help prepare students for graduate study in psychology, and for careers in clinical psychology, are available on the Department of Psychology’s website (https://psychology.columbia.edu).

**On-Line Information**

The Department of Psychology website (https://psychology.columbia.edu) provides access to a wide variety of information for majors and prospective majors. Among other useful resources, students will find syllabi posted for most lecture and lab courses and for many advanced seminars. Students should read the on-line course syllabi prior to registering for psychology courses. For assistance in finding all necessary resources, students should contact the undergraduate curriculum assistant (uca@psych.columbia.edu).

**Science Requirement**

PSYC UN1001 The Science of Psychology, PSYC UN1010 Mind, Brain and Behavior, and any PSYC course in the 2200- or 2400-level may be used to fulfill the science requirement.

2600-level and some other psychology courses, including PSYC BC1001 Introduction to Psychology and other Barnard psychology courses, may not be used to fulfill the science requirement.

With prior departmental approval, 3- and 4-point courses numbered in the 32xx, 34xx, 42xx, and 44xx, and some additional courses, may partially fulfill the science requirement. For more detailed information regarding psychology courses that may be applied toward the science requirement, see Core Requirements (p. 12) in the General Studies bulletin.

**Evening and Columbia Summer Courses**

The department normally offers at least one lab course (currently PSYC UN1420 Experimental Psychology: Human Behavior and PSYC UN1450 Experimental Psychology: Social Cognition and Emotion) in the late afternoon with evening labs. A number of other courses are occasionally offered in late afternoon and evening hours. No more than one quarter of the courses required for the major are normally available in the evening. Working students may find the wide variety of early morning (8:40 a.m.) classes, as well as Summer Session offerings, helpful in completing degree requirements.

Any course offered by the Psychology Department during the Summer Session is applicable toward the same major requirement(s) as the corresponding course of that same number offered during the academic year. For instance, PSYC S1001D The Science of Psychology meets the same major requirements as does PSYC UN1001 The Science of Psychology.
See Summer Courses (https://gs.columbia.edu/summer-courses) for policies governing Summer Session courses.

PROFESSORS

GUIDELINES FOR ALL PSYCHOLOGY MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS

Double Majors/Concentrations

All students attempting to complete double majors, double concentrations, or a combination of a major and a concentration must complete separate sets of required and related courses for each program. Generally speaking, a single course may not be counted twice. Students should consult with one of the directors of undergraduate studies (https://psychology.columbia.edu/content/advisors) or the undergraduate curriculum assistant (uca@psych.columbia.edu) if they have questions. Note one exception: students attempting to complete two programs with a statistics requirement are able to use one course —e.g., STAT UN1201 Calculus-Based Introduction to Statistics (formerly STAT W1211)—to satisfy the requirement for both programs (i.e., the student does not need to take two different statistics courses).

Overlapping Courses

Students cannot receive credit for two courses—one completed at Columbia and one at another institution (including Barnard)—if those courses have largely overlapping content. For example, PSYC UN1001 The Science of Psychology is similar in content to introductory psychology courses offered at many other institutions, including Barnard; only one such course will receive credit. Similarly, PSYC UN2630 Social Psychology and PSYC BC1138 Social Psychology have overlapping content; only one will receive credit. Please refer to the table of Overlapping Courses (http://dept.psych.columbia.edu/dept/ugrad/exceptions/bc_overlapping.pdf) for a partial list of courses at Columbia and Barnard that are known to overlap.

Grade Requirements for the Major

A grade of C- or higher must be earned and revealed on the transcript in any Columbia or Barnard course, including the first, that is used to satisfy the major requirements. The grade of P is not accepted for credit towards the Psychology major (https://psychology.columbia.edu/content/psychology-major), Psychology concentration (https://psychology.columbia.edu/content/psychology-concentration), or Neuroscience and Behavior major (https://psychology.columbia.edu/content/neuroscience-behavior-major). Courses taken only on a Pass/D/Fail basis may not be used to satisfy the major or
concentration requirements unless the grade of P is uncovered by the Registrar’s deadline. Students may petition to have their P/D/F grades uncovered for the following three courses: PSYC UN1001 Science of Psychology, PSYC UN1010 Mind, Brain, & Behavior, and PSYC UN1610 Introductory Statistics for Behavioral Scientists. Courses taken only on a Pass/Fail basis may not be used to satisfy the major or concentration requirements under any circumstances.

Major Requirement Checklist
Prior to the start of their final semester, all seniors must submit a Major Requirement Checklist (https://psychology.columbia.edu/content/major-concentration-requirement-checklists) showing all major courses they have taken and those they plan to take. The Psychology department evaluates each checklist to determine whether or not the course plan completes the major requirements and then notifies the student accordingly. If the student’s course plan changes, or if it does not satisfy the major requirements, a revised checklist must be submitted. Departmental approval of an accurate and up-to-date checklist will help ensure completion of all major requirements on time for graduation.

MAJOR IN PSYCHOLOGY
Please read Guidelines for all Psychology Majors, Concentrators, and Interdepartmental Majors above.

Thirty or more points are needed to complete the major (https://psychology.columbia.edu/content/psychology-major) and must include:

The Introductory Psychology Course
• PSYC UN1001 The Science of Psychology

A Statistics Course
Select one of the following:
• PSYC UN1610 Introductory Statistics for Behavioral Scientists
• PSYC UN1660 Advanced Statistical Inference
• STAT UN1001 Introduction to Statistical Reasoning
• STAT UN1101 Introduction to Statistics (formerly STAT W1111)
• STAT UN1201 Calculus-Based Introduction to Statistics (formerly STAT W1211)

A Research Methods Course
Select one of the following:
• PSYC UN1420 Experimental Psychology: Human Behavior
• PSYC UN1450 Experimental Psychology: Social Cognition and Emotion
• PSYC UN1455 Experimental Psychology: Social and Personality
• PSYC UN1490 Experimental Psychology: Cognition and Decision Making

Majors are strongly advised to complete the statistics and research methods requirements, in that order, by the fall term of their junior year. Students are advised to verify the specific prerequisites for research methods courses, most of which require prior completion of a statistics course.

Distribution Requirement
One course (3 points or more) must be taken from each of the following three groups (in addition to the introductory, statistics, and research methods courses described above):

• Group I—Perception and cognition: courses numbered in the 2200s, 3200s, or 4200s. Also PSYC UN1420 Experimental Psychology: Human Behavior and PSYC UN1490 Experimental Psychology: Cognition and Decision Making.

• Group II—Psychobiology and neuroscience: courses numbered in the 2400s, 3400s, or 4400s. Also PSYC UN1010 Mind, Brain and Behavior.

• Group III—Social, personality, and abnormal: courses numbered in the 2600s, 3600s, or 4600s. Also PSYC UN1450 Experimental Psychology: Social Cognition and Emotion and PSYC UN1455 Experimental Psychology: Social and Personality.

If a 1400-level course is used to satisfy a distribution requirement, it cannot also be used to fulfill the laboratory requirement, and vice versa.

Seminar Requirement
For students entering Columbia in Fall 2013 or later, one seminar course numbered in the 3000s or 4000s must be taken for 3 or more points.

Seminars are usually taken in the senior year as a culmination of the major program. Enrollment in seminar courses requires the instructor’s permission; students are advised to contact instructors at least one month prior to registration to request seminar admission. Note that honors and supervised individual research courses (PSYC UN3910 Honors Seminar, PSYC UN3920 Honors Research, and PSYC UN3950 SUPERVISED INDIVIDUAL RESEARCH) will not meet the seminar requirement.

No course may be counted twice in fulfillment of the above major requirements, with the following exception: a seminar course may fulfill both the seminar requirement and a group requirement if it meets the criteria for both.
Additional Courses

Additional psychology courses ("electives") must be taken for a total of 30 points. As described below, these may include research courses, transfer courses, and Barnard psychology courses not approved for specific requirements.

Research Credits

No more than 4 points of PSYC 3950 SUPERVISED INDIVIDUAL RESEARCH or PSYC 3920 Honors Research may be taken in any one term, and no more than 8 points total of research and field work courses (PSYC 3950 SUPERVISED INDIVIDUAL RESEARCH, PSYC 3466 Field Work and Research Seminar: The Barnard Toddler Center, PSYC 3473 Field Work Seminar in Psychological Sciences and Counseling, PSYC 3592 Senior Research Seminar and PSYC 3599 Individual Projects) may be applied toward the major. See below for further restrictions on applying Barnard courses toward the psychology major.

Barnard Courses

No more than 9 points (minus any transfer credits) from Barnard psychology courses may be applied as credit toward the major. The table of approved Barnard psychology courses (https://psychology.columbia.edu/sites/default/files/content/bc_approved_171106.pdf) indicates which courses have been approved for specific requirements of the psychology major. Courses not on the approved list may only be applied toward a specific requirement with prior written approval from a program adviser. Courses not on the approved list for a specific requirement may be applied as elective credit toward the 30 points for the major.

Transfer Credits

No more than 9 transfer credits (or combination of transfer and Barnard credits) will be accepted toward the psychology major. Approval of transfer credits on a student’s Entrance Credit Report toward general requirements for the B.A. degree does not grant approval of these credits toward the psychology major. Students must apply for written approval of transfer credit toward the major by submitting the Major Requirement Substitution Form (https://psychology.columbia.edu/sites/default/files/content/Major%20Substitution%20Form%20(Updated%20170611)_0.pdf). This form, along with additional information about transfer credits can be found on the Transfer Credit page of our website (https://psychology.columbia.edu/content/transfer-credit). To be approved for the major, a course taken at another institution should be substantially similar to one offered by the department, the grade received must be a B- or better, and the course must have been taken within the past 8 years. As noted above, if two courses overlap in content, only one will be applied towards the major. With the exception of approved Barnard courses, students should consult with one of the directors of undergraduate studies (https://psychology.columbia.edu/content/advisors) before registering for psychology courses offered outside the department.

Students who have completed an introductory psychology course at another institution prior to declaring a psychology major should consult with one of the directors of undergraduate studies (https://psychology.columbia.edu/content/advisors) to verify whether or not this course meets departmental standards for major transfer credit. If transfer credit toward the major is not approved, the student must enroll in PSYC 1001 The Science of Psychology or PSYC 1001 Introduction to Psychology to complete this major requirement. Note that College Board Advanced Placement (AP) psychology scores do not satisfy the PSYC 1001 The Science of Psychology requirement, nor do they confer elective credit toward the major.

MAJOR IN NEUROSCIENCE AND BEHAVIOR

Please read Guidelines for all Psychology Majors, Concentrators, and Interdepartmental Majors above.

The department cosponsors an interdepartmental major in neuroscience and behavior with the Department of Biological Sciences. For assistance in planning the psychology portion of the neuroscience and behavior major, refer to the Program Planning Tips website (https://psychology.columbia.edu/content/program-planning-tips) and use the appropriate major requirement checklist (https://psychology.columbia.edu/content/major-concentration-requirement-checklists).

No course may be counted twice in fulfillment of the biology or psychology requirements described below. Most graduate programs in neuroscience also require one year of calculus, one year of physics, and chemistry through organic.

Required Courses

In addition to one year of general chemistry (or the high school equivalent), ten courses are required to complete the major—five from the Department of Biological Sciences and five from the Department of Psychology. For the definitive list of biology requirements, see the Department of Biological Sciences website (http://biology.columbia.edu).

Required Biology Courses

1. BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology
2. BIOL UN2006 Introductory Biology II: Cell Biology, Development & Physiology
3. BIOL UN3004 Neurobiology I: Cellular and Molecular Neurobiology
4. BIOL UN3005 Neurobiology II: Development & Systems
5. One additional 3000- or 4000-level biology course from a list approved by the biology adviser (http://
Required Psychology Courses
1. PSYC UN1001 The Science of Psychology
2. PSYC UN1010 Mind, Brain and Behavior or PSYC UN2450 Behavioral Neuroscience
3. One statistics or research methods course from the following:
   • PSYC UN1420 Experimental Psychology: Human Behavior
   • PSYC UN1450 Experimental Psychology: Social Cognition and Emotion
   • PSYC UN1610 Introductory Statistics for Behavioral Scientists
   • PSYC UN1660 Advanced Statistical Inference
   • STAT UN1101 Introduction to Statistics (formerly STAT W1111)
   • STAT UN1201 Calculus-Based Introduction to Statistics (formerly STAT W1211)
4. One additional 2000- or 3000-level psychology lecture course from a list approved by the psychology adviser (http://biology.columbia.edu/pages/neuroscience-and-behavior-major-requirements) to the program.
5. One advanced psychology seminar from a list approved by the psychology adviser (https://psychology.columbia.edu/content/neuroscience-behavior-major/#/cu_accordion_item-1257) to the program.

Transfer Credit for Psychology Courses Taken Elsewhere
Students should consult a psychology adviser (https://psychology.columbia.edu/content/advising) before registering for psychology courses offered outside the department. With the adviser’s approval, one, and only one, course from another institution, including Barnard, may be applied toward the psychology portion of the Neuroscience and Behavior major. Students who wish to obtain credit for a course taken at Barnard or at another institution should complete the Major Requirement Substitution Form (https://psychology.columbia.edu/content/transfer-credit). To be approved for the major, the course should be substantially similar to one offered by this department and approved for this major, and the grade received must be a C- or better if from Barnard, or B- or better if from another institution. Advanced Placement (AP) psychology scores will not satisfy the PSYC UN1001 The Science of Psychology requirement.

Exceptions to Biology Requirements
Any exceptions must be approved in advance by a biology adviser and students must receive an email notification of that approval. Students may substitute Barnard College courses only with prior permission from an adviser.

CONCENTRATION IN PSYCHOLOGY
Please read Guidelines for all Psychology Majors, Concentrators, and Interdepartmental Majors above.

A concentration in psychology (https://psychology.columbia.edu/content/psychology-concentration) requires a minimum of 18 points, including PSYC UN1001 The Science of Psychology and courses in at least two of the three groups listed under “Distribution Requirement” for the psychology major. Restrictions on research credits, Barnard credits, and transfer credits are modified from those of the psychology major as follows:

1. Only 4 points total may be applied toward the concentration from research or field-work courses, including: PSYC UN3950 SUPERVISED INDIVIDUAL RESEARCH, PSYC UN3920 Honors Research PSYC BC3466 Field Work and Research Seminar: The Barnard Toddler Center, PSYC BC3473 Field Work Seminar in Psychological Services and Counseling, PSYC BC3592 Senior Research Seminar, and PSYC BC3599 Individual Projects;
2. Only 5 points from Barnard (including PSYC BC1001 Introduction to Psychology) may be applied toward the concentration.
3. Only 5 points total (including any Barnard points) from approved psychology courses taken outside the department may be applied toward the concentration.

Except as noted above, other regulations outlined in the Psychology Major section regarding grades, transfer credits, and overlapping courses also apply toward the concentration.

PHILOSOPHY

Director of Undergraduate Studies: David Albert, 717 Philosophy; 212-854-4884; da5@columbia.edu
Economics-Philosophy Adviser: Philip Kitcher, 717 Philosophy; 212-854-4884; psk16@columbia.edu

Students interested in philosophy may pursue a major either in philosophy or in economics-philosophy. Because philosophy treats issues fundamental to both the sciences and the humanities, students are also welcome to combine their philosophy major with work in other fields. Before declaring a major in philosophy or economics-philosophy, and before deciding to combine philosophy with another discipline,
students should meet with the director of undergraduate studies to formulate the program best for them.

Philosophy majors are given a foundation in logic and philosophical methodology, and are asked to confront fundamental questions in the main areas of philosophy: epistemology and metaphysics, ethics and political philosophy, philosophy of mind and language, and history of philosophy. The department requires that all majors take at least one seminar (PHIL UN3912), designed to allow students to focus on particular philosophical issues or texts in greater depth. Outstanding seniors may also pursue their own philosophical project in a senior thesis.

Over and above the courses required of all majors, there is room for considerable flexibility. Through an appropriate choice of electives from among the department’s offerings (and from related courses in other departments), there are special opportunities for focusing more intensively on one or two subfields of philosophy, e.g., logic and the philosophy of mathematics, philosophy of science, ethics and political philosophy, or the history of philosophy. Students should consult with the director of undergraduate studies on how best to pursue such programs.

**STUDY ABROAD: REID HALL, PARIS**

For information on the Columbia in Paris Program at Reid Hall, including summer courses, consult the Columbia University in Paris Bulletin (available in 606 Kent and on-line at the Office of Global Programs website), call 212-854-2559, or send an e-mail to reidhall@columbia.edu. For information on applicability of Reid Hall courses to the major or concentration, consult the director of undergraduate studies.

**GRADING**

Courses in which a grade of D has been received do not count toward the major or concentration requirements.

**SENIOR THESIS**

Undergraduates majoring in Philosophy or Economics-Philosophy may propose to write a senior thesis. Students who wish to write a thesis should approach a faculty member at the end of their junior or beginning of their senior year, and begin working on the proposal early in the fall semester of their senior year. Proposals are due in early December, and will be reviewed by a committee which will include the Director of Undergraduate Studies; students will be notified of the committee’s decision within two weeks. Students whose proposals are approved should register for their faculty advisor’s section of Supervised Independent Research for the spring term of the senior year. Theses are due in early April.

Students who have a grade point average of 3.6 or above in the major and who complete a thesis will be placed into consideration for departmental honors, though any senior may complete a thesis regardless of their grade point average (upon approval of the proposal).

See the full policy and procedure concerning senior theses on the departmental webpage:

http://philosophy.columbia.edu/content/senior-thesis-philosophy

**DEPARTMENTAL HONORS**

Departmental honors are highly competitive. Normally no more than 10% of the majors graduating in the department each year will receive departmental honors.

In order to qualify for departmental honors in philosophy, a student must have a grade point average of at least 3.6 in the major.

For students with a GPA of 3.6 or above, there are two possible routes to consideration:

1. A student may complete a senior thesis; those students who complete senior theses will automatically be considered for honors without having to be nominated.

2. A student may be nominated by a faculty member early in the spring semester of the senior year; nominated students will be invited to submit a writing sample at least 15 pages in length. A nominated student who is also writing a thesis may submit their thesis as the writing sample, or may choose to submit a different work.

Both the senior theses and writing samples are due in early April. The departmental honors committee will then review the submitted material and the academic records of the writers, and will report to the full faculty.

The full faculty will then decide which students to recommend for departmental honors to the Columbia College and General Studies administrations.

AFFILIATED FACULTY
• Souleymane Bachir Diagne (French and Romance Philology)
• Jon Elster (Political Science)
• Kent Greenawalt (University Professor)
• Wayne Proudfoot (Religion)
• Joseph Raz (Law School)
• Gayatri Spivak (University Professor)

MAJOR IN PHILOSOPHY

Students considering a major in philosophy are strongly encouraged to meet with the director of undergraduate studies early in their sophomore year. All majors must consult with the director of undergraduate studies each term before registering for classes in order to plan and update their individual programs of study.

Students planning to major in philosophy are advised to begin with PHIL UN1010 Methods and Problems of Philosophical Thought. Beginning students are especially encouraged to take 2000-level courses, both in the history of philosophy and in systematic philosophy. These courses are typically less specialized and less narrowly focused than higher-numbered ones. More advanced students are encouraged to take 3000-level courses. The department requires that all majors take at least one seminar, PHIL UN3912.

No more than one course at the 1000-level can be counted toward the major. In order to enroll in one of the 4000-level courses, students must have taken at least four courses in Philosophy.

The major requires a minimum of 30 points in philosophy chosen from courses prefixed with UN or GU:

PHIL UN2101 The History of Philosophy I: Presocratics to Augustine
PHIL UN2201 History of Philosophy II: Aquinas to Kant
PHIL UN3411 Symbolic Logic

At least one course in either metaphysics or epistemology e.g., PHIL W3960, or a related course to be chosen in consultation with the director of undergraduate studies.

Select at least one course in either ethics or social and political philosophy from the following:

PHIL UN2702 Contemporary Moral Problems
PHIL UN3701 Ethics
PHIL UN3751 Political Philosophy

A related course to be chosen in consultation with the director of undergraduate studies.

PHIL UN3912 Seminar

CONCENTRATION IN PHILOSOPHY

Philosophy, as an academic discipline, has significant points of contact with a wide range of other subjects—in the humanities, the social sciences, and the natural sciences. A concentration in philosophy thus can be an attractive option for many students. Those considering becoming concentrators are strongly encouraged to meet with the director of undergraduate studies early in their sophomore year, in order to discuss their specific interests and to plan their programs of study. All concentrators should consult with the director of undergraduate studies each term before registering for courses.

The concentration requires a minimum of 24 points in philosophy, chosen from courses prefixed with UN or GU. There are no specific courses required for the concentration.

Students may choose courses prefixed with GR only with the instructor’s permission.

PHIL UN3912 is open to junior and senior concentrators who have taken at least four courses in philosophy.

MAJOR IN ECONOMICS-PHILOSOPHY

Economics-Philosophy is an interdisciplinary major that, while introducing students to the basic methodologies of economics and philosophy, stresses areas of particular concern to both. These include subjects such as rationality and decision making, justice and efficiency, freedom and collective choice, and the logic of empirical theories and their testing. Many of the issues are dealt with historically, and classic texts of Plato, Kant, Mill, Marx, and Smith are reviewed.

Two advisers are assigned for the interdepartmental major, one in the Department of Economics and one in the Department of Philosophy. Please note that the economics adviser can only
advise on the economics requirements and the philosophy adviser can only advise on the philosophy requirements.

The economics-philosophy major requires a total of 44 points: 16 points in economics, 15 points in philosophy, 6 points in mathematics, 3 points in statistics, and 4 points in the interdisciplinary seminar as follows:

### Economics Core Courses
- **ECON UN1105** Principles of Economics
- **ECON UN3211** Intermediate Microeconomics
- **ECON UN3213** Intermediate Macroeconomics

### Mathematics Sequence
Select a mathematics sequence

### Statistics
Select a statistics course

### Economics Electives
Select 6 points of economics electives; refer to the Economics section of this bulletin.

### Philosophy Courses
- **PHIL UN1010** Methods and Problems of Philosophical Thought
- **PHIL UN3411** Symbolic Logic
- **PHIL UN3701** Ethics
- **PHIL UN3551** Philosophy of Science or **PHIL UN3960** Epistemology
- **PHIL GU4561** Probability and Decision Theory

### Seminar
- **ECPH GU4950** Economics and Philosophy Seminar (or another seminar in philosophy or economics approved by advisers in both department)

**Students who declare in Spring 2014 and beyond:**

In addition to the above requirements, students are required to take:

1. **ECON UN3412** Introduction To Econometrics
2. A third economics elective; two of the three electives must be from the prescribed list found in the Economics section of the Bulletin, and the remaining economics elective may be any elective at the 3000-level or above.

**Physics**

**Departmental Office:** 704 Pupin; 212-854-3348
http://www.columbia.edu/cu/physics

**Director of Undergraduate Studies:** Dr. Jeremy Dodd, 924 Pupin; 212-854-3969; dodd@phys.columbia.edu

The physics major offers a rigorous preparation in the intellectual developments of modern physics, along with extensive exposure to the mathematical and experimental techniques required to conduct basic and applied research in physics.

For the major, the department offers a set of required courses well-suited to prepare students for the most rigorous course of graduate study. These can be supplemented by elective courses in a variety of advanced topics. Although most majors go on to graduate work in physics, the intellectual skills acquired in the study of physics can also provide the basis for work in a variety of other scientific and nonscientific areas.

The physics concentration is for students who are interested in physics but are uncertain about graduate study in physics; for those who want to explore other subjects along with physics; for those who want to find a physics- or technology-related job after graduation; or for those who are considering a professional school such as law or medicine. The department helps concentrators custom design programs to ensure maximum flexibility in meeting students’ intellectual needs and career goals. With appropriate selection of courses, the concentrator can explore other subjects yet maintain the option of graduate study in physics.

Research is an extremely important component of the Columbia physics experience. Because the department has a very small student-to-faculty ratio, essentially all physics majors and concentrators engage in experimental, computational, or theoretical research under the close supervision of a faculty member during part, if not all, of their time at Columbia.

**REGISTRATION FOR INTRODUCTORY COURSES**

The department offers a stand-alone one-semester course for nonscience majors, one introductory sequence in physics intended primarily for preprofessional students, and three introductory sequences in physics for engineering and physical science majors. Students are given credit for courses from only one of the different sequence groups.

Mixing courses across the sequences is strongly discouraged; however, physics majors who begin their studies with **PHYS UN1401** Introduction To Mechanics and Thermodynamics - **PHYS UN1402** Introduction To Electricity, Magnetism, and Optics should take **PHYS UN2601** Physics, III: Classical and Quantum Waves as the third-semester course.

**Introductory Sequences**

**Nonscience Majors:**
- **PHYS UN1001** - Physics For Poets

**Preprofessional Students:**
- **PHYS UN1201** - General Physics I
- **PHYS UN1202** - General Physics II

**Accompanying laboratory course:**
PHYS UN1291 - PHYS UN1292
General Physics Laboratory and General Physics Laboratory II

Engineering and Physical Science Majors:
Select one of the following sequences with accompanying laboratory course:

Sequence A:
- PHYS UN1401
  - PHYS UN1402
  - PHYS UN1403
  Introduction To Mechanics and Thermodynamics
  and Introduction To Electricity, Magnetism, and Optics
  and Introduction to Classical and Quantum Waves

Sequence B:
- PHYS UN1601
  - PHYS UN1602
  - PHYS UN2601
  Physics, I: Mechanics and Relativity
  and Physics, II: Thermodynamics, Electricity, and Magnetism
  and Physics, III: Classical and Quantum Waves

Sequence C:
- PHYS UN2801
  - PHYS UN2802
  Accelerated Physics I
  and Accelerated Physics II

Sequence A is a self-contained group of three courses, while Sequences B and C anticipate more course work in the Physics Department. Students considering a physics major are strongly encouraged to begin one of these sequences in their first year.

LABORATORY
Many of the introductory courses include a laboratory, as indicated. A $75 per term laboratory fee is charged for all 1000-level and 2000-level laboratories.

ADVANCED PLACEMENT
Students may earn a maximum of 6 credits in physics. The department grants 6 credits for a score of 4 or 5 on the AP Physics B exam, but the student is not entitled to any exemptions. The amount of credit is reduced to 3 if the student takes a 1000-level physics course.

The department grants 3 credits for a score of 4 or 5 on the AP Physics C/MECH exam, but the student is not entitled to any exemptions. The amount of credit is reduced to 0 if the student takes PHYS UN1001, PHYS UN1201, PHYS UN1401 or PHYS UN1601.

The department grants 3 credits for a score of 4 or 5 on the AP Physics C/E&M exam, but the student is not entitled to any exemptions. The amount of credit is reduced to 0 if the student takes PHYS UN1001, PHYS UN1202, PHYS UN1402 or PHYS UN1602.

Guidelines for all Physics Majors, Concentrators, and Interdepartmental Majors
Majors and concentrators should plan their programs of study with the director of undergraduate studies before the beginning of the junior year.

Prospective physics majors are strongly encouraged to begin one of the introductory physics sequences in their first year. Majors should aim to acquire as extensive a background in mathematics as possible.

The department considers laboratory experience to be an essential part of the physics curriculum. Majors and concentrators can gain such experience in the intermediate-level laboratories, the electronics laboratory, and through experimental research in faculty research groups.

Grading
A grade of C- or better must be obtained for a course to count toward the majors or the concentration. The grade of P is not acceptable, but a course that was taken P/D/F may be counted if and only if the P is uncovered by the Registrar’s deadline.

Major in Physics

Physics Courses
The major in physics requires a minimum of 41 points in physics courses, including:

Introductory Sequences
Select one of the following sequences:
- Sequence A: Students with a limited background in high school physics may elect to take:
  - PHYS UN1401 Introduction To Mechanics and Thermodynamics
  - PHYS UN1402 and Introduction To Electricity, Magnetism, and Optics
  - PHYS UN2601 and Physics, III: Classical and Quantum Waves
- Sequence B:
  - PHYS UN1601 Physics, I: Mechanics and Relativity
  - PHYS UN1602 and Physics, II: Thermodynamics, Electricity, and Magnetism
  - PHYS UN2601 and Physics, III: Classical and Quantum Waves
- Sequence C: Students with advanced preparation in both physics and mathematics may be eligible to take:
  - PHYS UN2801 Accelerated Physics I
  - PHYS UN2802 and Accelerated Physics II

Core Physics Courses
- PHYS UN3003 Mechanics
- PHYS UN3007 Electricity and Magnetism
- PHYS UN3008 Electromagnetic Waves and Optics
- PHYS GU4021 Quantum Mechanics
- PHYS GU4022 Quantum Mechanics II
- PHYS GU4023 Thermal and Statistical Physics

Elective Courses
Select at least six points of the following courses:
- PHYS UN3002 From Quarks To the Cosmos: Applications of Modern Physics
- PHYS GU4003 Advanced Mechanics
- PHYS GU4011 Particle Astrophysics and Cosmology
- PHYS GU4018 Solid-State Physics
- PHYS GU4019 Mathematical Methods of Physics
- PHYS GU4040 Introduction to General Relativity
- PHYS GU4050 Introduction to Particle Physics

With the permission of the Director of Undergraduate Studies, 4000- or 6000-level courses offered in this or other science departments

Laboratory Work at the Intermediate Level
Select one of the following options:

Option 1:
- PHYS UN3081 Intermediate Laboratory Work (two semesters)
- PHYS UN3083 Electronics Laboratory

Option 2:
- PHYS UN3081 Intermediate Laboratory Work (three semesters)

Senior Seminar
- PHYS UN3072 Seminar in Current Research Problems

* Approved experimental work with a faculty research group may satisfy one semester of the laboratory requirement.
Mathematics Courses
Calculus through MATH UN1202 Calculus IV or MATH UN1208 Honors Mathematics B; and MATH UN3027 Ordinary Differential Equations or the equivalent.

Recommended cognate courses: MATH UN2010 Linear Algebra, MATH UN3007 Complex Variables, and MATH UN3028 Partial Differential Equations.

CONCENTRATION IN PHYSICS
The concentration in physics requires a minimum of 24 points in physics, including one of the introductory sequences.

INTERDISCIPLINARY MAJOR
It is also possible to major in astrophysics, biophysics, and chemical physics. Students interested in these areas should consult with the director of undergraduate studies and with cognate departments (astronomy, biological sciences, chemistry).

POLITICAL SCIENCE
Departmental Office: 710 International Affairs Building; 212-854-3707
http://www.polisci.columbia.edu

Director of Undergraduate Studies:
Prof. Andrew J. Nathan, 931 International Affairs Building; 212-854-6909; ajn1@columbia.edu

Economics-Political Science Advisers:
Economics: Prof. Susan Elmes, Director of Undergraduate Studies, 1006 International Affairs Building; se5@columbia.edu
Political Science: Prof. Carlo Prato, 702 International Affairs Building; 212-854-3646; cp2928@columbia.edu

Political Science-Statistics Advisers:
Political Science: Prof. Robert Shapiro, 730 International Affairs Building; 212-854-3944; rys3@columbia.edu
Statistics: Prof. Banu Baydil, 612 West 115th Street, Room 611; 212-853-1397; bb2717@columbia.edu
Statistics: Prof. Ronald Neath, 612 West 115th Street, Room 612; 212-853-1398; rcn2112@columbia.edu

The discipline of political science focuses on issues of power and governance and, in particular, on political institutions, both formal and informal. It also focuses on political behavior, political processes, political economy, and state-society relations.

The field consists of four substantive subfields: American politics, which covers such topics as national and local politics, elections, and constitutional law; comparative politics, which aims at understanding the political systems of other countries, both by studying individual states and by engaging in cross-national comparisons; international relations, which deals with the ways that states and other political actors behave in the international arena, including such topics as security, foreign policies, international organizations, and international economic relations; and political theory, which analyzes the history of normative political thought as well as of analytic concepts such as the nature of justice or liberty.

Other broad topics, such as “political economy,” or the study of the relationships between economic and political processes, overlap with the subfields, but also constitute a separate program (see below). Methodology, including statistical analysis and formal modeling, also occupies an important place in the discipline.

ADVANCED PLACEMENT
The department grants credit toward the major for work completed under the College Entrance Examination Board (CEEB) Advanced Placement Program. Students receive 3 academic credits and exemption from POLS UN1201 Introduction To American Government and Politics or POLS UN1501 Introduction to Comparative Politics for scores of 5 in the United States and Comparative Government and Politics AP Exams.

ADVISING
The Department of Political Science offers a variety of advising resources to provide undergraduate majors and concentrators with the information and support needed to successfully navigate through the program. These resources are described below.

Undergraduate Advising Office
Students should take questions or concerns about the undergraduate program to the department’s undergraduate advising office first. If advisers cannot answer a student’s question, they then refer the student to the appropriate person.

The undergraduate advising office is staffed by a political science Ph.D. student who holds open office hours at least once per week (the schedule can be found on-line at http://polisci.columbia.edu/academic-programs/undergraduate-programs/advising). Students should stop by during these hours with questions about requirements, course selection, course of study, transfer and study abroad credit, and any other aspect of the program. Students may also reach the adviser by email at polisciadvising@columbia.edu.

Students should also visit the undergraduate advising office for assistance in completing the political science program planning form (available in the office, or on-line at http://polisci.columbia.edu/academic-programs/undergraduate-programs/planning-forms). The advisers must sign and date this form in the approval column next to any listed class that requires approval to be counted toward the program (transfer
courses, non-traditional courses, etc.). These forms cannot be completed by faculty advisers. Each student’s planning form is kept on file in the department, so that each semester they may meet with an adviser to update it.

The advisers are also available to speak with students about more substantive issues, including research interests, internships, and post-college plans. Since the advisers have been through the graduate school application process, they are great resources with whom students may discuss the process. Also, because they are current Ph.D. students in the department, they are familiar with the research interests of political science faculty and can therefore refer students to a professor for thesis advice, a research assistant job, or a faculty member whose research corresponds to the student’s interests.

**Requesting a Faculty Adviser**

Often the best way for students to obtain advising from a faculty member is to contact a professor with whom they have taken a class in an area of interest. Students also have the option of having a faculty adviser assigned by the department. To request a faculty adviser, students should complete the Faculty Adviser Request Form and submit it to the undergraduate coordinator during the first two weeks of the semester.

Students may consult with their faculty adviser for any substantive issue, but still must visit walk-in advising hours to have courses approved, to fill out and update planning forms, and to discuss departmental requirements and regulations.

**Director of Undergraduate Studies**

The director of undergraduate studies oversees the undergraduate program and is available during office hours. While a student’s first stop for advising should be the undergraduate advising office, the director of undergraduate studies is available to answer any questions that the undergraduate advisers or the undergraduate coordinator cannot. In such cases, the undergraduate coordinator and advisers refer students to the director of undergraduate studies.

**Economics–Political Science Adviser**

Economics–political science majors may consult with the economics-political science adviser during office hours. Please note that students should also see an undergraduate adviser to discuss major requirements and fill out a planning form. For any questions about the economics–political science program that an undergraduate adviser cannot answer, students are referred to the political science-statistics adviser.

**Political Science–Statistics Adviser**

Political science–statistics majors may consult with the political science-statistics adviser during office hours. Please note that students should also see an undergraduate adviser to discuss major requirements and fill out a planning form. For any questions about the political science–statistics program that an undergraduate adviser cannot answer, students are referred to the political science-statistics adviser.

**Faculty At-Large**

Students are encouraged to contact any professor for advice during his or her office hours, or by appointment, to discuss interests in political science, course selection, and other academic or post-college issues. The faculty may provide advice about graduate schools, suggest literature that the student might consult as sources for research, recommend specific courses or professors based on the student’s interests, or offer information about research opportunities with faculty. However, students should note that any issues surrounding departmental regulations and requirements, major certification, course approvals, etc., are addressed at the undergraduate advising office.

**HONORS PROGRAM**

The department offers the Honors Program for a limited number of seniors who want to undertake substantial research projects and write honors theses. The honors thesis is expected to be at least 75 pages in length and of exceptional quality.

Honors students perform research as part of a full-year honors seminar (POL 3998–POL 3999, 8 points total) during their senior year, in place of the seminar requirement for majors. Honors students may, however, take regular seminars to fulfill other course requirements for the major. Theses are due in late March or early April. To be awarded departmental honors, the student must satisfy all the requirements for the major, maintain a 3.6 GPA in the major, and complete a thesis of sufficiently high quality to merit honors.

The honors seminar director provides general direction for the seminar. The honors seminar director supervises all students; each student also works with a faculty member in his or her major subfield (American politics, comparative politics, international relations, or political theory) and a preceptor. The honors seminar meets weekly for part of the year and addresses general issues involved in research and thesis writing, such as how to develop research questions and projects, methodology, sources of evidence, and outlining and drafting long papers. The sessions are also used for group discussions of students’ research and thesis presentations. Students are also expected to meet periodically with the supervising professor and preceptor.

Students who wish to apply to the Honors Program must notify the department in writing by the end of the spring semester of the junior year. Please check the department website for the official deadline. Normally no more than 10% of graduating majors receive departmental honors in a given academic year. Applicants are required to have already completed the methods requirement for the major.
Application Materials
Applications to the Honors Program must include the following:

1. A cover page with the student’s name, CUID number, e-mail address, and school (Columbia College or General Studies);
2. An official transcript, which may be obtained from the Office of the Registrar (http://www.registrar.columbia.edu) in Kent Hall, or from Student Services Online (https://ssol.columbia.edu) (SSOL);
3. A writing sample, preferably a paper written for a political science course;
4. A brief description (no more than one page) of a possible thesis topic. For guidelines for writing a proposal, please review the Guidelines for Honors Seminar Proposals (http://polisci.columbia.edu/files/polisci/content/pdf/students/Honors%20SeminarApplication%20guidelines.pdf).

Complete applications should be sent to:
Department of Political Science
Attn: Departmental Honors
420 West 118th Street
Mail Code 3320
New York, NY 10027

In addition, students are encouraged to find a faculty sponsor for their thesis proposal. Students who have identified a faculty sponsor should indicate the sponsor in the proposal; students without a faculty sponsor should identify a faculty member with whom they would like to work. Research areas for the political science department faculty are listed on the department’s website (http://www.columbia.edu/cu/polisci). Students will be notified by e-mail of the decision taken on their applications before fall registration.

DEPARTMENTAL PRIZES AND FELLOWSHIPS
The Department of Political Science administers the following prizes and awards. Unless otherwise noted, students do not play an active part in the nomination process. Rather, faculty members nominate students at their own discretion. Departmental prizes are reserved for political science majors.

Charles A. Beard Prize
A cash prize awarded every other year to the student who writes the best paper in political science during the academic year.

Caroline Phelps Stokes Prize

Allan J. Willen Memorial Prize

Edwin Robbins Academic Research/Public Service Fellowship

The Arthur Ross Foundation Award
A cash prize awarded to GS students for excellence in the field of political science.

Phyllis Stevens Sharp Fellowship in American Politics
The Phyllis Stevens Sharp Endowment Fund provides stipends each year during either academic semester or the summer for one or more Columbia College or School of General Studies students majoring or concentrating in political science to support research in American politics or policy making, or otherwise uncompensated internships in a government office, agency, or other public service organization. Each spring, the department invites students to submit fellowship proposals. Awards are announced in late April or early May.

EARLY ADMISSION TO THE MASTER’S DEGREE PROGRAM IN POLITICAL
SCIENCE FOR COLUMBIA AND BARNARD POLITICAL SCIENCE
UNDERGRADUATES
While the Department of Political Science does not offer a joint bachelor of arts/master’s degree, it does allow Columbia and Barnard undergraduates to apply for early admission to its master’s degree program. This enables qualified undergraduates majoring or concentrating in political science to obtain the B.A. degree and M.A. degree in fewer than five years (ten semesters) from the time of their entrance into Columbia or Barnard, if they fulfill the M.A. course and residency requirements through summer course work after receiving the B.A. or accelerated study during the course of their undergraduate career.

Students should apply during the fall semester of their senior year for admission to the M.A. program in the following fall semester, after completion of the B.A. degree. The department and the Graduate School of Arts and Sciences may award up to one-half residence unit of advanced standing and/or up to three courses (nine to twelve credits) of transfer credit for graduate courses (4000-level and above) taken at Columbia in excess of the requirements for the Columbia bachelor’s degree, as certified by the dean of the undergraduate school awarding the bachelor’s degree.

For further information about the application process and minimum qualifications for early admission, please contact the director of undergraduate studies.
For further information about requirements for the M.A. degree, see http://gsas.columbia.edu/content/academic-programs/political-science.

**PROFESSORS**
- Richard K. Betts
- Jagdish Bhagwati (also Economics)
- Alessandra Casella (also Economics)
- Partha Chatterjee (Anthropology)
- Jean L. Cohen
- Rodolfo de la Garza (also School of International and Public Affairs)
- Michael Doyle (also School of International and Public Affairs; Law School)
- Jon Elster
- Robert Erikson
- Virginia Page Fortna
- Timothy Frye (Chair)
- Ester Fuchs (School of International and Public Affairs)
- Andrew Gelman (also Statistics)
- Donald P. Green
- Bernard Harcourt (Law)
- Fredrick Harris
- Jeffrey Henig (Teachers College)
- John Huber
- Macartan Humphreys
- Robert Jervis
- David C. Johnston
- Ira Katznelson (also History)
- Sudipta Kaviraj (Middle Eastern, South Asian, and African Studies)
- Jeffrey Lax
- Mahmood Mamdani (Anthropology)
- Isabela Mares
- M. Victoria Murillo (also School of International and Public Affairs)
- Andrew J. Nathan
- Sharyn O’Halloran (also School of International and Public Affairs)
- Kenneth Prewitt (School of International and Public Affairs)
- Robert Y. Shapiro
- Jack Snyder
- Michael Ting (also School of International and Public Affairs)
- Nadia Urbinati
- Gregory Wawro
- Andreas Wimmer (Sociology)

**ASSOCIATE PROFESSORS**
- Shigeo Hirano
- Kimuli Kasara
- Justin Phillips
- Tonya Putnam

**ASSISTANT PROFESSORS**
- Allison Carnegie
- Daniel Corstange (also School of International and Public Affairs)
- Nikhar Gaikwad
- Turkuler Isiksel
- John Marshall
- Carlo Prato
- Joshua Simon

**LECTURERS**
- Michelle Chun
- Kevin Elliott
- Jessica Kimpell Johnson
- Chiara Superti

**ON LEAVE**
- Profs. de la Garza, Doyle, Kasara, and Katznelson (2017-2018)
- Profs. Casella, Corstange, and Hirano (Fall 2017)
- Profs. Cohen, Lax, and Wawro (Spring 2018)

**GUIDELINES FOR ALL POLITICAL SCIENCE MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS**

**Planning Forms**
Major Planning forms are available on the departmental website: http://polisci.columbia.edu/academic-programs/undergraduate-programs/planning-forms.

**Policy on Double-Counting Courses**
- Policies about double-counting courses to fulfill requirements in more than one major may be found here:
  - Columbia College (http://bulletin.columbia.edu/columbia-college/requirements-degree-bachelor-arts)
  - School of General Studies (http://bulletin.columbia.edu/general-studies/undergraduates/degree-fulfillment/major/#double)
- Courses in the Core Curriculum do not fulfill requirements for the Political Science major.
Policy on Counting Credits outside the Department of Political Science

- Courses taken at other institutions or other Columbia departments may not be used to meet the requirement of a major or concentration in political science without the approval of the Director of Undergraduate Studies or the department’s undergraduate adviser. Students should secure such approval in advance of registration.

Pass/D/Fail and Grading Policy

- A grade of “Pass” is acceptable only for the first course taken toward the major or concentration.
- The course used to fulfill the research methods requirement cannot be taken Pass/D/Fail.
- Students must receive a grade of at least C- in order for a course to count towards the major or concentration.

AP Credit Policy

- Students who receive transfer credit for one or more AP exams in political science may count a maximum of one AP course toward the major or concentration, contingent upon completing an upper-level (3000 or higher) course with a grade of C or higher in the subfield in which the AP exam was taken. All transfer credits must be approved by the Director of Undergraduate Studies or the undergraduate adviser.

Transfer Credit Policy

- A maximum of three 3-point or 4-point courses in Political Science may be transferred from other institutions toward the major; a maximum of two courses in Political Science may be transferred toward the concentration and the two interdepartmental joint majors. This includes study abroad and AP credit. All transfer credits must be approved by the Director of Undergraduate Studies or the undergraduate adviser.
- Students wishing to count transfer credits toward the major or concentration should send the Director of Undergraduate Studies their transfer credit report, the syllabi of the courses they want to count toward departmental requirements, and a statement of how they want to apply the transfer credits to the requirements.

Independent Study Policy

- Independent Study (POLS UN3901 Independent Reading and Research I in the fall or POLS UN3902 Independent Reading and Research II in the spring) taken in fulfillment of course requirements for the major/concentration must be taken for at least 3 points of credit.

Major in Political Science

Program of Study

To be planned with the department as soon as the student starts to register for courses toward the major. Students should not wait until they formally declare the major before meeting with an undergraduate adviser during the registration period to plan their programs for the major.

Course Requirements

Students must choose a Primary Subfield and a Secondary Subfield to study. The subfields are as follows:

- American Politics (AP)
- Comparative Politics (CP)
- International Relations (IR)
- Political Theory (PT)

The major in political science requires a minimum of 9 courses in political science, to be distributed as follows:

Introductory Courses

Students must take two of the following introductory courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLS UN1201</td>
<td>Introduction To American Government and Politics</td>
</tr>
<tr>
<td>POLS UN1501</td>
<td>Introduction to Comparative Politics</td>
</tr>
<tr>
<td>POLS UN1601</td>
<td>Introduction to International Politics</td>
</tr>
<tr>
<td>POLS UN1101</td>
<td>Political Theory I</td>
</tr>
</tbody>
</table>

NOTE: Introductory courses taken that do not fit into the Primary or Secondary Subfield will be counted in the Political Science Elective category.

Primary Subfield

Minimum three courses.

Minor Subfield

Minimum two courses.

Seminars

Two 4-point 3000-level seminars, at least one of which is in the student’s Primary Subfield.

(See “Seminars” section below for more information)

Research Methods

Minimum one course in research methods. Courses that satisfy the research methods requirement are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLS UN3220</td>
<td>Logic of Collective Choice</td>
</tr>
<tr>
<td>POLS UN3704</td>
<td>Data Analysis and Statistics for Political Science Research</td>
</tr>
<tr>
<td>POLS UN3708</td>
<td>Empirical Research Methods</td>
</tr>
<tr>
<td>POLS UN3720</td>
<td>Scope and Methods</td>
</tr>
<tr>
<td>POLS GU4710</td>
<td>Principles of Quantitative Political Research</td>
</tr>
<tr>
<td>POLS GU4712</td>
<td>Analysis of Political Data</td>
</tr>
<tr>
<td>POLS GU4714</td>
<td>Multivariate Political Analysis</td>
</tr>
<tr>
<td>POLS GU4730</td>
<td>Game Theory and Political Theory</td>
</tr>
</tbody>
</table>
POLS GU4732  Research Topics in Game Theory
POLS GU4764  Design and Analysis of Sample Surveys
POLS GU4768  Experimental Research: Design, Analysis and Interpretation
POLS GU4790  Advanced Topics in Quantitative Research
POLS GU4792  Advanced Topics in Quantitative Research: Models for Panel and Time-Series Cross-Section Data

Political Science Electives
Minimum one course (in any subfield).

* A student may take another course inside or outside the department that provides relevant training in research methods to satisfy this requirement only with the written permission in advance of the Director of Undergraduate Studies or the department’s undergraduate adviser. If a course outside the political science department is used to satisfy the research methods requirement, this same course cannot be used toward other majors/concentrations or programs.

Seminars
Students are expected to take two 4-point seminars: one in their junior year and another in their senior year (with exceptions made for students on leave or studying abroad). They may choose from among the seminars offered, though at least one of the seminars taken must be in the student’s Primary Subfield (that in which at least 9 other points have been completed). Entry into seminars requires instructor’s permission.

For detailed seminar registration guidelines, see http://polisci.columbia.edu/undergraduate-programs/seminar-registration-guidelines. Seminars cannot be taken for R credit or Pass/D/Fail.

Barnard colloquia are open to students with the permission of the instructor. However, Barnard colloquia can only count for seminar credit at the discretion of the director of undergraduate studies. Note that admission to Barnard colloquia is by application to the Barnard Political Science Department only. Please consult with the Barnard Political Science Department for more information.

Recommended Courses
In addition to political science courses, students are strongly advised, but not required, to take six points in a related social science field.

MAJOR IN ECONOMICS–POLITICAL SCIENCE
The major in economics-political science is an interdisciplinary major that introduces students to the methodologies of economics and political science and stresses areas of particular concern to both. This program is particularly beneficial to students planning to do graduate work in schools of public policy and international affairs.

Two advisers are assigned for the interdepartmental major, one in the Department of Economics and one in the Department of Political Science. Please note that the economics adviser can only advise on economics requirements and the political science adviser can only advise on political science requirements.

Course Requirements
For the political science part of the major, students must choose a Primary Subfield and a Secondary Subfield to study. The corresponding introductory courses in both subfields must be taken, plus two electives in the Primary Subfield and one in the Secondary Subfield. The subfields are as follows:

- American Politics (AP)
- Comparative Politics (CP)
- International Relations (IR)
- Political Theory (PT)

The economics–political science major requires a minimum of 17 courses in economics, mathematics, statistics, and political science, to be distributed as follows:

Core Requirements in Economics
Students must take all of the following core economics courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON UN1105</td>
<td>Principles of Economics</td>
</tr>
<tr>
<td>ECON UN3211</td>
<td>Intermediate Microeconomics</td>
</tr>
<tr>
<td>ECON UN3213</td>
<td>Intermediate Macroeconomics</td>
</tr>
<tr>
<td>ECON UN3412</td>
<td>Introduction To Econometrics</td>
</tr>
<tr>
<td>ECON GU4370</td>
<td>Political Economy</td>
</tr>
</tbody>
</table>

Core Requirements in Mathematics and Statistics
Students must take all of the following core mathematics and statistics courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
<tr>
<td>MATH UN1201</td>
<td>Calculus III</td>
</tr>
<tr>
<td>STAT UN1201</td>
<td>Calculus-Based Introduction to Statistics</td>
</tr>
</tbody>
</table>

Economics Electives
Students must take two electives at the 3000 level or higher in the Department of Economics.

Political Science Courses
Students must choose a Primary Subfield and a Secondary Subfield to study. The subfields are as follows: American Politics (AP), Comparative Politics (CP), International Relations (IR), and Political Theory (PT).

Primary Subfield: Minimum three courses, one of which must be the subfield’s introductory course.

Secondary Subfield: Minimum two courses, one of which must be the subfield’s introductory course.

Seminars
Students must take the following two seminars:
ECPS GU4921 Seminar In Political Economy
and a Political Science Department seminar, in the student’s Primary Subfield. Please select one of the following:
POLS UN3911 Seminar in Political Theory
or POLS UN3912 Seminar in Political Theory
POLS UN3921 Seminar in American Politics
or POLS UN3922 Seminar in American Politics
POLS UN3951 Seminar in Comparative Politics
or POLS UN3952 Seminar in Comparative Politics
POLS UN3961 International Politics Seminar
or POLS UN3962 Seminar in International Politics

* Students who wish to count toward the political science seminar requirement a course that is not in the above list of approved seminars must obtain permission from the political science Director of Undergraduate studies. Barnard colloquia can count for seminar credit only with the written permission of the Director of Undergraduate Studies. Note that admission to Barnard colloquia is by application to the Barnard political science department only.

**MAJOR IN POLITICAL SCIENCE–STATISTICS**

The interdepartmental major of political science–statistics is designed for students who desire an understanding of political science to pursue advanced study in this field and who also wish to have at their command a broad range of sophisticated statistical tools to analyze data related to social science and public policy research.

Students should be aware of the rules regarding the use of the Pass/D/Fail option. Courses in which a grade of D has been received do not count toward the major requirements.

Political science–statistics students are eligible for all prizes reserved for political science majors.

The political science-statistics major requires a minimum of 15 courses in political science, statistics, mathematics, and computer science, to be distributed as follows:

**POLITICAL SCIENCE**

Primary Subfield

-Students must choose a Primary Subfield to study. Within the subfield, students must take a minimum of three courses, including the subfield’s introductory course. The subfields and their corresponding introductory courses are as follows:

American Politics:
POLS UN1201 Introduction To American Government and Politics

Comparative Politics:
POLS UN1501 Introduction to Comparative Politics

International Relations:
POLS UN1601 Introduction to International Politics

Political Theory:
POLS UN1101 Political Theory I

-Additionally, students must take one 4-point 3000-level seminar in their Primary Subfield.

Research Methods

-Students must take the following two research methods courses:
POLS GU4710 Principles of Quantitative Political Research
or POLS UN3704 Data Analysis and Statistics for Political Science Research

POLS GU4712 Analysis of Political Data

**STATISTICS**

-Students must take one of the following sequences:

Sequence A — recommended for students preparing for graduate study in statistics

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
<tr>
<td>MATH UN1102</td>
<td>Calculus II</td>
</tr>
<tr>
<td>MATH UN2010</td>
<td>Linear Algebra</td>
</tr>
<tr>
<td>STAT UN1201</td>
<td>Calculus-Based Introduction to Statistics</td>
</tr>
<tr>
<td>STAT GU4203</td>
<td>PROBABILITY THEORY</td>
</tr>
<tr>
<td>STAT GU4204</td>
<td>Statistical Inference</td>
</tr>
<tr>
<td>STAT GU4205</td>
<td>Linear Regression Models</td>
</tr>
<tr>
<td>STAT GU4206</td>
<td>Statistical Computing and Introduction to Data Science</td>
</tr>
</tbody>
</table>

or

Sequence B — recommended for students preparing to apply statistical methods to other fields

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT UN1101</td>
<td>Introduction to Statistics</td>
</tr>
<tr>
<td>STAT UN2102</td>
<td>Applied Statistical Computing</td>
</tr>
<tr>
<td>STAT UN2103</td>
<td>Applied Linear Regression Analysis</td>
</tr>
<tr>
<td>STAT UN2104</td>
<td>Applied Categorical Data Analysis</td>
</tr>
<tr>
<td>STAT UN3105</td>
<td>Applied Statistical Methods</td>
</tr>
<tr>
<td>STAT UN3106</td>
<td>Applied Data Mining</td>
</tr>
</tbody>
</table>

Statistics Elective

-Students must take an approved elective in a statistics or a quantitatively oriented course in a social science.

1. Students taking Statistics Sequence A may replace the mathematics requirements with both MATH UN1207 Honors Mathematics A and MATH UN1208 Honors Mathematics B.

**CONCENTRATION IN POLITICAL SCIENCE**

**Program of Study**

To be planned with the department as soon as the student starts to register for courses toward the concentration. Students should not wait until they formally declare the concentration before meeting with an undergraduate adviser.
during the registration period to plan their programs for the concentration.

**Concentration Requirements**

Students must choose a **Primary Subfield** and a **Secondary Subfield** to study. The subfields are as follows:

- American Politics (AP)
- Comparative Politics (CP)
- International Relations (IR)
- Political Theory (PT)

The concentration in political science requires a minimum of 7 courses in political science, to be distributed as follows:

**Introductory Courses**

Students must take two of the following introductory courses:

- **POLS UN1201** Introduction To American Government and Politics
- **POLS UN1501** Introduction to Comparative Politics
- **POLS UN1601** Introduction to International Politics
- **POLS UN1101** Political Theory I

*NOTE: Introductory courses taken that do not fit into the Primary or Secondary Subfield will be counted in the Political Science Elective category.*

**Primary Subfield**

Minimum two courses.

**Secondary Subfield**

Minimum two courses.

**Research Methods**

Minimum one course in research methods. Courses that satisfy the methods requirement are:

- **POLS UN3220** Logic of Collective Choice
- **POLS UN3704** Data Analysis and Statistics for Political Science Research
- **POLS UN3708** Empirical Research Methods
- **POLS GU4710** Principles of Quantitative Political Research
- **POLS GU4712** Analysis of Political Data
- **POLS GU4714** Multivariate Political Analysis
- **POLS GU4730** Game Theory and Political Theory
- **POLS GU4732** Research Topics in Game Theory
- **POLS GU4764** Design and Analysis of Sample Surveys
- **POLS GU4768** Experimental Research: Design, Analysis and Interpretation
- **POLS GU4790** Advanced Topics in Quantitative Research
- **POLS GU4792** Advanced Topics in Quantitative Research: Models for Panel and Time-Series Cross-Section Data

**Political Science Electives**

Minimum two courses (in any subfield).

* A student may take another course inside or outside the department that provides relevant training in research methods to satisfy this requirement only with the written permission in advance of the Director of Undergraduate Studies or the department’s undergraduate adviser. If a course outside the political science department is used to satisfy the research methods requirement, this same course cannot be used toward other majors/concentrations or programs.

**Recommended Courses**

In addition to courses in political science, students are strongly advised, but not required, to take six credits in a related social science field.

**Political Science-Statistics**

**Departmental Office:** 710 International Affairs Building; 212-854-3707
http://www.polisci.columbia.edu

**Director of Undergraduate Studies:**
Prof. Andrew J. Nathan, 931 International Affairs Building; 212-854-6909; ajn1@columbia.edu

**Economics-Political Science Advisers:**
**Economics:** Prof. Susan Elmes, Director of Undergraduate Studies, 1006 International Affairs Building; se5@columbia.edu
**Political Science:** Prof. Carlo Prato, 702 International Affairs Building; 212-854-3646; cp2928@columbia.edu

**Political Science-Statistics Advisers:**
**Political Science:** Prof. Robert Shapiro, 730 International Affairs Building; 212-854-3944; rys3@columbia.edu
**Statistics:** Prof. Banu Baydil, 612 West 115th Street, Room 611; 212-853-1397; bb2717@columbia.edu
**Statistics:** Prof. Ronald Neath, 612 West 115th Street, Room 612; 212-853-1398; rcn2112@columbia.edu

The discipline of political science focuses on issues of power and governance and, in particular, on political institutions, both formal and informal. It also focuses on political behavior, political processes, political economy, and state-society relations.

The field consists of four substantive subfields: **American politics**, which covers such topics as national and local politics, elections, and constitutional law; **comparative politics**, which aims at understanding the political systems of other countries, both by studying individual states and by engaging in cross-national comparisons; **international relations**, which deals
with the ways that states and other political actors behave in the international arena, including such topics as security, foreign policies, international organizations, and international economic relations; and political theory, which analyzes the history of normative political thought as well as some of analytic concepts such as the nature of justice or liberty.

Other broad topics, such as “political economy,” or the study of the relationships between economic and political processes, overlap with the subfields, but also constitute a separate program (see below). Methodology, including statistical analysis and formal modeling, also occupies an important place in the discipline.

**ADVANCED PLACEMENT**

The department grants credit toward the major for work completed under the College Entrance Examination Board (CEEB) Advanced Placement Program. Students receive 3 academic credits and exemption from POLS UN1201 Introduction To American Government and Politics or POLS UN1501 Introduction to Comparative Politics for scores of 5 in the United States and Comparative Government and Politics AP Exams.

**ADVISING**

The Department of Political Science offers a variety of advising resources to provide undergraduate majors and concentrators with the information and support needed to successfully navigate through the program. These resources are described below.

**Undergraduate Advising Office**

Students should take questions or concerns about the undergraduate program to the department’s undergraduate advising office first. If advisers cannot answer a student’s question, they then refer the student to the appropriate person.

The undergraduate advising office is staffed by a political science Ph.D. student who holds open office hours at least once per week (the schedule can be found on-line at http://polisci.columbia.edu/undergraduate-advising). Students should stop by during these hours with questions about requirements, course selection, course of study, transfer and study abroad credit, and any other aspect of the program. Students may also reach the adviser by email at polisciadvising@columbia.edu.

Students should also visit the undergraduate advising office for assistance in completing the political science program planning form (available in the office, or on-line at http://polisci.columbia.edu/undergraduate-planning-forms). The advisers must sign and date this form in the approval column next to any listed class that requires approval to be counted toward the program (transfer courses, non-traditional courses, etc.). These forms cannot be completed by faculty advisers. Each student’s planning form is kept on file in the department, so that each semester they may meet with an adviser to update it.

The advisers are also available to speak with students about more substantive issues, including research interests, internships, and post-college plans. Since the advisers have been through the graduate school application process, they are great resources with whom students may discuss the process. Also, because they are current Ph.D. students in the department, they are familiar with the research interests of political science faculty and can therefore refer students to a professor for thesis advice, a research assistant job, or a faculty member whose research corresponds to the student’s interests.

**Requesting a Faculty Adviser**

Often the best way for students to obtain advising from a faculty member is to contact a professor with whom they have taken a class in an area of interest. Students also have the option of having a faculty adviser assigned by the department. To request a faculty adviser, students should complete the Faculty Adviser Request Form and submit it to the undergraduate coordinator during the first two weeks of the semester.

Students may consult with their faculty adviser for any substantive issue, but still must visit walk-in advising hours to have courses approved, to fill out and update planning forms, and to discuss departmental requirements and regulations.

**Director of Undergraduate Studies**

The director of undergraduate studies oversees the undergraduate program and is available during office hours. While a student’s first stop for advising should be the undergraduate advising office, the director of undergraduate studies is available to answer any questions that the undergraduate advisers or the undergraduate coordinator cannot. In such cases, the undergraduate coordinator and advisers refer students to the director of undergraduate studies.

**Economics–Political Science Adviser**

Economics–political science majors may consult with the economics-political science adviser during office hours. Please note that students should also see an undergraduate adviser to discuss major requirements and fill out a planning form. For any questions about the economics–political science program that an undergraduate adviser cannot answer, students are referred to the economics-political science adviser.

**Political Science–Statistics Adviser**

Political science–statistics majors may consult with the political science-statistics adviser during office hours. Please note that students should also see an undergraduate adviser to discuss major requirements and fill out a planning form. For any questions about the political science–statistics program that an undergraduate adviser cannot answer, students are referred to the political science-statistics adviser.
Faculty At-Large
Students are encouraged to contact any professor for advice during his or her office hours, or by appointment, to discuss interests in political science, course selection, and other academic or post-college issues. The faculty may provide advice about graduate schools, suggest literature that the student might consult as sources for research, recommend specific courses or professors based on the student’s interests, or offer information about research opportunities with faculty. However, students should note that any issues surrounding departmental regulations and requirements, major certification, course approvals, etc., are addressed at the undergraduate advising office.

HONORS PROGRAM
The department offers the Honors Program for a limited number of seniors who want to undertake substantial research projects and write honors theses. The honors thesis is expected to be at least 75 pages in length and of exceptional quality.

Honors students perform research as part of a full-year honors seminar (POLS UN3998-POLS UN3999, 8 points total) during their senior year, in place of the seminar requirement for majors. Honors students may, however, take regular seminars to fulfill other course requirements for the major. Theses are due in late March or early April. To be awarded departmental honors, the student must satisfy all the requirements for the major, maintain a 3.6 GPA in the major, and complete a thesis of sufficiently high quality to merit honors.

The honors seminar director provides general direction for the seminar. The honors seminar director supervises all students; each student also works with a faculty member in his or her major subfield (American politics, comparative politics, international relations, or political theory) and a preceptor. The honors seminar meets weekly for part of the year and addresses general issues involved in research and thesis writing, such as how to develop research questions and projects, methodology, sources of evidence, and outlining and drafting long papers. The sessions are also used for group discussions of students’ research and thesis presentations. Students are also expected to meet periodically with the supervising professor and preceptor.

Students who wish to apply to the Honors Program must notify the department in writing by the end of the spring semester of the junior year. Please check the department website for the official deadline. Normally no more than 10% of graduating majors receive departmental honors in a given academic year. Applicants are required to have already completed the methods requirement for the major.

Application Materials
Applications to the Honors Program must include the following:

1. A cover page with the student’s name, CUID number, e-mail address, and school (Columbia College or General Studies);
2. An official transcript, which may be obtained from the Office of the Registrar (http://www.registrar.columbia.edu) in Kent Hall, or from Student Services Online (https://ssol.columbia.edu) (SSOL);
3. A writing sample, preferably a paper written for a political science course;
4. A brief description (no more than one page) of a possible thesis topic. For guidelines for writing a proposal, please review the Guidelines for Honors Seminar Proposals (http://polisci.columbia.edu/files/polisci/content/pdf/students/Honors%20SeminarApplication%20guidelines.pdf).

Complete applications should be sent to:
Department of Political Science
Attn: Departmental Honors
420 West 118th Street
Mail Code 3320
New York, NY 10027

In addition, students are encouraged to find a faculty sponsor for their thesis proposal. Students who have identified a faculty sponsor should indicate the sponsor in the proposal; students without a faculty sponsor should identify a faculty member with whom they would like to work. Research areas for the political science department faculty are listed on the department’s website (http://www.columbia.edu/cu/polisci). Students will be notified by e-mail of the decision taken on their applications before fall registration.

DEPARTMENTAL PRIZES AND FELLOWSHIPS
The Department of Political Science administers the following prizes and awards. Unless otherwise noted, students do not play an active part in the nomination process. Rather, faculty members nominate students at their own discretion. Departmental prizes are reserved for political science majors.

Charles A. Beard Prize
A cash prize awarded every other year to the student who writes the best paper in political science during the academic year.

Caroline Phelps Stokes Prize

Allan J. Willen Memorial Prize

Edwin Robbins Academic Research/Public Service Fellowship

The Arthur Ross Foundation Award
A cash prize awarded to GS students for excellence in the field of political science.
Phyllis Stevens Sharp Fellowship in American Politics

The Phyllis Stevens Sharp Endowment Fund provides stipends each year during either academic semester or the summer for one or more Columbia College or School of General Studies students majoring or concentrating in political science to support research in American politics or policy making, or otherwise uncompensated internships in a government office, agency, or other public service organization. Each spring, the department invites students to submit fellowship proposals. Awards are announced in late April or early May.

EARLY ADMISSION TO THE MASTER'S DEGREE PROGRAM IN POLITICAL SCIENCE FOR COLUMBIA AND BARNARD POLITICAL SCIENCE UNDERGRADUATES

While the Department of Political Science does not offer a joint bachelor of arts/master’s degree, it does allow Columbia and Barnard undergraduates to apply for early admission to its master’s degree program. This enables qualified undergraduates majoring or concentrating in political science to obtain the B.A. degree and M.A. degree in fewer than five years (ten semesters) from the time of their entrance into Columbia or Barnard, if they fulfill the M.A. course and residency requirements through summer course work after receiving the B.A. or accelerated study during the course of their undergraduate career.

Students should apply during the fall semester of their senior year for admission to the M.A. program in the following fall semester, after completion of the B.A. degree. The department and the Graduate School of Arts and Sciences may award up to one-half residence unit of advanced standing and/or up to three courses (nine to twelve credits) of transfer credit for graduate courses (4000-level and above) taken at Columbia in excess of the requirements for the Columbia bachelor’s degree, as certified by the dean of the undergraduate school awarding the bachelor’s degree.

For further information about the application process and minimum qualifications for early admission, please contact the director of undergraduate studies.

For further information about requirements for the M.A. degree, see http://gsas.columbia.edu/content/academic-programs/political-science.

GUIDELINES FOR ALL POLITICAL SCIENCE MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS

Planning Forms
Major Planning forms are available on the departmental website: http://polisci.columbia.edu/academic-programs/undergraduate-programs/planning-forms.

Policy on Double-Counting Courses
• Policies about double-counting courses to fulfill requirements in more than one major may be found here:
  • Columbia College (http://bulletin.columbia.edu/columbia-college/requirements-degree-bachelor-arts)
  • School of General Studies (http://bulletin.columbia.edu/general-studies/undergraduates/degree-fulfillment/major/#double)

• Courses in the Core Curriculum do not fulfill requirements for the Political Science major.

Policy on Counting Credits outside the Department of Political Science
• Courses taken at other institutions or other Columbia departments may not be used to meet the requirement of a major or concentration in political science without the approval of the Director of Undergraduate Studies or the department’s undergraduate adviser. Students should secure such approval in advance of registration.

Pass/D/Fail and Grading Policy
• A grade of “Pass” is acceptable only for the first course taken toward the major or concentration.
  • The course used to fulfill the research methods requirement cannot be taken Pass/D/Fail.
  • Students must receive a grade of at least C- in order for a course to count towards the major or concentration.

AP Credit Policy
• Students who receive transfer credit for one or more AP exams in political science may count a maximum of one AP course toward the major or concentration, contingent upon completing an upper-level (3000 or higher) course with a grade of C or higher in the subfield in which the AP exam was taken. All transfer credits must be approved by the Director of Undergraduate Studies or the undergraduate adviser.

Transfer Credit Policy
• A maximum of three 3-point or 4-point courses in Political Science may be transferred from other institutions toward the major; a maximum of two courses in Political Science may be transferred toward the concentration and the two interdepartmental joint majors. This includes study abroad and AP credit. All transfer credits must be approved by the Director of Undergraduate Studies or the undergraduate adviser.

• Students wishing to count transfer credits toward the major or concentration should send the Director of Undergraduate Studies their transfer credit report, the syllabi of the courses they want to count toward departmental requirements, and a statement of how they want to apply the transfer credits to the requirements.

Major in Political Science

Program of Study
To be planned with the department as soon as the student starts to register for courses toward the major. Students should not wait until they formally declare the major before meeting with an undergraduate adviser during the registration period to plan their programs for the major.

Course Requirements
Students must choose a Primary Subfield and a Secondary Subfield to study. The subfields are as follows:
• American Politics (AP)
• Comparative Politics (CP)
• International Relations (IR)
• Political Theory (PT)

The major in political science requires a minimum of 9 courses in political science, to be distributed as follows:

**Introductory Courses**

Students must take two of the following introductory courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLS UN1201</td>
<td>Introduction To American Government and Politics</td>
</tr>
<tr>
<td>POLS UN1501</td>
<td>Introduction to Comparative Politics</td>
</tr>
<tr>
<td>POLS UN1601</td>
<td>Introduction to International Politics</td>
</tr>
<tr>
<td>POLS UN1101</td>
<td>Political Theory I</td>
</tr>
</tbody>
</table>

*NOTE: Introductory courses taken that do not fit into the Primary or Secondary Subfield will be counted in the Political Science Elective category.*

**Primary Subfield**

Minimum three courses.

**Minor Subfield**

Minimum two courses.

**Seminars**

Two 4-point 3000-level seminars, at least one of which is in the student’s Primary Subfield.

[See “Seminars” section below for more information]

**Research Methods**

Minimum one course in research methods. Courses that satisfy the research methods requirement are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLS UN3220</td>
<td>Logic of Collective Choice</td>
</tr>
<tr>
<td>POLS UN3704</td>
<td>Data Analysis and Statistics for Political Science Research</td>
</tr>
<tr>
<td>POLS UN3708</td>
<td>Empirical Research Methods</td>
</tr>
<tr>
<td>POLS UN3720</td>
<td>Scope and Methods</td>
</tr>
<tr>
<td>POLS GU4710</td>
<td>Principles of Quantitative Political Research</td>
</tr>
<tr>
<td>POLS GU4712</td>
<td>Analysis of Political Data</td>
</tr>
<tr>
<td>POLS GU4714</td>
<td>Multivariate Political Analysis</td>
</tr>
<tr>
<td>POLS GU4730</td>
<td>Game Theory and Political Theory</td>
</tr>
<tr>
<td>POLS GU4732</td>
<td>Research Topics in Game Theory</td>
</tr>
<tr>
<td>POLS GU4764</td>
<td>Design and Analysis of Sample Surveys</td>
</tr>
<tr>
<td>POLS GU4768</td>
<td>Experimental Research: Design, Analysis and Interpretation</td>
</tr>
<tr>
<td>POLS GU4790</td>
<td>Advanced Topics in Quantitative Research</td>
</tr>
<tr>
<td>POLS GU4792</td>
<td>Advanced Topics in Quantitative Research: Models for Panel and Time-Series Cross-Section Data</td>
</tr>
</tbody>
</table>

**Political Science Electives**

Minimum one course (in any subfield).

*A student may take another course inside or outside the department that provides relevant training in research methods to satisfy this requirement only with the written permission in advance of the Director of Undergraduate Studies or the department’s undergraduate adviser. If a course outside the political science department is used to satisfy the research methods requirement, this same course cannot be used toward other majors/concentrations or programs.*

**Seminars**

Students are expected to take two 4-point seminars: one in their junior year and another in their senior year (with exceptions made for students on leave or studying abroad). They may choose from among the seminars offered, though at least one of the seminars taken must be in the student’s Primary Subfield (that in which at least 9 other points have been completed). Entry into seminars requires instructor’s permission.

For detailed seminar registration guidelines, see http://polisci.columbia.edu/undergraduate-programs/seminar-registration-guidelines. Seminars cannot be taken for R credit or Pass/D/Fail.

Barnard colloquia are open to students with the permission of the instructor. However, Barnard colloquia can only count for seminar credit at the discretion of the director of undergraduate studies. Note that admission to Barnard colloquia is by application to the Barnard Political Science Department only. Please consult with the Barnard Political Science Department for more information.

**Recommended Courses**

In addition to political science courses, students are strongly advised, but not required, to take six points in a related social science field.

**Major in Economics–Political Science**

The major in economics-political science is an interdisciplinary major that introduces students to the methodologies of economics and political science and stresses areas of particular concern to both. This program is particularly beneficial to students planning to do graduate work in schools of public policy and international affairs.

Two advisers are assigned for the interdepartmental major, one in the Department of Economics and one in the Department of Political Science. Please note that the economics adviser can only advise on economics requirements and the political science adviser can only advise on political science requirements.
Course Requirements

For the political science part of the major, students must choose a Primary Subfield and a Secondary Subfield to study. The corresponding introductory courses in both subfields must be taken, plus two electives in the Primary Subfield and one in the Secondary Subfield. The subfields are as follows:

- American Politics (AP)
- Comparative Politics (CP)
- International Relations (IR)
- Political Theory (PT)

The economics–political science major requires a minimum of 17 courses in economics, mathematics, statistics, and political science, to be distributed as follows:

Core Requirements in Economics

Students must take all of the following core economics courses:

- ECON UN1105 Principles of Economics
- ECON UN3211 Intermediate Microeconomics
- ECON UN3213 Intermediate Macroeconomics
- ECON UN3412 Introduction To Econometrics
- ECON GU4370 Political Economy

Core Requirements in Mathematics and Statistics

Students must take all of the following core mathematics and statistics courses:

- MATH UN1101 Calculus I
- MATH UN1201 Calculus III
- STAT UN1201 Calculus-Based Introduction to Statistics

Economics Electives

Students must take two electives at the 3000 level or higher in the Department of Economics.

Political Science Courses

Students must choose a Primary Subfield and a Secondary Subfield to study. The subfields are as follows: American Politics (AP), Comparative Politics (CP), International Relations (IR), and Political Theory (PT).

Primary Subfield: Minimum three courses, one of which must be the subfield’s introductory course.

Secondary Subfield: Minimum two courses, one of which must be the subfield’s introductory course.

Seminars

Students must take the following two seminars:

- ECPS GU4921 Seminar In Political Economy
- and a Political Science Department seminar, in the student’s Primary Subfield. Please select one of the following:

- POLS UN3911 Seminar in Political Theory
- or POLS UN3912 Seminar in Political Theory
- POLS UN3921 Seminar in American Politics
- or POLS UN3922 Seminar in American Politics
- POLS UN3951 Seminar in Comparative Politics
- or POLS UN3952 Seminar in Comparative Politics
- POLS UN3961 International Politics Seminar

or POLS UN3962 Seminar in International Politics

* Students who wish to count toward the political science seminar requirement a course that is not in the above list of approved seminars must obtain permission from the political science Director of Undergraduate studies. Barnard colloquia can count for seminar credit only with the written permission of the Director of Undergraduate Studies. Note that admission to Barnard colloquia is by application to the Barnard political science department only.

Major in Political Science–Statistics

The interdepartmental major of political science–statistics is designed for students who desire an understanding of political science to pursue advanced study in this field and who also wish to have at their command a broad range of sophisticated statistical tools to analyze data related to social science and public policy research.

Students should be aware of the rules regarding the use of the Pass/D/Fail option. Courses in which a grade of D has been received do not count toward the major requirements.

Political science–statistics students are eligible for all prizes reserved for political science majors.

The political science-statistics major requires a minimum of 15 courses in political science, statistics, mathematics, and computer science, to be distributed as follows:

Political Science

Primary Subfield

- Students must choose a Primary Subfield to study. Within the subfield, students must take a minimum of three courses, including the subfield’s introductory course. The subfields and their corresponding introductory courses are as follows:

- American Politics:
  - POLS UN1201 Introduction To American Government and Politics
- Comparative Politics:
  - POLS UN1501 Introduction to Comparative Politics
- International Relations:
  - POLS UN1601 Introduction to International Politics
- Political Theory:
  - POLS UN1101 Political Theory I
  - Additionally, students must take one 4-point 3000-level seminar in their Primary Subfield.

Research Methods

- Students must take the following two research methods courses:
  - POLS GU4710 Principles of Quantitative Political Research
or POLS UN3704 Data Analysis and Statistics for Political Science Research

POLS GU4712 Analysis of Political Data

**STATISTICS**

- Students must take one of the following sequences:
  
  **Sequence A** — recommended for students preparing for graduate study in statistics
  
  MATH UN1101 Calculus I
  MATH UN1102 Calculus II
  MATH UN2010 Linear Algebra
  STAT UN1201 Calculus-Based Introduction to Statistics
  STAT GU4203 PROBABILITY THEORY
  STAT GU4204 Statistical Inference
  STAT GU4205 Linear Regression Models
  STAT GU4206 Statistical Computing and Introduction to Data Science

- Students taking Statistics Sequence A may replace the mathematics requirements with both MATH UN1207 Honors Mathematics A and MATH UN1208 Honors Mathematics B.

**CONCENTRATION IN POLITICAL SCIENCE**

**Program of Study**

To be planned with the department as soon as the student starts to register for courses toward the concentration. Students should not wait until they formally declare the concentration before meeting with an undergraduate adviser during the registration period to plan their programs for the concentration.

**Concentration Requirements**

Students must choose a **Primary Subfield** and a **Secondary Subfield** to study. The subfields are as follows:

- American Politics (AP)
- Comparative Politics (CP)
- International Relations (IR)

- Political Theory (PT)

The concentration in political science requires a minimum of 7 courses in political science, to be distributed as follows:

**Introductory Courses**

Students must take two of the following introductory courses:

- POLS UN1201 Introduction To American Government and Politics
- POLS UN1501 Introduction to Comparative Politics
- POLS UN1601 Introduction to International Politics
- POLS UN1101 Political Theory I

**Primary Subfield**

Minimum two courses.

**Secondary Subfield**

Minimum two courses.

**Research Methods**

Minimum one course in research methods. Courses that satisfy the methods requirement are:

- POLS UN3220 Logic of Collective Choice
- POLS UN3704 Data Analysis and Statistics for Political Science Research
- POLS UN3708 Empirical Research Methods
- POLS UN3720 Scope and Methods
- POLS GU4710 Principles of Quantitative Political Research
- POLS GU4712 Analysis of Political Data
- POLS GU4714 Multivariate Political Analysis
- POLS GU4730 Game Theory and Political Theory
- POLS GU4732 Research Topics in Game Theory
- POLS GU4764 Design and Analysis of Sample Surveys
- POLS GU4768 Experimental Research: Design, Analysis and Interpretation
- POLS GU4790 Advanced Topics in Quantitative Research
- POLS GU4792 Advanced Topics in Quantitative Research: Models for Panel and Time-Series Cross-Section Data

**Political Science Electives**

Minimum two courses (in any subfield).
A student may take another course inside or outside the department that provides relevant training in research methods to satisfy this requirement only with the written permission in advance of the Director of Undergraduate Studies or the department’s undergraduate adviser. If a course outside the political science department is used to satisfy the research methods requirement, this same course cannot be used toward other majors/concentrations or programs.

Recommended Courses
In addition to courses in political science, students are strongly advised, but not required, to take six credits in a related social science field.

PORTUGUESE STUDIES

*Portuguese Studies is offered exclusively as a concentration.

Departmental Office: 101 Casa Hispánica, 612 W. 116th Street; 212-854-4187; 212-854-5322 (fax)  
http://www.laic.columbia.edu/  

Director of Undergraduate Studies: Prof. Bruno Bosteels, 302 Casa Hispánica; 212-854-4187; bb438@columbia.edu  

Director of Graduate Studies: Prof. Graciela Montaldo, 307 Casa Hispánica; 212-854-4882; gm2168@columbia.edu  

Directors of the Spanish Language Program:  
Lee B. Abraham, 402 Casa Hispánica; 212-854-3764; lha2133@columbia.edu  
Angelina Craig-Flórez, 402 Casa Hispánica; 212-854-3764; ac68@columbia.edu

The Department of Latin American and Iberian Cultures (LAIC) at Columbia, located in Casa Hispánica, has long enjoyed an international reputation as a center for Hispanic and Lusophone studies. The department provides linguistic preparation in Spanish, Portuguese, and Catalan, and offers a flexible program to study manifestations of the Hispanic and Lusophone worlds in all historical periods—from the medieval to the globalized present—and in a variety of cultural contexts: the Iberian Peninsula, Latin America, the former colonies of Portugal, and the United States.

Students can enter the program at any level of linguistic and cultural preparedness. The department offers a placement exam to determine the level at which students may either begin or continue study. Majors and concentrators in Hispanic studies and Portuguese studies are typically double majors who bring insights and methods from fields such as history, political science, women’s studies, anthropology, economics, Latino studies, Latin American studies, etc., which fosters engaging discussions.

ACADEMIC PROGRAMS

The department offers two majors. The major in Hispanic studies gives students a well-rounded preparation in the history and culture of the Hispanic world. The second option, a major in Hispanic studies with specialization, allows students to study the Hispanic world through a number of fields, among them Latin American studies, gender studies, political science, economics, history, and sociology. The department also offers two concentrations: Hispanic studies and Portuguese studies.

The language and major programs have also been designed in close consultation and cooperation with Barnard’s Department of Spanish and Latin American Cultures. All courses taken in one program may be used to fulfill the requirements of the other. Hence, Columbia and Barnard students may move freely between departments of both institutions for courses that best fit their intellectual interests and schedules.

ADVANCED PLACEMENT

The department grants 3 credits for a score of 5 on the AP Spanish Language exam, which satisfies the foreign language requirement. Credit is awarded upon successful completion of a 3300-level (or higher) course with a grade of B or higher. This course must be for at least 3 points of credit and be taught in Spanish. Courses taught in English may not be used for language AP credit.

The department grants 0 credits for a score of 4 on the AP Spanish Language exam, but the foreign language requirement is satisfied.

The department grants 3 credits for a score of 5 on the AP Spanish Literature exam, which satisfies the foreign language requirement. Credit is awarded upon successful completion of a 3300-level (or higher) course with a grade of B or higher. This course must be for at least 3 points of credit and be taught in Spanish. Courses taught in English may not be used for language AP credit.

The department grants 0 credits for a score of 4 on the AP Spanish Literature exam, but the foreign language requirement is satisfied.

STUDY ABROAD

The department strongly recommends that all Hispanic and Portuguese studies majors/concentrators study abroad. Most courses taken abroad can be used to fulfill the requirements for the major and concentration, and with adequate planning, even some of the requirements for a second major or concentration. A maximum of four (4) courses taken abroad may be applied to the major, and a maximum of three (3) to the concentration in Hispanic or Portuguese studies.

All students are strongly advised to take either SPAN UN3349 Hispanic Cultures I: Islamic Spain through the Colonial Period or SPAN UN3350 Hispanic Cultures II: Enlightenment to the Present before studying abroad. Actual or potential majors
and concentrators in Hispanic or Portuguese studies should seek tentative approval of their programs from the director of undergraduate studies before their departure.

**INTERNSHIPS**

The department maintains an updated list of internship resources and volunteer opportunities in New York City, the United States, and abroad. No academic credit is given for internships.

**THE HISPANIC INSTITUTE**

The department hosts the Hispanic Institute at Columbia. Founded in 1920 as the Instituto de las Españas, the Institute sponsors and disseminates research on Hispanic and Luso-Brazilian culture. Since 1934, the Institute has published the *Revista Hispánica Moderna*, a distinguished journal in Hispanic criticism and theory.

**IN FULFILLMENT OF THE LANGUAGE REQUIREMENT**

For students with no knowledge of Spanish, Portuguese, or Catalan, at least four terms of the language are required: UN1101-UN1102 (or UN1120) and UN2101-UN2102 (or UN2120). All courses must be taken for a letter grade to fulfill the language requirement.

Students with prior knowledge of Spanish who plan to continue studying Spanish are required to take the department’s on-line placement examination (http://laic.columbia.edu/programs/placement-examination) before registering for courses. Students with prior knowledge of Portuguese or Catalan should speak with the director of language programs.

Students may be exempted from the language requirement in one of four ways:

1. Present a score of 4 or 5 on the AP Spanish Language or Spanish Literature Exams. Students who receive a score of 5 in either exam are awarded 3 AP credits upon successful completion of a 3300-level (or above) course with a grade of B or higher. AP credit is not granted for a score of 4.
2. Present a score of 780 or above on the SAT Subject Test. Students with a score lower than 780 should take the department’s on-line placement exam and follow the placement advice received.
3. Present a score of a 7, 6, or 5 on the International Baccalaureate Higher Level Exam in Spanish.
4. Obtain a score of 625 or higher in the department’s on-line placement exam (http://laic.columbia.edu/programs/placement-examination). If the score in the on-line test qualifies a student for exemption from the language requirement, they are required to take a written version of the placement exam during orientation (for entering students) or during the semester (for continuing students). This written exam is offered every year on the Thursday before the beginning of classes in the fall semester from 10:00 a.m.-2:00 p.m. in Room 352 of the International Affairs Building (the Language Resource Center Computer Lab). Students do not need to make an appointment to take the exam.

**DEPARTMENTAL HONORS**

Beginning in Spring 2015, the department has put in place a new timeline and training program for juniors, in order to assist students with planning and completing the Honors Thesis during their senior year. The Honors Thesis is an excellent option for any student interested in pursuing a Master’s degree or Ph.D.; but, above all, it is a highly formative research and writing experience—one that can bear unexpected fruits toward any path the student decides to take in the future.

All students pursuing a major through the department may apply to write an Honors Thesis. The department envisions the thesis as an intellectually challenging and rewarding experience that crowns four years of undergraduate studies with an original contribution in the field chosen by the student.

The department supports students in shaping their research topic and provides frequent advising throughout the research and writing process. The timeline is as follows:

- **During the junior year**, students take into consideration the possibility of writing an Honors Thesis in the following year. The topic of the Honors Thesis may likely originate in an advanced course taken during the junior year; students may also choose to develop ideas discussed or papers written in courses taken in previous years. Juniors schedule a meeting (or, if the student is studying abroad, a Skype conversation) with the director of undergraduate studies to discuss their proposed topic and faculty adviser.
- **By May 15**, juniors who have decided to write an Honors Thesis in their senior year send a formal proposal to the director of undergraduate studies, which includes:
  - A title and a one-page abstract;
  - The name of the proposed faculty adviser;
  - An application for departmental partial funding support (for those who would like to pursue research during the summer).
- **By May 30**, the Honors Thesis committee reviews the proposals and informs the students of its decision.
- **In the fall of the senior year**:
  - Seniors selected to write the Honors Thesis enroll in SPAN UN3998 Supervised Individual Research (Spring) with their faculty adviser and write the Honors Thesis in their senior year. The topic of the Honors Thesis may likely originate in an advanced course taken during the junior year; students may also choose to develop ideas discussed or papers written in courses taken in previous years. Juniors schedule a meeting (or, if the student is studying abroad, a Skype conversation) with the director of undergraduate studies to discuss their proposed topic and faculty adviser.
  - Faculty advisers organize Honors Thesis Workshops to discuss students’ ongoing projects and provide advising.
on research tools, methodological and theoretical frames, and overall writing process.

- In either the fall or spring of the senior year, students enroll in SPAN UN3991 Senior Seminar or SPAN W3992 Senior Seminar: Modern Cities and Global Cities.
- By April 15 of the senior year, students complete and present their Honors Thesis for consideration towards departmental honors and prizes. Students submit their thesis in hard copy, following the formatting specifications provided on the LAIC website (http://laic.columbia.edu/programs/formatting-specifications-for-the-senior-thesis).
- By May 1, the Honors Thesis committee informs the students of its decision. Departmental honors and prizes are assigned. The committee provides publishing options to students whose work has resulted in a highly original scholarship piece.

In order to facilitate the transition to this new schedule, the department will organize an Honors Thesis Introductory Session during the last week of April 2015. All undergraduate students are welcome; students in the junior year will have the opportunity to discuss possible research themes and thesis topics.

To be considered for departmental honors, a student must write an Honors Thesis and maintain a GPA of at least 3.6 in major courses. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

UNDERGRADUATE PRIZES
The faculty awards an undergraduate prize every year:

Dr. Antonio G. Mier Prize
Awarded for excellence in Hispanic Studies to a major degree candidate in the School of General Studies at Columbia University.

PROFESSORS
- Carlos J. Alonso
- Bruno Bosteels
- Patricia E. Grieve
- Graciela R. Montaldo

MAJOR IN HISPANIC STUDIES
The requirements for this program were modified on March 2, 2016. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

The major in Hispanic studies requires 11 courses (minimum of 33 points) as follows:

<table>
<thead>
<tr>
<th>Core Courses</th>
<th>Elective Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN UN3300</td>
<td>Advanced Language through Content [in Spanish]</td>
</tr>
<tr>
<td>SPAN UN3349</td>
<td>Hispanic Cultures I: Islamic Spain through the Colonial Period</td>
</tr>
<tr>
<td>SPAN UN3350</td>
<td>Hispanic Cultures II: Enlightenment to the Present</td>
</tr>
</tbody>
</table>

Select seven elective courses (21 points): a minimum of three 3000- or 4000-level electives must be chosen within the department and up to three electives related to Hispanic Studies may be taken outside the department.

Senior Seminar
- SPAN UN3991 Senior Seminar
- or SPAN UN3992 Senior Seminar: Modern Cities and Global Cities
MAJOR IN HISPANIC STUDIES WITH SPECIALIZATION

The requirements for this program were modified on March 2, 2016. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

The major in Hispanic studies with specialization requires 14 courses (minimum of 42 points) as follows. Students should consult the director of undergraduate studies to plan their program and refer to the Hispanic Studies Major Worksheet.

Core Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN UN3300</td>
<td>Advanced Language through Content [in Spanish]</td>
</tr>
<tr>
<td>SPAN UN3349</td>
<td>Hispanic Cultures I: Islamic Spain through the Colonial Period</td>
</tr>
<tr>
<td>SPAN UN3350</td>
<td>Hispanic Cultures II: Enlightenment to the Present</td>
</tr>
</tbody>
</table>

Elective Courses

Select ten elective courses (30 points): four of which must be chosen within the department and six of which must be in the field of specialization. Approved courses taken abroad may be counted as inside or outside the department for the specialization. A maximum of four courses taken abroad may be counted toward the major.

Senior Seminar *

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN UN3991</td>
<td>Senior Seminar</td>
</tr>
<tr>
<td>or SPAN UN3992</td>
<td>Senior Seminar: Modern Cities and Global Cities</td>
</tr>
</tbody>
</table>

* In exceptional cases and with the director of undergraduate studies’ approval, students may take a senior seminar in their area of specialization as a seventh course outside the department, if they have completed enough foundational courses to manage the demands of an advanced seminar. In such cases, the director of undergraduate studies must receive a letter or e-mail from the seminar instructor indicating approval of a student’s membership in the course; the seminar project must be on a Hispanic topic; and a copy of the project must be turned in to the director of undergraduate studies for the student’s file upon completion of the course. Students who complete the senior seminar in another department may also count it as the third elective course on a Hispanic topic outside the department, in which case they may take a fourth 3000- or 4000-level course in the department.

The concentration in Hispanic studies requires eight courses (minimum of 24 points) as follows:

Core Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN UN3300</td>
<td>Advanced Language through Content [in Spanish]</td>
</tr>
<tr>
<td>SPAN UN3349</td>
<td>Hispanic Cultures I: Islamic Spain through the Colonial Period</td>
</tr>
<tr>
<td>SPAN UN3350</td>
<td>Hispanic Cultures II: Enlightenment to the Present</td>
</tr>
</tbody>
</table>

Elective Courses

Select five elective courses (15 points): a minimum of four 3000- or 4000-level courses must be chosen within the department and up to one elective related to Hispanic Studies may be taken outside the department. A maximum of three courses taken abroad may be counted toward the concentration.

CONCENTRATION IN PORTUGUESE STUDIES

The concentration in Portuguese studies requires eight courses (minimum 24 points) as follows:

Core Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PORT UN3101</td>
<td>Conversation about the Lusophone World</td>
</tr>
<tr>
<td>PORT UN3300</td>
<td>Advanced Language through Content</td>
</tr>
<tr>
<td>PORT UN3330</td>
<td>Introduction to Portuguese Studies</td>
</tr>
<tr>
<td>PORT UN3350</td>
<td>Lusophone Africa and Afro Brazilian Culture</td>
</tr>
</tbody>
</table>

Elective Courses

Select four elective courses (12 points): at least two must have a PORT designation and be chosen from the department’s 3000-level offerings. Electives taken outside of the department must have the director of undergraduate studies’ approval and be related to Portuguese studies. A maximum of two courses taught in English may be counted toward the concentration overall. Refer to the Portuguese Concentration Worksheet.

PSYCHOLOGY

Departmental Office: 406 Schermerhorn; 212-854-3608
https://psychology.columbia.edu/

Directors of Undergraduate Studies:

Psychology Major and Concentration:
Prof. Patricia Lindemann, 358E Schermerhorn Extension; 212-854-8285; plgl2@columbia.edu (Students with last names beginning A-H)
Prof. Katherine Fox-Glassman, 314 Schermerhorn; 212-854-4550; kjt2111@columbia.edu (Students with last names beginning I-S)
The Department of Psychology (https://psychology.columbia.edu) offers students a balanced curriculum in psychological science, including research methods, cognition, neuroscience, developmental, social, and clinical areas. The curriculum prepares majors for graduate education in these fields and provides a relevant background for social work, education, medicine, law, and business. Psychology course offerings are designed to meet the varying needs and interests of students, from those wishing to explore a few topics in psychology or to fulfill the science requirement, to those interested in majoring in Psychology (https://psychology.columbia.edu/content/psychology-major) or in Neuroscience and Behavior (https://psychology.columbia.edu/content/neuroscience-behavior-major).

**PROGRAM GOALS**

The department’s program goals (https://psychology.columbia.edu/content/psychology-program-goals) start with the development of a solid knowledge base in psychological science. Consistent with the value psychology places on empirical evidence, courses at every level of the curriculum nurture the development of skills in research methods, quantitative literacy, and critical thinking, and foster respect for the ethical values that undergird the science of psychology.

Most of these program goals (https://psychology.columbia.edu/content/psychology-program-goals) are introduced in PSYC UN1001 The Science of Psychology, the recommended first psychology course required for all majors that satisfies the prerequisite for most 2000-level courses. These goals are extended and reinforced in our statistics (1600-level) and research methods (1400-level) laboratory courses, as well as in the 2000-level lecture courses and 3000- and 4000-level seminars. Each of the 2000-level lecture courses enables students to study systematically, and in greater depth, one of the content areas introduced in PSYC UN1001 The Science of Psychology. These lecture courses are the principal means by which psychology majors satisfy the distribution requirements, ensuring not only depth but also breadth of coverage across three central areas of psychology: (1) perception and cognition, (2) psychobiology and neuroscience, and (3) social, personality, and abnormal psychology. To complete the major, students take one or more advanced seminars and are encouraged to participate in supervised research courses, where they have the opportunity to explore research questions in depth and further develop their written and oral communication skills.

**RESEARCH PARTICIPATION**

All qualified students are welcome to participate in research project opportunities (https://psychology.columbia.edu/content/research-opportunities) within the Department of Psychology. Students may volunteer to work in a lab, register for supervised individual research (PSYC UN3950 SUPERVISED INDIVIDUAL RESEARCH), or participate in the department’s two-year Honors Program (https://psychology.columbia.edu/content/honors-program). Information on faculty research (https://psychology.columbia.edu/content/faculty) is available on the departmental website. Students are advised to read about research laboratories on faculty lab sites (https://psychology.columbia.edu/content/lab-websites) and visit the professor’s office hours to discuss opportunities. At the beginning of the fall term, the department also hosts a Lab Preview (https://psychology.columbia.edu/sites/default/files/content/Lab%20Preview%20Handout%202017_0.pdf) event for students to learn about research opportunities for the upcoming semester.

**PROGRAM PLANNING**

Majors and concentrators in psychology and majors in neuroscience and behavior should begin planning a program of study as early as possible. All necessary forms and information are available in Program Planning Tips (https://psychology.columbia.edu/content/program-planning-tips). All majors and concentrators in Psychology (https://psychology.columbia.edu/content/psychology-major) and majors in Neuroscience and Behavior (https://
psychology.columbia.edu/content/neuroscience-behavior-major) should complete a Major Requirement Checklist (https://psychology.columbia.edu/content/major-concentrationrequirement-checklists) before consulting a program adviser to discuss program plans. At minimum, all students must submit a Major Requirement Checklist (https://psychology.columbia.edu/content/major-concentrationrequirement-checklists) prior to the start of their final semester, so that graduation eligibility can be certified.

ADVISING

The Department of Psychology offers a variety of advising resources to provide prospective and current undergraduate majors and concentrators with the information and support needed to successfully plan their programs. An overview of these resources is provided on the Psychology Undergraduate Advising Resources website (https://psychology.columbia.edu/content/advising).

Students are encouraged to consult with Peer, Faculty, and Program Advisers as they plan their course of study in Psychology or Neuroscience and Behavior. Faculty and Peer Advisers are important contacts for general advice on class choices, research opportunities, and post-graduation plans. For definitive answers to questions regarding major requirements and other aspects of your degree, including transfer credit, current and prospective majors should consult their Program Adviser (Director of Undergraduate Studies) or the Undergraduate Curriculum Assistant in the departmental office. Program Adviser assignments (https://psychology.columbia.edu/content/advisors) and contact information are provided on the departmental website. Please see this page as well for additional information about program, faculty, peer, and pre-clinical advising; please see the Psychology Undergraduate Advising Resources website (https://psychology.columbia.edu/content/advising).

E-MAIL COMMUNICATION

The department maintains an e-mail distribution list with the UNIs of all declared majors and concentrators. Students are held responsible for information sent to their Columbia e-mail addresses. Students should read these messages from the department regularly and carefully. They are intended to keep students informed about deadlines, requirements, events, and opportunities. Prospective majors or concentrators who would like to be added to the e-mail distribution list should contact the Undergraduate Curriculum Assistant (uca@psych.columbia.edu) in the departmental office.

GUIDE TO COURSE NUMBERS

Course numbers reflect the structure of the Psychology curriculum:

- The 1000-level comprises introductions to psychology, introductory research methods courses, and statistics. PSYC UN1001 The Science of Psychology and PSYC UN1010 Mind, Brain and Behavior are introductory courses with no prerequisites. Either one can serve as the prerequisite for most of the 2000-level courses. However, most students find it advantageous to take PSYC UN1001 The Science of Psychology first. The 1400s contain the research methods laboratory courses, and the 1600s contain statistics courses; these two course types are designed to prepare students for the types of research found in many psychology and neuroscience labs.
- The 2000-level comprises lecture courses that are introductions to areas within psychology; most require PSYC UN1001 The Science of Psychology or PSYC UN1010 Mind, Brain and Behavior as a prerequisite.
- The 3000-level comprises more advanced and specialized undergraduate courses; most are given in a seminar format and require instructor permission.
- The 3900s are the courses providing research opportunities for undergraduates.
- The 4000-level comprises advanced seminars suitable for both advanced undergraduates and graduate students.

Subcategories within the 2000-, 3000-, and 4000-levels correspond to the three groups in our distribution requirement for undergraduate Psychology majors:

1. Perception and cognition (2200s, 3200s, and 4200s),
2. Psychobiology and neuroscience (2400s, 3400s, and 4400s),
3. Social, personality, and abnormal psychology (2600s, 3600s, and 4600s).

Note that Barnard psychology courses do not follow the same numbering scheme.

HONORS PROGRAM

The department offers a two-year Honors Program (https://psychology.columbia.edu/content/honors-program), designed for a limited number of juniors and seniors interested in participating in research. Beginning in the first term of junior year and continuing through senior year, students take PSYC UN3920 Honors Research and simultaneously participate in an honors research course (PSYC UN3920 Honors Research) under the supervision of a member of the department. Students make a formal presentation and complete an honors essay based on this research toward the end of their senior year.

To qualify for honors, students must take a total of 6 points beyond the number required for their major and satisfy all other requirements for the major. The additional 6 points may include the Honors Seminar and Honors Research courses.

Interested students should apply at the end of their sophomore year. Instructions and an application form are available on the Honors Program page of the department website. Typically no more than 10% of graduating majors receive departmental honors in a given academic year.
REQUIREMENTS FOR ADMISSION TO GRADUATE PROGRAMS IN PSYCHOLOGY

Most graduate programs in psychology, including those in clinical psychology, require:

An undergraduate course in introductory psychology:
PSYC UN1001 The Science of Psychology

A course in statistics such as one of the following:
PSYC UN1610 Introductory Statistics for Behavioral Scientists
PSYC UN1660 Advanced Statistical Inference
STAT UN1001 Introduction to Statistical Reasoning
STAT UN1101 Introduction to Statistics
STAT UN1201 Calculus-Based Introduction to Statistics

A laboratory course in research methods such as one of the following:
PSYC UN1420 Experimental Psychology: Human Behavior
PSYC UN1450 Experimental Psychology: Social Cognition and Emotion
PSYC UN1455 Experimental Psychology: Social and Personality
PSYC UN1490 Experimental Psychology: Cognition and Decision Making

Students should also take a variety of more advanced undergraduate courses and seminars and participate in PSYC UN3950 SUPERVISED INDIVIDUAL RESEARCH. Students are encouraged to apply for the Psychology Honors Program at the end of their sophomore year.

Students interested in clinical psychology should obtain experience working in a community service program in addition to supervised individual research experience. Students should consult the department’s pre-clinical adviser, Prof. E’mett McCaskill (https://psychology.columbia.edu/content/emett-mccaskill), and attend the department’s pre-clinical advising events for more information. Additional resources to help prepare students for graduate study in psychology, and for careers in clinical psychology, are available on the Department of Psychology’s website (https://psychology.columbia.edu).

SCIENCE REQUIREMENT

PSYC UN1001 The Science of Psychology, PSYC UN1010 Mind, Brain and Behavior, and any PSYC course in the 2200- or 2400-level may be used to fulfill the science requirement.

2600-level and some other psychology courses, including PSYC BC1001 Introduction to Psychology and other Barnard psychology courses, may not be used to fulfill the science requirement.

With prior departmental approval, 3- and 4-point courses numbered in the 32xx, 34xx, 42xx, and 44xx, and some additional courses, may partially fulfill the science requirement. For more detailed information regarding psychology courses that may be applied toward the science requirement, see Core Requirements (p. 12) in the General Studies bulletin.

EVENING AND COLUMBIA SUMMER COURSES

The department normally offers at least one lab course (currently PSYC UN1420 Experimental Psychology: Human Behavior and PSYC UN1450 Experimental Psychology: Social Cognition and Emotion) in the late afternoon with evening labs. A number of other courses are occasionally offered in late afternoon and evening hours. No more than one quarter of the courses required for the major are normally available in the evening. Working students may find the wide variety of early morning (8:40 a.m.) classes, as well as Summer Session offerings, helpful in completing degree requirements.

Any course offered by the Psychology Department during the Summer Session is applicable toward the same major requirement(s) as the corresponding course of that same number offered during the academic year. For instance, PSYC S1001D The Science of Psychology meets the same major requirements as does PSYC UN1001 The Science of Psychology.

See Summer Courses (https://gs.columbia.edu/summer-courses) for policies governing Summer Session courses.

PROFESSORS

• Donald C. Hood
• Sheena S. Iyengar (Business School)
• Nikolaus Kriegeskorte
• Janet Metcalfe
• Michael Morris (Business School)
Guidelines for all Psychology Majors, Concentrators, and Interdepartmental Majors

Double Majors/Concentrations

All students attempting to complete double majors, double concentrations, or a combination of a major and a concentration must complete separate sets of required and related courses for each program. Generally speaking, a single course may not be counted twice. Students should consult with one of the directors of undergraduate studies (https://psychology.columbia.edu/content/advisors) or the undergraduate curriculum assistant (uca@psych.columbia.edu) if they have questions. Note one exception: students attempting to complete two programs with a statistics requirement are able to use one course —e.g., STAT UN1201 Calculus-Based Introduction to Statistics (formerly STAT W1211)—to satisfy the requirement for both programs (i.e., the student does not need to take two different statistics courses).

Overlapping Courses

Students cannot receive credit for two courses—one completed at Columbia and one at another institution (including Barnard) —if those courses have largely overlapping content. For example, PSYC UN1001 The Science of Psychology is similar in content to introductory psychology courses offered at many other institutions, including Barnard; only one such course will receive credit. Similarly, PSYC UN2630 Social Psychology and PSYC BC1138 Social Psychology have overlapping content; only one will receive credit. Please refer to the table of Overlapping Courses (http://dept.psych.columbia.edu/dept/ugrad/exceptions/bc_overlapping.pdf) for a partial list of courses at Columbia and Barnard that are known to overlap.

Grade Requirements for the Major

A grade of C- or higher must be earned and revealed on the transcript in any Columbia or Barnard course, including the first, that is used to satisfy the major requirements. The grade of P is not accepted for credit towards the Psychology major (https://psychology.columbia.edu/content/psychology-major), Psychology concentration (https://psychology.columbia.edu/content/psychology-concentration), or Neuroscience and Behavior major (https://psychology.columbia.edu/content/neuroscience-behavior-major). Courses taken only on a Pass/D/Fail basis may not be used to satisfy the major or concentration requirements unless the grade of P is uncovered by the Registrar’s deadline. Students may petition to have their P/D/F grades uncovered for the following three courses: PSYC UN1001 Science of Psychology, PSYC UN1010 Mind, Brain, & Behavior, and PSYC UN1610 Introductory Statistics for Behavioral Scientists. Courses taken only on a Pass/Fail basis may not be used to satisfy the major or concentration requirements under any circumstances.

Major Requirement Checklist

Prior to the start of their final semester, all seniors must submit a Major Requirement Checklist (https://psychology.columbia.edu/content/major-concentration-requirement-checklists) showing all major courses they have taken and those they plan to take. The Psychology department evaluates each checklist to determine whether or not the course plan completes the major requirements and then notifies the student accordingly. If the student’s course plan changes, or if
it does not satisfy the major requirements, a revised checklist must be submitted. Departmental approval of an accurate and up-to-date checklist will help ensure completion of all major requirements on time for graduation.

MAJOR IN PSYCHOLOGY

Please read Guidelines for all Psychology Majors, Concentrators, and Interdepartmental Majors above.

Thirty or more points are needed to complete the major (https://psychology.columbia.edu/content/psychology-major) and must include:

The Introductory Psychology Course
• PSYC UN1001 The Science of Psychology

A Statistics Course
Select one of the following:
• PSYC UN1610 Introductory Statistics for Behavioral Scientists
• PSYC UN1660 Advanced Statistical Inference
• STAT UN1001 Introduction to Statistical Reasoning
• STAT UN1101 Introduction to Statistics (formerly STAT W1111)
• STAT UN1201 Calculus-Based Introduction to Statistics (formerly STAT W1211)

A Research Methods Course
Select one of the following:
• PSYC UN1420 Experimental Psychology: Human Behavior
• PSYC UN1450 Experimental Psychology: Social Cognition and Emotion
• PSYC UN1455 Experimental Psychology: Social and Personality
• PSYC UN1490 Experimental Psychology: Cognition and Decision Making

Majors are strongly advised to complete the statistics and research methods requirements, in that order, by the fall term of their junior year. Students are advised to verify the specific prerequisites for research methods courses, most of which require prior completion of a statistics course.

Distribution Requirement
One course (3 points or more) must be taken from each of the following three groups (in addition to the introductory, statistics, and research methods courses described above):
• Group I—Perception and cognition: courses numbered in the 2200s, 3200s, or 4200s. Also PSYC UN1420 Experimental Psychology: Human Behavior and PSYC UN1490 Experimental Psychology: Cognition and Decision Making.
• Group II—Psychobiology and neuroscience: courses numbered in the 2400s, 3400s, or 4400s. Also PSYC UN1010 Mind, Brain and Behavior.
• Group III—Social, personality, and abnormal: courses numbered in the 2600s, 3600s, or 4600s. Also PSYC UN1450 Experimental Psychology: Social Cognition and Emotion and PSYC UN1455 Experimental Psychology: Social and Personality.

If a 1400-level course is used to satisfy a distribution requirement, it cannot also be used to fulfill the laboratory requirement, and vice versa.

Seminar Requirement
For students entering Columbia in Fall 2013 or later, one seminar course numbered in the 3000s or 4000s must be taken for 3 or more points.

Seminars are usually taken in the senior year as a culmination of the major program. Enrollment in seminar courses requires the instructor’s permission; students are advised to contact instructors at least one month prior to registration to request seminar admission. Note that honors and supervised individual research courses (PSYC UN3910 Honors Seminar, PSYC UN3920 Honors Research, and PSYC UN3950 SUPERVISED INDIVIDUAL RESEARCH) will not meet the seminar requirement.

No course may be counted twice in fulfillment of the above major requirements, with the following exception: a seminar course may fulfill both the seminar requirement and a group requirement if it meets the criteria for both.

Additional Courses
Additional psychology courses ("electives") must be taken for a total of 30 points. As described below, these may include research courses, transfer courses, and Barnard psychology courses not approved for specific requirements.

Research Credits
No more than 4 points of PSYC UN3950 SUPERVISED INDIVIDUAL RESEARCH or PSYC UN3920 Honors Research may be taken in any one term, and no more than 8 points total of research and field work courses (PSYC UN3950 SUPERVISED INDIVIDUAL RESEARCH, PSYC BC3466 Field Work and Research Seminar: The Barnard Toddler Center, PSYC BC3473 Field Work Seminar in Psychological Services and Counseling, PSYC BC3592 Senior Research Seminar and PSYC BC3599 Individual Projects) may be applied toward the major. See below for further restrictions on applying Barnard courses toward the psychology major.
Barnard Courses

No more than 9 points (minus any transfer credits) from Barnard psychology courses may be applied as credit toward the major. The table of approved Barnard psychology courses (https://psychology.columbia.edu/sites/default/files/content/bc_approved_171106.pdf) indicates which courses have been approved for specific requirements of the psychology major. Courses not on the approved list may only be applied toward a specific requirement with prior written approval from a program adviser. Courses not on the approved list for a specific requirement may be applied as elective credit toward the 30 points for the major.

Transfer Credits

No more than 9 transfer credits (or combination of transfer and Barnard credits) will be accepted toward the psychology major. Approval of transfer credits on a student’s Entrance Credit Report toward general requirements for the B.A. degree does not grant approval of these credits toward the psychology major. Students must apply for written approval of transfer credit towards the major by submitting the Major Requirement Substitution Form (https://psychology.columbia.edu/sites/default/files/content/Major%20Substitution%20Form%20(Updated%20170611)_0.pdf). This form, along with additional information about transfer credits can be found on the Transfer Credit page of our website (https://psychology.columbia.edu/content/transfer-credit). To be approved for the major, a course taken at another institution should be substantially similar to one offered by the department, the grade received must be a B- or better, and the course must have been taken within the past 8 years. As noted above, if two courses overlap in content, only one will be applied towards the major. With the exception of approved Barnard courses, students should consult with one of the directors of undergraduate studies (https://psychology.columbia.edu/content/advisors) before registering for psychology courses offered outside the department.

Students who have completed an introductory psychology course at another institution prior to declaring a psychology major should consult with one of the directors of undergraduate studies (https://psychology.columbia.edu/content/advisors) to verify whether or not this course meets departmental standards for major transfer credit. If transfer credit toward the major is not approved, the student must enroll in PSYC UN1001 The Science of Psychology or PSYC BC1001 Introduction to Psychology to complete this major requirement. Note that College Board Advanced Placement (AP) psychology scores do not confer elective credit toward the major.

Major in Neuroscience and Behavior

Please read Guidelines for all Psychology Majors, Concentrators, and Interdepartmental Majors above.

The department cosponsors an interdepartmental major in neuroscience and behavior with the Department of Biological Sciences. For assistance in planning the psychology portion of the neuroscience and behavior major, refer to the Program Planning Tips website (https://psychology.columbia.edu/content/program-planning-tips) and use the appropriate major requirement checklist (https://psychology.columbia.edu/content/major-concentration-requirement-checklists). No course may be counted twice in fulfillment of the biology or psychology requirements described below. Most graduate programs in neuroscience also require one year of calculus, one year of physics, and chemistry through organic.

Required Courses

In addition to one year of general chemistry (or the high school equivalent), ten courses are required to complete the major —five from the Department of Biological Sciences and five from the Department of Psychology. For the definitive list of biology requirements, see the Department of Biological Sciences website (http://biology.columbia.edu).

Required Biology Courses

1. BIOL UN2005 Introductory Biology I: Biochemistry, Genetics & Molecular Biology
2. BIOL UN2006 Introductory Biology II: Cell Biology, Development & Physiology
3. BIOL UN3004 Neurobiology I: Cellular and Molecular Neurobiology
4. BIOL UN3005 Neurobiology II: Development & Systems
5. One additional 3000- or 4000-level biology course from a list approved by the biology adviser (http://www.columbia.edu/cu/biology/pages/undergrad/cur/majors/neuro.html) to the program.

Required Psychology Courses

1. PSYC UN1001 The Science of Psychology
2. PSYC UN1010 Mind, Brain and Behavior or PSYC UN2450 Behavioral Neuroscience
3. One statistics or research methods course from the following:
   • PSYC UN1420 Experimental Psychology: Human Behavior
   • PSYC UN1450 Experimental Psychology: Social Cognition and Emotion
   • PSYC UN1610 Introductory Statistics for Behavioral Scientists
   • PSYC UN1660 Advanced Statistical Inference
• STAT UN1101 Introduction to Statistics (formerly STAT W1111)
• STAT UN1201 Calculus-Based Introduction to Statistics (formerly STAT W1211)

4. One additional 2000- or 3000-level psychology lecture course from a list approved by the psychology adviser (http://biology.columbia.edu/pages/neuroscience-and-behavior-major-requirements) to the program.

5. One advanced psychology seminar from a list approved by the psychology adviser (https://psychology.columbia.edu/content/neuroscience-behavior-major/#/cuAccordionItem-1257) to the program.

Transfer Credit for Psychology Courses Taken Elsewhere

Students should consult a psychology adviser (https://psychology.columbia.edu/content/advising) before registering for psychology courses offered outside the department. With the adviser’s approval, one, and only one, course from another institution, including Barnard, may be applied toward the psychology portion of the Neuroscience and Behavior major. Students who wish to obtain credit for a course taken at Barnard or at another institution should complete the Major Requirement Substitution Form (https://psychology.columbia.edu/content/transfer-credit). To be approved for the major, the course should be substantially similar to one offered by this department and approved for this major, and the grade received must be a C- or better if from Barnard, or B- or better if from another institution. Advanced Placement (AP) psychology scores will not satisfy the PSYC UN1001 The Science of Psychology requirement.

Exceptions to Biology Requirements

Any exceptions must be approved in advance by a biology adviser and students must receive an email notification of that approval. Students may substitute Barnard College courses only with prior permission from an adviser.

CONCENTRATION IN PSYCHOLOGY

Please read Guidelines for all Psychology Majors, Concentrators, and Interdepartmental Majors above.

A concentration in psychology (https://psychology.columbia.edu/content/psychology-concentration) requires a minimum of 18 points, including PSYC UN1001 The Science of Psychology and courses in at least two of the three groups listed under “Distribution Requirement” for the psychology major. Restrictions on research credits, Barnard credits, and transfer credits are modified from those of the psychology major as follows:

1. Only 4 points total may be applied toward the concentration from research or field-work courses, including: PSYC UN3950 SUPERVISED INDIVIDUAL RESEARCH, PSYC UN3920 Honors Research PSYC BC3466 Field Work and Research Seminar: The Barnard Toddler Center, PSYC BC3473 Field Work Seminar in Psychological Services and Counseling, PSYC BC3592 Senior Research Seminar, and PSYC BC3599 Individual Projects;
2. Only 5 points from Barnard (including PSYC BC1001 Introduction to Psychology) may be applied toward the concentration.
3. Only 5 points total (including any Barnard points) from approved psychology courses taken outside the department may be applied toward the concentration.

Except as noted above, other regulations outlined in the Psychology Major section regarding grades, transfer credits, and overlapping courses also apply toward the concentration.

REGIONAL STUDIES

EAST CENTRAL EUROPEAN CENTER

http://ece.columbia.edu/

Director: Prof. Alan Timberlake, 1228 International Affairs Building; 212-854-8488; at2205@columbia.edu

Related Departments: Anthropology, Economics, History, Political Science, Slavic Languages and Literatures, and Sociology.

Language Requirement: Two years or demonstrated reading knowledge of one of the following languages: Czech, Hungarian, Polish, Romanian, Russian, Bosnian/Croatian/Serbian, or Ukrainian.

The regional studies major is designed to give undergraduates the general mastery of a discipline and at the same time permit them to do specialized work in the history and cultures of a particular geographic area through the associated institutes of the Faculty of Arts and Sciences. It is an interdisciplinary major in which students divide their work between the associated institute and an appropriate academic department. Students plan their programs with the consultant of the associated institute they have selected.

MAJOR IN REGIONAL STUDIES

The major in regional studies requires a minimum of 36 points, of which 18 must be credited by the associated institute, i.e. East Central European Center, and an additional 18 must be in one of the College departments designated as relevant by the institute. Six points of seminar work approved by the institute are required of all majors and are included in the total of 36 points.
Language Study
Courses taken to satisfy the institute’s language requirement are not counted toward the 18 institute points.

RELIGION

Departmental Office: Room 103, 80 Claremont; 212-851-4122
http://www.columbia.edu/cu/religion

Director of Undergraduate Studies: Prof. Josef Sorett, 80 Claremont; 212-851-4141; js3119@columbia.edu

Director of Academic Administration and Finance: Meryl Marcus, Room 103B, 80 Claremont; 212-851-4124; mm3039@columbia.edu

As the study of religion is truly interdisciplinary, students find their work in the department enhanced by their coursework in the College’s Core curriculum and in related departments. Many religion courses are listed in the College’s Global Core requirement, and numerous religious works are central texts in Literature Humanities and Contemporary Civilization. Majors and concentrators are required to take courses outside of religion in related fields to expand their vision of approaches to religion.

In addition, the University’s wide offerings in the languages of various religious traditions (including Arabic, Chinese, Greek, Hebrew, Japanese, Persian, Latin, Sanskrit, and Tibetan) augment many students’ abilities to conduct research in religion. Students likewise are actively encouraged to explore the world-renowned archival resources within Columbia’s libraries (including the Rare Book and Manuscript Room, the Burke Library at Union Theological Seminary, the C.V. Starr East Asian Library), and to explore and investigate the equally wide range of living religious communities represented in New York’s global neighborhoods.

Prospective majors should first arrange to meet with the Director of Undergraduate Studies. All students are then allocated a faculty adviser, and must submit a copy of the Declaration of Major form to the director of undergraduate studies. After agreeing upon a plan for the major or concentration, students must obtain final approval and confirmation from the Director of Undergraduate Studies.

GUIDELINES FOR ALL RELIGION MAJORS AND CONCENTRATORS

Major in Religion
All majors are encouraged to pursue both depth and breadth by constructing a program of study in consultation with the Director of Undergraduate Studies. The program should include courses in a variety of religious traditions. Students who write a senior thesis may include a term of individually supervised research as one of the courses for their major.

Courses
For the major the following 9 courses are required:
- 1 gateway course (1000 level)
- 2 introductory courses (2000 level)
- 2 intermediate courses (3000 level)
- 2 seminars (4000 level)
- 1 additional course at any level
- RELI UN3199 Theory(formerly Juniors Colloquium)

Concentration in Religion
To be planned in consultation with the Director of Undergraduate Studies and with a member of the faculty in an
area in which the student has a particular interest. The program should include some study in a breadth of religious traditions.

Courses
For the concentration the following 7 courses are required:

• 1 gateway course (1000 level)
• 2 introductory courses (2000 level)
• 2 intermediate courses (3000 level)
• 1 seminar (4000 level)
• RELI UN3199 Theory

Departmental Honors
Students who write a senior thesis and maintain a GPA of 3.66 or above in the major may be considered for departmental honors. Writing a senior thesis qualifies a student for consideration for departmental honors but does not assure it. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

Course Numbering
Courses are numbered by level and type:
1000-level: Gateway lecture course
2000-level: Introductory and “traditions” lectures
3000-level: Intermediate lecture
4000-level: Seminar

and Zone:
x100-199: Theory (RELI UN3199)
x200-299: Time (zone)
x300-399: Transmission (zone)
x400-499: Space (zone)
x500-599: Body (zone)
x600-699: Media (zone)

• Prof. Ivanyi (2017-18)
• Prof. Proudfoot (2017-18)
• Prof. Somerville (Fall 2017)
• Prof. Taylor (Spring 2018)
• Prof. Thurman (Spring 2018)
• Prof. Yang (2017-18)

Guidelines for all Religion Majors and Concentrators
Senior Thesis
Many students choose to write a senior honors thesis in order to pursue an advanced topic in greater depth, or to work on a particular area of interest with one of their professors. This opportunity is available to all students who major in the department, regardless of GPA, and serves for many as their undergraduate capstone experience.

Students who write a senior thesis may apply for up to 3 points of directed reading with their thesis adviser. The deadline for application for the honors thesis in religion is the last day of exams in the student’s junior spring term, and must be submitted for approval to the director of undergraduate studies. The application must include both a prospectus for the paper and a letter of support by the faculty member who has agreed to direct the thesis. The prospectus (5-7 pages) should detail a research program and the central question(s) to be pursued in the paper, preparation for the thesis, and a timeline. The primary adviser of the thesis must be a member of the Religion Department faculty.

Many students find that identifying a thesis project earlier in the junior year, in conjunction with the Juniors colloquium, presents an opportunity to develop a proposal in advance of deadlines for summer research funding from various sources,
including the undergraduate schools and the Institute for Religion Culture and Public Life.

Grading

Courses in which a grade of D has been received do not count toward the major or concentration requirements.

MAJOR IN RELIGION

All majors are encouraged to pursue both depth and breadth by constructing a program of study in consultation with the Director of Undergraduate Studies and with a member of the faculty in an area in which they have particular interest. The program should include courses in a variety of religious traditions. Students who write a senior thesis may include a term of individually supervised research as one of the courses for their major.

For the major the following 9 courses are required:

• 1 gateway course (1000 level)
• 2 introductory courses (2000 level)
• 2 intermediate courses (3000 level)
• 2 seminars (4000 level)
• 1 additional course at any level
• RELI UN3199 Theory (formerly Juniors Colloquium)

CONCENTRATION IN RELIGION

To be planned in consultation with the Director of Undergraduate Studies and with a member of the faculty in an area in which the student has a particular interest. The program should include some study in a breadth of religious traditions.

For the concentration the following 7 courses are required:

• 1 gateway course (1000 level)
• 2 introductory courses (2000 level)
• 2 intermediate courses (3000 level)
• 1 seminar (4000 level)
• RELI UN3199 Theory

RUSSIAN LANGUAGE AND CULTURE

Departmental Office: 708 Hamilton; 212-854-3941
http://www.columbia.edu/cu/slavic/

Director of Undergraduate Studies:
Prof. Irina Reyfman, 712 Hamilton Hall; 212-854-3941; ir2@columbia.edu

Russian Language Program Director:
Prof. Alla Smyslova, 708 Hamilton; 212-854-8155; as2157@columbia.edu

The Department of Slavic Languages and Literatures is devoted to the study of the cultures, literatures, and languages of Russia and other Slavic peoples and lands. We approach our study and teaching of these cultures with an eye to their specificity and attention to their interaction with other cultures, in history and in the contemporary global context. We focus not only on the rich literary tradition, but also on the film, theater, politics, art, music, media, religious thought, critical theory, and intellectual history of Russians and other Slavs. Our approach is interdisciplinary.

Students who take our courses have different interests. Many of our courses are taught in English with readings in English and have no prerequisites. As a consequence, our majors and concentrators are joined by students from other literature departments, by students of history and political science who have a particular interest in the Slavic region, and by others who are drawn to the subject matter for a variety of intellectual and practical reasons.

We provide instruction in Russian at all levels (beginning through very advanced), with a special course for heritage speakers. To improve the proficiency of Russian learners and speakers, we offer a number of literature and culture courses in which texts are read in the original and discussion is conducted in Russian. We offer three levels of other Slavic languages: Bosnian-Croatian-Serbian, Czech, Polish, and Ukrainian (with additional courses in culture in English). All language courses in the Slavic Department develop the four basic language skills (speaking, listening, reading, and writing) and cultural understanding.

Our department prides itself on the intellectual vitality of its program and on the sense of community among students and faculty. As they explore Russian and Slavic languages, literatures, and cultures, students develop not only their specific knowledge and cultural understanding, but also the capacity for critical thought, skills in analyzing literary and other texts, and the ability to express their ideas orally and in writing. Our graduates have used their knowledge and skills in different ways: graduate school, Fulbright and other fellowships, journalism, publishing, law school, NGO work, public health, government work, and politics. Our faculty is proud of its students and graduates.

MAJORS AND CONCENTRATIONS

Guided by the director of undergraduate studies and other faculty members, students majoring in Slavic create a program that suits their intellectual interests and academic goals. They choose from three tracks: Russian Language and Culture (for those with a strong interest in mastering the language), Russian Literature and Culture (for those who want to focus on literary and cultural studies), and Slavic Studies (a flexible regional studies major for those interested in one or more Slavic...
cultures). In each major, students may count related courses in other departments among their electives.

In addition to its majors, the department offers five concentrations. Three are analogous to the major tracks (Russian Language and Culture, Russian Literature and Culture, and Slavic Studies). There is also a concentration in Russian Literature that does not require language study and another concentration in Slavic Cultures that allows students to focus on a Slavic language and culture other than Russian.

Motivated seniors are encouraged but not required to write a senior thesis. Those who write a thesis enroll in the Senior Seminar in the fall term and work individually with a thesis adviser. Students have written on a wide range of topics in literature, culture, media, and politics.

SLAVIC CULTURE AT COLUMBIA
OUTSIDE OF THE CLASSROOM

All interested students are welcome to take part in departmental activities, such as conversation hours, Slavic student organizations, the department’s various film series (Russian, East Central European, Central Asian, and Ukrainian), and the country’s first undergraduate journal of Eastern European and Eurasian Culture, The Birch. The Slavic Department has close ties to the Harriman Institute and the East Central European Center, which sponsor lectures, symposia, performances, and conferences.

STUDY AND RESEARCH ABROAD

The department encourages its students to enrich their cultural knowledge and develop their language skills by spending a semester or summer studying in Russia, the Czech Republic, Poland, Ukraine, or the countries of the former Yugoslavia. The department helps students find the program that suits their needs and interests. Undergraduates may apply to the Harriman Institute for modest scholarships for research during winter/spring breaks or the summer.

GUIDELINES FOR ALL SLAVIC
MAJORS AND CONCENTRATORS

Senior Thesis

A senior thesis is not required for any Slavic major. Students who wish to undertake a thesis project should confer with the director of undergraduate studies during the registration period in April of their junior year and register to take RUSS UN3595 Senior Seminar in the fall term of their senior year. Students can opt to expand the thesis into a two-semester project register for RUSS UN3998 Supervised Individual Research, with their thesis adviser, in the spring term of their senior year. Senior Seminar may satisfy one elective requirement; the optional second semester of thesis work adds one course to the 15 required for the major.

Grading

Courses in which a grade of D has been received do not count toward major or concentration requirements.

MAJOR IN RUSSIAN LANGUAGE
AND CULTURE

This major is intended for students who aim to attain maximal proficiency in the Russian language. Intensive language training is complemented by an array of elective courses in Russian culture that allow students to achieve critical understanding of contemporary Russian society and of Russian-speaking communities around the world. Since this major emphasizes language acquisition, it is not appropriate for native Russian speakers.

The program of study consists of 15 courses, distributed as follows:

Eight semesters of coursework in Russian language (from first- through fourth-year Russian) or the equivalent
Select two of the following surveys; at least one of these should be a Russian literature survey (RUSS UN3220 or RUSS UN3221):

RUSS UN3220  Literature and Empire: The Reign of the Novel in Russia (19th Century) [In English]
RUSS UN3221  Literature & Revolution [In English]
RUSS UN3223  Magical Mystery Tour: The Legacy of Old Rus'
SLCL UN3001  Slavic Cultures
RUSS GU4006  Russian Religious Thought, Praxis, and Literature
CLRS GU4022  Russia and Asia: Orientalism, Eurasianism, Internationalism
RUSS GU4107  Russian Literature and Culture in the New Millennium

Five additional courses in Russian culture, history, literature, art, film, music, or in linguistics, chosen in consultation with the director of undergraduate studies. At least one of the selected courses should be taught in Russian

Six additional courses in Russian literature, culture, history, film, art, music, or in advanced Russian language, chosen in consultation with the director of undergraduate studies. At least one course should be taught in Russian

Students considering graduate study in Russian literature are strongly advised to complete four years of language training.

Major in Slavic Studies
This flexible major provides opportunities for interdisciplinary studies within the Slavic field. Students are encouraged to choose one target language (Bosnian-Croatian-Serbian, Czech, Polish, Russian, or Ukrainian), though there are possibilities for studying a second Slavic language as well. Generally, the major has one disciplinary focus in history, political science, economics, religion, anthropology, sociology, art, film, or music. In addition, this program allows students to focus on a particular Slavic (non-Russian) literature and culture or to do comparative studies of several Slavic literatures, including Russian. Students should plan their program with the director of undergraduate studies as early as possible, since course availability varies from year to year.

The program of study consists of 15 courses, distributed as follows:

Six semesters of coursework in one Slavic language (from first- through third-year Russian, Bosnian-Croatian-Serbian, Czech, Polish, or Ukrainian) or the equivalent.
Two relevant courses in Russian, East/Central European or Eurasian history.
Two relevant literature or culture courses in Slavic, preferably related to the target language.
Five additional courses with Slavic content in history, political science, economics, literature, religion, anthropology, sociology, art, film, or music, chosen in consultation with the director of undergraduate studies. Two of these electives may be language courses for students who opt to include a second Slavic language in their program.

Altogether students should complete four courses in a single discipline, including, if appropriate, the required history or literature/culture courses.

Concentration in Russian Language and Culture
This program is intended for students who aim to attain proficiency in the Russian language. Intensive language training is complemented by an array of elective courses in Russian culture that allow students to achieve critical understanding of contemporary Russian society and of Russian-speaking communities around the world. Since this concentration emphasizes language acquisition, it is not appropriate for native Russian speakers.
The program of study consists of 10 courses, distributed as follows:

Six semesters of coursework in Russian language (from first- through third-year Russian) or the equivalent.

Select one of the following surveys:

<table>
<thead>
<tr>

</tbody>
</table>

Three additional courses in Russian culture, history, literature, art, film, music, or in linguistics, chosen in consultation with the director of undergraduate studies; at least one of the selected courses should be taught in Russian.

RUSS GU4107 Russian Literature and Culture in the New Millennium

The program of study consists of 10 courses, distributed as follows:

Four semesters of coursework in Russian language (first- and second-year Russian) or the equivalent.

Select two of the following surveys; one of which must be a literature survey (RUSS UN3220 or RUSS UN3221)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

<td>Russian Literature and Culture in the New Millennium</td>
</tr>
</tbody>
</table>

Four additional courses in Russian literature, culture, and history, chosen in consultation with the director of undergraduate studies.

**CONCENTRATION IN SLAVIC (NON-RUSSIAN) LANGUAGE AND CULTURE**

This program is intended for students who aim to attain proficiency in a Slavic language other than Russian. Intensive language training is complemented by an array of elective courses in Slavic cultures that allow students to achieve critical understanding of the communities that are shaped by the Slavic language of their choice. Since this concentration emphasizes language acquisition, it is not appropriate for native speakers of the target language.

The program of study consists of 10 courses, distributed as follows:

Six semesters of coursework in one Slavic language (from first-through third-year Bosnian-Croatian-Serbian, Czech, Polish, or Ukrainian) or the equivalent.

Four additional courses in Slavic literature, culture or history, or in linguistics, chosen in consultation with the director of undergraduate studies; at least two should be directly related to the target language of study.

The program of study consists of 10 courses, distributed as follows:

Four semesters of coursework in one Slavic language (first- and second-year Bosnian-Croatian-Serbian, Czech, Polish, Russian, or Ukrainian) or the equivalent.

One relevant courses in Russian, East/Central European or Eurasian history.

One relevant literature or culture course in Slavic, preferably related to the target language.

Four additional courses with Slavic content in history, political science, economics, religion, anthropology, sociology, art, film, or music, chosen in consultation with the director of undergraduate studies

Altogether students should complete three courses in a single discipline, including, if appropriate, the required history or literature/culture courses.

**CONCENTRATION IN SLAVIC STUDIES**

This flexible concentration provides opportunities for interdisciplinary studies within the Slavic field. Students are encouraged to choose one target language (Bosnian-Croatian-Serbian, Czech, Polish, Russian, or Ukrainian), and one disciplinary focus in history, political science, economics, religion, anthropology, sociology, art, film, or music. In addition, this program allows students to focus on a particular Slavic (non-Russian) literature and culture, or to do comparative studies of several Slavic literatures, including Russian.

The program of study consists of 10 courses, distributed as follows:

Four semesters of coursework in one Slavic language (first- and second-year Bosnian-Croatian-Serbian, Czech, Polish, Russian, or Ukrainian) or the equivalent.

One relevant courses in Russian, East/Central European or Eurasian history.

One relevant literature or culture course in Slavic, preferably related to the target language.

Four additional courses with Slavic content in history, political science, economics, literature, religion, anthropology, sociology, art, film, or music, chosen in consultation with the director of undergraduate studies

Altogether students should complete three courses in a single discipline, including, if appropriate, the required history or literature/culture courses.
CONCENTRATION IN RUSSIAN LITERATURE

This concentration is addressed to serious literature students who would like to pursue Russian literature but have no training in Russian. It allows students to explore the Russian literary tradition, while perfecting their critical skills and their techniques of close reading in a variety of challenging courses in translation.

The program of study consists of 8 courses, with no language requirements, distributed as follows:

Select two of the following Russian literature surveys (in translation):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>RUSS UN3220</td>
<td>Literature and Empire: The Reign of the Novel in Russia (19th Century) [In English]</td>
</tr>
<tr>
<td>RUSS UN3221</td>
<td>Literature &amp; Revolution [In English]</td>
</tr>
</tbody>
</table>

Six additional courses, focused primarily on Russian literature, culture, and history, though courses in other Slavic literatures are also acceptable if approved by the director of undergraduate studies.

Relevant literature courses from other departments may count toward the concentration only if approved by the director of undergraduate studies.

- Three additional courses in Russian culture, history, literature, art, film, music, or in linguistics, chosen in consultation with the director of undergraduate studies; at least one of the selected courses should be taught in Russian.
RUSS GU4107  Russian Literature and Culture in the New Millennium

**CONCENTRATION IN SLAVIC (NON-RUSSIAN) LANGUAGE AND CULTURE**

This program is intended for students who aim to attain proficiency in a Slavic language other than Russian. Intensive language training is complemented by an array of elective courses in Slavic cultures that allow students to achieve critical understanding of the communities that are shaped by the Slavic language of their choice. Since this concentration emphasizes language acquisition, it is not appropriate for native speakers of the target language.

The program of study consists of 10 courses, distributed as follows:

- Six semesters of coursework in one Slavic language (from first- through third-year Bosnian-Croatian-Serbian, Czech, Polish, or Ukrainian) or the equivalent.
- Four additional courses in Slavic literature, culture or history, or in linguistics, chosen in consultation with the director of undergraduate studies; at least two should be directly related to the target language of study.

**CONCENTRATION IN RUSSIAN LITERATURE AND CULTURE**

The goal of this concentration is to make students conversant with a variety of Russian literary texts and cultural artifacts that facilitate a critical understanding of Russian culture. It is addressed to students who would like to combine language training with study of the Russian literary tradition.

The program of study consists of 10 courses, distributed as follows:

- Four semesters of coursework in Russian language (first- and second-year Russian) or the equivalent.
- Select two of the following surveys; one of which must be a literature survey (RUSS UN3220 or RUSS UN3221)
  - RUSS UN3220  Literature and Empire: The Reign of the Novel in Russia (19th Century) [In English]
  - RUSS UN3221  Literature & Revolution [In English]
- RUSS GU4006  Russian Religious Thought, Praxis, and Literature
- SLCL UN3001  Slavic Cultures
- CLRS GU4022  Russia and Asia: Orientalism, Eurasianism, Internationalism
- RUSS GU4107  Russian Literature and Culture in the New Millennium
- Four additional courses in Russian literature, culture, and history, chosen in consultation with the director of undergraduate studies.

**CONCENTRATION IN SLAVIC STUDIES**

This flexible concentration provides opportunities for interdisciplinary studies within the Slavic field. Students are encouraged to choose one target language (Bosnian-Croatian-Serbian, Czech, Polish, Russian, or Ukrainian), and one disciplinary focus in history, political science, economics, religion, anthropology, sociology, art, film, or music. In addition, this program allows students to focus on a particular Slavic (non-Russian) literature and culture, or to do comparative studies of several Slavic literatures, including Russian.

The program of study consists of 10 courses, distributed as follows:

- Four semesters of coursework in one Slavic language (first- and second-year Bosnian-Croatian-Serbian, Czech, Polish, Russian, or Ukrainian) or the equivalent.
- One relevant course in Russian, East/Central European or Eurasian history.
- One relevant literature or culture course in Slavic, preferably related to the target language.
- Four additional courses with Slavic content in history, political science, economics, literature, religion, anthropology, sociology, art, film, or music, chosen in consultation with the director of undergraduate studies

Altogether students should complete three courses in a single discipline, including, if appropriate, the required history or literature/culture courses.

**CONCENTRATION IN RUSSIAN LITERATURE**

This concentration is addressed to serious literature students who would like to pursue Russian literature but have no training in Russian. It allows students to explore the Russian literary tradition, while perfecting their critical skills and their techniques of close reading in a variety of challenging courses in translation.

The program of study consists of 8 courses, with no language requirements, distributed as follows:

- Select two of the following Russian literature surveys (in translation):
  - RUSS UN3220  Literature and Empire: The Reign of the Novel in Russia (19th Century) [In English]
  - RUSS UN3221  Literature & Revolution [In English]
Six additional courses, focused primarily on Russian literature, culture, and history, though courses in other Slavic literatures are also acceptable if approved by the director of undergraduate studies.

Relevant literature courses from other departments may count toward the concentration only if approved by the director of undergraduate studies.

SLAVIC LANGUAGE AND CULTURE

Departmental Office: 708 Hamilton; 212-854-3941
http://www.columbia.edu/cu/slavic/

Director of Undergraduate Studies: Prof. Irina Reyfman, 712 Hamilton Hall; 212-854-3941; ir2@columbia.edu

Russian Language Program Director: Prof. Alla Smyslova, 708 Hamilton; 212-854-8155; as2157@columbia.edu

The Department of Slavic Languages and Literatures is devoted to the study of the cultures, literatures, and languages of Russia and other Slavic peoples and lands. We approach our study and teaching of these cultures with an eye to their specificity and attention to their interaction with other cultures, in history and in the contemporary global context. We focus not only on the rich literary tradition, but also on the film, theater, politics, art, music, media, religious thought, critical theory, and intellectual history of Russians and other Slavs. Our approach is interdisciplinary.

Students who take our courses have different interests. Many of our courses are taught in English with readings in English and have no prerequisites. As a consequence, our majors and concentrators are joined by students from other literature departments, by students of history and political science who have a particular interest in the Slavic region, and by others who are drawn to the subject matter for a variety of intellectual and practical reasons.

We provide instruction in Russian at all levels (beginning through very advanced), with a special course for heritage speakers. To improve the proficiency of Russian learners and speakers, we offer a number of literature and culture courses in which texts are read in the original and discussion is conducted in Russian. We offer three levels of other Slavic languages: Bosnian-Croatian-Serbian, Czech, Polish, and Ukrainian (with additional courses in culture in English). All language courses in the Slavic Department develop the four basic language skills (speaking, listening, reading, and writing) and cultural understanding.

Our department prides itself on the intellectual vitality of its program and on the sense of community among students and faculty. As they explore Russian and Slavic languages, literatures, and cultures, students develop not only their specific knowledge and cultural understanding, but also the capacity for critical thought, skills in analyzing literary and other texts, and the ability to express their ideas orally and in writing. Our graduates have used their knowledge and skills in different ways: graduate school, Fulbright and other fellowships, journalism, publishing, law school, NGO work, public health, government work, and politics. Our faculty is proud of its students and graduates.

MAJORS AND CONCENTRATIONS

Guided by the director of undergraduate studies and other faculty members, students majoring in Slavic create a program that suits their intellectual interests and academic goals. They choose from three tracks: Russian Language and Culture (for those with a strong interest in mastering the language), Russian Literature and Culture (for those who want to focus on literary and cultural studies), and Slavic Studies (a flexible regional studies major for those interested in one or more Slavic cultures). In each major, students may count related courses in other departments among their electives.

In addition to its majors, the department offers five concentrations. Three are analogous to the major tracks (Russian Language and Culture, Russian Literature and Culture, and Slavic Studies). There is also a concentration in Russian Literature that does not require language study and another concentration in Slavic Cultures that allows students to focus on a Slavic language and culture other than Russian.

Motivated seniors are encouraged but not required to write a senior thesis. Those who write a thesis enroll in the Senior Seminar in the fall term and work individually with a thesis adviser. Students have written on a wide range of topics in literature, culture, media, and politics.

SLAVIC CULTURE AT COLUMBIA

SLAVIC CULTURE AT COLUMBIA OUTSIDE OF THE CLASSROOM

All interested students are welcome to take part in departmental activities, such as conversation hours, Slavic student organizations, the department’s various film series (Russian, East Central European, Central Asian, and Ukrainian), and the country’s first undergraduate journal of Eastern European and Eurasian Culture, The Birch. The Slavic Department has close ties to the Harriman Institute and the East Central European Center, which sponsor lectures, symposia, performances, and conferences.

STUDY AND RESEARCH ABROAD

The department encourages its students to enrich their cultural knowledge and develop their language skills by spending a semester or summer studying in Russia, the Czech Republic, Poland, Ukraine, or the countries of the former Yugoslavia. The department helps students find the program that suits their needs and interests. Undergraduates may apply to the
Harriman Institute for modest scholarships for research during winter/spring breaks or the summer.

**Guidelines for all Slavic Majors and Concentrators**

**Senior Thesis**

A senior thesis is not required for any Slavic major. Students who wish to undertake a thesis project should confer with the director of undergraduate studies during the registration period in April of their junior year and register to take RUSS UN3595 Senior Seminar in the fall term of their senior year. Students can opt to expand the thesis into a two-semester project register for RUSS UN3998 Supervised Individual Research, with their thesis adviser, in the spring term of their senior year. *Senior Seminar* may satisfy one elective requirement; the optional second semester of thesis work adds one course to the 15 required for the major.

**Grading**

Courses in which a grade of D has been received do not count toward major or concentration requirements.

---

**Major in Russian Language and Culture**

This major is intended for students who aim to attain maximal proficiency in the Russian language. Intensive language training is complemented by an array of elective courses in Russian culture that allow students to achieve critical understanding of contemporary Russian society and of Russian-speaking communities around the world. Since this major emphasizes language acquisition, it is not appropriate for native Russian speakers.

The program of study consists of 15 courses, distributed as follows:

Eight semesters of coursework in Russian language (from first- through fourth-year Russian) or the equivalent

Select two of the following surveys; at least one of these should be a Russian literature survey (RUSS UN3220 or RUSS UN3221):

- RUSS UN3220 Literature and Empire: The Reign of the Novel in Russia (19th Century) [In English]
- RUSS UN3221 Literature & Revolution [In English]
- RUSS UN3223 Magical Mystery Tour: The Legacy of Old Rus’
- SLCL UN3001 Slavic Cultures
- RUSS GU4006 Russian Religious Thought, Praxis, and Literature
- CLRS GU4022 Russia and Asia: Orientalism, Eurasianism, Internationalism
- RUSS GU4107 Russian Literature and Culture in the New Millennium

Five additional courses in Russian culture, history, literature, art, film, music, or in linguistics, chosen in consultation with the director of undergraduate studies. At least one of the selected courses should be taught in Russian

---

**Major in Russian Literature and Culture**

The goal of this major is to make students conversant with a variety of Russian literary, historical and theoretical texts in the original, and to facilitate a critical understanding of Russian literature, culture, and society. It is addressed to students who would like to complement serious literary studies with intensive language training, and is especially suitable for those who intend to pursue an academic career in the Slavic field.

The program of study consists of 15 courses, distributed as follows:

Six semesters of coursework in Russian language (from first- through third-year Russian) or the equivalent.

Select three of the following surveys; two of which must be in Russian literature (RUSS UN3220 and RUSS UN3221)
RUSS UN3220 Literature and Empire: The Reign of the Novel in Russia (19th Century) [In English]
RUSS UN3221 Literature & Revolution [In English]
RUSS UN3223 Magical Mystery Tour: The Legacy of Old Rus’
SLCL UN3001 Slavic Cultures
RUSS GU4006 Russian Religious Thought, Praxis, and Literature
CLRS GU4022 Russia and Asia: Orientalism, Eurasianism, Internationalism
RUSS GU4107 Russian Literature and Culture in the New Millennium

Six additional courses in Russian literature, culture, history, film, art, music, or in advanced Russian language, chosen in consultation with the director of undergraduate studies. At least one course should be taught in Russian

Students considering graduate study in Russian literature are strongly advised to complete four years of language training.

MAJOR IN SLAVIC STUDIES
This flexible major provides opportunities for interdisciplinary studies within the Slavic field. Students are encouraged to choose one target language (Bosnian-Croatian-Serbian, Czech, Polish, Russian, or Ukrainian), though there are possibilities for studying a second Slavic language as well. Generally, the major has one disciplinary focus in history, political science, economics, religion, anthropology, sociology, art, film, or music. In addition, this program allows students to focus on a particular Slavic (non-Russian) literature and culture or to do comparative studies of several Slavic literatures, including Russian. Students should plan their program with the director of undergraduate studies as early as possible, since course availability varies from year to year.

The program of study consists of 15 courses, distributed as follows:

Six semesters of coursework in one Slavic language (from first- through third-year Russian, Bosnian-Croatian-Serbian, Czech, Polish, or Ukrainian) or the equivalent.
Two relevant courses in Russian, East/Central European or Eurasian history.
Two relevant literature or culture courses in Slavic, preferably related to the target language.
Five additional courses with Slavic content in history, political science, economics, literature, religion, anthropology, sociology, art, film, or music, chosen in consultation with the director of undergraduate studies. Two of these electives may be language courses for students who opt to include a second Slavic language in their program.

Altogether students should complete four courses in a single discipline, including, if appropriate, the required history or literature/culture courses.

CONCENTRATION IN RUSSIAN LANGUAGE AND CULTURE
This program is intended for students who aim to attain proficiency in the Russian language. Intensive language training is complemented by an array of elective courses in Russian culture that allow students to achieve critical understanding of contemporary Russian society and of Russian-speaking communities around the world. Since this concentration emphasizes language acquisition, it is not appropriate for native Russian speakers.

The program of study consists of 10 courses, distributed as follows:

Six semesters of coursework in Russian language (from first- through third-year Russian) or the equivalent.
Select one of the following surveys:

SLCL UN3001 Slavic Cultures
RUSS UN3220 Literature and Empire: The Reign of the Novel in Russia (19th Century) [In English]
RUSS UN3221 Literature & Revolution [In English]
RUSS UN3223 Magical Mystery Tour: The Legacy of Old Rus’
CLRS GU4022 Russia and Asia: Orientalism, Eurasianism, Internationalism

Three additional courses in Russian culture, history, literature, art, film, music, or in linguistics, chosen in consultation with the director of undergraduate studies; at least one of the selected courses should be taught in Russian.

RUSS GU4107 Russian Literature and Culture in the New Millennium

CONCENTRATION IN SLAVIC (NON-RUSSIAN) LANGUAGE AND CULTURE
This program is intended for students who aim to attain proficiency in a Slavic language other than Russian. Intensive language training is complemented by an array of elective courses in Slavic cultures that allow students to achieve critical understanding of the communities that are shaped by the Slavic language of their choice. Since this concentration emphasizes language acquisition, it is not appropriate for native speakers of the target language.

The program of study consists of 10 courses, distributed as follows:

Select one of the following surveys:

SLCL UN3001 Slavic Cultures
RUSS UN3220 Literature and Empire: The Reign of the Novel in Russia (19th Century) [In English]
RUSS UN3221 Literature & Revolution [In English]
RUSS UN3223 Magical Mystery Tour: The Legacy of Old Rus’
CLRS GU4022 Russia and Asia: Orientalism, Eurasianism, Internationalism

Three additional courses in Russian culture, history, literature, art, film, music, or in linguistics, chosen in consultation with the director of undergraduate studies; at least one of the selected courses should be taught in Russian.
Six semesters of coursework in one Slavic language (from first- through third-year Bosnian-Croatian-Serbian, Czech, Polish, or Ukrainian) or the equivalent.

Four additional courses in Slavic literature, culture or history, or in linguistics, chosen in consultation with the director of undergraduate studies; at least two should be directly related to the target language of study.

**CONCENTRATION IN RUSSIAN LITERATURE AND CULTURE**

The goal of this concentration is to make students conversant with a variety of Russian literary texts and cultural artifacts that facilitate a critical understanding of Russian culture. It is addressed to students who would like to combine language training with study of the Russian literary tradition.

The program of study consists of 10 courses, distributed as follows:

Four semesters of coursework in Russian language (first- and second-year Russian) or the equivalent.

Select two of the following surveys; one of which must be a literature survey (RUSS UN3220 or RUSS UN3221)

-RUSS UN3220: Literature and Empire: The Reign of the Novel in Russia (19th Century) [In English]

-RUSS UN3221: Literature & Revolution [In English]

-RUSS UN3223: Magical Mystery Tour: The Legacy of Old Rus’

-RUSS GU4006: Russian Religious Thought, Praxis, and Literature

-SLCL UN3001: Slavic Cultures

-CLRS GU4022: Russia and Asia: Orientalism, Eurasianism, Internationalism

-RUSS GU4107: Russian Literature and Culture in the New Millennium

Four additional courses in Russian literature, culture, and history, chosen in consultation with the director of undergraduate studies.

**CONCENTRATION IN RUSSIAN LITERATURE**

This concentration is addressed to serious literature students who would like to pursue Russian literature but have no training in Russian. It allows students to explore the Russian literary tradition, while perfecting their critical skills and their techniques of close reading in a variety of challenging courses in translation.

The program of study consists of 8 courses, with no language requirements, distributed as follows:

Select two of the following Russian literature surveys (in translation):

-RUSS UN3220: Literature and Empire: The Reign of the Novel in Russia (19th Century) [In English]

-RUSS UN3221: Literature & Revolution [In English]

Six additional courses, focused primarily on Russian literature, culture, and history, though courses in other Slavic literatures are also acceptable if approved by the director of undergraduate studies.

Relevant literature courses from other departments may count toward the concentration only if approved by the director of undergraduate studies.

**CONCENTRATION IN SLAVIC STUDIES**

This flexible concentration provides opportunities for interdisciplinary studies within the Slavic field. Students are encouraged to choose one target language (Bosnian-Croatian-Serbian, Czech, Polish, Russian, or Ukrainian), and one disciplinary focus in history, political science, economics, religion, anthropology, sociology, art, film, or music. In addition, this program allows students to focus on a particular Slavic (non-Russian) literature and culture, or to do comparative studies of several Slavic literatures, including Russian.

The program of study consists of 10 courses, distributed as follows:

Four semesters of coursework in one Slavic language (first- and second-year Bosnian-Croatian-Serbian, Czech, Polish, Russian, or Ukrainian) or the equivalent.

One relevant courses in Russian, East/Central European or Eurasian history.

One relevant literature or culture course in Slavic, preferably related to the target language.

Four additional courses with Slavic content in history, political science, economics, literature, religion, anthropology, sociology, art, film, or music, chosen in consultation with the director of undergraduate studies.

Altogether students should complete three courses in a single discipline, including, if appropriate, the required history or literature/culture courses.

**SOCIOLGY**

**Department Office:** 501A Knox; 212-854-4226
http://www.sociology.columbia.edu

**Director of Undergraduate Studies:** Teresa Sharpe, 501 Knox; ts2785@columbia.edu
Sociology is the study of associational life. In examining patterns of association, sociologists explore the interactions of people, communities, and organizations. In this sense, sociology is not the study of people; it is the study of the relationships among people. This study includes the associations between people and the products of human interaction, such as organizations, technologies, economies, cities, culture, media, and religion. In the kinds of questions it asks, sociology is a deeply humanist discipline and sociologists demand the analytic rigor of scientific investigation.

In training students in our department, we encourage them to ask big questions and we work to give them the tools to provide answers. These tools might mean ethnographic observation, pouring through historical archives, looking at census data, analyzing social networks, or interviewing people in various walks of life.

As a bridging discipline that seeks the scientific exploration of questions that matter to human communities, such as inequality and social injustice, sociology addresses many of the same areas of life as our neighboring social science disciplines. Yet we often approach these areas quite differently. For example, problems of economic and political life are a central concern to sociologists. Rather than explore these as independent or particular features of society, we seek to embed them within the complex whole of the social world. Students will find the Department of Sociology to be a broad, demanding department that provides its students with the conceptual and methodological tools to make sense of the opportunities and social problems of the global communities in which we live.

GRADING
A letter grade of C- or better is needed in all Sociology courses in order to satisfy the program requirements.

DEPARTMENTAL HONORS
In order to be considered for departmental honors, majors must have a minimum GPA of 3.6 overall and 3.8 in courses in the Department of Sociology. In addition, students must produce an exceptional honors thesis in the two-semester Senior Seminar (SOCI UN3995-SOCI UN3996 Senior Seminar).

In order to register for the Senior Seminar, students must have completed SOCI UN3010 Methods for Social Research and have had their research project accepted by the faculty member teaching the Senior Seminar. Submissions of research projects are due by May 1 preceding the seminar. Normally no more than 10% of graduating majors receive departmental honors in a given academic year.

PROFESSORS
- Karen Barkey
- Peter Bearman
- Courtney Bender (Religion)
- Yinon Cohen

Major in Sociology

The major in sociology requires a minimum of 30-31 points as follows:

Core Courses

The following three courses are required (10 points):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOCI UN1000</td>
<td>The Social World</td>
</tr>
<tr>
<td>SOCI UN3000</td>
<td>Social Theory</td>
</tr>
<tr>
<td>SOCI UN3010</td>
<td>Methods for Social Research</td>
</tr>
</tbody>
</table>

Elective Courses

Select six courses (20-21 points) in the Department of Sociology, to include at least three lecture courses (2000- or 3000-level, 3 points each) and at least two seminars (4 points each). The sixth course could be either a lecture course (to a total of 30 points) or a seminar (to a total of 31 points). For students taking the two-semester Senior Seminar, the sixth course must be a seminar. Some examples of electives include:

- SOCI UN3213 Sociology of African American Life
- SOCI UN3235 Social Movements: Collective Action
- SOCI UN3490 Mistake, Misconduct, Disaster
- SOCI UN3285 Israeli Society and the Israeli-Palestinian Conflict
- SOCI UN3264 The Changing American Family
- SOCI UN3900 Societal Adaptations to Terrorism
- SOCI UN3914 Seminar in Inequality, Poverty, and Mobility
- SOCI UN3931 Sociology of the Body
- SOCI UN3974 Sociology of Schools, Teaching and Learning
- SOCI UN3985 Queer Practice
- SOCI UN3995 Senior Seminar
- SOCI UN3996 Senior Seminar

Political Science - Statistics Major Advising:
The Department offers several introductory courses. Students interested in statistical concepts, who plan on consuming, but not creating statistics, should take STAT UN1001 Introduction to Statistical Reasoning. The course is designed for students who have taken a pre-calculus course, and the focus is on general principles. It is suitable for students seeking to satisfy the Barnard quantitative reasoning requirements.

Students seeking an introduction to applied statistics should take STAT UN1101 Introduction to Statistics. The course is designed for students who have some mathematical maturity, but who may not have taken a course in calculus, and the focus is on the elements of data analysis. It is recommended for pre-med students, and students contemplating the concentration in statistics. Students seeking a foundation for further study of probability theory and statistical theory and methods should take STAT UN1201 Calculus-Based Introduction to Statistics. The course is designed for students who have taken a semester of college calculus or the equivalent, and the focus is on preparation for a mathematical study of probability and statistics. It is recommended for students seeking to complete the prerequisite for econometrics, and for students contemplating the major in statistics. Students seeking a one-semester calculus-based survey of probability theory and statistical theory and methods should take STAT GU4001 Introduction to Probability and Statistics. This course is designed for students who have taken calculus, and is meant as a terminal course. It provides a somewhat abridged version of the more demanding sequence STAT GU4203 PROBABILITY THEORY and STAT GU4204 Statistical Inference. While some mathematically mature students take the more demanding sequence as an introduction to the field, it is generally recommended that students prepare for the sequence by taking STAT UN1201 Calculus-Based Introduction to Statistics.

The Department offers the Major in Statistics, the Concentration in Statistics, and interdisciplinary majors with Computer Science, Economics, Mathematics, and Political Science. The concentration is suitable for students preparing for work or study where substantial skills in data analysis are valued and may be taken without mathematical prerequisites. The concentration consists of a sequence of six courses in applied statistics, but students may substitute statistics electives numbered 4203 or above with permission of the concentration advisors. The major consists of mathematical and computational prerequisites, an introductory course, and five core courses in probability theory and theoretical and applied statistics together with three electives. The training in the undergraduate major is comparable to a masters degree in statistics.

Students may wish to consult the following guidelines when undertaking course planning. It is advisable to take STAT UN1101 Introduction to Statistics and STAT UN2102 Applied Statistical Computing before taking any of the more advanced concentration courses, STAT UN2103 Applied Linear Regression Analysis, STAT UN2104 Applied Categorical Data Analysis, STAT UN3105 Applied Statistical Methods, and STAT UN3106 Applied Data Mining. It is advisable to take STAT UN1201 Calculus-Based Introduction to Statistics, STAT GU4203 PROBABILITY THEORY, STAT GU4204 Statistical Inference, and STAT GU4205 Linear Regression Models in sequence. Courses in stochastic analysis should be preceded by STAT GU4203 PROBABILITY THEORY, and for many students, it is advisable to take STAT GU4207 Elementary Stochastic Processes before embarking on STAT GU4262 Stochastic Processes for Finance, STAT GU4264 Stochastic Processes and Applications, or STAT GU4265 Stochastic Methods in Finance. Most of the statistics courses numbered from 4221 to 4234 are best preceded by STAT GU4205 Linear Regression Models. The data science courses STAT GU4206 Statistical Computing and Introduction to Data Science, STAT GU4241 Statistical Machine Learning, and STAT GU4242 Advanced Machine Learning should be taken in sequence.

ADVANCED PLACEMENT

The Department offers three points of advanced credit for a score of 5 on the AP statistics exam. Students who are required to take an introductory statistics course for their major should check with their major advisor to determine whether this credit provides exemption from their requirement.

DEPARTMENTAL HONORS

Students are considered for department honors on the basis of GPA and the comprehensiveness and difficulty of their course work in the Department. The Department is generally permitted to nominate one tenth of graduating students for departmental honors.

UNDERGRADUATE RESEARCH IN STATISTICS AND THE SUMMER INTERNSHIP

Matriculated students who will be undergraduates at Columbia College, Barnard College, the School of General Studies, or the School of Engineering and Applied Sciences may apply to the Department’s summer internship program. The internship provides summer housing and a stipend. Students work with Statistics Department faculty mentors. Applicants should send a brief statement of interest and a copy of their transcript to Ms. Dood Kalicharan in the Statistics Department.
office by the end of March to be considered. If summer project descriptions are posted on the Department’s website, please indicate in the statement of interest which project is of interest. Students seeking research opportunities with Statistics Department faculty during the academic year are advised to be entrepreneurial and proactive: identify congenial faculty whose research is appealing, request an opportunity to meet, and provide some indication of previous course work when asking for a project.

- Victor H. de la Peña
- Andrew Gelman (with Political Science)
- Shaw-Hwa Lo
- David Madigan
- Ioannis Karatzas (Mathematics)
- Liam Paninski
- Philip Protter
- Michael Sobel
- Daniel Rabinowitz
- Zhiliang Ying

**ASSOCIATE PROFESSORS**
- Jose Blanchet (with Industrial Engineering and Operations Research)
- Jingchen Liu
- Bodhisattva Sen
- Tian Zheng

**ASSISTANT PROFESSORS**
- John Cunningham
- Yang Feng
- Lauren Hannah
- Arian Maleki
- Sumit Mukherjee
- Marcel Nutz
- Peter Orbanz

**TERM ASSISTANT PROFESSORS**
- Yuchong Zhang
- Abolfazl Safikhani

**ADJUNCT PROFESSORS**
- Demissie Alemayehu
- Flavio Bartmann
- Guy Cohen
- Regina Dolgoarshinnykh
- Anthony Donoghue

- Hammou Elbarmi
- Birol Emir
- Irene Hueter
- James Landwehr
- Ha Nguyen

**LECTURERS IN DISCIPLINE**
- Banu Baydil
- Ronald Neath
- David Rios
- Gabriel Young

**MAJOR IN STATISTICS**

_The requirements for this program were modified in March 2016. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their options for major requirements._

The major should be planned with the director of undergraduate studies. Courses in which the grade of D has been received do not count toward the major. The requirements for the major are as follows:

**Mathematics and Computer Science Prerequisites**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
<tr>
<td>MATH UN1102</td>
<td>Calculus II</td>
</tr>
<tr>
<td>MATH UN1201</td>
<td>Calculus III</td>
</tr>
<tr>
<td>MATH UN2010</td>
<td>Linear Algebra</td>
</tr>
</tbody>
</table>

One of the following five courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMS W1007</td>
<td>Honors Introduction to Computer Science</td>
</tr>
<tr>
<td>ENGI E1006</td>
<td>Introduction to Computing for Engineers and Applied Scientists</td>
</tr>
<tr>
<td>COMS W1005</td>
<td>Introduction to Computer Science and Programming in MATLAB</td>
</tr>
<tr>
<td>STAT UN2102</td>
<td>Applied Statistical Computing</td>
</tr>
<tr>
<td>COMS W1004</td>
<td>Introduction to Computer Science and Programming in Java</td>
</tr>
</tbody>
</table>

Core courses in probability and statistics

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT UN1201</td>
<td>Calculus-Based Introduction to Statistics</td>
</tr>
<tr>
<td>STAT GU4203</td>
<td>PROBABILITY THEORY</td>
</tr>
<tr>
<td>STAT GU4204</td>
<td>Statistical Inference</td>
</tr>
<tr>
<td>STAT GU4205</td>
<td>Linear Regression Models</td>
</tr>
<tr>
<td>STAT GU4206</td>
<td>Statistical Computing and Introduction to Data Science</td>
</tr>
<tr>
<td>STAT GU4207</td>
<td>Elementary Stochastic Processes</td>
</tr>
</tbody>
</table>

Three approved electives in statistics or, with permission, a cognate field.

- Students preparing for a career in actuarial science are encouraged to replace STAT GU4205 Linear Regression Models with STAT GU4282 Linear Regression and
Time Series Methods, and should take as one of their electives STAT GU4281 Theory of Interest.

- Students preparing for graduate study in statistics are encouraged to replace two electives with MATH GU4061 Introduction To Modern Analysis I and MATH GU4062 Introduction To Modern Analysis II.

**CONCENTRATION IN STATISTICS**

Courses in which the grade of D has been received do not count towards the concentration. The requirements for the concentration are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT UN1101</td>
<td>Introduction to Statistics</td>
</tr>
<tr>
<td>STAT UN2102</td>
<td>Applied Statistical Computing</td>
</tr>
<tr>
<td>STAT UN2103</td>
<td>Applied Linear Regression Analysis</td>
</tr>
<tr>
<td>STAT UN2104</td>
<td>Applied Categorical Data Analysis</td>
</tr>
<tr>
<td>STAT UN3105</td>
<td>Applied Statistical Methods</td>
</tr>
<tr>
<td>STAT UN3106</td>
<td>Applied Data Mining</td>
</tr>
</tbody>
</table>

- Students may replace courses required for the concentration by approved Statistics Department courses.

**MAJOR IN DATA SCIENCE**

In response to the ever growing importance of "big data" in scientific and policy endeavors, the last few years have seen an explosive growth in theory, methods, and applications at the interface between computer science and statistics. The Statistics Department and the Department of Computer Science have responded with a joint-major that emphasizes the interface between the disciplines.

**Mathematical Prerequisites**

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH UN1101</td>
<td>Calculus I</td>
</tr>
<tr>
<td>MATH UN1102</td>
<td>Calculus II</td>
</tr>
<tr>
<td>MATH UN1201</td>
<td>Calculus III</td>
</tr>
<tr>
<td>MATH UN2010</td>
<td>Linear Algebra</td>
</tr>
</tbody>
</table>

**Statistics Required Courses**

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT UN1201</td>
<td>Calculus-Based Introduction to Statistics</td>
</tr>
<tr>
<td>STAT GU4203</td>
<td>PROBABILITY THEORY</td>
</tr>
<tr>
<td>STAT GU4204</td>
<td>Statistical Inference</td>
</tr>
<tr>
<td>STAT GU4205</td>
<td>Linear Regression Models</td>
</tr>
<tr>
<td>STAT GU4241</td>
<td>Statistical Machine Learning</td>
</tr>
</tbody>
</table>

**Statistics Electives**

Select two of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT UN3106</td>
<td>Applied Data Mining</td>
</tr>
<tr>
<td>STAT GU4206</td>

<td>Applied Data Science</td>
</tr>
<tr>
<td>STAT GU4224</td>
<td>Bayesian Statistics</td>
</tr>
<tr>
<td>STAT GU4242</td>
<td>Advanced Machine Learning</td>
</tr>
</tbody>
</table>

**Computer Science Introductory Courses**

Select one of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMS W1004</td>
<td>Introduction to Computer Science and Programming in Java</td>
</tr>
<tr>
<td>COMS W1005</td>
<td>Introduction to Computer Science and Programming in MATLAB</td>
</tr>
<tr>
<td>ENGI E1006</td>
<td>Introduction to Computing for Engineers and Applied Scientists</td>
</tr>
<tr>
<td>COMS W1007</td>
<td>Honors Introduction to Computer Science</td>
</tr>
</tbody>
</table>

And select one of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMS W3134</td>
<td>Data Structures in Java</td>
</tr>
<tr>
<td>COMS W3136</td>
<td>Data Structures with C/C++</td>
</tr>
<tr>
<td>COMS W3137</td>
<td>Honors Data Structures and Algorithms</td>
</tr>
</tbody>
</table>

**Computer Science Required Courses**

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMS W3203</td>
<td>Discrete Mathematics: Introduction to Combinatorics and Graph Theory</td>
</tr>
<tr>
<td>CSOR W4231</td>
<td>Analysis of Algorithms I</td>
</tr>
</tbody>
</table>

**Computer Science Electives**

Select three of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMS W3261</td>
<td>Computer Science Theory</td>
</tr>
<tr>
<td>COMS W4236</td>
<td>Introduction to Computational Complexity</td>
</tr>
<tr>
<td>COMS W4252</td>
<td>Introduction to Computational Learning Theory</td>
</tr>
<tr>
<td>COMS W4111</td>
<td>Introduction to Databases</td>
</tr>
<tr>
<td>COMS W4130</td>
<td>Principles and Practice of Parallel Programming</td>
</tr>
</tbody>
</table>

Any COMS W47xx course EXCEPT W4771

**MAJOR IN ECONOMICS-STATISTICS**

Please read Requirements for all Economics Majors, Concentrators, and Interdepartmental Majors in the Economics section of this Bulletin.

The major in Economics-Statistics provides students with a grounding in economic theory comparable to that of the general economics major, but also exposes students to a more rigorous and extensive statistics training. This program is recommended for students with strong quantitative skills and for those contemplating graduate studies in economics.

Two advisers are assigned for the interdepartmental major, one in the Department of Economics and one in the Department of Statistics. The economics adviser can only advise on economics requirements and the statistics adviser can only advise on statistics requirements.
Students who declare prior to Spring 2014:
The economics-statistics major requires a total of 53 points: 23 in economics, 15 points in statistics, 12 points in mathematics, and 3 points in computer science, as follows:

**Economics Core Courses**
Complete the Economics core courses.

**Economics Electives**
Select two electives at the 3000-level or above, of which no more than one may be a Barnard course.

**Mathematics**
Select one of the following sequences:
- MATH UN1101 Calculus I
- MATH UN1102 Calculus II
- MATH UN1201 Calculus III
- MATH UN2010 Linear Algebra
  or
- MATH UN1207 Honors Mathematics A
- MATH UN1208 Honors Mathematics B

**Statistics**
Select one of the following courses:
- STAT UN1201 Calculus-Based Introduction to Statistics
- STAT GU4203 PROBABILITY THEORY
- STAT GU4204 Statistical Inference
- STAT GU4205 Linear Regression Models

One elective from among courses numbered STAT GU4206 through GU4266.

**Computer Science**
Select one of the following courses:
- COMS W1004 Introduction to Computer Science and Programming in Java
- COMS W1005 Introduction to Computer Science and Programming in MATLAB
- COMS W1007 Honors Introduction to Computer Science
- STAT UN2102 Applied Statistical Computing

**Seminar**
ECON GU4918 Seminar In Econometrics

**Students who declare in Spring 2014 or beyond:**
In addition to the above requirements, students are required to take three ECON electives at the 3000-level or above.

**Major in Mathematics-Statistics**
The program is designed to prepare the student for: (1) a career in industries such as finance and insurance that require a high level of mathematical sophistication and a substantial knowledge of probability and statistics; and (2) graduate study in quantitative disciplines. Students choose electives in finance, actuarial science, operations research, or other quantitative fields to complement requirements in mathematics, statistics, and computer science.

**Mathematics**
Select one of the following sequences:
- MATH UN1101 Calculus I
- MATH UN1102 Calculus II
- MATH UN1201 Calculus III
- MATH UN2010 Linear Algebra
- MATH UN2500 Analysis and Optimization
  or
- MATH UN1101 Calculus I
- MATH UN1102 Calculus II
- MATH UN1205 Accelerated Multivariable Calculus
- MATH UN2010 Linear Algebra
- MATH UN2500 Analysis and Optimization
  or
- MATH UN1207 Honors Mathematics A
- MATH UN1208 Honors Mathematics B
- MATH UN2500 Analysis and Optimization

**Statistics required courses**
- STAT UN1201 Calculus-Based Introduction to Statistics
- STAT GU4203 PROBABILITY THEORY
- STAT GU4204 Statistical Inference
- STAT GU4205 Linear Regression Models

**And select one of the following courses:**
- STAT GU4207 Elementary Stochastic Processes
- STAT GU4262 Stochastic Processes for Finance
- STAT GU4264 Stochastic Processes and Applications
- STAT GU4265 Stochastic Methods in Finance

**Computer Science**
Select one of the following courses:
- COMS W1004 Introduction to Computer Science and Programming in Java
- COMS W1005 Introduction to Computer Science and Programming in MATLAB
- ENGI E1006 Introduction to Computing for Engineers and Applied Scientists
- COMS W1007 Honors Introduction to Computer Science

or an advanced Computer Science offering in programming

**Electives**
An approved selection of three advanced courses in mathematics, statistics, applied mathematics, industrial engineering and operations research, computer science, or approved mathematical methods courses in a quantitative discipline. At least one elective must be a Mathematics Department course numbered 3000 or above.

- Students interested in modeling applications are recommended to take MATH UN3027 Ordinary
Differential Equations and MATH UN3028 Partial Differential Equations

- Students interested in finance are recommended to include among their electives, MATH GR5010 Introduction to the Mathematics of Finance, STAT GU4261 Statistical Methods in Finance, and STAT GU4221 Time Series Analysis.
- Students interested in graduate study in mathematics or in statistics are recommended to take MATH GU4061 Introduction To Modern Analysis I and MATH GU4062 Introduction To Modern Analysis II.
- Students preparing for a career in actuarial science are encouraged to replace STAT GU4205 Linear Regression Models with STAT GU4282 Linear Regression and Time Series Methods, and to take among their electives STAT GU4281 Theory of Interest.

**MAJOR IN POLITICAL SCIENCE–STATISTICS**

The interdepartmental major of political science–statistics is designed for students who desire an understanding of political science to pursue advanced study in this field and who also wish to have at their command a broad range of sophisticated statistical tools to analyze data related to social science and public policy research.

Students should be aware of the rules regarding the use of the Pass/D/Fail option. Courses in which a grade of D has been received do not count toward the major requirements.

Political science–statistics students are eligible for all prizes reserved for political science majors.

Students take courses in mathematics and 31 or 34 points in political science, statistics, and computer science.

**Political Science**

Students must choose a primary subfield to study. Within the subfield, students must take a minimum of three courses, including the subfield’s introductory course. The subfields and their corresponding introductory courses are as follows:

- **American Politics:**
  - POLS UN1201 Introduction To American Government and Politics

- **Comparative Politics:**
  - POLS UN1501 Introduction To Comparative Politics

- **International Relations:**
  - POLS UN1601 Introduction to International Politics

- **Political Theory:**
  - POLS UN1101 Political Theory I

Additionally, students must take a 4-point seminar in their primary subfield.

**Research Methods**

Students must take the following two research methods courses:

- POLS GU4710 Principles of Quantitative Political Research
- or POLS UN3704 Data Analysis and Statistics for Political Science Research

- POLS GU4712 Analysis of Political Data

**Statistics**

Select one of the following two sequences.

- Sequence recommended for students preparing for graduate study in statistics.
  - MATH UN1101 Calculus I
  - MATH UN1102 Calculus II
  - MATH UN2010 Linear Algebra
  - STAT UN1201 Calculus-Based Introduction to Statistics

- Sequence recommended for students preparing to apply statistical methods in the social sciences.
  - STAT UN1101 Introduction to Statistics
  - STAT UN2102 Applied Statistical Computing
  - STAT UN2103 Applied Linear Regression Analysis
  - STAT UN2104 Applied Categorical Data Analysis
  - STAT UN3105 Applied Statistical Methods
  - STAT UN3106 Applied Data Mining

**Statistics elective:**

Students must take an approved elective in a statistics or a quantitatively oriented course in a social science.

**Sustainable Development**

**Departmental Office:** The Earth Institute, Office of Academic and Research Programs, Hogan, B-Level; http://sdev.ei.columbia.edu

**Co-Directors of Undergraduate Studies:**

Ruth DeFries, 212-851-1647; rd2402@columbia.edu
Jason Smerdon, 845-365-8493; jsmerdon@ldeo.columbia.edu

**Program Administrators:**

Natalie Unwin-Kuruneri, 212-854-8536; natalie@ei.columbia.edu
Cari Shimkus, 212-851-9350; cshimkus@ei.columbia.edu
Sustainable development is founded on the premise that human well-being should advance without irreparable harm to ecosystems and the vital services they provide, without depleting essential resources, and without posing risks to future generations. The term “sustainable” refers to managing the world’s economy in a manner consistent with the continued healthy functioning of Earth’s ecosystems, oceans, atmosphere and climate. In this context, “development” refers to continued social, political, and economic progress aimed at improving the well-being of the global community, especially for the poorest people.

**ACADEMIC PROGRAMS**

The Earth Institute—in collaboration with Columbia College, the School of General Studies, the School of International and Public Affairs, and the Departments of Earth and Environmental Science; Ecology, Evolution, and Environmental Biology; and Earth and Environmental Engineering—offers a major and a special concentration in sustainable development.

These programs are designed to: engage students in this emergent interdisciplinary discussion, provide knowledge of the theory and practice of sustainable development, stimulate a critical examination of historical and conceptual antecedents, provide experience in the complex challenges of sustainable development through direct engagement, and help them imagine alternative futures for our rapidly changing world. With help from the Earth Institute faculty, courses are specifically created to address the very real and complex issues of development as they relate to the interactions of the natural and social systems.

The major focuses heavily on the sciences and provides students with a working knowledge of issues on a range of interacting subject areas. After declaring the major, students are assigned an academic adviser from within the Earth Institute, who advises on class selection and career development. Students benefit from a support system of faculty, advisers, and program managers, and have access to the multitude of resources for internships, study abroad programs, and career development.

The special concentration is intentionally more flexible, but its structure allows students to benefit from the cross-disciplinary courses and to build the expertise to allow them to address the fundamental issue of how to move towards a trajectory of sustainability.

The sustainable development program is structured to ensure that students graduate with the skills and knowledge to enable them to advance professionally in the public, private, governmental, and nonprofit sectors, and to pursue advanced degrees. Those interested in sustainable development are encouraged to participate in lectures, conferences, and other programs sponsored by the Earth Institute.

**GRADING**

A letter grade of C- or better is needed in all program-related courses in order to satisfy the program requirements.

**SUSTAINABLE DEVELOPMENT FACULTY**

- Susana Adamo (Center for International Earth Information Network)
- Satyajit Bose (School of International and Public Affairs)
- Steve Cohen (The Earth Institute; School of International and Public Affairs)
- Lisa Dale (The Earth Institute; Ecology, Evolution, and Environmental Biology)
- Ruth DeFries (Ecology, Evolution, and Environmental Biology) (Co-Director)
- Stuart Gaffin (Center for Climate Systems Research)
- Michael Gerrard (Center for Climate Change Law and Columbia Law School)
- Adela Gondek (Ecology, Evolution and Environmental Biology)
- Giovani Graziosi (Ecology, Evolution and Environmental Biology)
- Radley Horton (Center for Climate Systems Research)
- Jacqueline Klopp (The Earth Institute)
- Upmanu Lall (Columbia Water Center; International Research Institute for Climate and Society)
- Peter Marcotullio (Architecture, Planning and Preservation)
- Kytt McManus (Ecology, Evolution and Environmental Biology)
- Dara Mendeloff (Center for International Earth Science Information Network)
- Rachel Moresky (Population and Family Health)
- John Mutter (Earth and Environmental Sciences; School of International and Public Affairs)
- Stephanie Pfirman (Lamont-Doherty Earth Observatory; Environmental Science; Barnard College)
- Robert Pollack (Biological Sciences)
- Peter Schlosser (Earth and Environmental Engineering)
- Elliott Sclar (The Earth Institute; Architecture, Planning, and Preservation; School of International and Public Affairs)
Major in Sustainable Development

The sustainable development foundation courses should be taken first and students should then work with the program adviser on further course selection and sequencing.

The major in sustainable development requires a minimum of 15 courses and a practicum as follows:

<table>
<thead>
<tr>
<th>Sustainable Development Foundation</th>
</tr>
</thead>
<tbody>
<tr>
<td>SDEV UN1900</td>
</tr>
<tr>
<td>SDEV UN2300</td>
</tr>
<tr>
<td>EESC UN2330</td>
</tr>
</tbody>
</table>

Basic Disciplinary Foundation

Select one of the following science sequences:

<table>
<thead>

SUMA PS4100 Sustainability Management

The Summer Ecosystem Experience for Undergraduates (SEE-U) *

Electives
Select one of the following courses:

INAF U4420 Oil, Rights and Development
SDEV UN3998 Sustainable Development Independent Study
SUMA PS4310 Practicum in Innovation Sustainability Leadership
SUMA PS4734 Earth Institute Practicum

Select two of the following:
Additional courses from analysis and solutions to complex problem
Additional courses from skills/actions
Senior Thesis Seminar (EESC BC3800 and EESC UN3901)
Upper division courses from the list approved by program adviser

Capstone Workshop
SDEV UN3280 Workshop in Sustainable Development

In addition to the requirements of the special concentration, students must complete a major.

The sustainable development foundation courses should be taken first and students should then work with the program adviser on further course selection and sequencing.

The special concentration in sustainable development requires a minimum of 9 courses and a practicum as follows:

**Sustainable Development Foundation**
SDEV UN1900 Introduction to Sustainable Development Seminar
SDEV UN2300 Challenges of Sustainable Development
EESC UN2330 Science for Sustainable Development

**Natural Science Systems**
Select one of the following courses:
CHEM UN1403 General Chemistry I (Lecture)
EEEB UN1001 Biodiversity
EEEB UN2002 Environmental Biology II: Organisms to the Biosphere
EESC UN1003 Climate and Society: Case Studies
EESC UN1011 Earth: Origin, Evolution, Processes, Future
EESC UN1600 Earth Resources and Sustainable Development
EESC UN2100 Earth’s Environmental Systems: The Climate System
EESC UN2200 Earth’s Environmental Systems: The Solid Earth System
PHYS UN1201 General Physics I

**Human Science Systems**
Select one of the following courses:
ANTH UN1002 The Interpretation of Culture
ECON UN1105 Principles of Economics
POLS UN1501 Introduction to Comparative Politics
POLS UN1601 Introduction to International Politics
SDEV UN2000 Introduction to Environmental Law
SDEV UN3400 Human Populations and Sustainable Development
SOCI UN1000 The Social World

**Analysis and Solutions to Complex Problems**
Select two of the following courses:
CIEE E3260 Engineering for developing communities
EAEE W4304 Closing the carbon cycle
ECIA W4100 Management and development of water systems
EESC BC3032 Agricultural and Urban Land Use: Human-Environment Interactions
EESC BC3045 Responding to Climate Change

URBAN STUDIES
503 Milbank Hall
212-854-4073
Department Assistant: Coretta Grant

MISSION
The Barnard–Columbia Urban Studies program enables students to explore and understand the urban experience in all of its richness and complexity. It recognizes the city as an amalgam of diverse peoples and their social, political, economic, and cultural interactions within a distinctive built environment. Students study the evolution and variety of urban forms and governance structures, which create opportunities for, as well as constrain, the exercise of human agency, individual and collective. They explore the place of the city in different historical and comparative contexts, as well as in the human imagination.

Major build an intellectual foundation that combines interdisciplinary coursework and a concentration of study within a single field. Through the two-semester junior colloquium, students study urban history and contemporary issues, and at the same time hone their interdisciplinary, analytical and research skills. This shared experience prepares them for their independent research project in their senior year. We encourage our majors to use New York City as a laboratory, and many courses draw on the vast resources of the city and include an off-campus experience.

STUDENT LEARNING OUTCOMES
Having successfully completed the major in Urban Studies, the student will be able to:

• Apply concepts or methods from more than one social science or adjacent discipline to analyze an urban issue or problem.
• Describe the distinctive social, cultural, and spatial features of cities and illustrate their impacts on the urban experience.
• Apply basic skills of empirical reasoning to an urban problem.
• Explain how the idea of the city varies in different historical and comparative contexts.
• Demonstrate familiarity with a particular disciplinary approach to the city as an object of study.
• Demonstrate understanding of the history and variety of urban forms and governance structures.
• Articulate a well-defined research question, conduct independent research using primary sources and a variety
of theoretical and methodological approaches, and write a substantive research paper.

- Communicate ideas effectively in written or oral form.
- Organize and present group research projects.

**Director:** Kimberley S. Johnson (Associate Professor, Political Science and Urban Studies)

**Columbia College Advisor:** Kathryn Yatrakis (Dean of Academic Affairs, Columbia College)

**Professors:** Liz Abzug (Adjunct)
**Assistant Professors:** Gergely Baics (History and Urban Studies), Deborah Becher (Sociology), Susan Fine (Adjunct), Cindy Gorn (Adjunct), Thomas Kamber (Adjunct), Meredith Linn (Term, Urban Studies), Aaron Passell (Term, Urban Studies), Tom Waters (Adjunct), Şevin Yildiz (Term, Urban Studies)

This program is supervised by the Committee on Urban Studies:

**Director:** Kimberley S. Johnson (Associate Professor, Political Science)

**Professor of Professional Practice:** Karen Fairbanks (Chair, Architecture)

**Columbia College Advisor:** Kathryn Yatrakis (Dean of Academic Affairs, Columbia College)

**Professors:** Ester Fuchs (International and Public Affairs, CU), Kenneth T. Jackson (History), Jose Moya (History), Elliot Sclar (Urban Planning and Public Policy), Sudhir Venkatesh (Sociology), David Weiman (Economics)

**Associate Professor:** Randall Reback (Economics), Samuel Roberts (History and Sociomedical Sciences).

**Assistant Professors:** Gergely Baics (History), Deborah Becher (Sociology), Catherine Fennell (Anthropology), Meredith Linn (Term, Urban Studies), Maria Rivera Maulucci (Education)

**MAJOR IN URBAN STUDIES**

The major in urban studies is comprised of six curricular requirements:

**Requirement A: Urban-Related Social Sciences (3 courses)**

*One course* dealing primarily with urban subject matter from each of three of the following disciplines: Anthropology, Economics, History, Political Science, Sociology.

Many courses offered through Urban Studies may count towards Requirement A. For example, URBS V3420 Introduction to Urban Sociology counts as a Sociology course, URBS UN3550 counts as a Political Science course, etc. Students must complete at least two of the Requirement A courses before taking the Junior Colloquia (see Requirement E, below). It is recommended that majors fulfill this requirement before their junior year.

**Requirement B: Urban-Related Non-Social Science (1 course)**

One course dealing primarily with urban subject matter from a discipline not listed above (such as Architecture, Art History, English, Environmental Science, etc.)

**Requirement C: Methods of Analysis (1 course)**

One course in methods of analysis, such as URBS UN3200.

**Requirement D: Specialization (5 courses)**

Five or more courses in a specialization from one of the participating departments. Barnard College students can double-count one A, B, or C course toward this requirement (only one of five), with the approval of the Director; Columbia College and General Studies students cannot double-count courses. Barnard majors also have specific requirements for each specialization, which are outlined in detail on the program’s website, urban.barnard.edu (http://urban.barnard.edu).

**Requirement E: Junior Colloquia (2 courses)**

- URBS UN3545 Junior Colloquium: The Shaping of the Modern City 4
- URBS UN3546 Junior Colloquium: Contemporary Urban Issues 4

**Requirement F: Senior Seminar (2 courses)**

A senior thesis written in conjunction with a two-semester research seminar, chosen from the following four options:

- URBS UN3992 - URBS V3993 Senior Seminar: The Built Environment and Senior Seminar: The Built Environment 8
- URBS UN3994 - URBS V3995 Senior Seminar: New York Field Research and Senior Seminar: New York Field Research 8
- URBS UN3996 - URBS V3997 Senior Seminar: International Topics in Urban Studies and Senior Seminar: International Topics in Urban Studies 8

A research seminar in the department of specialization. This option must be approved by the Program Director.

A complete list and courses that fulfill requirements A–E can be found on the program’s website, urban.barnard.edu (http://urban.barnard.edu).

Appropriate substitutions may be made for courses listed above with the approval of the Program Director.

There is no concentration in urban studies.
**VISUAL ARTS**

**Departmental Office:** 310 Dodge; 212-854-4065  
http://arts.columbia.edu/visual-arts

**Director of Undergraduate Studies:** Prof. Nicola López; ngl1@columbia.edu

**Director of Academic Administration:** Carrie Gundersdorf; cg2817@columbia.edu

**Visual Arts Program Assistant:** Alexander Barnett; ab3961@columbia.edu

The Visual Arts Program in the School of the Arts offers studio art classes as a component of a liberal arts education and as a means to an art major, concentration, and joint major with the Art History and Archaeology Department.

**REGISTRATION**

Visual Arts courses are open for on-line registration. If a Visual Arts class is full, visit arts.columbia.edu/undergraduate-visual-arts-program.

**DECLARING A MAJOR IN VISUAL ARTS**

The Visual Arts Undergraduate Program requires a departmental signature when declaring a major. After meeting with their college academic adviser, students should set up a meeting to consult with the director of undergraduate studies, Professor Nicola López. Please email Alex Barnett (ab3961@columbia.edu) for the current Requirements Worksheet for the Visual Arts Major, Art History and Visual Arts Interdepartmental Major or Visual Arts Concentration.

**PROFESSORS**

- Gregory Amenoff
- Jon Kessler
- Thomas Roma
- Sarah Sze
- Rirkrit Tiravanija
- Tomas Vu-Daniel

**ASSOCIATE PROFESSORS**

- Sanford Biggers
- Matthew Buckingham (Chair)
- Shelly Silver

**ASSISTANT PROFESSORS**

- Nicola López (Director of Undergraduate Studies)
- Leeza Meksin
- Aliza Nisenbaum (Director of Graduate Studies)

**GUIDELINES FOR ALL VISUAL ARTS MAJORS, CONCENTRATORS, AND INTERDEPARTMENTAL MAJORS**

A maximum of 12 credits from other degree-granting institutions may be counted toward the major, only with the approval of the director of undergraduate studies.

**MAJOR IN VISUAL ARTS**

A total of 35 points are required as follows:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>VIAR UN1000</td>
<td>Basic Drawing (formerly VIAR R1001)</td>
</tr>
<tr>
<td>VIAR UN2300</td>
<td>Sculpture I</td>
</tr>
</tbody>
</table>

Five additional VIAR 3-point studio courses (15 points)

VIAR UN3800 Seminar in Contemporary Art Practice

**Senior Thesis consists of the following four courses:**

- VIAR UN3900 Senior Thesis I
- VIAR UN3910 Senior Thesis II and Visiting Critic I (formerly VIAR R3901 and VIAR R3921)

**Art History (3 points)**

One 20th-century Art History 3-point course or equivalent, such as:

- AHIS UN2405 Twentieth-Century Art (formerly AHIS W3650)

**Senior Thesis**

Before taking the Senior Thesis, majors are advised to complete 18 points of required Visual Arts courses. Senior Thesis consists of four 2-point courses taken over two semesters: VIAR UN3900 Senior Thesis I- VIAR UN3911 Senior Thesis II (4 points) and VIAR UN3910 Visiting Critic I- VIAR UN3911 Visiting Critic II (4 points). (Senior Thesis I and Visiting Critic I run concurrently and Senior Thesis II and Visiting Critic II run concurrently).

Visual arts majors must sign up for a portfolio review to enroll in Senior Thesis. Portfolio reviews are scheduled in April preceding the semester for which students seek entry. Portfolios are evaluated by the director of undergraduate studies and a faculty committee. After each semester of Senior Thesis, a faculty committee evaluates the work and performance completed.

**MAJOR IN ART HISTORY AND VISUAL ARTS**

A total of 46 points are required as follows:

**Art History (25 points)**
AHIS UN3000 Majors’ Colloquium: the Literature and Methods of Art History (formerly VIAR W3895)

Seven additional art history (AHIS) 3-point lecture courses:
- At least one course in three of four historical periods, as listed below
- An additional two courses drawn from at least two different world regions, as listed below
- Two additional lectures of the student’s choice

Visual Arts (21 points)

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>VIAR UN1000</td>
<td>Basic Drawing (formerly VIAR R1001)</td>
</tr>
<tr>
<td>VIAR UN2300</td>
<td>Sculpture I (formerly VIAR R3330)</td>
</tr>
</tbody>
</table>

Five additional VIAR 3-point studio courses (15 points)

- Up to two of the seven 3-point courses in art history may be replaced by a specifically related course in another department with approval of the adviser.

Students electing the combined major should consult with the director of undergraduate studies in Visual Arts, as well as with the undergraduate program coordinator in the Art History and Archaeology Department.

It is recommended that students interested in this major begin the requirements in their sophomore year. In the senior year, students undertake either a seminar in the Department of Art History and Archaeology or a Senior Thesis in Visual Arts (pending approval by the Visual Arts Department).

NOTE: Chronological divisions are approximate. In case of ambiguities about course eligibility to fill the requirement, consult the director of undergraduate studies in Art History and Archaeology.

Historical Periods
- Ancient (up to 400 CE/AD)
- 400 - 1400
- 1400 - 1700
- 1700 - present

World Regions
- Africa
- Asia
- Europe, North America, Australia
- Latin America
- Middle East

Concentration in Visual Arts
A total of 21 points are required as follows:

Visual Arts (18 points)

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>

Women’s and Gender Studies

Program Office: 763 Schermerhorn Extension; 212-854-3277; 212-854-7466 (fax)
http://irwgs.columbia.edu/

Director of Undergraduate Studies: Prof. Christia Mercer, 707 Philosophy Hall; 212-854-3190; cm50@columbia.edu

Located within the Institute for Research on Women, Gender, and Sexuality and taught in cooperation with Barnard College’s Department of Women’s, Gender and Sexuality Studies, the program in women’s and gender studies provides students with a culturally and historically situated, theoretically diverse understanding of feminist scholarship and its contributions to the disciplines. The program introduces students to feminist discourse on the cultural and historical representation of nature, power, and the social construction of difference. It encourages students to engage in the debates regarding the ethical and political issues of equality and justice that emerge in such discussion, and links the questions of gender and sexuality to those of racial, ethnic, and other kinds of hierarchical difference.

Through sequentially organized courses in women’s, gender, and sexuality studies, as well as required discipline-based courses in the humanities and social sciences, the major provides a thoroughly interdisciplinary framework, methodological training, and substantive guidance in specialized areas of research. Small classes and mentored thesis-writing give students an education that is both comprehensive and tailored to individual needs. The major culminates in a thesis-writing class, in which students undertake original research and produce advanced scholarship.

Graduates leave the program well prepared for future scholarly work in women’s, gender, and sexuality studies, as well as for careers and future training in law, public policy, social work, community organizing, journalism, and professions in which there is a need for critical and creative interdisciplinary thought.
Major in Women’s and Gender Studies

The requirements for this program were modified on September 22, 2014. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

Students should plan their course of study with the undergraduate director as early in their academic careers as possible. The requirements for the major are:

WMST UN1001 Introduction to Women’s and Gender Studies
or WMST UN3125 Introduction to Sexuality Studies
WMST UN3311 Colloquium in Feminist Theory
WMST UN3514 Historical Approaches to Feminist Questions
WMST UN3521 Senior Seminar I
WMST UN3915 Gender and Power in Transnational Perspective

Six approved Elective Courses on women, gender, and/or sexuality in consultation with the director of undergraduate studies.*

* Electives will be selected in coordination with the director of undergraduate studies to best suit students’ specific interests and to provide them with the appropriate range of courses, whether their focus is ethnic studies, pre-med, pre-law, sociology, public health, queer studies, visual culture, literature, or another area of interest. Students are encouraged to take a broad interdisciplinary approach. The director of undergraduate studies will help students fine-tune their academic program in conjunction with IRWGS courses, cross-listed courses, and other courses offered at Columbia.

Concentration in Women’s and Gender Studies

The requirements for this program were modified on September 22, 2014. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

The same requirements as for the major, with the exception of WMST UN3521 Senior Seminar I.

Special Concentration for Those Majoring in Another Department

The requirements for this program were modified on September 22, 2014. Students who declared this program before this date should contact the director of undergraduate studies for the department in order to confirm their correct course of study.

WMST UN1001 Introduction to Women’s and Gender Studies; plus four additional approved elective courses on gender.

Yiddish Studies

Departmental Office: 414 Hamilton; 212-854-3202
https://germanic.columbia.edu/

Director of Undergraduate Studies: Prof. Tobias Wilke, 412 Hamilton; 212-854-5344; tw2284@columbia.edu

Language Instruction: Jutta Schmiers-Heller, 403A Hamilton; 212-854-4824; js2331@columbia.edu (rak23@columbia.edu)

The Department of Germanic Languages and Literatures is considered one of the very best in the country. Many of the faculty specialize in the study of German literature and culture from 1700 to the present. German majors acquire proficiency in examining literary, philosophical, and historical texts in the original, as well as critical understanding of modern German culture and society. Particular attention is given to German-speaking traditions within larger European and global contexts. Courses taught in translation build on Columbia’s Core Curriculum, thereby allowing students to enroll in upper-level seminars before completing the language requirement.

All classes are taught as part of a living culture. Students have ample opportunities to study abroad, to work with visiting scholars, and to take part in the cultural programs at Deutsches Haus. In addition, the department encourages internships with German firms, museums, and government offices. This hands-on experience immerses students in both language and culture, preparing them for graduate study and professional careers.

Upon graduation, German majors compete successfully for Fulbright or DAAD scholarships for research in Germany or Austria beyond the B.A. degree. Our graduating seniors are highly qualified to pursue graduate studies in the humanities and social sciences, as well as professional careers. Former majors and concentrators have gone on to careers in teaching, law, journalism, banking and consulting, international affairs, and communications.

German literature and culture courses are taught as seminars integrating philosophical and social questions. Topics include romanticism, revolution, and national identity; German intellectual history; minority literatures; Weimar cinema; German-Jewish culture and modernity; the Holocaust and memory; and the history and culture of Berlin. Classes are small, with enrollment ranging from 5 to 15 students.

The department regularly offers courses in German literature and culture in English for students who do not study the German language. The department also participates in
Columbia’s excellent program in comparative literature and society.

**ADVANCED PLACEMENT**

The department grants 3 credits for a score of 5 on the AP German Language exam, which satisfies the foreign language requirement. Credit is awarded upon successful completion of a 3000-level (or higher) course with a grade of B or higher. This course must be for at least 3 points of credit and be taught in German. Courses taught in English may not be used for language AP credit. The department grants 0 credits for a score of 4 on the AP German Language exam, but the foreign language requirement is satisfied.

**THE YIDDISH STUDIES PROGRAM**

The program in Yiddish studies offers a track in both the undergraduate major and concentration, in addition to graduate studies leading to the Ph.D. The graduate program is considered one of the world’s most important, with its graduates holding many of the major university positions in the field. In both the undergraduate and graduate program, emphasis is placed not merely on acquiring linguistic proficiency and textual study, but also viewing Yiddish literature in a larger cultural and interdisciplinary context.

Students work with faculty in Germanic languages, Jewish studies, history, and Slavic studies to broaden their understanding of the literature, language, and culture of Eastern European Jewry. Classes are small, and instruction is individualized and carefully directed to ensure that students gain both a thorough general grounding and are able to pursue their own particular interests in a wide-spanning field. The program also offers classes taught in translation for students who do not study Yiddish.

**THE GERMAN LANGUAGE PROGRAM**

First- and second-year German language courses emphasize spoken and written communication, and provide a basic introduction to German culture. Goals include mastery of the structure of the language and enough cultural understanding to interact comfortably with native speakers.

After successfully completing the elementary German sequence, GERM UN1101 Elementary German Language Course, I-GERM UN1102 Elementary German Language Course, II, students are able to provide information about themselves, their interests, and daily activities. They can participate in simple conversations, read edited texts, and understand the main ideas of authentic texts. By the end of GERM UN1102 Elementary German Language Course, II, students are able to write descriptions, comparisons, and creative stories, and to discuss general information about the German-speaking countries.

The intermediate German sequence, GERM UN2101 Intermediate German I-GERM UN2102 Intermediate German II, increases the emphasis on reading and written communication skills, expands grammatical mastery, and focuses on German culture and literary texts. Students read short stories, a German drama, and increasingly complex texts. Regular exposure to video, recordings, the World Wide Web, and art exhibits heightens the cultural dimensions of the third and fourth semesters. Students create portfolios comprised of written and spoken work.

Upon completion of the second-year sequence, students are prepared to enter advanced courses in German language, culture, and literature at Columbia and/or at the Berlin Consortium for German Studies in Berlin. Advanced-level courses focus on more sophisticated use of the language structure and composition (GERM UN3001 Advanced German, I-GERM UN3002 Advanced German II: Vienna); on specific cultural areas; and on literary, historical, and philosophical areas in literature-oriented courses (GERM UN3333 Introduction To German Literature [In German]).

**IN FULFILLMENT OF THE LANGUAGE REQUIREMENT IN GERMAN**

Students beginning the study of German at Columbia must take four terms of the following two-year sequence:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>GERM UN1101</td>
<td>Elementary German Language Course, I</td>
</tr>
<tr>
<td>GERM UN1102</td>
<td>Elementary German Language Course, II</td>
</tr>
<tr>
<td>GERM UN2101</td>
<td>Intermediate German I</td>
</tr>
<tr>
<td>GERM UN2102</td>
<td>Intermediate German II</td>
</tr>
</tbody>
</table>

Entering students are placed, or exempted, on the basis of their College Board Achievement or Advanced Placement scores, or their scores on the placement test administered by the departmental language director. Students who need to take GERM UN1101 Elementary German Language Course, I-GERM UN1102 Elementary German Language Course, II may take GERM UN1125 Accelerated Elementary German I & II as preparation for GERM UN2101 Intermediate German I.

**UNIVERSITY STUDY IN BERLIN DEUTSCHES HAUS**

Deutsches Haus, 420 West 116th Street, provides a center for German cultural activities on the Columbia campus. It sponsors lectures, film series, and informal gatherings that enrich the academic programs of the department. Frequent events throughout the fall and spring terms offer students opportunities to practice their language skills.
**GRADING**

Courses in which a grade of D has been received do not count toward the major or concentration requirements.

**DEPARTMENTAL HONORS**

Normally no more than 10% of graduating majors receive departmental honors in a given academic year. For the requirements for departmental honors, see the director of undergraduate studies.

**PROFESSORS**

- Mark Anderson
- Stefan Andriopoulos
- Claudia Breger
- Jeremy Dauber
- Andreas Huyssen (emeritus)
- Harro Müller
- Dorothea von Mücke
- Oliver Simons (Chair)

**ASSISTANT PROFESSOR**

- Tobias Wilke

**SENIOR LECTURERS**

- Wijnje de Groot (Dutch)
- Jutta Schmiers-Heller

**LECTURERS**

Agnieszka Legutko (Yiddish)

**MAJOR IN GERMAN LITERATURE AND CULTURAL HISTORY**

The goal of the major is to provide students with reasonable proficiency in reading a variety of literary, philosophical, and historical texts in the original and, through this training, to facilitate a critical understanding of modern German-speaking cultures and societies. Students should plan their program of study with the director of undergraduate studies as early as possible. Competence in a second foreign language is strongly recommended, especially for those students planning to attend graduate school.

The major in German literature and cultural history requires a minimum of 30 points, distributed as follows:

- **GERM UN3001** Advanced German, I
- **GERM UN3333** Introduction To German Literature [In German]

Select two of the following survey courses in German literature and culture (at least one of these must focus on pre-20th-century cultural history):

- **GERM UN3443** Romanticism, Revolution, Realism [In German]

**GERM UN3444** Decadence, Modernism, Exile [In German]

**GERM UN3445** German Literature After 1945 [In German]

One course in German intellectual history

**GERM UN3991** Senior Seminar

The remaining courses to be chosen from the 3000- or 4000-level offerings in German and Comparative Literature–German

**Senior Thesis**

A senior thesis is not required for the major. Students interested in a senior thesis or research project may do so through independent study with a faculty member over one or two semesters.

**MAJOR TRACK IN YIDDISH STUDIES**

First- and second-year Yiddish language courses emphasize spoken and written communication, and provide a basic introduction to Eastern European Jewish culture. Goals include mastery of the structure of the language and enough cultural understanding to interact comfortably with native speakers.

After second-year Yiddish language courses are completed, students should feel sufficiently comfortable to begin to work with Yiddish literature in the original. Upper-level undergraduate/graduate courses are designed to accommodate students with a range of Yiddish language experience, and intensive language summer study is also encouraged for improvement in language acquisition and comprehension.

The goal is to provide students with reasonable proficiency in reading a variety of literary, philosophical, and historical texts in the original and, through this training, to provide them with a critical understanding of Yiddish-speaking culture and society. Students should plan their program of study with the director of undergraduate studies as early as possible.

The major track in Yiddish studies requires a minimum of 30 points, distributed as follows:

1. At least three courses of intermediate/advanced language study;
2. Two courses in Yiddish literature, at least one of which is not taught in translation;
3. One course in the senior seminar or independent study;
4. Four related courses, at least one of which is in medieval or modern Jewish history.

A senior thesis is required for the track in Yiddish studies. Students interested in a senior thesis or research project may do so through independent study with a faculty member over one or two semesters.
Concentration in German Literature and Cultural History

The concentration in German literature and cultural history requires a minimum of 21 points in German courses numbered GERM UN3001 and above, including the senior seminar GERM UN3991 Senior Seminar, which may be taken in the junior or senior year.

Concentration Track in Yiddish Studies

The concentration track in Yiddish studies requires a minimum of 24 points, distributed as follows:

1. At least three courses of beginning/intermediate language study
2. Two courses in Yiddish literature
3. Three related courses, at least one of which is in medieval or modern Jewish history

Academic Policies

Academic policies are set by the Faculty of Arts and Sciences and the academic administration of individual schools within the Arts and Sciences.

Students in the School of General Studies are expected to familiarize themselves with GS policies. Students seeking clarity on academic policies relevant to or beyond those stated on the GS website should consult with their GS advisors.

The Joint Committee on Instruction (COI) for GS and Columbia College reviews and sets curriculum and academic policies, while the GS Committee on Academic Standing (CAS) ensures that all students comply with the academic and administrative policies of the School. See the School Governance (https://gs.columbia.edu/school-governance) page for further information.

Academic Honors

Dean’s List

Undergraduates who complete the fall or spring terms with a 3.6 GPA or higher are named to the Dean’s List, provided they have completed at least three courses (nine or more points) for a letter grade. Disciplinary probation, as well as marks of W, INC, AR, F, or D, disqualify a student from consideration. Students who have been found responsible by the Office of Student Conduct and Community Standards for a violation of academic integrity are not eligible for the Dean’s List during the term of the sanction. There is no Dean’s List for the summer term.

Honor Society

The Honor Society of the School of General Studies was formed to celebrate exceptional GS undergraduates committed to intellectual discovery and academic excellence. The only group of its kind at the University, the Honor Society provides a unique opportunity for students to interact with other members, faculty associates, and alumni at events during the year. Criteria for membership include a GPA of at least 3.8, a minimum of 30 completed Columbia points, and a minimum of 60 total completed points. Students may not apply for membership. A ceremony of induction is held each semester, and members continue to be part of the Society after graduation.

School Honors

The designations cum laude, magna cum laude, and summa cum laude are academic honors determined by an undergraduate student’s cumulative GPA at the time of graduation based on coursework completed exclusively at Columbia University once a student has matriculated within the School of General Studies. To be eligible for school honors, a student must have completed at least 64 points of coursework at General Studies. For cum laude, a student must have a minimum cumulative GPA of 3.5; for magna cum laude, a minimum of 3.67; for summa cum laude, a minimum of 3.9 is required. The honor is noted on a student’s diploma and transcript.

Departmental Honors

Many departments award honors to undergraduate majors who complete their major requirements with distinction. Eligibility for departmental honors varies among departments; students should consult individual departments for further information. Departmental honors are noted on a student’s transcript but not on the diploma. Departmental honors are not given for concentrations.

Phi Beta Kappa

By action of the Senate of the United Chapters of Phi Beta Kappa in March 1952, degree candidates in the School of General Studies are eligible for election to Phi Beta Kappa and membership in the Columbia (Delta) Chapter. The selection of this group (up to ten percent of the graduating class) is based not only on academic achievement, but also on evidence of intellectual promise, character, and achievement outside the classroom. Academic achievement is measured by strength and rigor of program as well as grades and faculty recommendations. Students may not apply for Phi Beta Kappa.

As with school prizes, October and February graduates are considered along with students graduating in May. Election to Phi Beta Kappa is noted on a student’s transcript.

The General Studies Section of the Delta Chapter of Phi Beta Kappa annually presents the Phi Beta Kappa Award to a GS senior elected to Phi Beta Kappa who, during his or her academic career, has best exemplified intellectual integrity,
tolerance for others’ views, and a broad range of academic interests.

**SCHOOL PRIZES**

Each year the School of General Studies awards prizes for academic excellence as well as outstanding leadership. Current prizes include the following:

- The Albert E. Gollin Prize, awarded to a junior with promising talent in sociology, media, or journalism
- The Medaglia D’Oro Prize for excellence in Italian studies
- The John Angus Burrell Memorial Prize for distinction in English and comparative literature
- The Arthur Ross Foundation Award for excellence in political science
- The Benedetto Marraro Prize for distinction in Italian studies
- The Antonio G. Mier Prize for excellence in Spanish
- The Stacy M. and Russell D. Paul Prize for excellence in the study of psychology
- The Jennifer A. Pack Prize for excellence in the study of psychology
- The Lillian L. Hacker Prize for excellence in the study of sociology
- The Judith Lee Stronach Memorial Prize for outstanding contributions in art history or archaeology
- The Dean’s Citation for leadership and outstanding service to the School (for graduating seniors only)
- The Alumni Key Award for academic achievement and outstanding service to the School (for graduating seniors only)
- The Dean’s Prize in Economics for excellence in the study of economics
- The Dean’s Prize in Anthropology for excellence in the study of anthropology
- The Dean’s Prize in Creative Writing for excellence in the study of creative writing
- The Herbert H. Lehman Prize for Excellence in history, given to a student with an outstanding record of accomplishment in history courses at Columbia (preference is given to those with substantial coursework in U.S. History)
- The Phi Beta Kappa Award for outstanding scholarship

**ACADEMIC INTEGRITY AND COMMUNITY STANDARDS**

All University faculty, students, and staff are responsible for compliance with the Rules of University Conduct. Copies of the full text are available in Essential Policies for the Columbia Community (http://www.essential-policies.columbia.edu) and at the Office of the University Senate, 406 Low Memorial Library.

Students in the School of General Students are part of a wider intellectual and social community that holds itself to the highest standards of tolerance, respect, integrity, and civility. Students who violate the standards of the University community, in academic or social behavior, are subject to disciplinary action. The continuance of each student upon the rolls of the University, the receipt of academic points, graduation, and the conferring of any degree or the granting of any certificate are strictly subject to the disciplinary powers of the University.

Disciplinary authority of the University is vested by the Trustees in the President and Provost and, subject to their reserved powers, in the dean of each faculty. The dean and his staff are given full responsibility for establishing the standards of behavior for all General Studies students beyond the regulations included in the Rules of University Conduct and for defining procedures by which discipline will be administered.

**CIVIL BEHAVIOR AND COMMUNITY STANDARDS**

It is expected that in and out of the classroom, on and off campus, each student in the School of General Studies will act in an honest way and will respect the rights of others. Freedom of expression is an essential part of University life, but it does not include intimidation, threats of violence, or the inducement of others to engage in violence or in conduct which harasses others. Conduct which threatens or harasses others because of their race, sex, religion, disability, sexual orientation, or for any other reason is unacceptable and will be dealt with very severely. For all to benefit from the diversity to be found at Columbia, all must live up to these standards.

**HONOR CODE AND HONOR PLEDGE**

In 2013 the student councils of the undergraduate schools of Columbia University, on behalf of the whole student body, created an Honor Code to uphold the maintenance of academic integrity as a fundamental and jointly held responsibility for all students. The councils also created an Honor Pledge, which all students recite and affirm when they matriculate as Columbia students. The texts of the Honor Code and Honor Pledge may be found here (p. 388).

**ACADEMIC INTEGRITY**

It is essential to the academic integrity and vitality of this community that individuals do their own work and properly acknowledge the circumstances, ideas, sources, and assistance upon which that work is based. Academic honesty in class
assignments, term papers, examinations, laboratory reports, and computer projects is expected of all students.

Because intellectual integrity is the hallmark of educational institutions, academic dishonesty is one of the most serious offenses that a student can commit at Columbia. It may be punishable by suspension or dismissal from the School of General Studies.

Students who are unsure about the proper presentation of their own independent work should consult with their instructor or academic advisor.

Academic dishonesty includes but is not limited to the following:

1. **Plagiarism**: Failure to cite or otherwise acknowledge ideas or phrases used in any paper, exercise, or project submitted in a course but gained from another source, such as a published text, another person’s work, or materials on the Web.

2. **Self-plagiarism**: The submission of one piece of work in more than one course without the explicit permission of the instructors involved.

3. **Misrepresentation of authorship**: The submission of work as one’s own which has been prepared by or purchased from another.

4. **Cheating on examinations or tests**: To give or receive assistance from written material, another person, his or her paper, or any other source during an examination or test, to hire or attempt to hire someone to take your exam for you.

5. **Falsification or misrepresentation of information** in coursework or lab work, on any application, petition, or forms submitted to the school.

6. **Fabrication of credentials**, in materials submitted as part of an admissions application or materials submitted to the University for administrative or academic review.

7. **Violating the limits of acceptable collaboration** in coursework set by a faculty member or department.

8. **Removing, hiding, or altering library materials** in order to hinder the research of other students.

9. **Facilitating academic dishonesty** by enabling another to engage in such behavior.

10. **Lying to a faculty member, dean, or advisor** about circumstances related to your academic work or failure to complete academic work.

Ignorance of the School’s policy concerning academic dishonesty shall not be a defense in any disciplinary proceedings.

The School of General Studies holds each member of the community responsible for understanding these principles and for abiding by them.

**DISCIPLINARY CHARGES**

Students, faculty members, or Columbia staff who have concerns or complaints about a student’s behavior, including issues pertaining to academic integrity, are asked to contact the Dean of Students or the Office of Student Conduct and Community Standards (SCCS) to discuss the concern. Based on the conversation with the complainant, the Dean of Students, in consultation with the SCCS, will determine whether or not the complaint warrants an informal meeting with the student or a formal disciplinary hearing. The Dean of Students will review the options and the procedures with the complainant. If a formal disciplinary hearing is to be held, the Dean of Students will forward the complaint to the SCCS who will in turn contact the student, explain the procedure, and set up an appropriate time and place for the disciplinary hearing.

**DISCIPLINARY HEARING**

A disciplinary hearing is held to discuss the allegations with the student, and when necessary, to determine appropriate sanctions. Present at the hearing are the charged student, a member of the SCCS, and a dean from the School of General Studies. On the strength of the evidence and the student’s response, the SCCS representative and the dean from the School of General Studies will reach a determination and notify the student of their decision after the hearing has concluded.

**SANCTIONS**

For students found guilty of academic dishonesty or misconduct, the sanctions range from warning to probation, suspension, or dismissal. Because the SCCS wants to ensure that the disciplinary process is also an educational process, every effort is made to refer students to appropriate resources and support services that will help them learn from the experience. In cases of academic dishonesty, the disciplinary response is deliberately separate from the decision an instructor makes concerning how the breach of the academic contract affects a student’s grade. In cases that have been referred for disciplinary action through the Dean’s Discipline process, a student may not drop or withdraw from the course in question. If a student is found guilty of a second violation of University regulations, academic dishonesty, or inappropriate behavior, that student is, in most cases, dismissed. Students have the right to appeal the decision of the disciplinary committee. Appeals must be submitted in writing within the deadline given in the letter informing the student of the disciplinary action taken. Appeals must be addressed to the Dean of the School.

**CONFIDENTIALITY**

In general, under University policy and federal law, information about dean’s disciplinary proceedings against a student is confidential and may not be disclosed to others.
SEXUAL ASSAULT, SEXUAL HARASSMENT, AND GENDER-BASED HARASSMENT POLICIES

For information on the procedures for handling such complaints, please refer to the Gender-Based Misconduct Policies for Students website (http://www.columbia.edu/cu/dpsa).

If the alleged misconduct involves sexual discrimination, the complaint should be filed with the Associate Provost for Equal Opportunity and Affirmative Action. To report an incident involving sexual assault, sexual harassment, or gender-based harassment, students should complete this form (https://cm.maxient.com/reportingform.php?ColumbiaUniv&layout_id=5) or contact Student Services for Gender-Based and Sexual Misconduct at 212-854-1717.

INFORMAL COMPLAINTS CONCERNING MISCONDUCT

Any instructor, officer, staff member, or student who chooses not to put a complaint in writing can instead make an informal complaint. In these cases, the GS advisor usually discusses the matter with the student. In these situations, the student will receive a formal warning, which will be noted in the student’s educational file, along with any recommendations made to the student. Such warnings will be taken into account if and when similar complaints are made in the future, and a pattern of informal complaints can lead to formal disciplinary action.

ACADEMIC COMPLAINTS AND GRIEVANCE PROCEDURES

Occasionally students experience dissatisfaction with specific courses or instructors, find themselves in an untenable situation in a course due to an interaction with an instructor, or have an academic grievance. Columbia faculty hold themselves to the highest professional standards. The rights, duties, and obligations are delineated in the University Statutes and in the Faculty Handbook and can be found online (http://www.columbia.edu/cu/vpaa/handbook/obligations.html).

Consistent with those duties and obligations, conduct that is grievable includes:

- Failure to show appropriate respect in an instructional setting for the rights of others to hold opinions differing from their own
- Misuse of faculty authority to promote a political or social cause within an instructional setting
- Conduct in the classroom or another instructional setting that adversely affects the learning environment

In such cases, students are advised to discuss their grievances with their GS advisors. Depending on the nature of the complaint, a student may be counseled to discuss the matter directly with the instructor, or with the director of undergraduate studies or chair of a given department or program. The School will direct a student to the appropriate office if the University has specific university-wide procedures that govern the matter. Links to those offices, resources and procedures are provided below. Students should raise any concerns not later than thirty days after the end of the semester in which the alleged misconduct took place. The School will make every effort to consider and address the student’s complaint quickly, ordinarily within thirty days.

Advisors recognize and respect a student’s need for confidentiality when discussing certain kinds of complaints, so students should make sure to bring up any concerns about confidentiality when speaking with their advisors about grievances. While advisors within the Office of the Dean of Students counsel students on appropriate avenues for addressing or resolving their complaints, and often can help to facilitate a resolution, students should understand that advisors are not in a position to arbitrate grievances. The Ombuds Office is an additional and alternative confidential source available to students to advise on various avenues of redress and can mediate a dispute, if both parties agree. Ombuds officers, however, do not have authority to adjudicate any complaint.

While resolutions are most often reached informally, formal procedures for addressing grievances do exist and in some cases may be the only way to adjudicate a particular complaint. Grievances related to faculty members outside the Arts & Sciences will be referred to the appropriate division or school within the University. Resolutions to complaints about academic assessments or grade disputes are usually handled informally (see Grade Appeals and Grade Changes; formal grievances about academic assessments are handled by the faculty within the appropriate department or program.

If a student believes that a faculty member has acted in an unprofessional manner, he or she should first speak with his or her advising dean, who will work with the student to review the claim, establish the substance of the complaint, and come to a decision about how best to address the concerns raised by the student. If appropriate, the advising dean will refer the student to the GS Dean of Academic Affairs who, working with relevant faculty, will investigate the case fully and attempt to resolve the matter. The dean will work with the student and the faculty to determine whether there has been a procedural breach and, if so, take immediate steps to formulate a remedy in consultation with the Dean of the School of General Studies.

The grievance procedures available through the office of the Vice President for Arts and Sciences are intended to complement, not substitute for, the procedures available in each of the Schools, and they treat a considerably more limited range of issues. They are designed to address only those cases involving professional misconduct by a faculty member of Arts and Sciences in an instructional setting in which there were significant irregularities or errors in applying School procedures. Information on this process can be found on the website of the Office of the Executive Vice President for Arts.
and Sciences. If the instructor is not a member of the Arts and Sciences faculty, the advising dean will assist the student to identify the appropriate faculty and the right procedures. Each school has its own grievance procedures and they are posted on individual schools’ websites.

If at any time a student believes the process is not working in a constructive or timely fashion, the student may always contact the Dean of the School of General Studies.

The University has alternate procedures to address other specific concerns:

- In situations involving allegations of discrimination and/or harassment, the complainant should consult the Student Policies and Procedures on Discrimination and Harassment (http://www.essential-policies.columbia.edu/student-policies-and-procedures-discrimination-and-harassment).
- In situations involving gender-based and sexual misconduct, students should consult the Gender-Based Misconduct Policies for Students (http://www.columbia.edu/cu/dpsa).
- In situations involving concern about scientific or scholarly misconduct, students should consult the Columbia University Institutional Policy on Misconduct in Research (http://www.columbia.edu/cu/vpaa/handbook/appendixc.html).

Ombuds Office

Students are also encouraged to seek advice regarding handling academic complaints at the Ombuds Office, a neutral and confidential resource for informal conflict resolution. For further information, contact the Ombuds Office, 660 Schermerhorn Extension; (212) 854-1234; ombuds@columbia.edu.

Academic Review

At the end of each term the Committee on Academic Standing reviews the records of all students enrolled in the School of General Studies to determine whether academic progress is being made. Students who are making satisfactory academic progress are considered to be in good standing, whereas those in academic difficulty are subject to academic discipline.

Students ending the term with more than two incompletes are not usually permitted to enroll in the next semester without the explicit permission of the Committee on Academic Standing. Students with one or more incompletes are typically not permitted to enroll in summer session or study abroad. Students who withdraw from a semester after the eleventh week of classes cannot return for the following semester without the approval of the Committee on Academic Standing.

Good Standing

To be considered in good standing, undergraduates must maintain semester and cumulative grade point averages of 2.0 or higher, have no marks of UW (Unofficial Withdrawal) or AR (Administrative Referral), no unauthorized incompletes, incur no failing grades, and make satisfactory academic progress (see “Failure to Make Academic Progress” below). Students with multiple withdrawals, or who are placed on probation or required to withdraw for either academic or disciplinary reasons, are not in good standing. Only students in good standing are eligible for study away from Columbia, study abroad, or to hold officer positions within the GS Student Council.

Failure to Make Academic Progress

Consequences for failing to make academic progress range from academic warning to dismissal, depending on the severity of academic failure and the recurrence of unsatisfactory progress. Students placed on academic probation or who are returning on probation after a leave of absence from the School are required to complete a probation contract in consultation with their respective GS advisors prior to their next term of enrollment.

Undergraduates within General Studies fail to make academic progress for any of the following reasons:

1. Failure to complete the American Language Program (ALP) requirements within the required time frame
2. Falling below a 2.0 semester grade point average
3. Receiving a grade of F
4. Failure to make satisfactory academic progress toward the degree (such as having a major or cumulative grade point average below a 2.0)

Administrative Warning

Administrative warnings are issued by the Committee on Academic Standing whenever necessary (e.g., when a student fails to take the QR exam within the allotted time frame or fails to comply with an administrative policy or deadline). Students receive such a warning only once; failure to comply with the warning can lead to more serious consequences.

Academic Warning

Academic warnings are issued by the Committee on Academic Standing whenever necessary (e.g., failure to complete the writing requirement in the first term or failure to declare a major before completing 90 credits toward the degree). Students receive such a warning only once; failure to comply with the warning can lead to probation or suspension.
ACADEMIC PROBATION
Academic probation is a serious warning that immediate and significant improvement is needed, as a second consecutive unsatisfactory semester may lead to suspension or dismissal from the School. Students are placed on probation when they receive the mark of F, have unsatisfactory grade point averages, or have not heeded an earlier warning.

A student is removed from probation upon attaining a satisfactory academic record the following term (including summer), based upon at least 6 points taken for a letter grade.

ACADEMIC SUSPENSION
Students with two consecutive unsatisfactory semesters are normally suspended from the School for up to one year. A student can also be suspended from the School by the Committee on Academic Standing after one unsatisfactory semester, especially in those cases where a student meets more than one of the criteria for academic probation or fails to make any academic progress in a given term. A student with multiple unsatisfactory semesters or multiple withdrawals is subject to a period of suspension. Suspension from the School is also a possible consequence of academic dishonesty.

Students suspended for academic reasons may appeal their suspension to the Dean of School of General Studies within two weeks of the official suspension notification.

A student who has been required to withdraw from the School must petition the Committee on Academic Standing for re-enrollment within three years of the suspension. See the Leaves of Absence and Withdrawals (p. 390) page for information on re-enrollment.

ACADEMIC DISMISSAL
A student who fails to make any academic progress in a given term, who has completed two or more terms with a cumulative GPA below 2.0, who fails to fulfill the criteria of probationary status, or who returns from a period of academic suspension and fails to make satisfactory progress is eligible for dismissal from the School. A student can also be summarily dismissed from the School for academic failure or academic dishonesty. Ties with GS are permanently severed for students who are dismissed from the School.

Students dismissed for academic or disciplinary reasons may appeal their dismissal to the Dean of the School of General Studies within two weeks of the official notification of dismissal.

PREMEDICAL UNDERGRADUATE ACADEMIC REVIEW
Students who have identified themselves as interested in pursuing a premedical track will have their academic performance in premedical coursework reviewed by the Premedical Committee at the end of each term. Students whose grades in premedical coursework indicate academic difficulty will be contacted by their premedical advisors.

ACADEMIC STANDARDS
Undergraduates within the School of General Studies are expected to make reasonable progress in fulfilling degree requirements, which includes:

- Completing the writing requirement in the first semester at GS
- Initiating foreign language study no later than the second year at GS, and making steady progress toward this requirement in each subsequent semester
- Satisfactorily completing at least one course each semester toward the fulfillment of core requirements
- Declaring a major before completing 90 points toward the degree
- Making satisfactory progress each year toward the major, once declared
- Maintaining a semester and cumulative grade point average of at least 2.0

GS academic advisors help students plan their schedules so that these requirements are met within the expected time frame.

AP CREDIT
Students may be granted credit or be exempted from certain courses or requirements on the basis of Advanced Placement tests administered by the College Entrance Examination Board. Specific details about subject test areas, scores, advanced credit, and placement status can be found in the chart below.

*Language Courses: The course used toward AP credit in language must be for at least 3 points of credit and be taught in that language. Courses taught in English may not be used for AP credit in language.

ATHLETICS AND ACADEMIC ABSENCE

It is Columbia University policy that student-athletes who miss classes and/or exams as a result of representing the University at an approved athletics contest may be permitted to make up the work and/or take the exam at another time or location.

To be accommodated in this way, students must first gain the approval of the team Head Coach as well as the Department of Intercollegiate Athletics and Physical Education before presenting the approved form to instructors as soon as the relevant team’s schedule is established.

Intercollegiate Athletics Absence Notification Form

Contact
Students must submit the completed form to Jacqueline Blackett, Senior Associate Athletics Director, 433 Dodge Physical Fitness Center.

ATTENDANCE

Students are expected to attend all classes including discussion sections and laboratory periods for each course.

In general, absenteeism from a course will lead to a lower grade and may even result in failure. Students are held accountable for absences owing to late enrollment. Students who must miss class due to religious holidays should inform their instructors in advance and make appropriate arrangements to make up missed work. (See below for the University’s policy on religious holidays.)

When an instructor judges a student’s absences to be excessive, the instructor may report this to the Office of the Dean of Students for appropriate action.

ABSENCES OR FALLING BEHIND IN CLASS

Students who find themselves unable to attend classes or complete academic work at any time during the semester should contact their GS academic advisors immediately. In consultation with the advisor and the instructor, a student may be able to make arrangements for extensions on work within the time frame of the semester or, under more serious circumstances, may be advised to withdraw from a course or from the semester. Students who miss more than two weeks of classes are counseled to give serious consideration to withdrawing from the semester in progress.

RELIGIOUS HOLIDAYS

It is the policy of the University to respect its members’ religious beliefs. In compliance with New York State law, each student who is absent because of his or her religious beliefs will be given an equivalent opportunity to register for classes or make up any examination, study, or work requirements that he or she may have missed because of such absences on any particular day or days. No student will be penalized for absences due to religious beliefs, and alternative means will be sought for satisfying the academic requirements involved.

Officers of administration and of instruction responsible for scheduling of academic activities or essential services are expected to avoid conflict with religious holidays as much as possible. If a suitable arrangement cannot be made between the student and the instructor the student should consult the appropriate dean or department chair. If an additional appeal is needed, it may be taken to the Provost.

CLASS STANDING

Class status for undergraduates within the School of General Studies is based on the satisfactory completion of the following number of points:
### Class Standing Points

<table>
<thead>
<tr>
<th>Class Standing</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sophomore</td>
<td>24</td>
</tr>
<tr>
<td>Junior</td>
<td>56</td>
</tr>
<tr>
<td>Senior</td>
<td>90</td>
</tr>
</tbody>
</table>

### Courseload for Full- and Part-time Students

The School of General Studies permits students to study at their own pace, whether it be on a full- or part-time basis. Full-time status is defined as taking a minimum of 12 points per term. Students may not register for more than 18 points in a given semester. Requests to exceed the 18-point cap must be submitted to the Committee on Academic Standing, and exceptions will be granted only in rare and unavoidable circumstances. International students on an F-1 student visa are required to attend full time.

### Dropping Courses

Before dropping a course, students should consult with their GS academic advisors. Dropping courses not only affects a student’s academic progress, but may also have consequences for financial aid, housing eligibility, visa status, or health insurance. There is no refund of tuition for individual courses dropped after the last day of the change of program period. A student has three opportunities within a semester to officially drop a course, but different consequences apply at each stage. In no case may a student drop a course after the eleventh week of classes, unless withdrawing from an entire program. Students should consult the GS Academic Calendar (https://gs.columbia.edu/academic-calendar) for the exact dates of each deadline. Students are responsible for following the appropriate add/drop process by the relevant deadline. Registration Adjustment forms, if needed, are available in the Office of the Dean of Students and online (https://gs.columbia.edu/gs-student-forms).

Please note:

- Ceasing to attend classes or simply notifying the instructor does not constitute dropping a course.
- Students dropping the last or only class in which they are enrolled in a given semester should notify their advisors that they would like to withdraw for the term.
- Joint Program students cannot drop their full course load at Columbia (even if it is only one course) without special permission jointly approved by their respective GS and JTS advisors.
- In cases that have been referred for disciplinary action through the Dean’s Discipline process, a student may not drop or withdraw from the course in question.

### Dropping a Course During the Change of Program Period

A student may drop a course within the first two weeks of classes, which is the officially designated change of program period. Courses may be dropped online on SSOL (https://ssol.columbia.edu). Courses dropped within this period do not appear on a student’s permanent transcript and incur no tuition charges. Students dropping their entire course load will not be allowed to do so online and must instead see their GS advisors about the withdrawal process. (See Withdrawal from a Semester in Progress (p. 391) on the Leaves of Absence and Withdrawals page.)

### Dropping a Course After the Change of Program Period

After the close of the change of program period, students may drop a course by the late drop deadline, which falls after the fifth week of classes. Courses dropped after the change of program date but prior to the late drop deadline will not appear on a student’s permanent transcript, but students will be charged full tuition for the course. Students should submit requests electronically via SSOL to drop courses, and must then await email notification of their advisor’s approval. Once they have received approval, they must then drop the course through SSOL by the specified deadline.

### Dropping a Course After the Late Drop Deadline

After the late drop deadline, students may drop a course by the final drop deadline. Courses dropped after the late drop deadline but prior to the final drop deadline (in the eleventh week of classes, coinciding with the Pass/D/Fail deadline) will be recorded on the transcript with the notation “W” (withdrawal). The W is a permanent mark and will remain on the transcript even if the student repeats the course. Students are charged full tuition for individual courses from which they selectively withdraw. The Registration Adjustment form (https://gs.columbia.edu/gs-student-forms) must be completed by the student and signed by his or her GS advisor by the specified final drop deadline.

### Educational Records

GS, in conjunction with the Registrar’s Office, maintains the educational records of students who matriculate at the School. The maintenance and oversight of these records comply with the Federal Family Educational Rights and Privacy Act.
of 1974 (FERPA), which regulates a wide range of privacy-related activities including management of student records maintained by the University, regulations regarding who has access to student records, and for what purposes access to student records is granted. The act guarantees students access to their records and allows them to restrict such access to others. Students wishing access to their records must complete a request form available from the Registrar’s Office; similar request forms are available from the Registrar’s Office if a student wishes to withhold information or reverse a previous request to restrict access. For additional information regarding access to student records, please consult Essential Policies for the Columbia Community (http://www.essential-policies.columbia.edu/policy-access-student-records-ferpa).

Questions about the University’s interpretation of the FERPA guidelines should be referred to the University’s General Counsel in 412 Low Library. For more information on FERPA, consult the Department of Education website (http://www.ed.gov).

Note: Educational files maintained by the School of General Studies are archived for five years after a student has graduated. Files of students who withdrew or took a leave from GS are accessible for up to ten years from the last semester of attendance. In all cases, individual requests for student files needing to be recalled from archives should be made directly to student’s advisor. Such files will be ready for review within three weeks of the initial request.

ELIGIBILITY FOR ATHLETICS

A GS student in good standing pursuing the undergraduate program or a combined program toward a first degree may be eligible for intercollegiate athletics.

ELIGIBILITY

Eligibility requires that a student be a candidate for a bachelor’s degree and have attended the University for no more than eight terms. The student must also be registered for at least 12 points, be in good standing with the School, and make appropriate progress toward the degree as defined by the NCAA, the Ivy League, and Columbia University.

These criteria are monitored by the Committee on Athletic Eligibility and certified by the Office of the Registrar. Furthermore, students must comply with any NCAA or Ivy League requirements that may apply.

Questions about eligibility should be referred to the appropriate academic advisor or the compliance office in the Department of Physical Education and Intercollegiate Athletics.

GRADES

All grades are based solely on work completed during the term a course is offered, except in the case of a grade issued to replace an incomplete, as authorized by the Committee on Academic Standing (see the Incomplete Work in a Course (p. 387) section for more information).

LETTER GRADES

The letter grading system within Columbia’s undergraduate colleges is as follows: A, excellent; B, good; C, fair; D, poor but passing; F, failure (a final grade, not subject to reexamination). Plus and minus grades are also used, except with a D or F. No more than ten percent of a student’s total number of Columbia points with the grade of D will count toward the degree, and no work with a grade of D will be credited toward the major unless otherwise noted by a department in its official policies.

GRADE POINT AVERAGE (GPA)

The Registrar calculates semester as well as cumulative grade point averages based on the number of points per class. The GPA is used to assess a student’s academic progress as well as to determine a student’s eligibility for certain honors (p. 376) such as the Dean’s List or the Honor Society. The GPA is printed on all official Columbia transcripts. GPAs are computed on the following scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.33</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>

When the Registrar calculates the GPA, courses are weighted by the number of points they carry. Courses that cannot be credited toward the degree are not included in the GPA. For repeated courses, only the grade earned for the first attempt will be calculated into the grade point average.

GRADE APPEALS AND GRADE CHANGES

Assessment of a student’s performance in a course is at the instructor’s discretion. When a student feels a grade appeal is warranted, the student should first speak with the instructor of the course in order to understand how the evaluation was derived or to clarify other specific concerns. If dissatisfied with the explanation or uncomfortable broaching this matter with the instructor, the student should speak with the director of undergraduate studies or chair of the relevant department.

Deans and GS advisors can counsel a student on whether and how to approach an instructor about a grade appeal; however,
they do not arbitrate grade disputes. Students should keep their GS advisors informed of any pending grade disputes or appeals, as the Office of the Dean of Students can help to expedite a response from a faculty member or department.

If the student is unable to resolve the matter to his or her satisfaction and believes that a procedural issue is involved, the student should bring the matter to the attention of the GS Dean of Academic Affairs who will work with the student and the faculty member to determine whether there has been a procedural breach and, if so, take immediate steps to remedy the matter. If relevant faculty other than the instructor, in consultation with GS Academic Affairs, decide that the grade or other academic evaluation was appropriate, given class assignments and circumstances, the student will be informed and the decision will be final.

The statute of limitations on final grade appeals is three months from the end of the semester in which the course was taken.

**PASS/D/FAIL OPTION**

The purpose of the Pass/D/Fail (P/D/F) option is to encourage students to take courses outside their fields of specialization without concern for the grade. Beginning with the Spring 2008 term, students may choose the P/D/F option for only one course per term, including the summer term. Courses given only on a P/F basis will not count toward the six-course limit.

**Electing a Course for Pass/D/Fail**

- Undergraduates within the School of General Studies may elect the Pass/D/Fail (P/D/F) option for up to six courses, for a total of 18 points, but no more than one course per semester may be selected for this option.
- The grading option for students who register for a course P/D/F when they have exceeded the number of allowable P/D/F will revert to the letter-grade option.
- When the P/D/F option is elected for a particular course, grades of C- or above are converted to a Pass.

The P/D/F option cannot be elected for the following courses:

- Courses administered by the Committee on the Core Curriculum:
  - Art Humanities: UN1121
  - Contemporary Civilization: CC/GS1101-CC/GS1102
  - Frontiers of Science: CC1000
  - Literature Humanities: CC/GS1001-CC/GS1002
  - Music Humanities: UN1123
  - University Writing: ENGL GS1010 or ENGL GS1014

When considering the P/D/F option, students should be aware that courses with the mark of P:

- cannot be used to satisfy a major or concentration requirement, including related courses, unless otherwise noted by the department in its written policies;
- cannot be used to satisfy science or math courses in fulfillment of premedical requirements;
- are not taken into account when calculating a student’s GPA; the grades of D and F will be so used.

Students may elect the P/D/F option during registration. Students may change a P/D/F course to a letter-graded course or a letter-graded course to a P/D/F course by clicking the relevant link in SSOL by the eleventh week of the term.

The P/D/F option, including the opportunity to uncover a Pass, is only available to undergraduate students in the School of General Studies and not to students in the Postbaccalaureate Premedical Program.

**Uncovering the Mark of Pass**

Beginning with courses taken in the Fall 2007 semester, students are allowed to uncover a grade of Pass within two weeks of the start of the semester immediately following that in which the grade of Pass was received. Students have until the end of the add/drop period in the spring semester to uncover the grade of a fall-term course, and until the end of the add/drop period in the fall semester to uncover the grade of a spring- or summer-term course. Seniors graduating in May who wish to uncover the mark of Pass for their spring-term courses must do so by the Friday of Commencement week.

An uncovered grade may be used to satisfy a core requirement with the exception of courses administered by the Committee on the Core. (See above (p. 386) for complete list.)

In consultation with the major department, an uncovered grade may be used to satisfy a major requirement.

**Note:** Whether or not a student uncovers the P, the P/D/F option may only be chosen six times.

**Note:** Once a student has chosen to uncover a grade, the Pass cannot be reinstated.

**UNOFFICIAL WITHDRAWAL (UW)**

As of Spring 2014, this grading option is no longer available for School of General Studies students.

**WITHDRAWAL (W)**

Students are not permitted to have a course deleted from their academic record after the drop deadline (the fifth week of classes). If a student withdraws from a course after the drop deadline and no later than the eleventh week of classes, the transcript will show a mark of W for that course. This is a permanent mark and will remain on the transcript even if the student repeats the course.
Students may not drop or withdraw from any course after the eleventh week of classes. After that point, students will receive whatever letter grade they have earned in the course.

**Administrative Referral (AR)**

The mark of AR (Administrative Referral) is a temporary grade awarded by a faculty member when a final letter grade cannot be assigned. Following the designation of the AR mark, the student’s academic advisor will follow up with the student and instructor to outline the requisite steps to determine an appropriate final grade. AR is not a permanent grade.

In the event that the student has been approved through petition to the Committee on Academic Standing to receive an Incomplete in the course, the mark of “IN” will then be submitted by the academic advisor. Please note that ultimately the assignment of the final letter grade is at the instructor’s discretion.

**Incomplete (IN)**

**Written Work and Exams**

Students must complete all coursework by the last day of exams in a given semester. For students who cannot complete their course work or are unable to take a final examination, an incomplete for a course in progress may be granted by the General Studies Committee on Academic Standing (CAS). Faculty members, while consulted for approval of specific extensions, are not authorized to grant incompletes beyond the end of term. Students should contact their advisors first when an exam or deadline is missed. Petitions for official incompletes at the end of term should be based on unexpected circumstances that arise only within the last two weeks of the course which may prevent a student from timely completion of the final coursework or exam.

The only reasons for which an INC will be granted are incapacitating illness, as certified by the University Health Services or a personal physician, serious family emergency, or circumstances of comparable gravity. Students who wish to receive the mark of INC must, in consultation with their GS advisors, petition the CAS in writing. To be granted an INC, it is expected that students will have completed all work in the class with the exception of the final paper or exam. Students who are granted an INC are assigned a deadline for completion of the overdue work or a date by which a deferred examination must be taken. Those who fail to meet the assigned deadline or miss the deferred examination will receive the contingency grade provided by the instructor.

Students with more than two incompletes usually cannot enroll in the following semester without the explicit permission of the GS Committee on Academic Standing. When allowed to enroll, students with more than two incompletes will usually be advised to enroll part-time. Students with one or more incompletes in the spring term are typically not allowed to enroll in the summer term or study abroad.

**Incomplete Written Work**

Students must submit a formal petition for an incomplete on written work by the last day of classes. The petition must be accompanied by the syllabus and a copy of the assignment showing the due date for the assignment. This deadline is set because written work is normally due during the last week of classes; if a deadline for written work other than an exam is set for later than reading week, the student has one day from the missed deadline to submit a petition for an incomplete. Students are advised to submit a draft of their written assignment to the faculty member while the petition for an incomplete is being considered by the CAS.

**Incomplete Exams**

Typically, unless there are serious documented circumstances, students may not request an incomplete for a final exam in advance of the final examination period. In situations in which an incapacitating illness prevents a student from sitting for a final exam, the student should contact his or her advisor immediately about the missed examination, and must provide—within seventy-two hours of the missed exam—certification of the illness by University Health Services, a personal physician, or an emergency room. If circumstances warrant a make-up exam, the student will be permitted to sit for the exam on one of the official deferred exam dates published in the GS Academic Calendar. Students cannot pick the date, but they will be notified of the date, time, and place of the exam.

**Graduation Eligibility and Application for Diplomas and Certificates**

Bachelor’s degrees are conferred three times a year: February, May, and October. Students must file an application for the degree in consultation with their advisor by the deadlines specified below.

<table>
<thead>
<tr>
<th>Deadline</th>
<th>Graduation Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>March 13</td>
<td>for May degrees</td>
</tr>
<tr>
<td>March 13</td>
<td>for October degrees (if participating in preceding May graduation ceremony)</td>
</tr>
<tr>
<td>August 1</td>
<td>for October degrees (if not participating in preceding May graduation ceremony)</td>
</tr>
<tr>
<td>November 1</td>
<td>for February degrees</td>
</tr>
</tbody>
</table>

To apply for graduation, students should meet with their GS advisor no later than six months prior to the anticipated completion of the degree. Students who are unable to earn the degree or certificate by the conferral date for which they have applied must file another application for a later conferral date.
Students in the Joint Program with List College of the Jewish Theological Seminary will be allowed to graduate when they have completed the requirements for both degrees.

**VERIFYING YOUR GRADUATION APPLICATION STATUS**

After completing a graduation candidacy review with his or her GS advisor, and applying to graduate in February, May, or October, students can confirm the status of their application through SSOL.

To verify that their graduation application has been processed, students should follow these steps:

2. Under "Academic Records," click on "Degree Application Status."
3. Confirm your expected date of graduation (month and year), as well as the status of your application submission.
   - Note: "Submitted" status confirms that your application was processed; this will be noted only by your academic program(s) of study.
4. If your application status is "Not Submitted" or there are errors in the information listed, email gsgraduation@columbia.edu.

**DEGREE CEREMONIES**

A University-wide commencement ceremony is held once a year in May. Before Columbia Commencement, the School of General Studies hosts its own graduation ceremony known as Class Day, during which each student receives a certificate from the President of the University and the Dean of the School of General Studies. Students who received their degrees in October, February, or May of a given academic year are entitled to participate in Class Day and Commencement ceremonies in May of that academic year.

Students completing degree work in the summer are welcome to participate in the May ceremonies preceding completion of their degree. Students may do so by a) applying for the October degree by March 1, or b) registering in April for the summer courses needed to complete their degree requirements.

**Diplomas**

There is no charge for the preparation and conferral of an original diploma or certificate. The name of the graduating student will be printed exactly as it appears on his or her transcript. Students are responsible for checking their transcripts and reporting any errors to the Registrar in 205 Kent before they file their degree or certificate applications. A student who wishes to change his or her name officially must submit the Name Change Affidavit available from the Registrar’s Office. The affidavit must be notarized and filed by the application deadline. If a diploma or certificate is lost or damaged, there will be a charge of $100 for its replacement.

Note that replacement diplomas or certificates carry the signatures of current University officials.

Columbia diplomas will be produced and mailed within three weeks after Commencement (https://gs.columbia.edu/commencement), and are mailed to the student’s Diploma Address, as listed in SSOL (http://ssol.columbia.edu). Students should confirm their address information on their SSOL profile. If a student’s address needs to be updated, it should be done through SSOL before the Monday prior to Commencement.

Please be sure to complete the Diploma Address option. Diplomas cannot be mailed to students who do not have a Diploma Address listed in SSOL.

Diplomas for February and October graduates will be mailed to the address on file in SSOL (https://ssol.columbia.edu) up to two months after the degree conferral date.

**Note:** Graduates who have resolved any financial or library holds preventing the release of their diplomas must proactively notify the Registrar’s Office that their last hold has been removed. In the case of holds preventing release, the Registrar’s Office will not mail student diplomas without notification that all hold(s) have been removed.

**Contact**

Applications for replacement diplomas and certificates may be requested by calling the Office of the Registrar, Graduation, Degree Audit, and Diploma Division at 212-854-1454.

**HONOR PLEDGE**

The General Studies Student Council, on behalf of the whole student body, has resolved that maintaining academic integrity is the preserve of all members of our intellectual community—including and especially students. As a consequence, all General Studies students make the following pledge at Orientation:

We, the undergraduate students of Columbia University, hereby pledge to value the integrity of our ideas and the ideas of others by honestly presenting our work, respecting authorship, and striving not simply for answers but for understanding in the pursuit of our common scholastic goals. In this way, we seek to build an academic community governed by our collective efforts, diligence, and Code of Honor.

In addition, all General Studies students are committed to the following honor code:

I affirm that I will not plagiarize, use unauthorized materials, or give or receive illegitimate help on assignments, papers, or examinations. I will also uphold equity and honesty in the evaluation of my work and the work of others. I do so to sustain a community built around this Code of Honor.
INDEPENDENT RESEARCH: HUMAN SUBJECTS

Any research that involves people can be considered human subjects research in a broad sense. Students who are interested in conducting independent research that will involve participants answering questions, completing surveys, filling out forms, following instructions, and/or being observed, or that involves receiving data about identifiable individuals, may need special approval.

All universities have an Institutional Review Board (IRB), which reviews research proposals involving humans and assesses whether or not the research can be approved. The approval is dependent upon the risk of harm to the research subjects.

This risk of harm can be physical, psychological, legal, or social and it is the job of the Columbia IRB to protect those who have voluntarily donated their time (even if they are compensated) in order to take part in any research that is conducted by a member of Columbia University.

Taking seriously the well-being of research participants is part of what makes a good researcher and a good research project.

REQUESTING IRB APPROVAL

Students submitting proposed research for approval by the Institutional Review Board must:

- Complete the online Human Subjects Protection Training. [Instructions (http://www.gs.columbia.edu/files/gs/human_subjects_training_instructions.pdf)]
- Identify a CU faculty member as a Principal Investigator.
- Create a consent form. (Samples are available on the Columbia IRB website (http://www.columbia.edu/cu/irb/policies).)
- File a Conflict of Interests Disclosure Statement.
- Create a research protocol in RASCAL. [Instructions (http://www.gs.columbia.edu/files/gs/creating_protocol.pdf)]
- Attach to your RASCAL protocol your completed approval request form and any necessary supplemental documentation (for example, research instrument and consent form).

CONTACT

Questions should be addressed to the faculty advisor overseeing the research or to Victoria Rosner, Dean of Academic Affairs, at vpr4@columbia.edu.

INDEPENDENT STUDY

Independent study and research provides an opportunity for students to work one-on-one with a faculty member through directed reading or supervised research. Normally independent study is reserved for students at an advanced level within their majors. Students should consult with their respective major or departmental advisors about requirements and limits for independent study, which vary from department to department.

Students are advised to approach faculty members about independent study as early as possible, since many instructors limit the number of students they will supervise in a given semester or year. Some departments require that the Director of Undergraduate Studies approve the independent study. As part of the proposal and approval process, students must specify, in consultation with the faculty supervisor, the number of points to be earned for the independent study. Students must designate the number of points to be earned when registering for independent study.

Students may count no more than 12 points of independent study toward the degree, and may register for no more than one independent study per term. If a student wishes to undertake an independent study program involving more points than the number permitted, he or she must have the approval of the Director of Undergraduate Studies and the GS Committee on Academic Affairs.

INTERNSHIP CREDIT

Internships can be a valuable experience for students seeking exposure to a range of professional cultures and experiences. However, Columbia College, the School of General Studies, and the Fu Foundation School of Engineering and Applied Science—as at our peer institutions nationally — do not offer registration credit (R credit) on the academic transcript for internships. Companies are expected to appropriately compensate students for work performed during an internship. CCE has posted some helpful guidelines for employers regarding unpaid internships here (http://www.careereducation.columbia.edu/employers/policies/#Unpaid).

Support will be maintained for student participation in internships for which students are properly compensated (when required), and letters of support for internships will be provided upon request.
LEAVES OF ABSENCE AND WITHDRAWALS

Leaves of Absence (p. 390) | Withdrawal from a Semester in Progress (p. 391)
Involuntary Leaves of Absence (p. 391) | Medical Leaves (p. 391)
Leave for Military Duty (p. 392) | Re-enrollment (p. 393) | Tuition Refund Schedule (p. 393)

LEAVES OF ABSENCE

Students of considerable ability sometimes perform below their capacities because of burdensome personal or family problems. In such cases, taking a leave of absence or withdrawing can have a salutary effect on a student’s academic performance. Students who wish to withdraw from a term in progress, cancel registration for an upcoming term for which they have already registered, or take a planned leave of absence must consult with their respective academic advisors, submit a leave of absence form (https://gs.columbia.edu/gs-student-forms/#withdrawal) or withdrawal form. Failure to do so in a timely fashion can have financial as well as academic consequences.

Depending on the date of a student’s withdrawal, loan funds already received by the student may need to be returned to the lender. Federal grant awards such as the FSEOG, Pell Grant, and GS scholarships may also be decreased. Students who withdraw should contact the GS Office of Educational Financing (https://gs.columbia.edu/contacts) for more information about possible required adjustments to their federal and/or institutional aid, or if they have questions about their student account.

Leaves of absence for up to three years are granted to students who anticipate returning to Columbia to complete their studies. Students who intend to take a leave of absence must submit a leave of absence form (https://gs.columbia.edu/gs-student-forms/#withdrawal) at least one week prior to the start of the term of their intended leave. Failure to follow this procedure can have academic as well as financial consequences and may lead to being dropped from the rolls of the School.

To re-enroll after a leave of absence, students must complete the re-enrollment process by the required deadline.

Leave of Absence Guidelines

All correspondence from the university sent to students via US mail goes to the address on file with Student Information Services viewable via Student Services Online (SSOL). Students are responsible for making changes to that address by following the instructions on SSOL for a change of address.

Financial Aid

- Students who borrowed under a federal or Columbia student loan program will need to complete an Exit Loan Counseling Interview, and will be notified by email of their exit counseling responsibilities.
- Students who were awarded any federal financial aid (Title IV aid) that has not disbursed to their student account and wish to know if they are eligible for a late disbursement of this aid must contact a counselor at the GS Office of Educational Financing.
- Students will receive an email communication from the GS Office of Educational Financing which will identify any required revisions to their financial aid per federal regulations and/or GS policy.
- It is recommended that students contact the GS Office of Educational Financing in March for information regarding forms and deadlines for financial aid applications for the upcoming academic year.
- Students with a credit on their student account should contact the GS Office of Educational Financing to request a refund. Students with financial aid must wait until their aid has been recalculated to request a refund (https://gs.columbia.edu/student-account-refunds).
- Depending on the date of withdrawal, the student’s tuition and other charges will be recalculated based on the Withdrawal Schedule established by the Trustees and published on the University Registrar website (http://registrar.columbia.edu/content/refund-rate-withdrawals).

Health Insurance

Students who withdraw from a term in progress will no longer be eligible to receive Student Health insurance. Students withdrawing for medical reasons must notify their GS advisors immediately to request a continuance of their student health insurance plan. For more questions on the impact of a withdrawal or leave on student health insurance, students should contact Columbia Health (http://www.health.columbia.edu/student-insurance/about-columbia-insurance-plan).

Dining Services and Flexdollars

Meals and Dining Dollars are non-refundable and non-transferable, even for non-used balances. Refunds are permitted only upon official academic withdrawal from Columbia University. Refunds may be requested at the Dining Services (http://dining.columbia.edu) located at 125 Wallach Hall.

University Housing

Eligibility for housing (http://facilities.columbia.edu/housing) is limited to students enrolled at GS full-time. Students have 30 days to their unit, and must contact University Apartment Housing (UAH) to terminate their lease.

University Privileges
• E-mail accounts are kept active from six to nine months for students who take a leave or withdraw; however, e-mail accounts are deactivated within a week for students who are suspended or dismissed, or who transfer or permanently withdraw from the School.
• Swipe access to University buildings is suspended during a student’s leave or period of withdrawal from the School.
• Library privileges are normally suspended during a student’s leave or period of withdrawal from the School.
• Access to Dodge Physical Fitness is suspended during a student’s leave or period of withdrawal, except in those cases where a student chooses to pay a membership fee to continue receiving access to these facilities.
• Students on leave or withdrawal from a term in progress and/or suspended from GS are not allowed to enroll in another Columbia school during this period without written permission from the Dean of Students.

WITHDRAWAL FROM A SEMESTER IN PROGRESS
Circumstances occasionally require that a student withdraw from a semester in progress. Withdrawal means dropping all courses in a given term, as opposed to dropping a portion of the program. Withdrawal from a term in progress may have serious financial and academic consequences, and thus students should meet with their advisors so that they can make an informed decision. All withdrawals are noted on a student’s transcript. Multiple withdrawals may lead to suspension or dismissal from the School for failure to make academic progress.

Students who wish to withdraw must submit the withdrawal form (https://gs.columbia.edu/gs-student-forms/#withdrawal); notifying instructors or failing to attend classes does not constitute formal withdrawal. A student’s tuition may be prorated depending on the date of the written notification of the withdrawal.

Additional Facts and Policies for Students Withdrawing from a Term in Progress
• Students withdrawing from a term in progress are charged a $75 administrative processing fee.
• Depending on the date of a student’s withdrawal, tuition and other charges will be recalculated based on the Withdrawal Schedule established by the Trustees and published in the Student Fees booklet.

INvoluntary Leave of Absence Policy
The Dean of Students, or his or her designee, may place a student on an Involuntary Leave of Absence for reasons of personal or community safety. This process will be undertaken only in extraordinary circumstances when there is compelling information to suggest that the student is engaging in or is at heightened risk of engaging in behavior that could lead to serious injury to others, including as a result of physical or psychological illness. In addition, the Involuntary Leave process may be initiated if, based on an individualized assessment, it is determined that there is a significant risk that the student will harm him/herself, and that the risk cannot be eliminated or reduced to an acceptable level through reasonable and realistic accommodations and/or on-campus supports.

This policy provides students with general information regarding an Involuntary Leave of Absence. For more specific information regarding the circumstances and processes for an Involuntary Leave of Absence, as well as conditions relevant to returning from Leave, students should refer to the Academic Policies or speak with the Dean of Students. Students are responsible for understanding the implications of an Involuntary Leave of Absence for housing, financial aid, health insurance, and progress toward the degree.

This policy will not be used in lieu of disciplinary actions to address violations of Columbia University rules, regulations, or policies. A student who has engaged in behavior that may violate rules, regulations, or policies of the University community may be subject to the dean’s Discipline Process of his or her particular school. A student may be required to participate in the disciplinary process coincident with being placed on an Involuntary Leave of Absence. A student who is placed on an Involuntary Leave of Absence while on academic and/or disciplinary status will return on that same status.

Before an Involuntary Leave is considered, efforts may be made to encourage the student to take a Voluntary Leave of Absence. These procedures are described in the Voluntary Leave of Absence Policy. A readmission process may still be required of a student electing a Voluntary Leave to determine his or her readiness to return to school (e.g., whether returning to school may increase the risk of self-harm and/or harm to others).

When requesting a leave or withdrawing from GS, international students must also notify the International Students & Scholars Office (ISSO) immediately.

When safety is an immediate concern, the DOS (or his or her designee) may remove a student from the campus pending final decision on Involuntary Leave. If this action is deemed necessary, the student will be given notice of the removal. An opportunity to be heard by the DOS and, if desired, to appeal the final decision will be provided at a later time.

For more information, students should visit the Essential Policies (http://www.essential-policies.columbia.edu/involuntary-leave-absence-policy) or consult their respective advisors in the Dean of Students Office.

MEDICAL LEAVES AND MEDICAL WITHDRAWALS
When students are faced with health issues that have a negative impact on study habits, course attendance, or class preparation,
they are urged to consult with their advisors to discuss taking a medical leave of absence from the university. Students who are hospitalized during an academic term or who miss class for more than two weeks due to health issues are advised to take a medical withdrawal from the term in progress. Doctors at University Health Services (UHS) as well as counselors at the Office of Counseling and Psychological Services (CPS) can also help students evaluate whether a medical leave is advisable. Students must provide medical documentation to support their requests for medical leaves or medical withdrawals. As part of the re-enrollment process, students will also be required to supply current medical documentation, and to be evaluated by the relevant branch of the University’s Health Services.

In exceptional cases, when there is sufficient information to suggest that as a result of physical or psychological illness, a student is engaging in or is likely to engage in behavior that could lead to injury to self or others, the Dean of Students, in consultation with UHS, CPS, and the Office of Public Safety, may place a student on an involuntary leave of absence for reasons of personal or community safety.

Students who withdraw from their studies after the eleventh week of the semester or for medical reasons are not allowed to return for at least four months (a minimum of one semester), to allow time to address the situation that led to the withdrawal.

**Required Medical Leave for Students with Eating Disorders**

With eating disorders, a medical leave is sometimes necessary to protect the safety of a student. Usually this is because the student’s illness is advanced enough to require hospitalization or intensive day treatment beyond the scope of University medical and psychological resources. A medical leave is also sometimes deemed necessary when an individual student’s eating disorder has negatively impacted the integrity of the University’s learning environment.

1. Before an involuntary medical leave is considered, efforts will be made to encourage the student to take a voluntary medical leave, thus preserving, to the extent possible, confidentiality and privacy.

2. This policy will be invoked only in extraordinary circumstances, when a student is unable or unwilling to request a voluntary medical leave of absence.

Students who wish to obtain the complete policy should see Essential Policies (http://www.essential-policies.columbia.edu/involuntary-leave-absence-policy) or consult their advisors in the Dean of Students Office.

**Leave for Military Duty**

Under the Higher Education Opportunity Act of 2008 (HEOA), institutions are required to readmit an individual who left school or did not accept an offer of admission in order to perform military service. The following sections explain the eligibility and readmission requirements of this policy.

**Eligibility**

This policy applies only to U.S. military veterans seeking readmission to the program that they previously attended; it does not apply to individuals seeking admission to a different school at Columbia. Veterans are eligible if they began their leave of absence on or after August 14, 2008.

Students are eligible for readmission under this provision if, during their leave, they performed or will perform voluntary or involuntary active duty service in the U.S. armed forces, including active duty for training and National Guard or Reserve service under federal authority, for a period of more than 30 consecutive days, and received a discharge other than dishonorable or bad conduct. In general, the cumulative length of absence and all previous absences for military service (service time only) must not exceed five years.

**Requirement of Notice**

If a student is planning to take a leave for military service, he or she must give advance written or verbal notice of military service to the Dean of Students, unless such notice is precluded by military necessity. To be readmitted, students must give notice (written or verbal) of their intent to re-enroll to the Dean of Students no later than three years after the completion of the period of their service. If a student is recovering from a service-related injury or illness, he or she must notify the school no later than two years after their recovery.

A student who does not submit a timely notification of intent or provide an attestation within the designated time limits may not be eligible for the benefits outlined herein.

**Tuition and Fees**

For the first academic year in which the student returns, he or she must be readmitted with the same tuition and fees charges the student was or would have been assessed for the academic year when the student left, unless there are sufficient veterans’ educational benefits or institutional aid to pay the increased amount of tuition and fees. For subsequent academic years, the student may be charged the same tuition and fees as other students in the program.

**Readmission Requirements**

The school must allow the student to re-enroll in the next class or classes in the same program, with the same enrollment status, number of points, and academic standing as when he or she was last in attendance at Columbia. The student may also request a later date of admission or, if unusual circumstances require it, the institution may admit the student at a later date. If the school determines that the student is not prepared to resume the program where he or she left off, the school must make reasonable efforts at no extra cost to the student to enable the student to resume and complete the program. Such
reasonable efforts include, but are not limited to, providing a refresher course and allowing the student to retake a pretest, as long as they do not place an undue hardship on the school. If reasonable efforts are unsuccessful or the school determines that there are no reasonable efforts that the school can take, the school is not required to readmit the student.

If the program to which the student was admitted is no longer offered, the student must be admitted to the program that is most similar, unless the student requests or agrees to admission to a different program.

**RE-ENROLLMENT**

Students must apply for re-enrollment through the Dean of Students Office within three years of the end of their last completed semester at GS. Students granted re-enrollment must return to Columbia the following semester and complete that term to maintain their academic status at GS. Students who desire to return after a withdrawal are required to submit a re-enrollment form (https://gs.columbia.edu/gs-student-forms/#re-enroll) including a personal statement addressing the circumstances that caused them to withdraw. Students must submit this petition to their respective advisors by the date specified on the form relevant to the term in which they wish to return. Petitions for re-enrollment are reviewed by the Committee on Academic Standing. All students who take a leave or withdraw for medical reasons must have their physician or other health care provider support their readiness to resume their studies. Students returning from a medical withdrawal or medical leave will be required to be evaluated by the relevant branch of University Health Services to complete the re-enrollment process.

**Re-enrollment Deadlines**

It is a student’s responsibility to ensure that the re-enrollment petitions (https://gs.columbia.edu/gs-student-forms/#re-enroll) (including the petition statement and medical documentation, if applicable) is received by the relevant deadline. Late and incomplete petitions will not be considered.

**Re-enrollment Checklist**

**Regular Withdrawal**

1. Review and resolve any registration holds with appropriate offices (Student Financial Services for financial holds; Health Services for health holds, etc.)
2. Send finalized re-enrollment petition and supporting documentation to GS advisor
3. International students must also contact ISSO for re-enrollment
4. Upon approval of re-enrollment petition, schedule a re-enrollment appointment with GS advisor

**Medical Withdrawal**

1. Review and resolve any registration holds with appropriate offices (Student Financial Services for financial holds; Health Services for health hold, etc)
2. Send finalized re-enrollment petition and supporting documentation to GS advisor
3. International students must also contact ISSO for re-enrollment
4. Send appropriate medical documentation to be evaluated by relevant branch of University Health Services to GS advisor
5. Upon approval of re-enrollment petition, schedule a re-enrollment appointment with GS advisor

**Note:** A student whose absence from the School of General Studies exceeds three years must formally reapply to the School through the GS Office of Admissions.

**Tuition Refund Schedule**

For the complete tuition refund schedule please refer to the University Registrar website (http://registrar.columbia.edu/content/refund-rate-withdrawals).

**Leaves of Absence Guidelines**

All correspondence from the University sent to students via US mail goes to the address on file with Student Information Services, which may be viewed via Student Services Online (SSOL). Students are responsible for making changes to that address by following the instructions on SSOL for change of address.

**Regarding Financial Aid**

- If you borrowed under a federal or Columbia student loan program, you must contact Student Financial Services (http://sfs.columbia.edu) to complete an exit interview.
• If you received any Title IV aid or aid from the New York State TAP program, or if you are eligible for a late disbursement of Federal Title IV student aid funds, and wish to have this aid considered in the calculation to determine if Title IV funds should be returned, you must contact the GS Office of Educational Financing.

• If you received any GS institutional aid, contact the GS Office of Educational Financing to determine if any funds will be returned or canceled.

Regarding Health Insurance
Except for a medical withdrawal from Columbia due to an accident or sickness that would be covered by the Student Medical Insurance Plan, any student withdrawing from school during the first 31 days of the period for which coverage is purchased shall not be covered under the policy and a full refund of the value of the premium will be applied to the Student Account Statement. Students withdrawing after 31 days will remain covered under the policy for the full period for which a premium has been paid.

Regarding Dining Services and Flexdollars
Meals and Dining Dollars are non-refundable and non-transferable, even for non-used balances. However, for students withdrawing from a term in progress, a refund is possible for the unused portion of the plan or dining dollars, if students immediately notify Dining Services of their withdrawal and have this confirmed by their GS advisor.

Regarding University Housing
Eligibility for housing is limited to students enrolled at GS full time. If you live in University Housing, you must immediately contact University Apartment Housing and arrange for a termination of your lease.

Refunds
If you have a credit on your student account, contact Student Financial Services to request a refund. Students with financial aid must wait until after their exit interview and their aid has been recalculated to request a refund.

University Privileges
• Email accounts are kept active from 6 to 9 months for students who take a leave or withdraw; however, email accounts are deactivated within a week for students who are suspended or dismissed, or who transfer or permanently withdraw from the School.

• Swipe access to University buildings is suspended during a student’s leave or period of withdrawal from the School.

• Library privileges are normally suspended during a student’s leave or period of withdrawal from the School.

• Access to the Dodge Physical Fitness Center is suspended while a student is on leave or withdrawn, except in those cases where a student chooses to pay a membership fee to continue access to these facilities.

• Students on a leave, who withdraw from a term in progress, or who are suspended from GS, and who intend to return to GS are not allowed to enroll in another Columbia school while withdrawn/on leave without written permission from the Dean of Students.

Additional Facts and Policies for Students Withdrawing from a Term in Progress
• Students withdrawing from a term in progress are charged a $75 administrative processing fee.

• Depending on the date of a student’s withdrawal, tuition and other charges will be recalculated based on the Withdrawal Schedule established by the Trustees and published in the Student Fees booklet.

Returning to GS
• Students in good standing on an official leave of absence must notify their GS advisor within a month prior to the start of the term in order to register. Leaves are granted for up to one year. Students who fail to take an official leave, whose leave extends beyond one year, who have taken a medical leave, or who took a leave while on probation must petition to return by completing and submitting a Re-enrollment Application Form (https://gs.columbia.edu/gs-student-forms). Completed re-enrollment petitions are due by August 15 to register for fall-term courses; December 15 for spring-term courses; and May 1 for summer-term courses.

• Students who withdrew from a term in progress or who were required to withdraw must petition to re-enroll by the published deadlines; such students may not begin their re-enrollment with summer term. Late applications are not accepted.

• Undergraduates who are away from GS for more than three years (from the last completed semester at GS), and Postbacs who are away from GS for more than one year, must reapply to GS through the Office of Admissions.

Midterm and Final Exams
Midterm Examinations
Midterms are scheduled at the direction of instructors on various dates throughout the fall and spring semesters. There is no GS policy on make-up exams for missed midterms, and faculty members are not required to provide make-ups. A student who misses a midterm exam due to illness or family emergency should notify both the instructor and his or her GS advisor. Usually it is the student’s responsibility to discuss with the instructor whether a make-up exam is possible. Make-ups for midterms are usually administered by the faculty member.
or the department. Please note that no make-ups for midterm exams may be administered after the semester has ended.

**Midterm Exams and Religious Holidays**

Students should review the syllabus for each of their courses at the beginning of each term to determine if personal religious holiday observances will conflict with the schedule of midterms. Students should notify their instructors in advance of any potential conflicts so that an alternative exam date may be scheduled.

If a suitable arrangement cannot be worked out between the student and the instructor, they should consult the appropriate dean or director of undergraduate studies. It is the policy of the University to respect its members’ religious beliefs (p. 383).

**Final Examinations**

Final examinations are given at the end of each term. The Master Exam Schedule can be found on the University Registrar’s website (http://registrar.columbia.edu/students/grades-and-exams) and provides a tentative guide to final examinations. Students are urged to consult the final examination schedule section in SSOL during the early weeks of each term for the most accurate information. Students are expected to be present for the exam period and should plan their schedules to accommodate the set exam times. Examinations will not be rescheduled to accommodate travel, work, or family plans.

**Three or More Final Exams Scheduled for the Same Day**

If a student has three examinations scheduled during one calendar day, as certified by the Registrar, an arrangement may be made with one of the student’s instructors to take that examination at another mutually convenient time during the final examination period. It is the student’s responsibility to get the appropriate documentation from the Registrar’s Office in a timely manner and to negotiate with instructors an alternative time to take the exam during the official examination period. GS advisors can be helpful to students negotiating such arrangements.

**Deferred Final Examinations**

In cases of incapacitating illness or family emergencies, the GS Committee on Academic Standing (CAS) will consider petitions for a deferred exam. If the exam is to be taken after the end of the semester, such deferrals can only be granted by the CAS, not by the instructor of the course. When an incapacitating illness prevents a student from sitting for a final exam, the student should contact his or her GS advisor on the day of the exam, and, within three days, must provide certification to the GS advisor of the illness by University Health Services or a personal physician. Similarly, in cases of family emergency which may prevent a student from sitting for a final exam, the student should immediately contact his or her GS advisor, who will review the situation and options with the student. The student’s GS advisor will notify the instructor of the student’s absence from the exam. Deferred exams cannot be considered without appropriate documentation, which students must provide to their GS advisors.

Deferred exams approved by the CAS are scheduled on two fixed dates for the spring and fall terms as specified by the Office of the Dean of Students (see the GS Academic Calendar [https://gs.columbia.edu/academic-calendar]); make-up exams cannot be deferred beyond these specified dates. There are no additional make-up opportunities. Students who miss the deferred examinations will receive a grade of zero for that examination. (See Incomplete Work in a Course [http://bulletin.columbia.edu/general-studies/undergraduates/academic-policies/grades/#incomplete]). GS students registered for Summer Term classes must abide by this same policy and process for exams missed during the summer; however, make-up exams for Incompletes in summer courses are administered through the GS Dean of Students Office.

**Examinations for Students with Disabilities**

Students with disabilities must be registered with the Office of Disability Services (http://health.columbia.edu/disability-services) to avail themselves of approved accommodations and other important services. Students with disabilities are expected to take exams with or at the same time as the rest of the class. However, some students may need special accommodations for exams depending on their disabilities. Each term the Office of Disability Services requests that students provide them with complete and advance information about their examination schedule so that appropriate accommodations can be made if disability-related modifications are needed.

**Registration Procedure**

Registration Procedures (p. 396) | Resources and Contacts (p. 396) | Course Prerequisites (p. 396)
Core Registration (p. 397) | Visual Arts Registration (p. 397) | Dance Registration (p. 397)
Physical Education Registration (p. 397) | Cross-Registration (p. 397) | Professional Courses (p. 397)

Registration is the systematic process that reserves seats in particular classes for eligible students. It is accomplished by following the procedures announced in advance of each term’s registration period. Enrollment is the completion of the registration process and affords the full rights and privileges of student status. Enrollment is accomplished by the payment or
other satisfaction of tuition and fees and by the satisfaction of other obligations to the University.

Registration alone does not guarantee enrollment; nor does registration alone guarantee the right to participate in a class. In some cases, students will need to obtain the approval of the instructor or of a representative of the department that offers a course. Please check this website and the registration instructions contained in the Directory of Classes (http://www.columbia.edu/cu/bulletin/uwb) and/or Vergil (https://vergil.registrar.columbia.edu) for all necessary approvals.

REGISTRATION FOR NEW STUDENTS

New students who see their advisors by mid-August for fall term and the end of December for spring term participate in a special early registration process. New students who see their GS advisors after those dates will need to register online during the normal registration period.

REGISTRATION PROCESS FOR ALL STUDENTS

Prior to meeting with their advisors about registration, students should consult the GS website in order to plan a schedule of classes. The website provides major requirements and current course descriptions, as well as times and locations of classes. Students may also consult the Directory of Classes for detailed information. Students plan their programs with the help of their GS advisors, and, for those who have declared their majors, with the additional assistance of faculty advisors. The advisor must approve the original program as well as any subsequent changes. If any course requires permission of the instructor or department, a student is responsible for obtaining that permission. Registration for courses in divisions of the University not listed on the GS website requires permission from the Office of the Dean of Students. See Additional Academic Opportunities for more information.

After receiving the approval of the advisor on the registration form or electronically, students are permitted to register online via SSOL during registration, the change of program period (typically, the first two weeks of each semester and designated registration weeks throughout the summer months), and shortly thereafter under special circumstances. The dates for these registration periods are published in the GS Academic Calendar and on the Registrar’s Academic Calendar. Students will need their University Network Identification (UNI), Network Password, and all relevant course numbers and call numbers in order to complete the registration process. All students are strongly advised to participate in the early registration period for each term that allows them to reserve seats in courses for the following semester.

CANCELATIONS AND CHANGES TO REGISTRATION

Canceling Registration

Students who decide to defer their admission, take a leave of absence, or not matriculate at GS after having registered for classes must contact their GS advisor to initiate the withdrawal process required for canceling registration. Failure to complete this mandatory administrative procedure in a timely fashion will result in the student being liable for tuition and associated fees for the term in question.

Changes to Registration

Students are able to make changes to their registration online during the registration and change of program periods each semester, but all changes must be approved by the student’s academic advisor.

Registration Holds

A “hold” on an account prevents a student from being able to register. Students may check for holds by logging on to Student Services Online (SSOL). Possible reasons for having a hold include significant debt to the University (financial hold); failure to provide evidence of required inoculations (health hold); overdue library books (library hold); or other academic, disciplinary, or administrative reasons designated by GS (dean’s hold). Students with a dean’s hold must contact their GS advisor.

REGISTRATION RESOURCES AND CONTACTS

Columbia University Directory of Classes
Vergil (https://vergil.registrar.columbia.edu)
Online Registration: Student Services Online
Online Registration Instructions (http://registrar.columbia.edu/content/registration-instructions)
University Registrar (http://registrar.columbia.edu)

COURSE PREREQUISITES AND INSTRUCTOR APPROVAL

Prerequisites are specified in the individual course listings available in Course Offerings. Prior to registering for courses, students should ensure they have met the prerequisites for each course. If prerequisites are not specified for upper-level courses, students are advised to consult with the instructor prior to the first day of class. Students should not register for courses if they have not met the stated prerequisites. However, in exceptional cases, students may be granted permission, to enroll in such courses by demonstrating to the instructor that they have competence equivalent to the prerequisites. The instructor will indicate permission by signing the student’s Registration Adjustment form in the column marked
“Instructor Approval.” The form should then be signed by the student’s GS academic advisor, who will forward the registration form to the Registrar’s Office to enroll the student in the course. Some courses, especially seminars and colloquia, require the instructor’s permission even when the student does have the prerequisites; students using the online directory of courses should note whether instructor approval is required.

Instructor permission may also be granted electronically via SSOL in cases where courses have an electronic wait list. Students may choose within SSOL to place themselves on course wait lists, which are of two varieties: either filled automatically on a space-available basis or filled by the course instructor based on student qualifications. Once a student is admitted to the course, the student is notified that s/he has been enrolled in the course and removed from the wait list.

Several departments that limit enrollment in their upper-level seminars and colloquia have special application processes. Priority enrollment in these seminars is often given to majors and seniors. Students are responsible for following special application or registration processes specified by individual departments for these limited-enrollment courses.

**Registration for Core Courses**

Students interested in registering for Core courses or petitioning to transfer sections should consult the Core Registration and Petitions page.

**Registration for Visual Arts Courses**

It is not possible to register online for visual arts courses; students must follow a procedure that is different from registering for most other courses. Some visual arts courses require that students show a portfolio prior to registration. Most visual arts courses require that students attend the first two days of class to ensure their spot and then secure the written permission of the instructor. Students should take a Registration Adjustment form with them to the first meeting of the class. Preference in visual arts classes is given to majors. For more information about registering for Visual Arts classes see Visual Arts Registration.

**Registration for Dance Courses**

Registration for dance classes is by permission of the instructor. GS students registering for a dance class must register for at least one point: GS students may not register for a zero-point dance class.

**Registration for Physical Education Courses**

Registration for Physical Education courses (see Electives) must be handled with the Registration Adjustment Form during the first week of each term.

**Cross-registration into Other Columbia Divisions**

Students who wish to take courses in one of Columbia’s graduate or professional schools or programs must receive written approval from both GS and the appropriate graduate or professional school or program, as well as the instructor of the course, and must also submit a Cross-Registration petition (https://gs.columbia.edu/gs-student-forms/#registration). The student should have completed one semester and 15 points of letter-graded Columbia coursework and be in good standing within the School to be eligible to petition for coursework in another school. All work for these courses must be completed within the term in which the student is enrolled.

**Note:** GS students are not allowed to register for professional courses administered through the School of Professional Studies unless that course is cross-listed within an Arts & Sciences department or program offering an undergraduate major or concentration.

**Limit on Professional Courses Counted Toward the Degree**

GS students are permitted 6 points of professional studies coursework toward their GS degrees. Those 6 points may be counted in transfer credits or courses completed at Columbia, or a combination thereof. Exceptions to this rule include GS students accepted into the combined or dual degree programs with Columbia’s Schools of Business, Law, or International and Public Affairs. Courses which are cross-listed with undergraduate departments do not count toward this limit.

**Study Away from Columbia**

After matriculating at General Studies, permission to take courses toward the GS degree at an accredited U.S. institution of higher education other than Columbia is granted by special petition only in exceptional cases when critical areas of study relevant to a student’s undergraduate program are not available at Columbia. Such exceptional accommodations are usually granted only once during a student’s degree program at GS. Students petitioning for this exception must be in good standing at Columbia. Credits from non-Columbia programs will be counted toward the GS degree as long as the maximum number of allowable transfer credits does not exceed 60.
PETITIONING TO TAKE COURSES AWAY FROM COLUMBIA

With the exception of approved study abroad programs, GS rarely approves petitions for students to have credits from another academic institution count toward the GS degree after a student has matriculated at GS. Students who believe they have exceptional reasons to submit such a petition should meet with their respective GS advisors. Petitions to take courses away from Columbia must be made in advance of the study away program; credit will not be granted retroactively. As part of the formal petition process, students will also be required to provide departmental approval from their major departments for any courses taken away from Columbia that they wish to count towards their major requirements.

Students may not enroll concurrently at another academic institution unless such dual enrollment has been authorized by the GS Dean of Students Office; such work will not count toward the GS degree unless approved in advance.

SUMMER COURSES

Students may accelerate their progress to the degree by taking required and/or elective courses during Columbia’s Summer Term (http://ce.columbia.edu/summer/columbia-students), which runs from late May through mid-August. Given the intensive nature of these courses, as well as the fact that the summer term includes courses that do not count toward the degree, GS students are cautioned to choose their summer term classes in consultation with their GS academic advisors, who will provide advance approval of their summer course selections.

GS students may take a maximum of 15 points for the entire summer term, with no more than nine points in either of the six-week sessions or in overlapping sessions. Students should consult with their departments for specific policies or course restrictions when taking courses to be applied toward their major.

With the exception of a small number of courses approved by the Premedical Committee, premedical students are strongly advised against taking their required science courses in the summer. Medical schools generally prefer that coursework be completed during the regular terms of enrollment; the Postbaccalaureate Premedical Program does not permit students to enroll in science classes in the summer, except to take preparatory courses, math, laboratory courses, and the twelve-week Physics II and General Chemistry II courses. The reason for this restriction is a concern that the compressed schedule of summer classes is a less effective way to learn and leaves students ill-prepared for subsequent courses and for the MCAT. Premedical students should make sure they have the approval of their premed advisors prior to enrolling in summer term science courses.

For more information about taking summer courses as a GS student, including information about fulfilling core and major requirements, please see below.

CURRENT LIST OF SUMMER SESSION COURSES

TRANSFERS WITHIN COLUMBIA

No student enrolled at the School of General Studies may submit an application as a new student to Columbia College or the School of Engineering and Applied Science while still enrolled in, on leave from, or suspended from the University.

TRANSFERRING FROM GS TO ANOTHER COLUMBIA OR AFFILIATED UNDERGRADUATE SCHOOL

Undergraduates enrolled in the School of General Studies, including Joint Program students, who are interested in transferring to another Columbia or affiliated undergraduate school (Columbia College, the Fu Foundation School of Engineering and Applied Science (SEAS), Barnard College, or List College of the Jewish Theological Seminary) should not submit a transfer application to any of those schools without prior consultation with their respective GS advisors. Transfer applications from GS to Columbia College, SEAS, or the Joint Program with List College will not be considered by those schools without a written endorsement from the GS Dean of Students. Endorsements are limited to those students in good standing who have sound academic reasons for seeking to transfer from GS. Joint Program students who are considering the submission of a transfer application to one of the Columbia undergraduate schools, including GS, should also discuss the matter with their respective GS and JTS advisors; transfer to GS is not automatic for Joint Program students and requires a new application to GS through the Office of Admissions.

TRANSFERRING FROM CC/SEAS TO GS

SEAS and Columbia College students considering a transfer to the School of General Studies should seek advice from their Class Deans. Students currently enrolled within CC or SEAS, or students who have been away from CC or SEAS for fewer
than three years, must have the support of their academic deans before applying for admission to the School of General Studies; transfer applications to GS from CC or SEAS students will not be accepted without the written endorsement of the relevant school dean. The appropriate academic deans from CC or SEAS should consult with the GS Dean of Admissions on cases where the student is returning after a break of fewer than three years. In cases where the student has been away from CC or SEAS for more than three years, express support from the CC/SEAS academic dean is not required, but may be helpful in the admission process. In all cases, applicants to the School of General Studies must have a break of at least one academic year or have compelling personal or professional reasons for part-time attendance to be eligible to apply for admission.

### Applying to Other Undergraduate Schools of Columbia University

Applicants may not simultaneously apply to the School of General Studies and to the other undergraduate divisions of Columbia University, Columbia College (CC) or the Fu Foundation School of Engineering and Applied Science (SEAS). Candidates are also ineligible to apply to the School of General Studies if in the last three years they applied to either of these divisions and were not accepted.

### Academic Resources

In addition to the undergraduate courses, majors, and programs offered through the Faculty of Arts & Sciences, GS students may enhance their learning experience with other kinds of academic opportunities, including study abroad, fellowships, internships, and study within some of Columbia University’s graduate and professional schools. Most of these opportunities have eligibility requirements and some have application procedures and deadlines. Students should consult with their GS advisors about how these other programs may fit into their plan of study.

### Honor Society

#### Honor Society

The Honor Society of the School of General Studies was formed to celebrate exceptional GS undergraduates committed to intellectual discovery and academic excellence. The only group of its kind at the University, the Honor Society provides a unique opportunity for students to interact with other members, faculty associates, and alumni at events during the year. Criteria for membership include a GPA of at least 3.8, a minimum of 30 completed Columbia points, and a minimum of 60 total completed points. Students may not apply for membership. A ceremony of induction is held once or twice each academic year, and members continue to be part of the Society after graduation.

### Independent Study

Independent study and research provides an opportunity for students to work one-on-one with a faculty member through directed reading or supervised research. Normally independent study is reserved for students at an advanced level within their majors. Students should consult with their respective major or departmental advisors about requirements and limits for independent study, which vary from department to department.

Students are advised to approach faculty members about independent study as early as possible, since many instructors limit the number of students they will supervise in a given semester or year. Some departments require that the Director of Undergraduate Studies approve the independent study. As part of the proposal and approval process, students must specify, in consultation with the faculty supervisor, the number of points to be earned for the independent study. Students must designate the number of points to be earned when registering for independent study.

Students may count no more than 12 points of independent study toward the degree, and may register for no more than one independent study per term. If a student wishes to undertake an independent study program involving more points than the number permitted, he or she must have the approval of the Director of Undergraduate Studies and the GS Committee on Academic Affairs.

### Funding for Individual Academic Research

The GS Office of Academic Affairs may provide a one-time stipend of up to $250 to students partaking in academic endeavors that are often not covered by traditional financial aid. These opportunities may include academic conferences, unique research opportunities, and visits to museums and other cultural institutions of interest and relevance.

In order to apply for funding, students are requested to submit the following documentation:

2. Supplementary statement: Students must provide a supplementary statement explaining the nature of the event or initiative, and how their participation or attendance will
enhance their undergraduate experience. Statements should not exceed one page in length.

3. Event/initiative-related documentation: Invoices, receipts, flyers, proof of payment, and brochures that provide the cost of participation and logistical details (date and location of the event, etc.).

Completed applications and supplementary documentation may be submitted electronically to gsacademicaffairs@columbia.edu; alternatively, hard copies may be submitted to 612 Lewisohn Hall. Students will receive a confirmation email from the Office of Academic Affairs upon approval of their applications. Questions regarding eligibility or the funding process may be directed to gsacademicaffairs@columbia.edu.

**Senior Thesis Stipend**

The School of General Studies offers a small stipend ($250) to defray associated expenses for GS seniors working on a senior thesis or honors project.

Eligible students should submit the application form (http://www.gs.columbia.edu/gs-student-forms/#thesis) by the appropriate deadline:

- November 15 for fall-term or academic-year thesis projects
- March 1 for spring-term thesis projects
- May 1 for calendar-year or EALAC senior thesis projects for the next academic year

Deadlines that fall on a Saturday, Sunday, or University holiday will be moved to the next business day.

**Human Subjects Research**

Students interested in conducting research that will involve human subjects may need special approval from the Institutional Review Board (IRB) to do this work. Students should review the Human Subjects Research (p. 389) page for more information.

**Study Abroad**

Eligibility (p. 400) | Application Process (p. 400) | Transfer Credits (p. 401)  
Studying Abroad in Last Semester (p. 401)  
Fee Information (p. 401) | Contact (p. 401)

Study abroad programs provide a wonderful opportunity to enhance a Columbia education, especially given the numerous programs either sponsored or approved by Columbia in foreign countries around the world. All study abroad programs, including Columbia-sponsored study abroad programs, must be approved by the appropriate GS Study Abroad Advisor (p. 401). Students may be approved for a total of three terms (inclusive of summer) however, students will need to have good academic reasons for studying abroad for multiple or extended programs.

**Eligibility**

GS students who have a minimum GPA of 3.0 and are in good academic and disciplinary standing are eligible for study abroad. Prior to going abroad on an approved program, students are expected to have begun language study and taken at least one course, other than a language, related to the region of the world in which they plan to study. Before departing on an approved study abroad program, GS students should have completed at least two semesters and 18 points at GS, have a minimum of 56 points earned toward the degree, and have declared a major. Exceptions to some of these requirements may be granted for students applying to Columbia-sponsored programs.

**Application Process**

Students applying to one of Columbia’s approved study abroad programs must complete the relevant application forms and meet all specified deadlines as well as the GS study abroad clearance and registration forms. Students who wish to study abroad in programs other than those run by Columbia University may petition to do so only if the program is one approved by the Columbia Undergraduate Study Abroad Committee (see Columbia-Approved Study Abroad Programs (p. 401)).

Study abroad approval may be automatically rescinded if a student’s grade point average falls below 3.0, if a student fails to meet good academic and/or disciplinary standing, or if a student has an Incomplete in coursework the term prior to departure. Other conditions as imposed by the GS Study Abroad advisor and/or Dean of Students may apply.

Students interested in studying abroad must start a profile on the Office of Global Programs website to obtain the required Clearance, Course Approval, and Registration forms. Students should visit the Office of Global Programs website to view available programs and start their applications. Please note, the application must be initiated several weeks prior to the relevant clearance dates to ensure that students are able to obtain clearance on time. Students who encounter any difficulty in finding their program or logging into the system should email ogp@columbia.edu (mailto) for assistance. As soon as students have begun their online profiles, they are expected to complete the GS study abroad clearance form and bring the paperwork to a meeting with the appropriate GS study abroad advisor to obtain official clearance to study abroad. Clearance meetings are not required for Columbia-sponsored summer programs. As soon as they have obtained official clearance, students are also expected to meet with the regional advisor in the Office of Global Programs to continue with their specific program.
applications and complete the remaining application forms by the appropriate deadlines.

**Study Abroad Clearance Deadlines**
Spring Semester: October 1
Fall Semester or Summer Term: March 15

**LIMIT ON AND APPROVAL OF TRANSFER CREDITS**
Credits from non-Columbia programs may be counted toward the GS degree, however, a student’s total number of transfer credits (p. 42) may not exceed 60. Students should meet with their GS academic advisors to discuss their eligibility and plans to study abroad before scheduling their clearance meeting with a GS study abroad advisor.

If a student wishes to have courses from a particular study abroad program count toward major requirements in a department, the student must consult the relevant academic department separately for approval. Courses that are not approved by GS for transfer credit cannot be counted by a department toward major or concentration requirements.

**STUDYING ABROAD IN YOUR LAST SEMESTER AT GS**
Seniors who elect to study abroad while completing their last semester of coursework for the degree must meet with their respective GS advisors to apply for graduation prior to going abroad. This option is typically only open for students attending Columbia-sponsored study abroad programs.

Students should note that their degree conferral date may depend on the actual completion date of the study abroad program, especially for those programs wherein the academic calendar ends later than the Columbia University Arts & Sciences Calendar.

**STUDY ABROAD FEE**
Students studying abroad on non-Columbia-sponsored programs are charged an administrative fee of $750 per semester. (Summer study counts as one semester.)

**CONTACT**
For study abroad-related questions, please email gstudyabroad@columbia.edu.

**COLUMBIA-SPONSORED PROGRAMS**
Columbia-sponsored programs are administered by the Columbia University Office of Global Programs. Columbia is continually working towards building a network of opportunities around the world designed to provide a broad portfolio of international options to its undergraduates. Reviewed and approved by the Faculty Committee for Study Abroad, Columbia students can choose to study during the semester/academic year or during the summer in over 150 programs in over 100 cities for academic credit.

**COLUMBIA-APPROVED PROGRAMS**
Columbia-approved programs are not administered by the University, but have been approved by the Columbia Undergraduate Committee on Study Abroad.

All Columbia-approved programs are listed on the Office of Global Programs website.

**NON-APPROVED PROGRAMS**
If the country in which a student wishes to study is on the approved list, but the particular study abroad program or university is not on the list for that country, the program will likely not be approved by Columbia. However, if students have compelling academic reasons for preferring a particular program over one of the approved programs, they may present their rationales via petition to the GS Director of Study Abroad. Petitions are reviewed in consultation with the Office of Global Programs.

**STUDY WITHIN COLUMBIA'S GRADUATE AND PROFESSIONAL SCHOOLS**

- Professional Schools (p. 401)
- Cross-Registration Policies (p. 402)
- Professional School Offerings (p. 12)
- Limit on Courses Counted Toward Degree (p. 403)
- Joint and Combined Programs (p. 403)

**GRADUATE AND PROFESSIONAL SCHOOLS**
A limited number of courses in Columbia’s graduate and professional schools are open to undergraduates. Students may take a maximum of two courses (6 points) for elective credit in professional courses toward the 124 points necessary for their degree. Those students who wish to take a graduate or professional course and not count it toward the 124 points necessary for the undergraduate degree should review
this option with their respective GS advisors. In addition, the following Columbia graduate and professional schools offer undergraduate level courses specifically designed for undergraduate students, for which no cross-registration process is needed: Business School, School of the Arts, School of Journalism, and Mailman School of Public Health.

To enroll in a course at one of Columbia’s graduate or professional schools, students must have approval from GS. Students should consult their GS advisors to request a cross-registration petition form, which is required as part of the approval and registration process. Students must follow the cross-registration policies established by the various graduate and professional schools, must have permission to enroll from the instructor of the course, and in some instances must have the permission of the school in which the course is offered. A student must have completed one semester and 15 points of Columbia coursework and be in good standing within GS to be eligible to petition for coursework in another school. If a course is cross-listed within the course offerings of an undergraduate program or department, students do not need to file a special petition.

Students who enroll in graduate or professional courses with the permission of GS are still bound by GS policies regarding drops, withdrawals, Pass/D/Fail, and incompletes. Students are not permitted to hand in coursework after the official end of term, even if the graduate-level course permits or encourages extensions, unless the student has been approved for an incomplete (see Incompletes (p. 387) in Academic Policies). All work for these courses must be completed within the term in which the student is enrolled.

In every instance of cross-registration in one of the graduate or professional schools, GS students must complete the Cross-registration Petition (https://gs.columbia.edu/gs-student-forms/#registration) and be approved by the appropriate offices. Following is a list of schools that allow undergraduates to register for courses and their policies regarding enrollment of GS students. Students interested in cross-registering into a school not on this list should consult their GS advisors.

**CROSS-REGISTRATION POLICIES**

**Barnard:** Cross-registration into Barnard courses has no restrictions unless so indicated in specific programs and course descriptions. Barnard students have priority of enrollment over Columbia students in all Barnard courses.

**Barnard Education Program:** Courses in the Barnard Education Program are open only to students who have been admitted to the program.

**The Fu Foundation School of Engineering and Applied Science:** Cross-Registration into Engineering courses has no restrictions unless so indicated in specific programs or course descriptions. In such cases, a maximum of two courses may be taken on a space-available basis. This limit does not apply to students in the 3-2 Combined Plan program (http://www.studentaffairs.columbia.edu/admissions/engineering/combined) or to computer science majors or concentrators.

**Graduate School of Architecture, Planning, and Preservation:** Lectures may be taken on a space-available basis by qualified undergraduates. Undergraduates are not allowed to enroll in any seminars or studio courses.

**Graduate School of Arts & Sciences:** Qualified undergraduates may take graduate-level courses in the department in which they are majoring with the permission of the instructor and the director of undergraduate studies in the department. Qualified students who wish to take graduate-level courses outside their major must have the permission of the instructor and their GS advisors, as indicated on the GS cross-registration form.

**Law School:** Courses may be taken only by students in the Accelerated Interdisciplinary Legal Education (AILE) program, a joint-degree program. Students must have signed permission from the Law School Office of the Assistant Dean of Academic Services, 500 William and June Warren Hall.

**Mailman School of Public Health** (p. 403): Students who have been accepted into the GS/Mailman Accelerated MPH program may cross-register for one elective course at Mailman during their senior undergraduate year. The course will count toward the undergraduate degree. A list of eligible courses can be found here (http://www.gs.columbia.edu/files/gs/mailman-courses.pdf).

**School of the Arts:** Graduate courses may be taken on a space-available basis by qualified undergraduates.

**School of Business:** Courses may only be taken on a space-available basis by seniors who have completed the required prerequisites. Students must have a signed petition form from their respective GS advisors. Registration and Change of Program deadlines in the School of Business are often earlier than those for GS.

**School of International and Public Affairs:** Normally SIPA courses may only be taken by students in one of the approved five-year combined degree programs (http://new.sipa.columbia.edu/academics/programs/columbia-dual-degree-programs/the-five-year-program). In exceptional cases, other students may be allowed to enroll in a particular course, but must have signed permission from the SIPA Student Affairs office on the 6th floor of the IAB.

**School of Journalism:** Courses may be taken on a space-available basis, but this option is usually restricted to seniors. Students must have signed permission from the School of Journalism Office of the Associate Dean of Academic Affairs, 407E Journalism.

**School of Social Work:** Courses may be taken on a space-available basis.
Teachers College: In general, GS students are not allowed to register for courses at TC. Most inquiries about course registration at TC relate to their offerings in musical instruction and conflict resolution; GS students are directed to enroll in courses offered in these fields through Columbia’s Faculty of the Arts & Sciences. GS students cannot enroll in music instruction courses at TC. Petitions for other coursework at TC to count toward the GS degree must be submitted to the Committee on Academic Affairs through the student’s GS advisor.

Limit on Graduate and Professional Courses Counted toward the Degree

GS students are permitted only 6 points of graduate or professional studies coursework toward their GS degrees. Those 6 points may be counted in transfer credits or courses completed at Columbia, or a combination thereof. Exceptions to this rule include GS students accepted into the combined programs with Columbia’s Schools of Business, Law, Social Work, or International and Public Affairs.

Joint and Combined Programs

GS supports several dual-, combined-, and joint-degree programs with Columbia’s graduate and professional schools. Students must be specially nominated for these programs and only highly qualified candidates will be considered. The minimum requirements for a nomination for most of these highly competitive programs include a minimum GPA of 3.5, a minimum of 60 points completed toward the degree (of which at least 30 letter-graded points must have been earned at GS), and satisfactory and relevant professional experience.

Students are normally expected to complete their core requirements and be a declared major prior to enrollment in combined programs. More information about the application process and requirements for these programs will be provided to qualified students. Following are the schools and programs to which GS may recommend highly qualified candidates for combined degrees:

• College of Dental Medicine
• Columbia Law School
• Columbia Business School
• The Fu Foundation School of Engineering and Applied Science (http://www.studentaffairs.columbia.edu/admissions/engineering/combined)
• Mailman School of Public Health (p. 403)
• The Program in Occupational Therapy, CUMC
• The School of International and Public Affairs (http://new.sipa.columbia.edu/academics/programs/columbia-dual-degree-programs/the-five-year-program)
• The School of Social Work

Contact

Qualified students should discuss their interest in one of these programs with the GS Dean of Academic Affairs, Victoria Rosner (vpr4@columbia.edu vpr4@columbia.edu) and attend the information sessions about these programs sponsored by the Dean of Students Office and the individual schools.

M.P.H. Program

Mailman School of Public Health Accelerated M.P.H. Program

The Columbia University Mailman School of Public Health (http://www.mailman.columbia.edu) allows highly-qualified students to study for and receive a Master of Public Health (MPH) degree during the year following graduation from GS by pursuing the General Public Health track (http://publichealth.columbia.edu/degree-programs/accelerated-mph/general-public-health) within the Mailman Accelerated M.P.H. program (http://publichealth.columbia.edu/degree-programs/accelerated-mph).

Program Overview

The General Public Health track offers students broader participation in the field of public health as well as formal training in the methods and substantive areas of public health; moreover, it provides a superb foundation for medical education. The General Public Health track (http://publichealth.columbia.edu/degree-programs/accelerated-mph/general-public-health) also includes a practicum experience, which provides students with opportunities to apply their academic training within a work setting.

Curriculum

The structure of the one-year degree program (http://publichealth.columbia.edu/degree-programs/accelerated-mph) includes five components, carefully timed and integrated, so that learning in one part of the program informs activities and assignments in another.

Students begin the program by immersing themselves in the Mailman Core Curriculum (http://publichealth.columbia.edu/degree-programs/accelerated-mph/the-core), which offers grounding in the history and methods of public health, as well as foundational studies of biological and environmental determinants of health; social, behavioral, and structural determinants of health; methods for public health research and programming; and health systems.

Rather than focus on a single discipline within public health, students in the General Public Health track (http://publichealth.columbia.edu/degree-programs/accelerated-mph/...
general-public-health) draw their coursework from departments and certificate programs throughout the Mailman School.

In addition, each student is expected to develop and demonstrate improved skills in a technical area, such as research design, program evaluation, health education, health program planning, or administration, as well as select from the School’s curriculum, in consultation with their academic advisor, those courses that help meet this objective.

Advising
Each student’s program is planned individually in consultation with a Mailman advisor.

Admissions
Eligibility
Students are eligible to apply for this program if they:

- have completed the Core curriculum, declared a major, and maintained a cumulative GPA of at least 3.0
- have received a grade of B+ or better in University Writing
- have taken a mathematics or statistics course at Columbia
- have a minimum of one year (two preferred) of work experience in a health-related field.

Application Requirements
The following materials must be submitted as part of the required application:

- Required Application | SOPHAS Application Service (http://www.sophas.org)
- Academic transcripts from undergraduate institution(s), including GS
- Three letters of recommendation

Contact
For more information on the Accelerated M.P.H. Program, students should contact their respective academic advisor (http://gs.columbia.edu/dean-of-students-office-personnel).

POSTBACCALAUREATE PREMEDICAL PROGRAM
2017-2018 | ACADEMIC POLICIES

Academic policies are set by the Faculty of Arts and Sciences and the academic administration of individual schools within the Arts and Sciences.

Students in the School of General Studies are expected to familiarize themselves with GS policies. Students seeking clarity on academic policies should consult with their GS advisors.

CURRICULUM AND COURSES

COURSE REQUIREMENTS

The academic curriculum of the Postbaccalaureate Premedical Program is designed to fulfill the prerequisites for medical school admission. Because course requirements for medical school can vary, our premedical curriculum is designed to prepare Postbac Premed students to train anywhere in the nation. For the sequencing of the following required courses, please review the program timetables: traditional (p. 405), part-time (p. 406), or accelerated (p. 407).

While enrolled in the program, students must fulfill all requirements with courses offered by Columbia’s Faculty of Arts & Sciences and they are expected to have their advisors approve their programs of study. In addition to the following courses, students must gain at least 120 hours of health care experience (http://gs.columbia.edu/postbac/clinical-and-research-opportunities).

English
One year of college English or the equivalent is required. Most Postbac Premed students have completed this requirement as undergraduates and do not need to complete course work in English at Columbia. Students should inform their advisors early on when they are especially interested in particular medical school programs (linkage or non-linkage), since some may have specific requirements for this subject of study.

Mathematics
Students are required to complete one year (6 points) of college mathematics beyond pre-calculus, consisting of one term of calculus and one term of statistics. (Some students elect to take a second semester of calculus instead of statistics.)
If a student has not already successfully completed Calculus I, it may be taken as a co-requisite of Physics I or General Chemistry I.

**Mathematics Courses (p. 413)**

**Biology**

Students are required to complete one year (6 points) of biology emphasizing biochemistry, genetics, evolution, cell biology, developmental biology, and physiology, and one semester (3 points) of biology lab involving dissection, experimentation, and data analysis. Students may take the laboratory course in either the fall or spring semester or in the first summer session after the completion of the year of biology.

**Biology Courses (p. 408)**

**Chemistry**

Students are required to complete one year (8 points) of general chemistry and one semester (3 points) of general chemistry laboratory. The General Chemistry sequence must be completed before taking Biology or Organic Chemistry. General chemistry lecture courses have corresponding, mandatory recitations. The laboratory course has a mandatory one-hour laboratory lecture course associated with it, and should be taken alongside or after General Chemistry II. AP credits cannot be used to fulfill the general chemistry requirement.

Chemistry is a course sequence that students may begin in the fall or spring term. Students who enroll in Chemistry I in the spring should plan to take the 12-week Chemistry II course in the summer.

**Chemistry Courses (p. 409)**

**Organic Chemistry**

Students are required to complete one year (8 points) of organic chemistry. Organic chemistry lecture courses have corresponding, mandatory recitations. Students are also required to take 1.5 points of organic chemistry lab along with a one-hour mandatory laboratory lecture in both fall and spring semesters (for a total of 3 points). Alternatively, with the exception of linkage applicants, students may take a 3-point lab over a six-week summer session after completing the lecture sequence.

**Organic Chemistry Courses (p. 410)**

**Physics**

Students are required to complete one year (6 points) of general physics and one year (2 points) of general physics laboratory. Physics is a course sequence that students may begin in the fall or spring term. Students who enroll in Physics I in the spring should plan to take the twelve-week Physics II course in the summer as it is not offered in the fall. If a student has not already successfully completed Calculus I, it may be taken alongside Physics I.

**Physics Courses (p. 411)**

**Psychology (Recommended)**

Premeds who have not previously studied psychology at the college level should consider enrolling in The Science of Psychology (PSYC UN1001) in order to be fully prepared for the MCAT.

Psychology Courses (p. 414)

**Sociology (Recommended)**

Given the MCAT Exam’s increased emphasis on social sciences, students who have not previously taken a college-level sociology course are encouraged to prepare for the exam through self-study. The completion of a sociology course is not a prerequisite for medical school.

**SAMPLE SCHEDULE**

The premedical academic program can be tailored to meet the needs of the individual student. The tables in this section illustrate several options: a traditional sequence (p. 405), a part-time sequence (p. 406), and, for those students who are prepared to begin General Chemistry and Physics, an accelerated sequence (p. 407).

Information is also given on summer enrollment (p. 423) for students who may need to begin their studies in the summer before their first fall enrollment to prepare for mathematics, chemistry, and/or physics.

**TRADITIONAL PROGRAM SEQUENCE**

Academic programs and schedules can be designed in many ways to best meet individual needs. The following is an example of a traditional program sequence.

Course selection and program sequencing will vary based on the student’s prior academic record and preparation. Decisions about the academic program should be made in consultation with an academic advisor.

<table>
<thead>

</tr>
</tbody>
</table>
**PART-TIME SEQUENCE**

A Postbac Premed student beginning part time with the most basic courses might take the following program. Until the third summer, the student could continue to work a full-time job.

The academic program and schedule may be designed to meet each student’s needs. The following is an example of a part-time sequence. Decisions regarding course selection and program sequencing may vary depending on the student’s prior academic record and preparation. These decisions should be made in consultation with an academic advisor.

* General Chemistry Laboratory (CHEM S1500X (http://bulletin.columbia.edu/search/?P=CHEM%20S1500X)) should be taken concurrently with or subsequent to General Chemistry II.

** Contemporary Biology Laboratory (BIOL UN2501) should be taken concurrently with either Contemporary Biology I: Biochemistry, Genetics & Molecular Biology (BIOL UN2401) or Contemporary Biology II: Cell Biology, Development & Physiology (BIOL UN2402).

ACCELERATED SEQUENCE

An accelerated 18-month premedical program, beginning with January enrollment, is available for those students who are prepared academically to begin Calculus, General Chemistry, and Physics.

The following is an example of an accelerated sequence, and should not replace an informed and comprehensive conversation with an academic advisor.

Program planning decisions may vary depending on the student’s prior academic record, preparation, and circumstances. These should be made in consultation with an academic advisor.

BIOL 2501

BIOL 2501 Contemporary Biology Laboratory. 3 points.

Course Offerings
Science Courses

Biology

BIOL UN2401 Contemporary Biology I: Biochemistry, Genetics & Molecular Biology. 3 points.

Prerequisites: a course in college chemistry or the written permission of either the instructor or the premedical adviser. Recommended as the introductory biology course for science majors who have completed a year of college chemistry and premedical students. The fundamental principles of biochemistry, molecular biology, and genetics. Website: http://www.columbia.edu/cu/biology/courses/c2005/index.html. SPS and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar. registrar. http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf

BIOL UN2501 Contemporary Biology Laboratory. 3 points.

Enrollment per section limited to 28. Lab Fee: $150. Fee: Lab Fee - 150.00

Prerequisites: Strongly recommended prerequisite or corequisite: BIOL UN2005 or BIOL UN2401. Experiments focus on genetics and molecular biology, with an emphasis on data analysis and experimental techniques. The class also includes a study of mammalian anatomy and histology. SPS and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar. http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf

BIOL UN2402 Contemporary Biology II: Cell Biology, Development & Physiology. 3 points.

Prerequisites: a course in college chemistry and BIOL UN2005 or BIOL UN2401, or the written permission of either the instructor or the premedical adviser. Cellular biology and development; physiology of cells and organisms. Same lectures as BIOL UN2006, but recitation is optional. For a detailed description of the differences between the two courses, see the course web site or http://www.columbia.edu/cu/biology/ug/advice/faqs/gs.html. Website: http://www.columbia.edu/cu/biology/courses/c2006/.

SPS, Barnard, and TC students may register for this course, but they must first obtain the written permission of the instructor, by filling out a paper Registration Adjustment Form (Add/ Drop form). The form can be downloaded at the URL below, but must be signed by the instructor and returned to the office of the registrar. http://registrar.columbia.edu/sites/default/files/content/reg-adjustment.pdf
Chemistry

**CHEM UN1403 General Chemistry I (Lecture). 4 points.**

CC/GS: Partial Fulfillment of Science Requirement

Corequisites: MATH UN1101

Preparation equivalent to one year of high school chemistry is assumed. Students lacking such preparation should plan independent study of chemistry over the summer or take CHEM UN0001 before taking CHEM UN1403. Topics include stoichiometry, states of matter, nuclear properties, electronic structures of atoms, periodic properties, chemical bonding, molecular geometry, introduction to quantum mechanics and atomic theory, introduction to organic and biological chemistry, solid state and materials science, polymer science and macromolecular structures and coordination chemistry. Although CHEM UN1403 and CHEM UN1404 are separate courses, students are expected to take both terms sequentially. The order of presentation of topics may differ from the order presented here, and from year to year. Students must ensure they register for the recitation that corresponds to the lecture section. Please check the Directory of Classes for details. Please note that CHEM UN1500 is offered in the fall and spring semesters. Mandatory lab check-in will be held during the first week of classes in both the fall and spring semesters.

### Organic Chemistry

**CHEM UN2443 Organic Chemistry I (Lecture). 4 points.**

Prerequisites: (CHEM UN1403 and CHEM UN1404) or (CHEM UN1604)

The principles of organic chemistry. The structure and reactivity of organic molecules are examined from the standpoint of modern theories of chemistry. Topics include stereochemistry, reactions of organic molecules, mechanisms of organic reactions, syntheses and degradations of organic molecules, and spectroscopic techniques of structure determination. Although CHEM UN2443 and CHEM UN2444 are separate courses, students are expected to take both terms sequentially. Students must ensure they register for the recitation which corresponds to the lecture section. Please check the Directory of Classes for details.

### CHEM UN2493 Organic Chemistry Laboratory I (Techniques). 0 points.

Lab Fee: $63.00

Prerequisites: (CHEM UN1403 and CHEM UN1404) or (CHEM UN1604 and CHEM UN1500) or CHEM UN1507

Corequisites: CHEM UN2443

Techniques of experimental organic chemistry, with emphasis on understanding fundamental principles underlying the experiments in methodology of solving laboratory problems involving organic molecules. Attendance at the first lab lecture and laboratory session is mandatory. Please note that CHEM UN2493 is the first part of a full year organic chemistry laboratory course. Students must register for the lab lecture section (CHEM UN2495) which corresponds to their lab section. Students must attend ONE lab lecture and ONE lab section every other week. Please contact your advisers for further information.

CHEM UN2494 Organic Chemistry Laboratory II (Synthesis). 1.5 point.
Lab Fee: $62.00

Prerequisites: (CHEM UN1403 and CHEM UN1404) and CHEM UN1500 and CHEM UN2493
Corequisites: CHEM UN2444
Please note that you must complete CHEM UN2493 before you register for CHEM UN2494. This lab introduces students to experimental design and trains students in the execution and evaluation of scientific data. The technique experiments in the first half of the course (CHEM UN2493) teach students to develop and master the required experimental skills to perform the challenging synthesis experiments in the second semester. The learning outcomes for this lab are the knowledge and experimental skills associated with the most important synthetic routes widely used in industrial and research environments. Attendance at the first lab lecture and laboratory session is mandatory. Please note that CHEM UN2494 is the second part of a full year organic chemistry laboratory course. Students must register for the lab lecture section (CHEM UN2496) which corresponds to their lab section. Students must attend ONE lab lecture and ONE lab section every other week. Please contact your advisers for further information.

Physics

PHYS UN1201 General Physics I. 3 points.
CC/GS: Partial Fulfillment of Science Requirement

Prerequisites: some basic background in calculus or be concurrently taking MATH UN1101 Calculus I. The accompanying laboratory is PHYS UN1291-UN1292
The course will use elementary concepts from calculus. The accompanying laboratory is PHYS UN1291 - UN1292. Basic introduction to the study of mechanics, fluids, thermodynamics, electricity, magnetism, optics, special relativity, quantum mechanics, atomic physics, and nuclear physics.

Spring 2018: PHYS UN1292
MATH UN1101 Calculus I. 3 points.
Prerequisites: (see Courses for First-Year Students). Functions, limits, derivatives, introduction to integrals, or an understanding of pre-calculus will be assumed.

The Help Room in 333 Milbank Hall (Barnard College) is open during the day, Monday through Friday, to students seeking individual help from the teaching assistants. (SC)

MATH UN1102 Calculus II. 3 points.
Prerequisites: MATH UN1101 or the equivalent. Methods of integration, applications of the integral, Taylor’s theorem, infinite series. (SC)
designs is part of the coursework requirement. Data-collection/analysis project with emphasis on study methods. Graphical and numerical summaries, probability, Designed for students in fields that emphasize quantitative theory of sampling distributions, linear regression, analysis methods. Graphical and numerical summaries, probability, and Deductive Reasoning (QUA). Fulfillment of General Education Requirement: Quantitative CC/GS: Partial Fulfillment of Science Requirement, BC: STAT UN1101 Introduction to Statistics. 3 points. CC/GS: Partial Fulfillment of Science Requirement, BC: Fulfillment of General Education Requirement: Quantitative and Deductive Reasoning (QUA). Prerequisites: intermediate high school algebra. Designed for students in fields that emphasize quantitative methods. Graphical and numerical summaries, probability, theory of sampling distributions, linear regression, analysis of variance, confidence intervals and hypothesis testing. Quantitative reasoning and data analysis. Practical experience with statistical software. Illustrations are taken from a variety of fields. Data-collection/analysis project with emphasis on study designs is part of the coursework requirement.

Psychology (Recommended)

PSYC UN1001 The Science of Psychology. 3 points. CC/GS: Partial Fulfillment of Science Requirement Enrollment may be limited. Attendance at the first two class periods is mandatory.

Prerequisites: BLOCKED CLASS. EVERYONE MUST JOIN WAITLIST TO BE ADMITTED

Broad survey of psychological science including: sensation and perception; learning, memory, intelligence, language, and cognition; emotions and motivation; development, personality, health and illness, and social behavior. Discusses relations between the brain, behavior, and experience. Emphasizes science as a process of discovering both new ideas and new empirical results. PSYC UN1001 serves as a prerequisite for further psychology courses and should be completed by the sophomore year.

Evening Courses

The School of General Studies shares its courses with the other Arts & Sciences divisions of the University. The majority of the courses are day classes, although there are significant evening
School of General Studies

offerings as well. Students can find both introductory and advanced courses offered in the evening, many of which will fulfill core requirements or count toward major requirements. While every Arts & Sciences department offers some evening courses, including sequences of courses in the sciences and some foreign languages, in general it is not possible to fully complete a major by attending evening classes only, and GS students should not count on this as a viable option.

IDENTIFYING EVENING COURSES

Students can search for courses that meet at particular times on specific week days by using the course search tool (http://bulletin.columbia.edu/general-studies/undergraduates/courses).

KEY TO COURSE LISTINGS

Each course number consists of one or two letters denoting the offering university division or target population, as shown in the chart below, followed by four digits denoting the course number (e.g., ENGL GU4103).

For GS students, the most common course prefixes are GS, GU, and UN.

<table>
<thead>

<td>American Language Program</td>
</tr>
<tr>
<td>0</td>
<td>Course that cannot be credited toward any degree</td>
</tr>
</tbody>
</table>

In the four-digit course number, the first digit signifies the level of the course, as follows:

- 1000s: Introductory undergraduate course
- 2000s: Intermediate undergraduate course
- 3000s and 4000s: Advanced undergraduate course
- 5000-9000s: Graduate-level courses

Two consecutive numbers joined by a hyphen show that the course runs through both the fall and spring terms (e.g., HIST UN1091-1092).

The courses offered by each department are arranged in ascending numerical order, with the number of points of academic credit following the title of the course.

NEWLY APPROVED COURSES

Hundreds of new courses are added to the Columbia undergraduate curriculum each year. So that students may be apprised of these offerings, new courses are collected on this page. Students are encouraged to check back periodically to review these new offerings.

SUMMER 2018 NEWLY APPROVED COURSES

ENGL S3237D Toni Morrison and Octavia Butler
ENGL S3915D The Art of the Essay
### 2017-2018 Newly Approved Courses

#### Film
- FILM OC4200 Discovering French Cinema
- FILM S4220Q Animation Film History

#### French
- FREN OC3821 "Blackness" in French: From Harlem to Paris and Beyond

#### Journalism
- JOUR S3017D Reporting Political Violence in Latin America

#### History
- HIST S3116D History of Capitalism
- HIST S3785D Archives of Colonialism

#### Italian
- ITAL OC4016 Mediterranean Venice: Living and Losing a Maritime Empire

#### Modern Greek (Classics/ Hellenic Studies)
- GRKM S3935D Hellenism and the Topographical Imagination

#### Music
- AHMM S3321Q Music of India and West Asia
- MUSI S2020D Salsa Soca Reggae

#### Political Science
- POLS S1101D Political Theory I

#### Psychology
- PSYC S2490D Evolutionary Psychology

#### Religion
- RELI S4322D Exploring Sharia: Islamic Law
- RELI S4355D African American Prophetic Political Tradition

#### Statistics
- STAT S4221D Time Series Analysis

### Spring 2018 Newly Approved Courses

#### Last update: 1/12/18

#### Anthropology
- ANTH UN2071 MATERIAL RELIGION
- ANTH GU4235 AFTERLIVES: MORTUARY ARCHAEOLOGY IN HISTORY AND THEORY

#### Architecture
- ARCH UN3123 Spaces and Territories of Housing
- ARCH UN3400 ENVIRONMENTAL VISUALIZATIONS OF NYC

#### Art History and Archaeology
- AHIS UN2119 Rome Beyond Rome: Roman Art and Architecture in a Global Perspective
- AHIS UN2309 Early Modern Architecture (1550-1799)
- AHIS UN3227 Gotham City Gothic
- AHIS UN3312 Tintoretto – 500 Years
- AHIS UN3317 Shaping Renaissance Rome
- AHIS UN3318 Books and Architecture
- AHIS UN3435 Post-Pop: Intersections of Contemporary Art and Music
- AHIS UN3436 Illegal America: Precarity, Community, and the Alternative Space Movement
- AHIS UN3604 Sacred Landscapes of Japan
- AHIS GU4074 Latin American Artists: Independence to Present
- AHIS GU4551 Arts of African Kingdoms
- AHIS GU4566 Streams and Mountains: The Art of Landscape Painting in China
- AHIS GU4641 Russian Constructivism
- AHIS GU4648 Building Fascisms

#### Biology
- BIOL GU4080 The Ancient and Modern RNA Worlds
- BIOL GU4290 Biological Microscopy

#### Business (Undergraduate)
- BUSI UN3704 Making History Through Venturing

#### Center for the Study of Ethnicity and Race
- CSER UN3942 Race and Racisms

#### Chemistry
- SCNC UN1800 Energy and Energy Conservation
- CHEM GU4154 Chemical Characterization for Synthetic Chemists

#### Classics
- CLLT UN3127 Hercules: Hero, Murderer, Philosopher, Buffoon
- CLGM UN3005 Dictatorships and their Afterlives
- CLGM UN3110 The Ottoman Past in the Greek Present
- CLGM GU4150 C.P. Cavafy and the poetics of desire

#### Institute for Comparative Literature and Society
- CPLS GU4320 Marginalization in Medicine: A Practical Understanding of the Social Implications of Race
- CPLS GU4355 The Radical Imagination: An Introduction to Castoriadis

#### Earth Institute
- SDEV GU4350 Public Lands in the American West

#### Earth and Environmental Sciences
- EESC UN3400 Introduction to Computational Earth Science
- EESC GU4220 Glaciology

#### East Asian Languages and Cultures

</table>
Students may accelerate their progress to the degree by taking required and/or elective courses during Columbia’s Summer Term (http://ce.columbia.edu/summer/columbia-students), which runs from late May through mid-August. Given the intensive nature of these courses, as well as the fact that the summer term includes courses that do not count toward the degree, GS students are cautioned to choose their summer term classes in consultation with their GS academic advisors, who will provide advance approval of their summer course selections.

GS students may take a maximum of 15 points for the entire summer term, with no more than nine points in either of the six-week sessions or in overlapping sessions. Students should consult with their departments for specific policies or course restrictions when taking courses to be applied toward their major.

With the exception of a small number of courses approved by the Premedical Committee, premedical students are strongly advised against taking their required science courses in the summer. Medical schools generally prefer that coursework be completed during the regular terms of enrollment; the Postbaccalaureate Premedical Program does not permit students to enroll in science classes in the summer, except to take preparatory courses, math, laboratory courses, and the twelve-week Physics II and General Chemistry II courses. The reason for this restriction is a concern that the compressed schedule of summer classes is a less effective way to learn and leaves students ill-prepared for subsequent courses and for the MCAT. Premedical students should make sure they have the approval of their premed advisors prior to enrolling in summer term science courses.

For more information about taking summer courses as a GS student, including information about fulfilling core and major requirements, please see below.
CURRENT LIST OF SUMMER SESSION COURSES

HISTORY AND PHILOSOPHY OF SCIENCE

The University offers a number of courses in the history and philosophy of science, although it does not, at this time, offer a major or concentration to undergraduates in Columbia College or General Studies. The course listings bring together a variety of courses from different disciplines, which should be of interest to anyone wishing to pursue work in the history and philosophy of science. The list is not intended to be all inclusive; students interested in the history and philosophy of science should speak to members of the committee.

INTERDEPARTMENTAL COMMITTEE ON HISTORY AND PHILOSOPHY OF SCIENCE

David Albert  
Philosophy  
706 Philosophy; 212-854-3519

Walter Bock (emeritus)  
Biology  
1106 Schermerhorn; 212-854-4487

COLLOQUIA, INTERDEPARTMENTAL SEMINARS, AND PROFESSIONAL SCHOOL OFFERINGS

Occasionally, and for a variety of reasons, faculty offer courses outside of the existing structure of Arts and Sciences academic departments. Such courses may be colloquia: team-taught interdisciplinary courses; interdepartmental seminars explicitly offered by two or more academic departments; or undergraduate-specific courses offered by faculty outside of the Arts and Sciences. All of these courses may be counted toward the undergraduate degree, but it is for the faculty of each department or program to determine whether or not they can count toward a major or concentration.
PREPARATORY COURSEWORK

For students who are not prepared to go directly into the required science courses, Columbia offers courses in pre-physics, pre-chemistry, and pre-calculus.

CHEMISTRY

CHEM UN0001 Preparation for College Chemistry; Pass/Fail; offered in the fall.
CHEM S0001D Preparation for College Chemistry; Pass/Fail; offered in the summer.

MATHEMATICS

MATH UN1003 College Algebra and Analytic Geometry; May be taken for a letter grade or Pass/D/Fail; offered in the fall and spring.
MATH S1003D College Algebra and Analytic Geometry; May be taken for a letter grade or Pass/D/Fail; offered in the summer.
MATH S1003Q College Algebra and Analytic Geometry; May be taken for a letter grade or Pass/D/Fail; offered in the summer.

PHYSICS

PHYS S0065Q Basic Physics; Pass/Fail; offered in the summer only. MATH UN1003 is the recommended prerequisite for this course.

PLACEMENT EXAMS

Placement Exams (http://www.gs.columbia.edu/postbac/placement-exams) and the counsel of a Postbac Premed advisor can help students decide whether preparatory courses are needed.

SUMMER ENROLLMENT

PREPARATORY COURSES

Some Postbac Premed students may need to begin their studies in the summer to prepare for fall courses in mathematics, chemistry, and/or physics. Some preparatory coursework (p. 423) is also offered throughout the academic year.

With very few exceptions, the only summer session courses admitted students will be allowed to take are Preparation for College Chemistry, Basic Physics, English, Psychology, or a mathematics course. Please see the grading policy (p. 430) for Preparation for College Chemistry, Basic Physics, Basic Math, and College Algebra & Analytic Geometry.

REQUIRED COURSES

Medical schools generally prefer that coursework be completed during the regular terms of enrollment; the Postbaccalaureate Premedical Program does not permit students to enroll in science classes in the summer, except to take preparatory courses, math, laboratory courses, and the twelve-week Physics II and General Chemistry II courses. The reason for this restriction is a concern that the compressed schedule of summer classes is a less effective way to learn and leaves students ill-prepared for subsequent courses and for the MCAT.

REGISTRATION FOR SUMMER COURSES

Summer courses (http://ce.columbia.edu/summer/columbia-students) are administered by the School of Professional Studies. For courses offered during the summer semester that fulfill requirements of the Postbac Premed Program, please visit the Premed section (http://ce.columbia.edu/Summer-Sessions/Premed) of the SPS website. Please note that courses offered in a six-week format do not fulfill the Postbac Premed Program requirements (with the exception of lab, math, and English courses).

PREVIOUSLY COMPLETED COURSEWORK

ADMITTED STUDENTS

Some Postbac Premed students may have completed one or more of the prerequisite courses before matriculating in the Program. Depending on when such coursework was completed, and the grade(s) received, students may be advised to repeat the course or to take an advanced-level science course in order to be more competitive applicants to medical school. It should be noted that quarter-term courses may not be equivalent to semester courses and therefore may not be used to satisfy requirements.

Advisors typically have discussions with students about repeating coursework after a student has been admitted and attended a Postbac Planning Session.

CURRENT STUDENTS

Once a student matriculates into the program, all subsequent required courses must be completed at Columbia University, unless an exception is made based on a petition submitted to the Premedical Committee.

As there are some variations in requirements from school to school and state to state, students are advised to consult individual medical schools and healthcare programs for specific prerequisites to complete in addition to the basic premedical curriculum. Students coming from professionally-focused
undergraduate schools (e.g., engineering, culinary, visual or performing arts, nursing, business, etc.) who may lack sufficient grounding in liberal arts are advised to address this deficiency through additional non-science coursework in order to be competitive candidates for medical school.

Certificate in Premedical Sciences

Students who complete the premedical or prehealth curriculum while enrolled in the Postbac Premed Program may be eligible for a Certificate in Premedical or Prehealth Sciences, if they have taken at least twenty points of science courses at Columbia. The Certificate is not required by medical schools or other programs of study in the health professions; however, it does signify that a student has satisfactorily completed a rigorous premedical/prehealth curriculum as recognized by Columbia University and the State of New York. Certificates in Premedical and Prehealth Sciences are officially conferred on three different dates (in May, October, and February).

Students should consult with their advisor concerning eligibility for the Certificate. Generally, students are eligible to receive a Certificate in Premedical or Prehealth Sciences from Columbia University if they:

• Complete the program within five years of matriculation
• Earn a minimum of 20 points of the required premedical math and science curriculum while enrolled in the Postbac Premed Program, including concurrent completion of the organic chemistry and biology course sequences (or an approved advanced-level equivalent) with satisfactory grades and a minimum cumulative grade point average of 2.75

Students who begin their studies in the Premedical Sciences at Columbia but, after completing 20 or more points, go elsewhere to complete any remaining requirements, are ineligible for the Certificate.

Applying for the Certificate in Premedical or Prehealth Sciences

In order for the Certificate to be conferred, eligible students must file an application (http://gs.columbia.edu/postbac/postbac-student-forms/#certificate) with the Postbac Premed Program Office by the following deadlines, as set by the Office of the Registrar:

August 1: for October certificates
November 1: for February certificates
February 14: for May certificates

Academic Policies

Acceptance to medical school and to other health professional schools is extremely competitive. According to national statistics compiled by the Association of American Medical Colleges, students admitted to medical school in recent years have a mean grade point average of 3.7 in science courses. For this reason, Postbac Premed students are expected to maintain a competitive GPA and make steady progress in fulfilling the premedical sciences curriculum in the sequence prescribed by the Program.

Policies concerning registration, class attendance, academic progress, adding or dropping courses, grades, incompletes, academic integrity, academic grievances, leaves of absence, withdrawals, and medical leaves are found in the Academic Policies section of the Postbac Premed website. Students are expected to familiarize themselves with these policies and procedures and to adhere to the requirements, policies, and deadlines published therein. The Postbaccalaureate Premedical Committee on Academic Standing (“the Premedical Committee”) considers appeals and reviews petitions from students for incompletes, re-enrollment, and exceptions to Postbac Premed Program policies.

Academic Review

The Premedical Committee conducts an academic review of all students in the Program at the end of each term, including the summer session, and takes appropriate academic action as required. For the purpose of its review, the Premedical Committee generally does not factor in non-science courses, but does include science elective courses. When a course is taken and repeated at Columbia, the Premedical Committee will average together both courses to determine the GPA.

At the end of the fall, spring, and summer terms, the Premedical Committee reviews the academic performance of all students, and either the advisor or a representative of the Committee will reach out to any student experiencing academic difficulty to discuss strategies for greater academic success.

All current students undergo formal academic review each semester after having attempted 15 points of required premedical coursework in the Program. Because students with GPAs below 2.75 in premedical coursework are highly unlikely to gain admission to medical school, students whose cumulative GPA in the Program falls below 2.75 at any point after having attempted 15 points may be dismissed from the Program. A student may also be dismissed from the Program for academic failure or academic dishonesty. Ties with GS are permanently severed with students who are dismissed from the Program. Students may appeal their dismissal to the Dean of the School of General Studies within two weeks of the official notification of dismissal.
ACADEMIC HONORS

DEAN’S LIST
Students who complete the fall or spring terms with a 3.6 G.P.A. or higher are named to the Dean’s List, provided they have completed at least 7.5 points of required premedical course work and have earned no grade below a B. Summer terms are not currently considered. Disciplinary probation, as well as a mark of AR, W, F, or D will disqualify a student from consideration. Students who have been found responsible by the Office of Student Conduct and Community Standards for a violation of academic integrity will not be eligible for the Dean’s List during the term of the sanction.

ACADEMIC INTEGRITY AND COMMUNITY STANDARDS
All University faculty, students, and staff are responsible for compliance with the rules of University Conduct. Copies of the full text are available in Essential Policies for the Columbia Community and at the Office of the University Senate, 406 Low Memorial Library.

Students in the School of General Studies are part of a wider intellectual and social community that holds itself to the highest standards of tolerance, respect, integrity, and civility. Students who violate the standards of the University community, in academic or social behavior, are subject to disciplinary action. The continuance of each student upon the rolls of the University, the receipt of academic credits, graduation, eligibility for committee support, and the conferring of any degree or the granting of any certificate are strictly subject to the disciplinary powers of the University.

Disciplinary authority of the University is vested by the Trustees in the President and Provost and, subject to their reserved powers, in the dean of each faculty. The dean and his staff are given full responsibility for establishing the standards of behavior for all General Studies students beyond the regulations included in the Rules of University Conduct and for defining procedures by which discipline will be administered.

CIVIL BEHAVIOR AND COMMUNITY STANDARDS
It is expected that in and out of the classroom, on and off campus, each student in the School will act in an honest way and will respect the rights of others. Freedom of expression is an essential part of University life, but it does not include intimidation, threats of violence, or the inducement of others to engage in violence or in conduct which harasses others. Conduct which threatens or harasses others because of their race, sex, religion, disability, sexual orientation, or for any other reason is unacceptable and will be dealt with very severely. For all to benefit from the diversity to be found at Columbia, all must live up to these standards.

HONOR CODE AND HONOR PLEDGE
In 2013 the student councils of the undergraduate schools of Columbia University, on behalf of the whole student body, created an Honor Code to uphold the maintenance of academic integrity as a fundamental and jointly held responsibility for all students. The councils also created an Honor Pledge, which all students recite and affirm when they matriculate as Columbia students. The texts of the Honor Code and Honor Pledge may be found here.

ACADEMIC INTEGRITY
It is essential to the academic integrity and vitality of this community that individuals do their own work and properly acknowledge the circumstances, ideas, sources, and assistance upon which that work is based. Academic honesty in class assignments, term papers, examinations, laboratory reports, and computer projects is expected of all students. Because intellectual integrity is the hallmark of educational institutions, academic dishonesty is one of the most serious offenses that a student can commit at Columbia. It may be punishable by suspension or dismissal from the School and can result in loss of committee support for students who are preparing to apply to prehealth programs.

Students who are unsure about the proper presentation of their own independent work should consult with their instructor or advisor.

Academic dishonesty includes but is not limited to the following:

1. **Plagiarism**: Failure to cite or otherwise acknowledge ideas or phrases used in any paper, exercise, or project submitted in a course but gained from another source, such as a published text, another person’s work, or materials on the Web.

2. **Self-plagiarism**: The submission of one piece of work in more than one course without the explicit permission of the instructors involved.

3. **Misrepresentation of authorship**: The submission of work as one’s own which has been prepared by or purchased from another.

4. **Cheating on examinations or tests**: To give or receive assistance from written material, another person, his or her paper, or any other source during an examination or test; to hire or attempt to hire someone to take your exam for you.
5. **Falsification or misrepresentation of information** in coursework or lab work; on any application, petition, or forms submitted to the school.

6. **Fabrication of credentials** in materials submitted as part of an admissions application or materials submitted to the University for administrative or academic review.

7. **Violating the limits of acceptable collaboration** in coursework set by a faculty member or department.

8. **Removing, hiding, or altering library materials** in order to hinder the research of other students.

9. **Facilitating academic dishonesty** by enabling another to engage in such behavior.

10. **Lying to a faculty member, dean, or advisor** about circumstances related to your academic work or failure to complete academic work.

Ignorance of the School’s policy concerning academic dishonesty shall not be a defense in any disciplinary proceedings.

The School of General Studies holds each member of the community responsible for understanding these principles and abiding by them.

**DISCIPLINARY CHARGES**

Columbia students, faculty members, or staff who have concerns or complaints about a student’s behavior, including issues pertaining to academic integrity, are asked to contact the Dean of Students or the Office of Student Conduct and Community Standards (SCCS) to discuss the concern. Based on the conversation with the complainant, the Dean of Students, in consultation with the SCCS, will determine whether or not the complaint warrants an informal meeting with the student or a formal disciplinary hearing. The Dean of Students will review the options and the procedures with the complainant. If a formal disciplinary hearing is to be held, the Dean of Students will forward the complaint to the SCCS who will in turn contact the student, explain the procedure, and set up an appropriate time and place for the disciplinary hearing.

**Disciplinary Hearing**

A disciplinary hearing is held to discuss the allegations with the student, and when necessary, to determine appropriate sanctions. Present at the hearing are the charged student, a member of SCCS, and a dean from the School of General Studies. Students have the option of asking their Postbac Premed advisor to attend the disciplinary hearing. On the strength of the evidence and the student’s response, the SCCS representative and the dean from the School of General Studies will reach a determination and notify the student of their decision after the hearing has concluded.

**Sanctions**

For students found guilty of academic dishonesty or misconduct, the sanctions range from warning to probation, suspension, or dismissal. Loss of eligibility for committee support may also be a consequence of a finding of guilt. Because the SCCS wants to ensure that the disciplinary process is also an educational process, every effort is made to refer students to appropriate resources and support services that will help them learn from the experience. In cases of academic dishonesty, the disciplinary response is deliberately separate from the decision an instructor makes concerning how the breach of the academic contract affects a student’s grade. In cases that have been referred for disciplinary action through the Dean’s Discipline process, a student may not drop or withdraw from the course in question. If a student is found guilty of a second violation of University regulations, academic dishonesty, or inappropriate behavior, that student is, in most cases, dismissed. Students have the right to appeal the decision of the disciplinary committee. Appeals must be submitted in writing within the deadline given in the letter informing the student of the disciplinary action taken. Appeals must be addressed to the Dean of the School.

**Confidentiality**

In general, under University policy and federal law, information about dean’s disciplinary proceedings against a student is confidential and may not be disclosed to others.

**SEXUAL ASSAULT, SEXUAL HARASSMENT, AND GENDER-BASED HARASSMENT POLICIES**

For information on the procedures for handling such complaints, please refer to the Sexual Respect website (http://www.columbia.edu/cu/dpsa).

If the alleged misconduct involves sexual discrimination, the complaint should be filed with the Associate Provost for Equal Opportunity and Affirmative Action. To report an incident involving sexual assault, sexual harassment, or gender-based harassment, students should complete this form (https://publicdocs.maxient.com/reportingform.php?ColumbiaUniv&layout_id=1) or contact Student Services for Gender-Based and Sexual Misconduct at 212-854-1717.

**INFORMAL COMPLAINTS CONCERNING MISCONDUCT**

An instructor, officer, staff member or student who chooses not to put a complaint in writing can instead make an informal complaint. In these cases, the Postbac Premed advisor usually discusses the matter with the student. In these situations, the student will receive a formal warning, which will be noted in the student’s educational file, along with any recommendations made to the student. Such warnings will be taken into account if and when similar complaints are made in the future; a pattern of informal complaints can lead to formal disciplinary action.
ACADEMIC COMPLAINTS AND GRIEVANCE PROCEDURES

Occasionally students experience dissatisfaction with specific courses or instructors, find themselves in an untenable situation in a course due to an interaction with an instructor, or have an academic grievance. Columbia faculty hold themselves to the highest professional standards. The rights, duties, and obligations are delineated in the University Statutes and in the Faculty Handbook and can be found online (http://www.columbia.edu/cu/vpaa/handbook/obligations.html).

Consistent with those duties and obligations, conduct that is grievable includes:

• failure to show appropriate respect in an instructional setting for the rights of others to hold opinions differing from their own;
• misuse of faculty authority to promote a political or social cause within an instructional setting;
• conduct in the classroom or another instructional setting that adversely affects the learning environment.

In such cases, students are advised to discuss their grievances with their GS advisors. Depending on the nature of the complaint, a student may be counseled to discuss the matter directly with the instructor, or with the director of undergraduate studies or chair of a given department or program. The School will direct a student to the appropriate office if the University has specific university-wide procedures that govern the matter. Links to those offices, resources and procedures are provided below. Students should raise any concerns not later than thirty days after the end of the semester in which the alleged misconduct took place. The School will make every effort to consider and address the student’s complaint quickly, ordinarily within thirty days.

Advisors recognize and respect a student’s need for confidentiality when discussing certain kinds of complaints, so students should make sure to bring up any concerns about confidentiality when speaking with their advisors about grievances. While advisors within the Office of the Dean of Students counsel students on appropriate avenues for addressing or resolving their complaints, and often can help to facilitate a resolution, students should understand that advisors are not in a position to arbitrate grievances. The Ombuds Office is an additional and alternative confidential source available to students to advise on various avenues of redress and can mediate a dispute, if both parties agree. Ombuds officers, however, do not have authority to adjudicate any complaint.

While resolutions are most often reached informally, formal procedures for addressing grievances do exist and in some cases may be the only way to adjudicate a particular complaint. Grievances related to faculty members outside the Arts & Sciences will be referred to the appropriate division or school within the University. Resolutions to complaints about academic assessments or grade disputes are usually handled informally (see Grade Appeals and Grade Changes); formal grievances about academic assessments are handled by the faculty within the appropriate department or program.

If a student believes that a faculty member has acted in an unprofessional manner, he or she should first speak with his or her advising dean, who will work with the student to review the claim, establish the substance of the complaint, and come to a decision about how best to address the concerns raised by the student. If appropriate, the advising dean will refer the student to the GS Senior Associate Dean of Academic Affairs who, working with relevant faculty, will investigate the case fully and attempt to resolve the matter. The dean will work with the student and the faculty to determine whether there has been a procedural breach and, if so, take immediate steps to formulate a remedy in consultation with the Dean of the School of General Studies.

The grievance procedures available through the office of the Vice President for Arts and Sciences are intended to complement, not substitute for, the procedures available in each of the Schools, and they treat a considerably more limited range of issues. They are designed to address only those cases involving professional misconduct by a faculty member of Arts and Sciences in an instructional setting in which there were significant irregularities or errors in applying School procedures. Information on this process can be found on the website of the Office of the Executive Vice President for Arts and Sciences. If the instructor is not a member of the Arts and Sciences faculty, the advising dean will help the student identify the appropriate division of the faculty and the right procedures. Each school has its own grievance procedures and they are posted on individual schools’ websites.

If at any time a student believes the process is not working in a constructive or timely fashion, the student may always contact the Dean of the School of General Studies directly.

The University has alternate procedures to address other specific concerns:

• In situations involving allegations of discrimination and/or harassment, the complainant should consult the Student Policies on Discrimination and Harassment (http://www.essential-policies.columbia.edu/student-policies-and-procedures-discrimination-and-harassment).
• In situations involving gender-based and sexual misconduct, students should consult the Gender-Based Misconduct Policies for Students (http://sexualrespect.columbia.edu/gender-based-misconduct-policy-students).
• In situations involving concern about scientific or scholarly misconduct, students should consult the Columbia University Institutional Policy on Misconduct in Research (http://www.columbia.edu/cu/vpaa/handbook/appendixc.html).
• The policy on romantic relationships is outlined in the Consensual Romantic and Sexual Relationships Policies (http://www.essential-policies.columbia.edu/student-
ATTENDANCE
Students are expected to attend all classes including discussion sections and laboratory periods for each course.

In general, absenteeism from a course will lead to a lower grade and may even result in failure. Students are held accountable for absences owing to late enrollment. Students who must miss class due to religious holidays should inform their instructors in advance and make appropriate arrangements to make up missed work. (See below for the University’s policy on religious holidays.)

When an instructor judges a student’s absences to be excessive, the instructor may report this to the Office of the Dean of Students for appropriate action.

ABSENCES OR FALLING BEHIND IN CLASS
Students who find themselves unable to attend classes or complete academic work at any time during the semester should contact their GS academic advisors immediately. In consultation with the advisor and the instructor, a student may be able to make arrangements for extensions on work within the time frame of the semester, or under more serious circumstances, may be advised to withdraw from a course or from the semester. Students who miss more than two weeks of classes are counseled to give serious consideration to withdrawing from the semester.

RELIGIOUS HOLIDAYS
It is the policy of the University to respect its members’ religious beliefs. In compliance with New York State law, each student who is absent from school because of his or her religious beliefs will be given an equivalent opportunity to register for classes or make up any examination, study, or work requirements that he or she may have missed because of such absence on any particular day or days. No student will be penalized for absences due to religious beliefs, and alternative means will be sought for satisfying any academic requirements involved.

Officers of administration and of instruction responsible for the scheduling of academic activities or essential services are expected to avoid conflict with religious holidays as much as possible. If a suitable arrangement cannot be made between the student and the instructor, the student should consult the appropriate dean or department chair. If an additional appeal is needed, it may be taken to the Provost.

DROPPING COURSES
Before dropping a course, students should consult with their Postbac Premed advisors. Dropping courses not only affects a student’s academic progress, but may also have consequences for financial aid, housing eligibility, visa status, or health insurance. There is no refund of tuition for individual courses dropped after the last day of the change of program period.

A student has three opportunities within a semester to officially drop a course, but different consequences apply at each stage. In no case may a student drop a course after the eleventh week of classes, unless withdrawing from an entire program. Students should consult the Postbac Calendar (http://gs.columbia.edu/postbac/academic-calendar) for the exact dates of each deadline. Students are responsible for following the appropriate add/drop process by the relevant deadline. Registration Adjustment forms (http://gs.columbia.edu/postbac/postbac-student-forms), if needed, are available in the Office of the Dean of Students.

Please note:
• Drop deadlines cannot be extended for any reason, including the timing of midterms and grade reporting.
• Ceasing to attend classes or simply notifying the instructor does not constitute dropping a course.
• Students dropping the last or only class in which they are enrolled should notify their advisors that they would like to withdraw for the term.
• In cases that have been referred for disciplinary action through the Dean’s Discipline process, a student may not drop or withdraw from the course in question.

DROPPING A COURSE DURING THE CHANGE OF PROGRAM PERIOD
A student may drop a course within the first two weeks of classes, which is the officially designated change of program period. Courses may be dropped online. Courses dropped within this period do not appear on a student’s permanent transcript and incur no tuition charges. Students dropping their entire course load will not be allowed to do so online but must consult with their advisors about the withdrawal process. (See the Leaves of Absence and Withdrawals (p. 431) page.)

DROPPING A COURSE AFTER THE CHANGE OF PROGRAM PERIOD
After the close of the change of program period, students may drop a course by the late drop deadline, which falls after the fifth week of classes. Courses dropped after the change
Dropping a Course after the Late Drop Deadline

After the late drop deadline, students may drop a course by the final drop deadline. Courses dropped after the late drop deadline but prior to the final drop deadline (in the eleventh week of classes) will be recorded on the transcript with the notation “W” (withdrawal). The W is a permanent mark and will remain on the transcript even if the student repeats the course. Students are charged full tuition for individual courses from which they selectively withdraw. An Add/Drop form must be completed by the student and signed by his or her GS advisor by the specified final drop deadline.

Full-time Enrollment

While there is no academic or program requirement for full-time enrollment, some students may need to maintain full-time status because of visa requirements, for insurance, or to remain eligible for University Housing.

Full-time Enrollment

Option One

Full-time status in the Postbaccalaureate Premedical Program is defined as registration for 12 or more points per term. This enrollment status is required for all international students.

Certification

Certification for this option is provided by the University Registrar (http://registrar.columbia.edu).

Option Two

A postbac student who is registered for fewer than 12 points may be regarded as equivalent to full-time if enrolled in at least 9 points and participating in unpaid, volunteer work in a health care setting for at least three hours per week and 42 hours per semester. If the position is paid or a stipend is awarded, students will not qualify for full-time status. This option is not available to international students.

Certification

Certification is provided by the Postbaccalaureate Premedical Office. In order to receive a certification letter from the Postbac Premed Office, students must provide a letter to their Postbac Premed advisor from their volunteer supervisor stating that they are working in a volunteer and unpaid capacity for a minimum of three hours per week, with a minimum commitment of 42 hours during the 14-week semester. This letter must be on letterhead, dated, and signed by the volunteer supervisor. Students should allow one week between the submission of the letter from their volunteer supervisor and the availability of a letter of certification from the Postbac Premed Office.

International Student Enrollment: Application/Glide Year

During the application year, international students with F-1 (or J-1) non-immigrant status who wish to remain in the United States must either be enrolled in a program of full-time study or be on optional practical training (OPT) if F-1 status or academic training (AT) if J-1 status, authorized by the United States Citizenship and Immigration Services (USCIS) (http://www.uscis.gov).

In planning the application year, it is advisable for students with F-1 or J-1 status to consult with the International Students and Scholars Office (ISSO) (http://www.columbia.edu/cu/isso/isso.html), as well as with their premedical advisors, early in their final semester of study to ensure compliance with U.S. immigration laws.

Grades

Letter Grades (p. 429) | GPA (p. 429) | Grade Appeals and Changes (p. 430)
Pass/D/Fail (p. 430) | Preparatory Course
Grading (p. 430) | Withdrawals (p. )
| Administrative Referral (p. 430)
| Incomplete Work in a Course (p. 430)

All grades are based solely on work completed during the term a course is offered, except in the case of a grade issued to replace an incomplete, as authorized by the Committee on Academic Standing. (See Incomplete Work in a Course (p. 430).)

Letter Grades

The letter grading system within the Postbac Program is the same as that in Columbia’s undergraduate colleges: A, excellent; B, good; C, fair; D, poor but passing; F, failure (a final grade, not subject to re-examination). Plus and minus grades are also used, except with grades of D or F. To satisfy any premedical requirement, students must earn at least a C.

Grade Point Average (GPA)

The Registrar calculates semester as well as cumulative grade point averages based on the number of points per class. The GPA is used to assess a student’s academic progress as well as to determine a student’s eligibility for certain honors (http://gs.columbia.edu/postbac/academic-honors) such as the Dean’s
Preparatory coursework as defined below.

The Pass/D/F option, including the opportunity to pass, fail, or withdraw from the end of the semester in which the course was taken. The statute of limitations on final grade appeals is three months and the decision will be final.

Changes are not authorized to grant incompletes.) Students should submit by the academic advisor. Please note that if a student repeats the course, they do not arbitrate grade disputes. Students should keep their GS advisors informed of any pending grade disputes or appeals, as the Office of the Dean of Students can help to expedite a response from a faculty member or department.

Deans and GS advisors can counsel a student on whether and how to approach an instructor about a grade appeal; however, they do not arbitrate grade disputes. Students should keep their GS advisors informed of any pending grade disputes or appeals, as the Office of the Dean of Students can help to expedite a response from a faculty member or department.

If the student is unable to resolve the matter to his or her satisfaction and believes that a procedural issue is involved, the student should bring the matter to the attention of the GS Dean of Academic Affairs who will work with the student and the faculty member to determine whether there has been a procedural breach and, if so, take immediate steps to remedy the matter. If relevant faculty other than the instructor, in consultation with GS Academic Affairs, decide that the grade or other academic evaluation was appropriate, given class assignments and circumstances, the student will be informed and the decision will be final.

The statute of limitations on final grade appeals is three months from the end of the semester in which the course was taken.

The Pass/D/F (P/D/F) option, including the opportunity to uncover a Pass, is not available to Postbac students, except in preparatory course work as defined below.

**Pass/D/Fail Option**

The Pass/D/Fail (P/D/F) option, including the opportunity to uncover a Pass, is not available to Postbac students, except in preparatory coursework as defined below.

**Grading for Preparatory Courses**

Math W1003 (College Algebra-Analytic Geometry) may be taken P/D/F. Preparatory courses such as Basic Math, Basic Physics and Preparation for College Chemistry are given a Pass/Fall grade; no letter grades are given.

**Math W1003**

Students enrolled in College Algebra and Analytic Geometry (MATH UN1003) may take the course either for a letter grade or for a P/D/F grade. Students who elect to take this course P/D/F are advised that their advisor will verify that they performed at the C grade level or better. No student will be eligible to take Calculus I until he or she is eligible to receive at least a C in College Algebra and Analytic Geometry (MATH UN1003).

If a student elects to take College Algebra and Analytic Geometry (MATH UN1003) for a grade, that grade will not be considered by the Premedical Committee to be part of the student’s grade point average for premedical coursework.

**Withdrawal (W)**

Postbac Premed students are not permitted to have a course deleted from their academic record after the drop deadline (the fifth week of classes). If a student withdraws from a course after the drop deadline, but no later than the eleventh week of classes, and while otherwise remaining enrolled, the transcript will show a mark of W for that course. This is a permanent mark and will remain on the transcript even if the student repeats the course.

Students may not drop or withdraw from any course after the eleventh week of classes. After that point, students will receive whatever letter grade they have earned in the course.

**Administrative Referral (AR)**

The mark of AR (Administrative Referral) is a temporary grade awarded by a faculty member when a final letter grade cannot be assigned. Following the designation of the AR mark, the student’s academic advisor will follow up with the student and instructor to outline the requisite steps to determine an appropriate final grade. AR is not a permanent grade.

In the event that the student has been approved through petition to the Committee on Academic Standing to receive an Incomplete in the course, the mark of “IN” will then be submitted by the academic advisor. Please note that ultimately the assignment of the final letter grade is at the instructor’s discretion.

**Incomplete (IN)**

**Written Work and Exams**

Students must complete all coursework by the last day of exams in a given semester. For students who cannot complete their coursework or are unable to take a final examination, an incomplete for a course in progress may be granted by the Postbac Committee on Academic Standing (CAS). (Faculty members, while consulted for approval of specific extensions, are not authorized to grant incompletes.) Students should
contact their advisors first when an exam or deadline is missed. Petitions for official incompletes at the end of term should be based on unexpected circumstances that arise only within the last two weeks of the course, and which may prevent a student from timely completion of the final coursework or exam.

The only reasons for which an IN will be granted are incapacitating illness, as certified by the University Health Services or a personal physician, serious family emergency, or circumstances of comparable gravity. Students who wish to receive the mark of IN must, in consultation with their Postbac Premed advisors, petition in writing. To be granted an incomplete, it is expected that students will have completed all work in the class with the exception of the final project or exam. Students who are granted an incomplete are assigned a deadline for completion of the overdue work or a date by which a deferred examination must be taken. Those who fail to meet the assigned deadline or miss the deferred examination will receive the contingency grade provided by the instructor.

Students with more than two incompletes usually cannot enroll in the following semester without the explicit permission of the Postbaccalaureate Premedical Committee on Academic Standing. When allowed to enroll, students with more than two incompletes will usually be advised to enroll part-time.

Incomplete Written Work
Students must submit a formal petition for an incomplete on written work by the last day of classes. The petition must be accompanied by the syllabus and a copy of the assignment showing the due date for the assignment. This deadline is set because written work is normally due during the last week of classes; if a deadline for written work other than an exam is set for later than reading week, the student has one day from the missed deadline to submit a petition for an incomplete. Students are advised to submit a draft of their written assignment to the faculty member while the petition for an incomplete is being considered by the Postbac Committee on Academic Standing.

Incomplete Exams
In situations in which an incapacitating illness prevents a student from sitting for a final exam, the student should contact his or her advisor immediately about the missed examination, and must provide the advisor—within 72 hours of the missed exam—certification of the illness by University Health Services, a personal physician, or an emergency room, and submit a petition for a deferred exam. If circumstances warrant a make-up exam, the student will be permitted to sit for the exam on one of the official deferred exam dates published in the Postbaccalaureate Premedical Academic Calendar. Students cannot pick the date, but they will be notified of the date, time, and place of the exam.

Postbac Premed students registered for Summer Term classes must abide by this same policy and process for exams missed during the summer; however, make-up exams for summer courses are administered through the Summer Term Office, not the School of General Studies.

LEAVES, WITHDRAWALS AND RE-ENROLLMENT

LEAVES OF ABSENCE

Students of considerable ability sometimes perform below their capacities because of burdensome personal or family problems. In such cases, taking a leave of absence or withdrawing can have a salutary effect on a student’s academic performance. Students who wish to withdraw from a term in progress, cancel registration for an upcoming term for which they have already registered, or take a planned leave of absence must consult with their respective academic advisors, submit a leave of absence/withdrawal form (https://gs.columbia.edu/gs-student-forms/#withdrawal). Failure to do so in a timely fashion can have financial as well as academic consequences.

Depending on the date of a student’s withdrawal, loan funds already received by the student may need to be returned to the lender. Federal grant awards such as the FSEOG, Pell Grant, and GS scholarships may also be decreased. Students who withdraw should contact the GS Office of Educational Financing (https://gs.columbia.edu/contacts) for more information about possible required adjustments to their federal and/or institutional aid, or if they have questions about their student account.

Leaves of absence for up to one year are granted to students who anticipate returning to Columbia to complete their studies. Students who intend to take a leave of absence must submit a leave of absence form at least one week prior to the start of the term of their intended leave. Failure to follow this procedure can have academic as well as financial consequences and may lead to being dropped from the rolls of the School.

To re-enroll after a leave of absence, students must complete the re-enrollment process by the required deadline.

Leave of Absence Guidelines

All correspondence from the university sent to students via US mail goes to the address on file with Student Information Services viewable via Student Services Online (SSOL). Students are responsible for making changes to that address by following the instructions on SSOL for a change of address.
Financial Aid

- Students who borrowed under a federal or Columbia student loan program will need to complete an Exit Loan Counseling Interview, and will be notified by email of their exit counseling responsibilities.
- Students who were awarded any federal financial aid (Title IV aid) that has not disbursed to their student account and wish to know if they are eligible for a late disbursement of this aid must contact a counselor at the GS Office of Educational Financing.
- Students who were awarded any federal financial aid (Title IV aid) that has not disbursed to their student account and wish to know if they are eligible for a late disbursement of this aid must contact a counselor at the GS Office of Educational Financing.
- Students will receive an email communication from the GS Office of Educational Financing which will identify any required revisions to their financial aid per federal regulations and/or GS policy.
- It is recommended that students contact the GS Office of Educational Financing in March for information regarding forms and deadlines for financial aid applications for the upcoming academic year.
- Students who were awarded any federal financial aid (Title IV aid) that has not disbursed to their student account and wish to know if they are eligible for a late disbursement of this aid must contact a counselor at the GS Office of Educational Financing.
- Students with a credit on their student account should contact the GS Office of Educational Financing to request a refund. Students with financial aid must wait until their aid has been recalculated to request a refund (https://gs.columbia.edu/student-account-refunds).
- Depending on the date of withdrawal, the student’s tuition and other charges will be recalculated based on the Withdrawal Schedule established by the Trustees and published on the University Registrar website (http://registrar.columbia.edu/content/refund-rate-withdrawals).

Health Insurance

Students who withdraw from a term in progress will no longer be eligible to receive Student Health insurance. Students withdrawing for medical reasons must notify their GS advisors immediately to request a continuance of their student health insurance plan. For more questions on the impact of a withdrawal. Students who wish to withdraw must submit the withdrawal form (https://gs.columbia.edu(gs)-student-forms/#withdrawal); notifying instructors or failing to attend classes does not constitute formal withdrawal. A student’s tuition may be prorated depending on the date of the written notification of the withdrawal.

Dining Services and Flexdollars

Meals and Dining Dollars are non-refundable and non-transferable, even for non-used balances. Refunds are permitted only upon official academic withdrawal from Columbia University. Refunds may be requested at the Dining Services (http://dining.columbia.edu) located at 125 Wallach Hall.

University Housing

Eligibility for housing (http://facilities.columbia.edu/housing) is limited to students enrolled in the Postbac Premed Program full-time. Students have 30 days to their unit, and must contact University Apartment Housing (UAH) to terminate their lease.

University Privileges

- E-mail accounts are kept active from six to nine months for students who take a leave or withdraw; however, e-mail accounts are deactivated within a week for students who are suspended or dismissed, or who transfer or permanently withdraw from the School.
- Swipe access to University buildings is suspended during a student’s leave or period of withdrawal from the School.
- Library privileges are normally suspended during a student’s leave or period of withdrawal from the School.
- Access to Dodge Physical Fitness is suspended during a student’s leave or period of withdrawal, except in those cases where a student chooses to pay a membership fee to continue receiving access to these facilities.
- Students on leave or withdrawal from a term in progress and/or suspended from GS are not allowed to enroll in another Columbia school during this period without written permission from the Dean of Students.

Withdrawal from a Semester in Progress

Circumstances occasionally require that a student withdraw from a semester in progress. Withdrawal means dropping all courses in a given term, as opposed to dropping a portion of the program. Withdrawal from a term in progress may have serious financial and academic consequences, and thus students should meet with their advisors so that they can make an informed decision. All withdrawals are noted on a student’s transcript. Multiple withdrawals may lead to suspension or dismissal from the School for failure to make academic progress.

Students who wish to withdraw must submit the withdrawal form (https://gs.columbia.edu(gs)-student-forms/#withdrawal); notifying instructors or failing to attend classes does not constitute formal withdrawal. A student’s tuition may be prorated depending on the date of the written notification of the withdrawal.

Additional Facts and Policies for Students Withdrawing from a Term in Progress

- Students withdrawing from a term in progress are charged a $75 administrative processing fee.
- Depending on the date of a student’s withdrawal, tuition and other charges will be recalculated based on the Withdrawal Schedule established by the Trustees and published in the Student Fees booklet.

Involuntary Leave of Absence Policy

The Dean of Students, or his or her designee, may place a student on an Involuntary Leave of Absence for reasons of personal or community safety. This process will be undertaken only in extraordinary circumstances when there is compelling information to suggest that the student is engaging in or is
at heightened risk of engaging in behavior that could lead to serious injury to others, including as a result of physical or psychological illness. In addition, the Involuntary Leave process may be initiated if, based on an individualized assessment, it is determined that there is a significant risk that the student will harm him/herself, and that the risk cannot be eliminated or reduced to an acceptable level through reasonable and realistic accommodations and/or on-campus supports.

This policy provides students with general information regarding an Involuntary Leave of Absence. For more specific information regarding the circumstances and processes for an Involuntary Leave of Absence, as well as conditions relevant to returning from Leave, students should refer to the Academic Policies or speak with the Dean of Students. Students are responsible for understanding the implications of an Involuntary Leave of Absence for housing, financial aid, health insurance, and progress toward the degree.

This policy will not be used in lieu of disciplinary actions to address violations of Columbia University rules, regulations, or policies. A student who has engaged in behavior that may violate rules, regulations, or policies of the University community may be subject to the dean’s Discipline Process of his or her particular school. A student may be required to participate in the disciplinary process coincident with being placed on an Involuntary Leave of Absence. A student who is placed on an Involuntary Leave of Absence while on academic and/or disciplinary status will return on that same status.

Before an Involuntary Leave is considered, efforts may be made to encourage the student to take a Voluntary Leave of Absence. These procedures are described in the Voluntary Leave of Absence Policy. A readmission process may still be required of a student electing a Voluntary Leave to determine his or her readiness to return to school (e.g., whether returning to school may increase the risk of self-harm and/or harm to others).

When requesting a leave or withdrawing from GS, international students must also notify the International Students & Scholars Office (ISSO) immediately.

When safety is an immediate concern, the DOS (or his or her designee) may remove a student from the campus pending final decision on Involuntary Leave. If this action is deemed necessary, the student will be given notice of the removal. An opportunity to be heard by the DOS and, if desired, to appeal the final decision will be provided at a later time.

For more information, students should visit the Essential Policies (http://www.essential-policies.columbia.edu/involuntary-leave-absence-policy) page or consult their respective advisors in the Postbac Premed Program Office.

**MEDICAL LEAVES AND MEDICAL WITHDRAWALS**

When students are faced with health issues that have a negative impact on study habits, course attendance, or class preparation, they are urged to consult with their advisors to discuss taking a medical leave of absence from the university. Students who are hospitalized during an academic term or who miss class for more than two weeks due to health issues are advised to take a medical withdrawal from the term in progress. Doctors at University Health Services (UHS) as well as counselors at the Office of Counseling and Psychological Services (CPS) can also help students evaluate whether a medical leave is advisable. Students must provide medical documentation to support their requests for medical leaves or medical withdrawals. As part of the re-enrollment process, students will also be required to supply current medical documentation, and to be evaluated by the relevant branch of the University’s Health Services.

In exceptional cases, when there is sufficient information to suggest that as a result of physical or psychological illness, a student is engaging in or is likely to engage in behavior that could lead to injury to self or others, the Dean of Students, in consultation with UHS, CPS, and the Office of Public Safety, may place a student on an involuntary leave of absence for reasons of personal or community safety.

Students who withdraw from their studies after the eleventh week of the semester or for medical reasons are not allowed to return for at least four months (a minimum of one semester), to allow time to address the situation that led to the withdrawal.

**Required Medical Leave for Students with Eating Disorders**

With eating disorders, a medical leave is sometimes necessary to protect the safety of a student. Usually this is because the student’s illness is advanced enough to require hospitalization or intensive day treatment beyond the scope of University medical and psychological resources. A medical leave is also sometimes deemed necessary when an individual student’s eating disorder has negatively impacted the integrity of the University’s learning environment.

1. Before an involuntary medical leave is considered, efforts will be made to encourage the student to take a voluntary medical leave, thus preserving, to the extent possible, confidentiality and privacy.

2. This policy will be invoked only in extraordinary circumstances, when a student is unable or unwilling to request a voluntary medical leave of absence.

Students who wish to obtain the complete policy should see Essential Policies (http://www.essential-policies.columbia.edu/involuntary-leave-absence-policy) or consult their advisors in the Postbac Premed Program Office.

**LEAVE FOR MILITARY DUTY**

Under the Higher Education Opportunity Act of 2008 (HEOA), institutions are required to readmit an individual who left school or did not accept an offer of admission in order
to perform military service. The following sections explain the eligibility and readmission requirements of this policy.

**Eligibility**

This policy applies only to U.S. military veterans seeking readmission to the program that they previously attended; it does not apply to individuals seeking admission to a different school at Columbia. Veterans are eligible if they began their leave of absence on or after August 14, 2008.

Students are eligible for readmission under this provision if, during their leave, they performed or will perform voluntary or involuntary active duty service in the U.S. armed forces, including active duty for training and National Guard or Reserve service under federal authority, for a period of more than 30 consecutive days, and received a discharge other than dishonorable or bad conduct. In general, the cumulative length of absence and all previous absences for military service (service time only) must not exceed five years.

**Requirement of Notice**

If a student is planning to take a leave for military service, he or she must give advance written or verbal notice of military service to the Dean of Students, unless such notice is precluded by military necessity. To be readmitted, students must give notice (written or verbal) of their intent to re-enroll to the Dean of Students no later than three years after the completion of the period of their service. If a student is recovering from a service-related injury or illness, he or she must notify the school no later than two years after their recovery.

A student who does not submit a timely notification of intent or provide an attestation within the designated time limits may not be eligible for the benefits outlined herein.

**Tuition and Fees**

For the first academic year in which the student returns, he or she must be readmitted with the same tuition and fees charged the student was or would have been assessed for the academic year when the student left, unless there are sufficient veterans’ educational benefits or institutional aid to pay the increased amount of tuition and fees. For subsequent academic years, the student may be charged the same tuition and fees as other students in the program.

**Readmission Requirements**

The school must allow the student to re-enroll in the next class or classes in the same program, with the same enrollment status, number of points, and academic standing as when he or she was last in attendance at Columbia. The student may also request a later date of admission or, if unusual circumstances require it, the institution may admit the student at a later date. If the school determines that the student is not prepared to resume the program where he or she left off, the school must make reasonable efforts at no extra cost to the student to enable the student to resume and complete the program. Such reasonable efforts include, but are not limited to, providing a refresher course and allowing the student to retake a pretest, as long as they do not place an undue hardship on the school. If reasonable efforts are unsuccessful or the school determines that there are no reasonable efforts that the school can take, the school is not required to readmit the student.

If the program to which the student was admitted is no longer offered, the student must be admitted to the program that is most similar, unless the student requests or agrees to admission to a different program.

**RE-ENROLLMENT**

Students must apply for re-enrollment through the Postbac Premed Program Office within one year of the end of their last completed semester at the Postbac Premed Program. Students granted re-enrollment must return to Columbia the following semester and complete that term to maintain their academic status at GS. Students who desire to return after a withdrawal are required to submit a re-enrollment form (https://gs.columbia.edu/gs-student-forms/#re-enroll), including a personal statement addressing the circumstances that caused them to withdraw. Students must submit this petition to their respective advisors by the date specified on the form relevant to the term in which they wish to return. Petitions for re-enrollment are reviewed by the Postbac Premed Committee on Academic Standing. All students who take a leave or withdraw for medical reasons must have their physician or other health care provider support their readiness to resume their studies. Students returning from a medical withdrawal or medical leave will be required to be evaluated by the relevant branch of University Health Services to complete the re-enrollment process.

**Re-enrollment Deadlines**

It is a student’s responsibility to ensure that the re-enrollment petition (https://gs.columbia.edu/gs-student-forms/#re-enroll) including the petition statement and medical documentation, if applicable) is received by the relevant deadline. Late and incomplete petitions will not be considered.

Re-enrollment Checklist

Regular Withdrawal
1. Review and resolve any registration holds with appropriate offices (Student Financial Services for financial holds; Health Services for health holds, etc.)
2. Send finalized re-enrollment petition and supporting documentation to GS advisor
3. International students must also contact ISSO for re-enrollment
4. Upon approval of re-enrollment petition, schedule a re-enrollment appointment with GS advisor

Medical Withdrawal
1. Review and resolve any registration holds with appropriate offices (Student Financial Services for financial holds; Health Services for health hold, etc)
2. Send finalized re-enrollment petition and supporting documentation to GS advisor
3. International students must also contact ISSO for re-enrollment
4. Send appropriate medical documentation to be evaluated by relevant branch of University Health Services to GS advisor
5. Upon approval of re-enrollment petition, schedule a re-enrollment appointment with GS advisor

Note: A student whose absence from the Postbac Premed Program exceeds one year must formally reapply to the Program through the GS Office of Admissions.

Tuition Refund Schedule
For the complete tuition refund schedule please refer to the University Registrar website (http://registrar.columbia.edu/content/refund-rate-withdrawals).

Midterm and Final Exams

Midterm Examinations
Midterms are scheduled at the discretion of instructors on various dates throughout the fall and spring semesters. There is no GS policy on make-up exams for missed midterms, and faculty members are not required to provide them. A student who misses a midterm exam due to illness or family emergency should notify both the instructor and the Postbac Premed advisor. Usually it is the student’s responsibility to discuss with the instructor whether a make-up exam is possible. Make-ups for midterms are usually administered by the faculty member or the department. No make-ups for midterms may be administered after the semester has ended.

Midterm Exams and Religious Holidays
Students should review the syllabus for each of their courses at the beginning of each term to determine if personal religious holiday observances will conflict with the schedule of midterms. Students should notify their instructors in advance of any potential conflicts so that an alternative exam date may be scheduled.

If a suitable arrangement cannot be worked out between the student and the instructor, they should consult the appropriate dean or director of undergraduate studies. It is the policy of the University to respect its members’ religious beliefs (p. 428).

Final Examinations
Final examinations are given at the end of each term. The Master Exam Schedule can be found on the Registrar website (http://registrar.columbia.edu/students/grades-and-exams).

This provides a tentative guide to final examinations; the definitive schedule is usually posted by November 1 for the fall term and by April 1 for the spring term. Students are expected to be present for the exam period and should plan their schedules to accommodate the set exam times. Examinations will not be rescheduled to accommodate travel, work, or family plans.

Three or More Final Exams Scheduled for the Same Day
If a student has three examinations scheduled during one calendar day, as certified by the Registrar, an arrangement may be made with one of the student’s instructors to take that examination at another mutually convenient time during the final examination period. It is the student’s responsibility to get the appropriate documentation from the Registrar’s Office in a timely manner and to negotiate an alternate exam time with instructors. Postbac Premed advisors can be helpful to students negotiating such arrangements.

Deferred Final Examinations
In cases of incapacitating illness or family emergencies, the Postbaccalaureate Premedical Committee on Academic Standing (CAS) will consider petitions for a deferred exam. If a student needs to take an exam after the end of the semester, a deferred exam can be granted only by the Postbaccalaureate Premedical Committee on Academic Standing, not by the instructor of the course. When an incapacitating illness prevents a student from sitting for a final exam, the student should contact the Postbac Premed advisor on the day of the exam, and, within three days, provide documentation of the illness by University Health Services or a personal physician. Similarly, when a family emergency prevents a student from sitting for a final exam, the student should immediately contact
the Postbac Premed advisor, who will review the situation and options with the student. The student’s Postbac Premed advisor will notify the instructor of the student’s absence from the exam. Deferred exams cannot be considered without appropriate documentation, which students must provide to their Postbac Premed advisors.

Deferred exams approved by the Committee on Academic Standing are scheduled on two fixed dates for the spring and fall terms as specified by the Office of the Dean of Students (see the Postbac Calendar (http://www.gs.columbia.edu/postbac/calendar)); make-up exams cannot be deferred beyond these specified dates. There are no additional make-up opportunities. Students who miss deferred examinations will receive a grade of zero for that examination (see Incomplete Work in a Course (p. 430)). Postbac Premed students registered for Summer Term classes must abide by this same policy and process for exams missed during the summer; however, students should note that make-up exams for summer courses are administered through the School for Professional Studies.

EXAMINATIONS FOR STUDENTS WITH DISABILITIES

Students with disabilities must be registered with the Office of Disability Services (http://health.columbia.edu/disability-services) to avail themselves of approved accommodations and other important services. Students with disabilities are expected to take exams with or at the same time as the rest of the class, even though they may be eligible for special accommodations. Each term the Office of Disability Services requests that students provide them with complete and advance information about their examination schedule so that appropriate accommodations can be made if disability-related modifications are needed. Students are responsible for making these requests to the Office of Disability Services in a timely fashion.

CERTIFICATE IN PREMEDICAL SCIENCES

Students who complete the premedical or prehealth curriculum while enrolled in the Postbac Premed Program may be eligible for a Certificate in Premedical or Prehealth Sciences, if they have taken at least twenty points of science courses at Columbia. The Certificate is not required by medical schools or other programs of study in the health professions; however, it does signify that a student has satisfactorily completed a rigorous premedical/prehealth curriculum as recognized by Columbia University and the State of New York. Certificates in Premedical and Prehealth Sciences are officially conferred on three different dates (in May, October, and February).

Students should consult with their advisor concerning eligibility for the Certificate. Generally, students are eligible to receive a Certificate in Premedical or Prehealth Sciences from Columbia University if they:

- Complete the program within five years of matriculation
- Earn a minimum of 20 points of the required premedical math and science curriculum while enrolled in the Postbac Premed Program, including concurrent completion of the organic chemistry and biology course sequences (or an approved advanced-level equivalent) with satisfactory grades and a minimum cumulative grade point average of 2.75

Students who begin their studies in the Premedical Sciences at Columbia but, after completing 20 or more points, go elsewhere to complete any remaining requirements, are ineligible for the Certificate.

APPLYING FOR THE CERTIFICATE IN PREMEDICAL OR PREHEALTH SCIENCES

In order for the Certificate to be conferred, eligible students must file an application (http://gs.columbia.edu/postbac/postbac-student-forms/#certificate) with the Postbac Premed Program Office by the following deadlines, as set by the Office of the Registrar:

- August 1: for October certificates
- November 1: for February certificates
- February 14: for May certificates

REGISTRATION

Registration Procedures (p. 436)
| Resources and Contacts (p. 437)
Course Prerequisites (p. 437)
| Cross-registration (p. 437)

REGISTRATION FOR NEW STUDENTS

New students who see their advisors by mid-August for fall term matriculation and the end of December for spring term participate in a special advance registration process. New students who see their Postbac Premed advisors after those dates will need to register online during the normal registration period.

CANCELING REGISTRATION

New students who decide to defer their admission or not to matriculate at GS after having registered for classes, but before classes have begun, must contact their Postbac Premed advisor to complete the paperwork required for canceling registration. Students should also notify the Office of Admissions. Failure to complete this required paperwork in a timely fashion will result in the student being liable for tuition and fees for the term in question.
REGISTRATION PROCESS FOR ALL STUDENTS

Prior to meeting with their advisors about registration, students should consult the Curriculum section (p. 404) of the website in order to plan a schedule of classes. The website provides current course descriptions (http://bulletin.columbia.edu/general-studies/undergraduates/courses), as well as times and locations of classes. Students may also consult the Columbia University Directory of Classes (http://www.columbia.edu/cu/bulletin/uwb) for detailed information. Students plan their programs with the help of their Postbac Premed advisors. The advisor must approve the original program as well as any subsequent changes. If any course requires permission of the instructor or department, a student is responsible for obtaining that permission.

After receiving the approval of the advisor on the registration form or by email, students are permitted to register online during registration and change of program weeks. The dates for these registration periods are published in the Postbac Calendar (http://gs.columbia.edu/postbac/academic-calendar) and on the Registrar’s Calendar (http://registrar.columbia.edu/event/academic-calendar). Students will need their University Network Identification (UNI), Columbia Student ID number (PID), and all relevant course numbers in order to complete the registration process. All students are encouraged to participate in the registration period each fall and spring to reserve seats in courses for the following semester.

Changes to Registration

Students can make changes to their registration online during the registration and change of program periods each semester, but all changes must be approved by their respective academic advisors.

Registration Holds

A “hold” on an account prevents a student from being able to register. Students may check for holds by going to Student Services Online (SSOL) (https://ssol.columbia.edu). Possible reasons for having a hold include significant debt to the University (financial hold), failure to provide evidence of required inoculations (health hold), overdue library books (library hold), or other academic or administrative reasons within GS (dean’s hold). A student with a dean’s hold must contact his or her Postbac Premed advisor.

REGISTRATION RESOURCES AND CONTACTS

Columbia University Directory of Classes (http://www.columbia.edu/cu/bulletin/uwb)

Online Registration: Student Services Online (https://ssol.columbia.edu)

Online Registration Instructions (http://registrar.columbia.edu/content/registration-instructions)

COURSE PREREQUISITES AND INSTRUCTOR APPROVAL

Prerequisites are specified in the individual course listings available in Course Offerings (http://bulletin.columbia.edu/general-studies/undergraduates/courses). Prior to registering for courses, students should make sure they have met the prerequisites for the course. If prerequisites are not specified for upper-level courses, students are advised to consult with the instructor on the first day of class. Students should not register for courses if they have not met the stated prerequisites. However, in exceptional cases, students may be granted permission to enroll in such courses by demonstrating to the instructor that they have competence equivalent to the prerequisites. The instructor will then give permission for the student to register for the course, either on paper or electronically. Some courses, especially seminars and colloquia, require the instructor’s permission even when the student does have the prerequisites; students using the online directory of courses should note whether instructor approval is required.

Several departments that limit enrollment in their upper level seminars and colloquia have special application processes. Students are responsible for following special application or registration processes specified by individual departments for these limited-enrollment courses.

CROSS-REGISTRATION INTO OTHER COLUMBIA DIVISIONS

Students who wish to take courses in one of Columbia’s graduate or professional schools or programs must receive written approval from GS as well as from the appropriate professional school or program. Cross-registration petition forms are available in the Dean of Students Office. The student must be in good academic standing within the Postbac Premed Program and must have a compelling reason, consistent with his or her academic goals, for cross-registering. All work for these courses must be completed within the term in which the student is enrolled. In most cases, students will seek their premedical advisors’ approval. In some cases, however, it may be necessary to petition the Premedical Committee.

Note: Postbac Premed students are not allowed to register for professional courses administered through the School of Professional Studies unless that course is cross-listed within an Arts & Sciences department or program offering an undergraduate major or concentration.

STUDENT RECORDS

GS, in conjunction with the Registrar’s Office, maintains the educational records of students who matriculate at the School. The maintenance and oversight of these records comply
with the Federal Family Educational Rights and Privacy Act of 1974 (FERPA), which regulates a wide range of privacy-related activities including management of student records maintained by the University, regulations regarding who has access to student records, and for what purposes access to student records is granted. The act guarantees students access to their records and allows them to restrict such access to others. Students who would like access to their records must complete a request form available from the Registrar’s Office; similar request forms are available from the Registrar’s Office if a student wishes to withhold information or reverse a previous request to restrict access. For additional information regarding access to student records, please consult Essential Policies for the Columbia Community (http://www.essential-policies.columbia.edu/policy-access-student-records-ferpa).

Questions about the University’s interpretation of the FERPA guidelines should be referred to the University’s General Counsel in 412 Low Library. For more information on FERPA, consult the Department of Education website (http://www.ed.gov).

**Note:** Educational files maintained by the School of General Studies are archived for five years after a student has graduated. Files of students who withdrew or took a leave from GS are accessible for up to ten years from the last semester of attendance. In all cases, individual requests for student files needing to be recalled from archives should be made directly to a student’s advisor. Such files will be ready for review within three weeks of the initial request.
